### PROPOSAL

#### AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

##### General Information

The Board of Directors approved and recommends that the stockholders approve an amendment to the Company's Amended and Restated Certificate of Incorporation to increase the number of authorized shares of common stock from 60,000,000 to 80,000,000 shares. The number of authorized shares of the Company's preferred stock will not be affected by the proposed increase. The amendment will not result in any changes to the issued and outstanding shares of common stock of the Company and will only affect the number of shares that may be issued by the Company in the future.

##### Reasons for the Proposal

The primary purpose of this amendment to our Certificate of Incorporation is to make available for future issuance by us additional shares of common stock and to have a sufficient number of authorized and unissued shares of common stock to maintain flexibility in our corporate strategy and planning. Such corporate purposes might include acquiring other businesses in exchange for shares of the Company's common stock; facilitating broader ownership of the Company's stock by effecting stock splits or issuing a stock dividend; flexibility for possible future financings; and attracting and retaining valuable employees and directors through the issuance of additional stock options or awards. The Board of Directors believes that these additional shares will provide the Company with needed flexibility to issue shares in the future without potential expense and delay incident to obtaining stockholder approval for a particular issuance in the future. The Company currently has no plans, understandings or agreement for the issuance or use of additional shares of common stock to be authorized under this Proposal.

As of October 28, 2005, there were 45,929,944 shares of common stock outstanding, 2,354,680 shares reserved for previously granted options, and 600,749 shares reserved for previous issued warrants. Additionally, a total of 615,578 shares have been set aside for future issuance under the Company's equity incentive plans. Therefore, the Company currently has 10,499,049 authorized, unissued and unreserved shares of common stock available for future issuance. If this proposal is not adopted, the Company will have relatively few additional shares of common stock available for employee retention, financings, acquisition or other corporate purposes.

In the past, the Company has utilized authorized but unissued shares for acquiring additional working capital and for incentives for employees, directors and consultants. At the present time there are no specific plans, arrangements or understandings in existence or in process for any public or private financing

## Edgar Filing: THERMOGENESIS CORP - Form PRE 14A

or issuance of shares in an acquisition. The Company's current shares outstanding and shares reserved for issuance as of October 28, 2005, constitute in the aggregate 83% of its current authorized shares. Therefore, the Board of Directors has determined that it is desirable for the Company to increase the number of shares of authorized common stock in order to meet needs that may arise from time to time in the future.

### Amendment

If this proposal is adopted by the stockholders, Article 4 of the Sixth Amended and Restated Certificate of Incorporation will be amended to read as follows:

"The Corporation is authorized to issue two classes of stock, designated Common Stock, \$0.001 par value ("Common Stock") and Preferred Stock, \$0.001 par value ("Preferred Stock"). The total number of shares which the Corporation is authorized to issue is Eighty Two Million (82,000,000). The total number of shares of Common Stock is Eighty Million (80,000,000) and the total number of shares of Preferred Stock is Two Million (2,000,000).

Shares of Preferred Stock may be issued from time to time in one or more series. The Board of Directors shall determine the designation of each series and the authorized number of shares of each series. The Board of Directors is authorized to determine and alter the rights, preferences, privileges and restrictions granted to or imposed upon any wholly unissued series of shares of Preferred Stock and to increase or decrease (but not below the number of shares of such series then outstanding) the number of

2

shares of any such series subsequent to the issue of shares of that series. If the number of shares of any series of Preferred Stock shall be so decreased, the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series."

A copy of the Sixth Amended and Restated Certificate of Incorporation is attached as Exhibit A.

### Delaware Franchise Tax

If the Proposal is adopted, the Company's authorized capital will increase and the Company will be subject to an increase in the Delaware Franchise Tax. However, the Company believes the increase in the number of authorized shares will not materially increase the Delaware Franchise Tax of the Company.

### Potential Anti-Takeover Aspects

Shares of authorized and unissued common stock could be issued in one or more transactions that could make it more difficult, and therefore less likely, for a takeover of the Company. Although the Board of Directors does not have the present intention to use the additional authorized shares as an anti-takeover device, the issuance of additional common stock could have the effect of diluting the stock ownership of persons seeking control of the Company and the possibility of such dilution could have a deterrent effect on persons seeking to acquire control. For example, shares of common stock can be privately placed with purchasers who support a board of directors in opposing a tender offer or other hostile takeover bid, or can be issued to dilute the stock ownership and voting power of a third party seeking a merger or other extraordinary corporate transaction. Accordingly, the power to issue additional shares of common stock

Edgar Filing: THERMOGENESIS CORP - Form PRE 14A

could enable the Board of Directors to make it more difficult to replace incumbent directors and to accomplish business combinations opposed by the incumbent Board of Directors.

Principal Effects on Outstanding Common Stock

The proposal to increase the authorized capital stock will affect the rights of existing holders of common stock to the extent that future issuances of common stock will reduce each existing stockholder's proportionate ownership and may dilute earnings per share of the shares outstanding at the time of any such issuance. If approved, the amendment to the certificate of incorporation will be effective upon filing with the Secretary of State for Delaware.

RECOMMENDATION OF THE BOARD

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK UNDER THIS PROPOSAL ON THE PROXY CARD.

OTHER BUSINESS

We do not know of any business to be presented for action at the meeting other than those items listed in the notice of the meeting and referred to herein. If any other matters properly come before the meeting or any adjournment thereof, it is intended that the proxies will be voted in respect thereof in accordance with their best judgment pursuant to discretionary authority granted in the proxy.

ALL STOCKHOLDERS ARE URGED TO EXECUTE THE ACCOMPANYING PROXY AND TO RETURN IT PROMPTLY IN THE ACCOMPANYING ENVELOPE. STOCKHOLDERS MAY REVOKE ANY PROXY IF SO DESIRED AT ANY TIME BEFORE IT IS VOTED.
