Note 15 - US generally accepted accounting principles

The consolidated financial statements of the BP Group are prepared in accordance with International Financial Reporting Standards (IFRS) which differ in certain respects from US generally accepted accounting principles (US GAAP). The principal differences between US GAAP and IFRS for BP Group reporting relate to the following:

(i) Deferred taxation/business combinations

IFRS requires the recognition of a deferred tax asset or liability for the tax effects of differences between the assigned values and the tax bases of assets acquired and liabilities assumed in a business combination. This adjustment is offset by an equivalent adjustment to goodwill or, on first-time adoption of IFRS, in retained earnings. Under US GAAP, the adjustment is reflected in the carrying value of the asset or liability concerned.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004
	(\$ million)			
Depreciation, depletion and amortization	62	135	83	292
Taxation	5	10	68	(287)
Profit for the period	(67)	(145)	(151)	(5)

	At June 30, 2005 (Unaudited)	At December 31, 2004 (Unaudited)
	(\$ million)	
Property, plant and equipment	3,969	4,052
Deferred tax liabilities	1,557	1,489
BP shareholders' equity	2,412	2,563

(ii) Provisions

IFRS requires provisions for decommissioning, environmental liabilities and onerous contracts to be determined on a discounted basis if the effect of the time value of money is material. The provisions for decommissioning and environmental liabilities are estimated using costs based on current prices and discounted using real discount rates. Unwinding of the discount and the effect of a change in the discount rate is included in other finance expense in the period. When a decommissioning provision is set up, an item of property, plant and equipment of the same amount is also recognized and is subsequently depreciated as part of the capital costs of the facilities.

Edgar Filing: - Form

US GAAP requires companies to record liabilities equal to the fair value of their asset retirement obligations when they are incurred (typically when the asset is installed at the production location). When the liability is initially recorded, companies capitalize an equivalent amount as part of the cost of the asset. Over time the liability is accreted for the change in its present value each period, and the initial capitalized cost is depreciated over the useful life of the related asset. Unwinding of the discount is included in operating profit for the period.

The provisions for decommissioning under US GAAP are set up on a similar basis to IFRS except that estimated future cash outflows are discounted using a credit-adjusted risk-free rate rather than a real discount rate.

Under US GAAP environmental liabilities are discounted only where the timing and amounts of payments are fixed and reliably determinable.

In addition, use of different oil and natural gas reserve volumes (see (iii)) results in different field lives and hence different decommissioning provisions under IFRS and US GAAP.

Edgar Filing: - Form

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004
	(\$ million)			
Production and manufacturing expenses	(133)	23	(99)	85
Other finance expense	(50)	(50)	(95)	(98)
Taxation	72	(6)	76	(7)
Profit for the period	111	33	118	20

	At June 30, 2005 (Unaudited)	At December 31, 2004 (Unaudited)
	(\$ million)

Provisions	(1,598)	(1,454)
Deferred tax liabilities	(7)	(76)
BP shareholders' equity	(30)	(137)

The following data summarizes the movements in the asset retirement obligations, as adjusted to accord with US GAAP, for the six months ended June 30, 2005.

	(Unaudited) (\$ million)
At January 1, 2005	3,898
Exchange adjustments	(7)
New provisions/adjustment to provisions	(165)
Unwinding of discount	78
Utilized/deleted	(119)
At June 30, 2005	3,685

(iii) Oil and natural gas reserve differences

The US Securities and Exchange Commission (SEC) rules for estimating oil and natural gas reserves are different in certain respects from the UK Statement of Recommended Practice – Accounting for Oil and Gas Exploration, Development, Production and Decommissioning Activities (SORP); in particular, the SEC requires the use of year-end prices, whereas under the SORP the Group uses long-term planning prices. Any consequent difference in reserve volumes results in different charges for depreciation, depletion and amortization between IFRS and US GAAP.

Edgar Filing: - Form

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004

	(\$ million)	
Property, plant and equipment	66	48
Deferred tax liabilities	25	18
BP shareholders' equity	41	30

(iv) Sale and leaseback

The sale and leaseback of an office building in Chicago, Illinois in 1998 was treated as a sale for IFRS whereas for US GAAP it was treated as a financing transaction. The remaining interest in this building was sold in January 2003.

