PART I

Item 1. Description of Business.

General

Genius Brands International, Inc. (“we”, “us”, “our”, “GBI” or the “Company”) is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), the Company produces original content and licenses the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

The Company owns a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to the Company’s wholly-owned brands, it also acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama; Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; *Celessence Technologies*, the world's leading microencapsulation company.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a

California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On April 2, 2014, the Company filed a certificate of amendment to its Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one-hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014 (the “Reverse Split”). All per share amounts referenced herein are reflective of the Reverse Split.

Strategic Initiatives

During 2014, the Company began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development:

During the second quarter of 2014, the Company began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to 1) industry experts and category leaders in their respective industries. On July 14, 2014, the Company employed Stone Newman in the newly created position of President – Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company’s brands.

- 2) Prior to the third quarter of 2014, the Company utilized an agency to license its content to international television broadcasters, home video, and digital distribution outlets. To exert greater control over the distribution of its expanding portfolio of content, during the second quarter of 2014, the Company formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent the Company locally in key regions.

- 3) During the third and fourth quarter of 2014, the Company partnered with various pre-production, production, and animation companies to provide services to the Company for the production of *Thomas Edison's Secret Lab* in exchange for a certain percentage of the series' forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage the Company's cash flows while enabling it to exploit territories that would otherwise be challenging to manage and monetize. The Company intends to replicate the model for future productions.

- 4) The infrastructure the Company has put in place enables it to efficiently exploit a growing portfolio of brands. The Company is actively developing a number of new brands to add to its growing portfolio and consistently looks for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which the Company recently signed. The Company remains focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with the Company's primary point of differentiation: providing multi-media "content and products with a purpose" that entertain and enrich kids.

Recent Events

Consistent with the Company's strategy of securing widespread distribution for its content in a variety of formats and building awareness and engagement for its brands that in turn drives its consumer products business, the Company has expanded its successful relationship with Comcast, beyond the already popular *Baby Genius* on-demand offering. The Company has announced it will launch a new Kid Genius Channel in the Fall of 2015, offering 24-hours of video on-demand content that will be consistent with the Company's "content and products with a purpose" mission. The new video on-demand channel will include the Company's own content, in addition to other content the Company will curate to offer a robust line-up for kids. The Company's Senior Vice President– International Sales, Andrew Berman, will oversee the channel.

Products

Original Content

The Company owns and produces original content that is meant to entertain and enrich toddlers to tweens. It is generally a three year cycle from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag between the creation of the intellectual property to the realization of economic or accounting benefit of those assets. The goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. The Company's portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories.

Our portfolio of original content includes:

Already Released Content

Baby Genius: For more than ten years, *Baby Genius* has earned worldwide recognition for creating award-winning products for toddlers. Its catalogue of 500 songs, 125 music videos, and toys feature classic nursery rhymes, learning songs, classical music, holiday favorites and more. Expanding the timeless appeal of *Baby Genius* offerings, GBI is re-launching *Baby Genius* in September 2015 with fresh, new designs, new entertainment and an array of new toddler products.

Warren Buffet's Secret Millionaire's Club: In this popular animated series, Warren Buffett acts as a mentor to a group of kids who have international adventures in business. *Secret Millionaire's Club* empowers kids by helping them learn about the business of life and the importance of developing healthy life habits at an early age. In addition to the animated series, product offerings include classroom materials, an annual youth promotion, books, home video and a new line of consumer products that will be introduced in the Summer of 2015.

Stan Lee's Mighty 7: This animated feature length film is the first property from Stan Lee Comics, LLC, a joint venture with legendary superhero creator Stan Lee. The Company continues to expand distribution of the film with recent sales in a number of international territories.

Martha & Friends: Martha & Friends is an animated series featuring a 10-year-old Martha Stewart. Together with her three best friends and two dogs, the kids learn how easy and fun it is to do-it-yourself. Every show is filled with lots of projects kids can do by themselves.

Gisele & the Green Team: Supermodel turned superhero, Gisele and her team lead a double life to save the planet. This is the first superhero series that inspires girls to be environmentally responsible while also celebrating diversity and teaching children the power of friendship and teamwork.

Current Production

Thomas Edison's Secret Lab: In this new, original series created by the Company in partnership with American Public Television and Charles Edison Fund, kids learn how fun science and math can be with Thomas Edison. In this new comedy adventure series, a group of kids discover a secret lab left behind by Edison, who also appears as a hologram guiding and encouraging the kids to explore and discover the world around them. The series will air on Netflix, starting in July 2015, and on Comcast and PBS starting in the Fall of 2015, with a line of consumer products to follow in early 2016.

Content in Development

Llama Llama: The Company recently announced it has been appointed to lead the worldwide expansion of Anna Dewdney's *New York Times* bestselling and multiple award-winning children's book franchise, *Llama Llama*. The Company will be creating, for the first time, animated content based on the *Llama Llama* books for multiplatform distribution in addition to a global licensing and merchandise program for *Llama Llama* across a multitude of categories, including toys, games, apparel, accessories, bedding, and healthy snacks to be introduced in 2016.

