PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
To Be Held December 16, 2002
10:30 a.m.

Solicitation and Revocation of Proxies

The accompanying proxy is solicited by and on behalf of the Board of Directors of Cortex Pharmaceuticals, Inc., a Delaware corporation (the "Company"), and the Company will bear the cost of such solicitation. Solicitation of proxies will be primarily by mail, although some of the officers, directors and employees of the Company may solicit proxies personally or by telephone. The Company will reimburse brokerage houses and other custodians, nominees or fiduciaries for their expenses in sending proxy materials to their principals.

The person named as proxy was designated by the Board of Directors and is a director of the Company. All properly executed proxies will be voted (except to the extent that authority to vote has been withheld) and where a choice has been specified by the stockholder as provided in the proxy it will be voted in accordance with the specification so made. Proxies submitted without specification will be voted FOR the election as directors of the nominees proposed by the Board of Directors, FOR the amendment to the Company's 1996 Stock Incentive Plan, and FOR the ratification of Ernst & Young LLP as the Company's independent auditors.

Any stockholder may revoke a proxy at any time before it is voted at the meeting by a proxy bearing a later date. A proxy may also be revoked by any stockholder by delivering written notice of revocation to the Secretary of the Company or by voting in person at the meeting.

This Proxy Statement and proxy are being mailed to stockholders of the Company on or about November 5, 2002. The mailing address of the executive offices of the Company is 15231 Barranca Parkway, Irvine, California 92618.

Voting at the Meeting

Only record holders of Common Stock of the Company at the close of business on October 24, 2002, will be entitled to notice of, and to vote at, the meeting. As of the record date, there were 16,853,659 shares of the Company's Common Stock outstanding. The presence at the meeting of a majority of the outstanding shares, in person or by proxy relating to any matter to be acted upon at the meeting, is necessary to constitute a quorum for the meeting. Each outstanding share is entitled to one vote on all matters, except as noted below. For purposes of the quorum and the discussion below regarding the vote necessary to take stockholder action, stockholders of record who are present at the

1

meeting in person or by proxy and who abstain or withhold their vote, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, are considered stockholders who are present and entitled to vote and count toward the quorum. Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. As used herein, "uninstructed shares" means shares held by a broker who has not received instructions from its customers on such matters and the broker has so notified the Company on a proxy form in accordance with industry practice or has otherwise advised the Company that it lacks voting authority. As used herein, "broker non-vote" means the votes that

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

could have been cast on the matter in question by brokers with respect to uninstructed shares if the brokers had received their customers' instructions. The effect of proxies marked "withheld" as to any director nominee or "abstain" as to a particular proposal and broker non-votes on proposals Nos. 1, 2, and 3 is discussed under each respective proposal.

2

PROPOSAL ONE

ELECTION OF DIRECTORS

The persons named in the enclosed proxy will vote to elect the five (5) proposed nominees named below unless contrary instructions are given in the proxy. The election of directors shall be by the affirmative vote of the holders of a plurality of the shares voting in person or by proxy at the meeting. Each director is to hold office until the next annual meeting and until his successor is elected and qualified.

The names and certain information concerning the persons nominated by the Board of Directors to become directors at the meeting are set forth below. The Company's Board of Directors recommends that you vote FOR the election of each of the nominees named below. It is intended that shares represented by the proxies will be voted FOR the election to the Board of Directors of the persons named below unless authority to vote for nominees has been withheld in the proxy. Broker non-votes and proxies marked "withheld" as to one or more of the nominees will result in the respective nominees receiving fewer votes. However, the number of votes otherwise received by the nominee will not be reduced by such action. Although each of the persons named below has consented to serve as a director if elected and the Board of Directors has no reason to believe that any of the nominees named below will be unable to serve as a director, if any nominee withdraws or otherwise becomes unavailable to serve, the persons named as proxies will vote for any substitute nominee designated by the Board of Directors. The following information regarding the nominees is relevant to your consideration of the slate proposed by the Board of Directors:

Director Compensation

During the fiscal year ended June 30, 2002, each non-employee director was entitled to receive \$2,500 at each Board of Directors meeting attended, and an additional \$750 annual retainer for each committee on which he served. The Chairman of the Board was entitled to receive \$3,000 at each Board of Directors meeting attended and an additional \$750 annual retainer for each committee on which he served.