Provisions were recognized under IFRS in 1999 and 2002 to cover the likely shortfall on rental income from subletting the Chicago office building. As the original sale and leaseback was not treated as a sale for US GAAP the provision was reversed for US GAAP. Following the disposal of the building a provision has now been recognized for US GAAP.

Under IFRS the profit arising on the sale and operating leaseback of certain railcars in 1999 was taken to income in the period in which the transaction occurred. Under US GAAP this profit is being amortized over the term of the operating lease.

The adjustments to profit for the period and BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004
	(\$ million)

	(\$ million)	
Other payables	19	21
Provisions	46	45
Deferred tax liabilities	(24)	(23)
BP shareholders' equity	(41)	(43)

(v) **Goodwill and intangible assets**

There are two main differences in the basis for determining goodwill between IFRS and US GAAP which result in the amount of goodwill for US GAAP reporting differing from the amount recognized under IFRS.

Goodwill represents the difference between the consideration paid in an acquisition and the fair value of the assets and liabilities acquired. Where shares are issued in connection with an acquisition IFRS requires that the shares issued be valued at the time the public offer becomes unconditional. For US GAAP, the consideration is determined at the date the offer is made.

Under US GAAP, goodwill and indefinite lived intangible assets have not been amortized since December 31, 2001, rather such assets are subject to periodic impairment testing. The Group does not have any other intangible assets with indefinite lives. Under IFRS, goodwill amortization ceased from January 1, 2003.

During the fourth quarter of 2004 the Group completed a goodwill impairment review using the two-step process prescribed in US GAAP. The first step includes a comparison of the fair value of a reporting unit to its carrying value, including goodwill. Where the carrying value exceeds the fair value, the goodwill of the reporting unit is potentially impaired and the second step is then completed in order to measure the impairment loss, if any. No impairment charge resulted from this review. For the purposes of this impairment review the reporting unit is one level below an operating segment.

The adjustments to BP shareholders' equity to accord with US GAAP are summarized below.

	At June 30, 2005 (Unaudited)	At December 31, 2004 (Unaudited)
	(\$ million)	
Goodwill	193	224
BP shareholders' equity	193	224

In accordance with Group accounting practice, exploration licence acquisition costs are capitalized initially as an intangible fixed asset and are amortized over the estimated period of exploration. Where proved reserves of oil or natural gas are determined and development is sanctioned, the unamortized cost is transferred to property, plant and equipment. Where exploration is unsuccessful, the unamortized cost is charged against income. At June 30, 2005 and December 31, 2004, exploration licence acquisition costs included in the Group's property, plant and equipment and intangible fixed assets, net of accumulated amortization, were as follows.

	At June 30, 2005 (Unaudited)	At December 31, 2004 (Unaudited)
	(\$ million)	

Edgar Filing: - Form

Exploration licence acquisition cost included in fixed assets (net of accumulated amortization)		
Property, plant and equipment	1,160	1,100
Other intangible assets	585	595

Edgar Filing: - Form

Changes to exploration expenditure, goodwill and other intangible assets, as adjusted to accord with US GAAP, during the six months ended June 30, 2005 are shown below.

	Exploration expenditure	Goodwill	Additional minimum pension liability (see (xi)) (Unaudited) (\$ million)	Other intangibles	Total
Net book amount					
At January 1, 2005	3,761	11,535	39	443	15,778
Amortization expense	(101)			(32)	(133)
Other movements	199	(308)		248	139
At June 30, 2005	3,859	11,227	39	659	15,784

Amortization expense relating to other intangibles is expected to be in the range \$60-\$80 million in each of the succeeding five years.

(vi) **Derivative financial instruments and hedging activities**

US GAAP requires that all derivative instruments be recorded on the balance sheet at their fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is designated as part of a hedge transaction and, if it is, the type of hedge transaction. To the extent that certain criteria are met, hedge accounting is permitted but not required.