Space Princesses (working title): *Space Princesses* is space-adventure / comedy series targeted toward tween girls blending fashion, music, and friendship.

Girl's Property #2: A second girls' property targeted toward tween girls is based on an existing and established brand currently in the retail market.

Stan Lee Property #2: A kid-friendly superhero brand developed with Stan Lee to appeal to a younger audience.

Licensing Agent

Augmenting the Company's original content, the Company acts as an agent for the following established brands which maximizes the existing infrastructure while creating incremental sources of revenue for the Company without additional overhead:

Psycho Bunny: Inspired by the 17th-century maritime marauders and secret societies such as the infamous Skull & Bones, *Psycho Bunny* creates timeless wardrobe essentials that couple refined English tailoring with bold American design. Currently available in limited product categories in upscale department stores, the Company is expanding this popular brand to additional product lines, new retail outlets, and additional international territories. The Company has already signed licensees for headwear and footwear.

From Frank: Already a popular line of greeting cards, the Company is expanding the brand into new product categories and have already signed licensees for publishing, stationery, gifts, lottery and more.

Celessence: Celessence's microencapsulation technology releases fragrance and is used to scent products including socks, stationery, toys, bedding and pillows. The Company is licensing this technology to a range of products from homewares, bedding, fragrance, automotive, pets, apparel and more.

Distribution

Children today spend upwards of 35 hours/week consuming various forms of media, a 7% increase or an additional 2.2 hours since 2009 (Source: Nickelodeon, November 2013). With the increased demand for and impact of media on kids' lives, we are focused on serving an underrepresented segment of the industry, namely "content with a purpose" meaning content that is both entertaining and enriching in a variety of interactive formats. With this distinct and focused mission, the Company is focused on expanding content distribution across multi-media platforms, extending its domestic and international presence, building awareness for its brands and building an engaged audience which in turn drives demand for its consumer products.

During 2014, we recruited and hired a number of key personnel to manage the distribution of our content across all platforms in all markets:

The Company formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent the Company locally in key regions and in all formats, including Pay Television, Free or Broadcast Television, Video-on-Demand ("VOD"), subscription on demand ("SVOD"), DVDs/CDs and more.

The Company formed a new global consumer products division and appointed Stone Newman to the newly created position of President, Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company's brands, including toys, electronics, publishing, home goods, stationery, gifts, and much more.

Additionally, during the first quarter of 2014, the Company entered into an exclusive three year agreement with Sony DADC, the optical disc manufacturing and fulfillment arm of Sony, to provide all CD, DVD and BD replication, packaging and distribution to Genius Brands International's customers. Under the terms of the long-term, exclusive supply chain services agreement, the Company will order a minimum level of disc replication, packaging and distribution services for its content across all physical media, including DVD, CD, and Blu-ray from Sony DADC. As consideration for these minimum order levels, the Company received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015.

Marketing

The commercial success of every GBI property is reliant on its ability to attract an engaged audience that in turn drives demand for its products. As the Company's properties are introduced into the marketplace, these efforts will intensify to ensure parents and kids are aware of the Company's offerings.

The Company formed a new Digital division and appointed industry veteran Jason Brumbaugh to the newly created position of Vice President of Digital, responsible for the Company's digital presence in addition to all forms of online marketing that will be critical to building engaged audiences online. Mr. Brumbaugh held producer and senior producer positions at Disney Interactive Media Group, the Hub Network, DIC Entertainment, and Knowledge Kid Network.

The Company works with 360-Communications, a public relations agency that proactively solicits publicity for the Company's content and products, both among the trade and consumers.

Competition

GBI competes against creators of children's content, including Disney, Nickelodeon, Cartoon Network, Sesame Street, and many others, small and large. In the crowded children's entertainment space, the Company competes with other content creators for distribution and retail shelf space that is largely now dedicated to the large studios. To compete, the Company is focused on filling a void in the marketplace by offering something the big studios do not: "content and products with a purpose," a positioning and important point of differentiation embraced by the industry, as well as parents and educators.

Customers and Licensees

During 2014, the Company was reliant on one or a few major customers. However, given the changes in its business model, it will be working with a larger network of customers and partners from around the world including

broadcasters, consumer products licensees, and retailers. This broad cross section includes companies such as Comcast, Netflix, Sony, PBS, Leap Frog Enterprises, Enesco, Zak Designs, Penguin Publishing, Manhattan Toys, Amazon, Barnes & Noble, Target, Bertelsmann Music Group, InGrooves, Discovery International, TF1 and many others both domestically and internationally.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). The Company is also subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of kids younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some cities and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute the toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at www.gnusbrands.com, as well as www.babygenius.com, www.smckids.com, www.slam7.com, and www.edisonsecretlab.com. These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws on children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, the Company is not significantly impacted by federal, state and local environmental laws and does not have significant costs associated with compliance with such laws and regulations.

