Shareholders may vote via the Internet or by telephone up to 11:59 PM Eastern Time the day before the annual meeting. Shareholders that vote via the Internet should understand that there might be costs associated with electronic access that they must bear, such as usage charges from Internet access providers and telephone companies.

SHAREHOLDER PROPOSALS FOR 2010

If a shareholder wishes to present a proposal for consideration for inclusion in the Notice of the Meeting and Proxy Statement for the 2010 Annual Meeting, the proposal must be received at the Corporation's principal executive offices no later than May 19, 2010. Shareholder proposals received later than July 18, 2010 will be considered untimely, and will not be considered at the Corporation's 2010 Annual Meeting.

PERSONS MAKING THE SOLICITATION

The proxy is being solicited by the Corporation's Board of Directors and will be voted in favor of the Directors' recommendations on each and all matters properly brought before the meeting, unless the undersigned shareholder specifically instructs the holder or holders of the proxy to the contrary.

VOTES REQUIRED FOR PROPOSALS AND HOW VOTES WILL BE COUNTED

With respect to the election of directors, votes may be cast in favor or withheld. Votes that are withheld will be excluded entirely from the vote and will have no effect. The affirmative vote of a majority of the votes cast at the annual meeting (assuming a quorum is present) shall be required for the election of directors.

With respect to the ratification of the appointment of independent auditors, votes may be cast "For" or "Against." Broker non-votes, as defined below, will be disregarded. The appointment will be ratified if a majority of the shares present and entitled to vote on the matter are voted "For" ratification. If the appointment of the independent auditors is not ratified, the Audit Committee will reconsider such appointment.

Abstentions may be specified and will have the same effect as a vote "Against" on all proposals submitted to shareholders, other than for the election of directors. Abstentions will be counted for purposes of determining the presence or absence of a quorum for the transaction of business at the meeting.

In certain instances, brokers who hold shares in street name for customers may have authority to vote on certain items when they have not received instructions from the beneficial owners of the shares. With respect to routine matters, including the election of directors nominated by the Board, brokers may vote their shares without specific instructions from the beneficial owners. However, under the rules of the New York Stock Exchange, brokers who hold shares in street name are not permitted to vote on certain non-routine matters, including the adoption or amendment of stock-based compensation plans, without specific instructions from the beneficial owners of the shares. A "broker non-vote" occurs on an item submitted for shareholder approval when the broker does not have the authority to vote on the item in the absence of instructions from the beneficial owner. Such "broker non-votes" will be counted for purposes of determining the presence or absence of a quorum.

Stockholder ratification of the selection of PricewaterhouseCoopers as our independent registered public accounting firm is not required by our bylaws or other applicable legal requirement. However, the Audit Committee is submitting the selection of PricewaterhouseCoopers to the stockholders for ratification as a matter of good corporate governance.

CORPORATE GOVERNANCE

The Company's business is conducted under the direction of the Board of Directors, pursuant to the laws of the State of Wisconsin and our Restated By-laws. Members of the Board of Directors are kept informed of the Company's business through discussions with the Chairman and Chief Executive Officer, and with key members of management, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees.

The Company has reviewed its corporate governance policies and practices, particularly in light of the Sarbanes-Oxley Act of 2002 and rule changes made or proposed by the Securities and Exchange Commission and the NASDAQ Stock Market. We believe that our current policies and practices meet all applicable requirements. Our updated corporate governance policies, including updated charters for committees of the Board, are made available to our shareholders on our website, www.twindisc.com, and/or through appropriate mailings.

Board Independence

The Company requires, as set forth in its Guidelines for Corporate Governance, that a majority of the Board members be independent outside directors. However, the Company is not opposed to having members of the Company's management, including the CEO, serve as directors. "Independent Director," as used here, means a person other than an officer or employee of the Company or its subsidiaries or any other individual having a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. At a minimum, to qualify as "independent," a director must so qualify under governing rules, regulations and standards, including those issued by the SEC and the NASDAQ Stock Market. The Nominating and Governance Committee of the Board shall assess independence on an ongoing basis, and each director is responsible for bringing to the attention of the Nominating and Governance Committee any changes to his or her status that may affect independence. In addition, the directors shall complete, on at least an annual basis, a questionnaire prepared by the Company that is designed to elicit information that relates to the independence assessment. A majority of the Company's current directors are Independent Directors.

The Board has determined that the following directors are independent within the meaning of the SEC regulations, the listing standards of the NASDAQ Stock Market and the Company's Guidelines for Corporate Governance: Messrs. Doar, Mellows, Moore, Rayburn, Stratton and Zimmer.

Guidelines for Business Conduct and Ethics

Our Guidelines for Business Conduct and Ethics (our "Guidelines") summarize the compliance and ethical standards and expectations we have for all our employees, officers and directors with respect to their conduct in furtherance of Company business. It contains procedures for reporting suspected violations of the Guidelines, including procedures for the reporting of questionable accounting or auditing matters, or other concerns regarding accounting, internal accounting controls or auditing matters. These materials are also available in print to any shareholder upon request. If we make any substantive amendment to the Guidelines, we will disclose the nature of such amendment on our website or in a current report on Form 8-K. In addition, if a waiver from the Guidelines is granted to an executive officer or director, we will disclose the nature of such waiver on our website at www.twindisc.com or in a current report on Form 8-K.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Guidelines for Business Conduct and Ethics ("Guidelines") apply to all directors, officers, employees and representatives of the Company. The Guidelines require that all such persons refrain from business activities, including personal investments, which conflict with the proper discharge of their responsibilities to the Company or impair their ability to exercise independent judgment with respect to transactions in which they are involved on behalf of the Company. The Guidelines, which include policies on the review and approval of significant transactions between the Company and its officers or employees, and their relatives or businesses, are available on the Company's website, www.twindisc.com.