The Board of Directors has elected to forego all cash payments of director compensation for Board of Directors meetings held from August 2002 through December 2002. Instead, on August 13, 2002, each non-employee director received additional nonqualified options to purchase an aggregate of 15,000 shares of Common Stock upon substantially the same terms and conditions of the formula nonqualified option grants described below, with the exception that the options issued on August 13, 2002 vested immediately upon the date of grant.

The Board of Directors has also elected to forego all cash payments of director compensation for Board meetings held in calendar year 2003. In lieu of those payments, on the date of the 2002 Annual Meeting of Stockholders, non-employee directors will receive nonqualified options to purchase an aggregate of 30,000 shares of Common Stock. These options will have the same terms and conditions of the formula nonqualified option grants described below, with the exception that the options will vest in increments of 5,000 shares at each of the six anticipated Board meetings for calendar year 2003.

Under the Company's 1996 Stock Incentive Plan, during the fiscal year ended June 30, 2002, each non-employee director was automatically granted options to purchase 30,000 shares of Common Stock upon commencement of service as a director and additional options to purchase 10,000 shares of Common Stock on the date of each Annual Meeting of Stockholders. Commencing with the fiscal year ending June 30, 2003, the Board of Directors approved an increase in the number of options granted to non-employee directors on the date of each Annual Meeting of Stockholders from 10,000 shares to 25,000 shares. These nonqualified options have an exercise price equal to 100% of the fair market value of the Common Stock on the date of grant, have a ten-year term and vest in equal increments of 33% on each anniversary date of the dates of grant, and are otherwise subject to the terms and provisions of the 1996 Stock Incentive Plan.

The above cash compensation and nonqualified option grants do not apply to non-employee directors who serve on the Board of Directors to oversee an investment in the Company. Compensation for such non-employee directors, if appropriate, will be determined separately.

Compensation Committee Interlocks and Insider Participation

The members of the Company's Compensation Committee during the fiscal year ended June 30, 2002 consisted of Mr. Charles J. Casamento and Drs. M. Ross Johnson, Roger G. Stoll, and Carl W. Cotman, none of whom has served as an executive officer or employee of the Company or any of its subsidiaries for the five years ended June 30, 2002.

Report of the Compensation Committee of the Board of Directors on Executive Compensation

The Company's compensation policies applicable to its executive officers are administered by the Compensation Committee of the Board of Directors. The Compensation Committee is currently made up of three non-employee directors. For the fiscal year ended June 30, 2002, the Compensation Committee was comprised of Mr. Charles J. Casamento and Drs. M. Ross Johnson, Roger G. Stoll and Carl W. Cotman. After Dr. Stoll's appointment as Chairman, President and Chief Executive Officer of the Company in August 2002, the Compensation Committee was reconstituted to include Dr. M. Ross Johnson, Dr. Carl W. Cotman and Mr. Robert F. Allnutt.

The Company's executive compensation programs are designed to attract, motivate and retain the executive talent needed to optimize stockholder value. The programs are designed to enhance stockholder value by aligning the financial interests of the executive officers of the Company with those of its stockholders. The following report on executive compensation is furnished by the Compensation Committee for the year ended June 30, 2002.