Employees

As of December 31, 2014, we had eleven full-time equivalent employees and an additional six temporary or contracted full-time equivalents in certain functions, such as accounting, production management, and design. The Company employs on an outsourced, as-needed basis contractors in the fields of investor relations, public relations, and production. The Company believes all of its employee relationships to be good.

Intellectual Property

As of December 31, 2014, GBI owns the following properties and related trademarks: *Secret Millionaires Club*, *Thomas Edison's Secret Lab*, "Baby Genius", "Little Genius", "Kid Genius", "Wee Worship", "A Squared, and "Ready, Play, Learn" as well as several other names and trademarks on characters that had been developed for our content and brands. *Thomas Edison's Secret Lab*, currently in production and estimated to be completed in the Summer of 2016, will include 52 eleven-minute episodes as well as 52 90-second music videos.

As of December 31, 2014, we currently hold fourteen registered trademarks in multiple classes in the United States as well as additional trademarks in the United States that are associated with our other brands. We also have a number of registered and pending trademarks in Europe and other countries in which our products are sold.

As of December 31, 2014, we also held ninety-six motion picture, thirteen sound recording and one literary work copyrights related to our video, music and written work products.

The Company has a one-third ownership interest in Stan Lee Comics, LLC which owns the publishing brand *Stan Lee Comics* and all properties produced therein. Stan Lee Comics, LLC is a joint venture with Stan Lee's POW! Entertainment and Archie Comics. Stan Lee Comics, LLC is the owner of the *Stan Lee's Mighty 7* property.

The Company has 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bündchen's *Gisele & the Green Team*.

In addition to the wholly-owned or partially-owned properties listed above, the Company has agreements with certain intellectual property owners to represent their content as a licensing agent. The Company acts as a licensing agent for the following established brands: *Llama Llama*, *Psycho Bunny*, *From Frank*, and *Celessence*.

Item 1A. Risk Factors.

The following discussion of risk factors contains forward-looking statements. These risk factors may be important to understanding any statement in this Form 10-K or elsewhere. The following information should be read in conjunction with Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the consolidated financial statements and related notes beginning on Page F-1 of this Form 10-K.

The business, financial condition and operating results of the Company can be affected by a number of factors, whether currently known or unknown, including but not limited to those described below. Any one or more of such factors could directly or indirectly cause the Company’s actual results of operations and financial condition to vary materially from past or anticipated future results of operations and financial condition. Any of these factors, in whole or in part, could materially and adversely affect the Company’s business, financial condition, results of operations and stock price.

Because of the following factors, as well as other factors affecting the Company’s financial condition and operating results, past financial performance should not be considered to be a reliable indicator of future performance, and investors should not use historical trends to anticipate results or trends in future periods.

RISKS RELATING TO OUR BUSINESS

We have incurred net losses since inception.

The Company has a history of operating losses and incurred net losses in each fiscal quarter since its inception. For the year ended December 31, 2014, the Company generated net revenues of \$925,788 and incurred a net loss of \$3,728,599, while for the previous year; the Company generated net revenue of \$2,556,538 and incurred a net loss of \$7,216,031. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders’ equity, net current assets and working capital.

The Company will need to generate additional revenue to achieve profitability. The Company has already achieved significant cost savings and is beginning to generate revenues derived from its existing properties, properties in production, new brands being introduced into the marketplace, the re-launch of Baby Genius, and incremental revenue derived from the licensing business it manages on behalf of its clients. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of the Company’s control.

We may need additional capital to fund our growing operations. If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.

We expect that as our business continues to grow we may need additional working capital. While we believe that we will be able to fund our business through operating cash flows generated through our enhanced business model, if these cash flows are less than anticipated or do not come to fruition in the time horizon we anticipate, we would require additional debt and /or equity financing to sustain our operations. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve the Company. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our ability to raise financing through sales of equity securities depends on general market conditions and the demand for our common stock. We may be unable to raise adequate capital through sales of equity securities, and if our stock has a low market price at the time of such sales, our existing stockholders could experience substantial dilution. If adequate financing is not available or unavailable on acceptable terms, we may find we are unable to fund expansion, continue offering products and services, take advantage of acquisition opportunities, develop or enhance services or products, or to respond to competitive pressures in the industry which may jeopardize our ability to continue operations.

Our revenues and results of operations may fluctuate from period to period.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of the Company's control. While the Company believes it has mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our common stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we would be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content and products with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

We face competition from a variety of retailers that sell similar merchandise and have better resources than we do.

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

The Company has sought a competitive advantage by providing “content and products with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could impact the Company’s ability, through its licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.

