NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands)

(Unaudited)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements include the accounts of Consolidated Graphics, Inc. and subsidiaries (collectively, the Company). All intercompany accounts and transactions have been eliminated. Such statements have been prepared in accordance with generally accepted accounting principles and the Securities and Exchange Commission's rules and regulations for reporting interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the accompanying unaudited consolidated financial statements have been included. Operating results for the three months ended June 30, 2002 are not necessarily indicative of future operating results. Balance sheet information as of March 31, 2002 has been derived from the 2002 annual audited consolidated financial statements of the Company. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-K for the fiscal year ended March 31, 2002, filed with the Securities and Exchange Commission in May 2002.

Basic earnings per share are calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share reflect net income divided by the weighted average number of common shares and dilutive stock options outstanding.

The consolidated statements of cash flows provide information about the Company's sources and uses of cash and exclude the effects of non-cash transactions. The following is a summary of total cash paid (received) for interest and income taxes:

	Three Months Ended June 30	
	2002	2001
<i>Cash Paid (Received) for:</i>

2. ACCOUNTING CHANGE

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

Effective April 1, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets*, which requires companies to discontinue amortizing goodwill and perform annual impairment tests to determine if the remaining balance of goodwill or other intangible assets should be reduced to estimated fair values. Prior to its adoption of SFAS No. 142, the Company periodically evaluated whether the remaining balance of goodwill was recoverable by assessing current and future levels of income and cash flows on an undiscounted basis, as well as other factors, such as business trends and general market conditions, in accordance with SFAS No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of*.

As of April 1, 2002, net goodwill balances attributable to each of the Company's reporting units were tested for impairment by comparing the fair value of each reporting unit to its carrying value. Under SFAS No. 142, fair value was determined using capitalization of earnings estimates and market valuation multiples for each reporting unit. Based on these impairment tests as of April 1, 2002, the Company recognized a transitional impairment charge of \$74,376, net of tax benefit totaling \$15,379, which is reflected as a cumulative effect of accounting change in the accompanying consolidated income statements.

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

The following unaudited pro forma financial data for the three months ended June 30, 2002 and 2001, are presented as if the provisions of SFAS No. 142 had been in effect for all periods presented:

3. ACQUISITIONS

During the three months ended June 30, 2002, the Company acquired the assets of S&S Graphics of Laurel, Maryland. To complete this acquisition, the Company paid cash totaling \$3,505. The allocation of the purchase price of the business acquired included current assets of \$3,627 and property and equipment of \$917, less current liabilities of \$1,039. Additionally, to satisfy certain liabilities of acquired businesses or pursuant to earnout agreements, the Company paid cash of \$833 during the three months ended June 30, 2002.

4. LONG-TERM DEBT

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

The following is a summary of the Company's long-term debt as of:

	June 30, 2002	March 31, 2002
Bank credit facilities	\$ 124,668	\$ 149,281
Term equipment notes	71,651	73,708
Other	10,660	10,748
	206,979	233,737
Less current portion	(19,983)	(19,877)
	\$ 186,996	\$ 213,860

The Company entered into a five-year \$225,000 senior secured credit facility (the Bank Credit Facility) with eleven banks in December 2000. The Bank Credit Facility is composed of a \$50,000 five-year term loan (the Term Loan), of which \$32,500 was outstanding at June 30, 2002, and a \$175,000 five-year revolving credit line (the Revolving Line), of which \$89,000 was outstanding at June 30, 2002. The Term Loan requires quarterly payments of \$2,500 each through September 30, 2005.