At the end of each fiscal year, each director and officer must respond to a questionnaire that requires him or her to identify any transaction or relationship that occurred during the year or any proposed transaction that involves the Company (or any subsidiary or affiliate of the Company) and that individual, his or her immediate family and any entity with which he, she or such immediate family member is associated. All responses to the questionnaires are reviewed by the Company's internal auditor and shared with the CEO, as appropriate. Based upon such review, there were no related party transactions with respect to persons who were directors or officers during fiscal 2009 requiring

disclosure under the rules of the Securities and Exchange Commission.

Finance Committee

The Finance Committee assists the Board in fulfilling its oversight responsibilities for considering management's proposed financial policies and actions, and making appropriate recommendations to the Board regarding: Debt and capital structure, acquisitions, capital budgets, dividend policy and other financial and risk management matters.

Nominating and Governance Committee

The Nominating and Governance Committee recommends nominees for the Board to the Board of Directors. The Committee will consider nominees recommended by shareholders in writing to the Secretary. In addition, the Committee develops and recommends to the Board a set of effective corporate governance policies and procedures applicable to the Company, and reviews proposed changes in corporate structure and governance, committee structure and function, and meeting schedules, making recommendations to the Board as appropriate. The charter of the Nominating and Governance Committee is available on the Company's website, www.twindisc.com. The independence of the Committee is in compliance with SEC regulations, the listing standards of the NASDAQ Stock Market and the Company's Guidelines for Corporate Governance.

Selection of Nominees for the Board

The Nominating and Governance Committee shall identify candidates for director nominees in consultation with the Chairman and Chief Executive Officer, through the use of search firms or other advisers or through such other methods as the Committee deems to be helpful to identify candidates, including the processes identified herein. The Committee will also consider director candidates recommended by stockholders. The procedures for recommendation of nominees by stockholders is available on the Company's web site, www.twindisc.com.

Stockholders, in submitting recommendations to the Committee for director candidates, shall follow the following procedures:

 - i. Name of the stockholder, whether an entity or an individual, making the recommendation;
 - ii. A written statement disclosing such stockholder's beneficial ownership of the Corporation's securities;
 - iii. Name of the individual recommended for consideration as a director nominee;
- iv. A written statement from the stockholder making the recommendation stating why such recommended candidate would be able to fulfill the duties of a director;

U.S. Mail or Expedited Delivery Service:

Twin Disc, Incorporated
1328 Racine Street
Racine, WI 53403
Attn: Nominating and Governance Committee
c/o Secretary of Twin Disc, Incorporated

Once candidates have been identified, the Committee shall confirm that the candidates meet all of the minimum qualifications for director nominees set forth below. The Committee may gather information about the candidates through interviews, background checks, or any other means that the Committee deems to be helpful in the evaluation process. The Committee shall then meet as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board. There shall be no difference in the manner by which the Committee evaluates potential director nominees, whether recommended by the Board or by a stockholder.

The Corporation evaluates each individual candidate in the context of the overall composition and needs of the Board, with the objective of recommending a group that can best manage the business and affairs of the Corporation and represent stockholder interests using its diversity of experience. A director must have substantial or significant business or professional experience or an understanding of technology, finance, marketing, financial reporting, international business or other disciplines relevant to the business of the Corporation. A director must be free from any relationship that, in the opinion of the Board, would interfere with the exercise of his or her judgment as a member of the Board or of a Board committee. This shall not preclude an otherwise qualified employee of the Corporation from serving as a director, as long as the majority of directors satisfy the independence requirements of the regulatory bodies. Each director will be expected to review and agree to adhere to the Corporation's Guidelines for Business Conduct and Ethics, as in effect from time to time. The Committee will consider these and other qualifications, skills and attributes when recommending candidates for the Board's selection as nominees for the Board and as candidates for appointment to the Board's committees.

Role of Consultants - Periodically, the Compensation Committee engages an independent consultant to review its compensation program for the officers of the Company, in order to ensure market competitiveness. During FY 2007, the Compensation Committee engaged Towers Perrin, a global human resources consulting firm, for this review. Towers Perrin provides the Compensation Committee with information regarding market compensation practices and alternatives to consider when making compensation decisions for the executives. Although the Committee has engaged in a bi-annual independent review in the past, the review was cancelled for FY2009 due to deteriorating economic conditions and a resulting decision to reduce officer base salaries, as part of a Company wage reduction program.

Role of Executive Officers - The Compensation Committee makes all compensation decisions for the Chairman and Chief Executive Officer (Mr. M. Batten) and approves recommendations for compensation actions for all other elected officers of the Company. Mr. M. Batten and Mr. J. Batten, the President and Chief Operating Officer, annually review the performance of each elected officer with the Compensation Committee. Recommendations based on these reviews, including those pertaining to salary adjustments, bonus payouts and equity compensation, are presented to the Compensation Committee, which may exercise its discretion in modifying any of the recommendations presented. The Compensation Committee also reviews the performance of the Chairman and Chief Executive Officer. It alone determines the salary adjustment, bonus payment and equity awards for this individual.

Compensation Committee Interlocks and Insider Participation - The members of the Compensation Committee are John A. Mellows (Chair), David B. Rayburn and David R. Zimmer. None of the Compensation Committee members are former executive officers of the Company. See the "Board Independence" section below for additional information concerning director independence. The Company had no "Compensation Committee Interlocks" as described by the SEC during fiscal 2009.

Pension Committee

The Pension Committee reviews and recommends to the Board for approval the pension fund's professional advisors and auditors. The Committee annually reviews actuarial assumptions, actuarial valuations, investment performance, funding policies and investment policies.