As part of our business model to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in the Company failing to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

If we fail to honor our obligations under the terms of our third party supply agreements, our business may be adversely affected.

In early 2014, the Company entered into an exclusive 3-year arrangement with Sony DADC US Inc. which gives Sony the right to fulfill the Company's DVD and CD duplication requirements for its product. In consideration for these exclusive rights the Company received an initial marketing support payment of \$750,000 with an additional \$750,000 paid in February 2015. Sony will recoup the marketing support payment through a premium on the physical media unit costs. The Company is obligated to repay a pro-rata portion of the marketing support payment if the Company does not order a minimum number of DVD/CD units during the term. However, while the Company believes the minimum order threshold is achievable over the term based on its existing properties and properties currently in production or in development, if it does not meet the minimum order threshold it would be obligated to repay any outstanding balances in 2017 and to do so may require it to divert funds from operations which may have a material adverse effect on its business.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

The failure of others to promote our products may adversely affect our business.

The availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

We may not be able to keep pace with technological advances.

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting

consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andrew Heyward, our Chief Executive Officer and Amy Moynihan Heyward, our President. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition.

Our management team currently owns a substantial interest in our voting stock.

Our management team and Board of Directors own or control a combined 3,034,298, or 47.6%, of the 6,374,450 shares currently outstanding. Sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Additionally, management has the ability to control any proposals submitted to shareholders, including corporate actions and board changes which may not be in accordance with the votes of other shareholders.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. If litigation is necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

RISKS RELATING TO OUR COMMON STOCK

Our common stock may be affected by limited trading volume and price fluctuations which could adversely impact the value of our common stock.

Trading in our common stock can fluctuate significantly and there can be no assurance that an active trading market will either develop or be maintained. Our common stock is expected to continue to experience significant price and volume fluctuations. This trading activity could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to periodically enter the market in the belief that our stock price will decline in the future. We cannot predict the actions of market participants or the stock market as a whole. We can offer no assurances that the market for our common stock will be stable or that our stock price will fluctuate in a manner that is consistent with our operating results.

If our common stock remains subject to the SEC's penny stock rules, broker-dealers may experience difficulty in completing customer transactions and trading activity in our securities may be adversely affected.

Unless our common stock is listed on a national securities exchange, including the Nasdaq Capital Market or we have stockholders' equity of \$5,000,000 or more and our common stock has a market price per share of more than \$4.00, transactions in our common stock will be subject to the SEC's "penny stock" rules. If our common stock remains subject to the "penny stock" rules promulgated under the Securities Exchange Act of 1934, broker-dealers may find it difficult to effectuate customer transactions and trading activity in our securities may be adversely affected.

In accordance with these rules, broker-dealers participating in transactions in low-priced securities must first deliver a risk disclosure document that describes the risks associated with such stocks, the broker-dealer's duties in selling the stock, the customer's rights and remedies and certain market and other information. Furthermore, the broker-dealer must make a suitability determination approving the customer for low-priced stock transactions based on the customer's financial situation, investment experience and objectives. Broker-dealers must also disclose these restrictions in writing to the customer, obtain specific written consent from the customer, and provide monthly account statements to the customer. The effect of these restrictions will probably decrease the willingness of broker-dealers to make a market in our common stock, decrease liquidity of our common stock and increase transaction costs for sales and purchases of our common stock as compared to other securities. Our management is aware of the abuses that have occurred historically in the penny stock market.

As a result, if our common stock continues to be subject to the penny stock rules, the market price of our securities may be depressed, and you may find it more difficult to sell our securities.

If we fail to maintain effective internal controls over financial reporting, the price of our common stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our common stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

We are authorized to issue "blank check" preferred stock without stockholder approval, which could adversely impact the rights of holders of our common stock.

Our Articles of Incorporation authorize our Company to issue up to 10,000,000 shares of blank check preferred stock. Any additional preferred stock that we issue in the future may rank ahead of our common stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our common stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of common stock, which could dilute the value of common stock to current stockholders and could adversely affect the market price, if any, of our common stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

Shares eligible for future sale may adversely affect the market.

From time to time, certain of our stockholders may be eligible to sell all or some of their shares of common stock by means of ordinary brokerage transactions in the open market pursuant to Rule 144 promulgated under the Securities Act, subject to certain limitations. In general, pursuant to Rule 144, as amended, non-affiliate stockholders may sell freely after six months subject only to the current public information requirement. Affiliates may sell after six months subject to the Rule 144 volume, manner of sale (for equity securities), current public information and notice requirements. Of the approximately 6,374,450 shares of our common stock outstanding as of December 31, 2014, approximately 2,449,291 shares are freely tradable without restriction. Any substantial sales of our common stock pursuant to Rule 144 may have a material adverse effect on the market price of our common stock.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our common stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of the our Board of Directors. If we do not pay dividends, our common stock may be less valuable because the return on investment will only occur if its stock price appreciates.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our results of operations, financial condition and liquidity and capital resources should be read in conjunction with our audited financial statements and related notes for the fiscal years ended December 31, 2014 and 2013. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements.