In the normal course of business the Group is a party to derivative financial instruments with off-balance sheet risk, primarily to manage its exposure to fluctuations in foreign currency exchange rates and interest rates, including management of the balance between floating rate and fixed rate debt. The Group also manages certain of its exposures to movements in oil and natural gas prices. In addition, the Group trades derivatives in conjunction with these risk management activities.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004

Trade and other payables		718
Deferred tax liabilities	46	(108)
BP shareholders' equity	221	(315)

(vii) **Inventory valuation**

US GAAP requires trading inventories to be accounted for at historical cost. The Group marks trading inventories to market at the balance sheet date. As such, an IFRS/US GAAP difference arises which impacts both profit for the period and BP shareholders' equity due to the difference in inventory valuations.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004

	(\$ million)	
Inventories	(293)	100
Deferred tax liabilities	(103)	35
BP shareholders' equity	(190)	65

(viii) **Gain arising on asset exchange**

Under IFRS, nonmonetary exchanges of assets are accounted for at fair value at the date of the transaction, with any gain or loss recognized in income. From January 1, 2005 the treatment of gains arising on nonmonetary exchanges of assets under IFRS and US GAAP is similar. In 2000, BP agreed to a value-neutral transaction with its partners in the Prudhoe Bay field in Alaska whereby it received an increase in its natural gas interest in return for a reduction in its share of liquids production. Under US GAAP this transaction was recorded at net book value, with no resulting gain or loss.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004
	(\$ million)

	(\$ million)	
Property, plant and equipment	377	386
Deferred tax liabilities	132	135
BP shareholders equity	245	251

(ix) **Pensions and other postretirement benefits**

Under IFRS, surpluses and deficits of funded schemes for pensions and other postretirement benefits are included in the Group balance sheet at their fair values and all movements are reflected in the income statement, except for actuarial gains and losses which are reflected in the statement of recognized income and expenses. This contrasts with US GAAP under which actuarial gains and losses are not recognized as they occur but are recognized systematically and gradually over subsequent periods. Where a pension plan has an unfunded accumulated benefit obligation, US GAAP requires such amount to be recognized as a liability in the balance sheet. The adjustment resulting from the recognition of any such minimum liability, including the elimination of amounts previously recognized as a prepaid benefit cost, is reported as an intangible asset to the extent of unrecognized prior service cost with the remaining amount reported in comprehensive income.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		Six months ended June 30 (Unaudited)	
	2005	2004	2005	2004

Defined benefit pension plan and other postretirement benefit plan deficits	(9,757)	(10,339)
Deferred tax liabilities	1,956	2,315
BP shareholders' equity	3,820	4,089

(x) **Impairments**

Under IFRS, in determining the amount of any impairment loss, the carrying value of fixed assets and goodwill is compared with the discounted value of the future cash flows. Under US GAAP an initial step is required whereby the carrying value is compared with the undiscounted future cash flows, and only if the carrying value is less than the undiscounted cash flows is an impairment loss recognized. Certain of the impairment charges recognized under IFRS have been reversed for US GAAP.

The adjustments to profit for the period and to BP shareholders' equity to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	Three months ended June 30 (Unaudited)		(\$ million)	Six months ended June 30 (Unaudited)	
	2005	2004		2005	2004

Investments in jointly controlled entities	48		212
BP shareholders' equity	48		212

(xiii) Investments

Under IFRS for periods prior to 2005, certain equity investments are reported as either current or noncurrent investments and carried on the balance sheet at cost subject to review for impairment. For US GAAP these investments are classified as available-for-sale securities. Consequently, they are reported at fair value, with unrealized holding gains and losses, net of tax, reported in accumulated other comprehensive income. If a decline in fair value below cost is other than temporary the unrealized loss is accounted for as a realized loss and charged against income.

The Group sold its investments in Petrochina and Sinopec in January and February 2004, respectively, resulting in a gain on disposal of \$1,314 million. For the six months ended June 30, 2004 gains of \$1,165 million were reclassified from comprehensive income to net income.

The adjustments to accumulated other comprehensive income (BP shareholders' equity) to accord with US GAAP are summarized below.

