ALLEGIANT BANCORP, INC.
FORM 10-Q/A

Explanatory Note: This Form 10-Q/A presents restated quarterly

condensed consolidated financial statements as of June 30, 2002 and for the
quarter and six months then ended, for Allegiant Bancorp, Inc.
("Allegiant").

In the third quarter of 2002, Allegiant adopted SFAS 147,
Acquisition of Certain Financial Institutions. As permitted by the new
accounting standard issued on October 1, 2002, we reclassified previously
recorded intangible assets associated with branch acquisitions to goodwill.
As required by SFAS 147, we restated previously reported 2002 six-month
earnings to reflect the non-amortization of goodwill related to our branch
acquisitions. For the three months and six months ended June 30, 2002 the
impact related to the implementation of SFAS 147 was to increase net income
by \$172,000 and \$345,000, and increase diluted earnings per share by \$0.01
and \$0.02 per share.

At the same time, we also restated previously reported 2002
six-month earnings to recognize the impact of a \$700,000 deferred loan fee
which had not been accreted into income due to an accounting oversight
during the three months ended March 31, 2002 and June 30, 2002 in accordance
with SFAS 91, Accounting for Non-refundable Fees and Costs Associated with
Originating or Acquiring Loans and Initial Direct Costs of Leases. For the
three and six months ended June 30, 2002, the impact for the loan fee
correction was to increase net income by \$146,000 and \$291,000, and diluted
earnings per share by \$0.01 and \$0.02 per share.

The matters relating to the restatement have a financial statement
impact for the periods covered by this 10-Q/A as follows:

	Quarter Ended June 30, 2002		Six Months Ended June 30, 2002	
	As Previously Reported	As Restated	As Previously Reported	As R

The principal effects of the change on the accompanying financial statements are presented in the Notes to the condensed consolidated financial statements.

i

For purposes of this Form 10-Q/A, and in accordance with Rule 12b-15 under the Securities and Exchange Act of 1934, as amended, Allegiant has amended and restated in its entirety each item of Allegiant's Form 10-Q for the quarter and six months ended June 30, 2002, which has been affected by the restatement. This Form 10-Q/A does not reflect events occurring after the filing of the original Form 10-Q, or modify or update those disclosures in any way, except as required to reflect the effects of this restatement.

ALLEGIANT BANCORP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (AS RESTATED)

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Allegiant Bancorp, Inc. and its subsidiaries. The terms "Allegiant," "company," "we," "our," and "corporation" as used in this report refer to Allegiant Bancorp, Inc. and its subsidiaries as a consolidated entity, except where we clearly indicate that it means only Allegiant Bancorp, Inc. Also, sometimes we refer to Allegiant Bank, Bank of

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

Ste. Genevieve and State Bank of Jefferson County, our bank subsidiaries, as the "banks."

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month period ended June 30, 2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002.

The balance sheet at December 31, 2001 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2001.

Comprehensive Income

During the second quarter of 2002 and 2001, total comprehensive income amounted to \$9.5 million and \$2.8 million, respectively. Year-to-date comprehensive income for the first half of 2002 and 2001 was \$14.1 million and \$6.7 million, respectively.

Acquisitions

On September 28, 2001, we acquired Southside Bancshares Corp. ("Southside"). Before the acquisition, Southside was a bank holding company with four subsidiary banks in and around St. Louis, Missouri, which at closing reported consolidated total assets of approximately \$804.9 million. Under the terms of the agreement, one-half of the Southside shares were converted into the right to receive cash in the amount of \$14 per share and the other half into the right to receive 1.39 shares of Allegiant stock per share. Under the terms of the agreement, we exchanged a total of approximately 5.9 million shares of Allegiant common stock plus \$59 million in cash for all of the outstanding common stock of Southside. The issuance of Allegiant shares and cash to the former Southside shareholders was completed on November 2, 2001. We financed the cash portion of the purchase price through the issuance of trust preferred securities and bank borrowings. We accounted for the acquisition under the purchase method and recorded goodwill and a core deposit intangible of \$33.6 million and \$11.0 million, respectively. The core deposit intangible is being amortized over an estimated

useful life of ten years and none of this amortization is expected to be deductible for tax purposes. During October 2001 and May 2002, respectively, we merged Southside National Bank and the Bank of St. Charles County, two of

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

the four subsidiary banks acquired from Southside, into Allegiant Bank.