General Compensation Policy

The Company's compensation policy is designed to attract and retain qualified key executives critical to the Company's success and to provide such executives with performance-based incentives tied to the achievement of Company milestones. One of the primary objectives is to have a substantial portion of each executive officer's total compensation contingent upon the Company's performance as well as upon the individual's contribution to the Company's success as measured by his or her personal performance. Accordingly, each executive officer's compensation package is comprised primarily of three elements: (i) base salary which reflects individual performance and expertise

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

and is designed to be competitive with salary levels in the industry; (ii) variable performance awards payable in cash and tied to the Company's achievement of certain goals; and (iii) long-term stock-based incentive awards that strengthen the mutuality of interests between the executive officers and the Company's stockholders.

Factors

The principal factors that the Compensation Committee considered in establishing the components of each executive officer's compensation package for the fiscal year ended June 30, 2002 are summarized below. However, the Compensation Committee may in its discretion apply different factors, particularly different measures of financial performance, in setting executive compensation in future fiscal years.

Base Salary

The base salary levels for the executive officers were recommended by the Compensation Committee and established by the Board of Directors for the fiscal year ended

13

June 30, 2002 on the basis of the following factors: personal performance, the estimated salary levels in effect for similar positions at a select group of companies with which the Company competes for executive talent, and internal comparability considerations. Although the Compensation Committee reviewed various compensation surveys, the Compensation Committee did not rely upon any specific survey for comparative compensation purposes. Instead, the Compensation Committee made its decisions as to the appropriate market level of base salary for each executive officer on the basis of its understanding of the salary levels in effect for similar positions at those companies with which the Company competes for executive talent.

Annual Incentive Compensation

Executive officers have an opportunity to earn annual incentives based upon performance targets. The Compensation Committee may also award bonuses in cases where such performance targets are not met if it determines that the circumstances warrant such action. For fiscal year ended June 30, 2002, the performance targets for the executive officers included securing an additional strategic alliance, completing a private placement of the Company's Common Stock, broadening the Company's technology base and achieving progress milestones in clinical trials. The weight given to each factor varied from individual to individual. Additionally, each executive officer has a discretionary portion of the annual incentive linked to achievement of non-financial goals, which differ depending upon the responsibilities of the executive officer in question.

Long-term Incentive Compensation

The 1996 Stock Incentive Plan also provides the Compensation Committee with the ability to align the interests of the executive officer with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. The number of shares subject to each option grant is based upon the executive officer's tenure, level of responsibility and relative position in the Company.

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

Stock options totaling 365,157 shares were granted to employees and consultants during the fiscal year ended June 30, 2002, of which 240,000 were granted to the executive officers. The exercise price for the stock options is no less than the fair market value of the stock on the date of the grant. Options generally vest at a rate of 33% per year starting on the anniversary date of the option grant and are contingent upon the officer's continued employment with the Company. Accordingly, the option will provide a return to the executive officer only if he or she remains in the Company's employment and the market price of the Company's Common Stock appreciates over the option term.

CEO Compensation

The salary and performance bonus of Dr. Vincent Simmon, the Company's Chief Executive Officer, is determined in accordance with Dr. Simmon's Employment Agreement with the Company (see "Employment and Consulting Agreements," above). Effective May 15, 2001, the Compensation Committee increased Dr. Simmon's base salary from \$255,000 to \$270,000. For the fiscal year ended June 30, 2002, Dr. Simmon's compensation did not include a performance bonus.

Policy Regarding Section 162(m) of the Internal Revenue Code

The Compensation Committee has reviewed the Company's executive compensation plans to

14

determine if revisions may be necessary due to provisions of Section 162(m) of the Internal Revenue Code which generally disallows a tax deduction to public corporations for compensation paid to any of the Company's executive officers in excess of \$1,000,000 during any fiscal year. It is the current policy of the Compensation Committee to preserve, to the extent reasonably possible, the Company's ability to obtain a corporate tax deduction for compensation paid to executive officers of the Company to the extent consistent with the best interests of the Company and its stockholders. The Compensation Committee continually reviews the Company's existing executive compensation plans and will propose changes, if necessary and reasonable, to ensure compliance with the provisions of Section 162(m) that allow performance-based compensation to be excluded from the deduction limits.