The proceeds of the Bank Credit Facility can be used to repay certain indebtedness, finance certain acquisitions, provide for working capital and general corporate purposes, and subject to certain restrictions, repurchase the Company's common stock. Borrowings outstanding under the Bank Credit Facility are secured by substantially all of the Company's assets other than real estate and certain equipment subject to term equipment notes and other financing. Borrowings under the Bank Credit Facility accrue interest, at the Company's option, at either (1) the London Interbank Offered Rate (LIBOR) plus a margin of 1.25% to 2.25%, or (2) an alternate base rate (based upon the greater of the agent bank's prime lending rate or the Federal Funds effective rate plus .50%) plus a margin of up to 1.00%. The Company is also required to pay a commitment fee on available but unused amounts ranging from .275% to .375% annually. The interest rate margin and the commitment fee are based upon the Company's ratio of Funded Debt to Pro Forma Consolidated EBITDA, as defined, redetermined quarterly. On June 30, 2002, borrowings outstanding under the Term Loan and the Revolving Line accrued interest at a weighted average rate of 4.16%.

The Company is subject to certain covenants and restrictions and must meet certain financial tests as defined in the Bank Credit Facility. The Company was in compliance with these covenants and financial tests at June 30, 2002. The Company obtained an amendment to its Bank Credit Facility which specifically provided that the goodwill impairment charge (see Note 2. Accounting Change) would not impact compliance with these covenants.

In addition, the Company entered into an auxiliary revolving credit facility (the Auxiliary Bank Facility) with a commercial bank expiring in February 2003. The Auxiliary Bank Facility is unsecured and has a maximum borrowing capacity of \$5,000. At June 30, 2002, borrowings outstanding under the Auxiliary Bank Facility totaled \$3,168 and accrued interest at 3.84%.

The term equipment notes consist primarily of term notes payable pursuant to printing equipment purchase and financing agreements between the Company and two printing equipment manufacturers. The agreements provide for fixed monthly payments over periods of either five or ten years and are secured by the purchased equipment. At June 30, 2002, outstanding borrowings under these agreements totaled \$67,020 and accrued interest at a weighted average rate of 7.76%. The remaining balance of term equipment notes totaling \$4,631 primarily consists of various secured debt obligations assumed by the Company in connection with certain prior year acquisitions. The Company is not subject to any significant financial covenants in connection with any of these equipment notes; however, the Bank Credit Facility places certain limitations on the amount of additional term note obligations the Company may incur in the future.

The Company's remaining debt obligations consist of a promissory note totaling \$5,172, industrial revenue bonds totaling \$4,810 and various other debt obligations totaling \$678. The Company does not have any significant financial covenants or restrictions associated with these debt obligations.

5. RECENT ACCOUNTING PRONOUNCEMENTS

Edgar Filing: CONSOLIDATED GRAPHICS INC /TX/ - Form 10-Q

SFAS No. 145, *Rescission of FASB Statement Nos. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*, was issued in April 2002. SFAS No. 145 amends existing authoritative pronouncements to make various technical corrections, clarify meanings, and describe their applicability under changed conditions. This statement requires that gains and losses from the extinguishment of debt be classified as extraordinary items only if they meet the criteria in Accounting Principles Board (APB) Opinion No. 30, *Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions*. SFAS No. 145 is effective for fiscal years beginning after May 15, 2002. Management does not believe that the adoption of SFAS No. 145 will have a material impact on its financial position or results of operations.

SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, was issued in July 2002 and must be adopted in fiscal years beginning after December 29, 2002. SFAS No. 146 requires that exit or disposal costs be recorded when they are incurred. The exit costs may be measured at fair value and the liability may be adjusted for changes in estimated cash flows. Management does not believe that the adoption of SFAS No. 146 will have a material impact on its financial position or results of operations.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion contains forward-looking information. Readers are cautioned that such information involves known and unknown risks and uncertainties, including those created by general market conditions, competition and the possibility that events may occur which limit the ability of the Company to maintain or improve its operating results and acquire additional printing businesses. Although the Company believes that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate, and there can be no assurance that the forward-looking statements included herein will prove to be accurate. The inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved. The Company expressly disclaims any duty to provide updates to these forward-looking statements, assumptions or other factors after the date of this Report on Form 10-Q to reflect the occurrence of events or circumstances or changes in expectations.

