RECOMMENDATION OF THE BOARD

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE NOMINEES LISTED ABOVE.

PROPOSAL 2 - AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

General

The Board of Directors approved and recommends that the stockholders approve an amendment to the Company's Amended and Restated Certificate of Incorporation to increase the number of authorized shares of common stock from 50,000,000 to 60,000,000 shares. The number of authorized shares of the Company's preferred stock will not be affected by the proposed increase. The amendment will not result in any changes to the issued and outstanding shares of common stock of the Company and will only affect the number of shares that may be issued by the Company in the future.

Reasons for the Proposal

The primary purpose of this amendment to our Certificate of Incorporation is to make available for future issuance by us additional shares of common stock and to have a sufficient number of authorized and unissued shares of common stock to maintain flexibility in our corporate strategy and planning. Such corporate purposes might include acquiring other businesses in exchange for shares of the Company's common stock; facilitating broader ownership of the Company's stock by effecting stock splits or issuing a stock dividend; flexibility for possible future financings; and attracting and retaining valuable employees and directors through the issuance of additional stock options or awards. The Board of Directors believes that these additional shares will provide the Company with needed flexibility to issue shares in the future without potential expense and delay incident to obtaining stockholder approval for a particular issuance in the future. The Company currently has no plans, understandings or agreement for the issuance or use of additional shares of common stock to be authorized under Proposal 2.

As of September 9, 2005, there were 45,919,125 shares of common stock outstanding, 2,280,499 shares reserved for previously granted options, and 600,749 shares reserved for previously issued warrants. Additionally, a total of

700,578 shares have been set aside for future issuance under the Company's equity incentive plans. Therefore, the Company currently has 499,049 authorized, unissued and unreserved shares of common stock available for future issuance. If Proposal 2 is not adopted, the Company will have relatively few additional shares of common stock available for employee retention, financings, acquisition or other corporate purposes.

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

In the past, the Company has utilized authorized but unissued shares for acquiring additional working capital and for incentives for employees, directors and consultants. At the present time there are no specific plans, arrangements or understandings in existence or in process for any public or private financing or issuance of shares in an acquisition. The Company's current shares outstanding and shares reserved for issuance as of September 9, 2005 constitute in the aggregate 99% of its current authorized shares. Therefore, the Board of Directors has determined that it is desirable for the Company to increase the number of shares of authorized common stock in order to meet needs that may arise from time to time in the future.

Amendment

If this proposal 2 is adopted by the stockholders, Article 4 of the Fourth Amended and Restated Certificate of Incorporation will be amended to read as follows:

"The Corporation is authorized to issue two classes of stock, designated Common Stock, \$0.001 par value ("Common Stock") and Preferred Stock, \$0.001 par value ("Preferred Stock"). The total number of shares which the Corporation is authorized to issue is Sixty Two Million (62,000,000). The total number of shares of Common Stock is Sixty Million (60,000,000) and the total number of shares of Preferred Stock is Two Million (2,000,000).

Shares of Preferred Stock may be issued from time to time in one or more series. The Board of Directors shall determine the designation of each series and the authorized number of shares of each series. The Board of Directors is authorized to determine and alter the rights, preferences, privileges and restrictions granted to or imposed upon any wholly unissued series of shares of Preferred Stock and to increase or decrease (but not below the number of shares of such series then outstanding) the number of shares of any such series subsequent to the issue of shares of that series. If the number of shares of any series of Preferred Stock shall be so decreased, the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series. "

A copy of the Fourth Amended and Restated Certificate of Incorporation is attached as Exhibit A.

Delaware Franchise Tax

If Proposal Two is adopted, the Company's authorized capital will increase and the Company will be subject to an increase in the Delaware Franchise Tax. However, the Company believes the increase in the number of authorized shares will not materially increase the Delaware Franchise Tax of the Company.

Potential Anti-Takeover Aspects

Shares of authorized and unissued common stock could be issued in one or more transactions that could make it more difficult, and therefore less likely, for a takeover of the Company. Although the Board of Directors does not have the present intention to use the additional authorized shares as an anti-takeover device, the issuance of additional common stock could have the effect of diluting the stock ownership of persons seeking control of the Company and the

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

possibility of such dilution could have a deterrent effect on persons seeking to acquire control. For example, shares of common stock can be privately placed with purchasers who support a board of directors in opposing a tender offer or other hostile takeover bid, or can be issued to dilute the stock ownership and voting power of a third party seeking a merger or other extraordinary corporate transaction. Accordingly, the power to issue additional shares of common stock could enable the Board of Directors to make it more difficult to replace incumbent directors and to accomplish business combinations opposed by the incumbent Board of Directors.

