NEW VISUAL CORPORATION AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1- PRINCIPLES OF CONSOLIDATION AND BUSINESS AND CONTINUED OPERATIONS

The condensed consolidated financial statements include the accounts of New Visual Corporation ("New Visual" or the "Company") and its wholly owned operating subsidiaries, NV Entertainment, Inc. ("NV Entertainment") (including its 50% owned subsidiary Top Secret Productions, LLC), and NV Technology, Inc. (formerly New Wheel Technology, Inc.) ("New Wheel" collectively, the "Company"). All significant intercompany balances and transactions have been eliminated. The Company consolidates its 50% owned subsidiary Top Secret Productions, LLC due to the Company's control of management, board of directors and financial matters of such entity.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). In the opinion of management, the accompanying unaudited financial statements contain all adjustments, consisting only of those of a normal recurring nature, necessary for a fair presentation of the Company's financial position, results of operations and cash flows at the dates and for the periods indicated. These financial statements should be read in conjunction with the financial statements and notes related thereto, included in the Annual Report on Form 10-KSB for year ended October 31, 2004.

These results for the three months and six months ended April 30, 2005 are not necessarily indicative of the results to be expected for the full fiscal year. The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Visual Corporation was incorporated under the laws of the State of Utah on December 5, 1985. In November of 1999, the Company began to focus its business activities on the development of new Semiconductor Technologies. Pursuant to such plan, in February of 2000, the Company acquired New Wheel. The Company's technology business has generated no revenues to date.

The Company operates in two business segments, the production of motion pictures, films and videos (Entertainment Segment) and development of new semiconductor technologies (Semiconductor Segment). The Company's Entertainment Segment is dependent on future revenues from the Company's film Step Into Liquid. The Semiconductor Segment is dependent on the Company's ability to successfully commercialize its developed technology.

Through its subsidiary NV Entertainment the Company has operating revenues for its Entertainment Segment, but may continue to report operating losses for this segment. The Semiconductor Segment will have no operating revenues until successful commercialization of its developed technology, but will continue to incur substantial operating expenses, capitalized costs and operating losses.

GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern. For the three months and six months ended April 30, 2005, the Company incurred net losses of

Edgar Filing: NEW VISUAL CORP - Form 10QSB

approximately \$1,257,000 and \$2,163,000, respectively, and as of April 30, 2005 had a working capital deficiency of approximately \$5.1 million. In addition, management believes that the Company will continue to incur net losses and cash flow deficiencies from operating activities through at least October 31, 2005. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue operating as a going concern is substantially dependent on its ability to generate operating cash flow through the execution of its business plan or secure funding sufficient to provide for the working capital needs of its business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence. There can be no assurance that management will be successful in implementing its business plan or that the successful implementation of such business plan will actually improve the Company's operating results.

During the six months ended April 30, 2005, the Company raised approximately \$1,067,000 in net proceeds from the sale of its debt and equity securities. More recently, in May 2005, the Company raised net proceeds of approximately \$3.11 million through the private placement to individual and institutional investors of \$3.5 million of the Company's secured convertible debentures. Please see Note 13 for the details of this transaction. The Company's other financing transactions in April and May 2005 are discussed in further detail in Note 8 and Note 13.

NEW VISUAL CORPORATION AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FILM IN DISTRIBUTION

Statement of Position 00-2, "Accounting by Producers or Distributors of Films" ("SOP-00-2") requires that film costs be capitalized and reported as a separate asset on the balance sheet. Film costs include all direct negative costs incurred in the production of a film, as well as allocations of production overhead and capitalized interest. Direct negative costs include cost of scenario, story, compensation of cast, directors, producers, writers, extras and staff, cost of set construction, wardrobe, accessories, sound synchronization, rental of facilities on location and post production costs. SOP-00-2 also requires that film costs be amortized and participation costs accrued, using the individual-film-forecast-method-computation method, which amortizes or accrues such costs in the same ratio that the current period actual revenue (numerator) bears to the estimated remaining unrecognized ultimate revenue as of the beginning of the fiscal year (denominator). The Company makes certain estimates and judgments of its future gross revenue to be received for each film based on information received by its distributors, historical results and management's knowledge of the industry. Revenue and cost forecasts are continually reviewed by management and revised when warranted by changing conditions. A change to the estimate of gross revenues for an individual film may result in an increase or decrease to the percentage of amortization of capitalized film costs relative to a previous period.

