Form 10-K
March 29, 2007

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549
FORM 10-K**

T Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.
For the fiscal year ended December 31, 2006

* Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number 000-23129

NORTHWAY FINANCIAL, INC.
(Exact name of registrant as specified in its charter)

New Hampshire
(State or other jurisdiction of
incorporation or organization)

04-3368579
(I.R.S. Employer
Identification No.)

9 Main Street
Berlin, New Hampshire
(Address of principal executive offices)

03570
(Zip Code)

(603) 752-1171
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock	NASDAQ Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
YES * NO T

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES * NO T

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past ninety days. YES T NO *

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. T

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of “accelerated filer and large accelerated filer” in Rule 12b-2 of the Exchange Act.. Large Accelerated Filer * Accelerated Filer * Non-Accelerated Filer T

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES* NO T

The number of shares of voting and nonvoting common stock, par value \$1.00 per share, held by nonaffiliates of the registrant as of June 30, 2006 was 1,270,163 shares with an aggregate market value, computed by reference to the last reported sales price on the NASDAQ Global Market on such date, of \$45,725,868. Although directors and executive officers of the registrant were assumed to be “affiliates” of the registrant for purposes of this calculation, this classification is not to be interpreted as an admission of such status.

At March 25, 2007, there were 1,491,174 shares of common stock outstanding, par value \$1.00 per share.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant’s proxy statement for its 2007 Annual Meeting of Stockholders are incorporated by reference in Items 10, 11, 12, 13 and 14 of Part III.

FORWARD-LOOKING STATEMENTS

Certain statements in this report are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, but are not limited to, projections of revenue, income or loss, plans for future operations and acquisitions, projections based on assumptions regarding market and liquidity risk, and plans related to products or services of Northway Financial, Inc. (“Northway”) and its subsidiaries (the “Company”). Such forward-looking statements are subject to known and unknown risks, uncertainties and contingencies, many of which are beyond the control of the Company. To the extent any such risks, uncertainties and contingencies are realized, the Company’s actual results, performance or achievements could differ materially from anticipated results, performance or achievements. Factors that might affect such forward-looking statements include, among other factors, the factors described under the caption “Risk Factors” in Item 1A of this report, overall economic and business conditions, economic and business conditions in the Company’s market areas, interest rate fluctuations, a prolonged continuation of the current interest rate environment, the demand for the Company’s products and services, competitive factors in the industries in which the Company competes, changes in government regulations, and the timing, impact and other uncertainties of future acquisitions.

In addition to the factors described above, the following are some additional factors that could cause our financial performance to differ from any forward-looking statement contained herein: i) changes in interest rates over the past year and the relative relationship between the various interest rate indices that the Company uses; ii) a deterioration in the financial markets affecting the valuation of securities held in the Company’s investment portfolio; (iii) a change in product mix attributable to changing interest rates, customer preferences or competition; iv) a significant portion of the Company’s loan customers are in the hospitality business and therefore could be affected by a slower economy, adverse weather conditions and/or rising gasoline prices; and v) the effectiveness of advertising, marketing and promotional programs.

The words “believe,” “expect,” “anticipate,” “intend,” “estimate,” “project” or the negative of such terms and other similar expressions which are predictions of or indicate future events and trends and which do not relate to historical matters identify forward-looking statements. Reliance should not be placed on forward-looking statements because they involve known or unknown risks, uncertainties or other factors, which may cause the actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. The Company expressly disclaims any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Though the Company has attempted to list comprehensively the factors which might affect forward-looking statements, the Company wishes to caution you that other factors may in the future prove to be important in affecting the Company’s results of operations. New factors emerge from time to time and it is not possible for management to anticipate all of such factors, nor can it assess the impact of each such factor, or combination of factors, which may cause actual results to differ materially from forward-looking statements.

PART 1

ITEM 1. BUSINESS

Description of Business

Northway Financial, Inc. was incorporated on March 7, 1997, under the laws of the State of New Hampshire, for the purpose of becoming the holding company of The Berlin City Bank, a New Hampshire-chartered bank headquartered in Berlin, New Hampshire (“BCB”), pursuant to a reorganization transaction (the “BCB Reorganization”) by and among

the Company, BCB, and a subsidiary of BCB, and, thereafter, the merger (the “Merger”) by and among the Company, BCB, Pemi Bancorp, Inc. (“PEMI”), and PEMI’s wholly owned subsidiary, The Pemigewasset National Bank of Plymouth, New Hampshire, a national bank headquartered in Plymouth, New Hampshire (“PNB”). The BCB Reorganization and the Merger became effective on September 30, 1997. As of such date, BCB and PNB became wholly owned subsidiaries of the Company. On October 1, 2005, BCB was renamed Northway Bank and PNB was merged into Northway Bank (“Bank”). Unless the context otherwise requires, references herein to the “Company” include Northway Financial, Inc. and its consolidated subsidiary.

The Company derives substantially all of its revenue and income from the furnishing of bank and bank-related services, principally to individuals and small and medium-sized companies in New Hampshire. The Bank operates as a typical community banking institution and does not engage in any specialized finance or capital market activities. The Company functions primarily as the holder of stock of its subsidiary and assists the management of its subsidiary as appropriate.

The Company is subject to regulation by the New Hampshire Bank Commissioner (the “Commissioner”), the Federal Deposit Insurance Corporation (the “FDIC”), and the Board of Governors of the Federal Reserve System. See "Supervision and Regulation" on page 4 of this report

Table of Contents

The Bank is engaged in a general commercial banking business and offers commercial and construction loans, real estate mortgages, consumer loans, including personal secured and unsecured loans, and lines of credit.

The Bank accepts savings, time, demand, NOW and money market deposit accounts, and offers a variety of banking services including safe deposit boxes, credit cards, official checks and money orders, overdraft lines of credit, alternative investments, commercial cash management, and wire transfer services.

Northway is a legal entity separate and distinct from its subsidiary. The right of Northway to participate in any distribution of assets or earnings of the subsidiary is subject to the prior claims of creditors of the subsidiary, except to the extent that claims, if any, of Northway itself as a creditor may be recognized. See "Supervision and Regulation."

The following information concerning the Company's investment activities, lending activities, asset quality and allowance for loan losses should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations," appearing under Item 7 of this report and the Company's Consolidated Financial Statements and Notes thereto.

Investment Activities

The following table presents the carrying amount of the Company's securities available-for-sale as of December 31, 2006, 2005 and 2004 (\$000 Omitted):

	2006	2005	2004
U.S. Treasury and other U.S. government agency securities	\$ 47,063	\$ 47,751	\$ 54,563
Mortgage-backed securities ⁽¹⁾	40,621	23,939	29,301
Marketable equity securities	3,617	2,809	1,931
Corporate bonds	3,522	5,569	12,287
Asset backed securities	4,968	-	-
State and political subdivision bonds and notes	27,998	23,176	3,051
Total securities	\$ 127,789	\$ 103,244	\$ 101,133

⁽¹⁾Includes collateralized mortgage obligations of \$6, \$8 and \$10 for December 31, 2006, 2005 and 2004, respectively.

The following table sets forth the amortized cost of the Company's investment in debt securities maturing within stated periods and their related weighted average yields, reported on a tax equivalent basis, as of December 31, 2006 (\$000 Omitted):

	Within one year	One to five years	Maturities Five to ten years	Over ten years	Total amortized cost
Available-for-sale:					
U.S. Treasury and other U.S. government agency securities	\$ 6,300	\$ 30,455	\$ 10,983	\$ -	\$ 47,738
Mortgage-backed securities ⁽¹⁾	-	20	-	40,891	40,911

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Total amortized cost	\$	9,314	\$	33,480	\$	10,983	\$	71,147	\$	124,924
Fair value	\$	9,262	\$	32,935	\$	10,916	\$	71,059	\$	124,172
Weighted average yield		3.94%		4.13%		5.57%		5.49%		5.02%

(1) Includes collateralized mortgage obligations of \$6

Table of Contents**Lending Activities**

The following table sets forth information with respect to the composition of the Company's loan portfolio, excluding loans held for sale, as of December 31, 2006, 2005, 2004, 2003 and 2002 (\$000 Omitted):

	December 31,				
	2006	2005	2004	2003	2002
Real estate:					
Residential	\$ 167,172	\$ 158,729	\$ 147,333	\$ 129,493	\$ 114,526
Commercial	158,464	143,456	130,334	120,366	111,941
Construction	10,700	13,241	5,366	3,851	6,330
Commercial	33,569	27,349	27,013	24,528	23,885
Installment	42,489	35,786	29,345	30,291	40,169
Indirect installment	28,714	62,221	116,520	150,807	139,477
Other	20,843	19,507	18,901	14,530	9,652
Total loans	461,951	460,289	474,812	473,866	445,980
Unamortized cost/(unearned income)	279	84	(106)	(247)	(207)
Allowance for loan losses	(5,581)	(5,150)	(5,204)	(5,036)	(4,920)
Total unamortized cost/(unearned income) and allowance for loan losses	(5,302)	(5,066)	(5,310)	(5,283)	(5,127)
Net loans	\$ 456,649	\$ 455,223	\$ 469,502	\$ 468,583	\$ 440,853

The following table presents the maturity distribution of the Company's real estate construction and commercial loans at December 31, 2006 (\$000 Omitted):

	Amount	Percent of Total
Within one year	\$ 12,088	27.31%
After one through five years	15,154	34.23
Over five years	17,027	38.46
	\$ 44,269	100.00%

The Company's real estate construction and commercial loans due after one year at December 31, 2006 were comprised of the following (\$000 Omitted):

	Amount
Fixed interest rate	\$ 14,965
Adjustable interest rate	17,216
	\$ 32,181

Table of Contents**Analysis of the Allowance for Loan Losses**

The following table reflects activity in the Company's allowance for loan losses for the years ended December 31, 2006, 2005, 2004, 2003 and 2002 (\$000 Omitted):

	Years ended December 31,				
	2006	2005	2004	2003	2002
Balance at the beginning of period	\$ 5,150	\$ 5,204	\$ 5,036	\$ 4,920	\$ 4,642
Charge-offs:					
Real estate	9	8	56	-	83
Commercial	-	10	28	120	12
Installment loans	323	397	581	750	729
Total	332	415	665	870	824
Recoveries:					
Real estate	56	44	162	25	64
Commercial	16	85	16	11	4
Installment loans	226	157	160	145	134
Total	298	286	338	181	202
Net charge-offs	34	129	327	689	622
Provision charged to expense	465	75	495	805	900
Balance at the end of period	\$ 5,581	\$ 5,150	\$ 5,204	\$ 5,036	\$ 4,920
Ratio of net charge-offs to average loans	0.01%	0.03%	0.07%	0.15%	0.15%

The increase in the provision for loan losses in 2006 was due in large part to an increase in commercial loans, especially large hospitality loans, which require a higher risk weighting in the allowance for loan losses calculation. The decrease in the 2005 provision was due in part to a reduction in average loans of approximately \$19.8 million. The decrease in the 2004 provision was due in part to a reduction in average impaired loans of approximately \$1.1 million as well as the fact that the Company realized significant recoveries during 2004, which allowed the Company to maintain its coverage ratio. The decrease in the 2003 provision was due in large part to the recording of \$70,000 to other expense for a provision for losses related to unfunded loan commitments such as unused lines of credit and unused portions of home-equity loans. This provision had previously been calculated as part of the allowance for loan losses. The 2002 provision was unchanged from the provision recorded in 2001 due to an increase in loan balances and an increased level of loan charge-offs.

Allocation of the Allowance for Loan Losses

The following table sets forth the breakdown of the Company's allowance for loan losses in the Company's portfolio by category of loan and the percentage of loans in each category to total loans in the respective portfolios at the dates indicated (\$000 Omitted):

2006		2005		December 31, 2004		2003		2002

Table of Contents

Supervision and Regulation

The business in which the Company is engaged is subject to extensive supervision, regulation and examination by various bank regulatory authorities and other governmental agencies. State and federal banking laws have as their principal objective either the maintenance of the safety and soundness of financial institutions and the federal deposit insurance system or the protection of consumers or classes of consumers, and depositors in particular, rather than the specific protection of stockholders of a bank or its parent company.

Set forth below is a brief description of certain laws and regulations that relate to the regulation of the Company and its banking subsidiary. To the extent the following material describes statutory or regulatory provisions, it is qualified in its entirety by reference to the particular statute or regulation.

Regulation of the Company

General. As a registered bank holding company, the Company is subject to regulation under the Bank Holding Company Act of 1956, as amended (“BHCA”) and to inspection, examination and supervision by the Board of Governors of the Federal Reserve System (“FRB”). The Company is also subject to the laws of the State of New Hampshire.

The FRB has the authority to issue orders to bank holding companies to cease and desist from unsound banking practices and violations of conditions imposed by, or violations of agreements with, the FRB. The FRB is also empowered to assess civil money penalties against companies or individuals who violate the BHCA or orders or regulations thereunder, to order termination of non-banking activities of non-banking subsidiaries of bank holding companies, and to order termination of ownership and control of a non-banking subsidiary by a bank holding company. Under the BHCA, the Company may not generally engage in activities or acquire more than 5% of any class of voting securities of any company engaged in activities other than banking or activities that are closely related to banking. However, a bank holding company that has elected to be treated as a “financial holding company” may engage in activities that are financial in nature or incidental or complementary to such financial activities, as determined by the FRB alone, or together with the Secretary of the Department of the Treasury. The Company has not elected financial holding company status. Under certain circumstances, the Company may be required to give notice to or seek approval of the FRB before engaging in activities other than banking.

Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (“Riegle-Neal”). Riegle-Neal permits adequately- or well-capitalized and adequately- or well-managed bank holding companies, as determined by the FRB, to acquire banks in any state subject to certain concentration limits and other conditions. Riegle-Neal also generally authorizes the interstate merger of banks. In addition, among other things, Riegle-Neal permits banks to establish new branches on an interstate basis provided that the law of the host state specifically authorizes such action. However, as a bank holding company, the Company is required to obtain prior FRB approval before acquiring more than 5% of a class of voting securities, or substantially all of the assets of a bank holding company, bank or savings association.

Control Acquisitions. The Change in Bank Control Act prohibits a person or group of persons from acquiring “control” of a bank holding company, such as the Company, unless the FRB has been notified and has not objected to the transaction. Under a rebuttable presumption established by the FRB, the acquisition of 10% or more of a class of voting securities of a bank holding company with a class of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended, would, under the circumstances set forth in the presumption, constitute acquisition of control of the bank holding company. In addition, a company is required to obtain the approval of the FRB under the BHCA before acquiring 25% (5% in the case of an acquirer that is a bank holding company) or more of any class of outstanding voting securities of a bank holding company, or otherwise obtaining control or a “controlling influence” over that bank holding company.

Bank Holding Company Dividends. The FRB has authority to prohibit bank holding companies from paying dividends if such payment is deemed to be unsafe or unsound. The FRB has indicated generally that it may be an unsafe or unsound practice for bank holding companies to pay dividends unless the bank holding company's net income over the preceding year is sufficient to fund the dividends and the expected rate of earnings retention is consistent with the organization's capital needs, asset quality and overall financial condition. The Company depends in part upon dividends received from its subsidiary bank to fund its activities, including the payment of dividends. As described below, the FDIC and the banks regulatory agencies may regulate the amount of dividends payable by the subsidiary banks. The inability of the Bank to pay a dividend may have an adverse effect on the Company.

Regulation of the Bank

The Bank is organized under New Hampshire law and is subject to the regulations of the Commissioner and the FDIC, including requirements and restrictions related to the maintenance of adequate levels of capital, the payment of dividends, investments, the nature and amount of loans which can be originated and the rate of interest that can be charged thereon, and other activities. Capital requirements applicable to the Bank are substantially similar to those adopted by the FRB regarding bank holding companies as described above.

Insurance of Accounts and FDIC Regulation. The Bank pays deposit insurance premiums to the FDIC based on an assessment rate established by the FDIC. In 2006, the FDIC enacted various rules to implement the provision of the Federal Deposit Insurance Reform Act of 2005 (the "FDI Reform Act"). Pursuant to the FDI Reform Act, in 2006 the FDIC merged the Bank Insurance Fund with the Savings Association Insurance Fund to create a newly named Deposit Insurance Fund (the "DIF") that covers both banks and savings associations. The FDIC also revised, effective January 1, 2007, the risk-based premium system under which the FDIC classifies institutions based on the factors described below and generally assesses higher rates on those institutions that tend to pose greater risk to the DIF. For most banks and savings associations, including the Bank, FDIC rates will depend upon a combination of CAMELS component ratings and financial ratios. CAMELS ratings reflect the applicable bank regulatory agency's evaluation of the financial institution's capital, asset quality, management, earnings, liquidity and sensitivity to risk. For large banks and savings associations that have long-term debt issuer ratings, assessment rates will depend upon such ratings, and CAMELS component ratings. For institutions, such as the Bank, which are in the lowest risk category, assessment rates will vary initially from five (5) to seven (7) basis points per \$100 of insured deposits. The Federal Deposit Insurance Act ("FDIA") as amended by the FDI Reform Act requires the FDIC to set a ratio of deposit insurance reserves to estimated insured deposits, the designated reserve ratio (the "DRR") for a particular year within a range of 1.15% to 1.50%. For 2007, the FDIC has set the initial DRR at 1.25%. Under the FDI Reform Act and the FDIC's revised premium assessment program, every FDIC-insured institution will pay some level of deposit insurance assessments regardless of the level of the DRR. We cannot predict whether, as a result of an adverse change in economic conditions or other reasons, the FDIC will be required in the future to increase deposit insurance assessments above 2007 levels. The FDI Reform Act allows eligible insured depository institutions to share a one-time assessment credit pool of approximately \$4.7 billion. The Bank will, therefore, receive a one-time credit of \$447,000 to be applied against any future deposit insurance assessments. During 2006, the Bank paid FDIC premiums totaling \$59,000.