Overview

The MD&A is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Organization

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation. In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into the Merger Agreement with A Squared Entertainment LLC, A Squared Holdings LLC and A2E Acquisition LLC. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On April 2, 2014, the Company filed a certificate of amendment to its Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one-hundred basis. The Reverse Split was effective with FINRA on April 7, 2014. All per share amounts referenced herein are reflective of the Reverse Split.

Our Business

Genius Brands International, Inc. is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), the Company produces original content and licenses the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

The Company owns a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to the Company’s wholly-owned brands, it also acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama; Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; *Celescence Technologies*, the world's leading microencapsulation company.

Strategic Initiatives

During 2014, the Company began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development:

1) During the second quarter of 2014, the Company began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to industry experts and category leaders in their respective industries. On July 14, 2014, the Company employed Stone Newman in the newly created position of President – Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company’s brands.

2) Prior to the third quarter of 2014, the Company utilized an agency to license its content to international television broadcasters, home video, and digital distribution outlets. To exert greater control over the distribution of its expanding portfolio of content, during the second quarter of 2014, the Company formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent the Company locally in key regions.

3) During the third and fourth quarter of 2014, the Company partnered with various pre-production, production, and animation companies to provide services to the Company for the production of *Thomas Edison’s Secret Lab* in exchange for a certain percentage of the series’ forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage the Company’s cash flows while enabling it to exploit territories that would otherwise be challenging to manage and monetize. The Company intends to replicate the model for future productions.

4) The infrastructure the Company has put in place enables it to efficiently exploit a growing portfolio of brands. The Company is actively developing a number of new brands to add to its growing portfolio and consistently looks for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which the Company recently signed. The Company remains focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with the Company’s primary point of differentiation: providing multi-media “content and products with a purpose” that entertain and enrich kids.

Recent Events

Consistent with the Company’s strategy of securing widespread distribution for its content in a variety of formats and building awareness and engagement for its brands that in turn drives its consumer products business, the Company has expanded its successful relationship with Comcast, beyond the already popular *Baby Genius* on-demand offering. The

Company has announced it will launch a new Kid Genius Channel in the Fall of 2015, offering 24-hours of video on-demand content that will be consistent with the Company's "content and products with a purpose" mission. The new video on-demand channel will include the Company's own content, in addition to other content the Company will curate to offer a robust line-up for kids. The Company's Senior Vice President - International Sales, Andrew Berman, will oversee the channel.

Results of Operations

Comparison of Results of Operations for the twelve months ended December 31, 2014 and 2013

Below is a discussion of our 2014 operating results compared to our 2013 operating results. 2014 represented a transitional year as the Company restructured and changed the way it will manage its operations in the future to a licensing model whereby the Company minimizes its risk and outsources the manufacturing and distribution of its products to industry leaders in their respective industries. In addition, the Company plans to re-launch its *Baby Genius* brand in September 2015 using a newly designed and expanded product line, resulting in a year over year loss in *Baby Genius* sales. In addition to the re-launch of *Baby Genius* this year, the Company will also be introducing several new brands in addition to the licensing business is now manages on behalf of three existing retail brands.

Our summary results for the twelve months ended December 31, 2014 and 2013 are below.

Revenues. Revenues by product segment and for the Company as a whole were as follows:

	12/31/2014	12/31/2013	Change	% Change	
Product Sales	\$497,273	\$1,682,780	\$(1,185,507)	-70	%
Television & Home Entertainment	117,670	505,552	(387,882)	-77	%
Licensing & Royalties	310,845	368,206	(57,361)	-16	%
Total Revenue	\$925,788	\$2,556,538	\$(1,630,750)	-64	%

Product sales represent physical products in which the Company holds intellectual property rights such as trademarks and copyrights, whether registered or unregistered, to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or online retailers. During the twelve months ended December 31, 2014, product sales decreased by \$1,185,507 due to the change in business strategy whereby the Company has transitioned from the direct production and sale of physical products including DVDs and CDs to a licensing model in which these functions were outsourced to industry experts and category leaders. The Company plans to re-launch its *Baby Genius* brand in September 2015 utilizing a newly designed and expanded product line, resulting in a year over year loss in *Baby Genius* sales.

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television in domestic and foreign markets and the sale of DVDs for home entertainment. Television & Home Entertainment revenue totaled \$117,670 during the twelve months ended December 31, 2014 compared to \$505,552 in the prior period. Higher revenue in the 2013 period related to the distribution of certain properties for which revenue

recognition criteria had been met. While the Company has expanded its portfolio of properties in 2014 and is actively licensing these properties in advance of their release into the marketplace, revenue related to these properties, especially *Thomas Edison's Secret Lab*, will be recognized in future periods once revenue recognition criteria have been met

Licensing and royalty revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands in which we act as a licensing agent. During the twelve months ended December 31, 2014 compared to December 31, 2013, this category decreased \$57,361. This decrease is due to the liquidation of previously held DVD titles that are not consistent with the Company's new "content and products with a purpose" focus.