Edgar Filing: NEW VISUAL CORP - Form 10QSB

In addition, SOP-00-2 also requires that if an event or change in circumstances indicates that an entity should assess whether the fair value of a film is less than its unamortized film costs, then an entity should determine the fair value of the film and write-off to the statement of operations the amount by which the unamortized capital costs exceeds the film's fair value. During January of 2005, the Company performed its review, and it was determined that the unamortized film costs exceeded the Film's fair value. The Company determined that its previous estimation of the expenses incurred by the Film's distributor was too low and the estimation of future revenue was too high. As a result of this review, the Company wrote-down the carrying value attributed to its Film In Distribution to \$1,021,722 at October 31, 2004. This resulted in an impairment of \$977,799 which is included in consolidated statement of operations for the year ended October 31, 2004.

The Company commences amortization of capitalized Film costs and accrued (expensed) participation costs when its film was released and it began to recognize revenue from the film.

REVENUE RECOGNITION

The Company recognizes film revenue from the distribution of its feature film and related products when earned and reasonably estimable in accordance with SOP 00-2 -- "Accounting by Producers or Distributors of Films." The following conditions must be met in order to recognize revenue in accordance with SOP 00-2:

- o persuasive evidence of a sale or licensing arrangement with a customer exists;
- o the film is complete and, in accordance with the terms of the arrangement, has been delivered or is available for immediate and unconditional delivery;
- o the license period of the arrangement has begun and the customer can begin its exploitation, exhibition or sale;
- o the arrangement fee is fixed or determinable; and
- o collection of the arrangement fee is reasonably assured.

Under a rights Agreement with Lions Gate Entertainment ("LGE") the domestic distributor for its Film entitled Step Into Liquid, the Company shares with LGE in the profits of the Film after LGE recovers its marketing, distribution and other predefined costs and fees. The agreement provides for the payment of minimum guaranteed license fees, usually payable on delivery of the respective completed film, that are subject to further increase based on the actual distribution results in the respective territory.

RESEARCH AND DEVELOPMENT

Research and development costs are charged to expense as incurred. Amounts allocated to acquired-in-process research and development costs, from business combinations, are charged to earnings at the consummation of the acquisition.

Edgar Filing: NEW VISUAL CORP - Form 10QSB

CAPITALIZED SOFTWARE DEVELOPMENT COSTS

Capitalization of computer software development costs begins upon the establishment of technological feasibility. Technological feasibility for the Company's computer software is generally based upon achievement of a detail program design free of high-risk development issues and the completion of research and development on the product hardware in which it is to be used. The establishment of technological feasibility and the ongoing assessment of recoverability of capitalized computer software development costs require considerable judgment by management with respect to certain external factors, including, but not limited to, technological feasibility, anticipated future gross revenue, estimated economic life and changes in software and hardware technology.

Amortization of capitalized computer software development costs commences when the related products become available for general release to customers. Amortization is provided on a product-by-product basis. The annual amortization is the greater of the amount computed using (a) the ratio that current gross revenue for a product bears to the total of current and anticipated future gross revenue for that product, or (b) the straight-line method over the remaining estimated economic life of the product.

The Company periodically performs reviews of the recoverability of such capitalized software costs. At the time a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, the capitalized costs of each software product is then valued at the lower of its remaining unamortized costs or net realizable value.

No assurance can be given that such technology will receive market acceptance. Accordingly it is possible that the carrying amount of the technology license may be reduced materially in the near future.

The Company has no amortization expense for the three months and six months ended April 30, 2005 and 2004 for its capitalized software development costs.

SERIES B REDEEMABLE PREFERRED STOCK

Series B Redeemable Preferred Stock, which includes characteristics of both liabilities and equity, is classified as a long-term liability in accordance with the provisions of SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." In April 2005, the Series B Redeemable Preferred Stock was exchanged for common stock and a promissory note. See NOTE 5 for further discussion.

LOSS PER COMMON SHARE

Basic loss per common share is computed based on weighted average shares outstanding and excludes any potential dilution. Diluted loss per share reflects the potential dilution from the exercise or conversion of all dilutive securities into common stock based on the average market price of common shares outstanding during the period. For the three months and six months ended April 30, 2005 and 2004, no effect has been given to outstanding options, warrants or convertible debentures in the diluted computation, as their effect would be anti-dilutive.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

STOCK-BASED COMPENSATION

The Company follows SFAS No. 123, "Accounting for Stock-Based Compensation." SFAS No. 123 establishes accounting and reporting standards for stock-based employee compensation plans. This statement allows companies to choose between the fair value-based method of accounting as defined in this statement and the intrinsic value-based method of accounting as prescribed by Accounting Principles Board Opinion No. 25 ("APB 25"), "Accounting for Stock Issued to Employees."

