Item 9. Regulation FD Disclosure.

The following information is being furnished pursuant to Item 12 "Disclosure of Results of Operations and Financial Condition," and is included under this Item 9 in accordance with the procedure guidance in SEC Release No. 33-8216.

On May 15, 2003, Universal Compression Holdings, Inc. (the "Company") issued a press release announcing earnings for its fourth fiscal quarter and fiscal year ended March 31, 2003. A copy of the press release is furnished herewith as Exhibit 99.2.

Exhibit 99.2 to this report contains references to and disclosures of EBITDA, as adjusted (as defined below), a "non-GAAP financial measure" as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934. A reconciliation of EBITDA, as adjusted, to net income, the most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States ("GAAP"), is included as an attachment to the press release.

EBITDA, as adjusted, is defined as net income plus income taxes, interest expense, leasing expense, depreciation and amortization, foreign currency gains or losses, excluding non-recurring items and extraordinary gains or losses. Beginning with the quarter ended September 30, 2002, the Company changed its definition of EBITDA, as adjusted, to exclude foreign currency gains or losses. All periods prior to September 30, 2002 have been recalculated from amounts previously disclosed by the Company to be consistent with this new definition of EBITDA, as adjusted.

EBITDA, as adjusted, represents a measure upon which the Company's management assesses financial performance. In addition, financial covenants in the Company's current financing arrangements are tied to similar measures. EBITDA, as adjusted, is not a measure of financial performance under GAAP and should not be considered an alternative to operating income or net income as an indicator of the Company's operating performance or to net cash provided by operating activities as a measure of the Company's liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. The Company believes that EBITDA, as adjusted, is useful to the Company's investors because EBITDA is a standard measure of financial performance in the compression industry. EBITDA, as adjusted, is a useful common yardstick as it measures the capacity of companies to generate cash without reference to how they are capitalized, how they account for significant non-cash charges for depreciation and amortization associated with assets used in the business (the majority of which are long-lived assets in the compression industry), or what their tax attributes may be.

The information contained in this Current Report on Form 8-K is neither an offer to sell nor a solicitation of an offer to buy any of the senior notes proposed to be issued. The notes to be offered will not be registered under the Securities Act of 1933 (the "Securities Act"), or applicable state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act.

The information contained in this Current Report on Form 8-K is also not an offer to purchase or a solicitation of an offer to purchase the 9 7/8% Senior Discount Notes due 2008 (the "Notes"). The offer to purchase the Notes may only be made pursuant to Universal Compression, Inc.'s Offer to Purchase dated May 14, 2003, and related Letter of Transmittal.
