ITEM 9: REGULATION FD DISCLOSURE

As a result of a previously announced change in its segment reporting, Gardner Denver, Inc. is issuing restated quarterly segment results for 2001 and 2000. As described further below, these changes are simply a reclassification of activity between the Company's two segments (Compressed Air Products and Pump Products) and they do not impact any of the Company's previously reported consolidated results.

As announced on February 13, 2002, the Petroleum Products segment was renamed the Pump Products segment due to the inclusion of the Company's water jetting operations in this segment, which expanded its scope beyond petroleum related products. The water jetting operations were previously included in the Company's Compressed Air Products segment. The new segment reporting was reflected in the 2001 full-year and fourth-quarter disclosures included in the February 13, 2002 press release, and the corresponding prior period amounts were restated to conform with the current presentation.

Edgar Filing: GARDNER DENVER INC - Form 8-K

The table that follows, details the restated segment results for the quarters ended March 31, June 30, September 30, and December 31 of 2001 and 2000. As indicated above, the restated information for the quarters ended December 31, 2001 and 2000 were previously included in the aforementioned February 13, 2002 release but have been included again in the table below merely for convenience.