Principal Effects on Outstanding Common Stock

The proposal to increase the authorized capital stock will affect the rights of existing holders of common stock to the extent that future issuances of common stock will reduce each existing stockholder's proportionate ownership and may dilute earnings per share of the shares outstanding at the time of any such issuance. If approved, the amendment to the certificate of incorporation will be effective upon filing with the Secretary of State for Delaware.

RECOMMENDATION OF THE BOARD

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK UNDER PROPOSAL 2 ON THE PROXY CARD.

Committees of the Board of Directors

Audit Committee

The Audit Committee of the Board of Directors makes recommendations regarding the retention of the independent registered public accounting firm, reviews the scope of the annual audit undertaken by our independent registered public accounting firm and the progress and results of their work, reviews our financial statements, and oversees the internal controls over financial reporting and corporate programs to ensure compliance with applicable laws. The Audit Committee reviews the services performed by the independent registered public accounting firm and determines whether they are compatible with maintaining the registered public accounting firm's independence. The Audit Committee has a Charter, which is reviewed annually and as may be required due to changes in industry accounting practices or the promulgation of new rules or guidance documents. The Audit Committee consists of three independent directors as determined by NASD listing standards: Mr. McEnany (Audit Committee Chairman), Mr. Barry and Dr. Huckel. Mr. McEnany and Mr. Barry are qualified as Audit Committee Financial Experts.

The Audit Committee Charter is attached as Exhibit B.

Nominations to the Board of Directors

Our directors take a critical role in guiding our strategic direction and oversee the management of the Company. Board candidates are considered based upon various criteria, such as their broad-based business and professional skills and experiences, a global business and social perspective, concern for the long-term interests of the shareholders and personal integrity and judgment. Accordingly, we seek to attract and retain highly qualified directors who have sufficient time to attend to their substantial duties and responsibilities to the Company.

The Board of Directors does not have a nominating committee. The Board believes given the diverse skills and experience required to grow the Company that the input of all members is important for considering the qualifications of individuals to serve as directors. The Board recommends a slate of directors for election at the annual meeting. In accordance with Nasdaq rules, the slate of nominees is approved by a majority of the independent directors. Mr. McEnany, Mr. Barry and Dr. Huckel are independent as defined in the NASD listing standards.

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

Compensation Committee Report

The Compensation Committee oversees our compensation plans and policies, reviews and approves all decisions concerning principal executive officers' compensation, which are further approved by the Board, and administers our stock option and equity plans, including reviewing and approving stock option grants and equity awards under the plans. The Compensation Committee's charter reflects these various responsibilities, and the Compensation Committee and the Board periodically review and revise the charter in consultation with outside counsel. The Compensation Committee's membership is determined by the Board and is composed entirely of independent directors. The Compensation Committee meets at scheduled times during the year. The Committee Chairman reports on Compensation Committee actions and recommendations at Board meetings, where such actions are further ratified and approved. In addition, the Committee has the authority to engage the services of outside advisers, experts and others to assist the Committee.

Compensation Philosophy

The Compensation Committee emphasizes the important link between the Company's performance, which ultimately increases stockholder value, and the compensation of its executives. Therefore, the primary goal of the Company's executive compensation policy is to closely align the interests of the stockholders with the interests of the executive officers. In order to achieve this goal, the Company attempts to (i) offer compensation opportunities that attract and retain executives whose abilities and skills are critical to the long-term success of the Company and reward them for their efforts in ensuring the success of the Company, (ii) align the Company's compensation programs with the Company's long-term business strategies and objectives, and (iii) provide variable compensation opportunities that are directly linked to the Company's performance and stockholder value, including an equity stake in the Company. For several years, the Company has used three integrated components - Base Salary, Incentive Compensation and Stock Options - to achieve these goals.

Base Salary

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

The Base Salary component of total compensation is intended to compensate executives competitively within the industry and the marketplace. Base Salaries of the executive officers are established by the Compensation Committee based upon compensation data of comparable companies in the comparable markets, the executive's job responsibilities, level of experience, individual performance

10

and contribution to the business. In the past, in making Base Salary decisions, the Committee exercised its discretion and judgment based upon regional and personal knowledge of industry practice and did not apply any specific formula to determine the weight of any one factor. In 2004, the Compensation Committee retained Pearl Meyer & Partners, and adjusted salaries as of July 1, 2004, based on the report and recommendations prepared by Pearl Meyer & Partners, which were ratified and approved by the Board.