Table of Contents

Bank Holding Company Support of Subsidiary Banks. Under FRB policy, a bank holding company is expected to act as a source of financial and managerial strength to each of its subsidiary banks and to commit resources to their support. This support may be required at times when the bank holding company may not have the resources to provide it. Similarly, under the cross-guarantee provisions of FDIA, the FDIC can hold any FDIC-insured depository institution liable for any loss suffered or anticipated by the FDIC in connection with (1) the “default” of a commonly controlled FDIC-insured depository institution; or (2) any assistance provided by the FDIC to a commonly controlled FDIC-insured depository institution “in danger of default.” The Bank is an FDIC-insured depository institution.

Regulatory Capital Requirements. The FRB and the FDIC have issued substantially similar risk-based and leverage capital guidelines applicable to United States banking organizations. In addition, these regulatory agencies may from time to time require that a banking organization maintain capital above the minimum levels, whether because of its financial condition or actual or anticipated growth.

The FRB risk-based guidelines define a three-tier capital framework. Tier 1 capital includes common stockholders’ equity and qualifying preferred stock, less goodwill and other adjustments. Tier 2 capital consists of preferred stock not qualifying as Tier 1 capital, mandatory convertible debt, limited amounts of subordinated debt, other qualifying term debt and the allowance for loan losses up to 1.25 percent of risk-weighted assets. Tier 3 capital includes subordinated debt that is unsecured, fully paid, has an original maturity of at least two years, is not redeemable before maturity without prior approval by the FRB and includes a lock-in clause precluding payment of either interest or principal if the payment would cause the issuing bank’s risk-based capital ratio to fall or remain below the required minimum. The sum of Tier 1 and Tier 2 capital less investments in unconsolidated subsidiaries represents qualifying total capital. Risk-based capital ratios are calculated by dividing Tier 1 and total capital by risk-weighted assets. Assets and off-balance sheet exposures are assigned to one of four categories of risk-weights, based primarily on relative credit risk. The minimum Tier 1 capital ratio is four percent and the minimum total capital ratio is eight percent. The Company’s tier 1 calculation as of December 31, 2006 equaled 14.02% and its total capital ratio as of December 31, 2006 was 15.95%.

The leverage ratio is determined by dividing Tier 1 capital by adjusted average total assets for the quarter. Although the stated minimum ratio is 100 to 200 basis points above three percent, banking organizations are required to maintain a ratio of at least five percent to be classified as “well capitalized”. The Company’s leverage ratio as of December 31, 2006 was 9.31%.

The Federal Deposit Insurance Corporation Improvement Act of 1991 (“FDICIA”), among other things, identifies five capital categories for insured depository institutions (well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized) and requires the federal bank regulatory agencies to implement systems for “prompt corrective action” for insured depository institutions that do not meet minimum capital requirements within such categories. FDICIA imposes progressively more restrictive constraints on operations, management and capital distributions, depending on the category in which an institution is classified. Failure to meet the capital guidelines could also subject a banking institution to capital raising requirements. An “undercapitalized” bank must develop a capital restoration plan and its parent holding company must guarantee that bank’s compliance with the plan. The liability of the parent holding company under any such guarantee is limited to the lesser of five percent of the bank’s assets at the time it became “undercapitalized” or the amount needed to comply with the plan. Furthermore, in the event of the bankruptcy of the parent holding company, such guarantee would take priority over the parent’s general unsecured creditors. In addition, FDICIA requires the various regulatory agencies to prescribe certain non-capital standards for safety and soundness relating generally to operations and management, asset quality and executive compensation and permits regulatory action against a financial institution that does not meet such standards.

The various regulatory agencies have adopted substantially similar regulations that define the five capital categories identified by FDICIA, using the total risk-based capital, Tier 1 risk-based capital and leverage capital ratios as the

relevant capital measures. Such regulations establish various degrees of corrective action to be taken when an institution is considered undercapitalized. Under the regulations, a “well capitalized” institution must have a Tier 1 risk-based capital ratio of at least six percent, a total risk-based capital ratio of at least ten percent and a leverage ratio of at least five percent and not be subject to a capital directive order.

Regulators also must take into consideration (a) concentrations of credit risk; (b) interest rate risk (when the interest rate sensitivity of an institution’s assets does not match the sensitivity of its liabilities or its off-balance-sheet position); and (c) risks from non-traditional activities, as well as an institution’s ability to manage those risks, when determining the adequacy of an institution’s capital. This evaluation will be made as a part of the institution’s regular safety and soundness examination. In addition, the Company, and any bank with significant trading activity, must incorporate a measure for market risk in their regulatory capital calculations. As of December 31, 2006, the most recent notification from the FDIC categorized the Bank as “well capitalized”.

In 2005, the federal banking agencies issued an advance notice of proposed rulemaking (“ANPR”) concerning potential changes in the risk-based capital rules (“Basel IA”) that are designed to apply to, and potentially reduce the risk capital requirements of bank holding companies, such as the Company, that are not among the 20 or so largest US bank holding companies. In December 2006, the FDIC issued a revised Interagency Notice of Proposed Rulemaking concerning Basel 1-A (the “NPR”), which would allow banks and bank holding companies that are not among the 20 or so largest US bank holding companies to either adopt Basel 1-A or remain subject to the existing risk-based capital rules. The NPR would also, among other changes, amend the ANPR to add new risk weights, expand the use of external credit ratings for certain exposures and expand the range of eligible collateral and guarantors used to mitigate credit risk. The NPR remains subject to approval by other regulatory agencies, and if approved, will be made available to the public for comment, and in all likelihood, will be subject to further revision. The effective date, if adopted, of the Basel 1-A rules also remains uncertain. Accordingly, the Company is not yet in a position to determine the effect of such rules on its risk capital requirements.

Transactions with Affiliates. Under Sections 23A and 23B of the Federal Reserve Act and Regulation W thereunder, there are various legal restrictions on the extent to which a bank holding company and its non-bank subsidiaries may borrow, obtain credit from or otherwise engage in "covered transactions" with its FDIC insured depository institution subsidiaries. Such borrowings and other covered transactions by an insured depository institution subsidiary (and its subsidiaries) with its non-depository institution affiliates are limited to the following amounts: (a) in the case of one such affiliate, the aggregate amount of covered transactions of the insured depository institution and its subsidiaries cannot exceed ten percent (10%) of the capital stock and surplus of the insured depository institution; and (b) in the case of all affiliates, the aggregate amount of covered transactions of the insured depository institution and its subsidiaries cannot exceed twenty percent (20%) of the capital stock and surplus of the insured depository institution.

"Covered transactions" are defined by statute for these purposes to include a loan or extension of credit to an affiliate, a purchase of or investment in securities issued by an affiliate, a purchase of assets from an affiliate unless exempted by the Federal Reserve Board, the acceptance of securities issued by an affiliate as collateral for a loan or extension of credit to any person or company, or the issuance of a guarantee, acceptance, or letter of credit on behalf of an affiliate. Covered transactions are also subject to certain collateral security requirements. Further, a bank holding company and its subsidiaries are prohibited from engaging in certain tying arrangements in connection with any extension of credit, lease or sale of property of any kind, or furnishing of any service.

Limitations on Bank Dividends. The FDIC has the authority to use its enforcement powers to prohibit a bank from paying dividends if, in its opinion, the payment of dividends would constitute an unsafe or unsound practice. Federal law also prohibits the payment of dividends by a bank that will result in the bank failing to meet its applicable capital requirements on a pro forma basis.

Table of Contents

Customer Information Security. The FDIC and other bank regulatory agencies have adopted final guidelines for establishing standards for safeguarding nonpublic personal information about customers that implement provisions of the Gramm-Leach-Bliley Act of 1999 or "GLBA," which establishes a comprehensive framework to permit affiliations among commercial banks, insurance companies, securities firms, and other financial service providers by revising and expanding the BHCA framework. Specifically, the Information Security Guidelines established by the GLBA require each financial institution, under the supervision and ongoing oversight of its Board of Directors or an appropriate committee thereof, to develop, implement and maintain a comprehensive written information security program designed to ensure the security and confidentiality of customer information, to protect against anticipated threats or hazards to the security or integrity of such information; and to protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer. The federal banking regulators have issued guidance for banks on response programs for unauthorized access to customer information. This guidance, among other things, requires notice to be sent to customers whose "sensitive information" has been compromised if unauthorized use of this information is "reasonably possible." Various states have enacted legislation concerning breaches of data security and various bills requiring consumer notice of data security breaches are being considered by Congress.

Privacy. The GLBA requires financial institutions to implement policies and procedures regarding the disclosure of nonpublic personal information about consumers to nonaffiliated third parties. In general, the statute requires financial institutions to explain to consumers their policies and procedures regarding the disclosure of such nonpublic personal information, and, unless otherwise required or permitted by law, financial institutions are prohibited from disclosing such information except as provided in their policies and procedures.

USA Patriot Act. The USA Patriot Act of 2001, designed to deny terrorists and others the ability to obtain anonymous access to the U.S. financial system, has significant implications for depository institutions, broker-dealers, mutual funds, insurance companies and businesses of other types involved in the transfer of money. The USA Patriot Act, together with the implementing regulations of various federal regulatory agencies, have caused financial institutions, including banks, to adopt and implement additional, or amend existing, policies and procedures with respect to, among other things, anti-money laundering compliance, suspicious activity and currency transaction reporting, customer identity verification and customer risk analysis. The statute and its underlying regulations also permit information sharing for counter-terrorist purposes between federal law enforcement agencies and financial institutions, as well as among financial institutions, subject to certain conditions, and require the FRB (and other federal banking agencies) to evaluate the effectiveness of an applicant and a target institution in combating money laundering activities when considering applications filed under Section 3 of the BHCA or under the Bank Merger Act. In 2006, final regulations under the USA Patriot Act were issued requiring financial institutions, including the Bank, to take additional steps to monitor their correspondent banking and private banking relationships as well as their relationships with "shell banks." Management believes that the Company is in compliance with all the requirements prescribed by the USA Patriot Act and all applicable final implementing regulations.

The Community Reinvestment Act. The Community Reinvestment Act ("CRA") requires lenders to identify the communities served by the institution's offices and other deposit taking facilities and to make loans and investments and provide services that meet the credit needs of these communities. Regulatory agencies examine each of the banks and rate such institutions' compliance with CRA as "Outstanding", "Satisfactory", "Needs to Improve," or "Substantial Noncompliance". Failure of an institution to receive at least a "Satisfactory" rating could inhibit such institution or its holding company from undertaking certain activities, including engaging in activities newly permitted as a financial holding company under the GLBA and acquisitions of other financial institutions. The FRB must take into account the record of performance of banks in meeting the credit needs of the entire community served, including low- and moderate-income neighborhoods. The Bank has achieved a rating of Outstanding on its most recent examination. New Hampshire also has enacted substantially similar community reinvestment requirements. The federal banking agencies adopted less burdensome CRA requirements, effective in 2006, for "intermediate - small banks," which are banks with \$250 million or more, but less than \$1 billion in total assets, under which such banks, including Northway Bank, will

be examined using only two tests, a Lending Test and a new Community Development Test, and will be relieved of certain data collection and reporting requirements.

Competition

The banking industry in the United States, which includes commercial banks, savings and loan associations, mutual savings banks, capital stock savings banks, credit unions, and bank and savings and loan holding companies, is part of the broader financial services industry which includes insurance companies, mutual funds, and the brokerage industry, among others. In recent years, intense market demands and economic pressures have eroded once clearly defined industry classifications and have forced financial services institutions to diversify their services, increase returns on deposits, and become more cost-effective as a result of competition with one another and with new types of financial services companies, including non-bank competitors.

The Company's banking subsidiary faces significant competition in its markets from commercial banks, savings banks, credit unions, consumer finance companies, insurance companies, "non-bank banks," mutual funds, government agencies, investment management companies, investment advisors, brokers and investment bankers. In addition, increasing consolidation within the banking and financial services industry, as well as increased competition from larger regional and out-of-state banking organizations and non-bank providers of various financial services, may adversely affect the Company's ability to achieve its financial goals. Federal banking laws permit adequately capitalized bank holding companies to venture across state lines to offer banking services through bank subsidiaries to a wider geographic market. Consequently, it is possible for large organizations to enter many new markets including the markets served by the Company. Certain of these competitors, by virtue of their size and resources, may enjoy certain efficiencies and competitive advantages over the Company in pricing, delivery, and marketing of their products and services. The Company's long-term success depends on the ability of the Company's banking subsidiary to compete successfully with other financial institutions in their service areas. It is not possible to assess what impact these changes in the regulatory environment will have on the Company. Many of these large competitors have significantly more financial resources, larger market share and greater name recognition in the market areas served by the Company and its banking subsidiaries.

The Bank competes in this environment by providing a broad range of financial services, competitive interest rates and a personal level of service that, combined, tend to retain the loyalty of its customers in its market areas against competitors with far larger resources. To a lesser extent, convenience of branch locations and hours of operations are also considered competitive advantages of the Bank.

Employees

As of December 31, 2006 the Company has 249 full-time equivalent employees. The Company considers its employee relations to be good.

Website Access to Company Reports

The Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports are available free of charge on the Company's website at www.northwaybank.com as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission. Also, copies of the Company's annual report on Form 10-K, including the exhibits thereto, will be made available, free of charge, upon written request.

Table of Contents

ITEM 1A. RISK FACTORS

Our business is largely dependent upon the hospitality industry. A number of our loan customers are in the hospitality industry. The hospitality industry is dependent on personal discretionary spending levels. As a result, the hospitality industry may be adversely impacted by economic trends, including recession and increased unemployment. Additionally, unforeseen events including acts of terrorism, war, increases in fuel prices, travel-related accidents and unusual weather patterns also may adversely affect the hospitality industry. As a result, our business also is likely to be adversely affected by those events.

Fluctuations in interest rates may negatively impact the business of our Bank. Our Bank's main source of income from operations is net interest income, which is equal to the difference between the interest income received on interest-earning assets (usually loans and investment securities) and the interest expense incurred in connection with interest-bearing liabilities (usually deposits and borrowings). These rates are highly sensitive to many factors beyond our control, including general economic conditions, both domestic and foreign, and the monetary and fiscal policies of various governmental and regulatory authorities. Our bank's net interest income can be affected significantly by changes in market interest rates. Changes in relative interest rates may reduce our Bank's net interest income as the difference between interest income and interest expense decreases. As a result, our Bank's have adopted asset and liability management policies to minimize the potential adverse effects of changes in interest rates on net interest income, primarily by altering the mix and maturity of loans, investments and funding sources. However, even with these policies in place, a change in interest rates can impact our results of operations or financial condition.

An increase in interest rates could also have a negative impact on our bank's results of operations by reducing the ability of borrowers to repay their current loan obligations, which could not only result in increased loan defaults, foreclosures and write-offs, but also necessitate further increases in the banks' allowance for loan losses.

Our allowance for loan losses may not be adequate to cover actual losses. We make various assumptions and judgments about the collectibility of our loan portfolio and provide an allowance for potential loan losses based on several factors. If our assumptions are incorrect, our allowance for loan losses may be insufficient to cover our actual losses, which would have an adverse effect on our results of operations, and may cause us to increase the allowance in the future.

Changes in the securities market may adversely impact our results of operations. In recent years the securities market has experienced significant volatility and will likely continue to experience volatility as a result of, among other things, global economic and political conditions. Declines in equity prices, as well as declines in the performance of certain sectors or specific companies, may result in a corresponding decline in the value of Company-held securities. Any decline in the value of Company-held securities may decrease our earnings.

Our loans are concentrated in certain areas of New Hampshire and adverse conditions in those markets could adversely affect our operations. We are exposed to real estate and economic factors in the northern and central areas of New Hampshire, as virtually the entire loan portfolio is concentrated among borrowers in these markets. Further, because a substantial portion of the loan portfolio is secured by real estate in this area, the value of the associated collateral is also subject to regional real estate market conditions. Adverse economic, political or business developments or natural hazards may affect these areas and the ability of property owners in these areas to make payments of principal and interest on the underlying mortgages. If these regions experience adverse economic, political or business conditions, we would likely experience higher rates of loss and delinquency on these mortgage loans than if the loans were more geographically diverse.

If we do not maintain net income growth, the market price of our common stock could be adversely affected. Our return on shareholders' equity and other measures of profitability, which affect the market price of our common stock, depend in part on our continued growth and expansion. Our growth strategy has two principal components—internal

growth and external growth. Our ability to generate internal growth is affected by the competitive factors described below as well as by the primarily rural characteristics and related demographic features of the markets we serve. Our ability to continue to identify and invest in suitable acquisition candidates on acceptable terms is crucial to our external growth. In pursuing acquisition opportunities, we may be in competition with other companies having similar growth strategies. As a result, we may not be able to identify or acquire promising acquisition candidates on acceptable terms. Competition for these acquisitions could result in increased acquisition prices and a diminished pool of acquisition opportunities. An inability to find suitable acquisition candidates at reasonable prices could slow our growth rate and have a negative effect on the market price of our common stock.

