LIQUID AUDIO, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)**

NOTE 1 THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Company

Liquid Audio, Inc. (the Company) was incorporated in California in January 1996 and reincorporated in Delaware in April 1999. In July 2000, the Company established a wholly-owned subsidiary in the United Kingdom, Liquid Audio Europe PLC, which reregistered in August 2001 as Liquid Audio Europe Limited, to develop sales in Europe. The Company was formed with the goal of becoming the premier provider of software applications and services that enable the secure delivery and sale of digital music over the Internet. The Company's end-to-end solutions enable the secure distribution, promotion and sale of high quality music files while providing consumers with the ability to access, preview and purchase that music via the Internet.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company and reflect all adjustments, which are in the opinion of management, necessary for a fair presentation of the interim periods presented. The results of operations for the three months ended June 30, 2002 are not necessarily indicative of the results to be expected for any subsequent quarter or for the year ending December 31, 2002. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations.

These unaudited condensed consolidated interim financial statements and notes included herein should be read in conjunction with the Company's audited consolidated financial statements and notes as included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 as filed with the Securities and Exchange Commission (the SEC) on March 29, 2002.

Liquidity and capital resources

The Company has incurred losses and negative cash flows from operations for every year since inception. For the six months ended June 30, 2002, the Company incurred a net loss of approximately \$10.5 million and negative cash flows from operations of \$10.4 million. As of June 30, 2002, the Company had an accumulated deficit of approximately \$121.6 million. The Company expects to incur operating losses and negative cash flows through at least 2003. Failure to generate sufficient revenues, raise additional capital or reduce spending could adversely affect the Company's ability to achieve its intended business objectives.

Reclassifications

Certain reclassifications have been made to the prior periods' consolidated financial statements to conform to the current period presentation. The reclassifications had no effect on net loss, stockholders' equity or cash flows.

Principles of consolidation

The financial statements include the accounts of the Company and its subsidiary. Significant intercompany transactions and balances have been eliminated. Investments in entities in which the Company can exercise significant influence, but are less than majority owned and not otherwise controlled by the Company, are accounted for under the equity method.

Restricted cash

Table of Contents

LIQUID AUDIO, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(unaudited)

At June 30, 2002, the Company had a cash balance of \$826,000 in the form of certificates of deposit, which were restricted from withdrawal. The amount serves as collateral to a letter of credit issued by the Company's bank to the Company's lessor as security deposit on a long-term lease.

Revenue recognition

Software license revenues are recognized when persuasive evidence of an arrangement exists, delivery has occurred, no significant Company obligations with regard to implementation or integration exist, the fee is fixed or determinable and collection is probable as prescribed in SOP No. 97-2, Software Revenue Recognition. For arrangements with multiple elements, the total fee from the arrangement is allocated among each element based upon vendor specific objective evidence (VSOE) of fair value. When VSOE of fair value exist for the undelivered elements, primarily maintenance, the Company accounts for the license portion based on the residual method as prescribed by SOP No. 98-9, Modification of SOP 97-2 with Respect to Certain Transactions. When VSOE of fair value does not exist for the undelivered elements, the total fee from the arrangement is recognized ratably over the period of the contract. The Company recognizes revenue allocated to maintenance ratably over the contract period, which is generally twelve months.

Business development revenue primarily consists of license and maintenance fees from agreements under which the Company gives its strategic partners the right to license and use the Company's digital recorded music delivery technology. These U.S. dollar-denominated, non-refundable fees are allocated among the various elements of the contract based on VSOE of fair value. When VSOE of fair value exist for the undelivered elements, primarily maintenance, the Company accounts for the license portion based on the residual method as prescribed by SOP No. 98-9. When VSOE of fair value does not exist for the undelivered elements, the total fee from the business development arrangement is recognized ratably over the period of the contract. The total fee from business development arrangements is recognized when payment becomes due if extended payment terms exist, assuming all other criteria are met. Extended payment terms are defined as payment terms outside the Company's customary business practice, generally greater than 90 days. Revenue is not recognized if the strategic partners stop making their contractual payments.

The Company also generates license and service revenues from digital music kiosk sales and hosting services. Revenue derived from hosting services include subscription fees from artists for encoding and storing music files, e-commerce services and transaction reporting. Music delivery services revenue include transaction fees from sales of digital recorded music through the Company's website affiliates and fees from music retailers and websites related to the sample digital music clips delivery service. Revenue from kiosk sales consist of software licenses and services revenue from equipment and kiosk-related services. The Company bears full credit risk with respect to substantially all sales.

Recent accounting pronouncement

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 addresses significant issues relating to the implementation of SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, and develops a single accounting method under which long-lived assets that are to be disposed of by sale are measured at the lower of book value or fair value less cost to sell. Additionally, SFAS No. 144 expands the scope of discontinued operations to include all components of an entity with operations that (1) can be distinguished from the rest of the entity and (2) will be eliminated from the ongoing operations of the entity in a disposal transaction. SFAS No. 144 is effective for financial statements issued for fiscal years beginning after December 15, 2001 and its provisions are to be applied prospectively. The adoption of SFAS No. 144 did not have an impact on the Company's financial position and results of operations.

Table of Contents**LIQUID AUDIO, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(unaudited)

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 nullifies the guidance of the Emerging Issues Task Force (EITF) in EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). Under EITF Issue No. 94-3, an entity recognized a liability for an exit cost on the date that the entity committed itself to an exit plan. In SFAS No. 146, the FASB acknowledges that an entity's commitment to a plan does not, by itself, create a present obligation to other parties that meets the definition of a liability and requires that a liability for a cost that is associated with an exit or disposal activity be recognized when the liability is incurred. It also establishes that fair value is the objective for the initial measurement of the liability. SFAS No. 146 will be effective for exit or disposal activities that are initiated after December 31, 2002. The Company does not expect an impact on its financial position and results of operating from the adoption of SFAS No. 146.

In the first quarter of 2002, the Company adopted Emerging Issues Task Force (EITF) Issue No. 00-14, Accounting for Certain Sales Incentives, EITF Issue No. 00-25, Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products, EITF Issue No. 00-22, Accounting for Points and Certain Other Time-or Volume-Based Sales Incentive Offers and Offers for Free Products or Services to be Delivered in the Future and EITF Issue No. 01-09, Accounting for Consideration Given by Vendor to a Customer or a Reseller of the Vendor's Products which all address certain aspects of sales incentives. The adoption of these EITFs did not have a material impact on the Company's financial position and results of operations.

NOTE 2 BALANCE SHEET COMPONENTS:

The components of accounts receivable from third parties, net are as follows (in thousands):

	June 30, 2002	December 31, 2001
	<u> </u>	<u> </u>
Accounts receivable from third parties, net:

Leasehold improvements	607	599
	12,472	12,405
Less: Accumulated depreciation and amortization	(10,081)	(8,802)
	\$ 2,391	\$ 3,603

Property and equipment includes \$99,000 of equipment under capital leases at June 30, 2002 and December 31, 2001. Accumulated depreciation and amortization for equipment under capital leases was \$99,000 and \$95,000 at June 30, 2002 and December 31, 2001, respectively. Depreciation expense for the six months ended June 30, 2002 and 2001 was \$1,080,000 and \$1,934,000, respectively. Amortization expense for purchased software, website and software development costs for the six months ended June 30, 2002 and 2001 was \$199,000 and \$259,000, respectively. Unamortized purchased software, website and software development costs was \$508,000 and \$672,000 at June 30, 2002 and December 31, 2001, respectively.

The components of accrued liabilities are as follows (in thousands):

	June 30, 2002	December 31, 2001
Accrued liabilities:		
Compensation and benefits	\$ 1,085	\$ 1,124
Consulting and professional services	294	1,357
Restructuring (Note 7)	31	523
Other	730	817
	\$ 2,140	\$ 3,821

NOTE 3 RELATED PARTIES:***Investments in related parties***

The Company owns 4.31% of the outstanding shares of Cyber Music Entertainment (CME), formerly Liquid Audio Japan (LAJ), and accounts for its investment under the equity method of accounting. The investment was written down to its fair value of \$0 at December 31, 2001.

Licensing and reseller agreements with Liquid Audio Korea Co. Ltd., Liquid Audio Greater China and Liquid Audio South East Asia through the strategic partner were terminated in 2001. No revenue was recorded in the six months ended June 30, 2002 and \$1,414,000 was recorded in the six months ended June 30, 2001.

Total business development revenue

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

Total business development revenues are summarized as follows (in thousands):

7

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Cyber Music Entertainment and strategic partner	\$	\$	\$	\$ 946
Liquid Audio Greater China and strategic partner		468		468
	\$	\$ 468	\$	\$ 1,414

The total fees earned from Cyber Music Entertainment and Liquid Audio Greater China relate to software licensing and maintenance fees in the periods indicated.

NOTE 4 COMPREHENSIVE LOSS:

Comprehensive loss includes net loss and other comprehensive income (loss). Other comprehensive income (loss) includes accumulated translation adjustments. The components of comprehensive loss are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Comprehensive loss:				
Net loss	\$ (5,642)	\$ (14,034)	\$ (10,535)	\$ (25,301)
Foreign currency translation adjustments	(32)	(3)	(25)	(49)
Unrealized gain on investments				6
	\$ (5,674)	\$ (14,037)	\$ (10,560)	\$ (25,344)

NOTE 5 NET LOSS PER SHARE:

Basic and diluted net loss per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period. The calculation of diluted net loss per share excludes potential common shares if the effect is anti-dilutive. Potential common shares consist of unvested restricted common stock, incremental common shares issuable upon the exercise of stock options and common shares issuable upon the exercise of common stock warrants.

The following table sets forth the computation of basic and diluted net loss per share for the periods indicated (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Numerator:				
Net loss	\$ (5,642)	\$ (14,034)	\$ (10,535)	\$ (25,301)
Denominator:				
Weighted average shares	22,738	22,602	22,724	22,572
Weighted average unvested common shares subject to repurchase	(1)	(9)	(1)	(9)

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

Denominator for basic and diluted calculation	22,737	22,593	22,723	22,563
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Net loss per share:				
Basic and diluted	\$ (0.25)	\$ (0.62)	\$ (0.46)	\$ (1.12)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Table of Contents

The following table sets forth potential shares of common stock that are not included in the diluted net loss per share calculation above because to do so would be anti-dilutive for the periods indicated (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Common stock options	2,604	3,233	2,604	3,233
Common stock warrants	748	875	748	875
Unvested common stock subject to repurchase	1	9	1	9
	<u>3,353</u>	<u>4,117</u>	<u>3,353</u>	<u>4,117</u>

NOTE 6 STRATEGIC MARKETING EQUITY AGREEMENTS:

In March and April 1999, the Company granted fully vested warrants to purchase 12,000 shares of common stock at \$6.56 per share. These warrants were valued at \$95,000 using the Black-Scholes option pricing model and were recognized as strategic marketing-equity instruments expense. At June 30, 2002, warrants to purchase 10,200 shares of common stock are outstanding and expire in April 2004.

In June 1999, the Company signed an Advertising Agreement with Amazon.com, Inc. (Amazon.com) to collaborate on event-based advertising using the Company's digital delivery services. In connection with this agreement, the Company issued a fully vested warrant to purchase approximately 254,000 shares of common stock to Amazon.com. The warrant was valued at \$2,022,000 and was recognized as strategic marketing-equity instruments expense ratably over the one-year term of the agreement, which ended in June 2000. At June 30, 2002, warrants to purchase approximately 254,000 shares of common stock are outstanding and expire in June 2004.

In August 1999, the Company signed a Digital Audio Co-Marketing and Distribution Agreement with Yahoo! to promote the distribution of digital music on its web site. In connection with this agreement, the Company granted Yahoo! three warrants to purchase a total of 250,000 shares of common stock. The first warrant for 83,334 shares vested immediately. The first warrant was valued at \$903,000 and was recognized ratably over the one-year term of the agreement as strategic marketing-equity instruments expense. The second warrant for 83,333 shares vested in August 2000. The second warrant was initially valued at \$426,000 and was recognized ratably over the one-year period ending at the vesting date as strategic marketing-equity instruments expense. The second warrant was revalued at each balance sheet date through the vesting date. As a result, the original charge of \$426,000 was reduced to \$312,000 based on market data during the vesting period. The third warrant for 83,333 shares vested in August 2001. The third warrant was initially valued at \$105,000 and was recognized ratably over the one-year period ending at the vesting date. The third warrant was revalued at each balance sheet date through the vesting date. As a result, the original charge of \$105,000 was reduced to \$54,000 based on market data during the vesting period. In the six months ended June 30, 2001, \$61,000 was recognized as strategic marketing-equity instruments expense for the third warrant. At June 30, 2002, warrants to purchase 83,334 and 166,666 shares of common stock are outstanding and expire in September 2002 and 2003, respectively.