The following discussion of the financial condition and performance of the Company should be read in conjunction with the consolidated financial statements included herein and the consolidated financial statements and related notes and other detailed information regarding the Company included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2002 and other reports filed by the Company with the Securities and Exchange Commission. Operating results for the three months ended June 30, 2002 are not necessarily indicative of the results to be expected for the entire fiscal year ending March 31, 2003 or any periods thereafter.

Overview

Our Company is a leading national provider of commercial printing services with 66 printing facilities in 25 states and is recognized as the largest sheet-fed and half-web commercial printing company in the United States. We are focused on adding value to our operating companies by providing the financial and operational strengths, management support and technological advantages associated with a national organization. Our strategy currently includes the following initiatives to generate sales and profit growth:

- *Internal Sales Growth* In the midst of prevailing difficult industry conditions, we are seeking to use our competitive advantages to expand market share. We continue to pursue additional experienced sales professionals, invest in new equipment and technology, expand our national accounts program and develop complementary, value-added services.
- *Disciplined Acquisition Program* We selectively pursue opportunities to acquire well-managed printing businesses at reasonable prices.
- *Cost Savings* Because of our size and national presence, we leverage our economies of scale to purchase

supplies and equipment at preferential prices, and centralize various administrative services to generate cost savings.

- *Best Practices/Benchmarking* We provide a forum for our printing businesses to share their knowledge of technical processes and their best practices with one another, as well as benchmark financial and operational data to help our printing businesses identify and respond to changes in operating trends.
- *Leadership Development* Through our unique Leadership Development Program, we develop talent for future sales and management positions at our printing businesses.

Our printing operations maintain their own sales, estimating, customer service, prepress, production, postpress and accounting departments. Our corporate headquarters staff provides support to our printing

operations in such areas as human resources, purchasing and management information systems. We also maintain centralized treasury, risk management, tax and consolidated financial reporting activities.

The majority of our sales are derived from commercial printing services, which include electronic prepress, printing, finishing, storage and delivery of high quality, custom-designed products. Examples of such products include multicolor product and capability brochures, shareholder communications, catalogs, training manuals, point-of-purchase marketing materials and direct mail pieces. We also serve our customers by providing a variety of complementary services, including fulfillment and mailing services and print-related e-commerce software solutions and electronic media services through CGXmedia.

Most of our sales are generated by individual orders through commissioned sales personnel and, in some cases, pursuant to long-term contracts. We recognize revenue from these orders when we deliver the ordered products. To a large extent, continued engagement of our Company by our customers for successive jobs depends upon the customer's on-going satisfaction with the quality of services we provide. As such it is difficult for us to predict the number, size and profitability of printing jobs that we expect to produce for more than a few weeks in advance.

Our cost of sales mainly consists of raw materials consumed in the printing process, as well as labor and outside services. Paper cost is the largest component of our materials cost; however, fluctuations in paper prices generally do not significantly impact our operating margins because any changes in paper pricing are generally passed on by our printing businesses. Additionally, our cost of sales includes maintenance, repair, rental and insurance costs associated with operating our facilities and equipment, along with depreciation charges.

Our selling expenses generally include the salary and commissions paid to our sales professionals or third-party sales agents, along with promotional, travel and entertainment costs. Our general and administrative expenses generally include the salary and benefits paid to support personnel at our printing businesses and our corporate staff. These expenses also include office rent and utilities, communications expenses and professional fees.

Results of Operations

The following table sets forth the Company's historical consolidated income statements for the periods indicated:

	Three Months Ended June 30		As a Percentage of Sales Three Months Ended June 30

Income taxes	3.0	3.4	1.7	2.1
Income before accounting change	\$ 5.1	\$ 5.1	2.9%	3.1%

Quarter Ended June 30, 2002 Compared with Quarter Ended June 30, 2001

Our sales increased 7% to \$176.1 million primarily due to the incremental impact of three businesses acquired during the quarter ended March 31, 2002 and one business acquired during the quarter ended June 30, 2002. Further, our sales increase demonstrates the initial return on our efforts to expand market share through our recruiting program for experienced sales professionals.