Costs. Costs and expenses, excluding depreciation and amortization, consisting primarily of cost of sales, marketing and sales expenses, and general and administrative costs, decreased \$465,230 for the twelve months ended December 31, 2014 compared to December 31, 2013.

	12/31/2014	12/31/2013	Change	% Change	
Cost of Sales	\$500,000	\$1,504,138	\$(1,004,138)	-67	%
General and Administrative	3,452,200	2,806,153	646,047	23	%
Marketing and Sales	338,598	308,355	30,243	10	%
Product Development	1,700	139,082	(137,382)	-99	%
Total Costs and Operating Expenses	\$4,292,498	\$4,757,728	\$(465,230)	-10	%

Cost of Sales decreased \$1,004,138 during twelve months ended December 31, 2014 compared to the same period of 2013. The decrease was a result of the decrease in product sales discussed above as well as the elimination the overhead of associated with handling sales directly, replaced by a new model whereby these costs will be borne by our licensee.

General and Administrative expenses consist primarily of salaries, employee benefits, as well as other expenses associated with finance, legal, facilities, marketing, rent, and other professional services. General and administrative costs for the twelve months ended December 31, 2014 increased \$646,047 from the comparable period in 2013. The aggregate increase for the category includes increases in professional fees of \$501,926 of which \$231,101 was related to the amortization of certain prepaid consulting agreements; increases in salaries and related expense of \$102,599 related to the addition of several critical hires in sales functions; increases in other general and administration expenses of \$392,077; and increases of bad debt expense of \$73,458 all of which were offset by decreases of \$539,185 in stock based compensation expense.

Marketing and sales expenses increased \$30,243 for the twelve months ended December 31, 2014 compared to the twelve months ended December 31, 2013 primarily due to increases in sales commission expenses in the third quarter related to certain sales promotions, the amortization of certain prepaid marketing expenses, and other advertising expenses related to the increased size of the portfolio of brands the Company promotes.

Product development expenses are for routine and periodic alterations to existing products, primarily those in the Baby Genius line. For the twelve months ended December 31, 2014 compared to the twelve months ended December 31, 2013, these expenses decreased by \$137,382. As the Company works to re-launch the *Baby Genius* product line, costs related to the re-launch have been capitalized.

Critical Accounting Policies

The Company's accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation

The Company's consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC Topic 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests during the fourth quarter. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Additionally, the Company develops new videos, music, books and

digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 Intangible Assets and ASC 730 Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Films and Televisions Costs

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Revenue Recognition

The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC Topic 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Other Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Off Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Our evaluation of internal control over financial reporting includes using the COSO framework (2013), an integrated framework for the evaluation of internal controls issued by the Committee of Sponsoring Organizations of the Treadway Commission, to identify the risks and control objectives related to the evaluation of our control environment.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting. Based on our evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2014.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation requirements by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

Inherent Limitations Over Internal Controls

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting that occurred during the quarter ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Corporate Governance

General

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and persons who own more than 10% of the Company's stock (collectively, "Reporting Persons") to file with the SEC initial reports of ownership and changes in ownership of the Company's common stock. Reporting Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) reports they file. To the Company's knowledge, based solely on its review of the copies of such reports received or written representations from certain Reporting Persons that no other reports were required, the Company believes that during its fiscal year ended December 31, 2014 all Reporting Persons timely complied with all applicable filing requirements, except for one Form 4 for Mr. Cahill which was not timely filed.

Code of Ethics

We have adopted a Code of Ethics and Business Conduct for Officers, Directors and Employees that applies to all of our officers, directors and employees. A copy of the Code of Ethics may be obtained, free of charge, by submitting a written request to the Company or on our website at www.gnusbrands.com.

Board Committees

During 2014, our Board of Directors held four meetings.

On June 9, 2014, the Board of Directors of the Company unanimously decided to form an Audit Committee, Compensation Committee and Nominating Committee.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

Genius Brands International, Inc.

Beverly Hills, California

We have audited the accompanying consolidated balance sheets of Genius Brands International, Inc. and subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Genius Brands International, Inc. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

December 31, 2014

Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our”, “GBI” or the “Company”) is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), the Company produces original content and licenses the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

The Company owns a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to the Company’s wholly-owned brands, it also acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama; Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; *Celessence Technologies*, the world's leading microencapsulation company.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On April 2, 2014, the Company filed a certificate of amendment to its Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one-hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014 (the “Reverse Split”). All per share amounts referenced herein are reflective of the Reverse Split.

