PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
July 10, 2002

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of The Goldfield Corporation (the "Company"), to be voted at the Annual Meeting of Stockholders of the Company to be held on July 10, 2002 at 9:00 a.m. and at any and all adjournments thereof. The meeting will be held for the purposes set forth in the notice and in this proxy statement. This proxy statement and the accompanying annual report are being mailed to stockholders on or about May 31, 2002.

RECORD DATE, STOCKHOLDERS ENTITLED TO VOTE AND REQUIRED VOTE

Only holders of record of outstanding shares of the Company at the close of business on May 27, 2002 will be entitled to vote at the Annual Meeting of Stockholders on July 10, 2002. As of April 30, 2002 the Company had outstanding 27,463,437 shares of common stock, par value \$.10 per share (the "Common Stock"). Each outstanding share of Common Stock is entitled to one vote on each matter to be voted upon at the meeting other than the election of directors.

The election of directors requires a plurality of the votes cast for the election of directors; accordingly, the seven directorships to be filled at the Annual Meeting will be filled by the seven nominees receiving the seven highest number of votes. Approval of the proposal ratifying the selection of KPMG LLP as independent certified public accountants and the shareholder proposal each require the affirmative vote of the majority of the shares present in person or represented by proxy and entitled to vote at the meeting.

SOLICITATION, VOTING AND REVOCATION OF PROXIES

This solicitation is made on behalf of the Board of Directors of the Company. For a description of the expenses incurred by the Company in connection with this solicitation, see "Additional Information" below.

You are requested to sign, date and return the enclosed proxy in the postage-paid envelope provided. If the proxy is signed with a voting direction indicated, the proxy will be voted according to the direction given. If the proxy is signed and no direction is given with respect to a proposal, the proxy will be voted as follows with respect to any such proposal:

1. FOR
the election of the nominees for director named herein;
2. FOR
the ratification of the appointment of KPMG LLP as independent certified public accountants for the year 2002; and
3. AGAINST
the shareholder proposal on performance-based executive compensation.

Abstentions will be counted to determine the presence of a quorum. Abstentions will not affect the outcome of the election of directors and will have the effect of a vote against the ratification of the appointment of KPMG LLP and the shareholder proposal. Shares represented by "broker non-votes" will also be counted for purposes of determining a quorum. Broker non-votes occur when nominees, such as brokers who hold shares on behalf of beneficial owners, do not receive timely voting instructions from beneficial owners. Although brokers may have the authority to vote with respect to certain matters without voting instructions from beneficial owners, this authority would not apply to any proposal which is the subject of a counter-solicitation or is part of a proposal made by a stockholder which is being opposed by management within the meaning of American Stock Exchange Rule 577. Broker non-votes will have no effect on the results of the votes on the election of directors, the ratification of the appointment of KPMG LLP as independent certified public accountants or the shareholder proposal.

2

Revocation of Proxy

You may revoke the proxy at any time prior to its exercise by duly executing and returning a later dated proxy or by filing a written revocation bearing a later date with the Secretary of the Company. The proxy will be revoked if you attend the meeting and vote in person.

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers, and persons who beneficially own more than ten percent of a registered class of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock of the Company. Copies of all such reports filed with the SEC are required to be furnished to the Company. Based solely on the Company's review of the copies of such reports it has received, the Company believes that all of its executive officers, directors and greater than ten percent beneficial owners complied with all filing requirements applicable to them with respect to transactions during the year ended December 31, 2001.

EXECUTIVE COMPENSATION

The following Summary Compensation Table sets forth the cash compensation for the Company's Chief Executive Officer and executive officers, including two executive officers of subsidiaries, whose compensation exceeded \$100,000 during the years ended December 31, 2001, 2000 and 1999. Information concerning the executive officers is set forth in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2001, filed April 29, 2002.

Employee Benefit Agreements

Beginning in 1989, the Company entered into Employee Benefit Agreements (each, a "Benefit Agreement") with Messrs. Sottile, Jones, Freeman and Wherry and certain employees of the Company. Under the terms of each Benefit Agreement, the Company owned life insurance policies that accumulated cash surrender value for the retirement of the employee, at age sixty-five, while also providing a life insurance benefit for the employee. Under the terms of each Benefit Agreement, the Company was entitled to a refund of the lesser of the previously paid premiums or the cash surrender value of the insurance policy, either upon retirement of the employee, the death of the employee or upon the termination of the Benefit Agreement. The Company had the right to terminate the Benefit Agreement without any future obligation by giving written notice to the employee. If the Benefit Agreement was terminated, the Company was entitled to receive the lesser of the cash surrender value of the insurance policy or the total of previously paid premiums. In 2000, the Board of Directors reviewed the Benefit Agreements and related insurance policies and decided it was in the best interest of the Company to terminate the

Benefit Agreements to eliminate the annual insurance premium obligations. During the second quarter of 2000, the Company entered into Cancellation and Release Agreements pursuant to which the Benefit Agreements were terminated. In consideration of terminating the future retirement benefit associated with the Benefit Agreements, the Company decided to compensate the affected employees. The net expense to the Company was \$425,311. Although

the Company does not anticipate making any further cash premium payments, the Company will continue to own the policies and has granted each employee the right to name the beneficiary for the death benefits in excess of premiums previously paid by the Company, less any outstanding loans.