We experience strong competition within our markets, which may impact our profitability. Competition in the banking and financial services industry is strong. In our market areas, we compete for loans and deposits with local independent banks, thrift institutions, savings institutions, mortgage brokerage firms, credit unions, finance companies, mutual funds, insurance companies and brokerage and investment banking firms operating locally as well as nationally. Many of these competitors have substantially greater resources and lending limits than those of our subsidiaries and may offer services that our subsidiaries do not or cannot provide. Our long-term success depends on the ability of the Bank to compete successfully with other financial institutions in their service areas. Because we maintain a smaller staff and have fewer financial and other resources than larger institutions with which we compete, we may be limited in our ability to attract customers. If we are unable to attract and retain customers, we may be unable to sustain growth in the loan portfolio and our results of operations and financial condition may otherwise be negatively impacted.

Our cost of funds for banking operations may increase as a result of general economic conditions, interest rates and competitive pressures. Our banking subsidiary has traditionally obtained funds principally through deposits and borrowings. As a general matter, deposits are a less costly source of funds than borrowings because interest rates paid for deposits are typically less than interest rates charged for borrowings. If, as a result of general economic conditions, market interest rates, competitive pressures or otherwise, the value of deposits at our banking subsidiary decreases relative to our overall banking operations, we may have to rely more heavily on borrowings as a source of funds in the future.

Our banking business is highly regulated. Bank holding companies and state-chartered banks operate in a highly regulated environment and are subject to supervision, regulation and examination by various federal and state bank regulatory agencies, as well as other governmental agencies in the states in which they operate. Federal and state laws and regulations govern numerous matters including changes in the ownership or control of banks and BHCs, maintenance of adequate capital and the financial condition of a financial institution, permissible types, amounts and terms of extensions of credit and investments, permissible non-banking activities, the level of reserves against deposits and restrictions on dividend payments. The FDIC possesses cease and desist powers to prevent or remedy unsafe or unsound practices or violations of law by banks subject to their regulation, and the FRB possesses similar powers with respect to BHCs. These and other restrictions limit the manner in which we may conduct business and obtain financing. There can be no assurance that any modification of these laws and regulations, or new legislation that may be enacted, in the future will not make compliance more difficult or expensive, restrict our ability to originate, broker or sell loans or otherwise adversely affect our operations. See “Supervision and Regulation” on page 4 of this report.

Table of Contents

Furthermore, our business is also affected by the economic, fiscal and monetary policies of the United States and its agencies and regulatory authorities, particularly the FRB. The economic and fiscal policies of various governmental entities and the monetary policies of the FRB may affect the interest rates our bank subsidiaries must offer to attract deposits and the interest rates they must charge on loans, as well as the manner in which they offer deposits and make loans. These economic, fiscal and monetary policies have had, and are expected to continue to have, significant effects on the operating results of depository institutions generally, including our bank subsidiaries.

We could be held responsible for environmental liabilities of properties we acquire through foreclosure. If we are forced to foreclose on a defaulted mortgage loan to recover our investment, we may be subject to environmental liabilities related to the underlying real property. Hazardous substances or wastes, contaminants, pollutants or sources thereof may be discovered on properties during our ownership or after a sale to a third party. The amount of environmental liability could exceed the value of the real property. There can be no assurance that we would not be fully liable for the entire cost of any removal and clean-up on an acquired property, that the cost of removal and clean-up would not exceed the value of the property, or that we could recoup any of the costs from any third party.

To the extent that we acquire other companies or branches in the future, our business may be negatively impacted by certain risks inherent with such acquisitions. Although we do not have an aggressive acquisition strategy, we have acquired, and in the future, will continue to consider the acquisition of, branches of other financial services companies. To the extent that we acquire branches in the future, our business may be negatively impacted by certain risks inherent with such acquisitions. These risks include the following:

- The risk that the acquired business will not perform in accordance with management's expectations;
- The risk that difficulties will arise in connection with the integration of the operations of the acquired business with the operation of our businesses;
 - The risk that management will divert its attention from other aspects of our business;
 - The risk that we may lose key employees of the acquired business; and
- The risks associated with entering into geographic and product markets in which we have limited or no direct prior experience.

Due to the nature of our business, we may be subject to litigation from time to time, some of which may not be covered by insurance. Through our bank subsidiary, we operate in a highly regulated industry, and as a result, are subject to various regulations related to disclosures to our customers, our lending practices, and other fiduciary responsibilities. From time-to-time, we have been, and may become, subject to legal actions relating to our operations that have had, or could, involve claims for substantial monetary damages. Although we maintain insurance, the scope of this coverage may not provide us with full, or even partial, coverage in any particular case. As a result, a judgment against us in any such litigation could have a material adverse effect on our financial condition and results of operation.

Changes in tax legislation could have a material impact on our results of operations. Changes in tax legislation could have a material impact on our results of operations.

ITEM 2. PROPERTIES

The Company operates 20 branch offices, one commercial lending and administration facility and one administration facility that are located in the central and northern New Hampshire communities of Berlin, Conway (four offices), Gorham (two offices), Groveton, Littleton, West Ossipee, West Plymouth, Plymouth, Campton, Ashland, North Woodstock, Tilton (two offices), Franklin, Laconia, Belmont (two offices), and Pittsfield. Sixteen of these offices are located on properties the Company owns. The Company leases six of its branches under contracts that expire between June 30, 2007 and December 31, 2015. Furthermore, four of the leases have an option to renew for an additional five years. Seventeen of the Company's branches have drive-up facilities and all are equipped with automated teller machines.

ITEM 3. LEGAL PROCEEDINGS

The Company is not a party to, nor are any of its subsidiaries the subject of, any material pending legal proceedings, other than ordinary routine litigation incidental to the business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the quarter ended December 31, 2006.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's common stock is traded on The Nasdaq Stock Market, Inc.'s National Market under the symbol "NWFI". The following table sets forth, for the periods indicated, the high and low closing sale prices for the common stock, as reported by The Nasdaq National Market, and the dividends paid on the common stock:

	Price Per Share		Dividends Per Share
	Low	High	
2006 4 th Quarter	\$32.41	\$33.64	\$0.20
3 rd Quarter	32.41	34.38	0.20
2 nd Quarter	34.72	38.05	0.20
1 st Quarter	33.28	37.61	0.18
2005 4 th Quarter	\$31.59	\$35.31	\$0.18
3 rd Quarter	30.27	35.56	0.18
2 nd Quarter	29.61	33.77	0.18
1 st Quarter	32.37	35.24	0.17

Table of Contents

The Company intends to continue to pay dividends on a quarterly basis subject to, among other things, the financial condition and earnings of the Company, capital requirements, and other factors, including applicable governmental regulations. No dividends will be payable unless declared by the Board of Directors and then only to the extent funds are legally available for the payment of such dividends.

On March 1, 2007, the closing sales price of the common stock on the Nasdaq National Market was \$31.37 per share. As of such date, there were approximately 1,100 holders of record of the Company common stock.

The following table sets forth, for the periods indicated, information regarding stock repurchases:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Plan ⁽¹⁾
October 1, 2006 to October 31, 2006	-	-	-	75,515
November 1, 2006 to November 30, 2006	-	-	-	75,515
December 1, 2006 to December 31, 2006	-	-	-	75,515
Total	-	-	-	-

⁽¹⁾On July 26, 1999, the Board of Directors authorized the repurchase of up to 175,000 shares of common stock for use in the company's common stock repurchase program. Under this repurchase program, the Company will repurchase shares on the open market or in private transactions from time to time, depending on market conditions. The repurchase program does not have an expiration date.

The following graph compares the cumulative total stockholder return on Northway's common stock (assuming \$100 was invested on September 30, 1997, the date when Northway's common stock became publicly traded, and all dividends were reinvested) against (i) the cumulative total return of the S&P Composite 500 Stock Index, and (ii) the NASDAQ Bank Stock Index.

	12/31/02	12/31/03	12/31/04	12/31/05	12/31/06
NWFI	\$ 115.50	\$ 129.67	\$ 129.16	\$ 131.97	\$ 131.65
S&P 500	90.66	114.58	124.88	128.63	146.15
NASDAQ Bank Stocks	107.11	139.17	154.47	147.77	164.04

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA**

The following table sets forth the selected consolidated financial information of the Company for the five years in the period ended December 31, 2006. This selected consolidated financial information should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” appearing under Item 7 of this report and “Financial Statements and Supplementary Data” appearing under Item 8 of this report.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of this discussion is to focus on significant changes in the financial condition and results of operations of the Company. It is intended to supplement and highlight information contained in the accompanying consolidated financial statements and the selected financial data presented elsewhere in this report. The discussion set forth below contains certain statements that may be considered "forward-looking statements." Forward-looking statements involve risks, uncertainties and other factors that may cause the Company's actual results to materially differ from those projected in the forwarding-looking statements. For further information regarding forward-looking statements, you should review the discussion under the caption "FORWARD-LOOKING STATEMENTS" on page 1 of this report.

OVERVIEW OF PERFORMANCE

The Company derives substantially all of its revenue and income from community bank-related activities. The Bank operates as a typical community banking institution and does not engage in any specialized finance or capital markets activities. Northway functions primarily as the holder of stock of its subsidiary and assists in the management of the operations of its subsidiary as appropriate.

The principal components of the Company's income sources are net interest and dividend income. Net interest and dividend income is the difference between interest, dividends and fee income received on interest earning assets, such as loans and investments, and the interest expense paid on interest bearing liabilities, such as deposits and borrowed funds. Our other sources of income include revenues from sales of securities, deposit account service fees and fee-based services, such as debit card fees, ATM fees and alternative investment income.

Economic and industry factors that could cause the Company's financial performance to differ from expected results include changes in applicable federal and state regulations, changes in the hospitality industry on which the Company's business is largely dependent, interest rate volatility, significant changes in loan losses which may affect the Company's allowance for loan losses and the related provision for loan losses, and changes in the securities market that would affect the performance of the Company's investment portfolio. Management evaluates each of these factors on an ongoing basis to determine their impact and to effect any strategies necessary to mitigate these risks.

The Company reported net income of \$3,215,000, or \$2.15 basic earnings per common share, in 2006 compared to net income of \$2,673,000, or \$1.78 basic earnings per common share, in 2005 and \$3,388,000, or \$2.26 basic earnings per common share, in 2004. Return on average equity was 6.24% in 2006, compared to 5.33% in 2005 and 6.97% in 2004. Return on average assets was 0.51% in 2006, compared to 0.43% in 2005 and 0.54% in 2004.

On April 7, 2006, the Company acquired from Washington Mutual Bank the former Providian National Bank branches located in Tilton and Belmont, New Hampshire. This transaction included the purchase of approximately \$8,192,000 in loan balances, net of discount, and the acquisition of deposits, net of deposit assumption premium, totaling approximately \$27,779,000, for which the Company paid a deposit assumption premium of 6.30%. See NOTE 11 to the Consolidated Financial Statements.

During 2006, the Company recorded a decrease in net interest and dividend income of \$974,000, as an increase in the cost of interest bearing liabilities of 0.92% was only partially offset by an increase in the yield on earning assets of 0.65% and an increase in average earning assets of \$9,026,000. During 2006, interest income increased \$3,863,000 due primarily to an improvement in the yield on loans as well as an increase in both the yield and average balances of investments. Interest expense increased \$4,837,000 due primarily to an increase in interest bearing liabilities of \$10,079,000 as well as a shift in liabilities from savings and NOW accounts, a less expensive source of funds, into

certificates of deposits and securities sold under agreements to repurchase, more costly sources of funds. The provision for loan losses increased \$390,000 as the total provision for 2006 was \$465,000 compared to \$75,000 for 2005. The increase in the provision for loan losses was the result of the ongoing review of the adequacy of the allowance for loan losses. Noninterest income, excluding securities gains, increased \$930,000 from last year due primarily to an increase in overdraft income, debit card fees and one-time favorable items relating to the resolution of a significant loan relationship workout as well as unwind fee income from a FHLBB symmetrical advance. During 2006, the Company realized net securities gains of \$394,000 compared to net securities losses of \$551,000 for the prior year. The 2005 net losses were the result of the restructuring of the investment portfolio as well as the sale of corporate bonds at a loss of \$499,000. Noninterest expense increased \$159,000 over the prior year.

Table of Contents

During 2005, the Company recorded an increase in net interest and dividend income of \$330,000, as an increase in the average yield on earning assets of 0.33% and an increase in average earning assets of \$2,079,000 was only partially offset by an increase in the cost of interest bearing liabilities of 0.31%. During 2005, interest income increased \$1,827,000 due primarily to an improvement in the yield on loans as well as an increase in investment balances. Partially offsetting this, interest expense increased \$1,497,000 as money market and certificates of deposit rates increased, keeping pace with the rise in interest rates. The Company recorded a reduction in the provision for loan losses of \$420,000 as the total provision for 2005 was \$75,000 compared to \$495,000 for 2004. The decrease in the provision for loan losses was the result of an ongoing review of the adequacy of the allowance for loan losses. Noninterest income, excluding securities gains, increased \$203,000 from last year due primarily to improvements in overdraft income, commissions on alternative investments and debit card fees, which was partially offset by decreases in gains on sales of loans and loan fees. During 2005, the Company realized net securities losses totaling \$551,000 compared to net securities gains of \$753,000 for the prior year. These net losses in 2005 were the result of the restructuring of the investment portfolio as well as the sale of corporate bonds at a loss of \$499,000. Noninterest expense increased \$1,188,000 due primarily to one-time costs of \$1,161,000 associated with the merger of the two banks.

NET INTEREST AND DIVIDEND INCOME ANALYSIS

Fluctuations in interest rates as well as changes in volume and mix of income earning assets and interest bearing liabilities can materially impact net interest and dividend income, the principal source of our income. The discussion of net interest and dividend income is presented on a taxable equivalent basis, unless otherwise noted, to facilitate performance comparisons among various taxable and tax-exempt assets.

The table below under the caption “Consolidated Average Balances, Interest and Dividend Income/Expense and Average Yields/Rates,” presents the average balances, income earned or interest paid, and average yields earned or rates paid on the Company’s assets and liabilities for the years ended December 31, 2006, 2005, and 2004.

Net interest and dividend income for 2006 decreased \$487,000, or 2%, compared to 2005. Interest and dividend income increased \$4,350,000, or 13%, in 2006 compared to 2005. Rising interest rates and a shift in the loan mix resulted in an improvement on the yield on loans of 0.65%. Further the average balance on investments increased \$14,266,000 and the yield on investments increased 0.66% resulting in an improvement in investment income of \$1,419,000.

The increase in interest income was more than offset by an increase in interest expense of \$4,837,000, or 54%, in 2006 compared to 2005. Interest expense increased due primarily to an increase in the cost of interest bearing liabilities of 0.92%. This increase was the result of an increase in rates paid on money market accounts, certificates of deposit, securities sold under agreements to repurchase, FHLB advances and junior subordinated debentures. These rates increased as a result of the increase in interest rates during 2006. Further, the Company experienced a shift in liabilities from lower costing savings and NOW accounts into money markets, certificates of deposit and securities sold under agreements to repurchase, more expensive sources of funds.

Net interest and dividend income for 2005 increased \$489,000, or 2%, compared to 2004. Interest and dividend income increased \$1,986,000, or 7%, in 2005 compared to 2004. Rising interest rates resulted in an improvement in the yield on loans of 0.42% which was partially offset by a decline in average balances of \$19,824,000, resulting in an increase in interest and fees on loans of \$821,000. Further, the average balance of investments increased \$23,097,000 resulting in an improvement in investment income of \$966,000.

In 2005 the increase in interest income was partially offset by an increase in interest expense of \$1,497,000, or 20%, in 2005 compared to 2004. Interest expense increased due primarily to an increase in the cost of interest bearing liabilities of 0.31%. This increase was the result of an increase in rates paid on money market accounts, certificates of deposit, securities sold under agreements to repurchase, and junior subordinated debentures. These rates increased as a result of the increase in general interest rates during 2005.

The trend in net interest and dividend income is commonly evaluated in terms of average rates using net interest margin and interest rate spread. The net interest margin is computed by dividing fully taxable equivalent net interest and dividend income by average total earning assets. This ratio represents the difference between the average yield returned on average earning assets and the average rate paid for all funds used to support those earning assets, including both interest bearing and noninterest bearing sources of funds. The net interest margin decreased 0.14% to 3.92% in 2006 after having increased 0.07% to 4.06% in 2005. The decrease in the net interest margin for 2006 was a direct result of the increase in the cost of interest bearing liabilities, which increase was only partially offset by an increase in the yield on earning assets. The increase in the net interest margin for 2005 was a direct result of the increase in the yield on earning assets, which increase was only partially offset by the increase in the cost of funds.

The interest rate spread measures the difference between the average yield on earning assets and the average rate paid on interest bearing liabilities. The interest rate spread eliminates the impact of noninterest bearing funds and gives a direct perspective on the effect of interest rate fluctuations. During 2006, the net interest rate spread decreased 0.27% to 3.53% as the cost of interest bearing liabilities increased 0.92% and was only partially offset by an increase in the yield on earning assets of 0.65%. During 2005, the net interest rate spread increased 0.02% to 3.80% as the yield on earning assets increased 0.33% and was only partially offset by an increase in the cost of interest bearing liabilities of 0.31%.