Increase (decrease) in caption heading	At June 30, 2005 (Unaudited)	At December 31, 2004 (Unaudited)
	(\$ million)	
Fixed assets - other investments		344
Deferred tax liabilities		117
BP shareholders' equity		227

(xiv) Consolidation of variable interest entities

In January 2003, the FASB issued FASB Interpretation No. 46 - Consolidation of Variable Interest Entities (Interpretation 46). Interpretation 46 clarifies the application of existing consolidation requirements to entities where a controlling financial interest is achieved through arrangements that do not involve voting interests. Under Interpretation 46, a variable interest entity is consolidated if a company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns.

The Group currently has several ships under construction which are accounted for under IFRS as operating leases. Under Interpretation 46 certain of the arrangements represent variable interest entities that would be consolidated by the Group. The maximum exposure to loss as a result of the Group's involvement with these entities is limited to the debt of the entity, less the fair value of the ships at the end of the lease term.

The adoption of Interpretation 46 did not have a significant effect on profit, as adjusted to accord with US GAAP. The adjustments to BP shareholders' equity to accord with US GAAP are summarized below.

Cash flow hedges	(146)	
Pension liability adjustment	(1,115)	(1,115)
Accumulated comprehensive income	956	3,473

Impact of new US accounting standards

Inventory: In November 2004, the FASB issued Statement of Financial Accounting Standards No. 151 Inventory Costs an amendment of ARB No. 43, Chapter 4 (SFAS 151). SFAS 151 requires that items, such as idle facility expense, excessive spoilage, double freight and re-handling costs, be recognized as current-period charges. SFAS 151 also requires that the allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for accounting periods beginning after June 15, 2005. The adoption of SFAS 151 is not expected to have a significant effect on the Group's profit, as adjusted to accord with US GAAP, or BP shareholders' equity as adjusted to accord with US GAAP.

Discontinued operations: In November 2004, the EITF reached a consensus on Issue No. 03-13 Applying the Conditions in Paragraph 42 of FASB Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, in Determining Whether to Report Discontinued Operations (EITF 03-13). Under EITF 03-13, a disposed component of an enterprise is classified as a discontinued operation only where the ongoing entity has no continuing direct cash flows and does not retain an interest, contract or other arrangement sufficient to enable the entity to exert significant influence over the disposed component's operating and financial policies after disposal. EITF 03-13 is effective for a component of an enterprise that is either disposed of or classified as held for sale in accounting periods beginning after December 15, 2004.

Revenue: In November 2004, the EITF began discussion of Issue No. 04-13 Accounting for Purchases and Sales of Inventory with the Same Counterparty (EITF 04-13). EITF 04-13 addresses accounting issues that arise when a company both sells inventory to and buys inventory from another entity in the same line of business. The purchase and sale transactions may be pursuant to a single contractual arrangement or separate contractual arrangements and the inventory purchased or sold may be in the form of raw material, work-in-process or finished goods. At issue is whether the revenue, inventory cost and cost of sales should be recorded at fair value or whether the transactions should be classified as nonmonetary transactions. The EITF has reached a tentative conclusion that inventory purchase and sale transactions with the same counterparty that are entered into contemplation of one another should be accounted for as nonmonetary transactions. The EITF plans to discuss EITF 04-13 further.

Practice within the oil and natural gas industry varies for buy/sell arrangements with common counter parties and physical exchanges. The Group accounts for buy/sell arrangements and physical exchanges on a net basis.

Nonmonetary asset exchanges: In December 2004, the FASB issued Statement of Financial Accounting Standards No. 153 Exchanges of Nonmonetary Assets an amendment of APB Opinion No. 29 (SFAS 153). SFAS 153 eliminates the Accounting Principles Board Opinion No. 29 exception for nonmonetary exchanges of similar productive assets and replaces it with an exception for exchanges of nonmonetary assets that do not have commercial substance. SFAS 153 is effective for nonmonetary asset exchanges occurring in accounting periods beginning after June 15, 2005. The Group adopted SFAS 153 with effect from January 1, 2005. The adoption of SFAS 153 did not have a significant effect on the Group's profit, as adjusted to accord with US GAAP, or BP shareholders' equity, as adjusted to accord with US GAAP.