On December 12, 2001, we acquired five St. Louis County branches from Guardian Savings Bank ("Guardian") which is headquartered in Houston, Texas. In addition to the branch facilities, we assumed \$109.3 million in related deposit liabilities. As a result of the Guardian branch acquisition, we recorded \$2.2 million of goodwill. We believe the acquisitions of Southside and the Guardian branches significantly enhanced the scale of our banking business and positioned us for further growth and to compete effectively by offering personalized banking products and services in the St. Louis community.

Subsequent Event

On July 31, 2002, we announced the signing of a definitive agreement to acquire Investment Counselors, Incorporated (Investment Counselors), a privately held investment advisory firm located in St. Louis, Missouri. Under terms of the agreement, the total consideration to be received by Investment Counselors' shareholders will be shares of Allegiant Bancorp common stock. This acquisition is consistent with our strategy of focusing on the growth of non-interest income. Investment Counselors has been serving institutional and high net worth individuals in the Midwest since 1968. Upon completion of this transaction, which is expected to be completed in the fourth quarter of 2002, our Wealth Management division will have Trust and Investment Advisory assets in excess of \$800 million.

Recently Issued Accounting Standards

Effective January 1, 2002, the Company adopted Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. In accordance with this statement, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to impairment tests in accordance with the Statement. Other intangible assets will continue to be amortized over their estimated useful lives. During 2002, the Company is performing the first of the required impairment tests of goodwill and indefinite lived intangible assets as of January 1, 2002 and has not yet determined what the effect of those tests will be on the future consolidated earnings and financial position of the Company. If for any future period we determine that there has been impairment in the carrying value of our goodwill balances, we will record a charge to our earnings, which could have a material adverse effect on our net income.

Restatement

Allegiant's financial statements as of June 30, 2002 and for the three-month and six-month periods then ended, have been restated. The restatement reflects an increase in interest income and a decrease in amortization expense, a component of other expenses. Prior to the issuance of Allegiant's financial statements as of September 30, 2002 and for the three- and nine-month periods then ended, Allegiant restated the financial statements included in the Forms 10-Q for the quarters ended March 31, 2002 and June 30, 2002, as originally filed. The changes to the financial statements resulting from the restatement are described below.

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

Interest Income and Loans. In the third quarter of 2002, Allegiant recognized a \$700,000 loan fee which had not been accreted into income due to an accounting oversight during the three months ended March 31, 2002 and June 30, 2002 in accordance with SFAS 91. As a result, previously recorded interest income was understated by \$235,000 for the three-month period ended June 30, 2002 and \$469,000 for the six-month period 2002. Loans, at June 30, 2002, decreased by \$231,000.

Amortization Expense and Goodwill. In the third quarter of 2002, Allegiant adopted SFAS 147, Acquisition of Certain Financial Institutions. As permitted by the new accounting standard issued on October 1, 2002, Allegiant reclassified previously recorded intangible assets associated with branch acquisitions to goodwill. As required by SFAS 147, previously reported amortization expense was decreased by \$172,000 for the three-month period ended June 30, 2002 and \$345,000 for the six-month period ended June 30, 2002. Goodwill (cost in excess of fair value of net assets acquired) was increased by \$345,000 at June 30, 2002.

As a result, the financial statements as of June 30, 2002 and for the three-month and six-month periods then ended and related disclosures included in this quarterly report, have been restated to reflect the restatement of interest income and amortization expense. The effect of restatement on the quarter and six-month periods ended June 30, 2002, is shown in the table below:

	Quarter Ended June 30, 2002 -----	Six Months Ended June 30, 2002 -----
	(In thousands)	
Net income, as previously reported.....	\$ 5,080	\$ 9,710

Interest income understatement.....	146	291
Amortization expense.....	172	345
	-----	-----
Net income, as restated.....	\$ 5,398 =====	\$ 10,346 =====

As a result of the foregoing accounting adjustments, Allegiant's consolidated financial statements have been restated from the amounts previously reported as of June 30, 2002 and for the three-month and six-month periods then ended. The principal effects of these adjustments on the accompanying financial statements are set forth below:

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (AS RESTATED)

This report contains certain forward-looking statements with respect to the financial condition, results of operations and business of Allegiant and our subsidiaries. These forward-looking statements involve certain risks and uncertainties. For example, by accepting deposits at fixed rates, at different times and for different terms, and lending funds at fixed rates for fixed periods, we accept the risk that the cost of funds may rise and interest on loans and investment securities may be at a fixed rate.