In July 2000, the Company signed an agreement with Virgin Holdings, Inc. (Virgin), an affiliate of EMI Recorded Music, to promote the distribution of digital music over the Internet using the Company's technology. Pursuant to this agreement, the Company issued 150,000 shares of common stock to Virgin. These shares were valued at \$1,181,000 and were recognized as strategic marketing-equity instruments expense ratably over the one-year term of the agreement. As a result, \$591,000 was recognized as strategic marketing-equity instruments expense in the six months ended June 30, 2001.

Table of Contents

In December 2000, the Company signed an agreement with BMG Entertainment to obtain the right to distribute BMG sound recordings and related artwork through kiosks. In connection with this agreement, the Company issued 50,000 shares of common stock to BMG. These shares were valued at \$195,000 and which was recognized as non-cash cost of net revenues ratably over the one-year term of the agreement. As a result, \$96,000 was recognized as non-cash cost of net revenues in the six months ended June 30, 2001. Additionally, the Company granted warrants to purchase a total of 233,300 shares of common stock. Of the total, warrants to purchase 77,768 shares vested in December 2001, and the cost was remeasured each quarter until a commitment for performance was reached or the warrant vested based on market data. At December 4, 2001, the 77,768 shares under this warrant were valued at \$175,000, of which \$90,000 was recognized as non-cash cost of net revenues in the six months ended June 30, 2001. The remaining warrants to purchase common shares vest at 6,481 shares per month commencing December 2001 for one year and 6,480 shares per month commencing December 2002 for one year. We recorded a total of \$36,000 as non-cash cost of revenue in the six months ended June 30, 2002 related to the remaining warrants. Such warrants will be valued at the fair market value of the Company's common stock on each reporting date. At June 30, 2002, warrants to purchase 116,654 shares of common stock are outstanding and expire in December 2005.

NOTE 7 RESTRUCTURING:

In May 2001, the Company adopted a corporate restructuring program to reduce expenses to preserve the Company's cash position while the digital music market develops. The restructuring included a worldwide workforce reduction, a consolidation of three Redwood City, California offices into one facility and other expense management initiatives. A restructuring charge of \$4,497,000 was recorded in operating expense in the twelve months ended December 31, 2001.

The restructuring charge included involuntary employee separation costs of \$1,116,000 for 79 employees worldwide, 20 in sales and marketing, 32 in research and development, 13 in general and administrative and 6 in operations functions in the U.S., and 2 in sales and marketing, 3 in research and development and 3 in operations functions outside the U.S.

Lease costs of \$1,214,000 were accrued pertaining to the estimated future obligations for non-cancelable lease payments for excess facilities that were vacated due to reductions in workforce.

Asset impairment costs of \$2,167,000 were recorded, primarily for property and equipment, furniture and fixtures, computer software and leasehold improvements for assets no longer in use from de-emphasized business lines, reductions in workforce and excess facilities.

A summary of the restructuring cost is outlined as follows (in thousands):

	<u>Severance and Benefits</u>	<u>Facilities</u>	<u>Asset Impairments</u>	<u>Total</u>
Severance and benefits	\$ 1,116	\$	\$	\$ 1,116
Accrued lease costs		1,214		1,214
Property and equipment impairment			2,167	2,167
	<u>1,116</u>	<u>1,214</u>	<u>2,167</u>	<u>4,497</u>
Cash paid	(1,116)	(691)		(1,807)
Non-cash			(2,167)	(2,167)
	<u>1,116</u>	<u>1,214</u>	<u>2,167</u>	<u>4,497</u>
Restructuring reserve balance at December 31, 2001		523		523
Cash paid		(492)		(492)
	<u>1,116</u>	<u>1,214</u>	<u>2,167</u>	<u>4,497</u>
Restructuring reserve balance at June 30, 2002	\$	\$ 31	\$	\$ 31
	<u>\$</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>

Table of Contents

Remaining cash expenditures related to net lease expense due to the consolidation of facilities will be paid over the lease terms through the fourth quarter of 2002.

NOTE 8 CONTINGENCIES AND LEGAL PROCEEDINGS:

On July 23, 2002, MM Companies, Inc. (formerly musicmaker.com, Inc.) filed an action in Delaware Chancery Court against the Company, each member of the Company's board of directors, and Alliance Entertainment Corp. The complaint alleges that the directors of the Company and Alliance violated their fiduciary duties by entering into the merger and approving the Merger Agreement, and that the Company's directors further violated their fiduciary duties by making certain changes to the Company's shareholders rights plan. Alliance is alleged to have aided and abetted the alleged breaches of fiduciary duty by the Company's directors. According to the complaint, the plaintiff is seeking, among other things, to (i) invalidate the Merger Agreement, (ii) prevent the Company or Alliance from taking any actions to effectuate or enforce the Merger Agreement, the merger of the Company or Alliance, or the self tender-offer, (iii) direct the Company's board of directors to restore the trigger of the Company's shareholders rights plan to 15%, (iv) prevent enforcement of the Company's shareholders rights plan to the extent it prohibits the plaintiff and other stockholders from cooperating to assist in the solicitation of proxies for the Company's annual meeting, (v) damages for incidental injuries, and (vi) costs and expenses, including attorneys' fee and experts' fees. In connection with its complaint, MM Companies, Inc. filed a motion for a preliminary injunction and a motion for expedited proceedings. On July 31, 2002, MM Companies, Inc. withdrew its motion for a preliminary injunction and for expedited proceedings, and stated that it would file an amended complaint. To date, no amended complaint has been filed. If MM Companies, Inc. elects to pursue its claims in this matter, the Company intends to vigorously defend the action.

On May 30, 2002, musicmaker.com, Inc. filed an action in the Delaware Chancery Court to obtain certain stockholder information. The Company has since provided the requested stockholder information to musicmaker.com, Inc. and, as a result, this action is moot.

On May 3, 2002, musicmaker.com filed an action in the Delaware Chancery Court, pursuant to Title 8 Delaware Code section 211, seeking to compel the Company to hold an annual meeting of stockholders. The Company moved to dismiss on the grounds that the court lacked subject matter jurisdiction as 13 months had not elapsed since the Company's last annual stockholder meeting, held on June 1, 2001. On May 10, 2002, the board of directors set July 1, 2002 as the date for the 2002 Annual meeting and the Company's motion to dismiss was held in abeyance. On June 13, 2002, the Company publicly announced the execution of the original merger agreement and announced that, in light of the merger, the Company's board of directors had determined to postpone the 2002 annual meeting. The next day, musicmaker.com filed an amended complaint requesting that the court order the Company to hold its annual meeting on July 1, 2002. The court allowed the parties to take expedited discovery and scheduled a hearing for July 15, 2002. At the hearing and by Order dated July 24, 2002, the court granted the Company's request that the annual meeting be scheduled for September 26, 2002 so that the vote on the election of directors and the vote on the issuance of the Company's stock in the merger could proceed on the same day.

In October 2001, two lawsuits were filed in Delaware Chancery Court naming the Company and certain of its officers and directors as defendants. Both actions related to the Company's response to recent acquisition offers and purported to be class actions brought on behalf of the Company's shareholders. On February 1, 2002, the two complaints were consolidated into a single action, titled *In Re Liquid Audio, Inc., Shareholders Litigation*, Consolidated Civil Action No. 19212-NC. That action was brought against Gerald W. Kearby, Silvia Kessel, Ann L. Winblad and the Company. The complaint alleges that defendants had breached their fiduciary duties owed to the Company's shareholders in connection with the Company's response to acquisition offers from Steel Partners II, LLP and an investor group formed by musicmaker.com, Inc. The complaint seeks, among other things, a court order barring the Company from adopting or maintaining measures that would make the Company less attractive as a takeover candidate or, alternatively, awarding compensatory damages to the purported plaintiff class. To date, the Company has not responded to the complaint, nor has the court set a date for discovery cutoff or trial. The Company intends to vigorously defend the action. There is no assurance concerning the outcome of this action, or whether it will have a material effect on the Company's financial condition or business operations.

On or about September 27, 2001, Network Commerce, Inc. (NCI) filed a Complaint against the Company in the United States District Court for the Western District of Washington (Seattle). The suit alleges that the Company infringes the claims of United States Patent No. 6,073,124. NCI requests that the Company be enjoined from its allegedly infringing activities and seeks unspecified damages. The Company was served with the Complaint on November 2, 2001 and subsequently submitted its answer and included counterclaims.

On August 23, 2001, the Company received a demand letter from a former employee's legal counsel alleging claims for sexual harassment and retaliation. On September 13, 2001, the former employee filed a charge with the California Department of Fair Employment and Housing alleging such claims against the Company and one of its former employees. The Company completed an investigation and believes that there is no merit to the former employee's allegations. In May 2002, the parties entered into a final settlement regarding this matter. The settlement did not have a material impact on the Company's financial position or results of operations.

On July 20, 2001, a putative securities class action, captioned *Murowa Financial v. Liquid Audio, Inc. et al.*, Civil Action No. 01-CV-6661, was filed against the Company, certain of the Company's officers and directors (the Individual Defendants) and three underwriters in the Company's

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

initial public offering (the IPO), in the United States District Court for the Southern District of New York. The Complaint seeks unspecified damages on behalf of a purported class of purchasers of the Company's common stock between July 8, 1999 and December 6, 2000. Several complaints substantially identical to *Murowa* were later filed against the Company, the Individual Defendants, and several of the IPO underwriters in the Southern District of New York. These cases were consolidated under Civil Action No. 01-CV-6661. On April 19, 2002, an amended complaint was filed in this consolidated action, titled *In re Liquid Audio, Inc. Initial Public Offering Securities Litigation*. The amended complaint generally alleges that various investment bank underwriters engaged in improper and undisclosed activities related to the allocation of shares in the Company's initial public offering and secondary offering of securities. The complaint brings claims for violation of several provisions of the federal securities laws against those underwriters, and also contains claims against the Company and certain of its directors and officers. Various plaintiffs have filed similar actions asserting virtually identical allegations against more than 300 other companies. The lawsuit and all other IPO allocation securities class actions currently pending in the Southern District of New York have been assigned to Judge Shira A. Scheindlin for coordinated pretrial proceedings. The Company believes that it has meritorious defenses to the claims and intends to vigorously defend against such claims.

On or about April 7, 2000, Sightsound, Inc. (Sightsound) filed an amended complaint against one of the Company's customers in the United States District Court for the Western District of Pennsylvania. The suit alleges that the Company's customer infringes one or more of three patents (United States Patent Nos. 5,191,573; 5,675,734 and 5,996,440). Sightsound claims damages of \$20 million plus an unspecified royalty. The Company has entered into an agreement with the Company's customer agreeing to assume control of the defense and pay the defense costs, while reserving the Company's rights as to indemnification obligations. The customer filed an answer to the amended complaint on April 27, 2000, denying the material allegations of the complaint, and asserting counterclaims for declaratory judgment of non-infringement and patent invalidity. Following a claims construction hearing in 2001 and an initial report and recommendation on claim construction by the magistrate judge in February 2002 (which ruling is on appeal to the district judge), the Company renegotiated its agreement with the Company's customer concerning the defense of the case going forward. The Company has now ceded control of the defense of the case to the customer/Bertelsmann AG (the customer's ultimate owner), and is splitting the costs of the defense with the customer/Bertelsmann AG. The Company is still reserving its rights as to indemnification issues. A trial date had been set for September 28, 2001 in the matter, but that date will be reset after the Court rules on the claim construction and other pending matters.

NOTE 9 MERGER:

On June 12, 2002, the Company signed a definitive merger agreement with Alliance Entertainment Corp. (Alliance), a privately-held home entertainment product distribution, fulfillment and infrastructure company. On July 14, 2002, the Company and Alliance executed an amended and restated merger agreement that modified certain terms of the previously announced merger agreement.