See the tables below under the captions "Consolidated Average Balances, Interest and Dividend Income/Expense and Average Yields/Rates" and "Consolidated Rate/Volume Variance Analysis" for more information.

Table of Contents

PROVISION FOR LOAN LOSSES

The provision for loan losses represents the annual cost of providing an allowance for losses inherent in the loan portfolio. The size of the provision for each year is determined by management based upon many factors, including loan growth, net charge-offs, changes in the composition of the loan portfolio, delinquencies, management's assessment of loan portfolio quality, the value of collateral and general economic factors.

The provision for loan losses was \$465,000 in 2006, an increase of \$390,000 from the provision recorded in 2005. The provision for loan losses was \$75,000 in 2005, a decrease of \$420,000 from the provision recorded in 2004. The provision for each of the three years was based upon a review of the adequacy of the allowance for loan losses, which is conducted on a quarterly basis. This review is based upon many factors, including the risk characteristics of the portfolio, trends in loan delinquencies, and an assessment of existing economic conditions. In addition, various regulatory agencies, as part of their examination process, review the Company's allowances for loan losses and such review may result in changes to the allowance based on judgments different from those of management.

The increase in the 2006 provision was due in large part to an increase in commercial loans, especially large hospitality loans, which require a higher risk weighting in the allowance for loan loss calculation. The decrease in the 2005 provision was due in part to a reduction in average loans of \$19,824,000, which was primarily the result of a decrease in average indirect installment loans which declined \$53,234,000.

Although management utilizes its best judgment in providing for losses, there can be no assurance that the Company will not have to change its provision for loan losses in subsequent periods. Management will continue to monitor the allowance for loan losses and modify the provision to the allowance for loan losses as appropriate. For additional information regarding estimates in the assessment of the allowance for loan losses see "Application of Critical Accounting Policies" below.

(1) Reported on a tax equivalent basis. Reported interest on securities of \$5,432,000, \$4,465,000 and \$3,582,000 was adjusted by \$637,000, \$185,000 and \$102,000, for 2006, 2005 and 2004, respectively, to reflect the tax equivalent adjustment.

(2) Average balances are calculated using the adjusted cost basis.

(3) Reported on a tax equivalent basis. Reported interest and fees on loans of \$30,327,000, \$27,314,000 and \$26,569,000 was adjusted by \$364,000, \$328,000 and \$252,000 for 2006, 2005 and 2004, respectively, to reflect the tax equivalent adjustment.

(4) Net of unamortized cost/unearned income. Includes loans held for sale and nonperforming loans.

(5) Reported on a tax equivalent basis. Reported interest and dividend income of \$35,967,000, \$32,104,000 and \$30,277,000 was adjusted by \$1,000,000, \$513,000 and \$354,000 for 2006, 2005 and 2004, respectively, to reflect the tax equivalent adjustment.

(6) Reported on a tax equivalent basis. Reported net interest and dividend income of \$22,202,000, \$23,176,000 and \$22,846,000 was adjusted by \$1,000,000, \$513,000 and \$354,000 for 2006, 2005 and 2004, respectively, to reflect the tax equivalent adjustment.

(7) Interest rate spread equals the yield on interest earning assets minus the rate paid on interest bearing liabilities.

(8) The net interest margin equals net interest and dividend income divided by total average interest earning assets.

(1) Reported on a tax equivalent basis.

NONINTEREST INCOME

Noninterest income consists of revenues generated from a broad range of financial services and activities, including fee-based services and income earned through securities sales.

The following table sets forth the components of the Company's noninterest income:

	(\$000 Omitted)		
	Years Ended December 31,		
	2006	2005	2004
Service charges and fees on deposit accounts	\$ 2,837	\$ 2,430	\$ 2,229
Gain (loss) on sales of securities available-for-sale, net	394	(551)	753
Debit card fees	557	456	372
Gain on sales of loans, net	137	260	374
Other	1,946	1,401	1,369
Total noninterest income	\$ 5,871	\$ 3,996	\$ 5,097

Fee income from service charges and fees on deposit accounts increased 17% in 2006, 9% in 2005 and 33% in 2004. The improvement in 2006 was due primarily to an increase in overdraft income due to a 20% increase in the insufficient funds (“NSF”) per item fees in May 2006 as well as the impact of the two branches acquired April 7, 2006. The improvement in 2005 was due primarily to an increase in overdraft income due to the full year impact of the introduction of Bounce Protection™, an overdraft privilege program, in April 2004. The improvement in 2004 was due principally to increases in the per item insufficient fund fee as the Company introduced new fee schedules in December 2003. In addition, 2004 overdraft income was positively impacted by the introduction of Bounce Protection™.

Table of Contents

During 2006, the Company recognized a net gain on sales of securities of \$394,000 compared to a net loss on sales of securities of \$551,000 in 2005 and a net gain on sales of securities of \$753,000 in 2004. Securities gains in 2006 were primarily the result of an improved equity market in 2006. Securities losses in 2005 were primarily due to the restructuring of the investment portfolio, which resulted in the sale of U.S. Government Agency bonds at a loss, as well as the sale of corporate bonds at a loss of \$499,000. Securities gains in 2004 were the result of improved market conditions for investment securities. Securities gains, net, in 2006 included \$440,000 of net gains on sales of equity securities compared to \$117,000 and \$253,000 in 2005 and 2004, respectively. Net losses on the sales of debt securities totaled \$46,000 in 2006 compared to net losses of \$668,000 in 2005 and net gains of \$500,000 in 2004.

Debit card fees were \$557,000 in 2006 compared to \$456,000 in 2005 and \$372,000 in 2004. The \$101,000 increase in debit card fees in 2006 and \$84,000 in 2005 reflects the increase in debit card usage over the past several years.

Gains on sales of loans, net, decreased \$123,000 in 2006 compared to 2005 as gains on sales of mortgage loans declined \$52,000 to \$77,000 and the Company recorded no gain on the sale of commercial loans in 2006 compared to \$68,000 in 2005. Gains on sales of loans, net, decreased \$114,000 in 2005 compared to 2004. Gains on sales of mortgage loans remained relatively unchanged at \$112,000 from the prior year. Gains on sales of commercial loans declined \$109,000 during 2004 as the Company sold a portfolio of commercial loans guaranteed by the Small Business Administration for a gain of \$178,000. Gains on sales of loans, net, decreased \$48,000 in 2004 compared to 2003. Gains on sales of mortgage loans decreased \$228,000 as the Company opted to retain a greater portion of fixed rate mortgages in portfolio in 2004 compared to 2003. This was partially offset by the Company's sale of a portfolio of commercial loans guaranteed by the Small Business Administration for a gain of \$178,000 in 2004.

Other noninterest income (sources of which include credit card merchant income, ATM fees, loan fees, safe deposit fees and commissions on alternative investment products) increased \$545,000, or 39%, to \$1,946,000 in 2006 following an increase of \$32,000, or 2%, to \$1,401,000 in 2005 and a decrease of \$72,000, or 5%, to \$1,369,000 in 2004. The increase in 2006 was due primarily to an increase in income from alternative investment products, an increase in the valuation of the cash surrender value of a company-owned life insurance and several one-time favorable items relating to the recapture of prior years' interest and expenses on the payoff of a large commercial loan workout totaling \$100,000, gains on sale of OREO property of \$86,000 as well as an unwind fee of \$84,000 from the redemption of a FHLBB symmetrical advance. The increase in 2005 was due primarily to an increase in income from alternative investments products as well as an increase in debit card income. The decrease in 2004 compared to 2003 was due primarily to the recognition of approximately \$191,000 in other loan fees resulting from transactions with Federal Home Loan Mortgage Corporation ("FHLMC"). This decrease was partially offset by the introduction of alternative investment products offered by the Company, which increased fee income by approximately \$126,000.

NONINTEREST EXPENSE

Total noninterest expense increased \$159,000, or 1%, during 2006 following an increase of \$1,188,000, or 5%, during 2005 and an increase \$258,000, or 1%, during 2004. During 2006, noninterest expense was impacted by the expenses associated with the acquisition of the two branches in April 2006 as well as increased fees paid to our outsourced marketing firm. The increase in expenses during 2005 is due primarily to one-time expenses of \$1,161,000 resulting from the merger of the Company's two subsidiary banks. The increase in expenses during 2004 was due primarily to an increase in salaries and employee benefits.

The following table sets forth information relating to the Company's noninterest expense during the periods indicated:

	(\$000 Omitted)		
	Years Ended December 31,		
	2006	2005	2004

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Salaries and employee benefits	\$	12,252	\$	11,633	\$	12,058
Office occupancy and equipment		4,190		4,282		3,873
Amortization of core deposit intangibles		1,051		954		954
Professional fees		1,026		1,179		907
Marketing		726		757		326
Stationery and supplies		365		647		429
Telecommunications		455		619		595
Other		3,676		3,511		3,252
Total noninterest expense	\$	23,741	\$	23,582	\$	22,394

The merger related expenses, which totaled \$1,161,000 for 2005, consisted primarily of advertising expense of \$386,000, stationery and supplies of \$337,000, equipment expense of \$141,000, professional fees of \$83,000, legal fees of \$81,000 and state transfer tax of \$71,000. These one-time costs related to marketing the Northway brand, replacing all existing forms, replacing all existing signage, transfer of real estate, and all necessary legal and computer systems issues related to the merger. These expenses are included in the table above in the appropriate expense categories.

Salaries and employee benefits increased \$619,000, or 5%, from 2005 to 2006 and decreased \$425,000, or 4%, from 2004 to 2005. The increase in 2006 was attributable primarily to increases in health and dental insurance, pension expense and the Supplemental Employee Retirement Plan ("SERP") as well as one-time separation expenses from the centralization of consumer lending. The decrease in 2005 was due primarily to a focus on staffing levels, an increase in SFAS No. 91 credits associated with deferred loan origination costs, and a decrease in the expense related to the SERP. The increase in 2004 reflected staff additions in connection with the expansion of the retail franchise, increased lending activities and normal salary and wage increases. Also, during 2004, the Company recorded a liability to deferred compensation related to the SERP. Refer to NOTE 15 to the Consolidated Financial Statements for a further discussion regarding the SERP.

Table of Contents

Office occupancy and equipment expense decreased \$92,000 from 2005 to 2006. Further, 2005 included one-time merger related expenses of \$141,000. The primary reason for the decrease of \$233,000, net of merger related expenses, was the decrease in occupancy depreciation expense, leases and property maintenance partially offset by an increase in equipment depreciation and maintenance expense. Office occupancy and equipment expenses increased \$268,000, net of merger related expenses of \$141,000, during 2005 compared to 2004. The increase in 2005 was due primarily to increases in building maintenance costs as well as one-time expenses associated with the write-down of leasehold improvements associated with the closure of two supermarket branch facilities.

The amortization of core deposit intangibles increased \$97,000 from 2005 to 2006 due to the core deposit intangibles amortization associated with the two branches acquired in April 2006. There was no change from 2004 to 2005.

Marketing expense increased \$355,000, net of merger related expenses of \$386,000, during 2006 compared to 2005. During 2006, the Company expanded upon its relationship with an outsourced marketing firm, in connection with an effort to increase deposit balances. Telecommunications expenses decreased \$164,000 from 2005 to 2006 due to a change in service providers.

INCOME TAX EXPENSE

The Company recognized \$652,000, \$842,000 and \$1,666,000 in income tax expense for the years ended December 31, 2006, 2005 and 2004, respectively. The effective tax rate was 16.9% for 2006, 24.0% for 2005 and 33.0% for 2004. For additional information relating to income taxes, see NOTE 15 to the Consolidated Financial Statements.

ASSETS

Total assets increased \$18,143,000, or 3%, to \$650,877,000 at December 31, 2006 compared to \$632,734,000 at December 31, 2005. The following is a summary of significant balance sheet changes.

	(\$000 Omitted)			
	December 31			
	2006	2005	\$ Change	% Change
Total assets	\$ 650,877	\$ 632,734	\$ 18,143	2.9%
Earning assets	602,320	582,558	19,762	3.4
Federal funds sold	8,755	14,775	(6,020)	(40.7)
Securities available-for-sale, at fair value ⁽¹⁾	131,571	108,785	22,786	21.0
Loans, net of unamortized cost/unearned income	462,230	460,373	1,857	0.4
Deposits	484,677	464,456	20,221	4.4
Borrowings	110,117	114,983	(4,866)	(4.2)
Stockholders' equity	52,149	50,250	1,899	3.8

(1) Includes Federal Home Loan Bank stock

The increase in earning assets of \$19,762,000 was due primarily to an increase in securities available-for-sale partially offset by a decrease in federal funds sold. The increase in earning assets was accompanied by an increase in deposits which was partially offset by a decrease in borrowings.

SECURITIES AVAILABLE-FOR-SALE

The Company's securities are classified into one of two categories based on management's intent to hold the securities: (i) "held-to-maturity" securities, or (ii) securities "available-for-sale." Securities designated to be held-to-maturity are reported at amortized cost. Securities classified as available-for-sale are required to be reported at fair value with unrealized gains and losses, net of taxes, excluded from earnings and shown separately as a component of stockholders' equity. At December 31, 2006 and 2005 the Company had no securities designated as held-to-maturity.

The following table summarizes the Company's securities portfolio at December 31, 2006 and 2005 showing amortized cost and fair value for each category:

	(\$000 Omitted)			
	2006		2005	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Securities available-for-sale:				
U.S. Treasury and U.S. government agency securities	\$ 47,738	\$ 47,063	\$ 48,728	\$ 47,751
Mortgage-backed securities	40,905	40,615	24,704	23,931
Collateralized mortgage obligations	6	6	8	8
Marketable equity securities	3,364	3,617	2,695	2,809
Corporate bonds	3,517	3,522	5,541	5,569
Asset backed securities	4,974	4,968	-	-
State and political subdivision bonds and notes	27,784	27,998	23,396	23,176
Total securities available-for-sale	\$ 128,288	\$ 127,789	\$ 105,072	\$ 103,244

Table of Contents

Total securities available-for-sale increased \$24,545,000 during 2006 to \$127,789,000 as a result of the growth in funding sources. The Company purchased mortgage-backed securities, asset backed securities and state and political subdivision bonds and notes.

The net unrealized loss on securities available-for-sale was \$499,000 at December 31, 2006 compared to a net unrealized loss of \$1,828,000 at December 31, 2005 due primarily to the continued level of low interest rates, which increases the value of our security holdings. At December 31, 2006, the net unrealized loss on debt securities was \$752,000 and the net unrealized gain on marketable equity securities was \$253,000. At December 31, 2005, the net unrealized loss on debt securities was \$1,942,000 and the net unrealized gain on marketable equity securities was \$114,000.

At December 31, 2006, the Company's investment in equity securities totaled \$3,617,000. This amount is net of a market value adjustment of \$253,000, of which the full amount was reflected as a reduction in accumulated other comprehensive loss in stockholders' equity.

The Company has a general policy of purchasing investment grade securities and U.S. government securities to minimize credit risk. All securities, however, carry interest rate risk, which affect their market values such that as market yields increase, the value of the Company's securities decline and vice versa. Additionally, mortgage-backed securities carry prepayment risk whereby expected yields may not be achieved due to the inability to reinvest proceeds from prepayment at comparable yields. Moreover, such mortgage-backed securities may not benefit from price appreciation in periods of declining rates to the same extent as the remainder of the portfolio.

A portion of the securities portfolio is pledged to secure public deposits, securities sold under agreements to repurchase, FHLB advances and treasury, tax and loan accounts. Refer to NOTE 3 to the Consolidated Financial Statements for a further discussion of pledging of securities.

LOANS

Gross loans increased \$1,662,000, or 0.4%, to \$461,951,000 at December 31, 2006 compared to December 31, 2005. This increase was due primarily to an increase in commercial real estate, residential real estate, commercial and installment loans, which was partially offset by a decrease in indirect installment loans of \$33,507,000. Gross loans decreased \$14,523,000, or 3%, to \$460,289,000 at December 31, 2005 compared to December 31, 2004. This decrease was due primarily to a decrease in indirect installment loans of \$54,299,000, which was partially offset by increases in residential real estate, commercial real estate, construction loans and installment loans. The following table presents the composition of the loan portfolio as of December 31, 2006 and 2005:

	(\$000 Omitted)			
	2006	Percent of Total	2005	Percent of Total
Real estate:				
Residential	\$ 167,172	36.2%	\$ 158,729	34.5%
Commercial	158,464	34.3	143,456	31.1
Construction	10,700	2.3	13,241	2.9
Commercial	33,569	7.3	27,349	6.0
Installment	42,489	9.2	35,786	7.8
Indirect installment	28,714	6.2	62,221	13.5
Other	20,843	4.5	19,507	4.2
	\$ 461,951	100.0%	\$ 460,289	100.0%

During 2006, the loan portfolio mix continued to shift as runoff from the indirect installment loan portfolio was redeployed into residential real estate, commercial real estate, commercial and installment loans. Further, during 2006 the Company purchased loans totaling \$8,192,000, net of discount, as part of the branch acquisition. These loans were comprised of commercial real estate, residential mortgage loans and consumer loans. Residential real estate loans increased to account for 36.2% of the portfolio from 34.5% at December 31, 2005 due in part to the decision to retain high credit quality fixed-rate mortgages in the portfolio rather than sell in the secondary market. Commercial real estate and construction loans now comprise 34.3% and 2.3%, respectively of total loans compared to 31.1% and 2.9%, respectively at December 31, 2005 due to the continued efforts of our seasoned commercial lenders. Installment loans comprise 9.2% of the loan portfolio compared to 7.8% a year ago due primarily to an increase in fixed rate home improvement loans. Indirect installment loans, which originations were discontinued in August 2004, now comprise 6.2% of total loans compared to 13.5% at December 31, 2005.