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

Similarly, the cost of funds may fall, but we may have committed by virtue of the term of a deposit to pay what becomes an above-market rate. Investments may decline in value in a rising interest rate environment. Loans have the risk that the borrower will not repay all funds in a timely manner, as well as the risk of total loss. Collateral may or may not have the value attributed to it. The loan loss reserve, while believed adequate, may prove inadequate if one or more large borrowers, or numerous smaller borrowers, or a combination of both, experience financial difficulty for individual, national or international reasons. Because the business of banking is highly regulated, decisions of governmental authorities, such as the rate of deposit insurance, can have a major effect on operating results. All of these uncertainties, as well as others, are present in a banking operation and we caution shareholders that management's view of the future on which it prices our products, evaluates collateral, sets loan loss reserves and estimates costs of operation and regulation may prove to be other than anticipated.

The profitability of our operations depends on our net interest income, provision for loan losses, non-interest income and non-interest expense. Net interest income is the difference between the income we receive on our loan and investment portfolios and our cost of funds, which consists of interest paid on deposits and borrowings. The provision for loan losses reflects the cost of credit risk in our loan portfolio. Non-interest income consists primarily of service charges on deposit accounts and fees for ancillary banking services and, to a lesser extent, revenues generated from our mortgage banking, securities brokerage, insurance brokerage and trust operations. Non-interest expense includes salaries and employee benefits, as well as occupancy, data processing, marketing, professional fees, insurance and other expenses. Under recently adopted accounting rules, we will be required to periodically evaluate the carrying values of our goodwill balances to determine whether the values have been impaired. If we determine that there has been an impairment, we will recognize a charge to our earnings, which could be material.

Our net interest income depends on the amounts and yields of interest-earning assets compared to the amounts and rates on interest-bearing liabilities. Net interest income is sensitive to changes in market rates of interest and our asset/liability management procedures in managing those changes. The provision for loan losses is dependent on increases in the loan portfolio, management's assessment of the collectibility of the loan portfolio and loss experience, as well as economic and market factors.

OVERVIEW

We are a bank holding company headquartered in St. Louis, Missouri. Our bank subsidiaries, Allegiant Bank, Bank of Ste. Genevieve and State Bank of Jefferson County, offer full-service banking and personal trust services to individuals, commercial business and municipalities in the St. Louis metropolitan area. Our services include commercial, real estate and installment loans, checking, savings and time deposit accounts, personal trust and other fiduciary services and other financial services such as securities brokerage, insurance and safe

deposit boxes. As of June 30, 2002, we reported, on a consolidated basis, total assets of \$2.2 billion, loans of \$1.5 billion, deposits of \$1.6

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

billion and shareholders' equity of \$154.3 million.

Since our inception in 1989, we have grown through a combination of internal growth and acquisitions of other financial institutions. Our internal growth has been achieved by positioning Allegiant as one of the leading St. Louis community banking operations. We have supplemented our growth by acquiring 31 branch locations in our community from four different thrifts and another banking organization. Our primary goals have been to expand our branch network in the St. Louis market while increasing our earnings per share. We have also acquired a mortgage company and an asset management firm. In December 1998, we sold four branches located in more rural markets in northeast Missouri, in order to focus our operations exclusively in the St. Louis metropolitan area. In November 2000, we acquired Equality Bancorp, Inc. a community-based thrift holding company with seven branches in the St. Louis area and total assets of approximately \$300.4 million. As a continuation of our acquisition and growth strategies, in September 2001, we acquired Southside Bancshares Corp., another community-based bank holding company serving the St. Louis area, with total assets of approximately \$804.9 million. In addition, in December 2001, we acquired five St. Louis branch facilities from Guardian Savings Bank and assumed approximately \$109.3 million in related deposit liabilities.

Since the beginning of 1998, we have focused on improving the profitability of our banking operations. As a result, we have reduced the amount of one- to four-family mortgages we hold in our loan portfolio and have increased our amount of higher yielding commercial loans. We have hired more than 20 banking professionals averaging more than 10 years of experience in the St. Louis metropolitan area to help grow our commercial loans and deposits. We have also implemented company-wide cost-control efforts to enhance efficiencies throughout our operations. These steps taken since the beginning of 1998 have improved our efficiency, return on average assets, return of average equity and earnings per share.

Our primary financial objectives are to continue to grow our loan portfolio while maintaining high asset quality, expand our core deposit base to provide a cost-effective and stable source of funding our loan portfolio and increase non-interest income while maintaining strong expense controls. We have sought to maintain high asset quality while managing growth both internally and by acquisition.