April Acquisition Corp. was recently incorporated in Delaware solely for the purpose of the merger, and is a wholly-owned subsidiary of the Company. It does not conduct any business and has no material assets. Upon completion of the merger, April Acquisition Corp. will be merged with and into Alliance, and Alliance will continue as the surviving corporation of the merger and a wholly-owned subsidiary of the Company. Upon completion of the merger, each outstanding share of Alliance common stock will be converted into the right to receive a number of shares of the Company's stock which will result in the former stockholders of Alliance holding 74% of the outstanding voting power of the combined organization after the merger, without giving effect to any then outstanding options or warrants.

The Company and Alliance expect to complete the merger when all of the conditions to completions of the merger contained in the merger agreement have been satisfied or waived. The merger will become effective upon the filing of a certificate of merger with the Delaware Secretary of State under applicable Delaware law. The Company and Alliance are working toward satisfying the conditions to the merger, and hope to complete the merger as soon as practicable following the annual stockholder meeting, to be held on September 26, 2002.

In connection with the merger, the Company will make an offer to purchase 10,000,000 shares of its common stock at a purchase price of \$3.00 per share. If more than 10,000,000 shares of the Company's common stock are tendered, the Company will purchase 10,000,000 shares of its common stock on a pro rata basis from those stockholders tendering shares. The tender offer will expire on the day of the Company's stockholder meeting. Consummation of the tender offer is conditioned upon, among other things, approval of the issuance of the Company's stock in the merger by the Company's stockholders at the annual stockholder meeting. The approval of the issuance of the Company's stock in the merger will require the affirmative vote of a majority of the outstanding shares of the Company's common stock voting at the annual stockholder meeting.

The merger agreement provides that upon completion of the merger, the board of directors of the Company will be comprised of members designated by the Company to constitute one-third (1/3) of the board. Members designated by Alliance will constitute two-thirds (2/3) of the board.

The merger agreement provides that the Company and Alliance may agree by mutual written consent to terminate the merger agreement at any time before the completion of the. Under certain circumstances, either Alliance or the Company may unilaterally terminate the merger agreement. In certain of these circumstances, a termination fee will be payable by the Company to Alliance if the merger agreement is terminated. The amount of the termination fee will depend on the circumstances giving rise to the termination and may be up to \$3,000,000. Under the terms of the merger agreement, the Company will pay a \$3,000,000 termination fee to Alliance if:

the Company or Alliance terminates the merger agreement because the merger was not consummated by December 31, 2002, and within 12 months after such termination, the Company enters into a definitive agreement with respect to, or consummates, any

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

acquisition proposal;

Alliance terminates the merger agreement because a triggering event occurred prior to the approval of the issuance of the Company's stock in the merger by the required vote of the Company's stockholders; or

the Company terminates the merger agreement because it enters into a definitive agreement related to an offer from a third party superior to the merger agreement.

Table of Contents

Under the terms of the merger agreement, the Company will pay to Alliance a \$1,000,000 termination fee in the event either Alliance or the Company terminates the merger agreement because the required vote of the Company's stockholders for the issuance of the Company's stock in the merger shall have not been obtained at a meeting of the Company's stockholders or if Alliance or the Company terminates the merger agreement because the SEC shall have declined to grant an exemption from the requirements of Rule 102 of Regulation M in connection with the tender offer and the merger and counsel has not advised the Company that it may proceed in the absence of such exemption. If within 12 months after such termination, the Company enters into a definitive agreement with respect to, or consummates, any acquisition proposal, the Company will pay to Alliance an additional fee of \$750,000. If within 6 months after such termination, the Company completes a liquidation or dissolution, the Company will pay to Alliance an additional fee of \$750,000.

The Company also announced that its board of directors approved an amendment to its Preferred Stock Rights Agreement to revise the beneficial ownership threshold at which a person or group of persons becomes an acquiring person and triggers certain provisions under the Preferred Stock Rights Agreement. As revised, a person or group would become an acquiring person if that person or group becomes the beneficial owner of 10 percent or more of the outstanding shares of the Company's common stock. Prior to such amendment, the beneficial ownership threshold was 15 percent.

A Registration Statement on Form S-4 was filed with the SEC on July 23, 2002, setting forth the terms of the merger and putting up for vote the issuance of new shares of common stock and other routine matters at the Company's annual meeting of stockholders.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis contains forward-looking statements within the meaning of Federal securities laws. You can identify these statements because they use forward-looking terminology such as may, will, expect, anticipate, estimate, continue, intend or other similar words. These words, however, are not the exclusive means by which you can identify these statements. Examples of such forward-looking statements include, but are not limited to: statements about future expectations; statements containing projections of results of operations or of financial conditions; statements characterizing future events or circumstances; statements about the pending merger of the Company and Alliance Entertainment Corp. (the Merger) and statements about the market acceptance of our products and services. Such forward-looking statements involve risks and uncertainties, including, but not limited to, those risks and uncertainties relating to the costs and benefits associated with the Merger, the growth and viability of the digital music market, the adoption of security standards for digital music, the acceptance of our platform by consumers, our ability to obtain content and our history of losses. We have based all forward-looking statements included in Management's Discussion and Analysis on information currently available to us, and we assume no obligation to update any such forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, actual results could differ materially from those projected in the forward-looking statements. Potential risks and uncertainty include, but are not limited to, those set forth under the caption Additional Factors Affecting Future Results included in this Management's Discussion and Analysis of Financial Condition and Results of Operations.

While we believe that the discussion and analysis in this report is adequate for a fair presentation of the information, we recommend that you read this discussion and analysis in conjunction with Management's Discussion and Analysis included in our Annual Report on Form 10-K for the year ended December 31, 2001 filed with the Securities Exchange Commission (SEC).

Overview

We are a leading provider of software products and services that enable artists, record companies and retailers to create, syndicate and sell music digitally over the Internet. Our products and services are based on an open technical architecture that is designed to support a variety of digital music formats. From our inception in January 1996 through early 1997, we devoted substantially all of our efforts to product development, raising capital and recruiting personnel. We first generated revenues in the first quarter of 1997 through the licensing of our Liquifier Pro, Liquid Server and Liquid Player software products. In November 1997, we introduced a subscription-based hosting service for digital recorded music using our technology. In July 1998, to enhance consumer access to the music we were hosting, we launched the Liquid Music Network (LMN), a syndicated network leading music-related and music retailer websites.

In early 1999, we began to place greater emphasis on developing and marketing our digital music delivery services. Since that time, we have invested significant resources to increase our distribution reach by expanding the LMN, building our syndicated music catalog available for sale, actively participating in standards initiatives and establishing our international presence. As a provider of digital music delivery services, we expect our revenue sources to expand beyond software license sales to include sales of digital recorded music and digital music subscriptions. Revenues from digital music sales and transaction fees from our music delivery services represented less than 24%, 7% and 6% of total net revenues in the six months ended June 30, 2002 and the twelve months ended December 31, 2001 and 2000, respectively. Our Liquid Music Network began offering syndicated music through music retailer websites in the third quarter of 1999.

Business development revenues as a percentage of total net revenues were 0%, 61% and 63% in the six months ended June 30, 2002 and the twelve months ended December 31, 2001 and 2000, respectively. In 2001, we terminated our agreements with Liquid Audio Japan, Liquid Audio Korea, Liquid Audio Greater China and Liquid Audio South East Asia through our strategic partner.

Table of Contents

In May 2001, we adopted a corporate restructuring program to reduce expenses to preserve our cash position while the digital music market develops. The restructuring included a worldwide workforce reduction, a consolidation of three Redwood City, California offices into one facility and other expense management initiatives. We de-emphasized our efforts in less productive, non-core business areas that do not directly support secure digital download opportunities, including digital music kiosks, music hosting for independent artists and labels, music clips service and encoding services. We continue to focus on software licensing and digital music delivery services that complement our secure digital download business. We support the emerging market for digital music subscriptions, enabling major portals, online retailers and secure audio device manufacturers to offer subscription-based digital music download services. This strategy leverages and enhances both our core digital download services and our player software licensing business. At June 30, 2002, we have a remaining \$31,000 restructuring accrual balance related to estimated future obligations for non-cancelable lease payments for excess facilities that were vacated due to reductions in workforce. This accrual will be paid over the lease terms through the fourth quarter of 2002.

On June 12, 2002, we signed a definitive merger agreement with Alliance Entertainment Corp. (Alliance), a privately-held home entertainment product distribution, fulfillment and infrastructure company. On July 14, 2002, we and Alliance executed an amended and restated merger agreement that modified certain terms of the previously announced merger agreement. We and Alliance believe that the combination of our two businesses will permit us to develop effective and efficient means to deliver services to our customers.

April Acquisition Corp. was recently incorporated in Delaware solely for the purpose of the merger, and is our wholly-owned subsidiary. It does not conduct any business and has no material assets. Upon completion of the merger, April Acquisition Corp. will be merged with and into Alliance, and Alliance will continue as the surviving corporation of the merger and our wholly-owned subsidiary. Upon completion of the merger, each outstanding share of Alliance common stock will be converted into the right to receive a number of shares of our stock which will result in the former stockholders of Alliance holding 74% of the outstanding voting power of the combined organization after the merger, without giving effect to any then outstanding options or warrants.

We and Alliance expect to complete the merger when all of the conditions to completions of the merger contained in the merger agreement have been satisfied or waived. The merger will become effective upon the filing of a certificate of merger with the Delaware Secretary of State under applicable Delaware law. We and Alliance are working toward satisfying the conditions to the merger, and hope to complete the merger as soon as practicable following the annual stockholder meeting, to be held on September 26, 2002.

In connection with the merger, we will make an offer to purchase 10,000,000 shares of our common stock at a purchase price of \$3.00 per share. If more than 10,000,000 shares of our common stock are tendered, we will purchase 10,000,000 shares of our common stock on a pro rata basis from those stockholders tendering shares. The tender offer will expire on the day of our stockholder meeting. Consummation of the tender offer is conditioned upon, among other things, approval of the issuance of our stock in the merger by our stockholders at the annual stockholder meeting. The approval of the issuance of our stock in the merger will require the affirmative vote of a majority of the outstanding shares of the our common stock voting at the annual stockholder meeting.

The merger agreement provides that upon completion of the merger, our board of directors will be comprised of members designated by us to constitute one-third ($1/3$) of the board. Members designated by Alliance will constitute two-thirds ($2/3$) of the board.

The merger agreement provides that we and Alliance may agree by mutual written consent to terminate the merger agreement at any time before the completion of the merger. Under certain circumstances, either Alliance or we may unilaterally terminate the merger agreement. In certain of these circumstances, a termination fee will be payable by us to Alliance if the merger agreement is terminated. The amount of the termination fee will depend on the circumstances giving rise to the termination and may be up to \$3.0 million. Under the terms of the merger agreement, we will pay a \$3.0 million termination fee to Alliance if:

we or Alliance terminate the merger agreement because the merger was not consummated by December 31, 2002, and within 12 months after such termination, we enter into a definitive agreement with respect to, or consummate, any acquisition proposal;

Table of Contents

Alliance terminates the merger agreement because a triggering event occurred prior to the approval of the issuance of our stock in the merger by the required vote of our stockholders; or

we terminate the merger agreement because we enter into a definitive agreement related to an offer from a third party superior to the merger agreement.

Under the terms of the merger agreement, we will pay to Alliance a \$1.0 million termination fee in the event either Alliance or we terminate the merger agreement because the required vote of our stockholders for the issuance of our stock in the merger shall have not been obtained at a meeting of our stockholders or if Alliance or we terminate the merger agreement because the SEC shall have declined to grant an exemption from the requirements of Rule 102 of Regulation M in connection with the tender offer and the merger and counsel has not advised us that we may proceed in the absence of such exemption. If within 12 months after such termination, we enter into a definitive agreement with respect to, or consummate, any acquisition proposal, we will pay to Alliance an additional fee of \$750,000. If within 6 months after such termination, we complete a liquidation or dissolution, we will pay to Alliance an additional fee of \$750,000.

We also announced that our board of directors approved an amendment to our Preferred Stock Rights Agreement to revise the beneficial ownership threshold at which a person or group of persons becomes an acquiring person and triggers certain provisions under the Preferred Stock Rights Agreement. As revised, a person or group would become an acquiring person if that person or group becomes the beneficial owner of 10 percent or more of the outstanding shares of our common stock. Prior to such amendment, the beneficial ownership threshold was 15 percent.

A Registration Statement on Form S-4 was filed with the SEC on July 23, 2002, setting forth the terms of the merger and putting up for vote the issuance of new shares of common stock and other routine matters at our annual meeting of stockholders.

