Item 1.01 Entry into a Material Definitive Agreement

New Visual Corporation (the "Company") and Adaptive Networks, Inc. ("ANI") have, as of November 26, 2004, amended and restated their Development and License Agreement, dated as of April 17, 2002 (as so amended and restated the "Amended Agreement"). Under the Amended Agreement, the Company has accepted from ANI final delivery of the source code, the intellectual property rights related thereto and other materials related to certain technologies that were to be developed by ANI. Under the original Development and License Agreement entered into by the Company and ANI as of April 17, 2002, the Company acquired a worldwide, perpetual license to ANI's Powerstream technology, which provides the core technology for the Company's semiconductor technologies. The Company contemplates that HelloSoft, Inc. ("HelloSoft"), an independent software developer based in California, will provide certain development work necessary to the completion of the semiconductor chipset. The Company and HelloSoft are parties to a Services Agreement, dated as of March 31, 2004, under which HelloSoft provides continuing development services relating to the Company's semiconductor chipset. The Company disclosed in a current report on Form 8-K that was filed on October 15, 2004 the details of its agreement with HelloSoft. Under the Amended Agreement, the Company and ANI's joint ownership rights will continue with respect to any improvements, developments, discoveries or other inventions that are developed under the agreement with HelloSoft.

In addition, under the Amended Agreement, ANI has agreed that the first \$5 million of royalties payable by the Company to ANI thereunder from proceeds of the sale or license of the semiconductor technologies are to be offset by a credit in the same amount.

Other than as described above, there is no material relationship between the Company and ANI or HelloSoft and any of their respective affiliates, officers or directors.
