Table Trac, Inc.
 SELECTED NOTES TO CONDENSED FINANCIAL STATEMENTS
 March 31, 2007

Note 1. Condensed Financial Statements:

The condensed balance sheet as of March 31, 2007, the condensed statement of operations and cash flows for the periods ended March 31, 2007 and 2006 have been prepared by the Company, without audit. In the opinion of management, all adjustments (which include normal recurring adjustments and adjustments to revenues for compliance with the company's revenue recognition policy) necessary to present fairly the financial position, results of operations and changes in cash flows at March 31, 2007 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2006 audited financial statements filed on form 10-KSB.

Note 2. Revenue Recognition:

Revenue from all customers is recognized when all significant contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. Generally, revenues are recognized upon installation, customer specifications have been met and title and risk of loss have transferred to the customer.

Software and maintenance revenue are invoiced and recognized monthly.

If a sale requires customer acceptance due to performance or other acceptance criteria included in the terms of the sale, revenue is recognized at the time of customer acceptance.

When a sale involves multiple elements, revenue is allocated to each respective element in accordance with Emerging Issues Task Force (EITF) 00-21 "Accounting for Revenue Arrangements with Multiple Deliverables." Allocation of revenue to undelivered elements of the arrangement is based on fair value of the element being sold on a stand-alone basis.

In certain instances, sales are collected under an installment payment plan, which are considered extended payment terms. In these situations, as the Company has determined and can support "a history of successfully collecting under the original payment terms without making concessions", the extended payment terms are considered fixed or determinable at the outset of the arrangement and accordingly revenue is recognized upon the delivery of the software, assuming that all other revenue recognition criteria have been met.

Customer advance deposits are recorded as deferred revenue until such time the associated revenue is recognized.

Note 3. Customer Concentration: 7 casino customers comprised 85% of the Company's revenues for the three months ended March 31, 2007. In the three months ended March 31, 2006 there were 6 casino customers over 85% of total revenue.

Note 4. Inventory:

The Companies inventories consisted of the following:

	March 31, 2007	December 31, 2006
Raw Materials	\$- 0 -	\$ - 0 -
Work-In-Process	\$34,816	\$8,950
Finished Goods	\$155,452	\$87,523
	\$190,268	\$ 96,473

Note 5. Stockholders' Equity:

Stock Options and Warrants

In October 2001, the Company implemented an Employee Stock Incentive Plan. This plan provides for the issuance of options to employees to purchase shares of the Company's common stock at an exercise price at least equal to the fair value of the Company's common stock at the grant date. These options are exercisable for a period of seven years from the date of grant. The Company has reserved 1,000,000 shares of its common stock for potential issuance under this plan. As of March 31, 2007, 507,500 stock options were available for grants.

Effective January 1, 2006 the Company adopted FASB Statement No. 123(R) "Share-Based Payment" (SFAS 123(R)), which requires an entity to reflect on its income statement, instead of pro forma disclosures in its financial footnotes, the cost of employee services received in exchange for an award of equity instruments based on the

Edgar Filing: TABLE TRAC INC - Form 10QSB

grant-date fair market value of the award. Statement 123(R) supersedes the Company's previous accounting under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" for periods beginning prior to December 31, 2005. The Company adopted SFAS 123(R) using the modified prospective transition method. All options granted prior to the adoption of SFAS 123(R) were fully vested and thus no related compensation expense will be recorded in the Company's financial statements. SFAS 123(R) requires companies to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's Statements of Operations. The Company recorded \$0 of related compensation expense for the three month periods ended March 31, 2007 and 2006 as no options were granted during the periods.

The Company uses the Black-Sholes-Merton ("Black Sholes") option-pricing model as a method for determining the estimated fair market value for employee stock awards. This is the same option-pricing model used in prior years to calculate pro forma compensation expense under SFAS 123 footnote disclosures. Compensation expense for employee stock awards is recognized on a straight-line basis over the vesting period of the award.

The following is a summary of all activity involving options for the three month period ended March 31, 2007:

	Outstanding Options	Weighted Average Exercise Price	Weighted Average Remaining Term	Aggregate Intrinsic Value
Balance, December 31, 2006	<u>475,000</u>	\$ 0.13		
Granted				
Exercised				
Cancelled				
Balance, March 31, 2007	<u>475,000</u>	\$ 0.13	<u>4.3</u>	<u>\$676,875</u>
Exercisable at March 31, 2007	<u>475,000</u>	\$ 0.13	<u>4.3</u>	<u>\$676,875</u>

The aggregate intrinsic value in the table represents the difference between the closing stock price on March 31, 2007 and the exercise price, multiplied by the number of in-the-money options that would have been received by the option holders had all option holders exercised their options on March 31, 2007.

Note 6. Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes"- an Interpretation of FASB Statement No. 109". (FIN No. 48"), which clarifies the accounting for uncertainty in income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. Additionally, FIN 48 provides guidance on derecognition, classification, interest, penalties, accounting in interim periods and disclosure related to uncertain income tax positions. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN No. 48 as of January 1, 2007 noting no material effect on its financial position, results of operations or cash flows.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS No. 157"). This standard clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing an asset or liability. Additionally, it establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. This standard is

effective for financial statements issued for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of this statement. We believe the adoption of SFAS No. 157 will not have a material impact on our consolidated financial position or results of operations.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Overview:

Table Trac, Inc. (the "Company" or "Table Trac") is a Nevada Corporation, formed on June 27, 1995, with principal offices in Minnetonka, Minnesota.