Committee Membership

In October of each year, the Board considers and approves committee membership for the coming year. The Board's committees are currently comprised of the following Directors; the Chairman of the Committee is listed first:

Audit	Finance	Pension	Compensation	Nominating And Governance

Doar	Doar	Mellows	Rayburn	Mellows
Moore	Rayburn	Moore	Zimmer	Stratton

Attendance At Annual Meeting

The Company does not have a formal policy that its directors attend the Annual Meeting of Shareholders because it expects them to do so and because the Company's directors historically have attended these meetings. All of the members of the Board of Directors attended last year's annual meeting. The Board of Directors conducts its annual meeting directly before the Annual Meeting of Shareholders at the Company's headquarters.

Stockholder Communication with the Board

The Board provides to every stockholder the ability to communicate with the Board, as a whole, and with individual directors on the Board through an established process for stockholder communication ("Stockholder Communication") as follows:

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Compensation Committee (the “Committee”) of the Board has responsibility for establishing, implementing and monitoring the total compensation of the Company’s executive officers. The Committee approves the design of, assesses the effectiveness of, and administers executive compensation programs in support of compensation policies of the Company. The Committee has adopted a charter that it uses when setting agendas and schedules for their meetings. The charter can be found at <http://ir.twindisc.com/charters.cfm> .

Compensation Philosophy and Objectives

Twin Disc believes that knowledgeable, motivated and dedicated employees can make the difference in our Company’s ability to execute business strategy and excel in the marketplace. The Committee believes it is in the best interest of the Company and its shareholders to fairly compensate our executive team to encourage high-level performance, resulting in increased Company profitability. Executives are compensated on the value of their contribution to the success of the Company, in addition to their assigned scope of responsibilities.

Compensation includes opportunities for shared risks and rewards, and reflects the results of both individual and Company performance. In setting compensation, the Committee tries to ensure that the employees’ pay is fair when compared to others within the Company as well as when compared to employees at similar positions in other companies. Twin Disc will pay for the value of the job to the Company, considering the knowledge, skills and abilities required for each job and will pay market competitive compensation, in order to attract, retain and motivate top talent.

The key elements of our officer’s total compensation package are base salary, an annual incentive program, a long-term incentive program, and other benefits. The Company’s goal is to offer a competitive total compensation package, targeting total compensation at the 50th percentile for the relevant market.

The Company believes that its executive officers should hold a meaningful stake in Twin Disc in order to align their economic interests with that of the shareholder. To that end, the Company has adopted stock ownership guidelines. Stock ownership targets are equal to five times annual salary for the CEO, three times annual salary for the President, two times annual salary for the CFO and Executive Vice President, and one times annual salary for the remainder of the officer team. Officers have a period of four years to attain their targeted ownership level. The Compensation Committee monitors compliance with this guideline, using its discretion to address non-attainment issues. Compliance is reviewed annually.

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1,000,000 for any fiscal year paid to the corporation’s chief executive officer and four other most highly compensated executive officers in service as of the end of any fiscal year. However, Section 162(m) also provides that qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. The Committee generally seeks to structure compensation amounts and plans to meet the deductibility requirements under this provision.

In general, the Committee seeks to structure compensation amounts and arrangements so that they do not result in penalties for the executive officers under the Internal Revenue Code. For example, Section 409A of the Internal Revenue Code imposes substantial penalties and results in the loss of any tax deferral for nonqualified deferred

compensation that does not meet the requirements of that section. The Committee has structured the elements of the Company's compensation program so that they are either not characterized as deferred compensation under Section 409A or meet the distribution, timing and other requirements of Section 409A. Without these steps, certain elements of compensation could result in substantial tax liability for the executive officers. Section 280G of the Internal Revenue Code and related provisions impose substantial excise taxes on so-called "excess parachute payments" payable to certain executive officers upon a change in control and results in the loss of the compensation deduction for such payments for the executive's employer. The Committee has structured the change in control payments under its severance agreements with the executive officers to avoid having benefits exceed the limitations and provisions of Section 280G.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the Chairman and CEO (Mr. M. Batten) and approves recommendations for compensation actions for all other elected officers of the Company.

Mr. M. Batten, the Chairman and CEO, and Mr. J. Batten, the President and COO, annually review the performance of each elected officer with the Committee. In addition, Mr. M. Batten reviews the performance of Mr. J. Batten with the Committee. Recommendations based on these reviews, including those pertaining to salary adjustments, bonus payouts and equity compensation, are presented to the Committee. The Committee may exercise its discretion in modifying any of the recommendations presented.

The Committee reviews the performance of the Chairman and CEO. It alone determines the salary adjustment, bonus payment and equity compensation awards for Mr. M. Batten.

Setting Executive Compensation

Based on the Company's compensation objectives, the Committee has structured the executive officers' total compensation program to motivate executives to achieve the business goals of the Company and to reward them for achieving such goals.

The Committee engages an independent consultant to review its compensation program for the officers of the Company, in order to ensure market competitiveness. This consultant provides the Committee with information regarding market compensation practices and alternatives to consider when making compensation decisions for the executives. This independent review was last performed in FY 2007. Although the Committee has engaged in a bi-annual independent review in the past, the review was cancelled for FY2009 due to deteriorating economic conditions and a resulting decision to reduce officer base salaries, as part of a Company wage reduction program.

The elements of each executive's compensation package include base salary, annual incentive compensation, long-term incentive compensation, benefits and perquisites. Changes to compensation are determined at the beginning of each fiscal year and are dependent upon several factors, including the individual's performance on achieving personal goals in the prior fiscal year, Company performance, and competitive market practices.

The Company looks to establish total compensation levels at the market median (50th percentile) for companies of a similar size and industry. Information on the market median compensation level, including the blend of short-term to long-term types of compensation, is provided to the Committee by an independent consultant. The Committee is aware that the independent consultant provides information from a large database of companies. The Committee does not specify to the independent consultant any particular companies to include in their sampling, nor do they use any information provided by the consultant in a formulaic manner.