Stock Performance Graph

Set forth below is a line graph comparing the cumulative stockholder return on the Company's Common Stock with the cumulative total return of The American Stock Exchange Composite Index and an industry peer group identified by the Company (the "Peer Group Index"). The Peer Group Index consists of Axonyx, Inc., Diacrin Inc., Interneuron Pharmaceuticals, Inc., Neotherapeutics, Inc., Neurobiological Technologies, Inc., StemCells, Inc., Synaptic Pharmaceuticals Corporation and Titan Pharmaceuticals, Inc. The Peer Group Index return consists of the weighted returns of each component issuer according to such issuer's

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

respective stock market capitalization at the beginning of each period for which a return is indicated.

The graph assumes an investment of \$100 in the Company's Common Stock on July 1, 1997, and an investment in each of The American Stock Exchange Composite Index and the Peer Group Index of \$100 on July 1, 1997. The graph covers the five-year period through June 30, 2002.

The calculation of cumulative stockholder return for The American Stock Exchange Composite Index and the Peer Group Index includes the reinvestment of dividends. The calculation of cumulative stockholder return on the Company's Common Stock does not include reinvestment of dividends because the Company did not pay dividends on the Common Stock during the measurement period. The performance shown is not necessarily an indicator of future price performance.

PROPOSAL TWO

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

AMENDMENT TO 1996 STOCK INCENTIVE PLAN TO INCREASE AUTHORIZED
NUMBER OF SHARES PURCHASABLE THEREUNDER FROM 3,574,359
TO 7,074,359 SHARES

The Board of Directors adopted the 1996 Stock Incentive Plan ("1996 Stock Incentive Plan") on October 25, 1996 and the stockholders approved it on December 12, 1996. On December 11, 2001 and October 8, 2002, the Board of Directors amended and restated the 1996 Stock Incentive Plan to modify the terms of the provision relating to formula grants to non-employee directors, as discussed in more detail below in the section entitled "Formula Grants to Non-Employee Directors." The primary purposes of the 1996 Stock Incentive Plan are (a) to enhance the Company's ability to attract and retain the services of qualified employees, officers and directors (including non-employee officers and directors), and consultants and other service providers upon whose judgment, initiative and efforts the successful conduct and development of the Company's business largely depends, and (b) to provide additional incentives to such persons or entities to devote their utmost effort and skill to the advancement and betterment of the Company, by providing them an opportunity to participate in the ownership of the Company and thereby have an interest in the success and increased value of the Company. The 1996 Stock Incentive Plan is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974, or ERISA, and is not a qualified deferred compensation plan under Section 401(a) of the Internal Revenue Code.

At the time of its adoption, the 1996 Stock Incentive Plan authorized the sale of up to 2,402,319 shares of Common Stock. The 1996 Stock Incentive Plan provides that on the last day of each fiscal year of the Company, a number of shares equal to twenty percent (20%) of the increase in the number of shares of Common Stock outstanding since the last day of the previous fiscal year (except in the case of fiscal year ending June 30, 1997, in which case the added shares of Common Stock shall equal twenty percent (20%) of the increase in the number of shares of Common Stock outstanding since October 25, 1996) shall be added to the aggregate number of shares authorized for issuance under the 1996 Stock Incentive Plan. Based on the number of shares of Common Stock outstanding on June 30, 2002, the aggregate number of shares of Common Stock authorized for issuance under the 1996 Stock Incentive Plan as of such date was 3,574,359. On August 13, 2002 and October 8, 2002, the Company's Board of Directors approved increases in the authorized number of shares of Common Stock purchasable under the 1996 Stock Incentive Plan by 150,000 and 3,350,000, respectively. Officers and directors of the Company are eligible to participate under the 1996 Stock Incentive Plan, and have a substantial direct interest in the approval of the amendment to the 1996 Stock Incentive Plan.