Strategic Initiatives

During 2014, the Company began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development:

During the second quarter of 2014, the Company began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to industry experts and category leaders in their respective industries. On July 14, 2014, the Company employed Stone Newman in the newly created position of President – Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company’s brands.

Genius Brands International, Inc.

Notes to Consolidated Financial Statements

December 31, 2014

- 2) Prior to the third quarter of 2014, the Company utilized an agency to license its content to international television broadcasters, home video, and digital distribution outlets. To exert greater control over the distribution of its expanding portfolio of content, during the second quarter of 2014, the Company formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent the Company locally in key regions.

- 3) During the third and fourth quarter of 2014, the Company partnered with various pre-production, production, and animation companies to provide services to the Company for the production of *Thomas Edison's Secret Lab* in exchange for a certain percentage of the series' forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage the Company's cash flows while enabling it to exploit territories that would otherwise be challenging to manage and monetize. The Company intends to replicate the model for future productions.

- 4) The infrastructure the Company has put in place enables it to efficiently exploit a growing portfolio of brands. The Company is actively developing a number of new brands to add to its growing portfolio and consistently looks for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which the Company recently signed. The Company remains focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with the Company's primary point of differentiation: providing multi-media "content and products with a purpose" that entertain and enrich kids.

Liquidity

Historically, the Company has incurred net losses. As of December 31, 2014, the Company had an accumulated deficit of \$21,152,654 and a total stockholders' equity of \$13,720,248. At December 31, 2014, the Company had current assets of \$4,738,898, including cash of \$4,301,099 and current liabilities of \$2,224,766, including short-term debt to related parties which bears no interest and has no stated maturity of \$411,008 and certain trade payables of \$925,000 to which the Company disputes the claim, resulting in working capital of \$2,514,132. For the years ended December 31, 2014 and 2013, the Company reported a net loss of \$3,728,599 and \$7,216,031, respectively, and reported net cash used by operating activities during year ended December 31, 2014 of \$2,481,988.

During 2014, the Company received proceeds from the issuance of common stock, the issuance of Series A Convertible Preferred Shares, the execution of a long-term, exclusive supply chain services agreement, and the

execution music advance agreements. Additionally subsequent to the end of the year, the Company received the second payment pursuant to its long term supply chain services agreement. While the Company believes that these funds will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future. If the Company is unable to attain profitable operations and positive operating cash flows, it may need to (i) seek additional funding, (ii) scale back its development plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents.

Reverse Stock Split

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA on April 7, 2014. All common stock share and per share information in this Form 10-K, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

Business Combination

On November 15, 2013, the Company entered into a Merger Agreement with A Squared, the Member, and the Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these audited consolidated financial statements so as to conform to current period classifications.

Allowance for Sales Returns

An Allowance for Sales Returns is estimated based on average sales during the previous year. Based on experience, sales growth, and our customer base, the Company concluded that the allowance for sales returns at December 31, 2014 and 2013 should be \$45,582 and \$43,000, respectively.

Inventories

Inventories are stated at the lower of cost (average) or market and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$54,673 and \$93,607 established as of December 31, 2014 and 2013, respectively.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill of indefinite lived intangible assets in future periods.

Genius Brands International, Inc.

Notes to Consolidated Financial Statements

December 31, 2014

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Additionally, the Company develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 Intangible Assets and ASC 730 Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Films and Televisions Costs

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Revenue Recognition

The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Revenues associated with the sale of products are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Shipping and Handling

The Company records shipping and handling expenses in the period in which they are incurred and are included in the Cost of Goods Sold.

Stock Based Compensation

As required by ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our stock-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant.

Advertising Costs

The Company's marketing costs are primarily related to advertising, trade shows, public relation fees and production and distribution of collateral materials. In accordance with ASC 720 regarding Advertising Costs, the Company expenses advertising costs in the period in which the expense is incurred. Marketing and Sales costs incurred by licensees are borne fully by the licensee and are not the responsibility of the Company. Advertising expense for the year ended December 31, 2014 and 2013 was \$256,272 and \$117,914, respectively.

Earnings Per Share

Basic earnings (loss) per common share ("EPS") is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted EPS is calculated by dividing net income (loss) by the weighted average number of common shares outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Concentration of Risk

The Company's cash is maintained at two financial institutions and from time to time the balances for this account exceed the Federal Deposit Insurance Corporation's ("FDIC's") insured amount. Balances on interest bearing deposits at banks in the United States are insured by the FDIC up to \$250,000 per account. As of December 31, 2014, the Company had one account with an uninsured balance of \$3,923,931. As of December 31, 2013, the Company had one account with an uninsured balance of \$123,053.