We have a limited operating history upon which investors may evaluate our business and prospects. Since inception we have incurred significant losses, and as of June 30, 2002 we had an accumulated deficit of approximately \$121.6 million. We expect to incur additional losses and continued negative cash flow from operations through at least 2003. Our revenues may not increase or even continue at their current levels and we may not achieve or maintain profitability or generate cash from operations in future periods. The digital music market may never develop to the extent that we are able to generate positive cash flows. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stages of development, particularly companies in new and rapidly evolving markets such as the digital delivery of recorded music. We may not be successful in addressing these risks, and our failure to do so would harm our business.

Table of Contents**Results of Operations**

The following table sets forth, for the periods presented, certain data derived from our unaudited condensed statement of operations as a percentage of total net revenues. The operating results in any period are not necessarily indicative of the results that may be expected for any future period.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Net revenues:				
License	26%	19%	27%	18%
Services	74	35	73	29
Business development (related party)		46		53
Total net revenues	100	100	100	100
Cost of net revenues:				
License	56	12	63	11
Services	115	36	106	40
Non-cash cost of revenue	24	10	24	7
Total cost of net revenues	195	58	193	58
Gross profit (loss)	(95)	42	(93)	42
Operating expenses:				
Sales and marketing	679	299	763	287
Non-cash sales and marketing	(21)	(7)	(7)	(2)
Research and development	1,930	462	2,076	371
Non-cash research and development	2	(3)	3	(1)
General and administrative	1,262	301	1,053	234
Non-cash general and administrative		(2)		(1)
Strategic marketing-equity instruments		33		24
Restructuring		358		137
Total operating expenses	3,852	1,441	3,888	1,049
Loss from operations	(3,947)	(1,399)	(3,981)	(1,007)
Other income (expense), net	211	114	297	106
Net loss in equity investment		(86)		(41)
Net loss	(3,736)%	(1,371)%	(3,684)%	(942)%

Three Months Ended June 30, 2002 and 2001*Total Net Revenues*

Total net revenues decreased 85% to \$151,000 for the three months ended June 30, 2002 from \$1.0 million in the comparable period of 2001.

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

License. License revenues primarily consist of fees from licensing our software products to third parties. License revenues decreased 79% to \$40,000 for the three months ended June 30, 2002 from \$194,000 in the comparable period of 2001. This decrease was due to lower Liquid Player software licensing.

Services. Services revenues primarily consist of maintenance fees related to our licensed software products, hosting fees, encoding, music delivery and transaction fees, promotion and advertising services and kiosk-related equipment sales from third parties. Services revenues decreased 69% to \$111,000 for the three months ended June 30, 2002 from \$362,000 in the comparable period of 2001. This decrease was due to decreases in encoding services, promotion and advertising services, Liquid Muze Previews service and hosting fees.

Table of Contents

Business Development (Related Party). Business development revenues primarily consist of license and maintenance fees from agreements under which we give our strategic related partners the right to license and use our digital recorded music delivery technology. Business development revenues decreased to \$0 for the three months ended June 30, 2002 from \$468,000 in the comparable period of 2001. The decrease was due to the termination of our agreements in 2001 with Liquid Audio Japan, Liquid Audio Korea, Liquid Audio Greater China and Liquid Audio South East Asia through our strategic partner. Revenue for the 2001 period relates solely to software licensing and related maintenance revenues earned from Liquid Audio Greater China. We do not expect to derive significant revenue from business development arrangement in the foreseeable future.

In the three months ended June 30, 2002, approximately 12% of total net revenues came from sales to one customer, Country Music Hall of Fame. In the three months ended June 30, 2001, approximately 47% of total net revenues came from sales to one customer, Liquid Audio Greater China. International revenues represented approximately 14% and 48% of total net revenues in the three months ended June 30, 2002 and 2001, respectively.

Total Cost of Net Revenues

Our gross profit (loss) decreased to approximately (95)% of total net revenues for the three months ended June 30, 2002 from approximately 42% of total net revenues in the comparable period of 2001. Total cost of net revenues decreased 50% to \$294,000 in the 2002 period from \$590,000 in the 2001 period.

License. Cost of license revenues primarily consists of royalties paid for third-party technology. Cost of license revenues decreased 34% to \$84,000 for the three months ended June 30, 2002 from \$128,000 in the comparable period of 2001. Cost of license revenues decreased due to lower license revenues and product mix differences, partially offset by royalties for additional third-party technologies.

Services. Cost of services revenues primarily consists of compensation for customer service, encoding and professional services personnel, kiosk-related equipment and an allocation of our occupancy costs and other overhead attributable to our services revenues. Cost of services revenues decreased 52% to \$174,000 for the three months ended June 30, 2002 from \$364,000 in the comparable period of 2001. The decrease in cost of services revenues was due to the reduction in the number of encoding, customer service and professional services personnel from 28 to 8 due to our corporate restructuring.

Non-Cash Cost of Revenues. Non-cash cost of revenues consist of expenses associated with the value of common stock and warrants issued to partners as part of our content acquisition agreements and stock-based employee compensation arrangements. Common stock expense is based on the fair value of the stock at the time it was issued. Warrant expense is based on the estimated fair value of the warrants based on the Black-Scholes option pricing model and the provisions of EITF 96-18. In December 2000, we signed an agreement with BMG Entertainment (BMG) to obtain the right to distribute BMG sound recordings and related artwork through kiosks. In connection with this agreement, we issued 50,000 shares of common stock to BMG, valued at \$195,000 and which was recognized ratably over the initial one-year term of the agreement; as a result, \$49,000 was recognized as non-cash cost of revenues in the three months ended June 30, 2001. Also in connection with this agreement, we granted a warrant for a total of 233,300 shares of common stock. Of the total, warrants to purchase 77,768 shares vested in December 2001, and the cost was remeasured each quarter until a commitment for performance was reached or the warrant vested, based on market data. At December 4, 2001, the 77,768 shares under this warrant were valued at \$175,000, of which \$55,000 was recognized as non-cash cost of revenues for the three months ended June 30, 2001. The remaining warrants to purchase common shares vest at 6,481 shares per month commencing December 2001 for one year and 6,480 shares per month commencing December 2002 for one year. We recorded a total of \$36,000 as non-cash cost of revenue in the three months ended June 30, 2002 related to the remaining warrants. Such warrants are valued at the fair market value of our common stock at each vesting date. Stock compensation expense for customer service, encoding and professional services personnel were \$0 and \$(6,000) in the three months ended June 30, 2002 and 2001, respectively. We have fully amortized stock compensation expense related to these personnel in 2001, and accordingly no future expense related to these stock options will be incurred.

Table of Contents

Operating Expenses

Sales and Marketing. Sales and marketing expenses consist primarily of compensation for our sales, marketing and business development personnel, compensation for customer service and professional services personnel attributable to sales and marketing activities, advertising, trade show and other promotional costs, design and creation expenses for marketing literature and our website and an allocation of our occupancy costs and other overhead. Sales and marketing expenses decreased 66% to \$1.0 million for the three months ended June 30, 2002 from \$3.1 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of sales and marketing personnel from 59 to 19 due to our corporate restructuring and expense management initiatives, advertising and promotional programs.

Research and Development. Research and development expenses consist primarily of compensation for our research and development, network operations and product management personnel, payments to outside contractors and, to a lesser extent, depreciation on equipment used for research and development and an allocation of our occupancy costs and other overhead. Research and development expenses decreased 38% to \$2.9 million for the three months ended June 30, 2002 from \$4.7 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of personnel from 88 to 51 and outside contractors due to our corporate restructuring and expense management initiatives.

General and Administrative. General and administrative expenses consist primarily of compensation for personnel and payments to outside contractors for general corporate functions, including finance, information systems, human resources, facilities, legal and general management, fees for professional services, bad debt expense and an allocation of our occupancy costs and other overhead. General and administrative expenses decreased 38% to \$1.9 million for the three months ended June 30, 2002 from \$3.1 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of personnel from 31 to 17 and outside contractors due to our corporate restructuring and expense management initiatives.

Strategic Marketing Equity Instruments. Strategic marketing-equity instruments consist of expenses associated with the value of common stock and warrants issued to partners as part of our strategic marketing agreements. Common stock expense is based on the fair value of the stock at the time it was issued. Warrant expense is based on the estimated fair value of the warrants based on the Black-Scholes option pricing model and the provisions of EITF 96-18. Strategic marketing-equity instruments expense was \$0 and \$340,000 in the three months ended June 30, 2002 and 2001, respectively. In August 1999, we signed a Digital Audio Co-Marketing and Distribution Agreement with Yahoo! to promote the distribution of digital music on its web site. In connection with this agreement, we granted Yahoo! three warrants to purchase a total of 250,000 shares of common stock. The first warrant for 83,334 shares vested immediately. The first warrant was valued at \$903,000 and was recognized ratably over the one-year term of the agreement. The second warrant for 83,333 shares vested in August 2000. The second warrant was initially valued at \$426,000 and was recognized ratably over the one-year period ending at the vesting date. The second warrant was revalued at each balance sheet date through the vesting date. As a result, the original charge of \$426,000 was reduced to \$312,000 based on market data during the vesting period. The third warrant for 83,333 shares vested in August 2001. The third warrant was initially valued at \$105,000 and was recognized ratably over the one-year period ending at the vesting date. The third warrant was revalued at each balance sheet date through the vesting date. As a result, the original charge of \$105,000 was reduced to \$54,000 based on market data during the vesting period. In the three months ended June 30, 2001, \$0, \$0 and \$45,000 were recognized as strategic marketing-equity instruments expense for the first, second and third warrants, respectively. In July 2000, we signed an agreement with Virgin Holdings, Inc. (Virgin), an affiliate of EMI Recorded Music, to promote the distribution of digital music over the Internet using our technology. Pursuant to this agreement, we issued 150,000 shares of common stock to Virgin. These shares were valued at \$1.2 million and recognized ratably over the one-year term of the agreement. As a result, \$295,000 was recognized as strategic marketing-equity instruments expense in the three months ended June 30, 2001.

Non-Cash Sales and Marketing, Research and Development and General and Administrative. Non-cash sales and marketing, research and development and general and administrative expenses relate to stock-based employee compensation arrangements. The total unearned compensation recorded by us from inception to June 30, 2002 was \$3.5 million. We recognized \$(28,000) and \$(119,000) of stock compensation expense for the three months ended

Table of Contents

June 30, 2002 and 2001, respectively. We expect quarterly amortization related to those options to be between \$5,000 and \$3,000 per quarter during the remainder of 2002. These future compensation charges would be reduced if sales and marketing, research and development and general and administrative employees who hold the applicable options terminate employment prior to the expiration of their option vesting period.

Restructuring. Restructuring charge relates to costs associated with our corporate restructuring program adopted in May 2001. The \$3.7 million charge in the three months ended June 30, 2001 consists of involuntary employee separation costs of \$1.1 million, lease costs of \$824,000 pertaining to estimated future obligations for non-cancelable lease payments for excess facilities that were vacated due to reductions in workforce, and asset impairment costs of \$1.7 million for property and equipment, furniture and fixtures, computer software and leasehold improvements no longer in use from de-emphasized product lines, reductions in workforce and excess facilities.

Other Income (Expense), Net. Interest income consists of earnings on our cash, cash equivalents and short-term investments. Interest expense consists of expenses related to our financing obligations, which include borrowings under equipment loans and capital lease obligations. Other income (expense), net decreased to \$318,000 for the three months ended June 30, 2002 from \$1.2 million in the comparable period of 2001. The decrease was due to lower average cash and cash equivalent balances resulting from cash used in operating activities, and lower interest rates.

Loss in Equity Investment. Loss in equity investment consists of our share of losses from our investment in a related party accounted for using the equity method of accounting. Loss in equity investment was \$0 and \$881,000 for the three months ended June 30, 2002 and 2001, respectively. The net balance of our investments in Cyber Music Entertainment has been reduced to zero at December 31, 2001.

Six Months Ended June 30, 2002 and 2001

Total Net Revenues

Total net revenues decreased 89% to \$286,000 for the six months ended June 30, 2002 from \$2.7 million in the comparable period of 2001.

License. License revenues decreased 84% to \$76,000 for the six months ended June 30, 2002 from \$484,000 in the comparable period of 2001. This decrease was due to lower Liquid Player software and technology licensing.