The Company has elected to continue to follow the accounting guidance provided by APB 25, as permitted for stock-based compensation relative to the Company's employees. Stock and options granted to other parties in connection with providing goods and services to the Company are accounted for under the fair value method as prescribed by SFAS 123.

In December 2002, the Financial Accounting Standard Board ("FASB") issued SFAS No. 148, "Accounting for Stock-Based Compensation -Transition and Disclosure - an Amendment of FASB Statement No. 123". This statement amends SFAS No. 123 to provide alternative methods of transition for a voluntary change to the fair value-based method of accounting for stock-based employee compensation. In addition, SFAS No.148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS No. 148 also requires that those effects be disclosed more prominently by specifying the form, content, and location of those disclosures.

NOTE 3 - FILM IN DISTRIBUTION

In April 2000, the Company entered into a joint venture production agreement to produce a feature length film ("Step Into Liquid") for theatrical distribution. The Company agreed to provide the funding for the production in the amount of up to \$2,250,000 and, in exchange, received a 50% share in all net profits from worldwide distribution and merchandising, after receiving funds equal to its initial investment of up to \$2,250,000. As of April 30, 2005 the Company has funded a net of \$2,335,101 for completion of the film. The film is currently in foreign and DVD distribution. The Company recognized revenues of \$7,397 and \$16,198 for the three months and six months ended April 30, 2005, respectively. The Company recognized revenues of \$30,200 and \$170,843 for the three months and six months ended April 30, 2004, respectively. Based upon information received from the Company's film distributor in January 2005, the Company recorded an impairment charge of \$977,799 during the three months ended October 31, 2004 which reduced the carrying value of its film in distribution to \$1,021,722. NOTE 5 - EXCHANGE AGREEMENT

In April 2005, the Company entered into an Exchange Agreement (the "Exchange Agreement") with Zaiq Technologies, Inc., ("Zaiq"), pursuant to which the Company issued 4,651,163 shares of common stock and a promissory note in the principal amount of \$2,392,000 in exchange for the surrender by Zaiq of 3,192 shares of Series B Redeemable Preferred Stock. The Company issued the Series B Redeemable Preferred Stock to Zaiq pursuant to a Receivables Purchase and Stock Transfer Restriction Agreement dated as of April 17, 2002. These shares had an aggregate liquidation preference of \$3,192,000, constituted all of the Series B Redeemable Preferred Stock issued and outstanding as of the date of the Exchange Agreement, and were cancelled upon the closing of the Exchange Agreement. The fair value of the common stock and promissory note on the closing date was determined to be less than the aggregate liquidation preference of the Series B Redeemable Preferred Stock and accordingly a gain of \$55,814 was recognized during the three months ended April 30, 2005.

Edgar Filing: NEW VISUAL CORP - Form 10QSB

The Exchange Agreement provides that, subject to certain exceptions, if the Company, at any time prior to the payment in full of the amount due under the promissory note, issues common stock or securities convertible into or exercisable for shares of common stock at a price below the fair market value of the common stock or such securities (a "Below Market Issuance"), then the Company will issue to Zaiq additional shares of common stock in an amount that is determined in accordance with a formula that takes into consideration both the number of shares of common stock or other securities issued and the total consideration received by the Company in the Below Market Issuance. During the three months ended April 30, 2005, a Below Market Issuance occurred and the Company will issue additional shares with a fair value of approximately \$5,000.

Under the terms of the agreements with Zaiq, a portion of the proceeds of any new financing consummated by the Company through the first anniversary of the agreement are to be applied to the prepayment of the note. See Note 8.

