At December 31, 2003, Resources had made payments to purchase gas turbines acquired for a 300 megawatt (MW), gas-fired, generating facility in Sheboygan Falls, Wisconsin. During 2001, Alliant Energy also entered into an agreement to guarantee the debt security of an EWG (6 MW low Btu gas electric generating facility) in Cedar Rapids, Iowa. Both of these amounts have been included in the aggregate investment in EWGs and FUCOs identified in Part III.

Part I.

(a). Identify the company, its location and its business address. Describe the facilities used for the generation, transmission and distribution of electric energy for sale or for the distribution at retail of natural or manufactured gas. Identify each system company that holds an interest in the company and describe the interest held.
