Cautionary Statement on Forward-Looking Statements.

The discussion in this Report on Form 10-Q, including the discussion in Item 2 of PART I, contains forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on current expectations, estimates and projections about the Company's business, based on management's current beliefs and assumptions made by management. Words such as "expects", "anticipates", "intends", "believes", "plans", "seeks", "estimates", and similar expressions or variations of these words are used to identify such forward-looking statements. Additionally, statements that refer to the Company's estimated or anticipated future results, sales or marketing strategies, new product development or performance or other non-historical facts are forward-looking and reflect the Company's current perspective based on existing information. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results and outcomes may differ materially from what is expressed or forecasted in any such forward-looking statements. Such risks, and uncertainties include those set forth below in Item 1 as well as previous public filings with the Securities and Exchange Commission. The discussion of the Company's financial condition and results of operations included in Item 2 of PART I should also be read in conjunction with the financial statements and related notes included in Item 1 of PART I of this quarterly report. These quarterly financial statements do not include all disclosures provided in the annual financial statements and should be read in conjunction with the Risk Factors and annual financial statements and notes thereto included in the Company's Form 10KSB for the year ended December 31, 2007 filed on April 1, 2008. The Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

NOTES TO CONDENSED FINANCIAL STATEMENTS

June 30, 2008

(Unaudited)

NOTE A BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the financial statements of the Company as of December 31, 2007, and for the two years ended, December 31, 2006 and December 31, 2007 including notes thereto included in the Company's Form 10-KSB filed with the Commission on April 1, 2008.

NOTE B INVENTORY

Inventories, consisting of purchased finished goods ready for sale, are stated at the lower of cost (as determined by the first-in, first-out method) or market.

NOTE C - REALIZATION OF ASSETS

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. Net loss for the six months ended June 30 was (\$88,280). The Company has incurred net losses aggregating \$12,046,593 from inception, and may continue to incur net losses in the future. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product exposure and marketing. The Company's management team has diligently explored several market segments relative to the Company's product and service lines.

Management believes a large market exists for the Company's testing and evaluation services and the information resulting from those services. Management will focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results, allowing it to continue in existence.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

MIRENCO, Inc.**NOTES TO CONDENSED FINANCIAL STATEMENTS Continued****(unaudited) June 30, 2008****NOTE D – STOCKHOLDERS EQUITY**

During the six months ended June 30, 2008, the Company issued 520,121 shares of common stock at \$.10 per share, which were issued for debt and accrued interest payable to related parties of \$10,000, and \$42,012, respectively.

Non-cash stock compensation of \$26,006 was recognized in connection with this stock issuance, for the difference between the excess fair market value of the stock over the debt retired. Also during the three months ended June 30, 2008, 404,000 warrants were exercised at \$.15 per share, in exchange for amounts due to a former officer, and 2,300 options expired. Also, 2,000,000 shares of common stock were issued at \$.15 per share for cash of \$300,000.

During the six months ended June 30, 2008, the Company issued 8,000 options to directors to purchase common stock at \$.16 per share. The options are exercisable at this price until January 31, 2014. In 2007, 50,000 options to purchase common stock at \$.25 per share were issued to an employee, also exercisable through January 31, 2014. Of these options issued to the employee, 10,000 options are fully vested as of the grant date, February 16, 2007, 20,000 options vested January 1, 2008, and the remaining 20,000 options will vest January 1, 2009.

	\$	10,000	\$	10,000	\$	-

NOTE G MAJOR CUSTOMERS

In the first six months of 2008, four major customers accounted for 83% of total sales. At June 30, 2008 two customers accounted for 74% of accounts receivable.

NOTE H EARNINGS (LOSS) PER SHARE

The Company calculates net income (loss) per share as required by Statement of Financial Accounting Standards (SFAS) 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During periods in which the Company incurs losses, common stock equivalents, if any, are not considered, as their effect would be anti dilutive.