For fiscal year 2014, the Company had three customers whose total revenue exceeded 10% of the total consolidated revenue. These customers account for 19%, 13%, and 11% of total revenue, respectively. Those three accounts made up 11%, 0%, and 14% of accounts receivable, respectively. For fiscal year 2013, the Company had three customers whose total revenue exceeded 10% of the total consolidated revenue. These customers account for 22%, 20%, and 14% of total revenue, respectively. Those three accounts made up 0%, 6%, and 39% of accounts receivable, respectively. The major customers for the year ending December 31, 2014 are not necessarily the same as the major customers at December 31, 2013. There is significant financial risk associated with a dependence upon a small number of customers. The Company periodically assesses the financial strength of these customers and establishes allowances for any anticipated bad debt. At December 31, 2014 and 2013, no allowance for bad debt has been established for the major customers as these amounts are believed to be fully collectible.

Fair value of financial instruments

The carrying amounts of cash, receivables and accrued liabilities approximate fair value due to the short-term maturity of the instruments.

We adopted ASC 820 as of January 1, 2008 for financial instruments measured at fair value on a recurring basis. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Genius Brands International, Inc.

Notes to Consolidated Financial Statements

December 31, 2014

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

· Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;

· Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and

· Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, “Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists” (“ASU No. 2013-11”). ASU No. 2013-11 requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with limited exceptions. ASU No. 2013-11 is effective for interim and annual periods beginning after December 15, 2013 and may be applied retrospectively. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In April 2014, the FASB issued Accounting Standards Update No. 2014-08, “Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity” (“ASU 2014-08”), which raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the new definition of a discontinued operation. It also allows an entity to present a discontinued operation even when it has continuing cash flows and significant continuing involvement with the disposed component. The amendments in ASU 2014-08 are effective prospectively for disposals (or classifications as held for sale) of

components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption is permitted but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09"). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: identify the contract(s) with a customer; identify the performance obligations in the contract; determine the transaction price; allocate the transaction price to the performance obligations in the contract; and recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification Topic No. 605, "Revenue Recognition," most industry-specific guidance throughout the industry topics of the accounting standards codification, and some cost guidance related to construction-type and production-type contracts. ASU 2014-09 is effective for public entities for annual periods and interim periods within those annual periods beginning after December 15, 2016. Early adoption is not permitted. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In June 2014, the FASB issued Accounting Standards Update No. 2014-12, “Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period” (“ASU 2014-12”). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification Topic No. 718, “Compensation - Stock Compensation” (“ASC 718”), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments in ASU 2014-12 are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Early adoption is permitted. Entities may apply the amendments in ASU 2014-12 either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries, and are not expected to have a material effect on our financial position, results of operations, or cash flows.

Note 3: Business Combination

Overview

On November 15, 2013, the Company entered into the Merger Agreement with A Squared and Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

Immediately following the Merger, the Company’s pre-Merger shareholders and option holders owned approximately 50% of the Company’s common stock on a fully-diluted basis, and former A Squared members directly and indirectly

owned approximately 50% of the Company's common stock on a fully diluted basis.

Pursuant to the terms and conditions of the Merger:

At the closing of the Merger, the membership interests of A Squared issued and outstanding immediately prior to the closing of the Merger were cancelled, and the Member received 2,972,183 shares of our common stock.

Upon the closing of the Merger, Klaus Moeller resigned as the Company's Chief Executive Officer and Chairman, Larry Balaban resigned as the Company's Corporate Secretary, and Howard Balaban resigned as the Company's Vice President of Business Development. Simultaneously with the effectiveness of the Merger, Andrew Heyward was appointed as the Company's Chief Executive Officer, Amy Moynihan Heyward was appointed as the Company's President and Gregory Payne was appointed as the Company's Corporate Secretary. Mr. Moeller remained a director of the Company until his subsequent resignation on May 15, 2014.

Effective upon the Company's meeting its information obligations under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), Michael Meader, Larry Balaban, Howard Balaban and Saul Hyatt resigned as directors of the Company, and Andrew Heyward, Amy Moynihan Heyward, Lynne Segall, Jeffrey Weiss, Joseph "Gray" Davis, William McDonough and Bernard Cahill were appointed as directors of the Company. On December 9, 2013, these changes to the Board of Directors were made effective.

Accounting Treatment

Although the transaction has been structured as a merger of equals, the merger will be treated as a business combination for accounting purposes. The audited financial statements have been prepared using the acquisition method of accounting in accordance with ASC 805, Business Combinations. Genius Brands is the deemed accounting acquirer, and A Squared is the deemed accounting acquiree based on the following factors: the transfer of the Company's equity as consideration for the merger, the relative size of the pre-merger assets and revenue bases with the Company holding a significantly larger asset and revenue base as compared to A Squared, and the fact that the Company paid a premium over the pre-combination fair value of A Squared.

Under the terms of the long-term, exclusive supply chain services agreement, the Company will order a minimum level of disc replication, packaging and distribution services for its content across all physical media, including DVD, CD, and Blu-ray from Sony DADC. As consideration for these minimum order levels, the Company received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be realized.

Topic 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company’s financial statements. Topic 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.