RESULTS OF OPERATIONS

Net income for the three months ended June 30, 2002 was \$5.40 million, a 93% increase over the \$2.80 million earned in the second quarter of 2001. Basic earnings per share were \$0.34 for the second quarter of 2002 compared to \$0.31 for the second quarter of 2001. Diluted earnings per share increased 9.7% to \$0.34 for the second quarter of 2002 compared to \$0.31 for the second quarter of 2001. The annualized return on average assets for the second quarter of 2002 was 0.99%, compared to the 0.98% annualized return on average assets reported for the second quarter of 2001. The return on average equity on an annualized basis was 14.50% for the second quarter of 2002 compared to 13.58% for the second quarter of 2001.

Net income for the six-month period ended June 30, 2002 was \$10.35 million, a 93% increase over the \$5.37 million earned in the six-month period ended June 30, 2001. Basic earnings per share were \$0.67 and \$0.60, respectively, for the six-month periods ended June 30, 2002 and 2001. Diluted earnings per share were \$0.65 and \$0.60, respectively, for the six-

month periods ended June 30, 2002 and 2001. The annualized return on average assets for the first six months of 2002 was 0.95%, compared to the 0.94% annualized return on average assets reported for the first six months of 2001. The return on average equity on an annualized basis was 14.23% for the first six months of 2002 compared to 13.18% for the first six months of 2001.

As a result of newly effective accounting pronouncements, we have discontinued the amortization of goodwill in 2002 and will periodically determine whether the carrying value of our goodwill is impaired. As required by these pronouncements, we continue to amortize core deposit premiums and other identifiable intangibles as a noncash charge that increases our operating expenses. Intangible asset amortization included as an operating expense totaled \$271,000 and \$238,000 for the three-month periods ended June 30, 2002 and 2001, respectively. Intangible asset amortization included as an operating expense totaled \$541,000 and \$474,000 for the six-month periods ended June 30, 2002 and 2001, respectively.

Total assets at June 30, 2002 were \$2.2 billion and reflected a 92% increase from June 30, 2001. Total loans increased to \$1.5 billion and total deposits increased to \$1.6 billion at June 30, 2002.

Net Interest Income. Net interest income for the three months ended June 30, 2002 was \$16.30 million, an 87% increase compared to the \$8.73 million reported for the second quarter of 2001. This \$7.58 million increase was attributable to an increase of \$929 million in average earning assets primarily from our September 2001 acquisition of Southside Bancshares Corp. The \$9.35 million increase in interest income was partially offset by a \$1.78 million increase in interest expense. The increase in interest expense was the result of an \$888 million increase in average interest-bearing liabilities partially offset by a decrease of 215 basis points in the average interest rate paid between the periods.

Net interest margin for the second quarter of 2002 decreased 1 basis point compared to the second quarter of 2001. The earning assets yield decreased 190 basis points while the overall interest rate paid on interest-bearing liabilities decreased 215 basis points. The net interest spread increased 25 basis points comparing the second quarter 2002 to the second quarter 2001.

Interest expense on deposits decreased \$308,000 due to a \$654 million increase in average interest-bearing deposits that was offset by a decrease in the average rate paid on deposits from 5.07% in the second quarter of 2001 to 2.68% for the comparable period in 2002. The growth in our deposit base was primarily the result of the Southside acquisition.

Interest expense on other interest-bearing liabilities increased \$2.08 million in the second quarter of 2002 compared to the second quarter of 2001. Average short- and long-term borrowings also increased \$194.4 million in the first three months of 2002 compared to the year earlier quarter. The average rate on short-term borrowings decreased 309 basis points while the rate paid on long-term borrowings decreased 95 basis points

Edgar Filing: ALLEGIANT BANCORP INC/MO/ - Form 10-Q/A

in the second quarter of 2002 compared to the second quarter of 2001.

Net interest income for the six months ended June 30, 2002 was \$31.41 million, a 77% increase compared to the \$17.75 million reported for the second quarter of 2001. This \$13.66 million increase was attributable to an increase of \$921 million in average earning assets primarily from our September 2001 acquisition of Southside Bancshares Corp. The \$17.1 million increase in interest income was partially offset by a \$3.45 million increase in interest expense.

11

The increase in interest expense was the result of an \$878 million increase in average interest-bearing liabilities partially offset by a decrease of 224 basis points in the average interest rate paid between the periods.

Net interest margin for the first six months of 2002 decreased 18 basis points compared to the first six months of 2001. The earning assets yield decreased 217 basis points while the overall interest rate paid on interest-bearing liabilities decreased 224 basis points. The net interest spread increased 7 basis points comparing the year-to-date 2002 to the year-to-date 2001.

12

The following table sets forth the condensed average balance sheets for the quarterly periods reported. Also shown is the average yield on each category of interest-earning assets and the average rate paid on interest-bearing liabilities for each of the periods reported.