Our gross profit margin decreased to 24.7% from 26.7% a year ago, reflecting continued pricing pressures caused by the current economic weakness and prevailing negative industry conditions. Further, the profit margins of acquired businesses generally are lower than our Company's historical average and typically improve over time as we work with the management of the acquired businesses to implement cost savings strategies and other operating best practices.

The increase in selling expenses to 11.0% of sales, as compared to 10.4% last year, is attributable to our continued investments in recruiting and hiring new sales professionals, coupled with our ongoing marketing efforts to promote our extensive printing capabilities and complementary services, particularly those available through CGXmedia.

Our general and administrative costs increased 6% to \$13.0 million due primarily to the incremental impact of the recently acquired businesses. However, as a percentage of sales, general and administrative costs for the current quarter improved slightly to 7.4% as compared to 7.5% last year (excluding amortization of goodwill recorded in the prior comparable period).

Our interest expense has declined 38% to \$2.9 million and reflects lower borrowings outstanding under our variable-rate bank credit facility, coupled with a more favorable interest rate environment as compared to the same period a year ago.

Effective April 1, 2002, we adopted Statement of Financial Accounting Standards (SFAS) No. 142 which required us to perform a series of transitional impairment tests pertaining to the valuation of our outstanding goodwill balance, which totaled \$199.3 million as of March 31, 2002. Pursuant to the adoption of SFAS No. 142, we determined that an after-tax impairment charge of \$74.4 million was required, and such charge has been classified as the cumulative effect of an accounting change as provided for by the new accounting standard. Further, under SFAS No. 142, we are no longer required to amortize the remaining outstanding goodwill balance, but are required to perform annual impairment tests to determine if the remaining balance of goodwill should be reduced to estimated fair values. As a result of discontinuing goodwill amortization, we reduced our overall effective tax rate to 38% in the current quarter from 40% in the prior year. The higher tax rate of 40% in fiscal 2002 was necessary to provide for the effect of the portion of goodwill amortization that was not deductible for tax purposes.

Liquidity and Capital Resources

Sources and Uses of Cash

Our Company's historical sources of cash have primarily been cash provided by operations or borrowings under our bank credit facilities. Our Company's historical uses of cash have been for capital expenditures, acquisitions of printing businesses and payment of principal and interest on outstanding debt obligations. Supplemental information pertaining to our historical sources and uses of cash is presented as follows and should be read in conjunction with our consolidated statements of cash flows and notes thereto included in *Item 1. Financial Statements:*

	Three Months Ended June 30	
	2002	2001
	(In millions)	
Net cash provided by operating activities	\$ 35.5	\$ 12.2
Acquisitions of businesses	(4.3)	(1.5)
Other capital expenditures	(4.4)	(3.1)
Net repayments under bank credit facilities	(24.6)	(9.5)
Payments on term equipment notes and other debt	(2.1)	(2.1)

Additionally, our cash position, working capital and debt obligations are shown below for the periods indicated and should be read in conjunction with our consolidated balance sheets and notes thereto included in *Item 1. Financial Statements*:

	June 30,	March 31,
	2002	2002
	(In millions)	
Cash and cash equivalents	\$ 9.6	\$ 9.0
Working capital	74.1	85.0
Total debt obligations	207.0	233.7

We believe that our cash flow from operations will be adequate to cover our fiscal 2003 working capital needs, debt service requirements and planned capital expenditures. However, we may elect to supplement our capital expenditure requirements through borrowings under our bank credit facilities or the issuance of additional term notes.

We intend to continue pursuing acquisition opportunities at prices we believe are reasonable based upon market conditions. However, we cannot accurately predict the timing, size and success of our acquisition efforts or our associated potential capital commitments. There can be no assurance that we will be able to acquire additional businesses on terms acceptable to us.