NOTE I REDEEMABLE, CONVERTIBLE PREFERRED STOCK

In December 2006, Mirencos offered a minimum \$3,000 investment for 25,000 shares of its common stock at \$0.12 per share, plus 500 shares of convertible, redeemable preferred stock valued by the Company at \$1 per share. In connection with this offering, 23,256 shares of the convertible, redeemable preferred stock were issued, of which 5,000 were converted to 25,000 shares of common stock during the period ended September 30, 2007. Each preferred share is convertible at the holder's option, to five shares of the Company's common stock, and carries a cumulative 6% dividend rate through December 31, 2011. The preferred shares may be redeemed by the Company any time after

December 31, 2009, and must be fully redeemed on December 31, 2011, together with all cumulative dividends in arrears. Accordingly, the preferred shares are presented as shares subject to mandatory redemption in the accompanying financial statements.

NOTE J SUBSEQUENT EVENTS

During July 2008, 233,334 shares of common stock was issued for cash of \$35,000.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

General and Background

Mirencos, Inc. was organized and incorporated in the State of Iowa on February 21, 1997. We develop, market and distribute technologically advanced products improving efficiencies in engine combustion and equipment application.

Mirencos also offers consultative services in evaluating diesel engines through its Mirencos Diesel Evaluation Procedure, MDEP, which consists of testing procedures, comparison to other engines on its proprietary data base and making recommendations for maintenance activities and/or application of Mirencos patented technology.

Our primary products are derived from technology patented in the United States, Mexico and Canada. They are D-Max®, C-Max®, HydroFire®Injection, HydroFire®Fluid, HydroFire®Lubricant, EconoCruise® and Fuel-Tracker.

In addition to products, Mirencos, Inc. offers consultative services with its Combustion Management Program called MDEP, Mirencos Diesel Evaluation Procedure.

MDEP consists of an evaluation of a diesel engine based on a comparison with like engines. An evaluation is completed by performing a modified SAE-J1667 as well as a MIR 120 Second Transient evaluation. Mirencos has developed an extensive database of evaluation results for thousands of diesel engines using these techniques.

From these results Mirencos can evaluate the condition of the engine, determine commonalities among engine types, evaluate the entire fleet and recommend appropriate maintenance procedures for each specific vehicle. From these results, we can also make recommendations for the appropriate engine service that will improve engine combustion.

Mirencos MDEP has been successfully applied in the underground mining industry to reduce diesel particulate matter.

This industry is under strict regulation from the Mining Safety and Health Administration (MSHA) to reduce particulate emissions for the safety of its workers health. Beginning in 2005, Mirencos introduced the combustion management program, MDEP, D-Max® and C-Max® products throughout the United States.

The Fuel-Tracker system was designed to meet our customers demand to accurately monitor fuel consumption for individual pieces of equipment. The Fuel-Tracker system uses a diesel engines turbo boost pressure to correlate fuel consumption of the engine. With this system it is possible to provide basic fuel consumption information that many customers are looking for as well as many other management tools. Data from the Fuel-Tracker system provides equipment productivity in percentage of horse power, equipment idle time, shut down time, location for each unit of fuel consumed and much more. Fuel-Tracker technology has proven to be an effective tool to manage equipment maintenance, productivity and operator efficiency.

(2) Marketing methods

Mirencos marketing strategy has evolved through direct sales by Mirencos sales force to include the marketing and sales efforts of Mirencos Distributor to market our methodologies, the Mirencos Diesel Evaluation Procedure and our technologies, D-Max®, C-Max® and Fuel-Tracker. We believe these products demonstrate an economic benefit to our customers and potential customers, particularly those whose fleets have a high degree of stops and accelerations in

their duty cycle. During the last three years heavy mining equipment has become the primary market for Mirencos products and services.

We have incurred annual losses since inception while developing and introducing our original products and focusing management and other resources on capitalizing the Company to support future growth. Relatively high management, personnel, consulting and marketing expenditures were incurred in prior years in preparation for the commercialization of our products. We expect distribution and selling expenses to increase directly with sales increases, however, as a percentage of sales, these expenses should decline. It is anticipated that general and administrative expenses should remain stable and decline significantly as a percentage of sales.