OPTION EXERCISES IN 2001 AND YEAR-END OPTION VALUE

The following table provides information about the stock options exercised by the named executive officers during the year ended December 31, 2001 and held by them as of that date.

(1) The value of the options is based upon the difference between the exercise price and the closing price per share on December 31, 2001, \$0.52.

On November 1, 2001, the Company entered into an amended and restated employment agreement with John H. Sottile. This agreement superseded the prior employment agreement dated January 15, 1985 and the employment agreement made by a subsidiary of the Company as of January 1, 1986, both as subsequently amended. This amended and restated employment agreement provides for continuous employment until January 31, 2005 and shall be extended automatically for three months on the last day of each three-month period following the effective date, November 1, 2001. This contract currently entitles Mr. Sottile to a salary of \$388,510, which salary may be increased; provided, however, that as a minimum, it shall be increased effective January 1 of each year by an amount equal to the percentage increase, if any, over the preceding twelve months in the Consumer Price Index for all urban consumers. If Mr. Sottile's employment is terminated by the Company without cause, or if Mr. Sottile terminates his employment for good reason (as defined by the contract), Mr. Sottile is entitled to receive, in addition to other benefits, an amount equal to lump sum cash amount equal to 2.999 times his average W-2 compensation for the preceding five full calendar years. In the event of his permanent disability, the Company may terminate Mr. Sottile's employment upon at least thirty days advance written notice. He or his estate will then be entitled to receive, in addition to other benefits, an amount equal to lump sum cash amount equal to one times his average W-2 compensation for the preceding five full calendar years.

COMMITTEES AND MEETINGS OF THE BOARD OF DIRECTORS

During 2001, the Board of Directors met six times. The Board of Directors has, among others, the following committees: an Audit Committee, a Compensation Committee, a Nominating Committee and a Stock Option Committee.

The Audit Committee, which monitors the activities of the Company's independent certified public accountants and its accounting department and reports on such activities to the full Board of Directors, consists of Harvey C. Eads,

Dwight W. Severs, Danforth E. Leitner and John P. Fazzini. During 2001, the Audit Committee held four meetings.

The Compensation Committee reviews the compensation of the executive officers of the Company and makes recommendations to the Board of Directors regarding such compensation. The members of the Compensation Committee are Dwight W. Severs, Danforth E. Leitner and John P. Fazzini. The Compensation Committee held one meeting during 2001.

7

The Nominating Committee recommends qualified candidates for election to the Board of Directors of the Company, including the slate of directors, which the Board of Directors proposes for election by stockholders at the Annual Meeting. The Nominating Committee consists of Harvey C. Eads, John P. Fazzini and Danforth E. Leitner. During 2001, the Nominating Committee held one meeting.

The Nominating Committee is not precluded from considering written recommendations for nominees from stockholders. Such recommendations for the 2003 election of directors, together with a description of the proposed nominee's qualifications and other relevant biographical information, should be sent to the Secretary of the Company prior to January 31, 2003.

The Stock Option Committee administers The Goldfield Corporation 1998 Executive Long-term Incentive Plan (the "Plan"). The Stock Option Committee has complete discretion in determining the number of shares subject to options granted to an employee eligible under the Plan and in determining the terms and conditions pertaining to such options, consistent with the provisions of the Plan. The Stock Option Committee consists of Harvey C. Eads, John P. Fazzini and Al Marino. During 2001, the Stock Option Committee held one meeting.

During 2001, no incumbent director attended fewer than 100% of the total number of meetings of the Board of Directors and all committees of the Board that he was eligible to attend.

ITEM 2. RATIFICATION OF APPOINTMENT OF ACCOUNTANTS

The Board of Directors of the Company has appointed the firm of KPMG LLP as its independent certified public accountants for the year ending December 31, 2002, subject to the appointment being ratified by the Company's stockholders. KPMG LLP (including a predecessor firm, W. O. Daley & Company) has been serving the Company and its subsidiaries for the past 39 years.

A representative of KPMG LLP is expected to be present at this year's Annual Meeting of Stockholders, at which time he will be given an opportunity to make a statement and is expected to be available to respond to appropriate questions. The appointment of KPMG LLP was made upon the recommendation of the Audit Committee. If the stockholders do not ratify the selection of KPMG LLP, the selection of independent certified public accountants will be reconsidered by the Board of Directors of the Company.

The Board of Directors unanimously recommends a vote FOR the ratification of the appointment of KPMG LLP as independent certified public accountants of the Company.

ITEM 3. SHAREHOLDER PROPOSAL ON PERFORMANCE-BASED EXECUTIVE COMPENSATION

A shareholder has indicated that a proposal will be presented at the Annual Meeting asking shareholders to approve a resolution recommending (a) that a performance-based executive compensation policy be established that would link a portion of each executive's compensation to the long term success of the Company and (b) that the Company in its annual report to shareholders disclose specific performance criteria and the target levels that must be achieved to satisfy those criteria and explain why the particular criteria were selected. Adoption of the proposal requires the affirmative vote of a majority of the votes cast.