The Company has developed and patented (U.S. patent # 5,957,776) a proprietary information and management system (Table Trac) that automates and monitors the operations of casino table games. In addition to table games management, since 2000 Table Trac has been adding functionality developing related casino system modules for guest rewards and loyalty club, marketing analysis, guest service, promotions administration / management, vault/cage management and audit / accounting. All of these modules use Table Tracs simple to learn browser based interface.

In 2006, the Company launched new products in the areas of Class II S2S gaming communications and related Class II S2S support for promotions administration and management, gaming machine on-line accounting and management, gaming machine vault cage operations, touch screen customer service kiosks, guest service paging and wireless handheld communications. The Company believes that this development has greatly enhanced their opportunities for new system sales in the marketplace. The Company increased the backlog of system installations in process from \$1,196,000 at December 31, 2006 to \$1,616,000 at April 3, 2007, having delivered the second phase of its contract with Nicaragua in the first quarter and the addition of the Apache Fort Sill contract.

Results of Operations:

Revenues for the three months ended March 31, 2007 increased to \$204,031 from \$160,174 in 2006. The increase was primarily attributable to increased license and maintenance revenues compared to the prior period, approximately \$17,600, and the phase II Nicaragua system installed in the three months ended March 31, 2007. Cost of sales for the three months ended March 31 2007 increased to \$36,624 from \$21,984 for the comparable period ended March 31, 2006 as a result of the hardware costs associated with the Phase II Nicaragua install. Operating expenses for the three months ended March 31, 2007 increased to \$161,303 from \$153,055 in 2006. Consulting fees related to the S2S communications development totaling \$24,000 was primarily responsible for the increase in 2006 compared to 2005. Primarily a result of the aforementioned increase in revenue, net income before taxes increased to \$8,446 for the three months ended March 31, 2007 compared to net loss of \$14,865 for the three months ended March 31, 2006. The basic earnings (loss) per share was \$0.001 for the three months ended March 31, 2007, compared to \$(0.004) for the three months ended March 31, 2006.

At the end of the first quarter 2007, the Company had manufactured inventory in stock to complete its backlog, and had active system installations in process in 4 casinos.

Liquidity and Capital Resources:

Our cash balance at March 31, 2007 decreased to \$163,926 from \$307,371 at December 31, 2006 primarily due to expenditures for inventory to complete our backlog of system orders and the completion of our development for the Class II S2S communications to fulfill requirements for our Oklahoma casino sales. Net cash used in operations was (\$143,445) for the quarter ended March 31, 2007 versus cash provided by operations of \$145,556 for the quarter ended March 31, 2006. The decrease for the quarter ended March 31, 2007 as compared to the quarter ended March 31, 2006 was due to significant increases in accounts receivable and inventory and a decrease in deferred revenue.

There are no known trends, events or uncertainties that are likely to have a material impact on the short or long-term liquidity. The primary source of liquidity in both the short term and the long term will be system sales and the resulting license and maintenance fees from existing systems. Management has been able to manage its expenses and cash flow so that monthly obligations are satisfied by revenues from existing contracts. Management believes that the Company has adequate cash to meet its obligations and continue operations for both existing customer contracts and ongoing product development.

Off-Balance Sheet Arrangements

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with us is a party, under which we have: (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

Safe Harbor:

The Private Securities Litigation Reform Act of 1995 provides "safe harbor" for forward-looking statements. Certain information included in this Form 10-QSB and other materials filed or to be filed by the Company with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Company) contain statements that are forward-looking, such as statements relating to plans for sales and marketing, liquidity, and other business activities and developments. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company. These risks and uncertainties include, but are not limited to, dependence on a limited number of customers, general economic conditions, or changes in federal or state laws or regulations.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

None.

ITEM 2: Unregistered Sales of Equity Securities and Use of Proceeds

On March 13, 2007, we issued 10,000 shares of our common stock to a consultant in consideration for services received. In connection with this issuance, we relied upon the exemptions from registration provided by Section 4(2) of the Securities Act of 1933 and Rules 505 and 506 promulgated thereunder, since this was a private transaction, not involving any general solicitation and not constituting a public offering.

ITEM 3. CONTROLS AND PROCEDURES

As required by SEC rules, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures at the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

It should be noted that the Company does not have a formal audit committee. Its board of directors oversees the responsibilities of the audit committee. The board is fully aware that there is a lack of segregation of duties due to the small number of employees dealing with general administrative and financial matters. However, the board has determined that considering the employees involved and the control procedures in place, risks associated with such a lack of segregation are insignificant and the potential benefits of adding employees to clearly segregate duties does not justify the expenses associated with such increases at this time.

ITEM 4. Submission of Matters to a vote of Security Holders

None.

ITEM 5. Other Information

None.

ITEM 6. Exhibits and Reports on Form 8-K

None.

SIGNATURE

In accordance with the requirements of the Exchange Act, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECURITIES EXCHANGE ACT OF 1934
RULE 13a-14(a) OR 15d-14(a)**

I, Chad Hoehne, certify that:

1. I have reviewed and read this Quarterly Report on Form 10-QSB of Table Trac, Inc.;
2. Based on my knowledge, this Quarterly Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Quarterly Report;
3. Based on my knowledge, the financial statements and other financial information included in this Quarterly Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as

of, and for, the periods presented in this Quarterly Report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15e and 15(e)) for the registrant and have:

(a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervisions, to ensure that material information relating to the registrant is made known to us by others within those entities, particularly during the period in which this Quarterly Report is being prepared;

(b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Quarterly Report based on such evaluation; and

(c) disclosed in this Quarterly Report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and board of directors performing the equivalent functions of an audit committee:

(a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting; and