Liquidity and Capital Resources

As of June 30, 2008, the Company had total cash and current assets of \$479,902 and current liabilities of \$368,319, resulting in a working capital of \$111,583. The Company's available sources for generating cash for working capital is through the issuance of common stock and notes payable and, eventually, through the development of profitable operations.

The Company's future capital requirements will depend on many factors, including expansion of our business; increased sales of both services and products, the cost of third-party financing, development of new revenue resources and administrative expense. We do not expect to expand our facilities during 2008.

Effective January 4, 2008, the Company obtained a bridge loan of \$50,000 due February 15, 2008, plus accrued interest at 5.15%. In addition, effective January 18, 2008, the Company obtained a line of credit that calls for maximum borrowings of \$301,500. The line bears interest at 8% per annum and is due January 18, 2018. As of the date of these financial statements, aggregate draws of \$250,000 have been made against the line of credit and the bridge loan plus accrued interest was repaid from proceeds of the line of credit in January, 2008.

According to the terms of our purchase agreement with American Technologies to acquire the patents and trademarks, we have incurred a 3% royalty of annual gross sales for a period of 20 years, which began November 1, 1999.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. Net loss for the six months ended June 30 was (\$88,280). The Company has incurred net losses aggregating \$12,046,593 from inception, and may continue to incur net losses in the future. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product exposure and marketing. The Company's management team has diligently explored several market segments relative to the Company's product and service lines.

Management believes a large market exists for the Company's testing and evaluation services and the information resulting from those services. Management will focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results, allowing it to continue in existence.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Results of Operations

Gross sales of \$470,129, including \$137,740 in product sales and \$332,389 in sales of services, were realized for the six months ended June 30, 2008 and were \$161,049 more than sales of \$309,080 for the same period one year ago.

Cost of sales for the six months ended June 30, 2008 was \$181,219 resulting in gross profit of \$288,910, as compared to \$198,877 for the prior year, a net increase in gross profit of \$178,707. This increase is due primarily to increased sales over the same period in the prior year. In the six months ended June 30, 2008, \$146,921 of employment costs were included in Cost of Sales compared to \$170,037 in the corresponding period in the prior year. Salary expense for the six months ended June 30, 2008 was \$216,820 compared to \$226,396 in the corresponding period in the prior year. After accounting for the employment costs included in cost of sales, salaries decreased by \$32,692. A total of 12 full-time individuals were employed with the Company at June 30, 2008 compared to a total of 15 full time employees at June 30, 2007.

Gross sales of \$268,385, including \$96,425 in product sales and \$171,960 in sales of services, were realized for the three months ended June 30, 2008 and were \$89,279 more than sales of \$179,106 for the same period one year ago.

Cost of sales for the three months ended June 30, 2008 was \$109,998 resulting in gross profit of \$158,387, as compared to \$73,097 for the prior year, a net increase in gross profit of \$85,290. This increase is due primarily increased sales over the same period in the prior year. In the three months ended June 30, 2008, \$25,467 of employment costs were included in Cost of Sales compared to \$38,217 in the corresponding period in the prior year. Salary expense for the three months ended June 30, 2008 was \$92,525 compared to \$95,399 in the corresponding period in the prior year. After accounting for the employment costs included in cost of sales, salaries decreased by \$15,623.

The Company has incurred net losses aggregating \$12,046,593 from inception, and may continue to incur net losses in the future.

Office expenses	26,893	29,508
Travel	7,442	7,340
Utilities	24,950	16,551
Total general and administrative expenses	\$ 148,843	\$ 160,918

1.

Royalty expense is proportional to sales and is based on sales of products, services and rights related to patents according to the contractual agreement.

2.

Advertising expense for the six months ended June 30, 2008 increased \$708 over the same period in the prior year primarily because of increased advertising for MDEP procedure.

3.

Depreciation and amortization expense decreased \$5,613 from the corresponding period in the prior year primarily because computer and other equipment became fully depreciated in the prior period.

4.