The Board of Directors believes that the executive compensation program currently in place at the Company is effective and properly motivates executives to advance the long-term success of Goldfield. The Compensation Committee is charged with the responsibility of designing and regularly reviewing the total compensation program to ensure that it is effective in attracting, retaining and motivating key employees and that it reinforces business strategies which promote the Compensation Committee's primary objective of enhancing shareholder value. In carrying out its responsibilities, the Compensation Committee consults with outside compensation consultants and considers competitive market data which reflects the markets in which the Company competes for business and people.

The Company uses both its annual bonus program and stock options and other equity awards granted under the 1998 Executive Long-Term Incentive Plan (the "Plan") to provide long-term incentives for executives. The Company principally relies on the bonus program, pursuant to which the Compensation Committee reviews each executive's performance and awards a bonus, if warranted, based upon the executive's performance with respect to certain measures that the Company believes are linked to its long-term success. The Company may also award

stock options under the Plan, which are inherently linked to the long-term success of the Company, because the exercise price of stock options granted under the Plan is equal to the fair market value of the Company's stock on the grant date, as defined in the plan (in general, the closing stock price). In addition, pursuant to the Plan, executives may be granted restricted stock that is not transferable for a period of years after the grant.

The Board believes that the Company's current practice in determining appropriate executive compensation, as administered by the Compensation Committee, is responsive to the proponent's request for an executive compensation policy that focuses executives on the Company's long-term success. Bonuses, which are only granted if executives meet certain performance targets, and stock options, which only have value if the Company's stock price rises, link the executives' interests with the stockholders and encourage behavior that will have a positive impact on the Company's share price. The Company believes that similar bonus programs and stock option plans are used by Goldfield's peer companies and that in order to be competitive, Goldfield, as it deems necessary, must grant bonuses and options to its executives which are comparable to those granted to executives of our peer companies.

Thus, while the Board is of the opinion that the Company has met the first of the proponent's requests, it is opposed to the proposal calling for specification of performance targets. Disclosure of criteria that are quantitative would place the Company at a serious competitive disadvantage. This would require disclosure of financial and operational details that are more specific than what is contained in the public disclosures of the Company and its competitors and that are not required to be disclosed by rules of the Securities and Exchange Commission applicable to the Company.

Periodically, the Compensation Committee conducts a thorough analysis and study of its charter and executive compensation philosophy, strategy, framework and process. Each component of Goldfield's executive compensation program is reviewed and adjustments are made where appropriate. The Board of Directors is satisfied that the existing

executive compensation components and the incentives they create are in our stockholders' long-term interests.

The Board of Directors recommends a vote AGAINST this proposal. Shares represented by properly signed proxies that do not give voting instructions will be voted against this proposal.

The following is the complete text of the proposal as submitted. The proponent's name, address and number of shares held will be furnished upon written or oral request.

BEGINNING OF SHAREHOLDER PROPOSAL

Performance-Based Executive Compensation Proposal

Resolved: The shareholders request that the Board of Directors for Goldfield Corporation establish and announce a performance-based executive compensation policy for the four senior executives that would link a portion of executive compensation to the long-term success of the Company. To demonstrate that such steps have been taken, we request that the Compensation Committee Report included in the company's annual report to shareholders identify specific performance criteria and explain why they have been selected and the specific target level that must be achieved to satisfy that performance criteria.

Reasons: The long-term success of the Company depends on the ability of the board of directors and senior management to establish and implement a strategic plan that ensures the Company's continued growth and profitability. Senior management must be keenly focused on fulfilling these strategic plans. One way to ensure proper focus is through a performance-based executive compensation system that generously rewards superior performance. This system must be transparent and use specific financial performance criteria. Accountability must be the cornerstone of the system. Too often, though, the executive compensation system may reward average or below average performance and does not motivate senior management to excel.

The President and CEO of Goldfield, John Sottile, currently has an employment contract that routinely increases his generous salary by the Consumer Price index, not by performance standards. Rather than motivating him to achieve superior performance, his compensation, including, at times, large stock option grants, creates a significant and unjustifiable transfer of wealth from shareholders to managers. Such a system is not in shareholders' interest.

In 1999, Mr. Sottile's total compensation was \$461,264. In 2000, his total compensation increased 36% to \$630,491. Mr. Sottile's compensation increased despite the fact that the Company's operating profits plummeted

from \$2.0 Million in 1999 to \$0.6 Million in 2000. The Company showed a higher net income number for 2000 primarily due to an insurance windfall of \$2.0 Million triggered by the death of an insured employee.

Companies such as Capital One, Mattel, Union Pacific, RCN Corp. and Level 3 Communications have adopted performance-based plans. According to Level 3's 1999 proxy statement, the company's "outperform stock option" program "aligns directly management's and stockholders' interests by basing stock option value on Level 3's ability to outperform the market."