Services. Services revenues decreased 73% to \$210,000 for the six months ended June 30, 2002 from \$787,000 in the comparable period of 2001. This decrease was due to decreases in encoding services, kiosk-related equipment sales, promotion and advertising services and Liquid Muze Previews service in the 2001 period.

Business Development (Related Party). Business development revenues decreased to \$0 for the six months ended June 30, 2002 from \$1.4 million in the comparable period of 2001. The decrease was due to the termination of our agreements in 2001 with Liquid Audio Japan, Liquid Audio Korea, Liquid Audio Greater China and Liquid Audio South East Asia through our strategic partner. Revenue for the 2001 period relates solely to software licensing and related maintenance revenues earned from Liquid Audio Japan and Liquid Audio Greater China.

Total Cost of Net Revenues

Our gross profit (loss) decreased to approximately (93)% of total net revenues for the six months ended June 30, 2002 from approximately 42% of total net revenues in the comparable period of 2001. Total cost of net revenues decreased 64% to \$552 for the six months ended June 30, 2002 from \$1.5 million in the comparable period of 2001.

License. Cost of license revenues decreased 37% to \$181,000 for the six months ended June 30, 2002 from \$287,000 in the comparable period of 2001. Cost of license revenues decreased due to lower license revenues and product mix differences, partially offset by royalties for additional third-party technologies.

Table of Contents

Services. Cost of services revenues decreased 72% to \$302,000 for the six months ended June 30, 2002 from \$1.1 million in the comparable period of 2001. The decrease in cost of services revenues was due the reduction in the number of encoding, customer service and professional services personnel and kiosk-related equipment due to our corporate restructuring.

Non-Cash Cost of Revenues. Non-cash cost of revenues were \$69,000 for the six months ended June 30, 2002 and \$181,000 in the comparable period of 2001.

Operating Expenses

Sales and Marketing. Sales and marketing expenses decreased 72% to \$2.2 million for the six months ended June 30, 2002 from \$7.7 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of personnel and outside contractors due to our corporate restructuring and expense management initiatives.

Research and Development. Research and development expenses decreased 40% to \$5.9 million for the six months ended June 30, 2002 from \$10.0 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of personnel and outside contractors due to our corporate restructuring and expense management initiatives.

General and Administrative. General and administrative expenses decreased 52% to \$3.0 million for the six months ended June 30, 2002 from \$6.3 million in the comparable period of 2001. This decrease was primarily due to decreases in the number of personnel and outside contractors due to our corporate restructuring and expense management initiatives, and lower legal fees related to patent infringement claims against us (see Part II, Item 1 Legal Proceedings).

Strategic Marketing Equity Instruments. Strategic marketing-equity instruments expense was \$0 for the six months ended June 30, 2002 and \$652,000 in the comparable period in 2001.

Non-Cash Sales and Marketing, Research and Development and General and Administrative. We recognized \$(12,000) and \$(96,000) of non-cash sales and marketing, research and development and general and administrative expenses for the six months ended June 30, 2002 and 2001, respectively.

Restructuring. Restructuring charge was \$0 and \$3.7 million for the six months ended June 30, 2002 and 2001, respectively.

Other Income (Expense), Net. Other income (expense), net decreased to \$851,000 for the six months ended June 30, 2002 from \$2.8 million in the comparable period of 2001. The decrease was due to lower average cash and cash equivalent balances resulting from cash used in operating activities, and lower interest rates.

Net Loss in Equity Investment. Net loss in equity investment was \$0 and \$1.1 million for the six months ended June 30, 2002 and 2001, respectively.

Liquidity and Capital Resources

Since inception, we have financed our operations primarily through the initial and follow-on public offerings of common stock, private placements of our preferred stock, equipment financing, lines of credit and short-term loans. As of June 30, 2002, we had raised \$65.9 million and \$93.7 million through our initial and follow-on public offerings of common stock in July 1999 and December 1999 respectively, and \$29.8 million through the sale of our preferred stock through September 1998. At June 30, 2002, we had approximately \$81.0 million of cash and cash equivalents.

Table of Contents

Net cash used in operating activities was \$10.4 million and \$19.0 million for the six months ended June 30, 2002 and 2001, respectively. Net cash used for operating activities in the 2002 period was primarily the result of net losses from operations, depreciation and amortization of \$1.3 million, amortization of unearned compensation of \$(13,000), non-cash cost of revenue of \$69,000 and a net decrease in working capital items of \$1.2 million. The net decrease in working capital items include a decrease in accounts receivable of \$15,000, decrease in other assets of \$471,000, increase in accounts payable of \$3,000, decrease in accrued liabilities of \$1.7 million and a decrease in deferred revenue of \$13,000. Net cash used for operating activities in the 2001 period was primarily the result of net losses from operations, depreciation and amortization of \$2.2 million, amortization of unearned compensation of \$(101,000), strategic marketing equity instruments charges of \$652,000, non-cash cost of revenue of \$186,000, an increase in the allowance for doubtful accounts and sales returns reserve of \$1.1 million, loss in equity investment of \$1.1 million, loss on disposal of and write-down of property and equipment of \$1.7 million and a net decrease in working capital items of \$542,000. The net decrease in working capital items include an increase in accounts receivable of \$122,000, decrease in other assets of \$176,000, decrease in accounts payable of \$1.0 million, increase in accrued liabilities of \$457,000 and a decrease in deferred revenue of \$250,000.

Net cash provided by (used in) investing activities was \$(67,000) and \$26.6 million for the six months ended June 30, 2002 and 2001, respectively. Net cash used in investing activities in the 2002 period was primarily due to acquisition of property and equipment. Net cash provided by investing activities in the 2001 period was primarily due to net sales of short-term investments of \$27.4 million, partially offset by acquisition of property and equipment of \$689,000.

Net cash used in financing activities was \$112,000 and \$211,000 for the six months ended June 30, 2002 and 2001, respectively. The net cash used in financing activities for both periods is due primarily to payments made under our equipment loan and capital leases.

We had a bank equipment loan facility that provided for advances of up to \$3.0 million through November 1999. Borrowings under the equipment loan facility were repayable in monthly installments over three years and bore interest at the bank's prime interest rate plus 0.25%. Borrowings were collateralized by the related equipment and other assets. Under the equipment loan facility, we had borrowed amounts totaling \$1.8 million through June 30, 2002, and no amounts are outstanding as of June 30, 2002. Our other significant commitments consist of obligations under non-cancelable operating leases, which totaled \$6.4 million, net of rental income of \$21,000, as of June 30, 2002 and are payable in monthly installments through 2005 and a note payable to related party in the amount of \$376,000 that was issued in the three months ended March 31, 1999. The note payable to related party is repayable in Japanese yen and bears interest at 0.5% above a Japanese bank's prime rate. The principal is due on December 31, 2003, with quarterly interest payments. The terms of the strategic related partner note payable require us to make quarterly interest payments. At June 30, 2002, we were not in compliance with the interest payment requirement. We are currently applying for a waiver from the strategic related partner with respect to our non-compliance with making quarterly interest payments. To obtain a waiver, we may have to make payments of all interest due to date and additional default interest of 10% on unpaid amounts outstanding, which has been accrued at June 30, 2002. As a result of our default of these payments, the strategic related partner has a right to accelerate payment of all amounts outstanding under the note payable and demand immediate full payment of all amounts due, including outstanding interest and penalties. Accordingly, we have classified the outstanding balance under the note payable as a current liability. If we are successful in obtaining a waiver from the strategic partner, then the note payable will be reclassified as a long-term liability.

In the past, we derived a significant portion of our revenues from business development fees from relationships with our international partners, including Liquid Audio Japan, Liquid Audio Korea, Liquid Audio Greater China and Liquid Audio South East Asia through our strategic partner. We terminated our relationships with these partners in 2001. Consequently, we do not expect additional revenue or cash payments will be generated from them. At June 30, 2002, we held 4.31% of the outstanding stock of Cyber Music Entertainment (CME), formerly Liquid Audio Japan, and had written down our investment to \$0 under the equity method of accounting.

We have no material commitments for capital expenditures or strategic investments and anticipate a low rate of capital expenditures. We may use cash to acquire or license technology, products or businesses related to our current

Table of Contents

business. In addition, we anticipate that we will experience low or no growth or a decline in our operating expenses for the foreseeable future and that our operating expenses will be a material use of our cash resources.

Future payments due under debt and lease obligations as of June 30, 2002 are as follows (in thousands):

	Note Payable to Related Party	Equipment Loan	Capital Leases	Operating Leases	Total
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
2002	\$ 376	\$	\$ 12	\$ 1,202	\$ 1,590
2003				2,100	2,100
2004				2,163	2,163
2005				904	904
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
	<u>\$ 376</u>	<u>\$</u>	<u>\$ 12</u>	<u>\$ 6,369</u>	<u>\$ 6,757</u>

We believe that existing cash and cash equivalents will be sufficient to meet our anticipated cash needs for working capital and capital expenditures for the foreseeable future, although we may seek to raise additional capital during that period. The sale of additional equity or convertible debt securities could result in additional dilution to our stockholders. There can be no assurance that financing will be available in amounts or on terms acceptable to us, if at all.

Market Risk

No material changes exist to our market risk during the six months ended June 30, 2002. For additional information, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Form 10-K for the year ended December 31, 2001 filed with the SEC.

Table of Contents

ADDITIONAL FACTORS AFFECTING FUTURE RESULTS

Before deciding to invest in us or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in this report and in our other filings with the SEC, including our Annual Report on Form 10-K filed March 29, 2002 and our Registration Statement on Form S-4 filed July 23, 2002. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business operations. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price of our common stock could decline and you may lose all or part of your investment. References to the combined organization in this section entitled **Additional Factors Affecting Future Results** refer to Liquid Audio, Inc. and Alliance Entertainment Corp. as a combined entity following the proposed merger between the two companies, as more fully described under **Item 2 Management's Discussion of Financial Condition and Results of Operations**.

If the Merger with Alliance Does Not Occur, We Will Not Receive the Expected Benefits of the Merger

The completion of the merger is subject to a number of conditions, including the approval of both our and Alliance stockholders. If one of the conditions to complete the merger is not satisfied or waived, then the merger may not be completed.

If the merger is not completed, the expected benefits of the merger will not be realized. In addition, in anticipation of the completion of the merger, we have implemented certain changes to our business operations, including a reduction in our workforce. As a result, if the merger is not completed, we may not have sufficient employees to continue our current operations. Failure to complete the merger could have a material adverse effect on our future business, financial condition and operating results.

In the event that the proposed merger with Alliance is terminated by us or if our stockholders fail to approve the proposed merger, we may be obligated to pay a termination fee of up to \$3.0 million.

The Combined Organization May Not Realize the Expected Benefits from the Merger and the Market Price of Our Stock May Decline as a Result of the Merger

We believe that the merger of Alliance and us will result in benefits to the combined organization that outweigh the costs and expenses related to the merger and increase stockholder value. Achieving these benefits, however, will depend on a number of factors, including:

- effectively and efficiently integrating the operations, information systems and personnel of the two companies to achieve operating efficiencies;
- beneficially exploiting the increased complexity and diversity of operations of the combined organization;
- retaining key management, marketing, sales and technical personnel;
- averting the potential diversion of management's attention from other business concerns to the combination of the companies;
- retaining key customers;
- increasing the combined organization's customer base and product sales;
- keeping step with industry trends and technological advances;
- adjusting to changing market conditions;

Table of Contents

successfully pursuing anticipated revenue opportunities in emerging channels of distribution; and

effectively addressing unanticipated problems or legal liabilities.

In addition, successful integration of the operations of us and Alliance may place a significant burden on the management and internal resources of the combined organization. The diversion of management's attention and any difficulties encountered in the transition and integration process could have a material adverse effect on the future business, financial condition and operating results of the combined organization.

Our Stockholders May Not Realize a Benefit from the Merger Commensurate with the Ownership Dilution They Will Experience in Connection with the Merger

If the combined organization is unable to realize the strategic and financial benefits currently anticipated from the merger, our stockholders will have experienced substantial dilution of their ownership interest without receiving any commensurate benefit. In connection with the merger, we will issue shares of our stock representing 74% of our voting power following the merger. In addition, the exercise of options assumed by us in the merger will further dilute the ownership interests of our current stockholders.