Vote Required; Board of Directors' Recommendation

Approval of the amendment to the 1996 Stock Incentive Plan to increase the number of shares purchasable thereunder from 3,574,359 to 7,074,359 shares will require the affirmative vote of the holders of a majority of the shares of outstanding Common Stock present or represented at the Annual Meeting of Stockholders and entitled to vote thereat. In determining whether the proposal has been approved, abstentions will be counted as votes against the proposal and broker non-votes will not be counted as votes for or against the proposal or as votes present and voting on the proposal. The Board of Directors recommends that you vote FOR the approval of the amendment to the 1996 Stock

Incentive Plan. Proxies solicited by management for which no specific direction is included will be voted FOR approval of the 1996 Stock Incentive Plan.

Summary of 1996 Stock Incentive Plan

The essential features of the 1996 Stock Incentive Plan are summarized below. This summary does not purport to be a complete description of the 1996 Stock Incentive Plan. The Company's stockholders may obtain a copy of the 1996 Stock Incentive Plan upon written request to the Secretary of the Company, Cortex Pharmaceuticals, Inc., 15231 Barranca Parkway, Irvine, California 92618.

The 1996 Stock Incentive Plan was adopted by the Board of Directors on October 25, 1996 and approved by the Company's stockholders on December 12, 1996. As of June 30, 2002, the 1996 Stock Incentive Plan provided for the grant by the Company to its officers, directors, employees and certain other service providers of options and/or rights to purchase up to an aggregate of 3,574,359 shares of Common Stock. On August 13, 2002 and October 8, 2002, the Company's Board of Directors approved increases in the authorized number of shares of Common Stock purchasable under the 1996 Stock Incentive Plan by 150,000 shares and 3,350,000 shares, respectively. As of the record date, October 24, 2002, approximately nine officers and directors of the Company, and 18 other employees were eligible to participate.

The 1996 Stock Incentive Plan provides that it is to be administered by the Board of Directors or a committee, consisting of two (2) or more members, appointed by the Board (the "Administrator"). The Board of Directors has delegated the duties of Administrator to the Compensation Committee, which is comprised of three non-employee directors, all of whom are eligible to participate in the 1996 Stock Incentive Plan. The Administrator has broad discretion to determine the persons entitled to receive options and/or rights to purchase under the 1996 Stock Incentive Plan, the terms and conditions on which options and/or rights to purchase are granted and the number of shares subject thereto. The Administrator also has discretion to determine the nature of the consideration to be paid upon the exercise of an option and/or right to purchase granted under the 1996 Stock Incentive Plan.

Options granted under the 1996 Stock Incentive Plan may be either "incentive stock options," within the meaning of Section 422 of the Internal Revenue Code (the "Code"), or "nonqualified stock options," as determined by the Administrator. Options may be granted under the 1996 Stock Incentive Plan for terms of up to ten (10) years (five (5) years with respect to optionees who own at least 10% of the outstanding stock of the Company). The exercise price of incentive options shall not be less than the fair market value of such shares on the date on which the incentive option is granted; provided, however, that the exercise price with respect to incentive options shall not be less than 110% of fair market value if the person to whom shares are granted owns 10% or more of the outstanding stock of the Company. The exercise price of the shares of Common Stock covered by each nonqualified option granted under the 1996 Stock Incentive Plan shall not be less than 85% of fair market value of such shares on the date on which the nonqualified option is granted. No optionee may be granted incentive stock options under the 1996 Stock Incentive Plan to the extent that the aggregate fair market value (determined as of the date of grant) of the shares of Common Stock with respect to which incentive options are exercisable for the first time by the optionee during any calendar year would exceed \$100,000. There is a limitation on the amount of nonqualified stock options and/or rights to purchase which may be granted to any participant under the 1996 Stock Incentive Plan of no more than 500,000 shares of Common Stock that may be acquired in any one calendar year.

under the 1996 Stock Incentive Plan. Without limiting the generality of the foregoing, the Administrator may determine to issue restricted shares as consideration for continued employment or the achievement of specified performance goals or objectives.