Commercial real estate loans consist of loans secured by income producing and owner-occupied commercial real estate and commercial loans consist of loans that are either unsecured or are secured by inventories, receivables or other corporate assets, and some are additionally secured by a guarantee of the federal Small Business Administration. Commercial real estate and commercial loans increased by \$21,228,000 in 2006 as compared to 2005. The Company continues to emphasize commercial real estate and commercial loans in order to enhance earnings and maintain the balance of its portfolio.

Residential real estate loans increased by \$8,443,000, a 5% increase from 2005, compared to an increase of \$11,396,000, or 8%, in 2005 compared to 2004. The Company originates both fixed-rate and adjustable-rate residential loans for its portfolio. Some fixed-rate residential loans are originated for sale to investors in the secondary market. The increase in residential real estate loans in 2006 resulted primarily from the Company's decision to retain a greater percentage of fixed-rate residential mortgage loans.

During 2006, installment loan balances increased \$6,703,000, or 19%, from 2005, compared to an increase of \$6,441,000, or 22%, in 2005 compared to 2004. Indirect installment loans decreased by \$33,507,000, or 54%, in 2006 compared to a decrease of \$54,299,000, or 47%, in 2005.

Table of Contents**NONPERFORMING ASSETS**

Nonperforming assets were \$3,714,000, or 0.57%, of total assets, at December 31, 2006 compared to \$3,321,000, or 0.53% of total assets, at December 31, 2005, an increase of \$393,000, or 12%. Nonperforming assets are comprised primarily of nonaccrual loans, other chattels owned and real estate acquired by foreclosure or a similar conveyance of title. The accrual of interest on a loan is discontinued when there is reasonable doubt as to its collectibility or whenever the payment of principal or interest is more than 90 days past due. However, there are loans within this nonaccrual classification that provide periodic payments, but which have a weakness with respect to the collateral securing the loan.

At December 31, 2006, nonaccrual loans totaled \$3,698,000, or 0.80% of total loans, compared to \$3,013,000, or 0.66% of total loans, in 2005. At December 31, 2006 the Company had no other real estate owned compared to \$196,000 at December 31, 2005 Other chattels owned decreased \$96,000 to \$16,000 at December 31, 2006 compared to \$112,000 at December 31, 2005.

At December 31, 2006, gross interest income that would have been recorded for the year had the loans been current in accordance with their original terms totaled approximately \$393,000. During the year ended December 31, 2006, the Company recognized interest income on these non-accrual loans of \$353,000.

ALLOWANCE FOR LOAN LOSSES

The Company maintains an allowance for loan losses to absorb losses inherent in the existing loan portfolio. When a loan, or portion thereof, is considered uncollectible, it is charged against the allowance. Recoveries of amounts previously charged-off are added to the allowance when collected. The adequacy of the allowance for loan losses is evaluated on a regular basis by management. Factors considered in evaluating the adequacy of the allowance include previous loss experience, current economic conditions and their effect on borrowers and the market area in general, and the performance of individual credits in relation to the contract terms. In addition various federal and state regulatory agencies, as an integral part of their examination process, periodically review the adequacy of the Company's allowance for loan losses. For additional information regarding estimates in the assessment of the allowance for loan losses see "Application of Critical Accounting Policies-Allowance for Loan Losses" below.

The Company's allowance for loan losses increased \$431,000 from December 31, 2005 to \$5,581,000, or 1.21% of total loans, at December 31, 2006.

The following table sets forth the activity of the allowance for loan losses for the periods indicated:

	(\$000 Omitted)		
	Years Ended December 31,		
	2006	2005	2004
Beginning allowance	\$ 5,150	\$ 5,204	\$ 5,036
Provision for loan losses	465	75	495
Loans charged-off	(332)	(415)	(665)
Recoveries on loans previously charged-off	298	286	338
Net charge-offs	(34)	(129)	(327)
Ending allowance	\$ 5,581	\$ 5,150	\$ 5,204
Allowance as a percentage of loans outstanding	1.21%	1.12%	1.10%
Allowance as a percentage of nonperforming loans	150.92	170.93	181.51
Net charge-offs as a percentage of average loans	0.01	0.03	0.07

DEPOSITS

Total deposits at December 31, 2006 were \$484,677,000, an increase of \$20,221,000, or 4%, compared to \$464,456,000 at December 31, 2005. The increase in deposits was due primarily to the deposits acquired, net of premium, of \$29,438,000 in April 2006. Certificates of deposit increased \$46,610,000 and were partially offset by decreases in demand, savings, NOW and money market deposits of \$26,389,000.

The following table sets forth the components of deposits for the periods indicated:

	(\$000 Omitted)	
	December 31,	
	2006	2005
Demand	\$ 72,054	\$ 77,436
Regular savings, NOW and money market	217,682	238,689
Time	194,941	148,331
Total deposits	\$ 484,677	\$ 464,456

At December 31, 2006, time deposits of \$100,000 or more are scheduled to mature as follows:

	(\$000 Omitted)
3 months or less	\$ 17,084
Over 3 to 6 months	24,461
Over 6 to 12 months	13,054
Over 12 months	1,077
	\$ 55,676

Table of Contents**BORROWINGS**

At December 31, 2006 short-term borrowings consisted of securities sold under agreements to repurchase of \$36,497,000 compared to \$9,363,000 for 2005.

Long-term debt in 2006 consists of FHLB term advances of \$53,000,000 as well as \$20,620,000 of junior subordinated debentures, compared to \$85,000,000 of FHLB term advances and \$20,620,000 of junior subordinated debentures in 2005. Two of the long-term term FHLB advances are callable quarterly with their next call dates in March and December 2007. The decrease in FHLB advances is the result of the maturity and redemption of \$56,000,000 in advances partially offset by new advances totaling \$24,000,000.

Junior subordinated debentures consist of two issues of floating rate trust preferred securities acquired during April and July 2002 in the amount of \$7,217,000 and \$13,403,000, respectively, due in 2032. These trust preferred securities were offered for the purpose of providing capital to the subsidiary bank to ensure adequate capital following branch acquisitions and for general corporate purposes. As of December 31, 2006, of the \$20,620,000 principal amount outstanding, \$17,209,000 qualified as Tier 1 capital and \$3,411,000 was allocated to Tier 2 capital.

See NOTES 9 and 10 to the Consolidated Financial Statements for additional information regarding the Company's borrowings.

The following table sets forth certain information concerning the Company's borrowings at the dates indicated:

	(\$000 Omitted)	
	December 31,	
	2006	2005
Short-term borrowings	\$ 36,497	\$ 9,363
Long-term debt	73,620	105,620
	\$ 110,117	\$ 114,983

At December 31, 2006, long-term debt is scheduled to mature as follows:

	(\$000 Omitted)
Less than one year	\$ 13,000
After one year through three years	19,000
After three year through five years	7,000
Over five years	34,620
	\$ 73,620

OFF-BALANCE SHEET ARRANGEMENTS

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The

Company uses the same credit policies in making commitments and conditional obligations as it does for balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, 2006 and 2005 totaled \$92,220,000 and \$81,970,000, respectively.

See NOTE 17 to the Consolidated Financial Statements for additional information regarding off-balance sheet arrangements.

Table of Contents**CAPITAL**

The Company's stockholders' equity serves to support growth and provide depositors and other creditors protection against loss. Equity capital represents the stockholders' investment in the Company. Management strives to maintain an optimal level of capital on which an attractive return to the stockholders will be realized over both the short-term and long-term, while serving depositors' and creditors' needs.

The Company must also observe the minimum requirements enforced by the federal banking regulators. There are three capital requirements that banks and bank holding companies must meet: Tier 1 capital, total capital (combination of Tier 1 capital and Tier 2 capital), and leverage (Tier 1 capital to average assets) ratios. Tier 1 capital consists of stockholders' equity, net of intangible assets as well as a portion of junior subordinated debentures. Tier 2 capital consists of a limited amount of allowance for loan losses and the portion of junior subordinated debentures not allocated to Tier 1 capital. Tier 1 capital, total capital and leverage ratios do not include any adjustments for unrealized gains and losses relating to securities available-for-sale except net unrealized losses relating to marketable equity securities. The minimum requirements for the leverage ratio, risk-based Tier 1 capital and risk-based total capital are 4%, 4% and 8%, respectively. As of December 31, 2006 and 2005, the Bank was "well capitalized" as defined under FDIC regulations.

The following table sets forth the Company's risk-based capital and leverage ratios:

	(\$000 Omitted)	
	December 31,	
	2006	2005
Risk-adjusted assets	\$ 416,735	\$ 426,731
Tier 1 capital (to average assets)	9.31%	8.96%
Tier 1 capital (to risk weighted assets)	14.02	13.07
Total capital (to risk weighted assets)	15.95	15.24

Total stockholders' equity includes a \$1,256,000 negative adjustment for accumulated other comprehensive loss, net of tax, at December 31, 2006 and a \$1,104,000 negative adjustment for accumulated other comprehensive loss, net of tax, at December 31, 2005. At December 31, 2006 this adjustment was comprised of a net unrealized loss on securities available-for-sale, net of taxes, of \$301,000, a \$1,382,000 unrealized loss on pension valuation, net of tax and a \$427,000 unrealized credit on prior pension service cost. At December 31, 2005, this adjustment was comprised solely of a net unrealized loss on securities available-for-sale, net of taxes.

The Company intends to continue to pay dividends on a quarterly basis subject to the financial condition and earnings of the Company, capital requirements, and other factors, including applicable governmental regulations. No dividends will be payable unless declared by the Board of Directors and then only to the extent funds are legally available for the payment of such dividends.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

The Company's accounting policies are more fully described in NOTE 1 of the Consolidated Financial Statements. As disclosed in NOTE 1, the preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ significantly from those estimates. The Company believes that the following discussion addresses the Company's most critical accounting policies, which are those that are most important to the portrayal of the Company's financial condition and results of

operations and require management's most difficult, subjective and complex judgments.

Allowance for Loan Losses. The allowance for loan losses, which is established through a charge to the provision for loan losses, is estimated at the Bank based on estimates of losses related to customer loan balances. In establishing the appropriate provisions, the Company makes assumptions with respect to the future collectibility of customer loan balances. The Company's assumptions are based on an individual assessment of the customer's credit quality as well as subjective factors and trends, including the credit rating of the loans. Generally, these individual credit assessments occur prior to the inception of the credit exposure and at regular reviews during the life of the exposure and consider (a) the customer's ability to meet and sustain their financial commitments; (b) a customer's current and projected financial condition; (c) the positive or negative effects of the current and projected industry outlook; and (d) the economy in general. Once the Company considers all of these factors, a determination is made as to the probability of default. An appropriate provision is made, which takes into account the severity of the likely loss on the outstanding loan balances based on the Company's experience in collecting these amounts. The Company's level of allowance for loan losses fluctuates depending upon all of the factors mentioned above. The use of different estimates or assumptions could produce different provisions for loan losses.

Table of Contents

Goodwill and Core Deposit Intangibles. Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142 (“SFAS No. 142”), “Goodwill and Other Intangible Assets.” Under SFAS No. 142, the Company is required to perform annual impairment tests of its goodwill and intangible assets and more frequently in certain circumstances. The Company has elected to test for goodwill and intangible asset impairment in the fourth quarter of each year. In that goodwill is carried on the books of the Bank and the Company owns 100% of its outstanding stock, there is no market value for its common stock. The Company utilizes a multiple of earnings approach in analyzing the valuation of goodwill. Core deposit intangibles are carried on the books of the Bank as well. The valuation of core deposit intangibles incorporate deposits acquired compared with current deposit levels, considers deposit outflow assumptions made at acquisition as well as other factors.

The most recent impairment test of goodwill and core deposit intangibles indicated that no adjustments were required. The Company cannot predict the occurrence of certain future events that might adversely affect the reported value of goodwill and core deposit intangibles that totaled \$10,577,000 and \$2,178,000, respectively, at December 31 2006. Such events include, but are not limited to, strategic decisions made in response to economic and competitive conditions, the impact of the economic environment on the Company’s customer base, or the impact of changes in federal and state laws and regulations.

Pension Benefits. The Company maintains a trustee non-contributory pension plan (the “Plan”) covering substantially all full-time employees. Several statistical and other factors, which attempt to anticipate future events, are used in calculating the expense and liability related to the Plan. Key factors include assumptions about the expected rates of return on plan assets and discount rates. The Company considers market conditions, including changes in investment returns and interest rates, in making these assumptions.

The Company determines the expected long-term rate of return on plan assets based on the building block method, which consists of aggregating the expected rates of return for each component of the plan’s asset mix. Plan assets are comprised primarily of mutual funds including bond funds, US equity funds, international equity funds, real estate funds and short-term money market funds. The Company uses historic plan asset returns combined with current market conditions to estimate the rate of return. The expected rate of return on plan assets is a long-term assumption and generally does not change annually. The discount rate reflects the market rate for high-quality fixed income debt instruments on the Company’s annual measurement date (December 31) and is subject to change each year.

Unrecognized actuarial gains and losses are being recognized to net periodic pension expense over approximately a 17-year period, which represents the expected remaining service life of the employee group. Unrecognized actuarial gains and losses arise from several factors including experience and assumption changes in the obligations and from the difference between expected returns and actual returns on plan assets. These unrecognized losses will be systematically recognized as an increase in future net periodic pension expense and a decrease in accumulated other comprehensive loss in accordance with FAS 87, “Employers’ Accounting for Pensions,” as amended by SFAS 158, “Employer’s Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R).”

The actuarial assumptions used by the Company in determining its pension benefits may differ materially from actual results due to changing market and economic conditions, higher or lower withdrawal rates or longer or shorter life spans of the participants. While the Company believes that the assumptions used are appropriate, differences in actual experience or changes in assumptions may materially affect the Company’s financial position or results of operations.

Mortgage Servicing Rights (MSR or MSRs). Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. Servicing assets are evaluated for impairment based upon the fair value of

the rights as compared to amortized cost. Impairment is determined by stratifying rights by predominant characteristics, such as interest rates and original loan terms (primarily 15 and 30 year). Fair value is determined using prices for similar assets with similar characteristics, when available, or based upon discounted cash flows using market-based assumptions. In periods of falling market interest rates, accelerated loan prepayment speeds can adversely impact the fair value of these mortgage-servicing rights relative to their book value. In the event that the fair value of these assets were to increase in the future, the Company can recognize the increased fair value to the extent of the impairment allowance but cannot recognize an asset in excess of its amortized book value. When the book value of an individual stratum exceeds its fair value, an impairment reserve must be recognized. Future changes in management's assessment of the impairment of these servicing assets, as a result of changes in observable market data relating to market interest rates, loan prepayment speeds, and other factors, could impact the Company's financial condition and results of operations either positively or adversely.

MARKET RISK

Market risk is the risk of loss in a financial instrument arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates, commodity prices and equity prices. The Company's primary market risk exposure is interest rate risk. The ongoing monitoring and management of this risk is an important component of the Company's asset/liability management process which is governed by policies established by the Company's Boards of Directors that are reviewed and approved annually. The Board of Directors delegates responsibility for carrying out the asset/liability management policies to the Company's Asset Liability Committee ("ALCO"). In this capacity ALCO develops guidelines and strategies impacting the Company's asset/liability management-related activities based upon estimated market risk sensitivity, policy limits and overall market interest rate levels/trends.

Interest Rate Risk

Interest rate risk represents the sensitivity of earnings to changes in market interest rates. As interest rates change, the interest income and interest expenses associated with the Company's financial instruments also change, thereby impacting net interest income ("NII"), the primary component of the Company's earnings. ALCO utilizes the results of a detailed and dynamic simulation model to quantify the estimated exposure of NII to sustained interest rate changes. While ALCO routinely monitors simulated NII sensitivity over a rolling 2-year horizon, it also utilizes additional tools to monitor potential longer-term interest rate risk.

The simulation model captures the impact of changing interest rates on the interest income received and interest expense paid on all interest-earning assets and interest-bearing liabilities reflected on the Company's balance sheet. The Company uses computer simulations to determine the impact on net interest income of various interest rate scenarios, balance sheet trends and strategies. These simulations incorporate assumptions about balance sheet dynamics such as loan and deposit growth, loan and deposit pricing, changes in funding mix, and asset and liability repricing and maturity characteristics. Simulations based on numerous assumptions are run under various interest rate scenarios to determine the impact on net interest income and capital. From these scenarios, interest rate risk is quantified and appropriate strategies are developed and implemented.