Share options: In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123 (revised 2004) Share-Based Payment (SFAS 123R). SFAS 123R, which is a revision of Statement of Financial Accounting Standards No. 123 Accounting for Stock-Based Compensation (SFAS 123), supersedes APB Opinion No. 25 Accounting for Stock Issued to Employees. Under SFAS 123R, share-based payments to employees and others are required to be recognized in the income statement based on their fair value. Pro forma disclosure is no longer a permitted alternative.

Edgar Filing: - Form

Effective January 1, 2005, as part of the adoption of IFRS, the Group adopted International Financial Reporting Standard 2 Share-based Payment (IFRS 2). IFRS 2 requires the recognition of expense when goods or services are received from employees or others in consideration for equity instruments or amounts that are based on the value of an entity's equity instruments. The recognition and measurement provisions of IFRS 2 are similar to those of SFAS 123R.

In adopting IFRS 2, the Company elected to restate prior period results to recognize the expense associated with equity-settled share-based payment transactions that were not fully vested as January 1, 2003 and the liability associated with cash-settled share-based payment transactions as of January 1, 2003.

The Group adopted SFAS 123R with effect from January 1, 2005.

Taxation: In December 2004, the FASB issued Staff Position No. 109-1 Application of FASB Statement No. 109, Accounting for Income Taxes, to the Tax Deduction on Qualified Production Activities Provided by the American Jobs Creation Act of 2004 (FSP 109-1). FSP 109-1, effective upon issuance, requires that the manufacturers' deduction provided for under the American Jobs Creation Act of 2004 (the Jobs Creation Act) be accounted for as special deduction in accordance with FASB Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes, rather than a tax rate reduction. The manufacturers' deduction will be recognized by the Company in the year the benefit is earned.

In December 2004, the FASB issued Staff Position No. 109-2 Accounting and Disclosure Guidance for the Foreign Earnings Repatriation Provision within the American Jobs Creation Act of 2004 (FSP 109-2). The Jobs Creation Act provides a special one-time provision allowing earnings of certain non US companies to be repatriated to a US parent company at a reduced tax rate. FSP 109-2, effective upon issuance, permits additional time beyond the financial reporting period of enactment in order to evaluate the effect of the Jobs Creation Act without undermining an entity's assertion that repatriation of non US earnings to a US parent company is not expected within the foreseeable future. As provided by FSP 109-2, the Group has elected to defer a decision on potentially altering current plans regarding the permanent reinvestment in certain non US subsidiaries and corporate joint ventures. The income tax effects associated with any repatriation of unremitted earnings as a result of the Jobs Creation Act cannot be reasonably estimated at this time.

Provisions: In March 2005, the FASB issued FASB Interpretation No. 47 Accounting for Conditional Asset Retirement Obligations an interpretation of FASB Statement No. 143 (Interpretation 47). Under Interpretation 47, a conditional asset retirement obligation represents an unconditional obligation to perform an asset retirement activity where the timing or method of settlement is conditional on a future event that may or may not be within the control of the entity. Interpretation 47 clarifies that an entity is required to recognize a liability, when incurred, for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. Uncertainty about the timing or method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. SFAS 143 acknowledges that in some cases, sufficient information may not be available to reasonably estimate the fair value of an asset retirement obligation. Interpretation 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. Interpretation 47 is effective for fiscal years ending after December 15, 2005. While the Group has not yet completed its evaluation of the impact of adopting Interpretation 47 on the Group's profit, as adjusted to accord with US GAAP, or BP shareholders' equity as adjusted to accord with US GAAP.