Neither options nor rights to purchase granted under the 1996 Stock Incentive Plan are assignable. Each Option shall vest and be exercisable in one or more installments at such time or times and subject to such conditions, including without limitation the achievement of specified performance goals or objectives, as shall be determined by the Administrator.

In the event that the Company at any time proposes to merge into, consolidate with or enter into any other reorganization (including the sale of substantially all of its assets or a "reverse" merger in which the Company is the surviving entity pursuant to which the ownership of the outstanding voting capital shall change by at least 50%), the vesting of all options and restricted shares shall be automatically accelerated, and the Administrator may, in its discretion, provide for additional adjustments to such terms in order to preserve, but not to increase, the benefits to persons then holding incentive options, nonqualified options or rights to purchase.

Payment for shares upon exercise of an option or upon issuance of restricted stock must be made in full at the time of exercise, or issuance with respect to restricted stock.

The form of consideration payable upon exercise of an option shall, at the discretion of the Administrator and subject to any legal restrictions, be by (a) cash; (b) check; (c) the surrender of shares of Common Stock owned by the Optionee that have been held by the Optionee for at least six (6) months, which surrendered shares shall be valued at Fair Market Value as of the date of such exercise; (d) the Optionee's promissory note in a form and on terms acceptable to the Administrator; (e) the cancellation of indebtedness of the Company to the Optionee; (f) the waiver of compensation due or accrued to the Optionee for services rendered; (g) provided that a public market for the Common Stock exists, a "same day sale" commitment from the Optionee and an NASD Dealer whereby the Optionee irrevocably elects to exercise the Option and to sell a portion of the shares so purchased to pay for the Exercise Price and whereby the NASD Dealer irrevocably commits upon receipt of such shares to forward the Exercise Price directly to the Company; (h) provided that a public market for the Common Stock exists, a "margin" commitment from the Optionee and an NASD Dealer in the amount of the Exercise Price, and whereby the NASD Dealer irrevocably commits upon receipt of such shares to forward the Exercise Price directly to the Company; or (i) any combination of the foregoing methods of payment or any other consideration or method of payment as shall be permitted by applicable corporate law.

The Purchase Price per share of Restricted Stock by each Right to Purchase shall be determined by the Administrator. Subject to any legal restrictions, payment of the Purchase Price upon acceptance of a Right to Purchase Restricted Stock may be made, in the discretion of the Administrator, by: (a) cash; (b) check; (c) the surrender of shares of Common Stock owned by the Optionee that have been held by the Optionee for at least six (6) months, which surrendered shares shall be valued at Fair Market Value as of the date of such exercise; (d) the Optionee's promissory note in a form and on terms acceptable to the Administrator; (e) the cancellation of indebtedness of the Company to the Optionee; (f) the waiver of compensation due or accrued to the Optionee for services rendered; or (g) any combination of the foregoing methods of payment or any other consideration or method of payment as shall be permitted by applicable corporate law.

Amendment and Termination of the 1996 Stock Incentive Plan

The 1996 Stock Incentive Plan may be altered, amended, suspended or terminated by the Board at any time. In addition, to the extent necessary and desirable to comply with Section 422 of the Code (or any other applicable law or regulation), the Company shall obtain stockholder approval of any amendment or modification to the 1996 Stock Incentive Plan. No amendment, modification or termination of the 1996 Stock Incentive Plan shall affect or impair any rights or obligations under any option or right to purchase restricted stock granted prior to the date of such amendment, modification or termination without the consent of the holder of such option or right to purchase restricted stock. Unless previously terminated by the Board, the 1996 Stock Incentive Plan will terminate on October 25, 2006.

