PART I

Item 1. Description of Business.

Business Development.

Corporate Developments.

New Environmental Technologies Corporation (the "Company") was organized under the laws of the State of Nevada on January 7, 1982, under the name "All Things, Inc." The Company was formed for the purpose of engaging in all lawful businesses. The Company's initial authorized capital consisted of 100,000,000 shares of \$0.0001 par value common voting stock.

On March 21, 1985, the Company's name was changed to "New Environmental Technologies Corporation."

Effective November 11, 1995, and in accordance with the Nevada Revised Statutes, the Board of Directors of the Company, with the written consent of President and Director, unanimously resolved to reverse split the outstanding shares of its common stock on a basis of 250 for one while retaining its authorized capital, with appropriate adjustments in the stated capital and capital surplus accounts of the Company. All computations hereinafter take into account this reverse split.

Copies of the initial Articles of Incorporation of the Company and the foregoing Certificates of Amendment to the Articles of Incorporation are attached hereto and incorporated herein by reference. See Part III, Item 13.

Public Offering.

The Company conducted a public offering of shares of its common stock pursuant to an S-18 Registration Statement which was filed with the Securities and Exchange Commission on or about March 2, 1982. By this reference, the Company's Registration Statement on Form S-18 is incorporated herein. See Part III, Item 13.

to the knowledge of management, no proceedings are presently contemplated against the Company by any federal, state or local governmental agency.

Further, to the knowledge of management, no director or executive officer is party to any action in which any has an interest adverse to the Company.

Item 4. Submission of Matters to a Vote of Security Holders.

No matter was submitted to a vote of the Company's security holders during the fourth quarter of the period covered by this report or during the previous two calendar years.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

Market Information.

There has never been any "established trading market" for shares of common stock of the Company. The Company intends to submit for listing on the OTC Bulletin Board of the National Association of Securities Dealers, Inc. ("NASD"); however, management does not expect any established trading market to develop unless and until it has operations. In any event, no assurance can be given that any market for the Company's common stock will develop or be maintained. If a public market ever develops in the future, the sale of "unregistered" and "restricted" shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission by members of management or others may have a substantial adverse impact on any such market; and all of these persons have satisfied the "holding period" under Rule 144. See the heading "Sales of Unregistered Securities During the Past Five Years," of Part I, Item 1.

Holders.

The number of record holders of the Company's common stock as of the calendar year ended December 31, 2000 was approximately 859; these numbers do not include an indeterminate number of stockholders whose shares are held by brokers in street name. As of February 26, 2001 there were approximately 859 stockholders.

Dividends.

There are no present material restrictions that limit the ability of the Company to pay dividends on common stock or that are likely to do so in the future. The Company has not paid any dividends with respect to its common stock, and does not intend to pay dividends in the foreseeable future.

Item 6. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations during the year end December 31, 2000 or since 1989.

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

The Company's plan of operation for the next 12 months is to:(i) consider guidelines of industries in which the Company may have an interest; (ii) adopt a business plan regarding engaging in business in any selected industry; and (iii) to commence such operations through funding and/or the acquisition of a "going concern" engaged in any industry selected.

The Company's only foreseeable cash requirements during the next 12 months will relate to maintaining the Company in good standing in the State of Nevada. Management does not anticipate that the Company will have to raise additional funds during the next 12 months.

Results of Operations.

The Company discontinued its active operations in 1989. It received no revenues and had losses in the following calendar years ended December 31, 2000 and 1999 of (\$9,011) and (\$6,307), respectively.

Liquidity.

At December 31, 2000, the Company had \$10 in cash. Expenses have been paid by an \$13,453 loan by a principal stockholder, David C. Merrell, the Company's President.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
New Environmental Technologies Corporation
(A Development Stage Company)
Salt Lake City, Utah

We have audited the accompanying balance sheet of New Environmental Technologies Corporation (a development stage company) as of December 31, 2000 and the related statements of operations, stockholders' equity (deficit) and cash flows for the years ended December 31, 2000 and 1999 and from inception on January 7, 1982 through December 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Environmental Technologies Corporation (a development stage company) as of December 31, 2000 and the results of its operations and its cash flows for the years ended December 31, 2000 and 1999 and from inception on January 7, 1982 through December 31, 2000 in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 4 to the financial statements, the Company is a development stage company with no significant operating revenues to date which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 4. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 1 - ORGANIZATION