Table of Contents

This sensitivity analysis is compared to ALCO policy limits which specify a maximum tolerance level for NII exposure over a 1-year horizon given both an immediate 300 basis point, or 3%, upward and downward shift in interest rates. Given the current level of interest rates, the Company has modeled an upward shift in rates of 200 basis points and a downward shift in rates of 200 basis points. Using an immediate rate shock simulation where interest rates increase 200 basis points, the December 31, 2006 earnings simulation model projects that net interest income for the twelve months ending December 31, 2007 would decrease by an amount equal to approximately 7.33%. In addition, utilizing an immediate rate shock simulation where interest rates decrease 200 basis points, the December 31, 2006 earnings simulation model projects that net interest income for the twelve months ending December 31, 2007 would increase by an amount equal to approximately 1.06%.

Using an immediate rate shock simulation where interest rates increase 200 basis points, the December 31, 2006 earnings simulation model projects that net interest income for the twelve months ending December 31, 2008 would decrease by an amount equal to approximately 4.57%. In addition, utilizing an immediate rate shock simulation where interest rates decrease 200 basis points, the December 31, 2006 earnings simulation model projects that net interest income for the twelve months ending December 31, 2008 would decrease by an amount equal to approximately 6.44%. The projected results are within Company's ALCO policy limits for both years.

The preceding sensitivity analysis does not represent a Company forecast and should not be relied upon as being indicative of expected operating results. These hypothetical estimates are based upon numerous assumptions including, among others, the nature and timing of interest rate levels, yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, and reinvestment/replacement of asset and liability cashflows-. The assumptions differed in each of the periods included in the sensitivity analysis above. While assumptions are developed based upon current economic and local market conditions, the Company cannot make any assurances as to the predictive nature of these assumptions, including how customer preferences or competitor influences might change.

The most significant factors affecting the changes in market risk exposure during 2006 compared to 2005 was the decrease in interest rates, changes in the yield curve, the shift in loan mix from indirect installment loans to commercial and commercial real estate loans, the aggregate increase in securities available-for-sale, the increase in total deposits, and increase in short-term borrowings and the decrease in long-term debt.

LIQUIDITY RISK

Liquidity risk management involves the Company's ability to raise funds in order to meet its existing and anticipated financial obligations. These obligations are the withdrawal of deposits on demand or at contractual maturity, the repayment of debt as it matures, the ability to fund new and existing loan commitments and the ability to take advantage of new business opportunities. Liquidity may be provided through amortization, maturity or sale of assets such as loans and securities available-for-sale, liability sources such as increased deposits, utilization of the FHLB credit facility, purchased or other borrowed funds, and access to the capital markets. Liquidity targets are subject to change based on economic and market conditions and are controlled and monitored by ALCO. At the bank level, liquidity is managed by measuring the net amount of marketable assets after deducting pledged assets, plus lines of credit, primarily with the FHLB, which are available to fund liquidity requirements. Management then measures the adequacy of that aggregate amount relative to the aggregate amount of liabilities deemed to be sensitive or volatile. These include brokered deposits, deposits in excess of \$100,000, term deposits with short maturities, and credit commitments outstanding.

Additionally, the Company requires cash for various operating needs including dividends to stockholders, the purchase of treasury stock, capital injections to the Bank, and the payment of general corporate expenses. The primary sources of liquidity for the Company are dividends from the Bank and reimbursement for services performed on

behalf of the Bank. Additionally, the Company may utilize outside sources of funding such as the issuance of the trust preferred securities.

Cash and cash equivalents decreased \$4,554,000 during 2006. Cash used in investing activities totaled \$22,503,000 with lending activities using \$1,188,000, net, and investment activities using \$17,874,000, net. Cash provided by financing activities totaled \$12,532,000. This cash consisted of an increase in deposits of \$18,562,000, an increase in repurchase agreements of \$27,134,000, advances of \$24,000,000 from the FHLB advances offset by the repayment of maturing FHLB advances and redemption of FHLB advances in the amount of \$56,000,000. The net cash provided by operating activities totaled \$5,417,000 and consisted primarily of net income of \$3,215,000 and a decrease in other assets and other liabilities, net.

Table of Contents**CAPITAL EXPENDITURES AND COMMITMENTS**

During 2006, the Company incurred approximately \$3,441,000 in capital expenditures, which included real estate acquired in the branch acquisition, significant building improvements at several of our branch locations, the purchase of remote capture software to allow for more efficient processing of daily work, and normal replacement of, or upgrades in, existing property and equipment.

During 2005, the Company incurred approximately \$1,257,000 in capital expenditures, which included new signage related to the name change and merger of PNB into the Bank, ATM upgrades, security camera upgrades, renovations to the Belmont facility, renovations to the Berlin facility due to the relocation of item processing, as well as the normal replacement of, or upgrades in, existing property and equipment. During 2005, the Company disposed of assets with a total net book value of approximately \$1,747,000, which consisted primarily of the West Plymouth branch facility.

The Company's estimated capital expenditures for 2007 total \$600,000. They include network upgrades, ATM purchases and various equipment and software upgrades.

CONTRACTUAL OBLIGATIONS

The table below contains information on the Company's contractual obligations as of the fiscal year ended December 31, 2006:

Contractual Obligations	Total	(\$000 Omitted)			
		Less Than One Year	One to Three Years	Three to Five Years	More than Five Years
FHLB advances	\$ 53,000	\$ 13,000	\$ 19,000	\$ 7,000	\$ 14,000

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Northway is a bank holding company formed in 1997 under the laws of New Hampshire and is registered under the Bank Holding Company Act of 1956. Northway's only business activity has been to own all of the shares of, and provide management, capital and operational support to Northway Bank ("Bank"), formerly known as The Berlin City Bank, and its Delaware statutory business trusts Northway Capital Trust I and Northway Capital Trust II. On October 1, 2005 The Berlin City Bank was renamed Northway Bank and The Pemigewasset National Bank of Plymouth, New Hampshire was merged into Northway Bank. The Company's headquarters are in Berlin, New Hampshire. The banking subsidiary is engaged principally in the business of attracting deposits from the general public and investing those deposits in securities, commercial loans, real estate loans, and consumer loans.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in the consolidation.

Northway Capital Trust I and Northway Capital Trust II, affiliates of the Company, were formed to sell capital securities to the public through a third party trust pool. In accordance with FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"), these affiliates have not been included in the consolidated financial statements.

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry.

In preparing the financial statements, management is required to make estimates and judgments that affect the reported amounts of assets and liabilities as of the dates of the consolidated balance sheets, and income and expense for the periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change in the near-term relate to the determination of the allowance for loan losses.

Reclassifications

Certain amounts in the prior years' financial statements have been reclassified to conform with the current year's presentation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits, and federal funds sold.

Securities

Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost; if debt and equity securities are bought and held principally for the purpose of selling in the near term they would be classified as trading and reported at fair value, with unrealized gains and losses included in earnings; and debt and equity securities not classified as either held-to-maturity or trading are classified as available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and

reported as a separate component of stockholders' equity, net of estimated income taxes. At this time, the Company has not established a trading account.

Premiums and discounts are amortized and accreted primarily on the level yield method over the contractual life of the securities adjusted for expected prepayments.

If a decline in the fair value below the adjusted cost basis of an investment is judged to be other than temporary, the cost basis of the investment is written down to fair value as the new cost basis and the amount of the write-down is included in noninterest expense.

Gains and losses on sales of securities available-for-sale are recognized at the time of the sale on a specific identification basis.

Table of Contents

Loans Held-for-Sale

Loans held-for-sale are generally identified as such at origination and are stated at the lower of aggregate cost or market. Market value is based on outstanding investor commitments. When loans are sold, a gain or loss is recognized to the extent that the sale proceeds exceed or are less than the carrying value of the loans. Gains and losses are determined using the specific identification method. All loans sold are without recourse to the Company.

Loans

Loans are carried at the principal amounts outstanding, net of any unearned income or unamortized cost, premiums on originated loans and discounts on acquired loans. Unearned income and unamortized cost includes loan origination fees, net of direct loan origination costs. This income or expense is deferred and recognized as adjustments to loan income over the contractual life of the related notes using a method the result of which approximates that of the interest method.

Loans are placed on nonaccrual when payment of principal or interest is considered to be in doubt or is past due 90 days or more. The Company may choose to place a loan on nonaccrual status due to payment delinquency or uncertain collectibility, while not classifying the loan as impaired, if (i) it is probable that the Company will collect all amounts due in accordance with the contractual terms of the loan or (ii) the loan is not a commercial, commercial real estate or an individually significant mortgage or consumer loan. Previously accrued income on nonaccrual loans that has not been collected is reversed from current income, and subsequent cash receipts are recorded as income if principal on the loans is deemed collectible. Loans are returned to accrual status when collection of all contractual principal and interest is reasonably assured and there has been sustained repayment performance.

The Company's loans are primarily secured by real estate in New Hampshire. In addition, other real estate owned is located in this market. Accordingly, the ultimate collectibility of a substantial portion of the Company's loan portfolio and the recovery of other real estate owned are susceptible to changing conditions in this market.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management on the basis of many factors including the risk characteristics of the portfolio, trends in loan delinquencies and an assessment of existing economic conditions. Additions to the allowance are charged to earnings; realized losses, net of recoveries, are charged directly to the allowance.

While management uses available information in establishing the allowance for loan losses, future additions to the allowance may be necessary if economic conditions differ substantially from the estimates used in making the evaluations. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance based on judgments different from those of management.

Commercial, commercial real estate and individually significant mortgage and consumer loans are considered impaired, and are placed on nonaccrual, when it is probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan agreement. Mortgage and consumer loans, which are not individually significant, are measured for impairment collectively. Loans that experience insignificant payment delays and insignificant shortfalls in payment amounts generally are not classified as impaired. The amount of impairment for all impaired loans is determined by the difference between the present value of the expected cash flows related to the loan, using the original contractual interest rate, and its recorded value, or, as a practical expedient in the case of collateralized loans, the difference between the fair value of the collateral and the recorded amount of the loan.

When foreclosure is probable, impairment is measured based on the fair value of the collateral.

Servicing Assets

Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights by predominant characteristics, such as interest rates and terms. Fair value is determined using prices for similar assets with similar characteristics, when available, or based upon discounted cash flows using market-based assumptions. Impairment is recognized through a valuation allowance for an individual stratum, to the extent that fair value is less than the capitalized amount for the stratum.

Premises and Equipment

Premises and equipment are carried at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the respective assets. Estimated lives are thirty-nine years for buildings, ten to fifteen years for building improvements and three to seven years for furniture and equipment.

Amortization of leasehold improvements is accumulated on a straight-line basis over the lesser of the term of the respective lease or the asset's useful life, not to exceed ten years.

Other Real Estate Owned

Other real estate owned is comprised of properties acquired either through foreclosure proceedings or acceptance of a deed in lieu of foreclosure, and for which the Company has taken physical possession. The Company classifies loans as repossessed or foreclosed if the Company receives physical possession of the debtor's assets, regardless of whether or not foreclosure proceedings take place.

Assets acquired through foreclosure or a similar conveyance of title are initially recorded at the lower of the carrying value of the loan or the fair value, less estimated costs to sell, of the property constructively or actually received. Gains and losses upon disposition are reflected in the statement of income as realized.

Table of Contents***Advertising***

The Company directly expenses costs associated with advertising as they are incurred.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and the respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-Based Compensation

At December 31, 2006, the Company has a stock-based employee compensation plan which is described more fully in NOTE 16. Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004) "Share-Based Payment" ("SFAS 123R"). This Statement revised SFAS No. 123, "Accounting for Stock Based Compensation" and superceded Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements and establishes fair value as the measurement objective in accounting for share-based payment arrangements. No compensation expense was recognized for the twelve months ended December 31, 2006 related to SFAS 123R. Prior to January 1, 2006, the Company accounted for the plan under the recognition and measurement principles of APB Opinion No. 25. No stock-based employee compensation cost had been recognized during periods prior to January 1, 2006 for its fixed stock option plans.

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123R to stock-based employee compensation during the years ended December 31, 2005 and 2004.

		(\$000 Omitted, Except Per Share Data)	
		2005	2004
Net income	As reported	\$ 2,673	\$ 3,388
Deduct: Total stock-based employee compensation expense determined under fair value based methods awards, net of related tax effects		-	-
	Pro forma	\$ 2,673	\$ 3,388
Earnings per common share	As reported	\$ 1.78	\$ 2.26
	Pro forma	1.78	2.26
Earnings per common share (assuming dilution)	As reported	\$ 1.77	\$ 2.24
	Pro forma	1.77	2.24

Earnings Per Share

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Basic earnings per share (“EPS”) excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS, if applicable, reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Earnings per common share have been computed based on the following:

(\$000 Omitted, Shares Reported in Millions)

	Years Ended December 31,		
	2006	2005	2004
Net income	\$ 3,215	\$ 2,673	\$ 3,388
Less: Preferred stock dividends	-	-	-
Net income applicable to common stock	\$ 3,215	\$ 2,673	\$ 3,388
Average number of common shares outstanding	1,492.3	1,502.1	1,500.1
Effect of dilutive options	9.1	9.3	11.6
Average number of common shares outstanding used to calculate diluted earnings per common share	1,501.4	1,511.4	1,511.7

Table of Contents***Recent Accounting Pronouncements***

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155, "Accounting for Certain Hybrid Instruments" (SFAS 155), which permits, but does not require, fair value accounting for any hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation in accordance with SFAS 133. The statement also subjects beneficial interests issued by securitization vehicles to the requirements of SFAS 133. The statement is effective as of January 1, 2007. The adoption of SFAS 155 is not expected to have a material impact on the Company's financial condition, results of operations or cash flow.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets- an amendment of FASB Statement No. 140" (SFAS 156). SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in specific situations. Additionally, the servicing asset or servicing liability shall be initially measured at fair value; however, an entity may elect the "amortization method" or "fair value method" for subsequent balance sheet reporting periods. SFAS 156 is effective as of an entity's first fiscal year beginning after September 15, 2006. Early adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including interim financial statements, for any period of that fiscal year. The Company does not expect the adoption of this statement to have a material impact on its financial condition, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP) and enhances disclosures about fair value measurements. SFAS 157 retains the exchange price notion and clarifies that the exchange price is the price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. SFAS 157 is effective for the Company's consolidated financial statements for the year beginning on January 1, 2008, with earlier adoption permitted. The Company does not expect the adoption of this statement to have a material impact on its financial condition, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, "Employer's Accounting for Defined Benefit Pension and other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R)" (SFAS 158). SFAS 158 requires 1) the recognition of an asset or liability for the over-funded or under-funded status of a defined benefit plan, 2) the recognition of actuarial gains and losses and prior service costs and credits in other comprehensive income, 3) measurement of plan assets and benefit obligations as of the employer's balance sheet date, rather than at interim measurement dates as currently allowed, and 4) disclosure of additional information concerning actuarial gains and losses and prior service costs and credits recognized in other comprehensive income. This statement is effective for financial statements with fiscal years ending after December 15, 2006. The adoption of this Statement did not have a material impact on the Company's financial position, result of operations or cash flows.

NOTE 2 CASH AND DUE FROM BANKS

At December 31, 2006, there was \$64,000, which was subject to withdrawals and usage restrictions to satisfy the reserve requirements of the Federal Reserve Bank. There was no cash and due from bank balances at December 31, 2005 subject to withdrawals and usage restrictions to satisfy the reserve requirements of the Federal Reserve Bank.

NOTE 3 SECURITIES AVAILABLE-FOR-SALE

The amortized cost, gross unrealized gains, gross unrealized losses, and fair value of securities at December 31, 2006 and 2005 follows:

	(\$000 Omitted)

Table of Contents

The contractual maturity distribution of investments in debt obligations at December 31, 2006 follows:

	(\$000 Omitted)				
	Within One Year	Over One Through Five Years	After Five Through Ten Years	Over Ten Years	Total Amortized Cost
U.S. Treasury and other U.S. government agency securities	\$ 6,300	\$ 30,455	\$ 10,983	\$ -	\$ 47,738
Mortgage-backed securities	-	20	-	40,885	40,905
Collateralized mortgage obligations	-	-	-	6	6
Corporate bonds	1,508	2,009	-	-	3,517
Asset backed securities	-	-	-	4,974	4,974
State and political subdivision bonds and notes	1,506	996	-	25,282	27,784
Total amortized cost	\$ 9,314	\$ 33,480	\$ 10,983	\$ 71,147	\$ 124,924
Fair value	\$ 9,262	\$ 32,935	\$ 10,916	\$ 71,059	\$ 124,172

Actual maturities of state and political subdivision bonds and notes, mortgage-backed securities and collateralized mortgage obligations will differ from the maturities presented because borrowers have the right to prepay obligations without prepayment penalties.

For the years ended December 31, 2006, 2005 and 2004, proceeds from the sales of securities available-for-sale amounted to \$11,459,000, \$16,002,000 and \$16,964,000, respectively. An analysis of gross realized gains and losses on sales of securities available-for-sale during the years ended December 31, follows:

	(\$000 Omitted)					
	2006		2005		2004	
	Realized Gains	Realized Losses	Realized Gains	Realized Losses	Realized Gains	Realized Losses
Marketable equity securities	\$ 480	\$ 40	\$ 221	\$ 104	\$ 402	\$ 149
U.S. Treasury and other U.S. government agency securities	-	49	-	200	5	-
Mortgage-backed securities	-	-	12	11	-	-
Corporate bonds	3	-	30	499	539	50
State and political subdivision bonds and notes	-	-	-	-	6	-
	\$ 483	\$ 89	\$ 263	\$ 814	\$ 952	\$ 199

The tax provision (benefit) applicable to these net realized gains/(losses) amounted to \$156,000, (218,000) and \$298,000 for 2006, 2005, and 2004, respectively.