Formula Grants to Non-Employee Directors

Each non-employee director (other than those who serve on the Board of Directors to oversee an investment in the Company) shall be automatically granted (i) Nonqualified Options to purchase 30,000 shares of Common Stock upon commencement of service as a director of the Company, and (ii) Nonqualified Options to purchase 25,000 shares of Common Stock at each annual meeting of the Company's stockholders (including any meeting coincident with the commencement of service as a director). These nonqualified options have an exercise price equal to 100% of the fair market value of the Common Stock on the date of grant, have a ten-year term and vest in equal increments of 33 1/3% on each anniversary date of the dates of grant, and will otherwise be subject to the terms and provisions of the 1996 Stock Incentive Plan. These nonqualified option grants do not apply to non-employee directors who serve on the Board of Directors to oversee an investment in the Company. Nonqualified option grants for such non-employee directors, if appropriate, will be determined separately.

Summary of Federal Income Tax Consequences of 1996 Stock Incentive Plan

The following is a summary of certain federal income tax consequences of participation in the 1996 Stock Incentive Plan. The summary should not be relied upon as being a complete statement of all possible federal income tax consequences. Federal tax laws are complex and subject to change. Participation in the 1996 Stock Incentive Plan may also have consequences under state and local tax laws, which vary from the federal tax consequences described below. For such reasons, the Company recommends that each participant consult his or her personal tax advisor to determine the specific tax consequences applicable to him or her.

Incentive Options. No taxable income is recognized by an optionee under the 1996 Stock Incentive Plan upon either the grant or the exercise of an incentive option. Instead, a taxable event occurs upon the sale or other disposition of the shares acquired upon exercise of an incentive option, and the tax treatment of the gain or loss realized depends upon how long the shares were held before their sale or disposition. If a sale or other disposition of the shares received upon the exercise of an incentive option occurs more than (1) one year after the date of exercise of the option, and (2) two years after the date of grant of the option, the holder will recognize long-term capital gain or loss at the time of sale equal to the full amount of the difference between the proceeds realized and the exercise price paid. However, a sale, exchange, gift or other transfer of legal title of such stock (other than certain transfers upon the optionee's death) before the expiration of either of the one-year or two-year periods described above constitutes a "disqualifying disposition." A disqualifying disposition involving a sale or exchange results in ordinary income to the optionee in an amount equal to the lesser of (1) the fair market value of

the stock on the date of exercise minus the exercise price or (2) the amount realized on disposition minus the exercise price. If the amount realized in a disqualifying disposition exceeds the fair market value of the stock on the date of exercise, the gain realized in excess of the amount taxed as ordinary income as indicated above is taxed as capital gain. A disqualifying disposition as a result of a gift results in ordinary income to the optionee in an amount equal to the difference between the exercise price and the fair market value of the stock on the date of exercise. Any loss realized upon a disqualifying disposition is treated as a capital loss. Capital gains and losses resulting from disqualifying dispositions are treated as long-term or short-term depending upon whether the shares were held for more or less than the applicable statutory holding period, which currently is more than one year for long-term capital gains. The Company is entitled to a tax deduction in an amount equal to the ordinary income recognized by the optionee as a result of a disposition of the shares received upon exercise of an incentive option.

The exercise of an incentive option may result in items of "tax preference" for purposes of the "alternative minimum tax." Alternative minimum tax is imposed on an individual's income only if the amount of the alternative minimum tax exceeds the individual's regular tax for the year. For purposes of computing alternative minimum tax, the excess of the fair market value on the date of exercise of the shares received on exercise of an incentive option over the exercise price paid is included in alternative minimum taxable income in the year the option is exercised. An optionee who is subject to alternative minimum tax in the year of exercise of an incentive option may claim as a credit against the optionee's regular tax liability in future years the amount of alternative minimum tax paid which is attributable to the exercise of the incentive option. This credit is available in the first year following the year of exercise in which the optionee has regular tax liability.