Individual variations of compensation from the market median can be due to the experience level of the executive and/or the impact of the executive on the Company's performance. The goal of the Company's compensation program

is to provide competitive compensation that encourages and rewards individual and team performance for producing both short-term and long-term shareholder value.

Base Salary

The Company provides executive officers with a base salary to compensate them for services rendered during the fiscal year. Base salaries also allow executives to be rewarded for individual performance based on the Corporation's evaluation process. Pay for individual performance rewards executives for achieving goals which may not be immediately evident in common financial measurements.

Base salaries are reviewed each year by the Committee. Salary levels are targeted at the market median (i.e. 50th percentile), as determined by using local, national and industry specific survey data and as determined by external consultants. Targeting salaries at the market median for our industry and location ensures employees are paid a competitive base salary. This aids in the attraction and retention of competent executive talent.

Annual salary adjustments, as may be appropriate, are determined each year based on individual and Company performance. The Company uses a performance management system to set individual objectives for each executive. This system allows for the annual evaluation of both performance goal achievement and competency development. When evaluating individual performance, the committee considers the executive's effort in promoting corporate values; achieving both short and longer-term objectives; improving product quality; developing relationships with customers, suppliers, and employees; demonstrating leadership abilities among coworkers; and achievement of other individualized goals set as a part of the performance management system.

Market adjustments to base salary may be indicated when an incumbent is more than 15% below the market median and has been in the job longer than 2-3 years. Market adjustments are generally used to retain valuable employees in a competitive labor market.

The Committee determines and approves salary adjustments for the CEO, and approves salary adjustments for the members of the executive officer team, based on the recommendations from the CEO or COO. Generally, executive salaries are increased at rates comparable to the increases provided at other comparable companies and are at or near market levels.

For FY2009, the Committee approved the following increases for the five Named Executive Officers: Mr. M. Batten, 4%; Mr. Eperjesy, 4%; Mr. Feiertag, 4%; Mr. J. Batten, 17.6%; and Mr. Fabry, 4%. These increases were determined based on the financial performance of the Company and the individual accomplishments of each executive. Mr. J. Batten's increase included a promotional component, due to his promotion to the position of President, Chief Operating Officer.

Effective beginning July 1, 2009 (FY2010), all executive officers received a reduction in their FY2009 base salary levels, as part of a Company cost reduction program. The amounts of the reductions for the five Named Executive Officers are as follows: Mr. M. Batten, 13%; Mr. J. Batten, 7%, Mr. Eperjesy, 6%; Mr. Feiertag, 6%; and Mr. Fabry, 5%.

Annual Incentive Compensation

Executive officers and selected key management participate in an annual incentive plan called the Corporate Incentive Plan ("CIP"). This plan provides executives with annual cash incentives for achieving corporate, business unit and individual performance goals. Specific annual performance goals are based on Economic Profit measures (earnings in excess of the Company's cost of capital) and other Company initiatives that are determined annually.

Edgar Filing: TWIN DISC INC - Form DEF 14A

The Committee reviews the CIP's design annually and approves any CIP design changes or amendments. It also reviews and approves annual goals, and certifies the achievement of performance targets, based on the Company's financial statements.

Keeping with the Company's compensation philosophy, the CIP targets a market median (i.e. 50th percentile) level for annual cash incentives. This practice encourages the philosophy of rewarding excellent achievement with competitive compensation.

Cash incentive payments are made after the end of each fiscal year, dependent upon corporate or subsidiary goal achievement. In no event may the payout be more than 200% of the target.

The Committee reviews the recommendations and approves the target bonus percentages for each officer. The Committee alone determines the bonus percentage amount for the CEO. For FY2009, the targeted bonus percentage of base salary was 70% for the CEO, 50% for the President, CFO and Executive Vice President, and 40% for the other Named Executive Officer. Due to economic conditions, the CIP has been suspended for FY2010.

For FY2009, each Named Executive Officer's award was based on the following:

Objective	Measure	Weight
Economic Profit	Achieving economic profit goals as follows: Target: \$5,000,000 Threshold: \$2,000,000 Maximum: \$8,000,000 (Economic Profit is defined as earnings in excess of the Company's cost of capital)	70%
Cost of Quality	Racine Operations: Cost of Quality less than or equal to a defined % of sales. Target : 3.3% Threshold: 3.67% Maximum: 3.00% Nivelles Operations: Cost of Quality less than or equal to a defined % of sales Target: 4.0% Threshold: 4.23% Maximum: 3.75%	15% (measured by weighting 75% of Racine results plus 25% of Nivelles results)
Sales Growth	Achieving corporate sales revenues of \$362,903,867 at target. Threshold: \$344,758,674 Maximum: \$381,049,061	15%

The following definitions are used in the calculations of the Corporate Incentive Plan:

Economic Profit is defined as the return on investment in excess of the Cost of Capital. It is calculated by taking Net Operating Profit After Tax (“NOPAT”) less a Capital Charge (Invested Capital x Cost of Capital).

Invested Capital is defined as total assets less non-interest bearing liabilities less accrued retirement benefits.

Cost of Capital is defined as the weighted average expectation of Twin Disc’s sources of capital, debt and equity. For FY2009, the cost of capital has been calculated at 9% (after taxes).

Cost of Quality equals the costs of scrap, warranty, inspection, rework and the Quality Department.

An executive’s incentive payment may be increased or decreased by up to 20%, at the discretion of the Committee, based on the recommendations of the CEO, if the executive’s individual performance goals are either exceeded or not achieved. The Committee alone makes decisions regarding the Chairman and CEO’s annual incentive award.

Long-Term Incentive Compensation

The Twin Disc, Incorporated 2004 Long-Term Incentive Compensation Plan (“LTI Plan”) provides for the opportunity for officers and key employees of the Company (and its subsidiaries) to acquire Company stock via stock options, stock appreciation rights, restricted stock, performance stock awards, performance stock unit awards or performance unit awards. In keeping with the Company’s commitment to provide a total compensation package which includes at-risk components of pay, the Committee makes annual decisions regarding the appropriate type of long-term incentives for each executive.