We expect to fund future acquisitions through cash flow from operations, additional borrowings or the issuance of our common stock. The extent to which we will be willing or able to use our common stock to make acquisitions will depend on its market value from time to time and the willingness of potential sellers to accept it as full or partial payment.

Debt Obligations

We entered into a five-year \$225.0 million senior secured credit facility (the *Bank Credit Facility*) with eleven banks in December 2000. The *Bank Credit Facility* is composed of a \$50.0 million five-year term loan (the *Term Loan*), of which \$32.5 million was outstanding at June 30, 2002, and a \$175.0 million five-year revolving credit line (the *Revolving Line*), of which \$89.0 million was outstanding at June 30, 2002. The *Term Loan* requires quarterly payments of \$2.5 million each through September 30, 2005.

The proceeds of the *Bank Credit Facility* can be used to repay certain indebtedness, finance certain acquisitions, provide for working capital and general corporate purposes and, subject to certain restrictions, repurchase our common stock. Borrowings outstanding under the *Bank Credit Facility* are secured by substantially all of our assets other than real estate and certain equipment subject to term equipment notes and other financings. Borrowings under the *Bank Credit Facility* accrue interest, at our option, at either (1) the London Interbank Offered Rate (LIBOR) plus a margin of 1.25% to 2.25%, or (2) an alternate base rate (based upon the greater of the agent bank's prime lending rate or the Federal Funds effective rate plus .50%) plus a margin of up to 1.00%. We are also required to pay a commitment fee on available but unused amounts ranging from .275% to .375% annually. The interest rate margin and the commitment fee are based upon our ratio of Funded Debt to Pro Forma Consolidated EBITDA, as defined, redetermined quarterly. On June 30,

2002, borrowings outstanding under the Term Loan and the Revolving Line accrued interest at a weighted average rate of 4.16%.

Our Company is subject to certain covenants and restrictions and we must meet certain financial tests as defined in the Bank Credit Facility. We were in compliance with these covenants and financial tests at June 30, 2002. The Company obtained an amendment to its Bank Credit Facility which specifically provided that the goodwill impairment charge (see Note 2. Accounting Change) would not impact compliance with these covenants.

In addition, we entered into an auxiliary revolving credit facility (the Auxiliary Bank Facility) with a commercial bank expiring in February 2003. This Auxiliary Bank Facility is unsecured and has a maximum borrowing capacity of \$5.0 million. At June 30, 2002, borrowings outstanding under the Auxiliary Facility totaled \$3.2 million and accrued interest at a rate of 3.84%.

We have agreements with two printing equipment manufacturers, pursuant to which we receive certain volume purchase incentives and long-term financing options with respect to our purchases of printing presses and other equipment. At June 30, 2002, outstanding borrowings under these agreements totaled \$67.0 million and accrued interest at a weighted average rate of 7.76%. The agreements provide for fixed monthly payments over periods of either five or ten years and are secured by the purchased equipment. We have additional term equipment notes totaling \$4.6 million, which primarily consist of various secured debt obligations we assumed in connection with certain prior year acquisitions. We are not subject to any significant financial covenants in connection with these term equipment notes; however, the Bank Credit Facility places certain limitations on the amount of additional term note obligations we may incur in the future.

Our other debt obligations consist of a promissory note totaling \$5.2 million, industrial revenue bonds totaling \$4.8 million and various other debt obligations totaling \$.7 million. We do not have any significant financial covenants or restrictions associated with these debt obligations.

Other Commitments

We have entered into various noncancelable operating leases primarily related to facilities and equipment used in the ordinary course of our business. Our future contractual obligations under such operating leases total approximately \$40.0 million as of June 30, 2002.

In connection with our assumption of obligations under outstanding industrial revenue bonds related to the acquisition of two printing businesses, which are reflected as outstanding debt obligations in our consolidated financial statements, we had two letters of credit outstanding for a combined total of \$5.5 million as of June 30, 2002. These letters of credit were issued pursuant to the terms of our Bank Credit Facility, which expires in December 2005, and we may be required to obtain replacement letters of credit at that time.

