BUNGE LIMITED AND SUBSIDIARIES NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Bunge Limited and its subsidiaries (Bunge) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934, as amended (Exchange Act). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation have been included. The consolidated balance sheet at December 31, 2005 has been derived from Bunge's audited financial statements at that date. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of the results to be expected for the year ending December 31, 2006. The financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2005 included in Bunge's 2005 Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC).

Effective January 1, 2006, Bunge adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, *Share-Based Payment* (SFAS No. 123R). See Note 14 of the notes to the condensed consolidated financial statements.

Reclassifications Certain earnings on investments in affiliates were reclassified from other income (expense) net to equity earnings in affiliates in the condensed consolidated statements of income. In addition, certain product lines were reclassified from the agribusiness segment to the edible oil products segment. As a result, amounts in Bunge's condensed consolidated statements of income and segment results the three and six months ended June 30, 2005 have been reclassified to conform to the current period presentation.

2. NEW ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board (FASB) issued two related standards that address accounting for income taxes: FASB Interpretation No. (FIN) 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), and FASB Staff Position (FSP) FAS 13-2, *Accounting for a Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction* (FSP FAS 13-2). Among other things, FIN 48 requires applying a "more likely than not" threshold to the recognition and derecognition of tax positions, while FSP FAS 13-2 requires a recalculation of returns on leveraged leases if there is a change or projected change in the timing of cash flows relating to income taxes generated by the leveraged lease. The new guidance will be effective for Bunge on January 1, 2007. Bunge is currently evaluating FIN 48 and FSP FAS 13-2 to determine the potential impact, if any, these would have on its consolidated financial statements. Prior periods will not be restated as a result of this required accounting change.

In April 2006, the FASB issued FSP No. FIN 46(R)-6, Determining the Variability to be Considered in Applying FASB

Interpretation No. 46(R), which addresses certain implementation issues related to FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities* (FIN 46(R)). FSP FIN No. 46(R)-6 is to be applied prospectively by the company to all entities with which the company first becomes involved and to all entities previously required to be analyzed under FIN 46(R) when a consideration event has occurred beginning the first day of the first reporting period beginning after June 2006. Retrospective application to the date of the initial application is permitted but not required, however, if elected, it must be completed no later than the end of the first annual reporting period ending after July 15, 2006. Bunge has elected to apply FSP FIN No. 46(R)-6 prospectively and has determined there to be no material impact to Bunge's consolidated financial statements as a result of this application.

BUNGE LIMITED AND SUBSIDIARIES NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

2. NEW ACCOUNTING STANDARDS (continued)

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140* (SFAS No. 156), which is effective for fiscal years beginning after September 15, 2006. SFAS No. 156 was issued to simplify the accounting for servicing rights and to reduce the volatility that results from using different measurement attributes. Bunge is currently evaluating SFAS No. 156 to determine the potential impact, if any, it would have on its consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140* (SFAS No. 155), which is effective for fiscal years beginning after September 15, 2006. SFAS No. 155 was issued to clarify the application of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133) to beneficial interests in securitized financial assets and to improve the consistency of accounting for similar financial instruments, regardless of the form of the instruments. Bunge is currently evaluating SFAS No. 155 to determine the potential impact, if any, it would have on its consolidated financial statements.

3. INVENTORIES

Inventories consist of the following:

(US\$ in millions)	J	une 30, 2006	 December 31, 2005
Agribusiness Readily marketable inventories at market value	\$	2,130	\$ 1,534

Edible oils		246	233
Milling		68	73
Other ⁽²⁾		277	508
Total	\$	3,300	\$ 2,769

(1)

Readily marketable inventories are agricultural commodities inventories that are readily convertible to cash because of their commodity characteristics, widely available markets and international pricing mechanisms.

(2)

Other consists of agribusiness inventories, other than readily marketable inventories, carried at lower of cost or market.

4. INVESTMENTS IN AFFILIATES

During the six months ended June 30, 2006, Bunge made investments in its unconsolidated affiliates, which consisted primarily of a \$16 million cash acquisition of 25% of the outstanding shares of a company engaged in the production of edible oil products in Russia and a \$24 million investment in Bunge's existing Brazilian port terminal joint ventures. Bunge accounts for these investments under the equity method.

(1)

In the three months ended June 30, 2006, Bunge completed its purchase price allocation for its 2005 acquisition in Rizhao, China. Bunge paid \$15 million in cash for a 61% ownership interest in a company that owns and operates an integrated soybean crushing and refining plant from the Sanwei Group Ltd. Bunge recognized \$6 million as the excess of the purchase price over the historical book value, which it allocated to goodwill in its agribusiness segment.

(2)

Bunge's Brazilian subsidiary's tax deductible goodwill is in excess of its book goodwill. For financial reporting purposes, the tax benefits attributable to the excess tax goodwill are first used to reduce recorded goodwill and then to reduce intangible assets prior to recognizing any income tax benefit in the condensed consolidated statements of income.

7. OTHER CURRENT LIABILITIES

Other current liabilities consist of the following:

8. IMPAIRMENT AND RESTRUCTURING CHARGES

Impairment In the six months ended June 30, 2006, Bunge recorded a pretax non-cash impairment charge of \$18 million and \$2 million in its agribusiness and edible oil products segments, respectively, relating to write-downs of three less efficient oilseed processing, refining and bottling facilities in Brazil. Declining results of operations at these facilities, which resulted from adverse operating conditions in the Brazilian agribusiness industry, competition from Argentina and the strength of the Brazilian currency, led management to permanently close these three facilities. The fair values of land and equipment at these three facilities were determined with the assistance of a third-party valuation. Bunge has recorded these impairment charges in cost of goods sold in the condensed consolidated statements of income for the six months ended June 30, 2006.