Insurance expense for the six months ended June 30, 2008 decreased \$6,459 from the corresponding period in the prior year primarily because of a thorough examination of current coverage and obtaining a more competitive bid.

5.

Professional fees expense decreased \$11,429 because consulting fees were discontinued.

6.

Office expense for the six months ended June 30, 2008 decreased \$2,615 from the corresponding period in the prior year primarily due to increased prices for supplies and equipment services .

7.

Travel expense for the first six months of 2008 remained consistent with travel expense for the first six months in the prior year.

8.

Utilities expense for the first six months of 2008 increased \$8,399 from the first six months of 2007 primarily due to increased telephone and fuel expenses.

Interest expense for the six months ended June 30, 2008 and 2007 was \$11,529 and \$9,900, respectively. The increase for the six months ended June 30, 2008 is \$1,629 compared to the same period for 2007, as a result of obtaining additional bank loans in 2008.

We use estimates in the preparation of our financial statements. The estimates used relate to valuation of receivables and the useful lives of equipment and patents. Since our receivables consist of larger individual accounts, we elect to use the direct write off method for those accounts that are deemed to be uncollectible. We believe there is no material difference in this method from the allowance method. There have been no accounts written off in 2008. If it is determined that potential losses of a material amount in receivables are likely, the allowance for doubtful accounts method will be adopted. No such allowance is considered to be required at this time. If it were determined that the depreciated cost of its equipment and the amortized cost of its patents exceeded their fair market value, there would be a negative impact on the results of operations to the

extent the depreciated and amortized cost of these assets exceeded their fair market value.

The carrying value of long-lived assets is reviewed on a regular basis for the existence of facts and circumstances that suggest impairment. During the first six months of 2008, no material impairment has been indicated. Should there be an impairment in the

future, the Company will measure the amount of the impairment based on the amount that the carrying value of the impaired assets exceed the undiscounted cash flows expected to result from the use and eventual disposal of the impaired assets.

We account for equity instruments issued to employees for services based on the fair value of the equity instruments issued and accounts for equity instruments issued to other than employees based on the fair value of the consideration received or the fair value of the equity instruments whichever is more reliably measurable.

11

We outsource the production of its DriverMax® products to ICE Corporation of Manhattan, Kansas. If, for some reason the relationship between the Company and ICE Corporation should be interrupted or discontinued, the operations of the Company could be adversely affected until such time as an alternative supply source could be located, contracted and begin producing our technology. Such an event could materially affect our results of operations. We continue to review its relationship with this single source and believes there is no need for an alternative source at this time. As sales of product grow we will continue to review the need for alternative sources.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our Chief Executive Officer and Principal Financial Officer evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, as appropriate to allow timely decisions regarding required disclosure. Based on his evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective as of June 30, 2008.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Our management team will continue to evaluate our internal control over financial reporting throughout 2008.

Item 2.

Unregistered Sales of Equity Securities and Use of Proceeds

During the six months ended June 30, 2008, the Company issued 520,121 shares of common stock at \$.10 per share, which were issued for debt and accrued interest payable to related parties of \$10,000, and \$42,012, respectively. Non-cash stock compensation of \$26,006 was recognized in connection with this stock issuance, for the difference between the excess fair market value of the stock over the debt retired. Also during the three months ended June 30, 2008, 404,000 warrants were exercised at \$.15 per share in exchange for amounts due to a former officer, and 2,300 options expired. In addition, 2,000,000 shares of common stock were issued at \$.15 a share for cash of \$300,000.

These securities were offered and sold without registration under the Securities Act of 1933 in reliance upon the exemption provided by Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder, and may not be offered or sold in the United States in the absence of an effective registration statement or exemption from the registration requirements under the Securities Act. An appropriate legend was placed on the securities issued.

This Report on Form 10-Q is neither an offer to sell no a solicitation of an offer to buy any of these securities. This portion of this report is being filed pursuant to and in accordance with rule 135c under the Securities Act.

Changes in shares outstanding during the first six months are summarized as follows:

	Shares Issued	Aggregate Consideration for New Shares Issued