We have entered into earnout agreements in connection with certain prior year acquisitions. If the acquired printing businesses generate operating profits in excess of pre-determined targets, we may be obligated to issue additional shares of our common stock or make additional cash payments. As of June 30, 2002, we were contingently obligated through fiscal 2005 to issue up to 61,053 shares of our common stock and make additional cash payments of up to \$7.0 million for all periods in the aggregate. Based on current operating levels, we expect that the issuance of shares and actual payments pursuant to these obligations will be substantially less than the maximum amounts indicated.

Factors Which May Affect Future Results

Our future operating results may be impacted by a number of factors, including general economic conditions and competitive factors in our industry, seasonal and cyclical variations in commercial printing demand, reasonable growth in the demand for our products and retention of key

management and operating

personnel. The magnitude and timing of any future acquisitions, as well as our ability to absorb and manage such businesses, will also impact our future results. Because of these and other factors, there can be no assurance that we will not experience material fluctuations in our future operating results or cash flows on a quarterly or annual basis.

Critical Accounting Policies

We have identified our critical accounting policies based on the following factors: significance to our overall financial statement presentation, complexity of the policy and its use of estimates and assumptions. We are required to make certain estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent liabilities and the reported amounts of revenues and expenses. We evaluate our estimates and assumptions on an ongoing basis and rely on historical experience and various other factors that we believe to be reasonable under the circumstances to determine such estimates. Because uncertainties with respect to estimates and assumptions are inherent in the preparation of financial statements, actual results could differ from these estimates.

We maintain an allowance for doubtful accounts as deemed necessary based upon expected collectibility of accounts receivable. We exercise judgment in determining the valuation and useful lives of our long-lived assets, primarily property/equipment and goodwill. We also determine the realization of long-lived assets by assessing the future cash flows and income from such assets on an undiscounted basis, as well as other factors such as business trends and general economic conditions. We are self-insured for the majority of our workers' compensation costs and group health insurance costs, and we rely on claims experience and the advice of our administrators and consulting actuaries in determining an adequate liability for self-insurance claims. Finally, we utilize certain estimates and assumptions in our determination and allocation of the purchase price for acquisitions and in determining accruals for current and deferred income taxes.

Recent Accounting Pronouncements

SFAS No. 145, *Rescission of FASB Statement Nos. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*, was issued in April 2002. SFAS No. 145 amends existing authoritative pronouncements to make various technical corrections, clarify meanings, and describe their applicability under changed conditions. This statement requires that gains and losses from the extinguishment of debt be classified as extraordinary items only if they meet the criteria in Accounting Principles Board (APB) Opinion No. 30, *Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions*. SFAS No. 145 is effective for fiscal years beginning after May 15, 2002. Management does not believe that the adoption of SFAS No. 145 will have a material impact on its financial position or results of operations.

SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, was issued in July 2002 and must be adopted in fiscal years beginning after December 29, 2002. SFAS No. 146 requires that exit or disposal costs be recorded when they are incurred. The exit costs may be measured at fair value and the liability may be adjusted for changes in estimated cash flows. Management does not believe that the adoption of SFAS No. 146 will have a material impact on its financial position or results of operations.

ITEM 3. Quantitative and Qualitative Disclosure About Market Risk

Market risk generally means the risk that losses may occur in the value of certain financial instruments as a result of movements in interest rates, foreign currency exchange rates and commodity prices. We do not hold or utilize derivative financial instruments which could expose our Company to significant market risk. However, we are exposed to market risk for changes in interest rates related primarily to our bank credit facilities. As of June 30, 2002, there were no material changes in our market risk or the estimated fair value of our debt obligations relative to their recorded value, as reported in our Annual Report on Form 10-K for the fiscal year ended March 31, 2002.