The Tender Offer and the Merger Will Require Substantial Expenditures

We estimate that we will incur aggregate pre-tax costs of approximately \$6.6 million associated with the merger, as well as severance costs relating to employees, in addition to the \$30 million that will be paid upon completion of the tender offer, assuming that 10 million shares of our common stock are tendered. In addition, the combined organization expects to incur certain costs in connection with the integration of the two companies. Such costs cannot now be reasonably estimated, because they depend on future decisions to be made by management of the combined organization, but they could be material. These costs and expenses will affect results of operations in the quarter in which the merger is completed. Even if the merger is not completed, we will incur our portion of these total costs and expenses, other than the cost of paying the consideration for shares of our common stock tendered in the tender offer. Additionally, if the merger is terminated, we will incur termination fees under certain conditions. See *If the Merger with Alliance Does Not Occur, We Will Not Receive the Expected Benefits of the Merger*.

The Nasdaq National Market May Delist Our Common Stock Following the Merger

The Nasdaq staff may determine that the proposed merger would constitute a reverse merger under National Association of Securities Dealers Rule 4330(f). Following the announcement of the merger in June 2002, we received correspondence from the Nasdaq staff indicating that the staff believes that the merger may result in a change of control that would require us to submit an initial listing application following the consummation of the merger and, at the time of the application, meet all of the criteria applicable to a company initially requesting inclusion in The Nasdaq National Market. The Nasdaq staff has subsequently indicated that it intends to find that the merger will result in a change of control and that it will constitute a reverse merger. If the Nasdaq staff determines that a change of control has occurred, we will be required to satisfy the requirements, for initial inclusion on The Nasdaq National Market in order for our common stock to remain listed on The Nasdaq National Market. Currently, we would not satisfy these requirements, and it is unlikely such requirements will be satisfied following the consummation of the merger. If we do not meet these requirements upon completion of the merger, we anticipate that our common stock will be delisted from The Nasdaq National Market following the completion of the merger. If we are delisted from The Nasdaq National Market System, we may be allowed to transfer our securities from The Nasdaq National Market to The Nasdaq SmallCap Market.

Any of the foregoing may adversely impact our stock price, as well as our liquidity and the ability of our stockholders to purchase and sell our shares in an orderly manner, or at all. Furthermore, a delisting of our shares could damage our general business reputation and impair our ability to raise additional funds. Any of the foregoing events could have a material adverse effect on our business, financial condition and operating results.

We Have Never Been Profitable, and Alliance Has Recently Incurred Net Losses, and You Cannot Be Sure that We or the Combined Organization Will Achieve Profitability

Table of Contents

In each of the years we have been in business, we have experienced net losses. Our net losses were approximately \$33.7 million and \$37.2 million in 2000 and 2001, respectively, and \$10.5 million for the six months ended June 30, 2002. Alliance had net income for the year ended December 31, 2001 but experienced a net loss of approximately \$1.0 million for the three months ended March 31, 2002. We expect that our business will continue to incur net losses for the remainder of the 2002 fiscal year. There can be no assurance that our business or the combined organization will achieve profitability.

Several of Our Customers Might Have Difficulty Meeting Their Payment Obligations to Us

As of June 30, 2002, 70% or \$327,000 of our accounts receivable from third parties were more than 30 days past due. You should evaluate the ability of these companies to meet their payment obligations to us in light of the risks, expenses and difficulties encountered by such companies. If one or more of our customers were unable to pay for our services in the future, or paid more slowly than we anticipate, recognition of revenue might be delayed and our operating results will be harmed.

We Might Not Be Successful in the Development and Introduction of New Products and Services

We depend in part on our ability to develop new or enhanced products and services, such as our subscription-based service offering and server-based license offering, in a timely manner and to provide new products and services that achieve rapid and broad market acceptance. We may fail to identify new product and service opportunities successfully and develop and bring to market new products and services in a timely manner. In addition, product innovations may not achieve the market penetration or price stability necessary for profitability.

As the online medium continues to evolve, we plan to leverage our technology by introducing complementary products and services as additional sources of revenue. Accordingly, we may change our business model to take advantage of new business opportunities, including business areas in which we do not have extensive experience. For example, we will continue to devote significant resources to the development of digital music delivery services, as well as our software licensing business. If we fail to develop these or other businesses successfully, our business would be harmed.

The Market for Digital Delivery of Music Over the Internet is Highly Competitive, and if We Cannot Compete Effectively, Our Ability to Generate Meaningful Revenues Would Suffer Dramatically

Competition among companies in the business of digital delivery of music over the Internet is intense. We expect that present competitors will increase competitive pressure in the market for digital delivery of music.

Competition is likely to increase further as new companies enter the market and current competitors expand their products and services or merge with other competitors. Many of these potential competitors are likely to enjoy substantial competitive advantages, including the following:

- larger audiences;
- larger technical, production and editorial staffs;
- greater brand recognition;
- access to more recorded music content;
- a more established Internet presence;
- a larger advertiser base; and
- substantially greater financial, marketing, technical and other resources.

Table of Contents

If we do not compete effectively or if we experience pricing pressures, reduced margins or loss of market share resulting from increased competition, our business and operating results would be harmed.

We Depend on Proprietary Rights to Develop and Protect Our Technology

Our success and ability to compete substantially depends on our internally developed technologies and trademarks, which we protect through a combination of patent, copyright, trade secret and trademark laws. We hold sixteen existing patents and currently have twelve patents pending in the United States and eleven patents pending in other countries. Our existing patents expire between October 2015 and March 2019. We have had claims allowed on none of our patent applications. We are presently pursuing the registration of our trademarks. Our patent applications or trademark registrations in the United States may not be approved. Even if they are approved, our patents or trademarks may be successfully challenged by others or invalidated. If our trademark registrations in the United States are not approved because third parties own these trademarks, our use of these trademarks would be restricted unless we enter into arrangements with the third-party owners, which might not be possible on commercially reasonable terms or at all.

The primary forms of intellectual property protection for our products and services internationally are patents and copyrights. Patent protection throughout the world is generally established on a country-by-country basis. To date, we have applied for eleven patents outside the United States. Copyrights throughout the world are protected by several international treaties, including the Berne Convention for the Protection of Literary and Artistic Works. Despite these international laws, the level of practical protection for intellectual property varies among countries. In particular, United States government officials have criticized countries such as China and Brazil, two countries in which we do business, for inadequate intellectual property protection. If our intellectual property is infringed in any country in which we do business without a high level of intellectual property protection, our business and operating results could be harmed.

We generally enter into confidentiality or license agreements with our employees, consultants and corporate partners, and generally control access to and distribution of our technologies, documentation and other proprietary information. Despite our efforts to protect our proprietary rights from unauthorized use or disclosure, parties may attempt to disclose, obtain or use our solutions or technologies. The steps we have taken may not prevent misappropriation of our solutions or technologies, particularly in foreign countries where laws or law enforcement practices may not protect our proprietary rights as fully as in the United States.

We have licensed, and we may license in the future, certain proprietary rights to third parties. While we attempt to ensure that the quality of our brand is maintained by our business partners, they may take actions that could impair the value of our proprietary rights or our reputation. In addition, these business partners may not take the same steps we have taken to prevent misappropriation of our solutions or technologies.

We Face and Might Face Intellectual Property Infringement Claims that Might Be Costly to Resolve

Because we digitally deliver recorded music and other music products to third parties, we might be subject to litigation based on claims of negligence, copyright, trademark infringement, patent infringement or other intellectual property rights. In the past, these types of claims have been brought, sometimes successfully, against our competitors and, in particular, providers of online products and services. Others could also sue us for the content that is accessible from our website through links to other websites. These claims might include, among others, claims that by hosting, directly or indirectly, the websites of third parties, we are liable for copyright or trademark infringement or other wrongful actions by these third parties through these websites. With respect to distribution of video and music product generally, substantially all such products sold are subject to copyright laws and licenses that limit the manner and geographic area in which these products may be sold and provide royalties to the copyright owners. Any sales of these products in violation of these laws and licenses by anyone in the chain of distribution, including our suppliers, may subject us to monetary damages and confiscation of the products. Our insurance may not adequately protect us against these types of claims and, even if these claims do not result in liability, we could incur significant costs and diversion of management resources in investigating and defending against these claims, which could harm our business.

Table of Contents

From time to time, we receive letters from corporations and other entities suggesting that we review patents to which they claim rights or claiming that we infringe on their intellectual property rights. Such claims may result in our being involved in litigation. Although we do not believe we infringe the proprietary rights of any party, we cannot assure you that parties will not assert additional claims in the future or that any claims will not be successful. We could incur substantial costs and diversion of management resources to defend any claims relating to proprietary rights, which could harm our business. In addition, we are obligated under certain agreements to indemnify the other party for claims that we infringe on the proprietary rights of third parties. If we are required to indemnify parties under these agreements, our business could be harmed. If someone asserts a claim against us relating to proprietary technology or information, we might seek licenses to this intellectual property. We might not be able to obtain licenses on commercially reasonable terms, or at all. The failure to obtain the necessary licenses or other rights might harm our business and operating results. See Legal Proceedings.

Additionally, Muze, Inc. has sued Alliance alleging that Alliance's marketing of the AMG business violates California's unfair business practice statutes and federal antitrust law. We cannot estimate the total potential liability to which the combined organization might be exposed as a result of these suits. If these suits result in a judgment against Alliance, its business and results of operations, and that of the combined organization, could be materially adversely affected.

The Growth of Our Business is Dependent on Development of Devices that Play Digitally Downloaded Music that Achieve Mass Customer Acceptance.

The market for digitally recorded music delivered over the Internet is relatively new and may not achieve mass customer acceptance. Several consumer electronics companies have introduced devices that allow digital music delivered over the Internet to be played away from the personal computer. However, if additional devices such as wireless broadband devices and in-home connected set-top boxes are not developed or do not achieve mass customer acceptance or our products and services are incompatible with these devices, our business may not grow or could be otherwise harmed.

Due to the Many Factors that Influence Market Acceptance, Consumers Might Not Accept Our Platform

Our success will depend on growth in consumer acceptance of our platform as a method for digital delivery of recorded music over the Internet. Factors that might influence market acceptance of our platform include the following, over which we have little or no control:

- the availability of sufficient bandwidth on the Internet to enable consumers to download digital recorded music rapidly and easily;
- the willingness of consumers to invest in computer technology that facilitates the downloading of digital music;
- the cost of time-based Internet access;
- the number, quality and variety of digital recordings available for purchase through our system relative to those available through other online digital delivery companies, digital music websites, music swapping or sharing websites or through traditional physical delivery of recordings;
- the availability of portable devices to which digital recorded music can be transferred;
- the fidelity and quality of the sound of the digital recorded music; and
- the level of consumer comfort with the process of downloading and paying for digital music over the Internet, including ease of use and lack of concern about transaction security.

It is too soon to determine whether consumers will accept our platform as their primary application to download, manage and play digital music. A lack of customer acceptance would harm our business and operating results.

Table of Contents

If Standards for the Secure, Digital Delivery of Recorded Music Are Not Adopted, the Piracy Concerns of Record Companies and Artists Might Not Be Satisfied, and They Might Not Use Our Platform for Digital Delivery of Their Music

Because other digital recorded music formats, such as MP3, do not contain mechanisms for tracking the source or ownership of digital recordings, record companies and artists are unable to prevent users from downloading and distributing unauthorized or pirated copies of copyrighted recorded music in these formats over the Internet. This piracy is a significant concern to record companies and artists, and is the primary reason many record companies and artists are reluctant to digitally deliver their recorded music over the Internet. If record companies and artists do not adopt a standard format, however, it may permit insecure copies of recorded music to continue to be available on the Internet, and as a result record companies and artists might not permit the digital delivery of their music. Additionally, as long as pirated recordings are available, many consumers will choose free pirated recordings rather than paying for legitimate recordings. Accordingly, if a standard format for the secure digital delivery of music is not adopted, our business and operating results might be harmed.

We have designed our current products to be adaptable to different music industry and technology standards. Numerous standards in the marketplace, however, could cause confusion as to whether our products and services are compatible. If a competitor were to establish the dominant industry standard, our business would be harmed. It is too soon to determine whether our standard will be adopted as the dominant industry standard, if a standard is so adopted.