NOTE 13 - SUBSEQUENT EVENTS

On May 26, 2005, the Company completed a private placement to certain individual and institutional investors of \$3,500,000 in principal amount of its three-year 7% Senior Secured Convertible Debentures (the "2005 Debentures"). Commencing on the earlier of the (i) 65th day after issuance or (ii) the effective date of the Registration Statement (as defined below), the 2005 Debentures are convertible into shares of Common Stock at a conversion price equal to the lower of (x) 70% of the 5 day volume weighted average price of the Company's Common Stock immediately prior to conversion or (y) if the Company entered into certain financing transactions subsequent to the closing date, the lowest purchase price or conversion price applicable to that transaction. In connection with the issuance of the 2005 Debentures, the Company issued to the purchasers thereof warrants (the "Investor Warrants") to purchase shares of the Company's Common Stock, with warrants for 11,312,220 shares being exercisable through the last day of the month in which the first anniversary of the effective date of the Registration Statement occurs at a per share exercise price of \$0.1547 and warrants for 22,624,430 shares being exercisable through the last day of the month in which the third anniversary of the effective date of the Registration Statement occurs at a per share exercise price of \$0.3094. The Company received net proceeds of approximately \$3.11 million, following repayment of offering related expenses.

Edgar Filing: NEW VISUAL CORP - Form 10QSB

Interest on the 2005 Debentures accrues at the rate of 7% per annum and is payable on a bi-annual basis, commencing December 31, 2005, or on conversion and may be paid, at the option of the Company, either in cash or in shares of Common Stock. The Company may prepay the amounts outstanding on the Debentures by giving advance notice and paying an amount equal to 120% of the sum of (x) the principal being prepaid plus (y) the accrued interest thereon.

Holder of the Investor Warrants, which become first exercisable on the earlier of the (i) 65th day after issuance or (ii) the effective date of the Registration Statement, are entitled to exercise those warrants on a cashless basis following the first anniversary of issuance if the Registration Statement is not in effect at the time of exercise.

To secure the Company's obligations under the 2005 Debentures, the Company granted a security interest in substantially all of its assets, including without limitation, its intellectual property, in favor of the investors under the terms and conditions of a Security Interest Agreement dated as of the date of the 2005 Debentures. The security interest terminates upon the earlier of (i) the date on which less than one-third of the original principal amount of the 2005 Debentures issued on the closing date are outstanding or (ii) payment or satisfaction of all of the Company's obligations relating to the 2005 Debentures.

The Company used a portion of those funds to repay the principal and accrued interest on five notes payable and two convertible notes payable aggregating \$1,135,251 in principal.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our financial statements and the notes thereto included elsewhere herein. All statements in this Form 10-QSB related to New Visual Corporation and Subsidiaries ongoing financial operations and expected future results constitute forward-looking statements. The actual results may differ materially from those anticipated or expressed in such statements.

OVERVIEW

The Semiconductor Technologies are in the development and testing stage. Our objective over the next twelve months is to complete the development and testing of a beta version of our Semiconductor Technologies. Through our subsidiary, NV Entertainment, we recognized in fiscal year 2004 gross profit from the revenues from the Film.

FILM. The Film has completed its domestic theater run grossing approximately \$3.7 million in box office revenues, according to the Film's distributor. For the six months ended April 30, 2005, the Company received revenue distributions in the aggregate amount of approximately \$16,198. The Film is currently being distributed to foreign markets. The DVD was released domestically in April 2004 and the cable TV release occurred in October 2004. The broadcast television release is presently scheduled for summer 2005. The Film's foreign theatrical run began in Australia and New Zealand in January 2004 and will continue throughout 2005 in Japan, Brazil, Norway and Sweden. All references henceforth to our business relating to the Film will sometimes be referred to in this quarterly report as our "Entertainment Business."

RESULTS OF OPERATIONS

COMPARISON OF THE THREE MONTHS AND SIX MONTHS ENDED APRIL 30, 2005 AND THE THREE MONTHS AND SIX MONTHS ENDED APRIL 30, 2004

REVENUES. Revenues for the quarter and six months ended April 30, 2005 were \$7,397 and \$16,198, respectively, and were attributable to our Entertainment Business. Revenues for the corresponding periods in 2004 were \$30,200 and \$170,843, respectively, from our Entertainment Business were attributable to guarantee fees from foreign distribution of the Film.

COST OF SALES. Cost of sales for the quarter and six months ended April 30, 2005 were \$5,320 and \$11,945, respectively, and represent the amortization of film cost for our Film in distribution. Cost of sales for the corresponding periods in 2004 were \$14,820 and \$86,214, respectively. The decrease for the quarter and six months ended April 30, 2005 when compared with corresponding periods in 2004 were a result of lower revenues generated from the film.