Because of the limited number of outstanding shares and potential for ownership dilution, the long-term incentive program currently emphasizes the use of restricted stock, performance stock awards, performance stock unit awards and performance unit awards, which typically require fewer shares to achieve a competitive, long-term incentive compensation opportunity than would otherwise be required if only stock options were grantable.

Long-term incentive award opportunities for executives are targeted at the market median (i.e. the 50th percentile) to ensure competitive pay for achievement of targeted goals. The Committee establishes the performance goals which must be achieved in order for the award to vest. The goals that the Committee establishes are challenging, but they do not provide the executive an incentive to take unnecessary risk. Grants are made at the beginning of each fiscal year, or as determined by the Committee, for the ensuing multi-year cycle period.

The Committee will use external consultants and survey information as a guideline when considering long-term incentive awards for management. They will review competitiveness of the Plan annually and obtain a periodic independent review. In addition, the Committee reviews and approves Plan changes, as necessary and ensures the Plan’s compliance with shareholder approval requirements.

In FY2009, long-term incentive awards were granted in the form of performance stock, performance stock units and restricted stock. In order for the performance shares and units to vest at target levels, the Company must achieve the following performance target:

The amount of the Company’s economic profit (measured as the difference between the Company’s cumulative net operating profit after taxes and the Company’s cumulative capital charge) for the cumulative three fiscal year period ending June 30, 2011 will equal \$10,000,000.

The Company’s capital charge is calculated by multiplying invested capital times the cost of capital. Invested capital is defined as total assets less non-interest bearing liabilities, less accrued retirement benefits. Cost of capital is defined as the weighted average expectation of Twin Disc’s sources of capital, debt and equity. For FY2009, the cost of capital

has been calculated at 9%, after taxes.

If the Company achieves the target performance objective, the Employee will receive the target number of shares or units. If the Company achieves a threshold performance objective (i.e. Cumulative economic profit = \$8,000,000), the executive will earn 80% of the targeted number of shares. The maximum number of shares or units an executive can earn will be 120% of the target. No shares or units will vest if performance is less than the threshold.

In FY2009, shares of restricted stock were granted to several executives including Mr. J. Batten, Mr. Eperjesy and Mr. Feiertag. These shares will vest July 24, 2011 provided the executive remains employed with the Company until the vesting date.

Benefits

In addition to cash compensation and cash/stock incentive programs, the Company believes it is necessary to also recognize the efforts of its officer group and senior management in the area of benefits and perquisites. The Committee annually reviews the Company's benefit programs for competitiveness and uses external consultants and surveys as a reference when necessary. It approves the addition, modification or deletion of any executive benefit program, as well as the eligibility of a program to any specific executive.

Pension

The Twin Disc, Incorporated Retirement Plan for Salaried Employees provides non-contributory retirement benefits to all Twin Disc, Incorporated salaried employees hired prior to October 1, 2003.

Prior to January 1, 1997 benefits were based upon both years of service and the employees' highest consecutive 5-year average annual compensation during the last 10 calendar years of service. As of December 31, 1996, the then-current accrued benefits under the plan were frozen and the plan was amended to provide for future accruals under a cash-balance program. Mr. M. Batten is the only Named Executive Officer eligible for an accrued benefit under the Plan with 27 years of pre-January 1, 1997 credited service.

The Plan was amended on January 1, 1997 to add a cash balance formula for post January 1, 1997 accruals. Benefits under the Plan are generally equal to the sum of the benefits as frozen on December 31, 1996, plus benefits that accumulate under the cash balance formula beginning on January 1, 1997. Benefits under the cash balance formula are generally stated as a lump sum amount, but may be distributed as a lump sum or as an annuity. Accruals under the cash balance formula are based on a percentage of compensation, from 4.5% to 6.5%, based on years of service, with interest credits at the thirty-year U.S. Treasury Bond rate, or other such rate mandated by the IRS in substitution of the 30-year Treasury rate, with a minimum guarantee of 3%.

This Plan has been subsequently amended to freeze future benefit accruals, effective August 1, 2009. The Company will implement a new defined contribution plan for domestic salaried employees hired prior to October 1, 2003, effective August 1, 2009. The benefit provided by this new plan will approximate the additional benefits that would have been provided under the cash balance portion of the defined benefit plan, but for the freeze in accruals under the plan. Mr. M. Batten, Mr. J. Batten, Mr. Eperjesy and Mr. Feiertag are eligible to participate in this new plan.

401(k) Savings Plan

The Twin Disc, Incorporated – the Accelerator 401(k) Savings Plan is a tax-qualified retirement savings plan to which all Twin Disc, Incorporated employees, including the Named Executive Officers, are able to contribute up to the limit prescribed by the Internal Revenue Service on a pre-tax or after-tax (Roth) basis. The Company will match 50% of the first 6% of pay that is contributed to the Plan. All contributions to the Accelerator 401(k) Savings Plan, as well as

any matching contributions, are fully-vested upon contribution.

Supplemental Executive Retirement Plan

A supplemental retirement plan is extended to qualified officers. For those who were participants in the plan before January 1, 1998 (only Mr. M. Batten), the supplemental retirement benefit is calculated as an annual benefit approximating 50% of highest rate of pay (salary plus bonus) attained during a specified period, minus amounts accrued under the company's qualified defined benefit plan. The plan also preserved the level of benefits that had accrued prior to 1998.

For those who became participants after January 1, 1998 (including Mr. Feiertag, Mr. J. Batten and Mr. Eperjesy) the supplemental retirement benefit is calculated as the additional benefit that the participant would have received at retirement under the Company's qualified defined benefit plan, but for the limitation on compensation used in determining benefits under the defined benefit plan.