Fixed assets: FASB Statement of Financial Accounting Standards No. 19 Financial Accounting and Reporting by Oil and Gas Producing Companies (SFAS 19) requires the cost of drilling an exploratory well (exploration or exploratory-type stratigraphic test wells) to be capitalized pending determination of whether the well has found proved reserves. If this determination cannot be made at the conclusion of drilling, SFAS No. 19 sets out additional requirements for continuing to carry the cost of the well as an asset. These requirements include firm plans for further drilling and a one-year time limitation on continued capitalization in certain situations. Subsequent to the issuance of SFAS 19, as a result of the increasing complexity of oil and gas projects due to drilling in remote and deepwater offshore locations, entities increasingly require more than one year to complete all of the activities that permit recognition of proved reserves. In addition, because of new technologies, in certain situations additional exploratory wells may no longer be required before a project can commence.

In April 2005, the FASB issued Staff Position No. 19-1 Accounting for Suspended Well Costs (FSP 19-1). FSP 19-1 amends SFAS 19 to permit the continued capitalization of exploratory well costs beyond one year if (a) the well found a sufficient quantity of reserves to justify its completion as a producing well and (b) the entity is making sufficient progress assessing the reserves and the economic and operating viability of the project. If either condition is not met, or if an entity obtains information that raises substantial doubt about the economic or operational viability of the project, the exploratory well is assumed to be impaired, and its costs, net of any salvage value, is charged to expense. FSP 19-1 provides a number of indicators that would be considered in order to demonstrate that sufficient progress was being made in assessing the reserves and the economic viability of the project. FSP 19-1 is effective for accounting periods beginning after April 4, 2005. Early application of the guidance is permitted in periods for which financial statements have not yet been issued.

BP's accounting policy is that costs directly associated with an exploration well are capitalized as an intangible asset until the drilling of the well is complete and the results have been evaluated. If hydrocarbons are found, and, subject to further appraisal activity which may include the drilling of further wells (exploration or exploratory-type stratigraphic test wells), are likely to be capable of commercial development, the costs continue to be carried as an asset. All such carried costs are subject to technical, commercial and management review at least once a year to confirm the continued intent to develop or otherwise extract value from the discovery. When this is no longer the case, the costs are written off. When proved reserves of oil and natural gas are determined and development is sanctioned, the relevant expenditure is transferred to property, plant and equipment. BP has adopted the FSP with effect from January 1, 2004. No previously capitalized costs were expensed upon the adoption of the FSP.

Accounting changes and error corrections: In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154 Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3 (SFAS 154). SFAS 154 applies to all voluntary changes in accounting principle and changes the requirements for the accounting for and reporting of a change in accounting principle. SFAS 154 requires retrospective application to prior period financial statements of a voluntary change in accounting principle unless it is impracticable. Previously, most voluntary changes in accounting principle were recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS 154 also requires that a change in the method of depreciation, amortization or depletion for long-lived nonfinancial assets be accounted for as a change in accounting estimate that is effected by a change in accounting principle. Previously, such changes were reported as a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in accounting periods beginning after December 15, 2005. The adoption of SFAS 154 is not expected to have a significant effect on profit, as adjusted to accord with US GAAP, or BP shareholders' equity, as adjusted to accord with US GAAP.

Note 18 - Condensed consolidating information

BP p.l.c. fully and unconditionally guarantees the payment obligations of its 100% owned subsidiary BP Exploration (Alaska) Inc. under the BP Prudhoe Bay Royalty Trust. The following financial information for BP p.l.c., and BP Exploration (Alaska) Inc. and all other subsidiaries on a condensed consolidating basis is intended to provide investors with meaningful and comparable financial information about BP p.l.c. and its subsidiary issuers of registered securities and is provided pursuant to Rule 3-10 of Regulation S-X in lieu of the separate financial statements of each subsidiary issuer of public debt securities. Investments include the investments in subsidiaries recorded under the equity method for the purposes of the condensed consolidating financial information. Equity income of subsidiaries is the Group's share of operating profit related to such investments. The eliminations and reclassifications column includes the necessary amounts to eliminate the intercompany balances and transactions between BP p.l.c., BP Exploration (Alaska) Inc. and other subsidiaries.

BP p.l.c. also fully and unconditionally guarantees securities issued by BP Australia Capital Markets Limited, BP Canada Finance Company, BP Capital Markets p.l.c. and BP Capital Markets America Inc. These companies are 100%-owned finance subsidiaries of BP p.l.c.