Incentive Bonuses

The Incentive Bonus component of executive compensation is designed to reflect the Compensation Committee's belief that a portion of the compensation of each executive officer should be contingent upon the performance of the Company, as well as the individual contribution of each executive officer. The Incentive Bonus is intended to motivate and reward executive officers by allowing the executive officers to directly benefit from the success of the Company. The Compensation Committee has directed that a formal written incentive plan with specified key milestones critical to the Company's success be developed and implemented, and that the plan be weighted heavily towards achieving profitability before any bonus compensation would be earned. All executive employment contracts provide generally for a discretionary bonus of up to 35% of the executive's base salary, which is to be determined by the Compensation Committee based on individual performance criteria and Company achievement of profitability during the year. After further discussion of the increases in base salary in line with the report and recommendations, and a proposal made by management, any future bonus payouts were limited to a maximum of 25% of salary for the Company's principal executive officers, and may be paid in cash, restricted stock grants, or options, provided that no cash component will be paid to the Company's principal executive officers unless profitability is achieved over and above any proposed cash bonus payments.

Long-term Incentives

The Compensation Committee provides the Company's executive officers with Long-term Incentive compensation in the form of stock option grants under the Company's Amended 1994 Stock Option Plan and the Amended 1998 Equity Incentive Plan. The Compensation Committee believes that stock options provide the Company's executive officers with the opportunity to purchase and maintain an equity interest in the Company and to share in the appreciation of the value of the Company's Common Stock. The Compensation Committee believes that stock options directly motivate an executive to maximize long-term stockholder value. It is the Company's practice to grant options from time to time to executive officers at the fair market value of the Company's common stock on the date of grant. The Committee considers each option subjectively, considering factors such as the individual performance of the executive officer and the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals. The number of stock options granted to other executives in prior years and the total number of options granted under the plans are also taken into consideration.

Independent Analysis of Executive Compensation

In early 2004, the Compensation Committee engaged an outside consultant to

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

provide an independent analysis of the Company's executive compensation program and practices. The analysis was helpful because it provided the Compensation Committee and the Board of Directors with a review of the Company's executive compensation as compared with compensation packages offered by other peer group companies identified by the consultant and included other small to mid-sized publicly traded life sciences companies. The results of this analysis completed by the independent consultant included the following observations about the Company's 2003 executive compensation:

11

- o Base salaries are below the competitive norm.
- o Because of the Company's emphasis on incentive bonuses that are dependent upon profitability, total cash compensation is below market due to the lack of incentive payments during years of net loss.
- o Annual stock option grants have not been awarded to executives on a consistent basis.

Both the Compensation Committee's review and the outside compensation consultant's review of our executive compensation practices suggest that the Company should target base salaries closer to the median of peer group companies and should consider a re-design our annual incentive plan, as well as make new option grants to executives in 2004.

As a result of the report and recommendations, the Compensation Committee approved, and the Board further ratified and approved, effective July 1, 2004, an increase in the Chief Financial Officer's salary to \$175,000 per year, and an increase in the President and Chief Operating Officer's salary to \$230,000 per year, and an increase in the Chief Executive Officer's salary to \$300,000 per year. The bonus and incentive program for the principal executive officers will be weighted 75% to attainment of corporate objectives, including profitability. There have been no changes to executive compensation since the July 2004 adjustment.

The outside compensation consultant also reviewed and reported on the Company's independent director compensation, finding that the Company's total remuneration consisting of meeting fees and annual stock option grants are below the median Board remuneration of peer group companies. After further discussion with the consultants, the Compensation Committee referred the recommendations on independent director compensation to the Board for review and approval.

As a result, the annual grant of options to independent directors was increased to 11,000 options per year, and will be granted on July 1st of each year based on the closing bid price for the Company's common stock on that date each year, or the next trading day following that date if the market is not open on that date. The Company retained its existing board retainer of \$12,000 per year, payable quarterly in advance, and added that Committee Chairs shall be paid an annual retainer of \$2,500, payable on July 1 of each year. The meeting fees remain payable at the rate of \$1,000 per meeting for the Board and \$500 per committee meeting when such meetings occur on the same day as Board meetings, and increased to \$1,000 per committee meeting on dates when such committee meetings are not combined with a board meeting.

In conclusion, the Compensation Committee believes that the Company's current compensation levels are consistent with Company goals.

Respectfully Submitted,

EXHIBIT B

THERMOGENESIS CORP.
Audit Committee Charter
(Amended and Restated January 27, 2003)

Preamble

THERMOGENESIS CORP. ("Company"), as part of its continuous improvement efforts, and consistent with its requirements for continued listing on the Nasdaq SmallCap Market, desires to strengthen its board oversight of accounting and reporting functions through this Charter setting forth the duties and authority of the Company's Audit Committee.

Composition

The Audit Committee shall be comprised of at least three directors who are independent of management and the Company, and each of whom shall have no employment or other relationship with the Company that might interfere with the exercise of their independence from the Company or management, and shall otherwise meet the requirements under Nasdaq and SEC rules. All Audit Committee members will be financially literate, by experience or otherwise, and at least one member will have accounting or related financial management expertise.