The benefit is payable in two lump sum payments, which are paid on the first and second February 1 in the years following retirement. The maximum payment in any given year is \$500,000 and any amounts in excess of \$500,000 will be paid in the third and subsequent years following retirement.

Executive Life Insurance

The Company provides an endorsement split-dollar life insurance to the US-based named executives. While employed, the death benefit for the executive is generally equal to three times their annual base salary, although exceptions may occur due to other compensation arrangements. At the later of retirement or the 15th anniversary of the policy, the Company will recover its share of the total premiums paid throughout the life of the policy from the cash value. At that time, the ownership of the remaining policy and corresponding cash values are transferred to the executive. Information regarding this benefit is detailed in the "All Other Compensation" column of the Summary Compensation Table.

Change in Control Agreements

The Company has change in control agreements with each of its executive officers. The agreements provide for severance benefits to be paid to the executive following a change in control of the Corporation and a termination of employment (as defined in the agreements) of the executive. Severance benefits for Mr. M. Batten consist of the sum of his highest annual base salary between the change in control and the date of termination plus his most recent annual bonus, times a multiple of 2.5. Severance benefits for other Named Executive Officers would consist of the sum of the executive's highest annual base salary between the change in control and the date of termination, plus the executive's most recent annual bonus, times a multiple which is the lesser of 2.0 (1.5 for Mr. Fabry) or the number of whole and fractional years between the termination date and his normal retirement date. In addition, the executive would be entitled to the cash value of any shares of common stock subject to unexercised stock options held by the executive, all performance stock and performance stock unit awards would vest and fringe benefits would continue for 24 months following termination. The agreements are specifically designed to avoid having benefits exceed the limitations and provisions of Section 280G of the Internal Revenue Code.

The performance share and performance stock unit award agreements between the Company and its Named Executive Officers, as well as the restricted stock grant agreements between the Company and Mr. J. Batten, Mr. Eperjesy, and Mr. Feiertag, have certain change in control provisions. Specifically, if a change in control (as defined in the agreements) occurs and the employee thereafter terminates employment under circumstances specified in the agreements, all performance shares and performance stock units shall immediately vest as if the performance objectives had been fully achieved, and all restricted shares shall become freely transferable and non-forfeitable.

Other Personal Benefits and Perquisites

Twin Disc's Named Executive Officers, along with other executive officers and senior management, are occasionally provided a limited number of perquisites whose primary purpose is to minimize distractions from personal issues to focus the executive's attention on important Company initiatives. An item is not a perquisite if it is integrally related to the performance of the executive's duties. Perquisites are included in the Summary Compensation Table and footnoted if their value exceeds \$10,000.

Summary Compensation Table

The following table summarizes the “total compensation” of the Company’s Chief Executive Officer, Chief Financial Officer, and its three most highly compensated executive officers for the fiscal year ended June 30, 2009. It should be noted that the total compensation as reported by the Summary Compensation Table follows specific SEC requirements for reporting compensation, and does not reflect the target or actual compensation for the Named Executive Officers for the fiscal year.

This expense was computed in accordance with Financial Accounting Standards Board Statement No. 123(R), Share-Based Payment (“FAS 123R”). Negative expense amounts for 2009 are due to a reversal of accruals related to the reduced probability of achieving the performance targets in FY2010 and FY2011. The assumptions made in the valuations are discussed in Footnote K to our 2009 financial statements. The following table presents separately the compensation expense recognized in FY2009, 2008 and 2007 for outstanding awards of performance stock, performance stock units and restricted stock for each Named Executive Officer:

H.C. Fabry	AXA – Group Annuity Plan	13	\$218,235	-
------------	--------------------------	----	-----------	---

- (1) Key assumptions in calculating the present value of the qualified retirement plan for Mr. M. Batten assumes a 6.6% discount rate, with his retirement age assumed to be his current age. For Messrs. Eperjesy, Feiertag, and J. Batten, the key assumptions include a 6.6% discount rate and a retirement age of 65. No mortality assumption was used prior to retirement. After retirement, the mortality assumption is the IRS Generational Mortality Table.

The following key assumptions were made in calculating the present value of the Supplemental Executive Retirement Plan. For Mr. M. Batten, the values are calculated as pursuant to the terms of the Plan document. No assumptions as to future events are required. For Messrs. Eperjesy, Feiertag and J. Batten, current account balances are projected to the assumed retirement age of 65, utilizing an 8% discount rate and a 7% accumulation rate. No pre-retirement termination or mortality has been assumed.

- (2) The present value Mr. Fabry's benefit was denominated in Euro and translated to dollars at the average exchange rate for FY2009 of 1.37429. This is a group insurance contract with a guaranteed interest rate of 3.25% per year. No mortality tables are used in respect to his retirement benefits.

Retirement Plan for Salaried Employees

All full-time Twin Disc, Incorporated salaried employees employed before October 1, 2003 are eligible to participate in the Twin Disc, Incorporated Retirement Plan for Salaried Employees. Eligibility for retirement occurs upon reaching one of the following age and service requirements: a) Age 65 with 5 years of service; b) Age 60 with 10 years of service; c) 30 years of service at any age; or d) age plus service equals 85 points. Currently Mr. M. Batten is the only US-based named executive eligible for retirement.

Prior to January 1, 1997 pension plan benefits were based upon both years of service and the employees' highest consecutive 5-year average annual compensation during the last 10 calendar years of service. As of December 31, 1996, the then-current accrued benefits under the plan were frozen and the plan was amended to provide for future accruals under a cash-balance program. Mr. M. Batten is the only Named Executive Officer with a benefit under both the pre-1997 portion of the plan and the cash balance program.

Subsequently, the plan was amended to freeze all future benefit accruals, effective August 1, 2009.

The definition of compensation for purposes of calculating the pension benefit includes W-2 income, excluding any expense reimbursements or taxable fringe benefits, and is limited by the IRS maximum compensation as determined each year. In calendar 2008, that annual amount was \$230,000. In calendar 2009, the annual amount is \$245,000.