Nonqualified Options. No taxable income is recognized by an optionee upon the grant of a nonqualified option. Upon exercise, however, the optionee recognizes ordinary income in the amount by which the fair market value of the shares purchased, on the date of exercise, exceeds the exercise price paid for such shares. The income recognized by the optionee who is an employee is subject to income tax withholding by the Company out of the optionee's current compensation. If such compensation is insufficient to pay the taxes due, the optionee is required to make a direct payment to the Company for the balance of the tax withholding obligation. The Company is entitled to a tax deduction equal to the amount of ordinary income recognized by the optionee, provided that certain reporting requirements are satisfied. If the exercise price of a nonqualified option is paid by the optionee in cash, the tax basis of the shares acquired is equal to the cash paid plus the amount of income recognized by the optionee as a result of such exercise. If the exercise price is paid by delivering shares of Common Stock of the Company already owned by the optionee or by a combination of cash and already-owned shares, there is no current taxable gain or loss recognized by the optionee on the already-owned shares exchanged, however, the optionee will nevertheless recognize ordinary income to the extent that the fair market value of the shares purchased on the date of exercise exceeds the price paid, as described above. The new shares received by the optionee, up to the number of the old shares exchanged, have the same tax basis and holding period as the optionee's basis and holding period in the old shares. The balance of the new shares received have a tax basis equal to any cash paid by the optionee plus the amount of income recognized by the optionee as a result of such exercise, and have a holding period commencing with the date of exercise. Upon the sale or disposition of shares acquired pursuant to the exercise of a nonqualified option, the difference between the proceeds realized

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

and the optionee's basis in the shares is a capital gain or loss and is treated as long-term capital gain or loss if the shares have been held for more than the applicable statutory holding period, which is currently more than one year for long-term capital gains.

25

Restricted Stock. If no Section 83(b) election is made and repurchase rights are retained by the Company, a taxable event occurs on each date the participant's ownership rights vest (e.g., when the Company's repurchase rights expire) as to the number of shares that vest on that date, and the holding period for capital gain purposes does not commence until the date the shares vest. The participant recognizes ordinary income on each date shares vest in an amount equal to the excess of the fair market value of such shares on that date over the amount paid for such shares. Any income recognized by a participant who is an employee is subject to income tax withholding by the Company out of the optionee's current compensation. If such compensation is insufficient to cover the amount to be withheld, the participant is required to make a direct payment to the Company for the balance of the tax withholding obligation. The Company is entitled to a tax deduction in an amount equal to the ordinary income recognized by the participant. The participant's basis in the shares is equal to the purchase price, if any, increased by the amount of ordinary income recognized.

If a Section 83(b) election is made within 30 days after the date of transfer, or if no repurchase rights are retained by the Company, then the participant recognizes ordinary income on the date of purchase in an amount equal to the excess of the fair market value of such shares on the date of purchase over the purchase price paid for such shares.

Tax Withholding. Under the 1996 Stock Incentive Plan, the Company has the power to withhold, or require a participant to remit to the Company, an amount sufficient to satisfy Federal, state and local withholding tax requirements with respect to any options exercised or restricted stock granted under the 1996 Stock Incentive Plan. To the extent permissible under applicable tax, securities, and other laws, the administrator may, in its sole discretion, permit a participant to satisfy an obligation to pay any tax to any governmental entity in respect of any option or restricted stock up to an amount determined on the basis of the highest marginal tax rate applicable to such participant, in whole or in part, by (1) directing the Company to apply shares of Common Stock to which the participant is entitled as a result of the exercise of an option or as a result of the lapse of restrictions on restricted stock, or (2) delivering to the Company shares of Common Stock owned by the participant.

New Plan Benefits

The Company believes that the benefits or amounts that have been received or will be received by any participant under the 1996 Stock Incentive Plan cannot be determined.