OPERATING EXPENSES. Operating expenses included research and development expenses in connection with the Semiconductor business, compensatory element of stock issuances, selling, general and administrative expenses, the costs of settlement of litigation, and the impairment of film in distribution. Total operating expenses increased by 13% to \$979,708 for the quarter ended April 30, 2005 from \$868,910 for the quarter ended April 30, 2004. Selling, general and administrative expenses decreased 32% or \$172,518 during the same period primarily as a result of a reduction in staffing, including the elimination of executive level positions, and lower professional fees. Compensatory element of stock issuances increased by 92% from \$316,565 for the quarter ended April 30, 2004 to \$609,381 for the period ended April 30, 2005 as we continue to use stock for compensation purposes to attract and retain qualified, directors, officers, and employees. Total operating expenses decreased by 30% to \$1,590,332 for the six months ended April 30, 2005 from \$2,284,471 for the same period ended April 30, 2004. Selling, general and administrative expenses decreased 39% or \$439,707 during the same period primarily due to a decrease in headcount in administrative personnel, including the elimination of executive level positions, and lower professional fees. Compensatory element of stock issuances decreased by 17% from \$1,066,146 for the six months ended April 30, 2004 to \$888,930 for the six months ended April 30, 2005 as we continue to effectively manage the use of stock for compensation purposes.

OTHER (INCOME) EXPENSES. Other income for the quarter and the six months ended April 30, 2005 were attributable to the gain on sale of property and equipment and gain on exchange, including conversion of the Company's liabilities into the Company's Common Stock. Other expenses included interest expense and amortization of deferred financing costs. Interest expense increased 159% and 208% for the quarter and the six months ended April 30, 2005 when compared with the same period in 2004 primarily as a result of the issuance of an additional \$350,000 in principal amount of convertible debentures in April and May 2004 and additional short-term financing obtained during the fiscal year 2004, which remained outstanding during 2005. Increase in amortization of deferred financing costs of \$28,490 and \$53,109 for the quarter and six months ended April 30, 2005 when compared with the same period in 2004 was a result of higher amortization of financing costs from the convertible debentures.

Edgar Filing: NEW VISUAL CORP - Form 10QSB

NET LOSS. For the quarter ended April 30, 2005, the net loss increased \$274,765 or 28% from \$982,580 to \$1,257,345 primarily due to lower gross profit generated on the film (\$13,303), higher operating expenses (\$110,798), and higher interest costs, including amortization expenses (\$244,579). For the six months ended April 30, 2005, the net loss decreased \$252,138 or 10% from \$2,414,707 to \$2,162,569 primarily due to reduced operating expenses (\$694,139), and other income (\$109,328) that offset high interest and amortization costs.

LIQUIDITY AND CAPITAL RESOURCES

Cash balances totaled \$352,391 as of April 30, 2005 compared to \$127,811 at October 31, 2004. As discussed below, in May 2005, the Company raised net proceeds of approximately \$3.11 million from the private placement of certain of its securities.

Net cash used in operating activities was \$816,866 for the six months ended April 30, 2005 compared to \$1,036,843 for the same period in 2004. The decrease in cash used by operations is primarily attributable to lower net loss during the six months ended April 30, 2005 as compared to the six months ended April 30, 2004.

Net cash used in investing activities for the six months ended April 30, 2005 was \$0 compared to \$95,000 for the six months ended April 30, 2004. Net cash used in investing activities was primarily the result of acquisition of license of \$95,000 in 2004.

Net cash provided by financing activities was \$1,041,446 for the six-months ended April 30, 2005. This compares to \$834,925 for the six months ended April 30, 2004. Cash provided by financing activities during the first six months of 2005 and 2004 primarily consisted of proceeds from issuance of Common Stock , proceeds from issuance of notes payable, convertible notes payable, and convertible debentures.

Since inception, we have funded our operations primarily through the sale of our Common Stock and debt securities. Our recent financings are discussed below.

In May 2005, we sold \$3,500,000 aggregate principal amount of our senior secured 7% convertible debentures and warrants, receiving net proceeds of approximately \$3.11 million after the payment of offering related fees and expenses (the "May 2005 Raise"). As discussed below, we used a portion of those funds to repay the principal and accrued interest on five notes payable and two convertible notes payable aggregating \$1,135,251 in principal.

In September 2004, we entered into a loan agreement with an institutional investor/stockholder pursuant to which we borrowed \$250,000. The principal amount of the loan and any accrued and unpaid interest was originally due and payable on March 24, 2005 and was subsequently extended to May 31, 2005. The outstanding principal and accrued interest on this loan was repaid in May from the proceeds of the May 2005 Raise.