Benefits under the frozen plan are payable in a monthly annuity form, with either a single life or joint and survivor life benefit option. Benefits under the cash balance program are payable in a lump sum payment, or single life or joint and survivor annuity benefit options.

Supplemental Executive Retirement Plan

The Supplemental Executive Retirement Plan ("SERP") is available to qualified named US executive officers. For those who became participants after January 1, 1998 (including Mr. Feiertag, Mr. J. Batten and Mr. Eperjesy) the supplemental retirement benefit is calculated as the additional benefit that the participant would have received at retirement under the Company's qualified defined benefit plan, but for the limitation on compensation used in determining benefits under the defined benefit plan.

For those who were participants in the SERP before January 1, 1998 (only Mr. M. Batten), the supplemental retirement benefit is calculated as an annual benefit approximating 50% of highest rate of pay attained during a specified period, minus amounts accrued under the company's qualified defined benefit plan. The SERP also preserved the level of benefits that had accrued prior to 1998.

Any benefits payable under the SERP will automatically be paid in a two-payment deferred lump sum form, under which two equal payments will be made to the participant (or his surviving spouse or named beneficiary if the participant dies prior to all of the payments being made). The first payment will be made on the February 1 following the calendar year of retirement, and the second payment to be made on February 1 of the following year. The two payments shall be the actuarial equivalent of the annual benefit calculated under the single life annuity form.

If each of the two lump sum payments exceed \$500,000, each payment shall be limited to \$500,000 each with additional payments (also limited to \$500,000 each) to be made on each subsequent February 1 until the balance is paid. In the event that the participant is a "key employee" as defined in Section 409A of the Internal Revenue Code, the first payment will not be made sooner than six months after the participant's termination.

Nonqualified Defined Contribution and Other Nonqualified Deferred Compensation Plans

The Company does not maintain any nonqualified defined contribution deferred compensation plans, or any other type of non-actuarial plans that provide for the deferral of compensation on a basis that is not tax-qualified.

Potential Payments Upon Termination or Change in Control

The following information and tables set forth the amount of payments to each Named Executive Officer in the event of a termination of employment as a result of retirement, death, disability, termination for cause, voluntary termination prior to retirement, and involuntary termination (or resignation for good cause) following a change in control.

- Normal or Early Retirement. The normal retirement age for US-based employees, including the Named Executive Officers, is 65. All full-time salaried employees employed before October 1, 2003 participate in the Twin Disc, Incorporated Retirement Plan for Salaried Employees. Eligibility for retirement occurs upon reaching one of the following age and service requirements: a) Age 65 with 5 years of service; b) Age 60 with 10 years of service; c) 30 years of service at any age; or d) age plus service equals 85 points. Currently Mr. M. Batten is the only US-based Named Executive Officer eligible for retirement. Mr. Fabry is also eligible for retirement under the Belgian subsidiary's pension plan.

Medical benefits are only available to Twin Disc retirees hired before October 1, 2003 and who are not yet Medicare-eligible. Eligibility for retiree medical benefits ends upon reaching Medicare eligibility.

Performance stock and performance stock units will be paid after the end of the relevant performance period, but only if the performance objective is achieved. The stock or units are prorated based on actual employment during the three year period between the effective date of the performance agreement and the end of the performance period.

Stock options must be exercised within 30 days of termination or they expire.

A Supplemental Executive Retirement Plan (SERP) is available for US based Named Executive Officers who qualify for a retirement benefit under the Company's pension plans.

- Death while Employed. In the event of death of a Named Executive Officer while actively employed, the executive's estate would receive payment for any base salary earned, but not yet paid. In addition, any vacation accrual not used would also be paid to the estate.

Restricted stock vests and becomes payable per the terms of the individual grant agreement. The estate would receive the payment.

Performance stock and performance stock units will be paid after the end of the relevant performance period, but only if the performance objective is achieved. The stock or units are prorated based on actual employment during the three year period between the effective date of the performance agreement and the end of the performance period.

Options will fully vest and may pass to the estate, or as directed by a will, and must be exercised within one year from date of death.

- **Disability.** In the event of a disability, the Named Executive Officers would receive benefits under the Company's short-term and long-term disability plans, generally available to full-time salaried employees. Benefits are reduced for any social security or pension eligibility.

Restricted stock vests and becomes payable per the terms of the individual grant agreement.

Performance stock and performance stock units will be paid after the end of the relevant performance period, but only if the performance objective is achieved. The stock or units are prorated based on actual employment during the three year period between the effective date of the performance agreement and the end of the performance period.

- **Termination for Cause.** An executive is not eligible for any additional benefits at termination, unless the Compensation Committee would determine that severance payments are appropriate.
- **Voluntary Termination Prior to Retirement.** An executive is not entitled to any additional forms of severance payments in the event of a voluntary termination, prior to becoming eligible for retirement.
- **Involuntary Termination (or Resignation for Good Cause) Following Change in Control.** In July 2007, the Company entered into Change in Control Severance Agreements with each of our Named Executive Officers. The agreements provide that, following a change in control of the corporation (as defined in the agreement) if employment of the executive officer is terminated by the Company for any reason other than "Good Cause," or terminated by the executive for "Good Reason" within 24 months after the change in control occurs, certain benefits would become payable. These include:
 - o severance as a multiple of base salary,
 - o twenty-four months of benefit continuation,
 - o current value of all outstanding stock options,
 - o restricted stock, and
- o performance stock and performance units immediately vest, and stock or cash is paid under the agreements as if the maximum performance objective was achieved.