Restructuring In the six months ended June 30, 2006, Bunge recorded restructuring charges of \$4 million related to its South American agribusiness and fertilizer operations. These charges consisted of termination benefit costs of \$1 million and \$2 million in the agribusiness and fertilizer segments, respectively, and environmental costs of \$1 million in the agribusiness segment. In the agribusiness segment, termination costs for the six months ended June 30, 2006 related to termination benefit obligations associated with approximately 400 plant employees and the environmental expense related to the closure of the three oilseed processing, refining and bottling facilities noted above. In the fertilizer segment, termination costs for the six months ended June 30, 2006 related to the closure of the three oilseed processing, refining costs are associated with Bunge's 2005 corporate restructuring program which was designed to streamline costs and rationalize the corporate structure in these segments. Funding for these costs is provided by cash flows from operations. All termination benefit obligations were paid as of June 30, 2006. The environmental costs are accrued in other non-current liabilities in the condensed consolidated balance sheet at June 30, 2006. The restructuring and environmental costs for the agribusiness segment were recorded in selling, general and administrative expense in the condensed consolidated statement of income for the six months ended June 30, 2006.

9. LONG-TERM DEBT AND FINANCIAL INSTRUMENTS

The interest rate swaps used by Bunge as derivative hedging instruments have been recorded at fair value in other liabilities in the condensed consolidated balance sheet with changes in fair value recorded currently in earnings. Additionally, the carrying amount of the associated debt is adjusted through earnings for changes in the fair value due to changes in interest rates. Ineffectiveness, as defined in SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133), is recognized to the extent that these two adjustments do not offset. As of June 30, 2006, Bunge recognized no ineffectiveness related to its interest rate swap hedging instruments. The derivatives Bunge entered into for hedge purposes are assumed to be perfectly effective under the shortcut method of SFAS No. 133. The differential between the fixed and variable rates to be paid or received on changes in interest rates is recorded as an adjustment to interest expense. The interest rate differential on the swaps settles in cash every six months until expiration.

During the three months ended June 30, 2006, Bunge entered into various interest rate swap agreements with a notional value amount of \$200 million maturing in 2013 for the purpose of managing its interest rate exposure associated with the \$200 million aggregate principal amount of 5.875% senior notes due 2013. Under the terms of the interest rate swap agreements, Bunge will make payments based on six-month LIBOR and will receive payments based on fixed interest rates. Bunge accounts for interest rate swap agreements as fair value hedges in accordance with SFAS No. 133.

9. LONG-TERM DEBT AND FINANCIAL INSTRUMENTS (continued)

The following table summarizes Bunge's outstanding interest rate swap agreements accounted for as fair value hedges as of June 30, 2006.

		Maturity										
(US\$ in millions)	2008		2013			2014		2015		Total	Fair Value Loss June 30, 2006

Weighted average fixed rate receivable		4.375%	6	5.875%	6	5.35%	, 5	5.10%	6			

(1)

Interest is payable in arrears based on six-month LIBOR plus a spread.

Bunge recognized approximately \$5 million and \$9 million of interest expense in the condensed consolidated statement of income in the three months and six months ended June 30, 2006, respectively, relating to its outstanding swap agreements.

Certain of Bunge's operations are subject to risk from exchange rate fluctuations in connection with anticipated sales in foreign currencies. To minimize this risk, during the six months ended June 30, 2006, a combination of foreign exchange contracts and zero cost collars were purchased and designated as cash flow hedges in accordance with SFAS No. 133. Accordingly, changes in fair values of outstanding cash flow hedge derivatives that are highly effective are recorded in other comprehensive income, until net income is affected by the variability of cash flows of the hedged transaction. In most cases, amounts recorded in other comprehensive income will be released to net income some time after the maturity of the related derivative. Results of hedges related to sales in foreign currencies are recorded in net sales in the condensed consolidated statement of income for the three and six months ended June 30, 2006.

As of June 30, 2006, approximately \$300 million of anticipated foreign currency denominated sales have been hedged with the underlying derivative contracts settling at various dates beginning in July 2006 through December 2007. At June 30, 2006, the fair value of contracts expected to settle within the next 18 months, which is recorded in other current assets, approximated \$7 million. The change in the fair value of the contracts designated as cash flow hedges is recorded as a component of other comprehensive income and was approximately \$5 million, net of income taxes, as of June 30, 2006. The change in the fair value will be reclassified into earnings when the anticipated sales occur with approximately \$3 million, net of tax, expected to be released to earnings in 2006. The ineffective portion of these hedges was not material. Bunge assesses, both at the inception of the hedge and on an on-going basis, whether the derivatives that are used in hedge transactions are highly effective in offsetting changes in cash flow hedged items.

10. RELATED PARTY TRANSACTIONS

Bunge purchased soybeans, related soybean commodity products and other commodity products from its unconsolidated joint ventures (primarily The Solae Company and its other North American joint ventures), which totaled \$76 million and \$118 million for the three months ended June 30, 2006 and 2005, respectively, and \$146 million and \$197 million for the six months ended June 30, 2006 and 2005, respectively. Bunge also sold soybean commodity products and other commodity products to these joint ventures, which totaled \$21 million and \$27 million for the three months ended June 30, 2006 and 2005, respectively. Bunge believes these transactions were recorded at values similar to those with third parties.