In December 2004, we entered into a loan agreement with an institutional investor pursuant to which we borrowed \$300,000. The outstanding principal and accrued interest on this loan was repaid in May from the proceeds of the May 2005 Raise.

In December 2003 and in April-May 2004, we raised net proceeds of approximately \$888,650 from the private placement to certain private and institutional investors of our three year 7% Convertible Debentures.

The Company believes that following the May 2005 Raise its existing cash

resources will be sufficient to meet its obligations as they come due through the second fiscal quarter of 2006. However, such resources may not be sufficient to support new product development or unforeseen contingencies. At the present time, we have no commitments for any additional financing, and there can be no assurance that, if needed, additional capital will be available to us on commercially acceptable terms or at all. Our auditors have included a "going concern" qualification in their auditors' report for the year ended October 31, 2004. Such a "going concern" modification may make it more difficult for us to raise funds when needed.

Additional equity financings may be dilutive to holders of our Common Stock and debt financing, if available, may involve significant payment obligations and covenants that restrict how we operate our business.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In April 2005, the Securities and Exchange Commission issued release number 33-8568, AMENDMENT TO RULE 4-01(A) OF REGULATION S-X REGARDING THE COMPLIANCE DATE FOR STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 123 (REVISED 2004), SHARE BASED PAYMENT. This release delays the date for compliance with Statement of Financial Accounting Standards No. 123 (Revised 2004), SHARE BASED PAYMENT ("Statement 123R") to the registrant's first interim or annual reporting period beginning on or after December 15, 2005. Statement 123R requires public entities to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award, and no longer allows companies to apply the intrinsic value based method of accounting for stock compensation described in Accounting Principles Board Opinion No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES. In accordance with this amendment, the Company will adopt SFAS No. 123R as of the beginning of the Company's interim reporting period that begins on November 1, 2005. The transitional provisions of SFAS 123R is not expected to have a material effect on the Company's consolidated financial position or results of operations as substantially all outstanding equity instruments are expected to vest on or prior to January 31, 2006. The Company will utilize the fair value method for any future instruments after the implementation date.

In June 2005, the Financial Accounting Standards Board published Statement of Financial Accounting Standards No. 154, ACCOUNTING CHANGES AND ERROR CORRECTIONS. SFAS 154 establishes new standards on accounting for changes in accounting principles. Pursuant to the new rules, all such changes must be accounted for by retrospective application to the financial statements of prior periods unless it is impracticable to do so. SFAS 154 completely replaces Accounting Principles Bulletin No. 20 and SFAS 3, though it carries forward the guidance in those pronouncements with respect to accounting for changes in estimates, changes in the reporting entity, and the correction of errors. The requirements in SFAS 154 are effective for accounting changes made in fiscal years beginning after December 15, 2005. The Company will apply these requirements to any accounting changes after the implementation date.

ITEM 3. CONTROLS AND PROCEDURES.

DISCLOSURE CONTROLS AND INTERNAL CONTROLS

Disclosure Controls are procedures that are designed to ensure that information required to be disclosed in its reports is recorded, processed, summarized and

Edgar Filing: NEW VISUAL CORP - Form 10QSB

reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to management, including our Chief Executive Officer (and Principal Accounting Officer), as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-14(c). Internal Controls are procedures which are designed with the objective of providing reasonable assurance that (1) our transactions are properly authorized, recorded and reported; and (2) our financial statements are presented in conformity with generally accepted accounting principles.

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. As of the end of the period covered by this report, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13-d-15(e) and 15d-15(e)). Based upon that evaluation and management's assessment of the potential effect of the material weakness described below, our Chief Executive Officer (and Principal Accounting Officer) concluded that as of the end of the period covered by this Quarterly Report on Form 10-QSB our disclosure controls and procedures were adequate to enable us to record, process, summarize and report information required to be included in our periodic SEC filings within the required time period.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING. In response to the material weakness that we identified during our October 31, 2004 audit, which weaknesses were discussed in our Annual Report on Form 10-KSB for the year ended October 31, 2004, during the quarter ended April 30, 2005, we strengthened our internal controls over our financial closing process by hiring a local CPA firm, with expertise in financial controls or accounting.

There have been no changes in the Company's internal controls over financial reporting that occurred during the quarter ended April 30, 2005 that have materially affected, or are reasonably likely to materially affect, our control over financial reporting.