The financial statements presented are those of New Environmental Technologies Corporation (the Company). The Company was incorporated as All Things, Inc. under the laws of the State of Nevada on January 7, 1982. On March 21, 1985, the Company changed its name to New Environmental Technologies Corporation. The Company was organized for the purpose of engaging in any activity or business not in conflict with the laws of the State of Nevada or of the United States of America, and without limiting the generality of the foregoing, specifically:

- a. To have and to exercise all the powers now or hereafter conferred by the laws of the State of Nevada upon corporations organized pursuant to the laws under which the corporation is organized and any and all acts amendatory thereof and supplemental thereto.
- b. To discount and negotiate promissory notes, drafts, bills of exchange and other evidence of debts, and to collect for others money due them on notes, checks, drafts, bills of exchange, commercial paper and other evidence of indebtedness.
- c. To purchase or otherwise acquire, own, hold, lease, sell, exchange, assign, transfer, mortgage, pledge, or otherwise dispose of, to guaranty, to invest, trade and deal in and with personal property of every class and description.
- d. To enter into any kind of contract agreement or profit sharing plan with its officers or employees that the Company may deem advantageous or expedient or otherwise to reward or pay such persons for their services as the directors may deem fit.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

b. Basic Loss Per Share (Continued)

The computation of basic loss per share of common stock is based on the weighted average number of shares outstanding during the period of the financial statements.

c. Provision for Taxes

At December 31, 2000, the Company has net operating loss carryforwards of approximately \$79,000 that may be offset against future taxable income through 2020. No tax benefit has been reported in the financial statements, because the Company is uncertain if the net operating loss tax benefit will expire unused. Accordingly, the potential tax benefits are offset by a valuation account of the same amount.

The income tax benefit differs from the amount computed at federal statutory rates of approximately 38% as follows:

	For the Years Ended December 31,	
	2000	1999
Income tax benefit at statutory rate	\$ 3,424	\$ 2,397
Change in valuation allowance	(3,424)	(2,397)
	\$ -	\$ -

Deferred tax assets (liabilities) are comprised of the following:

	For the Years Ended December 31,	
	2000	1999
Income tax benefit at statutory rate	\$ 30,000	\$ 68,600
Change in valuation allowance	(30,000)	(68,600)
	\$ -	\$ -

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carryforwards for Federal income tax reporting purposes are subject to annual limitations. Should a

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

change in ownership occur, net operating loss carryforwards may be limited as to use in future years.

d. Related Party Transactions

A related party has loaned the Company \$13,453 for operating working capital. This amount is non-interest bearing and due on demand.

(A Development Stage Company)
Notes to the Financial Statements
December 31, 2000

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 - STOCK SPLITS

On August 10, 1984, the Company authorized a 1-for-10 stock split of common stock.

On July 16, 1984, the Company authorized a 1-for-10 stock split of legend stock.

On September 21, 1984, the Company authorized a 1-for-60 stock split of legend stock.

On January 11, 1985, the Company authorized a 1-for-60 stock split of legend stock.

On January 22, 1985, the Company authorized a 60-for-1 stock split of legend stock.

On August 27, 1985, the Company authorized a 1-for-250 stock split of all stock.

The financial statements reflect these stock splits on a retroactive basis.

NOTE 4 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company does not have significant cash or other material assets, nor does it have an established source of operating revenues sufficient to cover its operating costs and to allow it to continue as a going concern. It is the intent of the Company to seek a merger with an existing, operating company. In the interim, shareholders of the Company have committed to meeting its minimal operating expenses.

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10KSB

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

No independent accountant of the Company has resigned, declined to stand for re-election or was dismissed during the Company's two most recent fiscal years or any interim period. Due to the Company's lack of significant business operations since approximately 1989, present management deemed it to be in the best interests of the Company to appoint a new independent accountant to audit its financial statements. Accordingly, the Board of Directors unanimously resolved to retain the services of Jones, Jensen & Company, Certified Public Accountants.

PART III

Item 9. Directors, Executive Officers, Promoters and Control Persons; Compliance with Section 16(a) of the Exchange Act.

Identification of Directors and Executive Officers.

The following table sets forth the names and the nature of all positions and offices held by all directors and executive officers of the Company for the calendar years ending December 31, 2000 and 1999, and to the date hereof, and the period or periods during which each such director or executive officer served in his or her respective positions.