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Securities with a carrying amount totaling \$91,155,000 and \$73,651,000 were pledged to secure public deposits, securities sold under agreements to repurchase, FHLB advances and treasury, tax and loan accounts at December 31, 2006 and 2005, respectively

The aggregate fair value and unrealized losses of securities that have been in a continuous unrealized loss position for less than twelve months and for twelve months or more, and are not other than temporarily impaired, are as follows as of December 31, 2006:

	(\$000 Omitted)					
	Less than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Treasury and other U.S. government agency securities	\$ -	\$ -	\$ 38,030	\$ 725	\$ 38,030	\$ 725
Marketable equity securities	525	58	-	-	525	58
Mortgage-backed securities	-	-	25,048	600	25,048	600
Corporate bonds	-	-	1,503	5	1,503	5
Asset backed securities	4,968	6	-	-	4,968	6
State and political subdivision bonds and notes	3,497	7	-	-	3,497	7
Total temporarily impaired securities	\$ 8,990	\$ 71	\$ 64,581	\$ 1,330	\$ 73,571	\$ 1,401

At December 31, 2006, securities with a total fair value of \$73,571,000 were in a loss position. These securities included twenty U.S. government agency securities with a fair value of \$38,030,000 and an unrealized loss of \$725,000. These securities had an unrealized loss due to the current interest rate environment. As these securities are guaranteed by U.S. government agencies such as FHLB, FHLMC or FNMA there is no credit risk associated with them. These securities are not other-than-temporarily impaired as the Company has the ability and the intent to hold these securities until recovery to cost basis.

Table of Contents

Mortgage-backed securities with a fair value of \$25,048,000 had an unrealized loss of \$600,000 at December 31, 2006. As with the U.S. government agency securities, these securities have an unrealized loss due to the current interest rate environment. As all of these mortgage-backed securities are guaranteed by U.S. government agencies such as FHLMC, GNMA or FNMA there is no credit risk associated with them. These securities have not been classified as other-than-temporarily impaired as the Company has the ability and intent to hold these securities until recovery to cost basis.

Eight marketable equity securities with a fair value of \$525,000 had an unrealized loss of \$58,000 at December 31, 2006. Marketable equity securities are subject to internal testing on a quarterly basis to determine impairment. Testing includes review of industry analyst reports, credit ratings, sector analysis and earnings projections. Based upon the December 31, 2006 review, these securities were not determined to be other-than-temporarily impaired.

One corporate bond security with a fair value of \$1,503,000 had an unrealized loss of \$5,000 at December 31, 2006. Corporate bond securities are subject to internal testing on a quarterly basis to determine other-than-temporary impairment. Based upon the December 31, 2006 review, this security was not determined to be other-than-temporarily impaired.

One asset-backed security with a fair value of \$4,968,000 had an unrealized loss of \$6,000 at December 31, 2006. Asset-backed securities are subject to internal testing on a quarterly basis to determine other-than-temporary impairment. Based upon the December 31, 2006 review, this security was not determined to be other-than-temporarily impaired.

Eight state and political subdivision securities with a fair value of \$3,497,000 had an unrealized loss of \$7,000 at December 31, 2006. As all of these state and political subdivision securities are guaranteed by municipalities there is minimal credit risk associated with them. These securities have not been classified as other-than-temporarily impaired as the Company has the ability to hold these securities until recovery to cost basis.

NOTE 4 LOANS

Loan balances were comprised of the following:

December 31,	(\$000 Omitted)	
	2006	2005
Real estate:		
Residential	\$ 167,172	\$ 158,729
Commercial	158,464	143,456
Construction	10,700	13,241
Commercial	33,569	27,349
Installment	42,489	35,786
Indirect installment	28,714	62,221
Other	20,843	19,507
Total loans	461,951	460,289
Unamortized cost	279	84
Allowance for loan losses	(5,581)	(5,150)
Total unamortized cost and allowance for loan losses	(5,302)	(5,066)
Net loans	\$ 456,649	\$ 455,223

Total loans above are net of unearned discount on loans acquired in the amount of \$181,000 and \$275,000 at December 31, 2006 and 2005, respectively. In addition, total loans above are net of unamortized premium on indirect installment loans originated in the amount of \$234,000 and \$789,000 at December 31, 2006 and 2005, respectively.

Table of Contents

Loans are made in the ordinary course of business to directors, executive officers, and their immediate families and to organizations in which such persons have more than a 10% ownership interest. These loans are made on substantially the same terms, including interest rate and collateral, as those prevailing at the same time for comparable transactions with unrelated persons and did not involve more than the normal risk of collectibility or present other unfavorable features. Total loans to such persons and their companies amounted to \$571,000 as of December 31, 2006. During 2006, principal payments were \$203,000 and principal advances amounted to \$230,000.

The Company's lending activities are conducted principally in New Hampshire. Although the loan portfolio is diversified, a portion of its debtors' ability to repay is dependent upon the economic conditions prevailing in New Hampshire. The Company maintains significant credit relationships with borrowers in the hotel and motel industry. The aggregate loan balances to these industries totaled \$71,874,000 at December 31, 2006 and \$67,152,000 at December 31, 2005.

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of these loans total \$36,225,000 and \$39,219,000 at December 31, 2006 and 2005, respectively. The Company sold \$5,965,000 of mortgage loans in 2006 and \$9,132,000 of mortgage loans in 2005.

The Company capitalized \$77,000 and \$79,000 of servicing rights and amortized \$115,000 and \$144,000 of total servicing rights in 2006 and 2005, respectively. The impairment valuation allowance of mortgage servicing rights was reduced by \$0 and \$3,000 in 2006 and 2005, respectively. Impairment of mortgage servicing rights is assessed based on the fair value of those rights. Fair values are estimated using discounted cash flows based on a current market interest rate. The amount of the impairment recognized is the amount by which the capitalized mortgage servicing rights exceed their fair value. At December 31, 2006 and 2005, respectively, the carrying amount of servicing rights was \$198,000 and \$236,000, and is included in other assets. At December 31, 2006 and 2005, respectively, the fair value of servicing rights was \$417,000 and \$389,000.

Restructured, accruing loans entered into prior to the adoption of SFAS No. 114 and 118 are not required to be reported as impaired loans unless such loans are not performing in accordance with the restructured terms at adoption of SFAS No. 114. Restructured, accruing loans entered into subsequent to the adoption of these statements are reported as impaired loans. In the year subsequent to restructure these loans may be removed from the impaired loan disclosure provided that the loan bears a market rate of interest at the time of restructure and is performing under the restructured terms.

At December 31, 2006 and 2005, the Company had no loans restructured in a troubled debt restructuring before January 1, 1995, the effective date of SFAS No. 114.

At December 31, 2006 and 2005, nonperforming loans totaled \$3,698,000 and \$3,013,000, respectively. No nonperforming loans were past due 90 days or more and still accruing interest at December 31, 2006 and 2005.

The recorded investment in loans that are considered to be impaired under SFAS No. 114 was \$2,666,000 and \$2,082,000 at December 31, 2006 and 2005, respectively, for which the related allowance for loan losses is \$0 for both years. All of the Company's impaired loans are collateralized and therefore all impaired loans are measured by the difference between the fair value of the collateral and the recorded amount of the loan. The average recorded investment in impaired loans during the twelve months ended December 31, 2006 and 2005 was approximately \$2,787,000 and \$2,147,000, respectively. For the twelve months ended December 31, 2006 and 2005 the Company recognized interest income on impaired loans of \$231,000 and \$88,000, respectively, which was recognized using the cash-basis method of income recognition.

NOTE 5 ALLOWANCE FOR LOAN LOSSES

Changes in the allowance for loan losses for the years ended December 31, follows:

	(\$000 Omitted)		
	2006	2005	2004
Balance at beginning of year	\$ 5,150	\$ 5,204	\$ 5,036
Provision for loan losses	465	75	495
Recoveries on loans previously charged-off	298	286	338
Loans charged-off	(332)	(415)	(665)
Balance at end of year	\$ 5,581	\$ 5,150	\$ 5,204

NOTE 6 PREMISES AND EQUIPMENT

A summary of premises and equipment follows:

	(\$000 Omitted)	
	December 31,	
	2006	2005
Land	\$ 2,610	\$ 2,455
Buildings	11,033	9,718
Leasehold improvements	601	120
Construction in progress	381	129
Equipment	10,166	9,359
	24,791	21,781
Less accumulated depreciation and amortization	11,042	10,046
	\$ 13,749	\$ 11,735

Table of Contents

Depreciation expense for the years ended December 31, 2006, 2005 and 2004 amounted to \$1,375,000, \$1,413,000 and \$1,415,000, respectively.

The Company leases six of its branch locations and an automobile under non-cancelable operating leases. In addition, the Company leases one storage facility under a non-cancelable lease. Minimum lease payments in future periods under non-cancelable operating leases at December 31, 2006 are as follows:

		(\$000 Omitted)
2007	\$	220
2008		115
2009		85
2010		85
2011		91
Thereafter		397
	\$	993

The terms of two of the leases provide that the Company can, at the end of the current five-year term, renew the lease under one five-year option. The terms of two additional leases provide that the Company can, at the end of a ten-year term, renew the lease under two five-year options. All branch leases contain a provision that the Company shall pay its pro-rata share of operating costs. Additionally, two of the leases require that the Company pay all real estate taxes. The automobile lease contains a purchase option at the end of the lease term.

Rent expense for the years ended December 31, 2006, 2005, and 2004 amounted to \$263,000, \$359,000 and \$404,000, respectively.

NOTE 7 OTHER REAL ESTATE OWNED

Other real estate owned consists of real estate acquired by foreclosure or a similar conveyance of title. At December 31, 2006, the Company had no other real estate owned. At December 31, 2005 other real estate owned was comprised of commercial real estate of \$196,000.

Sales of other real estate owned by the Company resulted in gains of \$68,000 for the year ended December 31, 2006.

There were no write-downs on other real estate owned for the years ended December 31, 2006, 2005, and 2004.

Table of Contents**NOTE 8 DEPOSITS**

The aggregate amount of maturities for time deposits as of December 31, 2006 for each of the following five years is as follows:

		(\$000 Omitted)
2007	\$	186,296
2008		5,689
2009		1,469
2010		769
2011		718
	\$	194,941

Deposits from related parties held by the Bank at December 31, 2006 and 2005 amounted to \$5,234,000 and \$3,785,000, respectively.

NOTE 9 SHORT-TERM BORROWINGS

Short-term borrowings consist of securities sold under agreements to repurchase. The securities sold under agreements to repurchase as of December 31, 2006 and 2005 are securities sold on a short term basis by the Company that have been accounted for not as sales but as borrowings. The underlying securities associated with securities sold under agreements to repurchase are under the control of the Company. The purchasers have agreed to sell to the Company substantially identical securities at the maturity of the agreements.

NOTE 10 LONG-TERM DEBT

Long-term debt at December 31, 2006 and 2005 consisted of FHLB advances of \$53,000,000 and \$85,000,000, respectively, as well as \$20,620,000 of junior subordinated debentures, for each year.

As of December 31, 2006, contractual principal payments due under long-term debt, which consists of FHLB advances and junior subordinated debentures, are as follows:

		(\$000 Omitted)
2007	\$	13,000
2008		14,000
2009		5,000
2010		5,000
2012 and years thereafter		36,620
	\$	73,620

The FHLB long-term debt consisted of fourteen separate advances. Two of these advances are callable with the following rates and terms (\$000 Omitted):

Amount	Rate	Maturity Date	Next Call Date
\$ 5,000	5.91 %	12/17/09	03/19/07 and quarterly thereafter

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

14,000	4.50	12/27/13	12/29/08 and quarterly thereafter
\$19,000			

One advance, totaling \$10,000,000 with a maturity date of May 9, 2008 and an interest rate of 5.31% reprices monthly to the 4-week weighted average money market yield, as published by the FHLB, plus 10 basis points.

The remaining eleven advances, totaling \$24,000,000, are at rates ranging from 2.35% to 6.11% with a weighted average rate of 3.79%.

Table of Contents

The \$20,620,000 of junior subordinated debentures consists of the following two issues:

On April 10, 2002, the Company completed the private placement of \$7,217,000 aggregate liquidation amount of floating rate trust preferred securities (the "Trust I Capital Securities") issued by its Delaware statutory business trust, Northway Capital Trust I ("Capital Trust I"). The Trust I Capital Securities were sold to a pooled investment vehicle. The proceeds from the sale of the Trust I Capital Securities, which included the proceeds from the sale by Capital Trust I of its common securities to the Company, were invested in Floating Rate Junior Subordinated Debt Securities of the Company due 2032 (the "Trust I Junior Subordinated Debt"), which were issued pursuant to an Indenture, dated April 10, 2002, between the Company and Wilmington Trust Company, as Trustee. Both the Trust I Capital Securities and the Trust I Junior Subordinated Debt have a floating rate, which resets semi-annually, equal to six-month LIBOR plus 3.70%, with a ceiling of 11.00% for the first five years. Currently, the interest rate on these securities is 9.089%. Payments of distributions and other amounts due on the Trust I Capital Securities are irrevocably guaranteed by the Company, to the extent that Capital Trust I has funds available for the payments of such distributions, pursuant to a Guarantee Agreement, dated April 10, 2002, between the Company and Wilmington Trust Company, as Guarantee Trustee. The Trust I Junior Subordinated Debt and the Trust I Capital Securities may be redeemed at the option of the Company on fixed semi-annual dates beginning on April 22, 2007.

On July 11, 2002, the Company completed the private placement of \$13,403,000 aggregate liquidation amount of floating rate trust preferred securities (the "Trust II Capital Securities") issued by its Delaware statutory business trust, Northway Capital Trust II (the "Capital Trust II"). The Trust II Capital Securities were sold to a pooled investment vehicle. The proceeds from the sale of the Trust II Capital Securities, which include the proceeds from the sale by Capital Trust II of its common securities to the Company, were invested in Floating Rate Junior Subordinated Debt Securities of the Company due 2032 (the "Trust II Junior Subordinated Debt"), which were issued pursuant to an Indenture, dated July 11, 2002, between the Company and Wilmington Trust Company, as Trustee. Both the Trust II Capital Securities and the Trust II Junior Subordinated Debt have a floating rate, which resets quarterly, equal to three-month LIBOR plus 3.65%, with a ceiling of 12.50% for the first five years. Currently, the interest rate on these securities is 9.01%. Payments of distributions and other amounts due on the Trust II Capital Securities are irrevocably guaranteed by the Company, to the extent that Capital Trust II has funds available for the payments of such distributions, pursuant to a Guarantee Agreement, dated July 11, 2002, between the Company and Wilmington Trust Company, as Guarantee Trustee. The Trust II Junior Subordinated Debt and the Trust II Capital Securities may be redeemed at the option of the Company on fixed quarterly dates beginning on July 7, 2007.

NOTE 11 ACQUISITIONS

On April 7, 2006, the Company acquired certain assets and assumed the deposits of two branch offices of Washington Mutual Bank located in Laconia and Belmont, New Hampshire. This acquisition has allowed the Company to expand its market area further in Belknap County. Deposits assumed totaled \$29,438,000 for which the Company paid a deposit purchase premium of 6.30%. In addition, the Company acquired certain loans associated with the branches totaling \$8,192,000. As a result of this purchase, the Company made the following entries to record this transaction:

		(\$000 Omitted)
Cash	\$	19,130
Loans		8,192
Goodwill		425
Core deposit intangible		1,234
Equipment		49
Land and buildings		458
Other assets		28
Building and equipment expense		1

Deposits		\$	29,438
Other liabilities			74
Miscellaneous income			5
	\$	29,517	\$ 29,517

This transaction was accounted for using the purchase method of accounting. The results of operations of the acquired branches are included in the 2006 consolidated statements of income of the Company from the date of the transaction.

The cost of the acquired branch offices exceeded the fair value of the assets acquired and liabilities assumed by \$1,659,000. Of this amount, \$1,234,000 was assigned to core deposit intangible and \$425,000 was recorded as goodwill. All of the goodwill was deductible for tax purposes. The core deposit intangible of \$1,234,000 is being amortized to noninterest expense over fourteen years using the sum-of-the-years'-digits method.

Table of Contents**NOTE 12 GOODWILL AND OTHER INTANGIBLE ASSETS**

At December 31, 2006, the Company has goodwill and core deposit intangibles totaling \$12,755,000. Core deposit intangibles are being amortized over their useful lives and both core deposit intangibles and goodwill are tested for impairment at least annually.

The changes in the carrying amount of goodwill and core deposit intangibles for the years ended December 31, 2006 and 2005 are as follows:

	(\$000 Omitted)	
	Goodwill	Core Deposit Intangibles
Balance, December 31, 2004	\$ 10,152	\$ 2,949
Amortization expense	-	(954)
Balance, December 31, 2005	10,152	1,995
Branch acquisition	425	1,234
Amortization expense	-	(1,051)
Balance, December 31, 2006	\$ 10,577	\$ 2,178

Estimated annual amortization expense:

	(\$000 Omitted)
	Core Deposit Intangibles
2007	\$ 476
2008	464
2009	453
2010	227
2011	109
2012 and thereafter	449

The following table reflects the gross carrying amount and accumulated amortization of core deposit intangibles as of December 31, 2006:

	(\$000 Omitted)		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Core deposit intangibles	\$6,566	\$4,388	\$2,178

Management reviews the carrying amount of intangible assets on an ongoing basis, taking into consideration any events and circumstances that might have diminished such amount. During 2006 and 2005, the Company reviewed the carrying amount of intangible assets and determined that no impairment write-down was required.