Our Business Might Be Harmed if Challenges Against Intellectual Property Laws by New Digital Music Delivery Technologies Are Successful

New music sharing technologies allowing users to locate and download copies of digital music stored on the hard drives of other users without payment have been introduced into the market. Because some digital recorded music formats, such as MP3, do not contain mechanisms for tracking the source of ownership of digital recordings, users are able to download copies of copyrighted recorded music over the Internet without being required to compensate the owners of these copyrights. These downloads are a significant concern to record companies and artists. The Recording Industry Association of America has filed a suit seeking a permanent injunction against the use of these file-sharing technologies for exchange of copyrighted works. Several recording artists have also taken legal action against companies providing music sharing technology. If the injunction is denied, and it is determined that this file sharing technology is non-infringing, record companies and artists may limit their use of the Internet to sell and distribute their copyrighted materials. Even if the technology is determined to be infringing, it may be difficult to prevent this type of file sharing because of the non-centralized character of these technologies. As long as digital music copies are available through file sharing without payment, legally or illegally, consumers may choose not to pay for downloads from retail and other music delivery sites in our Liquid Music Network, which could harm our business and results of operations.

If Our Platform Does Not Provide Sufficient Rights Reporting Information, Record Companies and Artists Are Unlikely to Digitally Deliver Their Recorded Music Using Our Platform

Record companies and artists must be able to track the number of times their recorded music is downloaded so that they can make appropriate payments to music rights organizations, such as the American Society of Composers, Authors and Publishers, Broadcast Music Incorporated and SESAC, Inc. If our products and services do not accurately or completely provide this rights reporting information, record companies and artists might not use our platform to digitally deliver their recorded music, and our business might be harmed.

We Might Not Have Sufficient Content to Attract Consumers if Artists and Record Labels Are Not Satisfied That They Can Profitably Digitally Deliver Their Music Over the Internet or if Record Labels Enter Into License Agreements with Our Competitors

Our success depends on our ability to aggregate a sufficient amount and variety of digital recorded music for syndication. We currently do not create our own content; rather, we rely on record companies and artists for digital recorded music to be syndicated using our distribution platform. We believe record companies will remain reluctant to distribute their recorded music digitally unless they are satisfied that the digital delivery of their music over the

Table of Contents

Internet will result in overall profitability. If record companies do not believe that recorded music can be profitably delivered over the Internet or that such delivery will cannibalize sales through other channels, they may not allow the digital distribution of their recorded music and we might not have sufficient content to attract consumers. If we cannot offer a sufficient amount and variety of digital recorded music for syndication, our business will be harmed.

The major U.S. record companies have recently formed ventures for the licensing of their digital music subscription services to online music service providers. BMG Entertainment, EMI, Real Networks and Warner Music Group have formed a venture called MusicNet. Also, Universal Music Group (an unit of Vivendi Universal) and Sony Music Entertainment have formed a venture called pressplay. Musicnet and pressplay have recently launched their services, and may license their services to other third party online music service providers. If our competitors obtain licenses for digital music subscription services from MusicNet and pressplay and we are unable to obtain similar content provided by those services on commercially reasonable terms, these competitors may be able to develop a more compelling consumer product and our business could be harmed.

We Might Be Unable to License or Acquire Technology

We rely on certain technologies that we license or acquire from third parties, including Dolby Laboratories Licensing Corporation, Fraunhofer Institut, RSA Data Security, Inc. and Thomson Consumer Electronics Sales GmbH. These technologies are integrated with our internally developed software and used in our products, to perform key functions and to enhance the value of our platform. These third-party licenses or acquisitions may not continue to be available to us on commercially reasonable terms or at all. Any inability to acquire these licenses or software on commercially reasonable terms might harm our business.

Our Business Might Be Harmed if We Fail to Price Our Products and Services Appropriately

We have recently decided to focus on providing a subscription-based service offering and a licensing-based offering for our customers. We have limited experience in pricing such new models, and failure to properly price and adjust these new pricing models may result in a loss of customers which would have an adverse effect on our business and operating results. Moreover, the price of Internet products and services is subject to rapid and frequent change. We may be forced, for competitive or technical reasons, to reduce or eliminate prices for certain of our products or services. If we are forced to reduce or eliminate prices, it would diminish our revenues and impact our margins, which will harm our business.

We Might Experience Delays in the Development of New Products and Services

We must continue to innovate and develop new versions of our software to remain competitive in the market for digital delivery of recorded music solutions. Our software products and services development efforts are inherently difficult to manage and keep on schedule. Our failure to manage and keep those development projects on schedule might harm our business.

We Might Not Be Successful in Our Attempts to Keep Up With Rapid Technological Change and Evolving Industry Standards

The markets for our products and services are characterized by rapidly changing technology, evolving industry standards, changes in customer needs, emerging competition, and frequent new product and service introductions. Our future success will depend, in part, on our ability to:

- use leading technologies effectively;
- continue to develop our strategic and technical expertise;
- enhance our current products and services;
- develop new products and services that meet changing customer needs;
- advertise and market our products and services; and

Table of Contents

influence and respond to emerging industry standards and other technological changes.

We may not be successful in effectively using new technologies, developing new products or services, ascertaining customer demand or enhancing our existing products or services on a timely basis. These new technologies or enhancements may not achieve market acceptance. Our pursuit of necessary technological advances may require substantial time and expense. Finally, we may not succeed in adapting our services to new technologies as they emerge.

We Might Not Be Able to Scale Our Technology Infrastructure to Meet Demand for Our Products and Services

Our success will depend on our ability to scale our technology infrastructure to meet the demand for our products and services. Adding this new capacity will be expensive, and we might not be able to do so successfully. In addition, we might not be able to protect our new or existing data centers from unexpected events as we scale our systems. To the extent that we do not address any capacity constraints effectively, our business would be harmed.

Our Products and Services Might Contain Errors

We offer complex products and services that may contain undetected errors when first introduced or when new versions are released. If we market products and services that have errors or that do not function properly, then we may experience negative publicity, loss of or delay in market acceptance, or claims against us by customers, any of which might harm our business and results of operations.

System Failures or Delays Might Harm Our Business

Our operations depend on our ability to protect our computer systems against damage from fire, water, power loss, telecommunications failures, computer viruses, vandalism and other malicious acts, and similar unexpected adverse events. Our corporate headquarters are located in northern California. California has experienced power outages due to a shortage in the supply of power within the state. Although we maintain a comprehensive disaster recovery plan, if the power outages recur or increase in severity, they could disrupt our operations. Interruptions or slowdowns in our services have resulted from the failure of our telecommunications providers to supply the necessary data communications capacity in the time frame we required, as well as from deliberate acts. Despite precautions we have taken, unanticipated problems affecting our systems could in the future cause temporary interruptions or delays in the services we provide. Our customers might become dissatisfied by any system failure or delay that interrupts our ability to provide service to them or slows our response time. Sustained or repeated system failures or delays would affect our reputation, which would harm our business. Slow response time or system failures could also result from straining the capacity of our software or hardware due to an increase in the volume of products and services delivered through our servers. While we carry business interruption insurance, it might not be sufficient to cover any serious or prolonged emergencies, and our business and results of operations might be harmed.

Fluctuations in Our Quarterly Revenues and Operating Results Might Lead to Reduced Prices for Our Stock

Our quarterly results of operations have varied in the past, and you should not rely on quarter-to-quarter comparisons of our results of operations as an indication of our future performance. In some future periods, our results of operations are likely to be below the expectations of public market analysts and investors. In this event, the price of our common stock would likely decline. Factors that have caused our results to fluctuate in the past and that are likely to affect us in the future include the following:

- the timing of individual software licenses to customers;
- competition for consumers from traditional retailers as well as providers of online music services;
- the announcement and introduction of new products and services by us and our competitors;
- distribution of the player through OEM and retail partners;

Table of Contents

the upgrade percentage of our promotional player to the paid Player Plus version;

our ability to increase the number of websites that will use our platform for digital music delivery;

the timing of our partners' introduction of new products and services for digital music sales; and

variability and length of the sales cycle associated with our product and service offerings.

In addition, other factors may also affect us, including:

market adoption and growth of sales of digitally downloaded recorded music over the Internet;

legal developments with respect to copyright law and downloadable music;

our ability to attract significant numbers of music recordings to be syndicated in our format;

our ability to provide reliable and scalable service, including our ability to avoid potential system failures;

market acceptance of new and enhanced versions of our products and services; and

the price and mix of products and services we offer.

We Might Need Additional Capital in the Future and Additional Financing Might Not Be Available

We currently anticipate that our available cash resources and financing available under existing lease agreements will be sufficient to meet our anticipated working capital and capital expenditure requirements for the foreseeable future. However, we may need to raise additional funds through public or private debt or equity financing in order to:

take advantage of opportunities, including acquisitions of complementary businesses or technologies;

develop new products or services; or

respond to competitive pressures.

Any additional financing we may need may not be available on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, we might not be able to take advantage of unanticipated opportunities, develop new products or services, or otherwise respond to unanticipated competitive pressures, and our business could be harmed. Our forecast of the period of time through which our financial resources will be adequate to support our operations is a forward-looking statement that involves risks and uncertainties, and actual results could vary materially as a result of a number of factors, including those set forth in this Additional Factors Affecting Future Results section.

Table of Contents

Our Charter Documents and Delaware Law May Impede Or Discourage A Takeover, Which Could Lower Our Stock Price

Provisions of our restated certificate of incorporation and bylaws, and provisions of Delaware law, may have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, control of us. For example, we have a classified board of directors which may tend to discourage a third party from making a tender offer or otherwise attempting to obtain control of us and may maintain the incumbency of our board of directors, as the classification of the board of directors increases the difficulty of replacing a majority of the directors. These provisions may have the effect of deferring hostile takeovers, delaying changes in our control or management, or may make it more difficult for stockholders to take certain corporate actions. Consequently, these provisions could limit the price that certain investors might be willing to pay in the future for shares of our common stock.

Our Rights Plan May Impede Or Discourage a Takeover, Which Could Lower Our Stock Price

Our board of directors has approved a shareholders rights plan, which was amended recently on July 14, 2002. The rights will become exercisable the tenth day after a person or group announces acquisition of 10% or more of our common stock or announces commencement of a tender or exchange offer the consummation of which would result in ownership by the person or group of 10% or more of our common stock. If the rights become exercisable, the holders of the rights (other than the person acquiring 10% or more of our common stock) will be entitled to acquire, in exchange for the rights exercise price, shares of our common stock or shares of any company in which we are merged, with a value equal to twice the rights exercise price. The rights may have the effect of rendering more difficult or discouraging an acquisition of the Company deemed undesirable by the board of directors. As a result, the rights could limit the price that certain investors might be willing to pay in the future for shares of our common stock.

Table of Contents

Risks Related to Our Industry

Internet Security Concerns Could Hinder E-Commerce

A significant barrier to e-commerce and communications over the Internet has been the need for secure transmission of confidential information. Internet usage may not increase at the rate we expect unless some of those concerns are adequately addressed and found acceptable by the market. Internet usage could also decline if any well-publicized compromise of security occurs. We may incur significant costs to protect against the threat of security breaches or to alleviate problems caused by these breaches. Protections may not be available at a reasonable price or at all. If a third person were able to misappropriate a user's personal information, users could bring claims against us.

Government Regulation and Imposition of Sales and Other Taxes On E-Commerce Transactions Might Hinder E-Commerce

The applicability to the Internet of existing laws governing issues such as property ownership, libel and personal privacy is uncertain. In addition, governmental authorities may seek to further regulate the Internet with respect to issues such as user privacy, pornography, acceptable content, e-commerce, taxation, and the pricing, characteristics and quality of products and services. Finally, the global nature of the Internet could subject us to the laws of a foreign jurisdiction in an unpredictable manner. Any new legislation regulating the Internet could inhibit the growth of the Internet and decrease the acceptance of the Internet as a communications and commercial medium, which might harm our business.

The growing use of the Internet has also burdened the existing telecommunications infrastructure and has caused interruptions in telephone service. Telephone carriers have petitioned the government to regulate the Internet and impose usage fees on Internet service providers. Any regulations of this type could increase the costs of using the Internet and impede its growth, which could in turn decrease the demand for our services or otherwise harm our business.

We do not collect sales and other taxes when we sell our products and services over the Internet. State or local governments may seek to impose sales tax collection obligations on out-of-state companies, such as ours, which engage in or facilitate e-commerce. A number of proposals have been made at the state and local level that would impose additional taxes on the sale of products and services through the Internet. These proposals, if adopted, could substantially impair the growth of e-commerce and could reduce our opportunity to derive profits from e-commerce. Moreover, if any state or local government or foreign country were to successfully assert that we should collect sales or other taxes on the exchange of products and services on our system, our business might be harmed.