Statement of Policy

Annually, the Board of Directors shall appoint at least three outside directors to serve as members of the Audit Committee. The Audit Committee shall assist the Board of Directors in monitoring (a) the effectiveness of the Company's system of internal controls, (b) the integrity of the financial statements, and (c) the compliance by the Company with legal and regulatory requirements. In so doing, the Audit Committee shall maintain free and open communication between the members of the Board of Directors, the independent auditors, and the Company's principal financial and accounting officer.

Duties and Responsibilities

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

In carrying out its responsibilities, the Audit Committee believes its policies and procedures should remain flexible, in order to best react to changing conditions and to ensure to the Board of Directors and stockholders that the corporate accounting and reporting practices are in accordance with all requirements and are of the highest quality.

In carrying out these responsibilities, the Audit Committee will:

- o Obtain the full Board of Directors' approval of this Charter and review and reassess this Charter as conditions dictate, but no less frequently than annually in conjunction with the Company's annual audit.
- o Review and recommend to the Board of Directors the selection of independent auditors to audit the financial statements of the Company.

29

- o Have a clear understanding with the independent auditors that the independent auditors are ultimately accountable to the Board of Directors and the Audit Committee, as the stockholders' representatives, who have the ultimate authority in deciding to engage, evaluate, and if appropriate, terminate those services.
- o Review and concur with management's appointment, termination, or replacement of the Vice President of Finance.
- o Meet with the independent auditors and financial management of the Company to review the scope of the proposed audit and timely quarterly reviews for the current year and the procedures to be utilized, the adequacy of the independent auditor's compensation, and at the conclusion thereof review such audit or review, including any comments or recommendations of the independent auditors, if any.
- o Review with the independent auditors, the Company's principal financial officer, and accounting personnel, the adequacy and effectiveness of the accounting and financial controls of the company, and elicit any recommendations for the improvement of such internal controls.
- o Review reports received from regulators and other legal and regulatory matters that may have a material effect on the financial statements or related company compliance policies.
- o Inquire of management and the independent auditors about significant risks or exposures and assess the steps management has taken to minimize such risks to the Company.
- o Direct the independent auditors to communicate directly to each member of the audit committee with respect to any disagreement with the Company on any financial treatment or accounting practice that is reflected in the quarterly reports on Form 10-Q upon review. For purposes of such communication, contacting the Chairman of the Audit Committee may represent the entire Audit Committee for purposes of the initial communication, and shall take required action to schedule any meetings to discuss the communication, as may be required.
- o Hold meetings with the independent auditors to determine that the independent auditors do not take exception to the disclosure and content of the financial statements, and discuss any other matters required to be communicated to the committee by the independent auditors.
- o Review the financial statements contained in the annual report to

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

shareholders with management and the independent auditors to determine that the independent auditors are satisfied with the disclosure and content of the financial statements to be presented to the shareholders. Review with financial management and the independent auditors the results of their timely analysis of significant financial reporting issues and practices, including changes in, or adoptions of, accounting principles and disclosure practices, and discuss any other matters required to be communicated to the committee by the auditors. Such review shall include the independent auditors judgments about the quality, and not just acceptability, of accounting principles and the clarity of the financial disclosure practices used, and other significant decisions made in preparing the financial statements.

30

- o Provide sufficient opportunity for the Company's principal financial and accounting officer and the independent auditors to meet with the members of the audit committee without members of management present. Among the items to be discussed in these meetings are the independent auditors' evaluation of the company's financial, accounting, and auditing personnel, and the cooperation that the independent auditors received during the course of audits.
- o Review accounting and financial human resources and succession planning, as applicable, within the Company.
- o Report the results of the annual audit to the Board of Directors. If requested by the board, invite the independent auditors to attend the full Board of Directors meeting to assist in reporting the results of the annual audit or to answer other directors' questions (alternatively, the other directors, particularly the other independent directors, may be invited to attend the audit committee meeting during which the results of the annual audit are reviewed).
- o On an annual basis, obtain from the independent auditors a written communication delineating all their relationships and professional services as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees. In addition, review with the independent auditors the nature and scope of any disclosed relationships or professional services and take, or recommend that the Board of Directors take, appropriate action to ensure the continuing independence of the auditors.
- o Submit the minutes of all meetings of the Audit Committee to, or discuss significant matters addressed at Audit Committee meetings with, the Board of Directors.
- o Investigate any matter brought to its attention within the scope of its duties, with the power to retain outside counsel for this purpose if, in its judgment, that is appropriate.
- o Review the Company's disclosure in the proxy statement for its annual meeting of shareholders that describes that the Audit Committee has satisfied its responsibilities under this Charter for the prior year. In addition, include a copy of this Charter in the annual report to shareholders or the proxy statement at least triennially or the year after any significant amendment to the Charter.

31

Edgar Filing: THERMOGENESIS CORP - Form DEF 14A

The Audit Charter, dated July 27, 2001, as confirmed upon full approval by the Board of Directors, is attached hereto for the Corporate records.