In addition, if an event constituting a change in control of the Company occurs and the Employee thereafter terminates employment for any reason, then the performance stock units granted shall immediately vest and a cash payment shall be made as if the maximum performance objective had been fully achieved, regardless of whether termination of employment is by the employee, the Company or otherwise. Such cash payment shall be equal to the number of performance stock units granted to the employee multiplied by the fair market value of the Company's common stock as of the effective date of such change in control.

The following tables show the amounts payable under different termination scenarios for each Named Executive Officer as if such scenario occurred on June 30, 2009, the last day of the Company's most recent fiscal year:

Michael E. Batten

Termination Event	Base Salary (\$)	Bonus (\$)	(1) Non-Equity Incentive Plan (\$)	Value of Accelerated Restricted Stock, Performance Stock, Performance Stock Units, and Stock Options (\$)	Other Benefits (\$)	Total (\$)

- (1) Performance targets were not met under the Corporate Incentive Plan in FY2009; thus Mr. Batten would not be eligible for a bonus payment for FY2009.
- (2) The value was calculated by adding 100% of the performance awards payable for the performance period ending on June 30, 2009 (48,600) plus 2/3rds of the performance awards payable for the performance period ending June 30, 2010 (20,209) plus 1/3rd of the awards payable for the performance period ending June 30, 2011 (19,333), assuming achievement of maximum performance levels in FY2009 and achievement of target performance levels in FY2010 and FY2011. The total was multiplied by \$6.81, the closing price of Twin Disc shares on June 30, 2009.
- (3) This amount consists of the present value of Mr. Batten's Supplemental Executive Retirement Benefit Plan benefits. Mr. Batten is currently retirement eligible.
- (4) This amount is the value of six months of benefits under the Company's short-term disability program for salaried employees (\$273,000) plus the present value of Mr. Batten's Supplemental Executive Retirement Plan benefits (\$3,055,146), as he is currently retirement-eligible.
- (5) Employees terminated for cause are not entitled to receive performance awards. This assumes Mr. Batten's employment was terminated for cause on June 30, 2009.

- (6) Mr. Batten is retirement eligible, so all benefits are payable under the retirement section.
- (7) Upon termination in the event of a change in control, performance stock and performance units immediately vest, and stock or cash is paid under the agreements as if the maximum performance objective was achieved. In addition, restricted stock becomes fully transferable. The value of unexercised options is payable in cash. This amount represents the total of 154,577 outstanding performance stock and performance stock unit awards valued at \$6.81, the closing price of Twin Disc shares on June 30, 2009. In addition, this figure includes 72,000 outstanding options, measured as if they were valued at the difference of \$6.81 and their exercise price.
- (8) Under the change in control severance agreement, Mr. Batten is entitled to 2.5 times his base salary plus his most recent bonus as a severance payment (\$2,899,313), benefit continuation for 24 months (\$29,014), and his benefits under his Supplemental Executive Retirement Plan, (\$3,055,146) as he is retirement eligible. As there was no bonus earned in FY2009, the figure is based on the bonus awarded in FY08, the most recently awarded annual bonus, as per the terms of the Change in Control Severance Agreement.

- (1) Performance targets were not met under the Corporate Incentive Plan in FY2009; thus Mr. Eperjesy would not be eligible for a bonus payment for FY2009.
- (2) This amount was calculated by adding 100% of the performance stock and performance stock unit awards payable for the performance period ending June 30, 2009 (22,500) plus 2/3rds of the awards payable for the performance period ending June 30, 2010 (7,500) plus 1/3rd of the awards payable for the performance period ending June 30, 2011 (5,333), assuming achievement of maximum performance levels in FY2009 and achievement of target performance levels in FY2010 and FY2011. In addition, Mr. Eperjesy has 2,500 shares of restricted stock that vest on July 24, 2011 if he remains employed with the Company through that date. The total number of shares was multiplied by \$6.81, the closing price of Twin Disc shares on June 30, 2009.
- (3) This amount is the value of six months of benefits under the Company's short-term disability program for Salaried employees. Any benefits payable after six months are provided by a fully-insured disability carrier.
- (4) Employees terminated for cause are not eligible for performance awards. This assumes Mr. Eperjesy was involuntarily terminated for cause on June 30, 2009.
- (5) This amount reflects performance stock and performance unit awards payable for the performance period ending June 30, 2009, valued at \$6.81 per share or unit, the closing price of Twin Disc shares on June 30, 2009. This assumes Mr. Eperjesy was employed through June 30, 2009.
- (6)

Upon termination in the event of a change in control, performance stock and performance units immediately vest, and stock or cash is paid under the agreements as if the maximum performance objective was achieved. In addition, restricted stock becomes fully transferable. This amount represents the total of outstanding shares and units, which consists of restricted shares (2,500) and performance stock and performance stock unit awards (55,200) valued at \$6.81, the closing price of Twin Disc shares on June 30, 2009.

In addition, outside Directors receive a \$1,500 fee for each board meeting and each committee meeting attended and \$5,000 per year for serving as a committee chairman. Directors who are officers do not receive any fees in addition to their remuneration as officers. There has been no increase in Director retainers or Committee fees since November of 2006.

Outside Directors are eligible to participate in the 2004 Stock Incentive Plan for Non-Employee Directors. Under the 2004 Plan, each outside Director who is elected or re-elected to the Board at an annual meeting, and each outside Director who continues to serve on the Board following an annual meeting, receives a grant of 1,200 options and 1,200 shares of restricted stock as of the annual meeting date. Outside Directors who reach the age of 71 or who retire from full-time employment may be required to retire from the Board of Directors effective as of the completion of their current term. Retired outside directors are entitled to an annual retirement benefit equal to the sum of:

The Committee also discussed with PricewaterhouseCoopers LLP matters relating to its independence.

On the basis of these reviews and discussions, the Committee recommended to the Board of Directors that the Board approve the inclusion of the Corporation's audited financial statements in the Company's annual report on Form 10-K for the fiscal year ended June 30, 2009, for filing with the Securities and Exchange Commission.