In 1998, Congress passed the Internet Tax Freedom Act, which imposed a three-year moratorium on state and local taxes on Internet-based transactions. The moratorium was scheduled to expire in October 2001. Recently, Congress extended the Internet Tax Freedom Act until November 1, 2003. We cannot assure you that this moratorium will be extended beyond November 1, 2003. Failure to extend this moratorium beyond that date would allow various states to impose taxes on e-commerce, which might harm our business.

In February 2002, European Finance Ministers announced that beginning July 2003 Value Added Tax (VAT) will be imposed on services delivered electronically over the Internet from suppliers outside the European Union (EU). The tax may substantially impair the growth of e-commerce in the EU and may reduce our opportunity to derive e-commerce in the EU, and our business could be harmed.

Demand for Our Products and Services Might Decrease if Growth in the Use of the Internet Declines

Our future success substantially depends upon the continued growth in the use of the Internet. The number of users on the Internet may not increase and commerce over the Internet may not become more accepted and widespread for a number of reasons, including the following, over which we have little or no control:

- actual or perceived lack of security of information, such as credit card numbers;
- lack of access and ease of use;
- inconsistent quality of service and lack of availability of cost-effective, high speed service;
- possible outages due to damage to the Internet;
- excessive governmental regulation; and
- uncertainty regarding intellectual property rights.

Edgar Filing: LIQUID AUDIO INC - Form 10-Q

If the necessary infrastructure, products, services or facilities are not developed, or if the Internet does not grow as a commercial medium, our business would be harmed.

Government Regulation of the Internet Might Harm Our Business

The applicability to the Internet of existing laws governing issues such as property ownership, libel and personal privacy is uncertain. In addition, governmental authorities may seek to further regulate the Internet with respect to issues such as user privacy, pornography, acceptable content, e-commerce, taxation, and the pricing, characteristics and quality of products and services. Finally, the global nature of the Internet could subject us to the laws of a foreign jurisdiction in an unpredictable manner. Any new legislation regulating the Internet could inhibit the growth of the Internet and decrease the acceptance of the Internet as a communications and commercial medium, which might harm our business.

In addition, the growing use of the Internet has burdened the existing telecommunications infrastructure and has caused interruptions in telephone service. Telephone carriers have petitioned the government to regulate the Internet and impose usage fees on Internet service providers. Any regulations of this type could increase the costs of using the Internet and impede its growth, which could in turn decrease the demand for our services or otherwise harm our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Market Risk in Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

On July 23, 2002, MM Companies, Inc. (formerly musicmaker.com, Inc.) filed an action in Delaware Chancery Court against us, each member of our board of directors, and Alliance Entertainment Corp. The complaint alleges that the directors of Liquid Audio and Alliance violated their fiduciary duties by entering into the merger and approving the Merger Agreement, and that our directors further violated their fiduciary duties by making certain changes to our shareholders rights plan. Alliance is alleged to have aided and abetted the alleged breaches of fiduciary duty by the Liquid Audio directors. According to the complaint, the plaintiff is seeking, among other things, to (i) invalidate the Merger Agreement, (ii) prevent us or Alliance from taking any actions to effectuate or enforce the Merger Agreement, the merger of Liquid Audio or Alliance, or the self tender-offer, (iii) direct our board of directors to restore the trigger of our shareholders rights plan to 15%, (iv) prevent enforcement of our shareholders rights plan to the extent it prohibits the plaintiff and other stockholders from cooperating to assist in the solicitation of proxies for our annual meeting, (v) damages for incidental injuries, and (vi) costs and expenses, including attorneys fee and experts fees. In connection with its complaint, MM Companies, Inc. filed a motion for a preliminary injunction and a motion for expedited proceedings. On July 31, 2002, MM Companies, Inc. withdrew its motion for a preliminary injunction and for expedited proceedings, and stated that it would file an amended complaint. To date, no amended complaint has been filed. If MM Companies, Inc. elects to pursue its claims in this matter, we intend to vigorously defend the action.

On May 30, 2002, musicmaker.com, Inc. filed an action in the Delaware Chancery Court to obtain certain stockholder information. We have since provided the requested stockholder information to musicmaker.com, Inc. and, as a result, this action is moot.

On May 3, 2002, musicmaker.com filed an action in the Delaware Chancery Court, pursuant to Title 8 Delaware Code section 211, seeking to compel us to hold an annual meeting of stockholders. We moved to dismiss on the grounds that the court lacked subject matter jurisdiction as 13 months had not elapsed since our last annual stockholder meeting, held on June 1, 2001. On May 10, 2002, the board of directors set July 1, 2002 as the date for the 2002 Annual meeting and our motion to dismiss was held in abeyance. On June 13, 2002, we publicly announced the execution of the original merger agreement and announced that, in light of the merger, our board of directors had determined to postpone the 2002 annual meeting. The next day, musicmaker.com filed an amended complaint requesting that the court order us to hold our annual meeting on July 1, 2002. The court allowed the parties to take expedited discovery and scheduled a hearing for July 15, 2002. At the hearing and by Order dated July 24, 2002, the court granted our request that the annual meeting be scheduled for September 26, 2002 so that the vote on the election of directors and the vote on the issuance of our stock in the merger could proceed on the same day.

In October 2001, two lawsuits were filed in Delaware Chancery Court naming us and certain of our officers and directors as defendants. Both actions related to our response to recent acquisition offers and purported to be class actions brought on behalf of our shareholders. On February 1, 2002, the two complaints were consolidated into a single action, titled *In Re Liquid Audio, Inc., Shareholders Litigation*, Consolidated Civil Action No. 19212-NC. That action was brought against Gerald W. Kearby, Silvia Kessel, Ann L. Winblad and us. The complaint alleges that defendants had breached their fiduciary duties owed to our shareholders in connection with our response to acquisition offers from Steel Partners II, LLP and an investor group formed by musicmaker.com, Inc. The complaint seeks, among other things, a court order barring us from adopting or maintaining measures that would make us less attractive as a takeover candidate or, alternatively, awarding compensatory damages to the purported plaintiff class. To date, we have not responded to the complaint, nor has the court set a date for discovery cutoff or trial. We intend to vigorously defend the action. There is no assurance concerning the outcome of this action, or whether it will have a material effect on our financial condition or business operations.

On or about September 27, 2001, Network Commerce, Inc. (NCI) filed a Complaint against us in the United States District Court for the Western District of Washington (Seattle). The suit alleges that we infringe the claims of United States Patent No. 6,073,124. NCI requests that we be enjoined from our allegedly infringing activities and seeks unspecified damages. We were served with the Complaint on November 2, 2001 and subsequently submitted

Table of Contents

our answer and included counterclaims.

On August 23, 2001, we received a demand letter from a former employee's legal counsel alleging claims for sexual harassment and retaliation. On September 13, 2001, the former employee filed a charge with the California Department of Fair Employment and Housing alleging such claims against us and one of our former employees. We completed an investigation and believe that there is no merit to the former employee's allegations. In May 2002, the parties entered into a final settlement regarding this matter. The settlement did not have a material impact on our financial position or results of operations.

On July 20, 2001, a putative securities class action, captioned *Murowa Financial v. Liquid Audio, Inc. et al.*, Civil Action No. 01-CV-6661, was filed against us, certain of our officers and directors (the Individual Defendants) and three underwriters in our initial public offering (the IPO), in the United States District Court for the Southern District of New York. The Complaint seeks unspecified damages on behalf of a purported class of purchasers of our common stock between July 8, 1999 and December 6, 2000. Several complaints substantially identical to *Murowa* were later filed against us, the Individual Defendants, and several of the IPO underwriters in the Southern District of New York. These cases were consolidated under Civil Action No. 01-CV-6661. On April 19, 2002, an amended complaint was filed in this consolidated action, titled *In re Liquid Audio, Inc. Initial Public Offering Securities Litigation*. The amended complaint generally alleges that various investment bank underwriters engaged in improper and undisclosed activities related to the allocation of shares in our initial public offering and secondary offering of securities. The complaint brings claims for violation of several provisions of the federal securities laws against those underwriters, and also contains claims against us and certain of our directors and officers. Various plaintiffs have filed similar actions asserting virtually identical allegations against more than 300 other companies. The lawsuit and all other IPO allocation securities class actions currently pending in the Southern District of New York have been assigned to Judge Shira A. Scheindlin for coordinated pretrial proceedings. We believe that we have meritorious defenses to the claims and intend to vigorously defend against such claims.

On or about April 7, 2000, Sightsound, Inc. (Sightsound) filed an amended complaint against one of our customers in the United States District Court for the Western District of Pennsylvania. The suit alleges that our customer infringes one or more of three patents (United States Patent Nos. 5,191,573; 5,675,734 and 5,996,440). Sightsound claims damages of \$20 million plus an unspecified royalty. We have entered into an agreement with our customer agreeing to assume control of the defense and pay the defense costs, while reserving our rights as to indemnification obligations. The customer filed an answer to the amended complaint on April 27, 2000, denying the material allegations of the complaint, and asserting counterclaims for declaratory judgment of non-infringement and patent invalidity. Following a claims construction hearing in 2001 and an initial report and recommendation on claim construction by the magistrate judge in February 2002 (which ruling is on appeal to the district judge), we renegotiated our agreement with our customer concerning the defense of the case going forward. We have now ceded control of the defense of the case to the customer/Bertelsmann AG (the customer's ultimate owner), and are splitting the costs of the defense with the customer/Bertelsmann AG. We are still reserving our rights as to indemnification issues. A trial date had been set for September 28, 2001 in the matter, but that date will be reset after the Court rules on the claim construction and other pending matters.

From time to time we receive letters from corporations or other business entities notifying us of alleged infringement of patents held by them or suggesting that we review patents to which they claim rights. These corporations or entities often indicate a willingness to discuss licenses to their patent rights.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

The effective date of our first registration statement, filed on Form S-1 under the Securities Act of 1933 (No. 333-82521) relating to our initial public offering of common stock, was July 8, 1999. A total of 4,800,000 shares of common stock were sold at a price of \$15.00 per share to an underwriting syndicate led by Lehman Brothers Inc., BancBoston Robertson Stephens Inc. and U.S. Bancorp Piper Jaffray Inc. Offering proceeds, net of aggregate expenses of approximately \$6.1 million, were approximately \$65.9 million.

Table of Contents

The effective date of our second registration statement, filed on Form S-1 under the Securities Act of 1933 (No. 333-91541) relating to our follow-on public offering of common stock, was December 14, 1999. A total of 2,946,076 shares of Common Stock were sold at a price of \$33.63 per share to an underwriting syndicate led by Lehman Brothers Inc., BancBoston Robertson Stephens Inc., U.S. Bancorp Piper Jaffray Inc., Dain Rauscher Wessells and Fidelity Capital Markets. An additional 503,924 shares of Common stock were sold on behalf of selling stockholders as part of the same offering. Offering proceeds to us, net of aggregate expenses of approximately \$5.4 million, were approximately \$93.7 million. Offering proceeds to selling shareholders, net of expenses of approximately \$847,000, were approximately \$16.1 million.

From the time of receipt through June 30, 2002, our proceeds were applied toward general corporate purposes, including the purchase of temporary investments consisting of cash, cash equivalents and short-term investments, working capital and capital expenditures, enhancing research and development and attracting key personnel.

On July 14, our board of directors approved an amendment to our Preferred Stock Rights Agreement to revise the beneficial ownership threshold at which a person or group of persons becomes an acquiring person and triggers certain provisions under the Preferred Stock Rights Agreement. As revised, a person or group would become an acquiring person if that person or group becomes the beneficial owner of 10 percent or more of the outstanding shares of our common stock. Prior to such amendment, the beneficial ownership threshold was 15 percent.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no submissions of matters to a vote of securities holders during the quarter ended June 30, 2002.

ITEM 5. OTHER INFORMATION

In accordance with Section 10A(i)(2) of the Securities Exchange Act of 1934, as added by Section 202 of the Sarbanes-Oxley Act of 2002 (the Act), we are required to disclose the non-audit services approved by our Audit Committee to be performed by PricewaterhouseCoopers LLP, our external auditor. Non-audit services are defined in the Act as services other than those provided in connection with an audit or a review of our financial statements. The Audit Committee has ratified and approved the engagement of, and terms of engagement of, PricewaterhouseCoopers LLP for the following non-audit services: (1) assistance with tax compliance and the preparation of federal and state income tax returns; and (2) financial due diligence in connection with our proposed merger with Alliance Entertainment Corp.