NOTE 13 REGULATORY MATTERS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective

action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). As of December 31, 2006, the most recent notification from the FDIC categorized the Bank as “well-capitalized” under the regulatory framework for prompt corrective action. To be categorized as “well-capitalized” the Bank must maintain total risk-based, Tier 1 risk-based and Tier 1 leverage ratios above regulatory prescribed minimum levels. There are no conditions or events since that notification that management believes have changed the Bank’s category. Management believes, as of December 31, 2006 and 2005, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

Table of Contents

These minimum capital amounts and ratios, as well as the Company's and Bank's actual capital amounts and ratios, are presented in the following table:

	(\$000 Omitted)					
	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of December 31, 2006						
Tier 1 capital (to average assets)						
Northway Financial, Inc.	\$58,432	9.31%	\$25,102	³ 4.00%	N/A	
Northway Bank	51,653	8.30	24,887	³ 4.00	\$31,109	³ 5.00%
Total capital (to risk weighted assets)						
Northway Financial, Inc.	66,464	15.95	33,339	³ 8.00	N/A	
Northway Bank	56,796	13.82	32,885	³ 8.00	41,107	³ 10.00
Tier 1 capital (to risk weighted assets)						
Northway Financial, Inc.	58,432	14.02	16,669	³ 4.00	N/A	
Northway Bank	51,653	12.57	16,443	³ 4.00	24,664	³ 6.00
As of December 31, 2005						
Tier 1 capital (to average assets)						
Northway Financial, Inc.	\$55,765	8.96	\$24,888	³ 4.00	N/A	
Northway Bank	50,450	8.19	24,644	³ 4.00	\$30,806	³ 5.00
Total capital (to risk weighted assets)						
Northway Financial, Inc.	65,025	15.24	34,138	³ 8.00	N/A	
Northway Bank	55,673	13.25	33,623	³ 8.00	42,029	³ 10.00
Tier 1 capital (to risk weighted assets)						
Northway Financial, Inc.	55,765	13.07	17,069	³ 4.00	N/A	
Northway Bank	50,450	12.00	16,812	³ 4.00	25,217	³ 6.00

Federal regulations prohibit banking companies from paying dividends on their stock if the effect would cause stockholders' equity to be reduced below applicable regulatory capital requirements or if such declaration and payment would otherwise violate regulatory requirements.

As of December 31, 2006, the Bank is restricted from declaring dividends to the Company in an amount greater than approximately \$23,900,000, as such declaration would decrease capital below the Bank's required minimum level of regulatory capital.

NOTE 14 OTHER NONINTEREST EXPENSE

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

The following table sets for information relating to the Company's other noninterest expense for the years ended December 31:

	(\$000 Omitted)		
	2006	2005	2004
Professional fees	\$ 1,026	\$ 1,179	\$ 907
Marketing	726	757	326
Stationery and supplies	365	647	429
Telecommunications	455	619	595
Other	3,676	3,511	3,252
	\$ 6,248	\$ 6,713	\$ 5,509

Table of Contents**NOTE 15 FEDERAL AND STATE TAXES**

The components of federal and state tax expense for the years ended December 31, are as follows:

	(\$000 Omitted)		
	2006	2005	2004
Current			
Federal	\$ 1,010	\$ 820	\$ 1,289
State	-	26	334
	1,010	846	1,623
Deferred			
Federal	(363)	2	44
State	5	(6)	(1)
	(358)	(4)	43
Total	\$ 652	\$ 842	\$ 1,666

The temporary differences (the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases) that give rise to significant portions of the net deferred income tax asset at December 31, are as follows:

	(\$000 Omitted)	
	2006	2005
Deferred income tax assets		
Allowance for loan losses	\$ 2,234	\$ 2,072
Interest on nonaccrual loans	16	46
Unrealized holding loss on securities available-for-sale	198	724
Capital loss carryforward	-	24
Pension unfunded status valuation adjustment	626	-
Amortization of goodwill and core deposit intangible	-	3
Supplemental pension	416	325
Other	10	9
	3,500	3,203
Deferred income tax liabilities		
Depreciation	(557)	(621)
Amortization of goodwill and core deposit intangible	(86)	-
Prepaid pension	(286)	(454)
Mortgage and consumer servicing rights	(79)	(94)
	(1,008)	(1,169)
Deferred income tax asset, net	\$ 2,492	\$ 2,034

The primary sources of recovery of the deferred income tax asset are taxes paid that are available for carryback and the expectation that the deductible temporary differences will reverse during periods in which the Company generates taxable income.

Total income tax expense for the years ended December 31, 2006, 2005 and 2004 differs from the "expected" federal income tax expense at the 34% statutory rate for the following reasons:

2006	2005	2004
------	------	------

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

Expected federal income taxes	34.0%	34.0%	34.0%
Interest on municipal securities available-for-sale and municipal loans	(16.8)	(9.4)	(4.5)
State tax expense, net of federal benefit	0.1	0.4	4.3
Other	(0.4)	(1.0)	(0.8)
Effective tax rates	16.9%	24.0%	33.0%

Table of Contents**NOTE 16 EMPLOYEE BENEFITS***Pension Plan*

The Company maintains a trusted non-contributory pension plan (the "Plan") covering substantially all full-time employees. Assuming retirement at age 65 after 30 years or more of service, the benefits are computed as the sum of one percent of final average earnings up to a covered compensation limit, plus 0.65 percent of final average earnings in excess of covered compensation, times years of service, up to 30. Final average earnings are defined as the five consecutive years out of the employee's last ten years of employment during which compensation is highest. The amounts contributed to the Plan are determined annually on the basis of (a) the maximum amount that can be deducted for federal income tax purposes or (b) the amount certified by a consulting actuary as necessary to avoid an accumulated funding deficiency as defined by the Employee Retirement Income Security Act of 1974. Contributions are intended to provide not only benefits attributed to service to date but also for those expected to be earned in the future.

The following table sets forth information about the Plan as of December 31, using a measurement date of December 31, and for the years then ended:

	(\$'000 Omitted)		
	2006	2005	2004
Accumulated benefit obligation at the end of the year	\$ 5,863	\$ 4,986	\$ 5,475

---	----------

*This section illustrates the reconciliation items if FAS 158 were in effect at December 31, 2005

The estimated prior service credit and net loss that will be accreted and amortized from accumulated other comprehensive loss into net periodic benefit cost over the year ended December 31, 2007 are \$84,000 and \$100,000, respectively.

	2006	2005	2004
Assumptions used to determine benefit obligations and benefit cost as of and for the years ending			

Edgar Filing: NORTHWAY FINANCIAL INC - Form 10-K

December 31,

Discount rate:

Benefit obligation	6.00%	5.75%	6.00%
Benefit cost	5.75	6.00	6.25
Long-term rate of return on plan assets	8.00	8.00	8.00
Rate of compensation increase	3.50	3.50	3.50

The expected long-term rate of return for the plan's total assets is based on the expected return of asset categories identified below, weighted based on the target allocations for each class. Equity funds are expected to return 8% to 10% over the long-term and bond funds and short-term money markets are expected to return between 4% and 6%.

Table of Contents

The Company's pension plan actual asset allocations by asset category are as follows:

Asset Category	Plan Assets at December 31,		
	2006	2005	2004
Mutual funds:			
Bond funds	29.0%	32.7%	32.6%
Equity securities	51.0	42.5	43.6
Real estate funds	7.0	8.5	9.4
Short-term money market	13.0	16.3	14.4
Total	100.0%	100.0%	100.0%

The investment policy, as established by the Company, is to provide for a moderate growth of capital with a moderate level of volatility by investing assets per the target allocations as follows:

Asset Category	2006	2005	2004
Mutual funds:			
Bond funds	25-45%	40-60%	40-60%
Equity securities	45-65	30-50	30-50
Real estate funds	0-15	0-15	0-15
Other	0-25	-	-

The assets will be re-allocated quarterly to meet the above target allocations. The investment policy is reviewed on an annual basis, under the advisement of the Company's certified investment advisor, to determine if the policy should be changed.

The plan assets do not include any Company common stock at December 31, 2006 and 2005.

The Company expects to contribute \$435,000 to its pension plan in 2007.

Estimated future benefit payments, which reflect future service, as appropriate, are as follows for the years ended December 31:

	(\$000 Omitted)
2007	\$ 169
2008	194
2009	224
2010	235
2011	262
2012-2016	1,827

401(k) Plan

The Company offers a contributory 401(k) Plan. Under the Northway Financial, Inc. 401(k) and Profit Sharing Plan (the "401K Plan") employees must have attained age 21, completed six months of service and be credited with 1,000 hours of service in order to participate. Employees of the Company are eligible to participate. Under the 401K Plan,

the Company matches 50 percent of the first 4 percent of employee contributions. Total 401(k) matching expense in 2006, 2005 and 2004 amounted to \$151,000, \$139,000 and \$143,000, respectively, and Profit Sharing contribution expense for 2006, 2005, and 2004 was \$0, \$0, and \$38,000, respectively.

Supplemental Executive Retirement Plan (SERP)

Effective May 29, 2003, the existing Executive Life program sponsored by the Company was terminated and replaced with a SERP in which Mr. Woodward participates. The existing Split Dollar Life Insurance policy designed to support the Executive Life program is now fully owned by Northway. This policy will be maintained by Northway and is used as the benchmark for the SERP.

The total retirement SERP benefit is as follows: Upon Mr. Woodward's termination of employment for reasons other than death or for cause, the account balance is paid out to him in ten (10) equal annual installments on the first day of the month following the month in which employment is terminated. Upon death after retirement, the unpaid account balance, if any, is paid out in a lump sum to the named beneficiary. During retirement, an additional retirement payment, based on the policy gains associated with the prior calendar year, will also be paid on an annual basis until the executive's death. In the event of Mr. Woodward's death while employed by the Company, the SERP permits a death benefit of \$2,000,000 be paid to his beneficiary.

Table of Contents*Stock-Based Compensation*

The Board of Directors (the "Committee") administers the 1999 Stock Option and Grant Plan (the "1999 Plan") which is described below.

Under the 1999 Plan, the Committee may select the individuals to whom awards may from time to time be granted; determine the time or times of grant; and determines the extent, if any, of incentive stock options, non-qualified stock options, restricted stock awards, unrestricted stock awards, performance share awards, or any combination of the foregoing.

The 1999 Plan expires in February 2009. The aggregate number of shares of the Company's common stock which may be issued upon the exercise of options granted under the 1999 Plan is 175,000. The option price is fixed by the Committee at the time of the grant and may not be less than 100 percent of the fair market value of the stock, as determined by the Committee, in good faith as of the grant date. Each option may be exercised at such times as shall be determined by the Committee at or after the grant date; provided, however, that no option may be exercised ten years after the date of grant. The fair value of each option granted is estimated on grant date using the Black-Scholes option pricing model.

A summary of the status of the Company's 1999 Plan as of December 31, 2006, 2005 and 2004 and changes during the years then ended is presented below:

	2006		2005		2004	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding, beginning of year	34,000	\$ 25.00	38,000	\$ 24.96	42,000	\$ 24.93
Exercised	-		(4,000)	24.64	(4,000)	24.64
Forfeited	(3,500)	28.00	-		-	
Outstanding, end of year	30,500	24.65	34,000	25.00	38,000	24.96
Options exercisable at year-end	30,500		34,000		38,000	

The following table summarizes information about fixed stock options outstanding as of December 31, 2006:

Options Outstanding			Options Exercisable		
Weighted Average Exercise Price	Number Outstanding as of 12/31/06	Weighted Average Remaining Contractual Life	Number Exercisable as of 12/31/06	Weighted Average Exercise Price	
\$ 28.00	11,500	2.50 years	11,500	\$ 28.00	
22.63	19,000	3.63 years	19,000	22.63	
24.65	30,500	3.20 years	30,500	24.65	

Change in Control

The Company and its subsidiary have entered into Key Employee agreements with specific Executive Officers as well as other Senior Officers of the Company. These agreements provide for payments, under certain circumstances, to the officer upon the officer's termination after a change in control. Payments will be made under these agreements upon the officer's termination or resignation in connection with certain specified actions adverse to the officer's employment status after a change in control. The amount of such payments ranges from 1.0 to 1.5 times such officer's annual compensation.

Table of Contents**NOTE 17 FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK**

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, are as follows:

	(\$000 Omitted)	
	2006	2005
Financial instrument whose contract amounts represent credit risk:		
Unadvanced portions of home equity loans	\$ 17,691	\$ 18,761
Unadvanced portions of lines of credit	21,424	14,485
Unadvanced portions of commercial real estate loans	17,421	17,381
Unadvanced portions of Bounce Protection™	13,667	11,294
Commitments to originate all other loans	20,742	19,971
Commitments to originate municipal notes	972	-
Standby letters of credit	303	78
Total	\$ 92,220	\$ 81,970

Commitments to originate loans and municipal notes, unadvanced portions of home equity loans, lines of credit and commercial real estate loans are agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without having been drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower.

Unadvanced portions of Bounce Protection™ represent the unused portion of the Bank's overdraft privilege program.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers. As of December 31, 2006 and 2005, the maximum potential amount of the Company's obligation was \$303,000 and \$78,000, respectively, for financial and standby letters of credit. The Company's outstanding letters of credit generally have a term of less than one year. If a letter of credit is drawn upon, the Company may seek recourse through the customer's underlying line of credit. If the customer's line of credit is also in default, the Company may take possession of the collateral, if any, securing the line of credit.

Table of Contents

NOTE 18 FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents approximates the fair value of those assets.

Securities: Fair values for securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

FHLB Stock: The carrying amount reported in the consolidated balance sheets for FHLB Stock approximates its fair value. If redeemed, the Company will receive an amount equal to the par value of the stock.

Loans held-for-sale: Fair values for loans held-for-sale are estimated based on outstanding investor commitments, or in the absence of such commitments, are based on current investor yield requirements.

Loans: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The fair values of nonaccrual loans was estimated using discounted cash flow analyses or the estimated fair value of the underlying collateral where applicable.

Accrued interest receivable: The carrying value of accrued interest receivable approximates its fair value because of the short-term nature of this financial instrument.

Deposits: The fair value of demand deposits (e.g. NOW and super NOW checking, noninterest bearing checking, regular savings, money market accounts and mortgagors' escrow accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amounts). Fair values for certificates of deposit are estimated using a discounted cash flow technique that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities of time deposits.

Short-term borrowings: The carrying value of short-term borrowings approximates its fair value because of the short-term nature of these financial instruments.

Long-term debt: The fair values of long-term debt are determined by discounting the anticipated future cash payments by using the rates currently available to the Company for debt with similar terms and remaining maturities.

Junior subordinated debentures: The fair values of junior subordinated debentures are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

Off-balance sheet instruments: The fair value of commitments to originate loans is estimated using the fees currently charged to enter similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments and the unadvanced portion of loans, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of letters of credit is based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligation with the counterparties at the reporting date. See NOTE 17 for further information.

The estimated fair values of the Company's financial instruments are as follows:

(\$000 Omitted)

December 31,

	2006		2005	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial assets:				
Cash and cash equivalents	\$ 24,808	\$ 24,808	\$ 29,362	\$ 29,362
Securities available-for-sale	127,789	127,789	103,244	103,244
FHLB stock	3,782	3,782	5,541	5,541
Loans held-for-sale	263	268	453	461
Loans, net	456,649	445,550	455,223	445,529
Accrued interest receivable	2,941	2,941	2,614	2,614
Financial liabilities:				
Deposits	\$ 484,677	\$ 484,266	\$ 464,456	\$ 463,159
Short-term borrowings	36,497	36,497	9,363	9,363
Long-term debt	53,000	51,900	85,000	84,296
Junior subordinated debentures	20,620	20,646	20,620	20,908

The carrying amounts of financial instruments shown in the above table are included in the consolidated balance sheets under the indicated captions except that accrued interest receivable is included with other assets and junior subordinated debentures are included with long-term debt.

At December 31, 2006 and 2005 all the Company's financial instruments were held for purposes other than trading.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for some of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, cash flows, current economic conditions, risk characteristics, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions and changes in the loan, debt and interest rate markets could significantly affect the estimates. Further, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on the fair value estimates and have not been considered. The fair value amounts presented do not represent the underlying value of the Company because fair values of certain other financial instruments, assets and liabilities have not been determined.

Table of Contents**NOTE 19 CONDENSED PARENT ONLY FINANCIAL STATEMENTS**

Condensed financial statements of Northway Financial, Inc. (Parent Company only) as of December 31, 2006 and 2005 and for the three years ended December 31, 2006 follow:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Shatswell, MacLeod & Company, P.C.
Certified Public Accountants
83 Pine Street
West Peabody, Massachusetts 01960

The Board of Directors and Stockholders
Northway Financial, Inc.
Berlin, New Hampshire

We have audited the accompanying consolidated balance sheets of Northway Financial, Inc. and Subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2006. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether
