Form 10-K  
March 01, 2007

# UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

---

## FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2006

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 1-12139

---

## SEALED AIR CORPORATION

(Exact name of registrant as specified in its charter)

**Delaware**  
(State or Other Jurisdiction of  
Incorporation or Organization)

**65-0654331**  
(I.R.S. Employer  
Identification Number)

**200 Riverfront Boulevard,  
Elmwood Park, New Jersey**  
(Address of Principal Executive Offices)

**07407-1033**  
(Zip Code)

Registrant's Telephone Number, including Area Code: **(201) 791-7600**

---

### Securities registered pursuant to Section 12(b) of the Act:

Title of each class  
Common Stock, par value \$0.10 per share

Name of each exchange on which registered  
New York Stock Exchange

### Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes  No

## Edgar Filing: SEALED AIR CORP/DE - Form 10-K

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of June 30, 2006, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was approximately \$4,166,000,000, based on the closing sale price as reported on the New York Stock Exchange.

There were 80,672,810 shares of the registrant's common stock, par value \$0.10 per share, issued and outstanding as of January 31, 2007.

DOCUMENTS INCORPORATED BY REFERENCE: Portions of the registrant's definitive proxy statement for its 2007 Annual Meeting of Stockholders are incorporated by reference into Part III of this Form 10-K.

## PART I

### Item 1. Business

Sealed Air Corporation (the Company), operating through its subsidiaries, manufactures and sells a wide range of food and protective packaging products.

The Company conducts substantially all of its business through two direct wholly-owned subsidiaries, Cryovac, Inc. and Sealed Air Corporation (US). These two subsidiaries directly and indirectly own substantially all of the assets of the business and conduct operations themselves and through subsidiaries around the globe. References herein to the Company include, collectively, the Company and its subsidiaries, except where the context indicates otherwise.

#### *Segments*

The Company operates in two reportable business segments: (i) Food Packaging and (ii) Protective Packaging, described more fully below. Information concerning the Company's reportable segments, including net sales, operating profit and assets, appears in Note 3 of the Notes to Consolidated Financial Statements in Part II, Item 8 of this Annual Report on Form 10-K, which information is incorporated herein by reference.

#### *Food Packaging Products*

The Company's principal food packaging products are flexible materials, associated packaging equipment systems, rigid containers and absorbent pads. These products package a broad range of perishable foods and are marketed globally. The Company primarily sells the products in this segment to food processors, distributors, supermarket retailers and food service businesses.

#### *Flexible Materials and Related Systems*

The Company produces a variety of high-performance proprietary flexible vacuum shrink products, including shrink bags and shrink films, as well as non-shrink structures and associated packaging equipment systems, marketed and sold primarily under the Cryovac® trademark. Customers use these products to package a broad range of perishable foods such as fresh meat and poultry, smoked and processed meat, cheese, produce, seafood, baked goods, and processed and prepared foods such as soups, stews, condiments and sauces for restaurants and institutions.

The Company's principal food packaging materials offerings are shrink bags, shrink films and non-shrink structures. The bags and films are co-extruded, multi-layered materials that, when exposed to heat, mold themselves to the shape of the product. The non-shrink structures are multi-layered plastic materials used to package perishable foods and shelf-stable products such as syrups and toppings. The Company's flexible materials start with a co-extruded film produced by combining two or more resins into a multi-layered film. Some of these films are subsequently laminated to other films to provide additional properties. The Company generally produces films and bags in barrier and permeable forms, depending on the extent to which customers want oxygen or other gases to pass through the material. For fresh-cut produce, the Company produces films that permit gases to pass through at various rates, matching the varying respiration rates of different vegetables, thereby extending shelf life. For the heat-and-serve category, the Company offers its Simple Steps® package, which is an easy-open microwavable package designed with Cryovac® vacuum skin packaging technology and a unique self-venting feature. The Company's Darfresh® product offerings provide vacuum skin packaging for a variety of foods. The Company also offers films, tubing and connectors for use in manufacturing bags and pouches for a wide variety of medical applications. Additionally, the Company thermoforms packaging materials for medical and technical products. Many of the Company's offerings in the medical field are manufactured using

technology comparable to that used to manufacture the Company's food packaging products and are similar in form to those products.

The Company's principal food packaging equipment offerings are rotary chamber vacuum systems, vertical form-fill-seal pouch packaging systems, dispensing equipment, manual and automated loading units, shrink tunnels, bagging systems and auxiliary equipment. Equipment offerings may be installed to package foods in shrink, vacuum or vacuum skin packages, which can utilize the Company's films and bags. The vertical pouch-packaging units may be used to package hot-fill or cold-fill pumpable foods using the Company's non-shrink structures. The Company's case ready packaging customers, principally meat and poultry processors, purchase trays and pads as discussed below, specially designed films, and packaging equipment to package consumer cuts of meat and poultry products at a central location prior to shipment to the supermarket. Case ready packages are ready for the meat case upon arrival at the retail store.

#### *Rigid Packaging and Absorbent Pads*

The Company sells foam and solid plastic trays and containers that customers use to package a wide variety of food products. The Company manufactures such products in its own facilities in various regions or has them fabricated by other manufacturers. Food processors and supermarkets use these products to protect and display fresh meat, poultry, dairy, produce and other food products. The Company also manufactures and sells absorbent pads used for food packaging, such as its Dri-Loc® absorbent pads.

#### *Protective Packaging Products*

The Company's principal protective packaging products provide cushioning, surface protection and void fill. The Company sells its protective packaging products and systems to distributors and manufacturers in a wide variety of industries. The products in this segment enable end users to provide a high degree of protection in packaging their items. They also aid product display and merchandising.

#### *Cushioning and Surface Protection Products*

The Company manufactures and markets Bubble Wrap® and AirCap® air cellular packaging materials, which consist of air encapsulated between two layers of plastic film, each containing a barrier layer to retard air loss. This material forms a pneumatic cushion to protect products from damage through shock or vibration during shipment. Also, the Company sells performance shrink films under the Cryovac®, Opti® and CorTuff® trademarks for product display and merchandising applications. Customers use these films to shrink-wrap a wide assortment of industrial and consumer products. The Company offers Shanklin® and Opti® shrink packaging systems for these applications. The Company's Instapak® polyurethane foam packaging systems (which consist of proprietary blends of polyurethane chemicals, high performance polyolefin films and specially designed dispensing equipment) provide protective packaging for a wide variety of products. These products include the Instapak® Continuous Foam Tube packaging system. The Company generally sells CelluPlank® plank foams and Stratocell® laminated polyethylene foams to fabricators and converters for packaging and non-packaging applications. The Company also manufactures thin polyethylene foams in roll and sheet form under the trademarks Cell-Aire® and Cellu-Cushion®. Korrvu® packaging is the Company's suspension and retention packaging offering. In addition, the Company makes insulation products with foil-laminated air cellular materials.

The Company manufactures and markets Jiffy® protective mailers and other durable mailers and bags in several standard sizes. The Company's principal protective mailers are lightweight, tear-resistant mailers marketed under various trademarks, including Jiffylite®, Mail Lite® and TuffGard®, lined with air cellular cushioning material, as well as the widely used Jiffy® padded mailers made from recycled kraft paper padded with macerated recycled newspaper. The Company's durable mailers and bags, composed of multi-layered polyolefin film, are lightweight, water-resistant and puncture-resistant and are available in

tamper-evident varieties. The Company markets these mailers and bags under the ShurTuff®, Trigon®, Lab Pak®, and Keepsafe® trademarks and other brands. The Company also manufactures and sells paper packaging products under the trademarks Kushion Kraft®, Custom Wrap®, Jiffy Packaging® and Void Kraft®.

The Company also offers inflatable packaging systems. Its Fill-Air® inflatable packaging system converts rolls of polyethylene film into continuous perforated chains of air-filled cushions. The Company's Fill-Air® RF system consists of a compact, portable inflator and self-sealing inflatable plastic bags. In addition, its NEWAIR I.B. 200 and high speed 600 packaging systems provide on-site, on-demand Barrier Bubble® cushioning material. The Company also markets its PriorityPak® system, a high-speed product containment and protective packaging solution with advance sensor technology, to mail-order and Internet fulfillment applications. The Company produces and markets converting systems that convert some of the Company's packaging materials, such as air cellular cushioning materials, thin polyethylene foam and paper into sheets of a pre-selected size and quantity, or in the case of the Company's recycled kraft paper, into paper dunnage material. Recently the Company introduced its FillTeck® line of equipment and materials and markets this product for applications requiring on-site production of high performance air-filled quilted cushioning material.

#### *Other Products*

The Company manufactures and sells a number of other products, such as specialty adhesive tapes, solar collectors and covers for swimming pools, and products related to the elimination and neutralization of static electricity. The Company also manufactures loose-fill polystyrene packaging.

#### *Foreign Operations*

The Company operates in the United States and in 50 other countries, and its products are distributed in those countries as well as in other parts of the world. In maintaining its foreign operations, the Company faces risks inherent in these operations, such as those of currency fluctuations. Information on currency exchange risk appears in Part II, Item 7A of this Annual Report on Form 10-K, which information is incorporated herein by reference. Financial information about geographic areas setting forth net sales and total long-lived assets for each of the years in the three-year period ended December 31, 2006 appears in Note 3 of the Notes to Consolidated Financial Statements in Part II, Item 8 of this Annual Report on Form 10-K, which information is incorporated herein by reference. The Company maintains programs to comply with the various laws, rules and regulations that it may be subject to in the many countries in which it operates. See Environmental Matters, below.

#### *Marketing, Distribution and Customers*

The Company's global sales and marketing staff numbers approximately 2,500 employees, who sell and market the Company's products to and through a large number of distributors, fabricators and converters, as well as directly to end users such as food processors, food service businesses, and manufacturers.

To support its food packaging customers, the Company operates food science laboratories that assist customers in identifying the appropriate food packaging materials and systems to meet their needs. The Company also offers customized graphic design services to its customers.

To assist its marketing efforts for its protective packaging products and to provide specialized customer services, the Company operates packaging laboratories in many of its facilities. These laboratories are staffed by professional packaging engineers and equipped with drop-testing and other equipment used to develop and test cost-effective package designs to meet the particular protective packaging requirements of each customer.

The Company has no material long-term contracts for the distribution of its products. In 2006, no customer or affiliated group of customers accounted for 10% or more of the Company's consolidated net sales.

Although net sales of both food packaging products and protective packaging products tend to be slightly higher in the fourth quarter, the Company does not consider seasonality to be material to its consolidated business or to either reportable business segment.

### ***Competition***

Competition for most of the Company's packaging products is based primarily on packaging performance characteristics, service and price. Since competition is also based upon innovations in packaging technology, the Company maintains ongoing research and development programs to enable it to maintain technological leadership. There are other companies producing competing products that are well established.

There are other manufacturers of food packaging products, some of which are companies offering similar products that operate on a global basis and others that operate in a region or single country. Competing manufacturers produce a wide variety of food packaging based on plastic, paper, metals and other materials. In rigid packaging, the Company is generally one of many suppliers in the geographic areas in which it operates. The Company believes that it is one of the leading suppliers of (i) flexible food packaging materials and related systems in the principal geographic areas in which it offers those products, (ii) solid plastic trays for case ready meat products in the United States, and (iii) absorbent pads for food products to supermarkets and to meat and poultry processors in the United States.

The Company's protective packaging products compete with similar products made by other manufacturers and with a number of other packaging materials that customers use to provide protection against damage to their products during shipment and storage. Among the competitive materials are various forms of paper packaging products, expanded plastics, corrugated die cuts, loose fill packaging materials, strapping, envelopes, reinforced bags, boxes and other containers, and various corrugated materials. The Company's Instapak® packaging and its plank and laminated foam products also compete with various types of molded foam plastics, fabricated foam plastics, mechanical shock mounts, and wood blocking and bracing systems. The Company believes that it is one of the leading suppliers of air cellular cushioning materials containing a barrier layer, inflatable packaging, shrink films for industrial and commercial applications, protective mailers, polyethylene foam and polyurethane foam packaging systems in the principal geographic areas in which it sells these products.

### ***Raw Materials***

The principal raw materials used in both of the Company's reportable business segments are polyolefin and other petrochemical-based resins and films, and paper and wood pulp products. The Company also purchases corrugated materials, cores for rolls of products such as films and Bubble Wrap® cushioning, inks for printed materials, and blowing agents used in the expansion of foam packaging products. In addition, the Company offers a wide variety of specialized packaging equipment, some of which it manufactures or has manufactured to its specifications, some of which it assembles and some of which it purchases from other suppliers.

The raw materials for the Company's products generally have been readily available on the open market and in most cases are available from several suppliers. Natural disasters such as hurricanes, as well as political instability and terrorist activities, may negatively impact the production or delivery capabilities of refineries and natural gas and petrochemical suppliers in the future. These factors could lead to increased prices for the Company's raw materials, curtailment of supplies and allocation of raw materials by the Company's suppliers. Some materials used in the Company's protective packaging products are sourced

from materials recycled in the Company's manufacturing operations or obtained through participation in recycling programs.

***Research and Development Activities***

The Company maintains a continuing effort to develop new products and to improve its existing products and processes, including developing new packaging and non-packaging applications for its products. From time to time, the Company also acquires and commercializes new packaging designs or techniques developed by others. The Company has joint research and development projects combining the technical capabilities of its food packaging operations and its protective packaging operations. The Company spent \$78.2 million for Company-sponsored research and development in 2006, compared with \$75.8 million during 2005, and \$73.2 million during 2004.

***Patents and Trademarks***

The Company is the owner or licensee of a number of United States and foreign patents, patent applications, trademarks and trademark registrations that relate to many of its products, manufacturing processes and equipment. The Company believes that its patents and trademarks collectively provide a competitive advantage. Neither of the Company's reportable segments is dependent upon any single patent or trademark alone. Rather, the Company believes that its success depends primarily on its marketing, engineering and manufacturing skills and on its ongoing research and development efforts. The Company believes that the expiration or unenforceability of any of its patents, applications, licenses or trademark registrations would not be material to the Company's business or financial position.

***Environmental Matters***

As a manufacturer, the Company is subject to various laws, rules and regulations in the countries, jurisdictions and localities in which it operates covering the release of materials into the environment, regarding standards for the treatment, storage and disposal of solid and hazardous wastes or otherwise relating to the protection of the environment. In 2006, the European Parliament approved a major expansion of the European Union's chemical regulations. The legislation is known as REACH or Registration, Evaluation and Authorization of Chemicals. REACH, which becomes effective in June 2007, is expected to have a widespread impact on industries and products worldwide through trade in and with the European Union. The Company is working with its suppliers to manage the impact of REACH on its operations and to insure compliance with its provisions. The Company reviews environmental laws and regulations pertaining to its operations and believes that compliance with current environmental laws and regulations has not had a material effect on the Company's capital expenditures or financial position.

In some jurisdictions in which the Company's packaging products are sold or used, laws and regulations have been adopted or proposed that seek to regulate, among other things, recycled or reprocessed content and sale or disposal of packaging materials. In addition, customer demand continues to evolve for packaging materials that are viewed as being environmentally sound or that minimize the generation of solid waste. The Company maintains programs designed to comply with these laws and regulations, to monitor their evolution, and to meet this customer demand. These issues can be a competitive advantage for the Company given the inherent source reduction benefits of many of its processes and products. One advantage inherent in many of the Company's products is that thin, lightweight packaging solutions reduce customer waste and transportation costs in comparison to available alternatives. The Company continues to evaluate and implement new technologies in this area as they become available.

The Company also supports its customers' interests in eliminating waste by offering or participating in collection programs for some of the Company's products or product packaging and for materials used in some of the Company's products. When possible, materials collected through these programs are reprocessed and either reused in the Company's protective packaging operations or offered to other

manufacturers for use in other products. In addition, recent gains made in internal recycling programs have allowed the Company to improve its net raw material yield, thus mitigating the impact of rising resin costs, while lowering solid waste disposal costs.

### *Employees*

As of December 31, 2006, the Company had approximately 17,400 employees worldwide. Approximately 7,300 of those employees were in the U.S., with approximately 600 of those covered by collective bargaining agreements. Of the approximately 10,100 Company employees who were outside the U.S., approximately 6,000 were covered by collective bargaining agreements. Outside of the U.S., many of the covered employees are represented by works councils or industrial boards, as is customary in the jurisdictions in which they are employed. The Company believes that its employee relations are satisfactory.

### *Available Information*

The Company's Internet address is [www.sealedair.com](http://www.sealedair.com). The Company makes available, free of charge, on or through its web site at [www.sealedair.com](http://www.sealedair.com), its Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, known as the Exchange Act, as soon as reasonably practicable after the Company electronically files these materials with, or furnishes them to, the Securities and Exchange Commission.

## **Item 1A. Risk Factors**

### *Introduction*

Investors should carefully consider the risks described below before making an investment decision. These are the most significant factors that make investing in the Company risky; however, they are not the only factors that should be considered in making an investment decision.

This Annual Report on Form 10-K also contains and may incorporate by reference from the Company's Proxy Statement for its 2007 Annual Meeting of Stockholders, or from exhibits, forward-looking statements that involve risks and uncertainties. See the Cautionary Statement Regarding Forward-Looking Statements below. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the risks faced by the Company described below and elsewhere in this Annual Report on Form 10-K or in documents incorporated by reference in this report.

The Company's business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of the Company's securities could decline due to any of these risks, and investors in the Company's securities may lose all or part of their investment.

### *Asbestos Litigation and Related Litigation*

**If the settlement of the asbestos claims that the Company has agreed to is not implemented, the Company will not be released from the various asbestos-related, fraudulent transfer, successor liability, and indemnification claims made against it arising from a 1998 transaction with W. R. Grace & Co. Further, the Company is a defendant in a lawsuit seeking class action status concerning the Company's public disclosures regarding these asbestos-related claims. The Company is also a defendant in a number of asbestos-related actions in Canada arising from Grace's activities in Canada prior to 1998.**

On November 27, 2002, the Company reached an agreement in principle with the Official Committee of Asbestos Personal Injury Claimants and the Official Committee of Asbestos Property Damage Claimants appointed to represent asbestos claimants in the W. R. Grace & Co. bankruptcy case to resolve

all current and future asbestos-related claims made against the Company and its affiliates. The settlement will also resolve the fraudulent transfer claims and successor liability claims, as well as indemnification claims by Fresenius Medical Care Holdings, Inc. and affiliated companies in connection with the Cryovac transaction. The Cryovac transaction was a multi-step transaction, completed on March 31, 1998, which brought the Cryovac packaging business and the former Sealed Air Corporation's business under the common ownership of the Company. The parties to the agreement in principle signed a definitive settlement agreement as of November 10, 2003 consistent with the terms of the agreement in principle. On June 27, 2005, the U.S. Bankruptcy Court for the District of Delaware, where the Grace bankruptcy case is pending, signed an order approving the definitive settlement agreement. Although Grace is not a party to the settlement agreement, under the terms of the order, Grace is directed to comply with the settlement agreement subject to limited exceptions. If the settlement agreement does not become effective, either because Grace fails to emerge from bankruptcy or because Grace does not emerge from bankruptcy with a plan of reorganization that is consistent with the terms of the settlement agreement, then the Company will not be released from the various asbestos-related, fraudulent transfer, successor liability, and indemnification claims made against the Company and its affiliates noted above, and all of these claims would remain pending and would have to be resolved through other means, such as through agreement on alternative settlement terms or trials. In that case, the Company could face liabilities that are significantly different from its obligations under the settlement agreement. The Company cannot estimate at this time what those differences or their magnitude may be. In the event these liabilities are materially larger than the current existing obligations, they could have a material adverse effect on the Company's financial condition and results of operations. Although Grace filed a proposed plan of reorganization with the bankruptcy Court in January 2005, the Company cannot predict when a final plan of reorganization will become effective or whether the final plan will be consistent with the terms of the settlement agreement.

The Company is a defendant in the case of *Senn v. Hickey, et al.* (Case No. 03-CV-4372) in the U.S. District Court for the District of New Jersey (Newark). This lawsuit seeks class action status on behalf of all persons who purchased or otherwise acquired securities of the Company during the period from March 27, 2000 through July 30, 2002. The lawsuit names the Company and five current and former officers and directors of the Company as defendants. One of these individuals and the Company remain as defendants after a partial grant of the defendants' motion to dismiss the action. The plaintiff's principal allegations against the defendants are that during the above period the defendants materially misled the investing public, artificially inflated the price of the Company's common stock by publicly issuing false and misleading statements and violated U.S. Generally Accepted Accounting Principles, or GAAP, by failing to properly account and accrue for the Company's contingent liability for asbestos claims arising from past operations of Grace. The plaintiffs seek compensatory damages and other relief. If the Court determines that the Company is liable in this case, the Company could be required to pay substantial damages, which the Company cannot estimate at this time and which could have a material adverse effect on the Company's financial condition and results of operations. On October 3, 2006, plaintiff filed a motion to certify a class of all persons who purchased or otherwise acquired the securities of the Company during the period from March 27, 2000 through July 30, 2002. On November 22, 2006, plaintiff filed an amended motion for class certification, seeking to withdraw as a class representative and the substitution of a new class representative, the State of Louisiana Municipal Police Employees Retirement System. Discovery concerning class certification and the merits is ongoing.

Since November 2004, the Company and specified subsidiaries have been named as defendants in a number of cases, including a number of putative class actions, brought in Canada as a result of Grace's alleged marketing, manufacturing or distributing of asbestos or asbestos-containing products in Canada prior to the Cryovac Transaction. Grace has agreed to defend and indemnify the Company and its subsidiaries in these cases. The Canadian cases are currently stayed, and Grace's proposed plan of reorganization provides for payment of these claims and enforcement of the plan of reorganization in the Canadian courts. However, if Grace's final plan does not make the same provisions or if the Canadian courts refuse to enforce Grace's final plan in the Canadian courts, and if in addition Grace is unwilling or

unable to defend and indemnify the Company and its subsidiaries in these cases, then the Company could be required to pay substantial damages, which the Company cannot estimate at this time and which could have a material adverse effect on the Company's financial condition and results of operations.

For further information concerning these matters, see Note 16, Commitments and Contingencies, of the Notes to the Consolidated Financial Statements, which is contained in Item 8 of Part II of this Annual Report on Form 10-K, under Asbestos Settlement and Related Costs, Cryovac Transaction, and Contingencies Related to the Cryovac Transaction.

#### *Raw Materials and Energy*

**Raw material pricing, availability and allocation by suppliers as well as other energy-related costs may negatively impact the Company's results of operations, including its profit margins.**

The Company uses petrochemical-based raw materials to manufacture many of its food and protective packaging products. During most of 2006 petrochemical-based raw material and other energy-related costs increased, with oil futures setting a record high. This negatively impacted the Company's profit margins. Continued increases in market demand for petrochemical-based raw materials and energy could increase costs for the Company. Natural disasters such as hurricanes, as well as political instability and terrorist activities, may negatively impact the production or delivery capabilities of refineries and natural gas and petrochemical suppliers in the future. These factors could lead to increased prices for the Company's raw materials, curtailment of supplies and allocation of raw materials by the Company's suppliers, which could reduce revenues and profit margins and harm relations with the Company's customers and which could have a material adverse effect on the Company's financial condition and results of operations.

#### *Animal and Food-Related Health Issues*

**The effects of animal and food-related health issues such as bovine spongiform encephalopathy, also known as mad cow disease, foot-and-mouth disease and avian influenza or bird-flu, as well as other health issues affecting the food industry, may lead to decreased revenues for the Company.**

The Company manufactures and sells food packaging products, among other products. Various health issues affecting the food industry have in the past and may in the future have a negative effect on the sales of food packaging products. During 2006, additional cases of mad cow disease were confirmed and incidents of bird flu have continued to surface in various countries. Outbreaks of animal diseases such as mad cow or foot-and-mouth disease, for example, may lead governments to restrict exports and imports of potentially affected animals and food products, leading to decreased demand for the Company's products and possibly also to the culling or slaughter of significant numbers of the animal population otherwise intended for food supply. Also, consumers may change their eating habits as a result of perceived problems with certain types of food. These restrictions and changes may lead to reduced sales of food packaging products by the Company, which could have a material adverse effect on the Company's financial condition and results of operations.

#### *Global Operations*

**The global nature of the Company's operations in the United States and in fifty foreign countries exposes it to numerous risks that could materially adversely affect its financial condition and results of operations.**

The Company operates in the United States and in 50 other countries, and its products are distributed in those countries as well as in other parts of the world. The Company continues to expand its global presence as net sales outside the United States in 2006 made up approximately 52% of the Company's total net sales. Additionally the Company has 73 manufacturing facilities and approximately 10,100 employees located outside the United States.

As a result of its global operations, the Company is exposed to economic, political, business and market conditions in the geographic areas in which it conducts business. Changes in domestic or foreign laws, rules or regulations (such as the REACH legislation discussed above in Part I, Item 1 of this Annual Report on Form 10-K under "Environmental Matters"), or governmental or agency actions can negatively affect the Company's ability to carry on its business. Governments may impose restrictive or protective import/export requirements as well as other trade measures that may have a negative impact on the Company. Some of the countries in which the Company's subsidiaries operate have significantly different laws on the enforcement of intellectual property and contract rights. As a global entity, the Company may also have greater exposure to the acts and effects of war or terrorism.

The Company is exposed to market risk from fluctuations in foreign currency exchange rates. The Company may use financial instruments from time to time to manage exposure to foreign exchange rate fluctuations, which use exposes the Company to counterparty credit risk for nonperformance. Additionally, some of the Company's subsidiaries may operate in countries that have highly inflationary economies.

#### *Global Manufacturing Strategy*

**The Company has begun the first phase of a new global manufacturing strategy. The costs of the global manufacturing strategy could exceed the benefits if market forces or other factors negatively impact the execution and fulfillment of the strategy.**

The Company has begun the first phase of a new global manufacturing strategy. This strategy includes an expansion of the Company's global production capabilities in developing markets around the world, as well as a realignment of its existing production into manufacturing centers of excellence. The goal of this multi-year program is to expand capacity in growing markets in developing countries, further improve the Company's operating efficiencies, lower its overall cost structure and implement new technologies more effectively. There are risks inherent in the undertaking of such a program, including the stability and sustainability of developing markets, shifts in customer preferences, competitive forces and technologies, cost overruns and unanticipated consequences, any of which could have a material adverse effect on the Company's financial condition and results of operations.

#### *Reliance on Subsidiaries*

**The Company's subsidiaries hold substantially all of its assets and liabilities and conduct substantially all of its operations, and as a result the Company relies on distributions or advances from its subsidiaries.**

The Company conducts substantially all of its business through two direct wholly-owned subsidiaries, Cryovac, Inc. and Sealed Air Corporation (US). These two subsidiaries directly and indirectly own substantially all of the assets of the Company's business and conduct operations themselves and through other subsidiaries around the globe. Therefore, the Company depends on distributions or advances from its subsidiaries to meet its debt service and other obligations and to pay dividends with respect to shares of its common stock. Contractual provisions, laws or regulations to which the Company or any of its subsidiaries may become subject, as well as its subsidiaries' financial condition and operating requirements, may reduce funds available for service of its indebtedness, dividends, and general corporate purposes.

*Volatility of Stock Price, Volume Sales and Large Holdings*

**The price of the Company's common stock historically has experienced significant price and volume fluctuations, which may make it difficult for investors to resell the common stock, and the sale of substantial amounts of the Company's common stock could adversely affect the price of the common stock. One shareholder has been identified as having sole voting and dispositive power with respect to 28,916,696 shares, or approximately 35.9%, of the Company's common stock, and another shareholder has been identified as having sole dispositive power with respect to 12,710,000 shares, or approximately 15.8%, of the Company's common stock.**

The market price of the Company's common stock historically has experienced and may continue to experience significant price and volume fluctuations similar to those experienced by the broader stock market in recent years. In addition, the Company's announcements of its quarterly operating results, future developments relating to the W. R. Grace bankruptcy, additional asbestos or other litigation against the Company, the effects of animal and food-related health issues, spikes in raw material and energy-related costs, changes in general conditions in the economy or the financial markets and other developments affecting the Company, its affiliates or its competitors could cause the market price of the common stock to fluctuate substantially.

The sale of substantial amounts of the Company's common stock could adversely affect its price. According to a Schedule 13G/A filed with the Securities and Exchange Commission, or SEC, dated as of December 31, 2006, Davis Selected Advisers, L.P. reported sole voting and dispositive power with respect to 28,916,696 shares, or approximately 35.9%, of the outstanding shares of the Company's common stock, and according to a Schedule 13G/A filed with the SEC, dated as of February 7, 2007, Capital Research and Management Company reported sole dispositive power with respect to 12,710,000 shares, or approximately 15.8%, of the Company's outstanding common stock. In addition, as of December 31, 2006, 2,072,874 shares of common stock were reserved for issuance under the Company's contingent stock plan and directors stock plan. Issuance of such reserved shares would cause dilution of stock holdings. Moreover, as of December 31, 2006, nine million shares of the Company's common stock were reserved for issuance pursuant to the settlement of the asbestos litigation upon the effectiveness of a plan of reorganization in the bankruptcy of W. R. Grace. The sale or the availability for sale of a large number of shares of the Company's common stock in the public market could adversely affect the price of the common stock.

While the Schedules 13G/A filed by Davis Selected Advisers and Capital Research and Management indicate that the referenced shares of the Company's common stock were not acquired for the purpose of changing or influencing the control of the Company, if either stockholder were to change its purpose of holding the Company's common stock from investment to attempting to influence the management of the Company, these concentrations of the Company's common stock could potentially negatively impact the Company and the price of its common stock.

**Cautionary Statement Regarding Forward-Looking Statements**

Some of the Company's statements in this report, in documents incorporated by reference into this report and in the Company's future oral and written statements, may be forward-looking. These statements reflect the Company's beliefs and expectations as to future events and trends affecting the Company's business, its financial condition and its results of operations. These forward-looking statements are based upon the Company's current expectations concerning future events and discuss, among other things, anticipated future performance and future business plans. Forward-looking statements are identified by such words and phrases as anticipates, believes, could be, estimates, expects, intends, to, will and similar expressions. Forward-looking statements are necessarily subject to risks and uncertainties, many of which are outside the control of the Company, that could cause actual results to differ materially from these statements.

In addition to the most significant risk factors described above, the following are important factors that the Company believes could cause actual results to differ materially from those in the Company's forward-looking statements:

- legal and environmental proceedings, claims and matters involving the Company;
- factors affecting the customers, industries and markets that use the Company's packaging materials and systems;
- competitive factors;
- changes in the Company's relationships with customers and suppliers;
- changes in tax rates, laws and regulations;
- changes in interest rates, credit availability and ratings;
- the Company's ability to hire, develop and retain talented employees worldwide;
- the Company's development and commercialization of successful new products;
- the Company's accomplishments in entering new markets and acquiring and integrating new businesses;
- the Company's access to financing and other sources of capital;
- the costs and success of the Company's key information systems projects;
- disruptions to data or voice networks;
- the magnitude and timing of the Company's capital expenditures and the ultimate value generated from those expenditures;
- the costs and results of any exit and disposal activities and restructuring programs that the Company may undertake;
- the Company's working capital management proficiency;
- the effect on the Company of new pronouncements by regulatory and accounting authorities;
- natural disasters, health crises, epidemics and pandemics; and
- the effects of potential federal asbestos legislation, if enacted.

Except as required by the federal securities laws, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

**Item 1B.** Unresolved Staff Comments

None.

**Item 2.** Properties

## Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The Company produces products in 120 manufacturing facilities, with 22 of those facilities serving both its food packaging and protective packaging business segments. The Company produces food packaging products in 51 manufacturing facilities, of which 15 were in North America, 12 in the European region, 9 in Latin America, 13 in the Asia Pacific region, and 2 in Africa. The Company produces protective packaging products in 91 manufacturing facilities, of which 42 were in North America, 26 in the European region, 9 in Latin America, 12 in the Asia Pacific region, and 2 in Africa. The Company occupies

13

---

other facilities containing sales, distribution, technical, warehouse or administrative functions at a number of locations in the United States and in various foreign countries.

In the United States, the Company manufactures food packaging products at facilities in Arkansas, Indiana, Iowa, Mississippi, Missouri, New York, North Carolina, Pennsylvania, South Carolina and Texas. It manufactures protective packaging products at facilities in California, Connecticut, Delaware, Florida, Illinois, Indiana, Massachusetts, Mississippi, Missouri, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Texas and Washington. Because of the relatively low density of the Company's air cellular, polyethylene foam and protective mailer products, the Company realizes significant freight savings by locating manufacturing facilities for these products near its customers and distributors.

The Company owns the large majority of its manufacturing facilities. Some of these facilities are subject to secured or other financing arrangements. The Company also leases sites for warehouse and office needs, as well as for the balance of its manufacturing facilities, which are generally smaller sites. The Company's manufacturing facilities are usually located in general purpose buildings that house the Company's specialized machinery for the manufacture of one or more products. The Company believes that its manufacturing, warehouse and office facilities are well maintained, suitable for their purposes and adequate for the Company's needs.

### **Item 3. Legal Proceedings**

The information set forth in Part II, Item 8 of this Annual Report on Form 10-K in Note 16 under the captions "Cryovac Transaction, Contingencies Related to the Cryovac Transaction" and "Compliance Matters" is incorporated herein by reference.

At December 31, 2006, the Company was a party to, or otherwise involved in, several federal, state and foreign environmental proceedings and private environmental claims for the cleanup of "Superfund" sites under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 and other sites. The Company may have potential liability for investigation and cleanup of some of these sites. It is the Company's policy to accrue for environmental cleanup costs if it is probable that a liability has been incurred and if the Company can reasonably estimate an amount or range of costs associated with various alternative remediation strategies, without giving effect to any possible future insurance proceeds. As assessments and cleanups proceed, the Company reviews these liabilities periodically and adjusts its reserves as additional information becomes available. At December 31, 2006, environmental related reserves were not material to the Company's financial condition or results of operations. While it is often difficult to estimate potential liabilities and the future impact of environmental matters, based upon the information currently available to the Company and its experience in dealing with these matters, the Company believes that its potential future liability with respect to these sites is not material to the Company's financial condition and results of operations.

The Company is also involved in various other legal actions incidental to its business. The Company believes, after consulting with counsel, that the disposition of these other legal proceedings and matters will not have a material effect on the Company's financial condition and results of operations.

### **Item 4. Submission of Matters to a Vote of Security Holders**

No matters were submitted to a vote of the Company's stockholders during the fourth quarter of 2006.

### **Executive Officers of the Registrant**

The information appearing in the table below sets forth the current position or positions held by each executive officer of the Company, the officer's age as of January 31, 2007, the year in which the officer was first elected to the position currently held with the Company or with the former Sealed Air Corporation,

now known as Sealed Air Corporation (US) and a wholly-owned subsidiary of the Company, and the year in which such person was first elected an officer thereof (as indicated in the footnote to the table).

All of the Company's officers serve at the pleasure of the Board of Directors. The Company and its subsidiaries have employed all officers for more than five years except for Mr. Crosier, who first was elected an officer of the Company effective October 1, 2004, and Ms. Davis, who was first elected an officer effective August 10, 2006.

Previously, Mr. Crosier was Partner Supply Chain, Logistics, Operations Practice of C.F.A. & Associates, a privately-held advisor to small/medium sized businesses on domestic and international growth opportunities, from January 2002 through July 2004, and prior to that was Executive Vice President, Supply Chain Management and Logistics, for Staples Inc., a public company and retailer of office supplies, furniture, technology and services, from June 1998 until December 2001.

Prior to joining the Company in August 2006, Ms. Davis was Vice President, People/Development at the Sun Chemical Company, a global inks and pigment company, where she was a Corporate Leadership Team Member and provided Human Resources functional leadership from July 2002 until October 2005, and prior to that, was from January 2000 until October 2001, Vice President, Human Resources and Administration, for BF Goodrich Performance Materials, which changed its name to Noveon, Inc., a global specialty chemical company.

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

There are no family relationships among any of the Company's officers or directors.

\* All persons listed in the table who were first elected officers before 1998 were executive officers of the former Sealed Air Corporation, now known as Sealed Air Corporation (US), prior to the Cryovac transaction in March 1998. Mr. Hickey was first elected President in 1996, first elected Chief Executive Officer in 2000 and first

elected a director in 1999. Mr. Kelsey was first elected Senior Vice President in 2003 and first elected Chief Financial Officer in 2002. Ms. White was first elected Vice President in 2003, first elected General Counsel in 1998, and first elected Secretary in 1996.

**Part II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The Company's common stock is listed on the New York Stock Exchange under the trading symbol SEE. The table below sets forth the quarterly high and low closing sales prices of the common stock for 2005 and 2006 as reported in the New York Stock Exchange composite listing.

2005			High	Low
First Quarter			\$ 53.70	\$ 47.15
Second Quarter			\$ 54.50	\$ 47.75
Third Quarter			\$ 53.96	\$ 46.05
Fourth Quarter			\$ 56.43	\$ 46.02

2006			High	Low
First Quarter			\$ 58.98	\$ 54.09
Second Quarter			\$ 59.03	\$ 50.49
Third Quarter			\$ 54.68	\$ 45.81
Fourth Quarter			\$ 65.55	\$ 53.77

**Holdings**

As of January 31, 2007, there were approximately 7,900 holders of record of the Company's Common Stock.

**Dividends**

There are no restrictions that currently materially limit the Company's ability to pay dividends or that the Company reasonably believes are likely to limit materially the future payment of dividends on the common stock. On January 30, 2006, the Company announced that it was initiating payment of a quarterly cash dividend. The Company used cash of \$48.6 million during 2006 to pay quarterly cash dividends of \$0.15 per common share on March 17, June 16, September 15, and December 15, 2006. Previously, the Company had not paid cash dividends on its Common Stock during the periods presented.

On February 16, 2007, the Company announced that its Board of Directors had declared a two-for-one stock split to be effected in the form of a stock dividend payable on March 16, 2007 to stockholders of record of outstanding shares of its common stock at the close of business on March 2, 2007. The Company's Board of Directors also increased the Company's quarterly cash dividend by 33% to \$0.20 per common share, declaring a quarterly cash dividend payable on the pre-split shares of the Company's common stock on March 16, 2007 to stockholders of record at the close of business on March 2, 2007. The Company currently expects that comparable cash dividends will continue to be paid in future quarters. From time to time, the Company will consider other means of returning value to its stockholders based on its financial condition and results of operations. There is no guarantee that the Company's Board of Directors will declare any further dividends.

***Common Stock Performance Comparisons***

The following graph shows, for the five years ended December 31, 2006, the cumulative total return on an investment of \$100 assumed to have been made on December 31, 2001 in the Company's common stock. The graph compares this return ( SAC ) with that of comparable investments assumed to have been made on the same date in (a) the Standard & Poor's 500 Stock Index ( Composite S&P 500 ), and (b) the containers and packaging segment of the Standard & Poor's 500 Stock Index ( Containers & Packaging ), the published Standard & Poor's market segment for the Company.

Total return for each assumed investment assumes the reinvestment of all dividends on December 31 of the year in which the dividends were paid.

**Issuer Purchases of Equity Securities**

The table below sets forth the total number of shares of the Company's common stock, par value \$0.10 per share, that the Company repurchased in each month of the quarter ended December 31, 2006. The maximum number of shares that may yet be purchased under the Company's plans or programs is set forth below.

Period	Total Number of Shares Purchased(1) (a)			Average Price Paid per Share(1) (b)			Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(2) (c)			Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs(2) (d)		
Balance as of September 30, 2006												1,648,576
October 1, 2006 through October 31, 2006		56,871		\$	55.26			48,000				1,600,576
November 1, 2006 through November 30, 2006		32,623		(1)				0				1,600,576
December 1, 2006 through December 31, 2006		3,229		(1)				0				1,600,576
Total		92,723		\$	55.26			48,000				1,600,576

(1) The Company purchased all shares during the quarter ended December 31, 2006 pursuant to its publicly announced program (described below and under the caption Repurchases of Capital Stock, in Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7 of this Annual Report on Form 10-K), except for (a) shares withheld from awards under the Company's 1998 contingent stock plan pursuant to the provision thereof that permits tax withholding obligations or other legally required charges to be satisfied by having the Company withhold shares from an award under that plan and (b) shares repurchased pursuant to the repurchase option provision of its 1998 contingent stock plan (See table below). The price calculations in column (b) in the table above only include shares purchased as part of its publicly announced program and do not include commissions. For shares withheld for tax withholding obligations or other legally required charges, the Company withholds shares at a price equal to their fair market value. In accordance with the repurchase option provision of its 1998 contingent stock plan, the Company repurchased shares at the issue price of the shares, which was \$1.00 per share.

Period	(a) Shares withheld for tax obligations and charges	(b) Average withholding price for shares in column a	(c) Repurchases under 1998 Contingent Stock Plan	(d) Forfeitures under 2005 Contingent Stock Plan	(e) Total
October 2006	8,871	\$ 56.89			8,871
November 2006	31,123	59.28	1,500		32,623
December 2006	3,229	63.70			3,229
Total	43,223	\$ 59.12	1,500		44,723

(2) On June 29, 1998, the Company announced that its Board of Directors had authorized the purchase of up to five percent of the Company's then issued and outstanding capital stock on an as-converted basis. On April 14, 2000, the Company announced that its Board of Directors had authorized the purchase of up to an additional five percent of the Company's issued and outstanding capital stock as of June 30, 2000 on an as-converted basis. On November 3, 2000, the Company announced that its Board of Directors had authorized the purchase of up to an additional five percent of the Company's issued and outstanding capital stock as of October 31, 2000 on an as-converted basis. At the time of these authorizations, the Company's capital stock comprised its common stock and its Series A

convertible preferred stock. Prior to its redemption in July 2003, each share of the Company's Series A convertible preferred stock was convertible into 0.885 shares of the Company's common stock. These authorizations compose a single program, which has no set expiration date. As of the close of business on December 31, 2006, 16,977,147 shares of the Company's common stock were authorized to be repurchased under this program, 15,376,571 shares had been repurchased (including preferred shares on an as-converted basis), leaving 1,600,576 shares of common stock authorized for repurchase under the program.

## Item 6. Selected Financial Data

	2006	2005	2004	2003	2002(1)
	(In millions of dollars, except per share data)				
<b>Consolidated Statement of Operations Data:</b>

<b>Other Data:</b>					
EBIT(8)	\$ 548.1	\$ 526.3	\$ 476.6	\$ 512.9	\$ (326.0)
Depreciation and amortization	168.0	174.6	179.5	173.2	165.0
EBITDA(8)	716.1	700.9	656.1	686.1	(161.0)
Capital expenditures	167.9	96.9	102.7	124.3	91.6

(1) In November 2002, the Company reached an agreement in principle with the appropriate parties to resolve all current and future asbestos-related claims made against it and its affiliates in connection with the Cryovac transaction. In connection with this settlement, the Company recorded a pre-tax charge of \$850.1 million in the consolidated statement of operations in 2002, which resulted in the Company's net loss for the year ended December 31, 2002. The parties signed a definitive settlement agreement as of November 10, 2003 consistent with the terms of the agreement in principle. See Note 16 to the Consolidated Financial Statements.

(2) In 2006, the Company recorded \$15.6 million of charges related to its global manufacturing strategy. In the fourth quarter of 2004, the Company incurred restructuring and other charges of \$33 million relating to global profit improvement initiatives implemented to improve the Company's operating efficiencies and cost structure. See Note 13 to the Consolidated Financial Statements.

(3) In 2004, the Company incurred losses of \$32.2 million due to debt redemptions and repurchases. See Note 10 to the Consolidated Financial Statements. In 2003, the Company incurred losses of \$33.6 million due to debt redemptions and repurchases.

(4) On January 30, 2006, the Company announced that it was initiating payment of a quarterly cash dividend. The Company used cash of \$48.6 million during 2006 to pay quarterly cash dividends of \$0.15 per common share on March 17, June 16, September 15, and December 15, 2006.

(5) In July 2003, the Company issued \$1,281.3 million of senior notes. On July 18, 2003, the Company used the net proceeds from these offerings and additional cash on hand, approximately \$1,298.1 million in the aggregate, to redeem its Series A convertible preferred stock at the redemption price of \$51.00 per share.

(6) On February 16, 2007, the Company announced that its Board of Directors had declared a two-for-one stock split to be effected in the form of a stock dividend payable on March 16, 2007 to stockholders of record of outstanding shares of its common stock at the close of business on March 2, 2007. The Company's Board of Directors also increased the Company's quarterly cash dividend by 33% to \$0.20 per common share, declaring a quarterly cash dividend payable on the pre-split shares of the Company's common stock on March 16, 2007 to stockholders of record at the close of business on March 2, 2007. Information presented in the selected financial data has not been restated to reflect the two-for-one stock split. See Note 23 to the Consolidated Financial Statements.

(7) On July 19, 2006, the Company's 5.625% euro notes with a face value of 200.0 million matured. These notes were included in the current portion of long-term debt at December 31, 2005. The Company used available cash of \$251.7 million to retire this debt. Interest on the 5.625% euro notes was payable annually in arrears, with the final payment of \$14.2 million made upon maturity of the euro notes.

(8) EBIT is defined as earnings (loss) before interest expense and provisions for income taxes. EBITDA is defined as EBIT plus depreciation and amortization. EBIT and EBITDA do not purport to represent net earnings or net cash provided by operating activities as those terms are defined under generally accepted accounting principles and should not be considered as an alternative to such measurements or as indicators of the Company's performance. The Company's definitions of EBIT and EBITDA may not be comparable with similarly-titled measures used by other companies. EBIT and EBITDA are among the indicators used by the Company's management to measure the performance of the Company's operations and thus the Company's management believes such information may be useful to investors. Such measures are also among the criteria upon which performance-based compensation may be based. The following is a reconciliation of net earnings (loss) to EBIT and EBITDA:

	2006	2005	2004	2003	2002
Net earnings (loss)	\$ 274.1	\$ 255.8	\$ 215.6	\$ 240.4	\$ (309.1)
Add:					
Interest expense	148.0	149.7	153.7	136.0	65.9

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The information in Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's consolidated financial statements and related notes set forth in Item 8 of Part II of this Annual Report on Form 10-K. All amounts and percentages are approximate due to rounding.

***Introduction***

The Company manufactures and sells a wide range of food and protective packaging products, operating in the United States and in 50 other countries, with products distributed in those countries and in other parts of the world.

The Company operates in two reportable business segments, Food Packaging and Protective Packaging. The Company's principal food packaging products are flexible materials, associated packaging equipment systems, rigid containers and absorbent pads. These products, many of which bear the Cryovac trademark, package a broad range of perishable foods. The Company primarily sells the products in this segment to food processors, distributors, supermarket retailers and food service businesses.

The Company's principal protective packaging products provide cushioning, surface protection and void fill. The Company primarily sells its protective packaging products and systems to distributors and manufacturers in a wide variety of industries. The products in this segment enable end users to provide a high degree of protection in packaging their items. They also aid product display and merchandising.

The Company's global sales and marketing staff numbered approximately 2,500 employees in the countries in which it operates, who sell and market the Company's products through a large number of distributors, fabricators and converters, as well as directly to end users such as food processors, food service businesses, and manufacturers. The Company has no material long-term contracts for the distribution of its products. In 2006, no customer or affiliated group of customers accounted for 10% or more of the Company's consolidated net sales. Although net sales of both food packaging products and protective packaging products have tended to be slightly higher in the fourth quarter, the Company does not consider seasonality to be material to its consolidated business or to either reportable business segment.

Competition for most of the Company's packaging products is based primarily on packaging performance characteristics, service and price. Competition is also based upon innovations in packaging technology and, as a result, the Company maintains ongoing research and development programs to enable it to maintain technological leadership.

The Company's net sales are sensitive to developments in its customers' business or market conditions, changes in the global economy, and the effects of foreign currency translation. Its costs can vary with changes in petrochemical-related costs, which are not within the Company's control. Consequently, the Company's management focuses on reducing those costs that the Company can control and using petrochemical-based raw materials as efficiently as possible. The Company also believes that its global presence helps to insulate it from localized changes in business conditions that may more strongly affect some of its competitors.

As is discussed below, the Company's businesses are managed to generate substantial cash flow. The Company believes that its strong cash flow will permit it to continue to spend on innovative research and development and to invest in its business by means of acquisitions and capital expenditures for property and equipment. Moreover, its ability to generate substantial cash flow should provide the Company with the flexibility to modify its capital structure as the need or opportunity arises. This cash flow, along with accumulated cash and funds available under its credit facilities, should enable the Company to make the

settlement payment, including interest, that is expected to be required of the Company upon consummation of a plan of reorganization in the W. R. Grace & Co. bankruptcy, as discussed below.

In addition to investing in its business, the Company uses its cash flow to reduce debt and to return value to its shareholders. On January 30, 2006, the Company announced that it was initiating payment of a quarterly cash dividend. The Board of Directors declared a quarterly dividend of \$0.15 per common share that was payable on March 17, June 16, September 15, and December 15, 2006. On February 16, 2007, the Company announced that its Board of Directors had declared a two-for-one stock split to be effected in the form of a stock dividend payable on March 16, 2007 to stockholders of record of outstanding shares of its common stock at the close of business on March 2, 2007. The Company's Board of Directors also increased the Company's quarterly cash dividend by 33% to \$0.20 per common share, declaring a quarterly cash dividend payable on the pre-split shares of the Company's common stock on March 16, 2007 to stockholders of record at the close of business on March 2, 2007. In addition, on July 19, 2006, the Company's 5.625% euro notes with a face value of 200.0 million matured. The Company used available cash of \$251.7 million to retire this debt.

Highlights for the Company's year 2006 compared with 2005 and 2004 were:

	2006	2005	2004	2006 vs. 2005	2005 vs. 2004
	(dollars in millions)			% Change	% Change
U.S.	\$ 2,066.3	\$ 1,972.9	\$ 1,851.8	5 %	7 %

### *Net Sales*

The principal factors contributing to changes in net sales in the three years ended December 31, 2006 were changes in unit volume, changes in product mix and increases in average selling prices. In addition, the 2006 period had increased volumes from acquired businesses. The 2005 period was impacted by the effects of foreign currency translation while the impact in 2006 was minimal.

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

Net sales in 2006 increased 6% to \$4,327.9 million compared with \$4,085.1 million in 2005. The components of the increase in net sales for 2006 were as follows (dollars in millions):

	Components of Increase in Net Sales (2006 vs. 2005):						Total Company		
	Food Packaging Segment			Protective Packaging Segment					
Volume Units	2.5	%	\$ 63.2	0.8	%	\$ 13.1	1.9	%	\$ 76.3
Volume Acquired Businesses, net of dispositions	2.6		66.7	0.6			1.6		67.3
Price/Mix	1.5		38.5	3.9		59.3	2.4		97.8
Foreign Currency Translation	0.1		2.4	(0.1)		(1.0)			1.4
Total	6.7	%	\$ 170.8	4.6	%	\$ 72.0	5.9	%	\$ 242.8

In 2006, foreign currency translation had a negligible impact on net sales. During the first six months of 2006, net sales had an unfavorable impact from foreign currency translation primarily from the weakness of foreign currencies in Europe which were offset in the second half of 2006 by their strengthening against the U.S. dollar. In addition, the Brazilian real and the Canadian dollar strengthened all year against the U.S. dollar offset by the weakness of foreign currencies in Asia Pacific.

Net sales for 2005 increased 8% to \$4,085.1 million compared with \$3,798.1 million in 2004. The components of the increase in net sales for 2005 were as follows (dollars in millions):

	Components of Increase in Net Sales (2005 vs. 2004):						Total Company		
	Food Packaging Segment			Protective Packaging Segment					
Volume Units	2.8	%	\$ 64.8	2.7	%	\$ 39.7	2.8	%	\$ 104.5
Volume Acquired Businesses, net of dispositions	(0.2)		(4.6)	0.7		9.6	0.1		5.0
Price/Mix	3.5		82.7	2.6		37.5	3.2		120.2
Foreign Currency Translation	1.8		42.3	1.0		15.0	1.5		57.3
Total	7.9	%	\$185.2	7.0	%	\$101.8	7.6	%	\$287.0

Foreign currency translation had a favorable impact on net sales of \$57.3 million in 2005. Excluding the positive effect of foreign currency translation, net sales would have increased 6% compared with 2004. The favorable foreign currency translation impact on net sales for the full year of 2005 was primarily due to the strengthening of foreign currencies in the Asia Pacific region, Brazil and Europe against the U.S. dollar. The full year favorable impact of \$57.3 million includes an unfavorable fourth quarter impact of \$10.9 million, primarily due to the weakness of foreign currencies in Europe against the U.S. dollar.

Net sales of the Company's food packaging segment, which consists primarily of the Company's Cryovac® food packaging products, constituted 62% of net sales in 2006, 2005 and 2004. The Company's protective packaging segment contributed the balance of net sales. This segment aggregates the Company's protective packaging products and shrink packaging products, all of which are used principally for non-food packaging applications.

*Food Packaging Segment Sales*

Net sales of food packaging products increased 7% in 2006 to \$2,702.9 million compared with \$2,532.1 million in 2005 and increased 8% in 2005 compared with \$2,346.9 million in 2004. Foreign currency translation had a favorable impact on this segment of \$2.4 million in 2006 and when this impact is excluded, it would not have changed the net sales increase over the prior year. When compared with 2004, excluding the positive foreign currency translation effect of \$42.3 million, net sales for this segment in 2005 would have increased 6% compared with 2004.

During 2006, strong unit volume growth, primarily in Latin America, the positive impact of the Company's 2006 acquisitions and selling price increases in North America added to sales growth during the year. In 2005 unit volumes increased in all regions of the world, with the Asia Pacific and Latin America regions having the primary impact. The segment also benefited in 2005 from price/mix due in part to selling price increases.

*Flexible Packaging Materials and Related Systems*

Among the classes of products in the food packaging segment, net sales of flexible packaging materials and related systems increased 6% to \$2,247.6 million in 2006 compared with \$2,122.8 million in 2005 and increased 7% in 2005 compared with 2004 net sales of \$1,976.5 million. Foreign currency translation had a favorable impact of \$3.0 million in 2006 for flexible packaging materials and related systems. Excluding the positive foreign currency translation effect, the increase in net sales for flexible packaging materials and related systems would have remained the same at 6% compared with 2005.

Foreign currency translation had a favorable impact of \$37.3 million in 2005 for flexible packaging materials and related systems. Excluding the positive foreign currency translation effect, net sales for flexible packaging materials and related systems would have increased 6% compared with 2004.

The components of the increase in net sales for 2006 and 2005 were as follows (dollars in millions):

	Components of Increase in Net Sales: Flexible Packaging Materials and Related Systems					
	2006 vs. 2005			2005 vs. 2004		
Volume Units	1.8	%	\$ 38.1	3.0	%	\$ 59.4
Volume Acquired Businesses	3.2		67.6			
Price/Mix	0.8		16.1	2.5		49.6
Foreign Currency Translation	0.1		3.0	1.9		37.3
Total	5.9	%	\$ 124.8	7.4	%	\$ 146.3

*Rigid Packaging and Absorbent Pads*

Net sales of rigid packaging and absorbent pads, the other class of products in the food packaging segment, increased 11% to \$455.3 million compared with \$409.3 million in 2005 and increased 11% in 2005 compared with 2004 net sales of \$370.4 million.

Foreign currency translation had a minimal unfavorable impact of \$0.6 million in 2006 for rigid packaging and absorbent pads. Excluding the unfavorable effect of foreign currency translation, the increase in net sales in 2006 would have remained the same at 11% compared with 2005. Foreign currency translation had a favorable impact of \$5.1 million in 2005 for rigid packaging and absorbent pads. Excluding the positive effect of foreign currency translation, net sales of rigid packaging and absorbent pads would have increased 9% compared with 2004.

The components of the increase in net sales for 2006 and 2005 were as follows (dollars in millions):

	Components of Increase in Net Sales: Rigid Packaging and Absorbent Pads							
	2006 vs. 2005				2005 vs. 2004			
Volume Units	6.1	%	\$ 25.1		1.5	%	\$ 5.4	
Volume Acquired Businesses, net of dispositions	(0.2)	)	(0.9)	)	(1.3)	)	(4.7)	)
Price/Mix	5.4		22.4		8.9		33.1	
Foreign Currency Translation	(0.1)	)	(0.6)	)	1.4		5.1	
Total	11.2	%	\$ 46.0		10.5	%	\$ 38.9	

## Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The Company sells foam and solid plastic trays and containers that customers use to package a wide variety of food products. The Company manufactures such products in its own facilities in various regions or has them fabricated by other manufacturers. The Company's net sales of such products fabricated by other manufacturers were \$157.3 million, \$119.4 million and \$83.5 million in 2006, 2005 and 2004, respectively.

### *Protective Packaging Segment Sales*

Net sales of protective packaging products increased 5% to \$1,625.0 million in 2006 compared with \$1,553.0 million in 2005 and increased 7% in 2005 compared with 2004 sales of \$1,451.2 million. During 2006, the positive impact of selling price increases in North America helped drive sales growth. In 2005, sales growth in this segment was balanced between unit volume growth of \$39.7 million, primarily in North America, and a positive price/mix impact of \$37.5 million, primarily in North America and to a lesser extent in Europe, in part due to selling price increases.

Foreign currency translation had an unfavorable impact of \$1.0 million in 2006 for this segment, which would not have changed the net sales growth compared with 2005. In 2005, foreign currency translation had a favorable impact of \$15 million for this segment. Excluding the positive foreign currency translation effect, net sales in 2005 for the protective packaging segment would have increased 6% compared with 2004.

The classes of products within the protective packaging segment are cushioning and surface protection products and other products. Other products within the protective packaging segment represented approximately 1% of consolidated net sales in 2006, 2005 and 2004.

### *Sales by Geographic Region*

Net sales from operations in the United States represented 48% of net sales in 2006 and 2005. Net sales from U.S. operations increased 5% in 2006 to \$2,066.3 million compared with \$1,972.9 million in 2005. Net sales from international operations increased 7% in 2006 to \$2,261.6 million compared with \$2,112.2 million in 2005. Excluding the \$1.4 million positive foreign currency translation effect, the increase in international net sales would have remained the same at 7% compared with 2005. The components of the increase in net sales by geographic region for 2006 were as follows (dollars in millions):

	Components of Increase in Net Sales (2006 vs. 2005):								
	U.S.			International			Total Company		
Volume Units	0.3	%	\$ 5.6	3.3	%	\$ 70.7	1.9	%	\$ 76.3
Volume Acquired Businesses, net of dispositions			0.6	3.2		66.7	1.6		67.3
Price/Mix	4.4		87.2	0.5		10.6	2.4		97.8
Foreign Currency Translation				0.1		1.4			1.4
<b>Total</b>	<b>4.7</b>	<b>%</b>	<b>\$ 93.4</b>	<b>7.1</b>	<b>%</b>	<b>\$ 149.4</b>	<b>5.9</b>	<b>%</b>	<b>\$ 242.8</b>

Net sales from operations in the United States represented 48% and 49% of net sales in 2005 and 2004, respectively. Net sales from U.S. operations increased 7% in 2005 to \$1,972.9 million compared with \$1,851.8 million in 2004. Net sales from international operations increased 9% in 2005 to \$2,112.2 million compared with \$1,946.3 million in 2004. Excluding the \$57.3 million positive foreign currency translation effect, international net sales would have increased 6% compared with 2004. The components of the increase in net sales by geographic region for 2005 were as follows (dollars in millions):

	Components of Increase in Net Sales (2005 vs. 2004):								
	U.S.			International			Total Company		
Volume Units	2.2	%	\$ 40.0	3.3	%	\$ 64.5	2.8	%	\$ 104.5
Volume Acquired Businesses, net of dispositions	0.1		1.4	0.2		3.6	0.1		5.0
Price/Mix	4.2		79.7	2.1		40.5	3.2		120.2
Foreign Currency Translation				2.9		57.3	1.5		57.3
Total	6.5	%	\$ 121.1	8.5	%	\$ 165.9	7.6	%	\$ 287.0

### Costs and Margins

Gross profit as a percentage of net sales was 28.7% in 2006, 28.3% in 2005 and 30.6% in 2004. The increase in gross profit in 2006 was due to the positive impact of selling price increases combined with improved operating efficiencies that helped offset higher average petrochemical-based raw material and other energy-related costs compared with the prior year. During the first three quarters of 2006, petrochemical-based raw material and other energy-related costs were higher than in the corresponding 2005 quarter. During the fourth quarter of 2006, certain petrochemical-based commodity raw material prices moderated but most speciality resin costs were at or above 2005 levels.

The principal cause for the reduction in 2005 compared with 2004 was significantly higher petrochemical-based raw material and other energy-related costs. Over this time frame, the prices of crude oil and natural gas, which serve as feedstocks utilized in the production of many of the resins the Company buys, increased significantly. Although changes in prices of crude oil and natural gas are not perfect benchmarks, they are indicative of the variations in raw material and energy-related costs faced by the Company. In addition, the decrease in gross profit was also caused in part by an unfavorable shift in product mix, which was partially offset by increases in selling prices.

Marketing, administrative and development expenses increased 9% in 2006 and 3% in 2005. The increase in 2006 was due to higher year-on-year management incentive compensation of approximately \$11.0 million as the Company met most of its performance objectives in 2006, incremental spending related to the upgrade of the Company's information technology platform of approximately \$10.0 million, operating expenses of businesses acquired during the year including Nelipak Holdings B.V. in January 2006 and Biosphere Industries, LLC in October 2006 of approximately \$12.0 million in the aggregate and expenses to support the higher volume in net sales.

The increase in 2005 was due to the impact of foreign currency translation, higher professional fees, and, to a lesser extent, expenses for research and development related projects, partially offset by a reduction in management incentive compensation as the Company did not meet certain performance objectives for 2005 and partial year savings from restructuring activities initiated in the fourth quarter of 2004, as discussed below.

Marketing, administrative and development expenses as a percentage of net sales were 16.2% in 2006, 15.8% in 2005 and 16.5% in 2004.

**Global Manufacturing Strategy and Restructuring Charges***Global Manufacturing Strategy*

The Company's global manufacturing strategy, when implemented, will expand production in countries where demand for the Company's products and services has been growing significantly. At the same time, the Company intends to realign certain manufacturing capacity in North America and Europe into centers of excellence. The goals of this multi-year program are to expand capacity in growing markets, further improve the Company's operating efficiencies, and implement new technologies more effectively. The Company expects this program, combined with the Company's supply chain initiative, to produce meaningful savings in future years. By taking advantage of new technologies and streamlining production on a global scale, the Company expects to continue to enhance its profitable growth and its global leadership position.

In July 2006, the Company announced the first phase of this multi-year global manufacturing strategy. The financial scope of this phase is expected to be as follows:

	Expected Range	Incurred through December 31, 2006
Capital Expenditures	\$ 130.0 150.0	\$ 14.2
Associated Costs	\$ 90.0 100.0	\$ 15.6

The associated costs include such items as equipment relocation, facility start-up and severance. The Company expects the capital expenditures and charges for associated costs to occur between 2007 and 2008, although the actual timing of these expenditures is subject to change due to a variety of factors. The Company's estimated savings resulting from implementing this strategy are expected to range from \$55 to \$65 million annually starting in 2009. A portion of these savings will be realized starting in 2007.

During 2006, all charges for the associated costs related to the food packaging segment and consisted of the following:

Employee termination costs	\$ 11.6
FAS 88 curtailment and settlements	0.2
Equipment relocations and facility start-up	3.8
Total	\$ 15.6

The components of the associated costs appear in the 2006 consolidated statement of operations on the following line items:

Restructuring charges	\$ 11.8
Cost of sales	3.8
Total	\$ 15.6

The Company has accrued \$11.6 million in severance costs in connection with this strategy. These costs will be future cash expenditures that will be incurred for one-time termination benefits. At the time the severance was accrued, the Company expected to eliminate 242 full-time positions. Since that time, the Company revised the number of positions to be eliminated to 245. During 2006, 36 positions were eliminated and the remaining positions are expected to be eliminated in 2007. The Company expects these benefits will be paid out before the end of 2009. The Company expects to add approximately 120 full-time employees at other facilities as production is transferred, so the net reduction in positions is expected to be 125. The Company reflected the \$11.6 million of severance costs in its consolidated statement of operations for 2006 in restructuring charges.

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The components of the restructuring charges, spending and other activity through December 31, 2006 and the remaining accrual balance at December 31, 2006 were as follows:

	Employee Termination Costs	
Original provision in 2006	\$	11.6
Cash payments during 2006	(0.4)	)
Effect of changes in currency rates	(0.3)	)
Restructuring accrual at December 31, 2006	\$	10.9

The Company expects to pay \$5.7 million of the remaining accrual balance at December 31, 2006 in 2007. This amount is reflected in other current liabilities on the Company's consolidated balance sheet at December 31, 2006. The remaining accrual of \$5.2 million is expected to be paid in 2008 and 2009 and is reflected in other liabilities on the Company's consolidated balance sheet at December 31, 2006.

*Other 2006 Restructuring Activities*

During 2006, the Company accrued severance costs of \$0.6 million related to the Company's consolidation of its food packaging customer service activities in Canada. Such amount was reflected in the consolidated statement of operations on the restructuring charges line. The Company expects to eliminate 9 full-time positions. No cash payments were made during 2006 related to this accrual. The accrual balance at December 31, 2006 was \$0.6 million which was reflected in other current liabilities on the Company's consolidated balance sheet.

*2004 Restructuring Program*

During the fourth quarter of 2004, the Company announced a series of separate profit improvement plans in various geographic regions in order to complement the Company's long-term growth programs and financial goals, improve the Company's operating efficiencies and lower its overall cost structure. The plans principally reduced the number of employees and consolidated or relocated operations in both of the Company's reportable business segments.

At December 31, 2004, the Company expected to eliminate 473 full-time positions, which was increased to 475 during 2005. As an element of the program, the Company expected to add approximately 100 positions in connection with the Company's realignment or relocation of some of its manufacturing activities, so that the net reduction in positions was approximately 375. These actions affected principally production workers and members of the Company's sales force, primarily in Europe. The Company has completed its reduction in headcount related to its 2004 restructuring program.

The charges for the year ended December 31, 2004 consisted of the following:

	Year Ended December 31, 2004		
	Food Packaging	Protective Packaging	Total Cost
Employee termination costs	\$ 17.5	\$ 4.1	\$ 21.6
Long-lived asset impairments	10.2	0.1	10.3
Facility exit costs	1.1		1.1
FAS 88 curtailment and settlements	0.3		0.3
Total	\$ 29.1	\$ 4.2	\$ 33.3

The long-lived asset impairment of \$10.3 million consisted of write-downs and write-offs of property and equipment. The impairments related to decisions to rationalize and realign production of some of the Company's smaller product lines and to close several smaller European manufacturing facilities. Since the undiscounted cash flows associated with these asset groups, including estimated salvage value, were less

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

than the carrying values of these asset groups, they were written down to their estimated fair value. The Company disposed of these facilities and much of the equipment during the first six months of 2006.

The components of the restructuring charges, spending and other activity through December 31, 2006 and the remaining accrual balance at December 31, 2006 were as follows:

	Employee Termination Costs		Facility Exit Costs		Total Cost	
Original provision in 2004	\$	21.6	\$	1.1	\$	22.7
Cash payments during 2004		(0.6)				(0.6)
Effect of changes in currency rates		0.2				0.2
Restructuring accrual at December 31, 2004		21.2		1.1		22.3
Cash payments during 2005		(16.5)		(0.3)		(16.8)
Adjustment to restructuring liability, net		0.4				0.4
Effect of changes in currency rates		(0.4)		(0.1)		(0.5)
Restructuring accrual at December 31, 2005		4.7		0.7		5.4
Cash payments during 2006		(3.8)		(0.3)		(4.1)
Adjustment to restructuring liability, net		(0.1)				(0.1)
Effect of changes in currency rates		0.2				0.2
Restructuring accrual at December 31, 2006	\$	1.0	\$	0.4	\$	1.4

The Company expects to pay \$1.3 million of the remaining \$1.4 million accrual balance in 2007 and \$0.1 million in 2008.

For the year ended December 31, 2006, the Company recorded in its consolidated statement of operations an additional restructuring charge of \$0.6 million which was related to the 2004 program. This amount includes additional costs related to the relocation of employees and assets from closed facilities which were completed in 2006. The Company also recorded in its consolidated statement of operations a net credit of \$0.1 million related to employee termination costs that were accrued as part of the 2004 restructuring program. The modifications to the originally recorded amounts resulted from increases in the amounts due to terminated employees of \$0.1 million and reductions based upon certain employees no longer being eligible for the termination benefits of \$0.2 million.

For the year ended December 31, 2005, the Company recorded \$1.7 million of additional charges related to the 2004 restructuring program. This amount includes \$1.3 million of costs incurred in 2005 related to the relocation of assets and employees from facilities that were closed as part of the restructuring program. The Company also recorded a net charge of \$0.4 million related to the employee termination costs that were accrued as part of the 2004 restructuring program. The modifications to the originally recorded amounts resulted from increases in the amounts due to terminated employees of \$0.9 million and reductions based upon certain employees no longer being eligible for the termination benefits of \$0.5 million.

The Company estimates that the cost savings realized in 2006 were \$25.0 to \$30.0 million.

### **Operating Profit**

Operating profit increased 3% in 2006 and 1% in 2005. The increase in 2006 was due to an increase in net sales partially offset by higher petrochemical-based raw material and other energy-related costs, an increase of \$55.2 million in marketing, administrative and development expenses and an increase of \$11.2 million in restructuring charges in 2006.

The increase in 2005 was due to an increase in net sales and a decrease of \$31.3 million in restructuring and other charges, partially offset by higher petrochemical-based raw material and other energy-related costs and an increase of \$19.8 million in marketing, administrative and development expenses. As a percentage of net sales, operating profit was 12.2% in 2006, 12.5% in 2005 and 13.2% in 2004.

Operating profit by business segment for 2006, 2005 and 2004 was as follows (dollars in millions):

	Year Ended December 31,		
	2006	2005	2004
Food Packaging Segment	\$ 311.0	\$ 324.1	\$ 319.3
Protective Packaging Segment	228.7	189.0	217.6
Total segments	539.7	513.1	536.9
Restructuring and other charges	(12.9 )	(1.7 )	(33.0 )
Unallocated corporate operating expenses	(0.7 )	(1.0 )	(0.9 )
Total	\$ 526.1	\$ 510.4	\$ 503.0

The food packaging segment contributed 58%, 63% and 59% of the Company's operating profit in 2006, 2005 and 2004, respectively, before taking into consideration restructuring and other (charges) credits and unallocated corporate operating expenses. The Company's protective packaging segment contributed the balance of operating profit.

#### *Food Packaging Operating Profit*

Food packaging operating profit was 11.5%, 12.8% and 13.6% of food packaging net sales in 2006, 2005 and 2004, respectively. The decline in operating profit as a percentage of net sales in 2006 compared with 2005 was primarily due to higher raw material costs, particularly specialty resins, higher energy-related costs, the higher marketing, administrative and development expenses referenced above and expenses related to the implementation of the Company's global manufacturing strategy also referenced above, offset by the improved contribution from increased net sales.

The decline in operating profit as a percentage of net sales in 2005 compared with 2004 was due to higher raw material and energy-related costs combined with an unfavorable shift in product mix, partially offset by selling price increases.

#### *Protective Packaging Operating Profit*

Protective packaging operating profit was 14.1%, 12.2% and 15.0% of protective packaging net sales in 2006, 2005 and 2004, respectively. The increase in operating profit as a percentage of net sales in 2006 compared with 2005 was due to selling price increases, primarily in North America and to a lesser extent in Europe, and improved performance in North America and Europe based on management actions taken to improve profitability, which helped offset higher raw material and energy-related costs.

The decline in operating profit as a percentage of net sales in 2005 compared with 2004 was due to higher raw material and energy-related costs combined with an unfavorable shift in product mix, partially offset by selling price increases.

#### *Interest Expense*

Interest expense includes the effects of interest rate swaps and the amortization of capitalized senior debt issuance costs, bond discounts and terminated treasury locks. These expenses were \$148.0 million in 2006, \$149.7 million in 2005, and \$153.7 million in 2004.

The decrease in interest expense in 2006 compared with 2005 was primarily due to the following:

- a \$7.5 million decrease due to the retirement of the Company's 5.625% euro notes in July 2006 discussed below; and
- a decrease of \$1.8 million related to higher capitalized interest during the construction of capital investment projects in 2006 compared with the 2005 period;

partially offset by;

- \$5.0 million due to the impact of higher interest rates on the Company's \$300.0 million of outstanding interest rate swaps entered into to effectively convert its 5.375% senior notes due April 2008 into floating rate debt; and
- an increase of \$1.7 million caused by additional expense related to the compounding of interest on the amount payable pursuant to the asbestos settlement agreement.

The decrease in interest expense in 2005 compared with 2004 was primarily due to the following:

- a \$12.5 million decrease due to the redemption of the entire outstanding principal amount, \$177.5 million, of the Company's 8.75% senior notes due July 2008, the repurchase of \$22.7 million face amount of its 6.95% senior notes due May 2009, and the termination of related interest rate swaps with a total notional amount of \$150 million, all in the fourth quarter of 2004;

partially offset by;

- an increase of \$4.7 million due to the impact of higher interest rates on the Company's \$300.0 million of outstanding interest rate swaps entered into to effectively convert its 5.375% senior notes due April 2008 into floating rate debt;
- an increase of \$1.6 million caused by additional expense related to the compounding of interest on the amount payable pursuant to the asbestos settlement agreement; and
- an increase of \$1.4 million related to lower capitalized interest during the construction of capital investment projects in 2005 compared with the 2004 period.

#### ***Other Income, Net***

Other income, net, was \$22.0 million in 2006, \$15.9 million in 2005, and \$5.8 million in 2004. Included in these amounts are primarily interest and dividend income of \$16.8 million, \$11.1 million and \$7.7 million and net foreign exchange transaction losses of \$4.1 million, \$4.7 million and \$9.0 million in 2006, 2005 and 2004, respectively.

#### ***Loss On Debt Redemption and Repurchases***

In 2004 the Company incurred losses of \$32.2 million due to debt redemptions and repurchases. These losses were reflected in the statement of operations in Loss on debt redemption and repurchases. See below under the caption Analysis of Historical Cash Flows Debt Redemption and Repurchases for further discussion of these transactions.

#### ***Income Taxes***

The Company's effective income tax rate was 31.5% in 2006, 32.1% in 2005 and 33.3% in 2004. The decrease in the 2006 effective income tax rate compared with 2005 was primarily due to a shift in the mix of foreign earnings. The Company currently expects an effective income tax rate of approximately 31.5% for 2007.

The decrease in the 2005 effective income tax rate compared with 2004 was primarily due to the reversal of reserves for tax matters for periods that closed in the relevant jurisdictions.

In 2006 and 2005 the effective income tax rate was lower than the statutory U.S. federal income tax rate of 35.0% primarily due to the lower net effective income tax rate on foreign earnings, partially offset by the effect of state income taxes.

### ***Net Earnings***

As a result of the factors noted above, net earnings were \$274.1 million in 2006, \$255.8 million in 2005 and \$215.6 million in 2004.

### ***Earnings per Common Share***

Basic earnings per common share were \$3.38 for 2006, \$3.09 for 2005 and \$2.56 for 2004. Diluted earnings per common share were \$2.93 for 2006, \$2.69 for 2005 and \$2.25 for 2004.

In calculating diluted earnings per common share, the Company's calculation of the weighted average number of common shares for 2006, 2005 and 2004 provides for the conversion of the Company's 3% convertible senior notes due June 2033, the assumed issuance of nine million shares of common stock reserved for the Company's previously announced asbestos settlement and the exercise of dilutive stock options, net of assumed treasury stock repurchases. See Note 18, *Earnings Per Common Share*, of the Notes to the Consolidated Financial Statements, which is contained in Item 8 of Part II of this Annual Report on Form 10-K and is incorporated herein by reference.

### **Liquidity and Capital Resources**

The discussion that follows contains:

- a description of the Company's material commitments and contingencies,
- a description of the Company's principal sources of liquidity,
- a description of the Company's outstanding indebtedness,
- an analysis of the Company's historical cash flows,
- a description of the Company's derivative financial instruments, and
- a description of the Company's shareholders' equity.

### ***Material Commitments and Contingencies***

#### *Asbestos Settlement; Commitments Related to the Cryovac Transaction*

The Company recorded a charge of \$850.1 million in the fourth quarter of 2002, of which \$512.5 million covers a cash payment that the Company is required to make upon the effectiveness of a plan of reorganization in the bankruptcy of W. R. Grace & Co. The Company did not use cash in any period with respect to this liability, and the Company cannot predict when it will be required to make this payment. The Company currently expects to fund this payment by using a combination of accumulated cash and future cash flows from operations and funds available under its \$500 million senior unsecured multi-currency credit facility or its accounts receivable securitization program, both described below, or a combination of these alternatives. The cash payment of \$512.5 million accrues interest at a 5.5% annual rate, which is compounded annually, from December 21, 2002 to the date of payment. The Company has recorded this accrued interest in other current liabilities in its consolidated balance sheets, and these amounts were \$123.5 million and \$90.3 million at December 31, 2006 and 2005, respectively.

The Company is subject to other contingencies related to the Cryovac transaction. Note 16, *Commitments and Contingencies*, of the Notes to the Consolidated Financial Statements, which is contained in Item 8 of Part II of this Annual Report on Form 10-K, describes these contingencies under *Contingencies Related to the Cryovac Transaction* and is incorporated herein by reference.

*Compliance Matters*

The information set forth in Item 8 of Part II of this Annual Report on Form 10-K in Note 16, Commitments and Contingencies, of the Notes to the Company's Consolidated Financial Statements under the caption Compliance Matters is incorporated herein by reference.

*Contractual Commitments*

The following table summarizes the Company's principal contractual obligations and sets forth the amounts of required cash outlays in 2007 and future years (amounts in millions):

	Payments Due by Period				
	Total	2007	2008-2009	2010-2011	Thereafter
Short-term borrowings	\$ 20.2	\$ 20.2	\$	\$	\$
Current portion of long-term debt exclusive of debt discounts	5.5	5.5			
Long-term debt, exclusive of debt discounts and interest rate swap adjustments	1,839.0		547.1	441.3	850.6
Total debt(1)(2)	1,864.7	25.7	547.1	441.3	850.6
Operating leases	103.6	25.6	31.3	19.4	27.3
Cash portion of the asbestos settlement, including accrued interest as of December 31, 2006(3)	636.0	636.0			
Declared 2007 first quarter quarterly cash dividend	16.1	16.1			
Other principal contractual obligations	168.5	79.4	65.3	18.3	5.5
Total contractual cash obligations	\$2,788.9	\$ 782.8	\$ 643.7	\$ 479.0	\$ 883.4

- (1) Includes principal maturities (at face value) only.
- (2) The 2010 period includes the 3% convertible senior notes since the holders of these notes have the option to require the Company to repurchase the senior notes on June 30 of 2010, 2013, 2018, 2023 and 2028. See Note 10, Debt and Credit Facilities, to the Consolidated Financial Statements.
- (3) This liability is reflected as a current liability due to the uncertainty of the timing of payment. Interest accrues on this amount at a rate of 5.5% per annum, compounded annually, until it becomes due and payable.

*Current Portion of Long-Term Debt and Long-Term Debt* The debt shown in the above table excludes unamortized bond discounts and interest rate swap adjustments as of December 31, 2006 and therefore represents the principal amount of the debt required to be repaid in each period.

*Operating Leases* In addition to the obligation to pay the principal amount of the debt obligations discussed above, the Company is obligated under the terms of various operating leases covering some of the facilities that it occupies and some production equipment, most of which are accounted for as operating leases. The contractual operating lease obligations listed in the table above represent estimated future minimum annual rental commitments under non-cancelable real and personal property leases as of December 31, 2006.

*Asbestos Settlement* The asbestos settlement is described more fully in Asbestos Settlement; Commitments Related to the Cryovac Transaction, above.

*Cash Dividend* On February 16, 2007, the Company's Board of Directors increased the Company's quarterly cash dividend by 33% to \$0.20 per common share, declaring a quarterly cash dividend payable on the pre-split shares of the Company's common stock on March 16, 2007 to stockholders of record at the close of business on March 2, 2007. The estimate of this liability is \$16.1 million and was calculated using 80,672,810 shares of common stock that were

issued and outstanding as of January 31, 2006.

34

---

*Other Principal Contractual Obligations* Other principal contractual obligations include agreements to purchase an estimated amount of goods, including raw materials, or services in the normal course of business that are enforceable and legally binding and specify all significant terms, including fixed or minimum quantities to be purchased, minimum or variable price provisions and the approximate timing of the purchase.

*Off-Balance Sheet Arrangements*

The Company has reviewed its off-balance sheet arrangements and has determined that none of those arrangements have or are reasonably likely to have a material current or future effect on the Company's consolidated financial statements, liquidity, capital expenditures or capital resources. For a discussion of one such arrangement that may have a future effect that is material to investors, see Accounts Receivable Securitization Program, below.

*Interest Payments*

During 2006 and 2005, the Company paid \$121.9 million and \$117.0 million, respectively, in interest payments. The Company currently expects to pay from \$105.0 million to \$115.0 million in interest payments in 2007, including the impact of interest rate swap transactions. The actual interest paid in 2007 may be different from this amount if interest rates change or if the Company repurchases existing indebtedness or incurs indebtedness under its existing lines of credit or otherwise. This 2007 expected interest payment does not reflect payment of any accrued interest related to the asbestos settlement.

*Income Tax Payments*

During 2006 and 2005, the Company paid \$152.6 million and \$152.2 million, respectively, in income taxes. The Company currently expects to pay between \$187.0 million and \$197.0 million in income taxes in 2007, assuming it does not make the asbestos settlement payment in that year.

*Contributions to Defined Benefit Pension Plans*

The Company maintains defined benefit pension plans for a limited number of its U.S. employees and for some of its non-U.S. employees. During 2006 and 2005, the Company paid \$7.8 million and \$8.6 million, respectively, in employer contributions to these defined benefit pension plans. The Company currently expects employer contributions to be \$6.8 million in 2007.

*Environmental Matters*

The Company is subject to loss contingencies resulting from environmental laws and regulations, and it accrues for anticipated costs associated with investigatory and remediation efforts when an assessment has indicated that a loss is probable and can be reasonably estimated. These accruals do not take into account any discounting for the time value of money and are not reduced by potential insurance recoveries, if any. The Company does not believe that it is reasonably possible that its liability in excess of the amounts that it has accrued for environmental matters will be material to its consolidated statements of operations, balance sheets or cash flows. The Company reassesses environmental liabilities whenever circumstances become better defined or it can better estimate remediation efforts and their costs. The Company evaluates these liabilities periodically based on available information, including the progress of remedial investigations at each site, the current status of discussions with regulatory authorities regarding the methods and extent of remediation and the apportionment of costs among potentially responsible parties. As some of these issues are decided (the outcomes of which are subject to uncertainties) or new sites are assessed and costs can be reasonably estimated, the Company adjusts the recorded accruals, as necessary. The Company believes that these exposures are not material to its consolidated results of operations, balance sheets and cash flows. The Company believes that it has adequately reserved for all probable and estimable environmental exposures.

**Principal Sources of Liquidity**

The Company's principal sources of liquidity are accumulated cash and short-term investments, cash flows from operations and amounts available under its existing lines of credit described below, including the credit facility, the ANZ facility and its accounts receivable securitization program.

**Accumulated Cash and Cash Equivalents and Short-Term Investments**

As of December 31, 2006 and 2005, the Company had accumulated cash and cash equivalents of \$373.1 million and \$455.8 million, respectively, and short-term investments of \$33.9 million and \$44.1 million, respectively. The Company's short-term investments consist of auction rate securities, all of which are classified as available-for-sale securities. See Note 4, "Short Term Investments Available for Sale Securities," to the Company's Consolidated Financial Statements, which describes these short-term investments.

**Cash Flows from Operations**

The Company expects that it will continue to generate significant cash flows from operations. See "Analysis of Historical Cash Flows" below.

**Lines of Credit**

The following table summarizes the Company's available lines of credit and committed and uncommitted lines of credit, including the credit facility and the ANZ facility discussed below, at December 31, 2006 and 2005:

	December 31, 2006	December 31, 2005
Used lines of credit	\$ 30.4	\$ 27.2
Unused lines of credit	810.6	797.6
Total available lines of credit	\$ 841.0	\$ 824.8
Available lines of credit committed	\$ 632.9	\$ 624.7
Available lines of credit uncommitted	208.1	200.1
Total available lines of credit	\$ 841.0	\$ 824.8

The Company's principal credit lines were all committed and consisted of the credit facility and the ANZ facility. The Company is not subject to any material compensating balance requirements in connection with its lines of credit.

**Revolving Credit Facilities**

**The Credit Facility** The Company has not borrowed under its \$500.0 million unsecured multi-currency revolving credit facility since its inception in July 2005. This facility contains a provision under which the Company may request, prior to each of the first and second anniversaries of the facility, a one-year extension of the termination of the facility. The Company requested an extension effective on the first anniversary, July 26, 2006, and lenders with commitments for \$457.0 million under the facility consented to the extension. Accordingly, on July 26, 2006 this extension became effective, as a result of which \$43.0 million of the facility will terminate on July 26, 2010, and \$457.0 million of the facility will terminate on July 26, 2011.

The credit facility is available for general corporate purposes including the payment of a portion of the \$512.5 million cash payment, plus accrued interest (which was \$123.5 million at December 31, 2006), required to be paid upon the effectiveness of an appropriate plan of reorganization in the

W. R. Grace & Co. bankruptcy. See Note 10, Debt and Credit Facilities of the Notes to the Company's Consolidated Financial Statements for further information on this credit facility.

*ANZ Facility* The Company has an Australian dollar 170 million, dual-currency revolving credit facility, known as the ANZ facility, equivalent to U.S. \$132.9 million at December 31, 2006, due March 2010. A syndicate of banks made this facility available to a group of the Company's Australian and New Zealand subsidiaries for general corporate purposes including refinancing of previously outstanding indebtedness. The Company may re-borrow amounts repaid under the ANZ facility from time to time prior to the expiration or earlier termination of the facility.

The Company borrowed under the ANZ facility during the second quarter of 2006, but it repaid those amounts in full and did not borrow further under the ANZ facility during 2006. There were no amounts outstanding under this facility at December 31, 2006 or at December 31, 2005. See Note 10, Debt and Credit Facilities of the Notes to the Company's Consolidated Financial Statements for further discussion on this facility.

#### *Other Lines of Credit*

Substantially all the Company's short-term borrowings of \$20.2 million and \$21.8 million at December 31, 2006 and 2005, respectively, were outstanding under lines of credit available to several of the Company's foreign subsidiaries. The weighted average interest rate on these outstanding lines of credit was 12.5% and 12.3% at December 31, 2006 and 2005, respectively. Amounts available under these credit lines as of December 31, 2006 and 2005 were approximately \$198.0 million and \$200.1 million, respectively, of which approximately \$177.8 million and \$178.3 million, respectively, were unused.

#### *Accounts Receivable Securitization Program*

The Company's \$125.0 million receivables program has an expiration date of December 7, 2007. The receivables program contains financial covenants relating to interest coverage and debt leverage. The Company was in compliance with these covenants at December 31, 2006.

The Company's receivables funding subsidiary did not sell any receivables interests under the receivables program during 2006, and therefore the Company did not remove any related amounts from the consolidated assets reflected on the Company's consolidated balance sheet at December 31, 2006.

During 2005, the Company's receivables funding subsidiary sold an undivided ownership interest in \$35 million of eligible receivables under the receivables program. Payments on the Company's receivables that were applied to these receivables interests in accordance with the terms of the program reduced the amount of receivables interests held by the bank or the issuer of commercial paper that are parties to the program to zero during 2005. Therefore, as of December 31, 2005, neither the bank nor the issuer of commercial paper held any receivables interests, and the Company did not remove any related amounts from the assets reflected on its consolidated balance sheet at December 31, 2005.

See Note 5, Accounts Receivable Securitization Program, of the Notes to the Consolidated Financial Statements for additional information concerning this program.

#### *Debt Ratings*

The Company's cost of capital and ability to obtain external financing may be affected by its debt ratings, which the credit rating agencies review periodically. The Company's long-term senior unsecured debt is currently rated Baa3 (stable outlook) by Moody's Investors Service, Inc. and BBB (negative outlook) by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. These ratings are among the ratings assigned by each of these organizations for investment grade long-term senior unsecured debt. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or

withdrawal at any time by the rating organization. Each rating should be evaluated independently of any other rating.

### ***Outstanding Indebtedness***

At December 31, 2006 and 2005, the Company's total debt outstanding consisted of the amounts set forth on the following table:

	<b>December 31, 2006</b>	<b>December 31, 2005</b>
Short-term borrowings	\$ 20.2	\$ 21.8
Current portion of long-term debt	5.5	241.4
<b>Total current debt</b>	<b>25.7</b>	<b>263.2</b>
Total long-term debt, less current portion	1,826.6	1,813.0
<b>Total debt</b>	<b>\$ 1,852.3</b>	<b>\$ 2,076.2</b>

### ***5.625% Euro Notes***

On July 19, 2006, the Company's 5.625% euro notes with a face value of 200.0 million matured. These notes were included in the current portion of long-term debt at December 31, 2005. The Company used available cash of \$251.7 million to retire this debt. Interest on the 5.625% euro notes was payable annually in arrears, with the final payment of \$14.2 million made upon maturity of the euro notes.

### ***Senior Notes***

Included in the Company's long-term debt is approximately \$1,796.2 million of senior notes with various maturities. The next maturity will be the Company's 5.375% senior notes which mature in April 2008. See Note 10, "Debt and Credit Facilities" of the Notes to the Company's Consolidated Financial Statements for additional information on the Company's debt.

### ***Analysis of Historical Cash Flows***

#### ***Net Cash Provided by Operating Activities***

Net cash provided by operating activities was \$432.9 million in 2006, \$363.3 million in 2005 and \$436.2 million in 2004. The increase in net cash provided by operating activities in 2006 was due to various factors:

- an increase in cash generated from accounts receivable in 2006 compared with 2005 due to an increase in cash collections during 2006 that exceeded the increase in net sales. In addition, during the 2006 period there was increased cash received from vendor rebates receivable;
- an increase in accrued restructuring costs in 2006 due to the recording of \$11.8 million of restructuring charges related to the global manufacturing strategy, partially offset by \$4.5 million in cash payments in 2006 related to the 2004 restructuring program and 2006 global manufacturing charge. Cash payments related to the 2004 restructuring program made in 2005 were \$16.8 million;
- an increase in income taxes payable in the 2006 period due to higher income tax expense;
- an increase in accrued payroll in the 2006 period partially due to higher management incentive compensation; and
- the timing of other receipts and payments in the ordinary course of business;

partially offset by;

- an increase in cash used for inventory in the 2006 period due to higher resin costs affecting all categories of inventory and higher raw material quantities in the 2006 period. Raw material inventory quantities were lower in the 2005 period in part due to the storm-related depletion of the Company's resin supplies. In addition, higher inventories were needed in 2006 to support the Company's global manufacturing strategy as projects got underway to shift production consistent with the Company's centers of excellence approach.

The reduction in net cash provided by operating activities in 2005 compared with 2004 was due to various factors:

- a reduction in cash generated from accounts payable balances. The cash generated in 2005 was \$16.7 million compared with \$48.5 million in 2004;
- cash used of \$16.8 million in 2005 compared with cash used of \$0.6 million in 2004 for employee termination and facility exit cost payments related to its 2004 restructuring program;
- an increase in cash used for income tax payments in 2005. The Company made cash payments of \$152.2 million in 2005 compared with \$141.9 million in 2004; and
- an increase in notes and accounts receivable due to higher net sales in 2005, partially offset by an increase in cash collections during 2005;

partially offset by;

- a reduction in cash used for inventory due to higher inventory turnover in the 2005 period, partially offset by higher raw material costs; and
- a change in accrued interest of \$11.3 million. Accrued interest increased \$31.8 million in 2005 compared with an increase of \$20.5 million in 2004. The increase in the 2005 period was primarily due to an increase of \$31.4 million due to additional accrued interest related to the Company's liability under the asbestos settlement agreement, which is compounded annually. The increase in 2004 was primarily due to an increase in accrued interest of \$29.8 million related to the asbestos settlement agreement, partially offset by a reduction of \$6.3 million in accrued interest related to the 8.75% senior notes, which were repurchased in 2003.

#### *Net Cash Used in Investing Activities*

Net cash used in investing activities amounted to \$202.5 million in 2006, \$88.9 million in 2005 and \$91.0 million in 2004. The increase in net cash used for investing activities in 2006 compared with 2005 was primarily due to the following:

- \$53.3 million of cash used to complete acquisitions in 2006 of which \$41.2 million was for the previously announced acquisition of Nelipak Holdings B.V. on January 3, 2006; and
- an increase of \$71.0 million in capital expenditures. Capital expenditures were \$167.9 million in 2006 compared with \$96.9 million in 2005.

The decrease in net cash used in 2005 compared with 2004 was primarily due to the following:

- a decrease in capital expenditures. Capital expenditures in 2005 were \$96.9 million compared with \$102.7 million in 2004; and

- lower levels of cash used for businesses acquired. In 2005 cash used was \$0.2 million compared with \$6.4 million in 2004;

39

---

partially offset by;

- lower net proceeds from the sale of available-for-sale securities in 2005 compared with 2004. See Note 4, Short Term Investments Available for Sale Securities, of the Notes to the Consolidated Financial Statements, which is contained in Item 8 of Part II of this Annual Report on Form 10-K, which describes these available-for-sale securities.

#### *Acquisitions*

Cash used to complete acquisitions was \$53.3 million in 2006, \$0.2 million in 2005 and \$6.4 million in 2004. In each year, cash used for acquisitions was net of cash acquired in those acquisitions. The cash acquired in those acquisitions was immaterial. The Company assumed \$9.6 million of debt related to the Nelipak Holdings B.V. acquisition in 2006. In 2005 and 2004, the Company did not assume any debt related to acquisitions.

#### *Capital Expenditures*

Capital expenditures were \$167.9 million in 2006, \$96.9 million in 2005 and \$102.7 million in 2004. Capital expenditures for the Company's food packaging segment amounted to \$142.4 million, \$80.7 million and \$81.3 million and for the protective packaging segment amounted to \$25.5 million, \$16.2 million and \$21.4 million in 2006, 2005 and 2004, respectively.

The increase in capital expenditures in 2006 compared with 2005 was due to investments in capacity expansion and in new technologies related to the Company's centers of excellence approach as well as global manufacturing capital expenditures of \$14.2 million.

The decrease in capital expenditures in 2005 compared with 2004 was primarily due to the completion of two new production facilities, one in the United States and one in Hungary, which the Company initiated in 2003 and completed in the early part of 2004. The improved productivity of existing assets allowed the Company to defer spending on incremental capacity in 2005.

The Company expects to continue to invest capital as it deems appropriate to expand its business, to replace depreciating property, plant and equipment, to acquire new manufacturing technology and to improve productivity. Taking into account capital expenditures in 2007 of \$60.0 to \$80.0 million on the Company's global manufacturing strategy, the Company expects total capital expenditures in 2007 to range between \$175.0 million and \$200.0 million. This projection is based upon the Company's capital expenditure budget for 2007, the status of approved but not yet completed capital projects, anticipated future projects including the implementation of the Company's global manufacturing strategy and historic spending trends.

#### *Net Cash Used in Financing Activities*

Net cash used in financing activities amounted to \$350.0 million in 2006, \$118.4 million in 2005 and \$300.3 million in 2004.

The increase in net cash used in financing activities in 2006 compared with 2005 was primarily due to the following:

- \$251.7 million of cash used to retire the Company's 5.625% euro notes on July 19, 2006; and
- \$48.6 million of cash used in 2006 to pay dividends on the Company's common stock;

partially offset by;

- a decrease in cash used in 2006 for the repurchase of shares of the Company's common stock, as discussed in Repurchases of Capital Stock below. Cash used in 2006 was \$52.4 million compared with \$116.4 million of cash used in 2005.

The decrease in net cash used in financing activities in 2005 compared with 2004 was primarily due to the following:

- \$232.3 million of cash used in 2004 for the debt repurchases and redemptions made in the fourth quarter of 2004; partially offset by;
- an increase in 2005 of \$30.2 million in net cash used to repurchase shares of the Company's common stock, as discussed below. In 2005, the Company used \$116.4 million to repurchase its common stock compared with \$86.2 million in 2004; and
- a decrease of \$20.3 million in proceeds from long-term debt in 2005 compared with 2004.

#### *Repurchases of Capital Stock*

In 2006, the Company repurchased 1,049,200 shares of its common stock, par value \$0.10 per share, in open market purchases at a cost of \$52.4 million. The average price per share of these common stock repurchases in 2006 was \$49.90.

In 2005, the Company repurchased 2,430,200 shares of its common stock, par value \$0.10 per share, in open market purchases at a cost of \$116.4 million in 2005. The average price per share of these common stock repurchases in 2005 was \$47.88.

In 2004, the Company repurchased 1,781,000 shares of its common stock, par value \$0.10 per share, in open market purchases, at a cost of \$86.2 million in 2004. The average price per share of the common stock repurchases in 2004 was \$48.38.

The share repurchases described above were made under a program previously adopted by the Company's Board of Directors. The share repurchase program authorized the repurchase of up to 16,977,147 shares of common stock, which included the Series A convertible preferred stock on an as-converted basis prior to its redemption. As of December 31, 2006, the Company had repurchased 15,376,571 shares of common stock and preferred stock on an as-converted basis, and the remaining repurchase authorization covered 1,600,576 shares of common stock. The Company may from time to time continue to repurchase its common stock.

#### *Debt Redemption and Repurchases*

##### *2004 Debt Redemption:*

On November 26, 2004, the Company used net cash of \$211.8 million to redeem the entire outstanding aggregate principal amount, \$177.5 million, of its 8.75% senior notes due July 1, 2008 and terminated interest rate swaps on the 8.75% senior notes having a total notional amount of \$150.0 million. The Company issued the senior notes on June 26, 2001 under Rule 144A and Regulation S of the Securities Act of 1933. The Company determined the redemption price in accordance with the indenture governing the notes. The net cash used of \$211.8 million consisted of cash used to purchase the senior notes at a premium plus accrued interest of \$213.4 million and cash received of \$1.6 million related to the termination of the interest rate swaps. The Company completed the redemption, funded with available cash, at a premium to the face amount of the notes, which resulted in a loss of \$29.6 million, which the Company reflected in the statement of operations as Loss on debt redemption and repurchases. The annual interest expense on the redeemed notes was approximately \$15.5 million, without giving effect to any interest rate swaps and the amortization of amounts related to the senior notes.

##### *2004 Debt Repurchases*

In November and December 2004, the Company used available cash of \$25.2 million to repurchase in the open market \$22.7 million face amount of its 6.95% senior notes due May 2009, which included accrued interest and related fees. Since the Company completed these repurchases at a premium to the face amount of the notes, it incurred a loss of \$2.6 million, which the Company reflected in the statement of operations as Loss on debt redemption and repurchases.

The Company may from time to time continue to repurchase or otherwise retire its outstanding indebtedness.

*Changes in Working Capital*

At December 31, 2006, working capital (current assets less current liabilities) was \$350.6 million compared with \$161.9 million at December 31, 2005. The \$188.7 million increase in the Company's working capital during 2006 arose primarily from the following changes:

- an increase of \$100.3 million in inventory. This increase was due to various factors which included the following:
  - \$46.6 million from the Company's application on January 1, 2006 of Staff Accounting Bulletin No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements, known as SAB 108. See Note 21 to the Consolidated Financial Statements for further information on this new accounting standard;
  - \$16.1 million from the effects of foreign currency translation;
  - an increase in raw materials inventory due to lower raw material inventory quantities in the 2005 period in part due to the storm-related depletion of the Company's resin supplies; and
  - higher inventories in 2006 needed to support the Company's global manufacturing strategy for projects began during 2006 to shift production consistent with the centers of excellence approach.
- a decrease of \$235.9 million in the current portion of long-term debt of which \$251.7 million was due to the retirement of the 5.625% euro notes in July 2006;
- an increase of \$47.3 million in accounts receivable. This increase was primarily due to \$30.9 million from the effects of foreign currency translation and, to a lesser extent, due to an increase in net sales in 2006, partially offset by increased cash collections which includes cash received from vendor rebates receivable;

partially offset by;

- a decrease of \$92.9 million in cash and cash equivalents and short-term investments due to \$251.7 million of cash used to retire the Company's 5.625% euro notes as noted above, \$48.6 million of cash used in 2006 to pay dividends on the Company's common stock, \$53.3 million of cash used in 2006 for businesses acquired of which \$41.2 million was due to the the previously announced acquisition of Nelipak Holdings B.V. on January 3, 2006, and \$52.4 million of cash used to repurchase the Company's common stock discussed above, partially offset by cash flow generated from operations;
- an increase of \$33.6 million in accounts payable, which includes \$10.9 million from the effects of foreign currency. The balance of the increase was primarily due to the increased levels of inventory;
- an increase of \$28.1 million in accrued interest primarily due to an additional \$33.2 million of accrued interest during 2006 related to the Company's liability under the asbestos settlement agreement, partially offset by a decrease of \$6.7 million due to the retirement of the Company's 5.625% euro notes in July 2006; and
- an increase of \$25.5 million in accrued payroll. This increase was primarily due to increased payroll-related costs, including an increase in the accrual for management incentive compensation in 2006 since the Company met most of its 2006 performance objectives and \$6.2 million from the effects of foreign currency translation.

*Current and Quick Ratios*

The ratio of current assets to current liabilities, known as the current ratio, was 1.2 at December 31, 2006 and 1.1 at December 31, 2005. The ratio of current assets less inventory to current liabilities, known as the quick ratio, was 0.9 at December 31, 2006 and 0.8 at December 31, 2005.

*Derivative Financial Instruments*

*Interest Rate Swaps*

The information set forth in Item 8 of Part II of this Annual Report on Form 10-K in Note 11, *Derivatives and Hedging Activities*, of the Notes to the Company's Consolidated Financial Statements under the caption *Interest Rate Swaps* is incorporated herein by reference.

*Foreign Currency Forward Contracts*

At December 31, 2006, the Company was party to foreign currency forward contracts, which did not have a significant impact on the Company's liquidity.

The information set forth in Item 8 of Part II of this Annual Report on Form 10-K in Note 11, *Derivatives and Hedging Activities*, of the Notes to the Company's Consolidated Financial Statements under the caption *Foreign Currency Forward Contracts* is incorporated herein by reference.

For further discussion about these contracts and other financial instruments, see Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*.

*Shareholders' Equity*

The Company's shareholders' equity was \$1,654.8 million at December 31, 2006, \$1,392.1 million at December 31, 2005 and \$1,333.5 million at December 31, 2004.

Shareholders' equity increased in 2006 primarily due to the following:

- net earnings of \$274.1 million;
- a reduction in foreign currency translation adjustment of \$99.0 million; and
- \$31.8 million due to the impact of the Company's application of SAB 108. See Note 21 to the Consolidated Financial Statements for further information.

partially offset by:

- \$55.8 million from the impact of the Company's adoption of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. See Note 14 to the Consolidated Financial Statements for further information;
- repurchases of the Company's common stock, at a cost of \$52.4 million; and
- dividends paid on common stock of \$48.6 million.

Shareholders' equity increased in 2005 principally due to the following:

- net earnings of \$255.8 million;

partially offset by:

- repurchases of the Company's common stock, at a cost of \$116.4 million; and

43

---

- an increase in foreign currency translation adjustment of \$91.9 million.

***Recently Issued Statements of Financial Accounting Standards, Accounting Guidance and Disclosure Requirements***

The Company is subject to numerous recently issued statements of financial accounting standards, accounting guidance and disclosure requirements. Note 22, *New Accounting Pronouncements - Recently Issued Statements of Financial Accounting Standards, Accounting Guidance and Disclosure Requirements*, of the Notes to the Consolidated Financial Statements, which is contained in Item 8 of Part II of this Annual Report on Form 10-K, describes these new accounting pronouncements and is incorporated herein by reference.

***Critical Accounting Policies and Estimates***

The Company's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States of America, known as US GAAP. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Estimates and assumptions are evaluated on an ongoing basis and are based on historical and other factors believed to be reasonable under the circumstances. The results of these estimates may form the basis of the carrying value of assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates, and while any differences may be material to the Company's consolidated financial statements, the Company does not believe that the differences, taken as a whole, will be material.

The Company believes the following accounting policies are critical to its business operations and the understanding of results of operations and affect the more significant judgments and estimates used in the preparation of its consolidated financial statements:

**Accounts Receivable** In the normal course of business, the Company extends credit to customers that satisfy pre-defined credit criteria. Accounts receivable, as shown on the consolidated balance sheets, are net of allowances for doubtful accounts. The Company maintains accounts receivable allowances for estimated losses resulting from the inability of its customers to make required payments. Additional allowances may be required if the financial condition of the Company's customers deteriorates.

**Commitments and Contingencies - Litigation** On an ongoing basis, the Company assesses the potential liabilities related to any lawsuits or claims brought against it. While it is typically very difficult to determine the timing and ultimate outcome of these actions, the Company uses its best judgment to determine if it is probable that it will incur an expense related to the settlement or final adjudication of these matters and whether a reasonable estimation of the probable loss, if any, can be made. In assessing probable losses, the Company makes estimates of the amount of insurance recoveries, if any. The Company accrues a liability when it believes a loss is probable and the amount of loss can be reasonably estimated. Due to the inherent uncertainties related to the eventual outcome of litigation and potential insurance recovery, it is possible that disputed matters may be resolved for amounts materially different from any provisions or disclosures that the Company has previously made. The Company expenses legal costs, including those legal costs expected to be incurred in connection with a loss contingency, as incurred.

**Impairment of Long-Lived Assets** The Company periodically reviews long-lived assets, other than goodwill, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. Goodwill, in accordance with SFAS No. 142, is reviewed for possible impairment at least annually during the fourth quarter of each fiscal year. A review of goodwill

may be initiated prior to conducting the annual analysis if events or changes in circumstances indicate that the carrying value of goodwill may be impaired. Assumptions and estimates used in the determination of impairment losses, such as future cash flows and disposition costs, may affect the carrying value of long-lived assets and possible impairment expense in the Company's consolidated financial statements.

**Self-Insurance** The Company retains the obligation for specified claims and losses related to property, casualty, workers' compensation and employee benefit claims. The Company accrues for outstanding reported claims, claims that have been incurred but not reported, and projected claims based upon management's estimates of the aggregate liability for uninsured claims using historical experience, insurance company estimates and the estimated trends in claim values. Although management believes it has the ability to adequately project and record estimated claim payments, actual results could differ significantly from the recorded liabilities.

**Pensions** The Company maintains a non-contributory profit sharing plan and contributory thrift and retirement savings plan in which most U.S. employees of the Company are eligible to participate. For a limited number of its U.S. employees and for some of its non-U.S. employees, the Company maintains defined benefit pension plans. The Company accounts for these pension plans in accordance with SFAS No. 158,

**Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans.** Under this accounting standard, the Company makes assumptions regarding the valuation of benefit obligations and performance of plan assets. The principal assumptions concern the discount rate used to measure future obligations, the expected future rate of return on plan assets, the expected rate of future compensation increases and various other actuarial assumptions. The measurement date used to determine the benefit obligations and the plan assets is December 31. In general, changes to these assumptions could have a significant impact on the costs and liabilities recorded under SFAS No. 158.

**Income Taxes** The Company's deferred tax assets arise from net deductible temporary differences and tax benefit carry forwards. The Company evaluates whether its taxable earnings during the periods when the temporary differences giving rise to deferred tax assets become deductible or when tax benefit carry forwards may be utilized should be sufficient to realize the related future income tax benefits. For those jurisdictions where the expiration dates of tax benefit carry forwards or the projected taxable earnings indicate that realization is not likely, the Company provides a valuation allowance.

In assessing the need for a valuation allowance, the Company estimates future taxable earnings, with consideration for the feasibility of ongoing tax planning strategies and the realizability of tax benefit carry forwards, to determine which deferred tax assets are more likely than not to be realized in the future. Valuation allowances related to deferred tax assets can be impacted by changes to tax laws, changes to statutory tax rates and future taxable earnings. In the event that actual results differ from these estimates in future periods, the Company may need to adjust the valuation allowance, which could materially impact the Company's consolidated financial statements.

In calculating its worldwide provision for income taxes, the Company also evaluates its tax positions for years where the statutes of limitations have not expired. Based on this review, the Company may establish reserves for additional taxes and interest that could be assessed upon examination by relevant tax authorities. The Company adjusts these reserves in light of changing facts and circumstances, including the results of tax audits and changes in tax law.

#### ***Educational Donation***

During the second quarter of 2006, the Company donated \$1.5 million to the Harvard Business School in partial funding of a professorship in the name of T. J. Dermot Dunphy. Mr. Dunphy, a director of the Company, was Chief Executive Officer of the Company from March 1971 until his retirement in February 2000. He received a Master's degree in Business Administration from the school in 1956.

***Non-GAAP Information***

The Company's management from time to time presents information that does not conform to U.S. Generally Accepted Accounting Principles, including changes in net sales excluding the effects of foreign currency translation. The Company's management uses changes in net sales excluding the effects of foreign currency translation to measure the performance of the Company's operations. Thus, management believes that this information may be useful to investors. Such measures are also among the criteria upon which performance-based compensation may be determined.

**Item 7A. Quantitative and Qualitative Disclosures about Market Risk**

The Company is exposed to market risk from changes in interest rates, foreign currency exchange rates and commodity prices, which may adversely affect its financial condition and results of operations. The Company seeks to minimize these risks through regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. The Company does not purchase, hold or sell derivative financial instruments for trading purposes.

***Interest Rates***

From time to time, the Company may use interest rate swaps, collars or options to manage its exposure to fluctuations in interest rates.

The Company's interest rate swaps are described in Note 11, Derivatives and Hedging Activities, of the Notes to the Company's Consolidated Financial Statements, which is contained in Part II, Item 8 of this Annual Report on Form 10-K and in Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Derivative Financial Instruments Interest Rate Swaps contained in Part II, Item 7 of this Annual Report on Form 10-K.

At December 31, 2006 and 2005, the Company had no collars or options outstanding.

At December 31, 2006 and 2005, the carrying value of the Company's total debt, which includes the impact of outstanding interest rate swaps, was \$1,852.3 million and \$2,076.2 million, respectively. The Company's fixed rate debt at December 31, 2006 and 2005, including the impact of interest rate swaps, was \$1,531.4 million and \$1,767.7 million, respectively. The fair value of the Company's fixed rate debt varies with changes in interest rates. Generally, the fair value of fixed rate debt will increase as interest rates fall and decrease as interest rates rise. The estimated fair value of the Company's total debt, including the impact of outstanding interest rate swaps, was \$1,885.9 million at December 31, 2006 compared with \$2,135.7 million at December 31, 2005. A hypothetical 10% decrease in interest rates would result in an increase in the fair value of the total debt balance at December 31, 2006 of \$81.6 million. These changes in the fair value of the Company's fixed rate debt do not alter the Company's obligations to repay the outstanding principal amount of such debt.

***Foreign Exchange Rates***

The Company uses foreign currency forward contracts to fix the amount payable on transactions denominated in foreign currencies. A hypothetical 10% adverse change in foreign exchange rates at December 31, 2006 would have caused the Company to pay approximately \$20.7 million to terminate these contracts.

The Company's foreign currency forward contracts are described in Note 11, Derivatives and Hedging Activities, of the Notes to the Company's Consolidated Financial Statements, which is contained in Part II, Item 8 and in Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Derivative Financial Instruments Foreign Currency Forward Contracts contained in Part II, Item 7 of this Annual Report on Form 10-K.

The Company may use other derivative instruments from time to time, such as foreign exchange options to manage exposure due to foreign exchange rates and interest rate and currency swaps related to access to additional sources of international financing. These instruments can potentially limit foreign exchange exposure and limit or adjust interest rate exposure by swapping borrowings denominated in one currency for borrowings denominated in another currency. At December 31, 2006 and 2005, the Company had no foreign exchange options or interest rate and currency swap agreements outstanding.

The Company's outstanding debt is generally denominated in the functional currency of the borrowing subsidiary. The Company believes that this enables it to better match operating cash flows with debt service requirements and to better match the currency of assets and liabilities. The amount of outstanding debt denominated in a functional currency other than the U.S. dollar was \$34.4 million and \$262.8 million at December 31, 2006 and 2005, respectively. The decrease in 2006 compared with 2005 was due to the maturity of the Company's 5.625% euro notes with a face value of 200.0 million as discussed above.

### *Commodities*

The Company uses various commodity raw materials such as plastic resins and energy products such as electric power and natural gas in conjunction with its manufacturing processes. Generally, the Company acquires these components at market prices and does not use financial instruments to hedge commodity prices. Moreover, the Company's supply chain team seeks to maintain appropriate levels of commodity raw material inventories thus minimizing the expense and risks of carrying excess inventories. The Company does not typically purchase substantial quantities in advance of production requirements. As a result, the Company is exposed to market risks related to changes in commodity prices of these components.

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders  
Sealed Air Corporation:

We have audited the accompanying consolidated balance sheets of Sealed Air Corporation and subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of operations, shareholders' equity, cash flows and comprehensive income for each of the years in the three-year period ended December 31, 2006. In connection with our audits of the consolidated financial statements, we also have audited consolidated financial statement Schedule II Valuation and qualifying accounts and reserves. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Sealed Air Corporation and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Notes 2 and 21 to the consolidated financial statements, the Company changed its method of quantifying errors effective January 1, 2006. Also, as discussed in Note 14 to the consolidated financial statements, the Company changed its method of accounting for defined benefit pension and other post-retirement plans effective December 31, 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sealed Air Corporation's internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2007 expressed an unqualified opinion on management's assessment of, and the effective operation of, internal control over financial reporting.

**SEALED AIR CORPORATION AND SUBSIDIARIES**

**Notes to Consolidated Financial Statements**

**(Amounts in tables in millions of dollars, except share and per share data)**

**Note 1 General**

Sealed Air Corporation (the Company), operating through its subsidiaries, manufactures and sells a wide range of food and protective packaging products.

The Company conducts substantially all of its business through two direct wholly-owned subsidiaries, Cryovac, Inc. and Sealed Air Corporation (US). These two subsidiaries directly and indirectly own substantially all of the assets of the business and conduct operations themselves and through subsidiaries around the globe. The Company adopted this corporate structure in connection with the Cryovac transaction. See Note 16 for a description of the Cryovac transaction and related terms used in these Notes to the Consolidated Financial Statements.

**Note 2 Summary of Significant Accounting Policies**

**Basis of Presentation**

The consolidated financial statements include the accounts of the Company and its subsidiaries. The Company has eliminated all significant inter-company transactions and balances in consolidation. All amounts are approximate due to rounding. Prior period amounts have been reclassified to conform to the current year's presentation. The principal reclassification was related to investing activities of \$5.1 million which were reclassified from operating activities to investing activities in the Company's 2005 consolidated statement of cash flows. This reclassification had no impact on the consolidated statements of operations or the consolidated balance sheets and was immaterial to the Company's consolidated statement of cash flows.

The Company, in accordance with Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements," (SAB 108) increased its beginning retained earnings for fiscal 2006 in the accompanying consolidated financial statements. See Note 21 for additional information on the application of SAB 108.

**Use of Estimates**

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America, known as U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the period reported. These estimates include assessing the collectibility of accounts receivable, the use and recoverability of inventory, the realization of deferred tax assets, useful lives and recoverability of tangible and intangible assets, assumptions used in the Company's defined benefit pension plans, estimates related to self-insurance such as the aggregate liability for uninsured claims using historical experience, insurance company estimates and estimated trends in claim values, valuation allowances related to deferred taxes, and accruals for commitments and contingencies, among others. The Company reviews estimates and assumptions periodically and reflects the effects of revisions in the consolidated financial statements in the period it determines any revisions to be necessary. Actual results could differ from these estimates.

## Financial Instruments

The Company may use cross currency swaps, interest rate swaps, caps and collars, U.S. Treasury lock agreements and foreign exchange forward contracts and options relating to the Company's borrowing and trade activities.

The Company may use these financial instruments from time to time to manage its exposure to fluctuations in interest rates and foreign exchange rates. The Company does not purchase, hold or sell derivative financial instruments for trading or speculative purposes. The Company faces credit risk if the counterparties to these transactions are unable to perform their obligations. However, the Company seeks to minimize this risk by entering into transactions with counterparties that are major financial institutions with high credit ratings.

The Company reports all derivative instruments on its balance sheet at fair value and establishes criteria for designation and effectiveness of transactions entered into for hedging purposes. Prior to entering into any derivative transaction, the Company identifies the specific financial risk it faces, the appropriate hedging instrument to use to reduce the risk, and the correlation between the financial risk and the hedging instrument. The Company uses purchase orders and historical data as the basis for determining the anticipated values of the transactions to be hedged. The Company does not enter into derivative transactions that do not have a high correlation with the underlying financial risk. The Company regularly reviews its hedge positions and the correlation between the transaction risks and the hedging instruments.

The Company accounts for derivative instruments as hedges of the related underlying risks if the Company designates these derivative instruments as hedges and the derivative instruments are effective as hedges of recognized assets or liabilities, forecasted transactions, unrecognized firm commitments or forecasted intercompany transactions.

The Company records gains and losses on derivatives qualifying as cash flow hedges in other comprehensive income (loss), to the extent that hedges are effective and until the underlying transactions are recognized in the consolidated statement of operations, at which time the Company recognizes the gains and losses in the consolidated statement of operations. The Company recognizes gains and losses on qualifying fair value hedges and the related loss or gain on the hedged item attributable to the hedged risk in the consolidated statement of operations.

The Company's practice is to terminate derivative transactions if the underlying asset or liability matures or is sold or terminated, or if the Company determines the underlying forecasted transaction is no longer probable of occurring. Any deferred gains or losses associated with derivative instruments, which on infrequent occasions may be terminated prior to maturity, are recognized in the statement of operations over the period in which the income or expense on the underlying hedged transaction is recognized.

## Foreign Currency Translation

In non-U.S. locations that are not considered highly inflationary, the Company translates the balance sheets at the end of period exchange rates with translation adjustments accumulated in shareholders' equity. The Company translates the statements of operations at the average exchange rates during the applicable period. The Company translates assets and liabilities of its operations in countries with highly inflationary economies at the end of period exchange rates, except that it translates specified financial statement amounts at historical exchange rates. The Company translates items reflected in statements of operations of its operations in countries with highly inflationary economies at average rates of exchange prevailing during the period, except that it translates specified financial statement amounts at historical exchange rates.

### **Commitments and Contingencies Litigation**

On an ongoing basis, the Company assesses the potential liabilities related to any lawsuits or claims brought against it. While it is typically very difficult to determine the timing and ultimate outcome of these actions, the Company uses its best judgment to determine if it is probable that it will incur an expense related to the settlement or final adjudication of these matters and whether a reasonable estimation of the probable loss, if any, can be made. In assessing probable losses, the Company makes estimates of the amount of insurance recoveries, if any. The Company accrues a liability when it believes a loss is probable and the amount of loss can be reasonably estimated. Due to the inherent uncertainties related to the eventual outcome of litigation and potential insurance recovery, it is possible that disputed matters may be resolved for amounts materially different from any provisions or disclosures that the Company has previously made. The Company expenses legal costs, including those legal costs expected to be incurred in connection with a loss contingency, as incurred.

### **Revenue Recognition**

The Company's revenue earning activities primarily involve manufacturing and selling products, and the Company considers revenues to be earned when the Company has completed the process by which it is entitled to receive consideration. The following criteria are used for revenue recognition: persuasive evidence that an arrangement exists, shipment has occurred, selling price is fixed or determinable, and collection is reasonably assured.

### **Research and Development**

The Company expenses research and development costs as incurred. Research and development costs were \$78.2 million, \$75.8 million and \$73.2 million in 2006, 2005 and 2004, respectively.

### **Stock-Based Compensation**

In December 2004, the Financial Accounting Standards Board, commonly referred to as the FASB, issued SFAS No. 123 (revised), *Share-Based Payment* which replaces SFAS No. 123, *Accounting for Stock-Based Compensation*, and supersedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*. SFAS No. 123 (revised) covers a wide range of share-based compensation arrangements and requires that the compensation cost related to these types of payment transactions be recognized in financial statements. Cost is measured based on the fair value of the equity or liability instruments issued. The Company's primary stock-based employee compensation program is its 2005 Contingent Stock Plan, which replaced the 1998 Contingent Stock Plan. See Note 17 for further information on these plans.

#### *Terminated Stock Option Plans*

As of March 31, 1998 in connection with the Cryovac transaction (see Note 16), the Company terminated stock option plans in which specified employees of the Cryovac packaging business participated prior to that date, except with respect to options that remained outstanding as of that date. All of these options had been granted at an exercise price equal to the fair market value of the underlying shares on the date of grant. All options outstanding upon the termination of the stock option plans in 1998 had fully vested prior to December 31, 2000. Since 1997, the Company has not issued any stock option awards and has no plans to do so in the future.

### **Environmental Expenditures**

The Company expenses or capitalizes environmental expenditures that relate to ongoing business activities, as appropriate. The Company expenses expenditures that relate to an existing condition caused

by past operations and which do not contribute to current or future net sales. The Company records liabilities when it determines that environmental assessments or remediation expenditures are probable and that it can reasonably estimate the cost or a range of costs associated therewith.

### **Income Taxes**

The Company and its domestic subsidiaries file a consolidated U.S. federal income tax return. The Company's non-U.S. subsidiaries file income tax returns in their respective local jurisdictions. The Company provides for income taxes on those portions of its foreign subsidiaries accumulated earnings that it believes are not reinvested indefinitely in their businesses.

The Company accounts for income taxes under the asset and liability method. The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax benefit carry forwards. The Company determines deferred tax liabilities and assets at the end of each period using enacted tax rates.

The Company evaluates whether its taxable earnings during the periods when the temporary differences giving rise to deferred tax assets become deductible or when tax benefit carry forwards may be utilized should be sufficient to realize the related future income tax benefits. For those jurisdictions where the expiration dates of tax benefit carry forwards or the projected taxable earnings indicate that realization is not likely, the Company provides a valuation allowance.

In assessing the need for a valuation allowance, the Company estimates future taxable earnings, with consideration for the feasibility of ongoing tax planning strategies and the realizability of tax benefit carry forwards, to determine which deferred tax assets are more likely than not to be realized in the future. Valuation allowances related to deferred tax assets can be impacted by changes to tax laws, changes to statutory tax rates and future taxable earnings. In the event that actual results differ from these estimates in future periods, the Company may need to adjust the valuation allowance, which could materially affect the Company's consolidated financial statements.

In calculating its worldwide provision for income taxes, the Company also evaluates its tax positions for years where the statutes of limitations have not expired. Based on this review, the Company may establish reserves for additional taxes and interest that could be assessed upon examination by relevant tax authorities. The Company adjusts these reserves in light of changing facts and circumstances, including the results of tax audits and changes in tax law.

### **Cash and Cash Equivalents**

The Company considers highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents. The Company's policy is to invest cash in excess of short-term operating and debt service requirements in cash equivalents and short-term investments (discussed below). These instruments are stated at cost, which approximates market value because of the short maturity of the instruments.

### **Short-Term Investments Available-for-Sale Securities**

The Company's short-term investments consist of auction rate securities, which are classified as available-for-sale securities. The Company determines the classification at the time of purchase and reassesses it as of each balance sheet date. Available-for-sale securities are marked-to-market based on quoted market values of the securities, with the unrealized gains or losses, if any, reported as a component of accumulated other comprehensive income (loss), net of tax. The Company recognizes realized gains and losses on the sales of the securities on a specific identification method and includes them in other income, net, in its consolidated statement of operations. The Company includes interest and dividends on securities

classified as available-for-sale in other income, net. The Company has classified its available-for-sale securities as current assets regardless of their maturity as they are highly liquid and available for use in current operations.

#### **Accounts Receivable Securitization**

The Company's two primary U.S. operating subsidiaries are party to an accounts receivable securitization program under which they sell eligible U.S. accounts receivable to an indirectly wholly-owned subsidiary of the Company that was formed for the sole purpose of entering into this program. The wholly-owned subsidiary in turn may sell an undivided ownership interest in these receivables to a bank or an issuer of commercial paper administered by that bank. The wholly-owned subsidiary retains the receivables it purchases from the two operating subsidiaries, except those as to which it sells interests to the bank or to the issuer of commercial paper. If the wholly-owned subsidiary sells undivided ownership interests in receivables, the Company removes the transferred ownership interest amounts from its consolidated balance sheet at the time of the sale and reflects the proceeds from the sale in cash provided by operating activities in the consolidated statement of cash flows.

The Company reflects retained receivables in accounts receivable on its consolidated balance sheet, and the carrying amounts thereof approximate fair value because of the relatively short-term nature of the receivables. The Company reflects costs associated with the sale of receivables in other income, net, in the Company's consolidated statement of operations.

#### **Accounts Receivable**

In the normal course of business, the Company extends credit to customers that satisfy pre-defined credit criteria. Accounts receivable, as shown on the consolidated balance sheets, are net of allowances for doubtful accounts. The Company maintains accounts receivable allowances for estimated losses resulting from the inability of its customers to make required payments. Additional allowances may be required if the financial condition of the Company's customers deteriorates.

#### **Inventories**

The Company determines the cost of most U.S. inventories on a last-in, first-out or LIFO cost flow basis. The cost of U.S. equipment inventories and most non-U.S. inventories is determined on a first-in, first-out or FIFO cost flow basis. The Company states inventories at the lower of cost or market. The sale of inventory and the related accounts receivable are classified as an operating activity in the Company's consolidated statements of cash flows.

#### **Property and Equipment**

The Company states property and equipment at cost, except for property and equipment that have been impaired, for which the Company reduces the carrying amount to the estimated fair value at the impairment date. The Company capitalizes significant improvements, and the Company charges repairs and maintenance costs that do not extend the lives of the assets to expense as incurred. The Company removes the cost and accumulated depreciation of assets sold or otherwise disposed of from the accounts and recognizes any resulting gain or loss upon the disposition of the assets.

The Company depreciates the cost of property and equipment over its estimated useful life on a straight-line basis as follows: buildings 20 to 40 years; machinery and equipment 5 to 10 years and other property and equipment 3 to 10 years.

### **Goodwill and Identifiable Intangible Assets**

Goodwill represents the excess of the purchase price over the estimated fair value of net tangible and identifiable intangible assets acquired and liabilities assumed in business combinations. The Company reflects identifiable intangible assets in other assets at cost. These assets consist primarily of patents, licenses, trademarks and non-compete agreements. The Company amortizes them over the shorter of their stated or statutory duration or their estimated useful lives on a straight-line basis, generally ranging from 3 to 20 years. Identifiable intangibles, other than goodwill, individually and in the aggregate comprise less than 5% of the Company's consolidated assets and therefore are immaterial to the Company's consolidated balance sheets.

The Company uses the purchase method of accounting for all business combinations and does not amortize goodwill and intangible assets with indefinite useful lives, but instead tests such assets for impairment on a reporting unit basis annually. The Company may initiate a review of goodwill prior to conducting the annual analysis if events or changes in circumstances indicate that the carrying value of goodwill may be impaired.

A reporting unit is the operating segment unless, at businesses one level below that operating segment the component level discrete financial information is prepared and regularly reviewed by management, and the component has economic characteristics that are different from the economic characteristics of the other components of the operating segment, in which case the component is the reporting unit. The Company uses a fair value approach to test goodwill for impairment. The Company must recognize an impairment charge for the amount, if any, by which the carrying amount of goodwill exceeds its fair value. The Company derives an estimate of fair values for the Company as a whole and for each of the Company's reporting units using an income approach, which uses forecasted earnings and cash flows, and a market approach, which uses comparisons to other businesses. The Company performs this annual test for impairment during the fourth quarter of each year. In addition, the Company amortizes its intangible assets with definite useful lives over their respective estimated useful lives to their estimated residual values and reviews these for impairment in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets.

### **Long-Lived Assets**

#### *Impairment of Long-Lived Assets*

The Company periodically reviews long-lived assets, other than goodwill, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. The Company recognizes impairments when the expected future undiscounted cash flows derived from long-lived assets are less than their carrying value. For these cases, the Company recognizes losses in an amount equal to the difference between the fair value and the carrying amount. The Company records assets to be disposed of by sale or abandonment, where management has the current ability to remove these assets from operations, at the lower of carrying amount or fair value less cost of disposition. The Company suspends depreciation for these assets during the disposal period, which is generally less than one year. Assumptions and estimates used in the determination of impairment losses, such as future cash flows and disposition costs, may affect the carrying value of long-lived assets and possible impairment expense in the Company's consolidated financial statements.

### *Conditional Asset Retirement Obligations*

The Company recognizes a liability for a conditional asset retirement obligation when incurred if the liability can be reasonably estimated. A conditional asset retirement obligation is a legal obligation to perform an asset retirement activity in which the timing and (or) method of settlement are conditional on a future event that may or may not be within the control of the Company. In addition, the Company would record a corresponding amount by increasing the carrying amount of the related long-lived asset, which is depreciated over the useful life of such long-lived asset.

### **Self-Insurance**

The Company retains the obligation for specified claims and losses related to property, casualty, workers' compensation and employee benefit claims. The Company accrues for outstanding reported claims, claims that have been incurred but not reported and projected claims based upon management's estimates of the aggregate liability for uninsured claims using historical experience, insurance company estimates and the estimated trends in claim values. Although management believes it has the ability to adequately project and record estimated claim payments, it is possible that actual results could differ significantly from the recorded liabilities.

### **Pensions**

The Company maintains a non-contributory profit sharing plan and contributory thrift and retirement savings plan in which most U.S. employees of the Company are eligible to participate. For a limited number of its U.S. employees and for some of its non-U.S. employees, the Company maintains defined benefit pension plans. The Company accounts for these pension plans in accordance with SFAS No. 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*. Under this accounting standard, the Company makes assumptions regarding the valuation of benefit obligations and performance of plan assets. The principal assumptions concern the discount rate used to measure future obligations, the expected future rate of return on plan assets, the expected rate of future compensation increases and various other actuarial assumptions. The measurement date used to determine the benefit obligations and the plan assets is December 31. In general, changes to these assumptions could have a significant impact on the costs and liabilities recorded under SFAS No. 158.

### **Earnings per Common Share**

The Company calculates basic earnings per common share by dividing net earnings ascribed to common shareholders by the weighted average common shares outstanding for the period. The computation of diluted earnings per common share is similar, except that the weighted average common shares outstanding for the period are adjusted to reflect the potential issuance of dilutive shares, which includes the assumed issuance of asbestos settlement shares and the effect of the conversion of the Company's 3% convertible senior notes, and net earnings ascribed to common shareholders are adjusted to reflect the reduction to interest expense, net of income taxes, that would occur as a result of the assumed conversion of the 3% convertible senior notes.

### **Note 3 Business Segment Information**

The Company operates in two reportable business segments: (i) Food Packaging and (ii) Protective Packaging. The Food Packaging segment comprises primarily the Company's Cryovac® food packaging products. The Protective Packaging segment includes the aggregation of the Company's protective packaging products and shrink packaging products, all of which products are used principally for non-food packaging applications.

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The Food Packaging segment consists primarily of flexible materials and related systems such as shrink bag and film products, non-shrink films, and associated packaging equipment systems marketed and sold primarily under the Cryovac® trademark. Customers use these products to package a broad range of perishable foods, as well as medical products. Also included in this segment are rigid packaging and absorbent pads, such as foam and solid plastic trays and containers for the packaging of a wide variety of food products and absorbent pads used for the packaging of meat, fish and poultry. Net sales of flexible materials and related systems were: 2006 \$2,247.6 million; 2005 \$2,122.8 million; and 2004 \$1,976.5 million. Net sales of rigid packaging and absorbent pads were: 2006 \$455.3 million; 2005 \$409.3 million; and 2004 \$370.4 million. The Company primarily sells products in this segment to food processors, distributors, supermarket retailers and food service businesses.

The Protective Packaging segment consists primarily of cushioning and surface protection products such as Bubble Wrap® cushioning and other air cellular cushioning materials; shrink and non-shrink films principally for non-food applications; polyurethane foam packaging systems sold under the Instapak® trademark; polyethylene foam sheets and planks; Jiffy® mailers and bags and other protective and durable mailers and bags; paper-based protective packaging materials; suspension and retention packaging; inflatable packaging; and packaging systems. Net sales of cushioning and surface protection products were: 2006 \$1,568.5 million; 2005 \$1,502.0 million; and 2004 \$1,396.4 million. Net sales of other products for 2006, 2005 and 2004 were approximately 1% of consolidated net sales. The Company primarily sells products in this segment to distributors and manufacturers in a wide variety of industries.

	2006	2005	2004
Net sales			
Food Packaging	\$ 2,702.9	\$ 2,532.1	\$ 2,346.9
Protective Packaging	1,625.0	1,553.0	1,451.2
Total	\$ 4,327.9	\$ 4,085.1	\$ 3,798.1
Operating profit			
Food Packaging	\$ 311.0	\$ 324.1	\$ 319.3
Protective Packaging	228.7	189.0	217.6
Total segments	539.7	513.1	536.9
Restructuring and other charges(1)	(12.9)	(1.7)	(33.0)
Unallocated corporate operating expenses	(0.7)	(1.0)	(0.9)
Total	\$ 526.1	\$ 510.4	\$ 503.0
Depreciation and amortization(2)			
Food Packaging	\$ 115.5	\$ 115.1	\$ 117.3
Protective Packaging	52.5	59.5	62.2
Total	\$ 168.0	\$ 174.6	\$ 179.5
Capital expenditures(2)			
Food Packaging	\$ 142.4	\$ 80.7	\$ 81.3
Protective Packaging	25.5	16.2	21.4
Total	\$ 167.9	\$ 96.9	\$ 102.7
Assets(2)			
Food Packaging	\$ 1,970.6	\$ 1,875.9	\$ 1,842.8
Protective Packaging	962.7	947.1	961.5
Total segments	2,933.3	2,823.0	2,804.3
Corporate (including goodwill of \$1,957.1, \$1,908.8 and \$1,918.0 in 2006, 2005 and 2004, respectively)	2,087.6	2,041.2	2,050.7
Total	\$ 5,020.9	\$ 4,864.2	\$ 4,855.0

(1) In 2006, includes a charge of \$13.0 for Food Packaging and a credit of \$0.1 for Protective Packaging. In 2005, includes a charge of \$0.8 for Food Packaging and a charge of \$0.9 for Protective Packaging. In 2004, includes a charge of \$28.8 for Food Packaging and a charge of \$4.2 for Protective Packaging.

(2) The Company uses plant, equipment and other resources of the Food Packaging segment to manufacture films sold by the Protective Packaging segment for non-food applications. The Company allocates a proportionate share of capital expenditures, assets, depreciation and other costs of manufacturing to the Protective Packaging segment.

#### Geographic Information

	2006	2005	2004
Net sales:(1)			
United States	\$ 2,066.3	\$ 1,972.9	\$ 1,851.8
Canada	148.1	140.3	126.9
Europe	1,254.2	1,172.7	1,111.6
Latin America	349.5	297.1	259.4
Asia Pacific	509.8	502.1	448.4
Total	\$ 4,327.9	\$ 4,085.1	\$ 3,798.1
Total long-lived assets:(1)			
United States	\$ 2,340.2	\$ 2,343.9	\$ 2,378.6
Canada	15.9	29.1	30.4
Europe	486.7	446.2	510.9
Latin America	85.7	63.3	52.5
Asia Pacific	160.3	155.9	169.7
Total(2)	\$ 3,088.8	\$ 3,038.4	\$ 3,142.1

(1) Net sales attributed to the geographic areas represent trade sales to external customers. No non-U.S. country has net sales in excess of 10% of consolidated net sales or long-lived assets in excess of 10% of consolidated long-lived assets.

(2) Total long-lived assets are total assets excluding total current assets and deferred income taxes.

#### Goodwill by Reportable Business Segment

In accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, and because the Company's management views goodwill as a corporate asset, the Company has allocated all of its goodwill to the corporate level rather than to the individual segments. However, in accordance with SFAS No. 142, Goodwill and Other Intangible Assets, the Company has allocated goodwill to each reportable segment in order to perform its annual impairment review of goodwill, which it does during the fourth quarter of each year. See Note 8 for a discussion of the annual goodwill impairment review.

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The allocation of goodwill in accordance with SFAS No. 142 for the years ended December 31, 2006 and 2005 was as follows:

	Balance at Beginning of Period		Goodwill Acquired		Foreign Currency Translation and Other		Balance at End of Period	
Year Ended December 31, 2006								
Food Packaging	\$	540.4	\$	31.9	\$	14.9	\$	587.2
Protective Packaging		1,368.4		0.4		1.1		1,369.9
Total	\$	1,908.8	\$	32.3	\$	16.0	\$	1,957.1
Year Ended December 31, 2005								
Food Packaging	\$	549.8	\$	0.7	\$	(10.1)	\$	540.4
Protective Packaging		1,368.2		0.8		(0.6)		1,368.4
Total	\$	1,918.0	\$	1.5	\$	(10.7)	\$	1,908.8

See Note 20, Acquisitions, for additional information on the goodwill acquired during 2006.

**Note 4 Short Term Investments Available-for-Sale Securities**

At December 31, 2006 and 2005, the Company's available-for-sale securities consisted of auction rate securities for which interest or dividend rates are generally re-set for periods of up to 90 days. At December 31, 2006, the Company held \$33.9 million of auction rate securities which were investments in preferred stock with no maturity dates. At December 31, 2005, the Company held \$44.1 million of auction rate securities, of which \$34.7 million were investments in preferred stock with no maturity dates and \$9.4 million were investments in other auction rate securities with contractual maturities in 2031.

At December 31, 2006 and 2005, the fair value of the available-for-sale securities held by the Company was equal to their cost. There were no gross realized gains or losses from the sale of available-for-sale securities in 2006 and 2005.

**Note 5 Accounts Receivable Securitization Program**

In December 2001, the Company and a group of its U.S. subsidiaries entered into an accounts receivable securitization program with a bank and an issuer of commercial paper administered by the bank. On December 7, 2004, which was the scheduled expiration date of this program, the parties extended this program for an additional term of three years ending December 7, 2007.

Under this receivables program, the Company's two primary operating subsidiaries, Cryovac, Inc. and Sealed Air Corporation (US), sell all of their eligible U.S. accounts receivable to Sealed Air Funding Corporation, an indirectly wholly-owned subsidiary of the Company that was formed for the sole purpose of entering into the receivables program. Sealed Air Funding in turn may sell undivided ownership interests in these receivables to the bank and the issuer of commercial paper, subject to specified conditions, up to a maximum of \$125.0 million of receivables interests outstanding from time to time.

Sealed Air Funding retains the receivables it purchases from the operating subsidiaries, except those as to which it sells receivables interests to the bank or the issuer of commercial paper. The Company has structured the sales of accounts receivable by the operating subsidiaries to Sealed Air Funding, and the sales of receivables interests from Sealed Air Funding to the bank and the issuer of commercial paper, as true sales under applicable laws. The assets of Sealed Air Funding are not available to pay any creditors of the Company or of the Company's other subsidiaries or affiliates. The Company accounts for these transactions as sales of receivables under the provisions of SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities.

To secure the performance of their obligations under the receivables program, Sealed Air Funding and the operating subsidiaries granted a first priority security interest to the bank, as agent, in accounts receivable owned by them, proceeds and collections of those receivables and other collateral. The bank and the issuer of commercial paper have no recourse to the Company's, the operating subsidiaries' or Sealed Air Funding's other assets for any losses resulting from the financial inability of customers to pay amounts due on the receivables when they become due. As long as a termination event with respect to the receivables program has not occurred, the operating subsidiaries service, administer and collect the receivables under the receivables program as agents on behalf of Sealed Air Funding, the bank and the issuer of commercial paper.

Prior to a termination event under the receivables program, Sealed Air Funding uses collections of receivables not otherwise required to be paid to the bank or the issuer of commercial paper to purchase new eligible receivables from the operating subsidiaries. The Company has undertaken to cause the operating subsidiaries to perform their obligations under the receivables program.

The receivables program contains financial covenants relating to interest coverage and debt leverage. The Company was in compliance with these ratios at December 31, 2006.

Under limited circumstances, the bank and the issuer of commercial paper can terminate purchases of receivables interests prior to the above dates. A downgrade of the Company's long-term senior unsecured debt to BB- or below by Standard & Poor's Rating Services or Ba3 or below by Moody's Investors Service, Inc., or failure to comply with interest coverage and debt leverage ratios could result in termination of the receivables program.

The operating subsidiaries did not sell any receivables interests under the receivables program during 2006, and therefore the Company did not remove any related amounts from the consolidated assets reflected on the Company's consolidated balance sheet at December 31, 2006.

During 2005, Sealed Air Funding sold an undivided ownership interest in \$35.0 million of eligible receivables under the receivables program. Payments on the Company's receivables that were applied to these receivables interests in accordance with the terms of the program reduced the amount of receivables interests held by the bank or the issuer of commercial paper that are parties to the program to zero during 2005. Therefore, as of December 31, 2005, neither the bank nor the issuer of commercial paper held any receivables interests and the Company did not remove any related amounts from the assets reflected on its consolidated balance sheet at December 31, 2005.

At December 31, 2006 and 2005, the receivables program provided for a program fee of 0.375% per annum on the greater of the unpaid amount of the receivables interests sold by Sealed Air Funding and 50% of the \$125.0 million purchase limit under the program. The receivables program also provided for a commitment fee of 0.20% per annum on the lesser of the unused portion of the program and 50% of the purchase limit under the program.

The costs associated with the receivables program are reflected in other income, net, in the Company's consolidated statements of operations for the years ended December 31, 2006, 2005 and 2004. These costs primarily relate to program and commitment fees and other associated costs, which were \$0.3 million, \$0.4 million and \$0.5 million for 2006, 2005 and 2004, respectively. The costs related to the loss on the sale of the receivables interests to the bank or the issuer of commercial paper during 2005 were immaterial. There were no costs related to the loss on the sale of receivables interests in 2006 and 2004 since the Company did not sell any receivables interests during those years.

**Note 6 Inventories**

	<b>December 31,</b>	
	<b>2006</b>	<b>2005</b>
Inventories (at FIFO, which approximates replacement value)		
Raw materials	\$ 108.7	\$ 97.9
Work in process	107.7	90.1
Finished goods	341.7	256.7
Subtotal	558.1	444.7
Reduction of certain inventories to LIFO basis	(48.7 )	(35.6 )
Total	\$ 509.4	\$ 409.1

The Company determines the value of non-equipment U.S. inventories by the last-in, first-out or LIFO inventory method. The value of U.S. inventories determined by that method amounted to \$127.0 million and \$139.2 million at December 31, 2006 and 2005, respectively. If the Company had used the first-in, first-out or FIFO inventory method, which approximates replacement value, for these inventories, the balances would have been \$48.7 million and \$35.6 million higher at December 31, 2006 and 2005, respectively.

Due to the application of SAB 108 on January 1, 2006, the Company recorded a pre-tax adjustment to inventories. See Note 21 for further discussion.

**Note 7 Property and Equipment**

	<b>December 31,</b>	
	<b>2006</b>	<b>2005</b>
Land and improvements	\$ 35.7	\$ 32.8
Buildings	516.2	508.6
Machinery and equipment	2,054.2	1,917.7
Other property and equipment	135.9	126.9
Construction-in-progress	139.6	66.7
	2,881.6	2,652.7
Accumulated depreciation and amortization	(1,911.5 )	(1,741.5 )
Property and equipment, net	\$ 970.1	\$ 911.2

Interest cost capitalized during 2006, 2005 and 2004 was \$5.2 million, \$3.4 million and \$4.7 million, respectively.

**Note 8 Goodwill and Identifiable Intangible Assets****Goodwill**

As of December 31, 2006 and 2005, the Company had unamortized goodwill in the amount of \$1,957.1 million and \$1,908.8 million, respectively. Goodwill and intangible assets with indefinite useful lives have to be tested for impairment at least annually in accordance with the provisions of SFAS No. 142. The Company completed its annual testing for impairment for 2006, 2005 and 2004 during the fourth quarter of each year and determined that no impairment charge was necessary on a reporting unit basis in any of the periods. See Note 3, Business Segment Information, for the allocation of goodwill by business segment.

**Identifiable Intangible Assets**

As of December 31, 2006 and 2005, the Company had identifiable intangible assets with definite useful lives with a gross carrying value of \$53.9 million and \$59.4 million, respectively, less accumulated amortization of \$37.0 million and \$47.9 million, respectively. These identifiable intangible assets are included in other assets and are considered immaterial to the Company's consolidated balance sheets. Amortization of identifiable intangible assets was approximately \$5.0 million for 2006. Assuming no change in the gross carrying value of identifiable intangible assets from the value at December 31, 2006, the estimated amortization for future years is as follows: 2007 \$4.0 million; 2008 \$3.1 million; 2009 \$2.2 million; 2010 \$1.2 million; and 2011 \$1.1 million. At December 31, 2006 and 2005, there were no identifiable intangible assets, other than goodwill, with indefinite useful lives as defined by SFAS No. 142.

**Note 9 Other Liabilities**

	<b>December 31,</b>	
	<b>2006</b>	<b>2005</b>
<b>Other current liabilities:</b>		
Accrued salaries, wages and related costs	\$ 154.3	\$ 128.8
Accrued operating expenses	101.5	90.7
Income taxes payable	86.2	73.4
Accrued customer volume rebates	67.9	76.7
Accrued interest	156.4	128.3
Accrued employee benefit liability (Note 14)	2.3	
Accrued restructuring costs (Note 13)	7.6	5.0
<b>Total</b>	<b>\$ 576.2</b>	<b>\$ 502.9</b>

	<b>December 31,</b>	
	<b>2006</b>	<b>2005</b>
<b>Other liabilities:</b>		
Accrued employee benefit liability (Note 14)	\$ 72.1	\$ 50.9
Other postretirement liability	2.5	2.3
Accrued restructuring costs (Note 13)	5.3	0.4
Other various liabilities	45.9	48.1
<b>Total</b>	<b>\$ 125.8</b>	<b>\$ 101.7</b>

**Note 10 Debt and Credit Facilities**

At December 31, 2006 and 2005, the Company's total debt outstanding consisted of the amounts set forth on the following table:

	December 31, 2006	December 31, 2005
Short-term borrowings and current portion of long-term debt:		
Short-term borrowings	\$ 20.2	\$ 21.8
Current portion of long-term debt	5.5	241.4
Total current debt	25.7	263.2
Long-term debt, less current portion:		
6.95% Senior Notes due May 2009, less unamortized discount of \$0.5 in 2006 and \$0.7 in 2005(1)	226.8	226.6
5.375% Senior Notes due April 2008, less unamortized discount and fair value adjustment of \$9.4 in 2006 and \$13.3 in 2005(1)(2)	290.6	286.7
5.625% Senior Notes due July 2013, less unamortized discount of \$1.0 in 2006 and \$1.1 in 2005(1)	399.0	398.9
6.875% Senior Notes due July 2033, less unamortized discount of \$1.5 in 2006 and \$1.6 in 2005(1)	448.5	448.4
3% Convertible Senior Notes due June 2033(1)	431.3	431.3
Other	30.4	21.1
Total long-term debt, less current portion	1,826.6	1,813.0
Total debt	\$ 1,852.3	\$ 2,076.2

- (1) Interest is payable semiannually in arrears.
- (2) Amounts include adjustments due to interest rate swaps. See Note 11, Derivatives and Hedging Activities.

**5.625% Euro Notes**

On July 19, 2006, the Company's 5.625% euro notes with a face value of 200.0 million matured. These notes were included in the current portion of long-term debt at December 31, 2005. The Company used available cash of \$251.7 million to retire this debt. Interest on the 5.625% euro notes was payable annually in arrears, with the final payment of \$14.2 million made upon maturity of the euro notes.

**Lines of Credit**

The following table summarizes the Company's available lines of credit and committed and uncommitted lines of credit, including the credit facility and ANZ facility discussed below, at December 31, 2006 and 2005:

	December 31, 2006	December 31, 2005
Used lines of credit	\$ 30.4	\$ 27.2
Unused lines of credit	810.6	797.6
Total available lines of credit	\$ 841.0	\$ 824.8
Available lines of credit committed	\$ 632.9	\$ 624.7
Available lines of credit uncommitted	208.1	200.1
Total available lines of credit	\$ 841.0	\$ 824.8

The Company's principal credit lines were all committed and consisted of the credit facility and the ANZ facility. The Company is not subject to any material compensating balance requirements in connection with its lines of credit.

*Revolving Credit Facilities*

*The Credit Facility* The Company has not borrowed under its \$500.0 million unsecured multi-currency revolving credit facility since its inception in July 2005. This facility contains a provision under which the Company may request, prior to each of the first and second anniversaries of the facility, a one-year extension of the termination of the facility. The Company requested an extension effective on the first anniversary, July 26, 2006, and lenders with commitments for \$457.0 million under the facility consented to the extension. Accordingly, on July 26, 2006 this extension became effective, as a result of which \$43.0 million of the facility will terminate on July 26, 2010 and \$457.0 million of the facility will terminate on July 26, 2011.

The credit facility is available for general corporate purposes including the payment of a portion of the \$512.5 million cash payment, plus accrued interest (which was \$123.5 million at December 31, 2006), required to be paid upon the effectiveness of an appropriate plan of reorganization in the W. R. Grace & Co. bankruptcy. The Company may re-borrow amounts repaid under the credit facility from time to time prior to the expiration or earlier termination of the credit facility. Facility fees are payable at the rate of 0.125% per annum on the total amounts available under the credit facility. The credit facility provides for changes in facility fees based on the Company's long-term senior unsecured debt ratings.

The Company's obligations under the credit facility bear interest at floating rates, which are generally determined by adding the applicable borrowing margin to the base rate or the interbank rate for the relevant currency and time period. The credit facility provides for changes in borrowing margins based on the Company's long-term senior unsecured debt ratings.

The terms include a requirement that, upon the occurrence of specified events that would adversely affect the settlement agreement in the Grace bankruptcy proceedings or would materially increase the Company's liability in respect of the Grace bankruptcy or the asbestos liability arising from the Cryovac transaction, the Company would be required to repay any amounts outstanding under the credit facility, or refinance the facility, within 60 days. See Note 16, *Commitments and Contingencies* under the captions *Asbestos Settlement and Related Costs* and *Cryovac Transaction; Contingencies Related to the Cryovac Transaction* for further discussion.

*ANZ Facility* The Company has an Australian dollar 170.0 million, dual-currency revolving credit facility, known as the ANZ facility, equivalent to U.S. \$132.9 million at December 31, 2006, due March 2010. A syndicate of banks made this facility available to a group of the Company's Australian and New Zealand subsidiaries for general corporate purposes including refinancing of previously outstanding indebtedness. The Company may re-borrow amounts repaid under the ANZ facility from time to time prior to the expiration or earlier termination of the facility.

The Company borrowed under the ANZ facility during the second quarter of 2006, but it repaid those amounts in full and did not borrow further under the ANZ facility during 2006. There were no amounts outstanding under this facility at December 31, 2006 or at December 31, 2005.

The Company's obligations under the ANZ facility bear interest at floating rates, which are generally determined by adding the applicable borrowing margin to the base rate or the interbank rate for the relevant currency and time period. The ANZ facility provides for changes in borrowing margins based on the Company's long-term senior unsecured debt ratings.

*Other Lines of Credit*

Substantially all the Company's short-term borrowings of \$20.2 million and \$21.8 million at December 31, 2006 and 2005, respectively, were outstanding under lines of credit available to several of the Company's foreign subsidiaries. The weighted average interest rate on these outstanding lines of credit was 12.5% and 12.3% at December 31, 2006 and 2005, respectively. Amounts available under these credit lines as of December 31, 2006 and 2005 were approximately \$198.0 million and \$200.1 million, respectively, of which approximately \$177.8 million and \$178.3 million, respectively, were unused.

**3% Convertible Senior Notes**

In July 2003, the Company issued 3% convertible senior notes that were exempt from registration in reliance upon Rule 144A and other available exemptions under the Securities Act of 1933.

Upon issuance of the 3% convertible senior notes, the holders had the right to convert those notes into shares of the Company's common stock at a conversion rate of 14.2857 shares per \$1,000 principal amount of the notes, which was equivalent to a conversion price of \$70.00 per share, subject to anti-dilution adjustments, before the close of business on June 30, 2033. In accordance with the anti-dilution provisions of the indenture governing the 3% convertible senior notes, as a result of the payment of quarterly dividends on the Company's common stock, in December 2006 the conversion rate was adjusted to 14.4437 shares per \$1,000 principal amount of the notes, which is equivalent to a conversion price of \$69.23 per share. Holders may convert their convertible senior notes only under the following circumstances: (1) during any calendar quarter, if the closing sale price of the Company's common stock exceeds 120% of the conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding calendar quarter; (2) during any period in which (i) the long-term credit rating assigned to the notes by Standard & Poor's Rating Services, a division of the McGraw-Hill Companies, or Moody's Investors Services, Inc. is lower than BB+ or Ba2, respectively, (ii) either Standard & Poor's or Moody's no longer rates the notes or has withdrawn or suspended this rating, or (iii) the notes are not assigned a rating by both Standard & Poor's and Moody's; (3) during the five business day period immediately after any five consecutive trading day period in which the trading price per \$1,000 principal amount of notes for each day of that period was less than 98% of the product of the closing sale price of the Company's common stock and the conversion rate; (4) if the notes have been called for redemption; or (5) upon the occurrence of specified corporate events. None of these circumstances that would allow for conversion of the notes has arisen at any time since their issuance.

The Company has the option to redeem the 3% convertible senior notes beginning July 2, 2007 at a price equal to 101.286% of their aggregate principal amount, declining ratably to 100% of their aggregate principal amount on June 30, 2010.

The holders of the 3% convertible senior notes have the option to require the Company to repurchase the 3% convertible senior notes on June 30 of 2010, 2013, 2018, 2023 and 2028, or upon the occurrence of a fundamental change in or a termination of trading of the Company's common stock, at a price equal to 100% of their principal amount, plus accrued and unpaid interest.

In connection with the issuance of the 3% convertible senior notes, on September 5, 2003 the Company filed a registration statement on Form S-3 with the Securities and Exchange Commission to register for resale the 6,160,708 shares of the Company's common stock issuable, subject to anti-dilution adjustments, upon conversion of the notes. The registration statement became effective on January 23, 2004. None of the notes have been converted and consequently none of those shares were issued or sold. The Company's obligation to keep the registration statement effective has expired. As permitted under the registration rights agreement between the Company and the initial purchasers of the notes, the Company was permitted to terminate the registration statement. On September 2, 2005, the Company filed a post-effective amendment to the registration statement deregistering the shares.

## **Debt Redemption and Repurchases**

### *2004 Debt Redemption*

On November 26, 2004, the Company used net cash of \$211.8 million to redeem the entire outstanding aggregate principal amount, \$177.5 million, of its 8.75% senior notes due July 1, 2008 and terminated interest rate swaps on the 8.75% senior notes having a total notional amount of \$150 million. The Company issued the senior notes on June 26, 2001 under Rule 144A and Regulation S of the Securities Act of 1933. The Company determined the redemption price in accordance with the indenture governing the notes. The net cash used of \$211.8 million consisted of cash used to purchase the senior notes at a premium plus accrued interest of \$213.4 million and cash received of \$1.6 million related to the termination of the interest rate swaps. The Company completed the redemption, funded with available cash, at a premium to the face amount of the notes, which resulted in a loss of \$29.6 million, which the Company reflected in the statement of operations as Loss on debt redemption and repurchases. The annual interest expense on the redeemed notes was approximately \$15.5 million without giving effect to any interest rate swaps and the amortization of amounts related to the senior notes.

### *2004 Debt Repurchases*

In November and December 2004, the Company used available cash of \$25.2 million to repurchase in the open market \$22.7 million face amount of its 6.95% senior notes due May 2009 which included accrued interest and related fees. Since the Company completed these repurchases at a premium to the face amount of the notes, it incurred a loss of \$2.6 million, which the Company reflected in the statement of operations as Loss on debt redemption and repurchases.

## **Covenants**

Each issue of the Company's outstanding senior notes imposes limitations on the Company's operations and those of specified subsidiaries. The principal limitations restrict liens, sale and leaseback transactions and mergers, acquisitions and dispositions. The credit facility contains financial covenants relating to interest coverage, debt leverage and minimum liquidity and restrictions on the creation of liens, the incurrence of additional indebtedness, acquisitions, mergers and consolidations, asset sales, and amendments to the asbestos settlement agreement discussed above. The ANZ facility contains financial covenants relating to debt leverage, interest coverage and tangible net worth and restrictions on the creation of liens, the incurrence of additional indebtedness and asset sales, in each case relating to the Australian and New Zealand subsidiaries of the Company that are borrowers under the facility. The Company was in compliance with the above financial covenants and limitations, as applicable, at December 31, 2006 and 2005.

**Debt Maturities**

Scheduled annual maturities of long-term debt, exclusive of debt discounts and the interest rate swap fair value adjustment, for the five years subsequent to December 31, 2006 and thereafter are as follows:

2007	\$ 5.5
2008	305.1
2009	242.0
2010(1)	435.9
2011	5.4
Thereafter	850.6
Total	\$ 1,844.5

(1) This amount includes the 3% convertible senior notes since the holders of these notes have the option to require the Company to repurchase the senior notes on June 30 of 2010, 2013, 2018, 2023 and 2028 as described above.

**Note 11 Derivatives and Hedging Activities**

The Company reports all derivative instruments on the balance sheet at fair value and establishes criteria for designation and effectiveness of transactions entered into for hedging purposes.

The Company is exposed to market risk, such as fluctuations in foreign currency exchange rates and changes in interest rates. To manage the volatility relating to these exposures, the Company enters into various derivative instruments from time to time under its risk management policies. The Company designates derivative instruments as hedges on a transaction basis to support hedge accounting. The changes in fair value of these hedging instruments offset in part or in whole corresponding changes in the fair value or cash flows of the underlying exposures being hedged. The Company assesses the initial and ongoing effectiveness of its hedging relationships in accordance with its documented policy. The Company does not purchase, hold or sell derivative financial instruments for trading purposes. The Company's practice is to terminate derivative transactions if the underlying asset or liability matures or is sold or terminated, or if the Company determines the underlying forecasted transaction is no longer probable of occurring.

**Foreign Currency Forward Contracts**

The Company is exposed to market risk, such as fluctuations in foreign currency exchange rates. The Company's subsidiaries have foreign currency exchange exposure from buying and selling in currencies other than their functional currencies. The primary purpose of the Company's foreign currency hedging activities is to manage the potential changes in value associated with the amounts receivable or payable on transactions denominated in foreign currencies.

At December 31, 2006 and 2005, the Company was party to foreign currency forward contracts with an aggregate notional amount of \$331.0 million maturing through June 2007 and \$309.3 million, which matured through September 2006, respectively. The estimated fair values of these contracts, which represent the estimated net payments that would be paid or received by the Company in the event of termination of these contracts based on the then current foreign exchange rates, was a net receivable of \$0.1 million at December 31, 2006 and \$0.6 million at December 31, 2005. These contracts qualified and were designated as cash flow hedges and had original maturities of less than twelve months.

### **Interest Rate Swaps**

From time to time, the Company may use interest rate swaps to manage its mix of fixed and floating rates on its outstanding indebtedness.

At December 31, 2006, the Company had outstanding interest rate swaps with a total notional amount of \$300.0 million that qualified and were designated as fair value hedges. The Company entered into these interest rate swaps to effectively convert its 5.375% senior notes due April 2008 into floating rate debt. At December 31, 2006 and 2005, the Company recorded a mark to market adjustment to record a decrease of \$8.9 million and \$12.5 million, respectively, in the fair value of the 5.375% senior notes due April 2008 due to changes in interest rates and an offsetting increase to other liabilities to record the fair value of the related interest rate swaps. There was no ineffective portion of the hedges recognized in earnings during the period.

In 2006 and 2005, under the terms of the \$300.0 million outstanding interest rate swap agreements, the Company received interest at a fixed rate and paid interest at variable rates that were based on six-month London Interbank Offered Rate, or LIBOR. As a result, interest expense increased by \$6.6 million and \$1.6 million for the years ended December 31, 2006 and 2005, respectively.

### **Other Derivative Instruments**

The Company may use other derivative instruments from time to time, such as foreign exchange options to manage exposure due to foreign exchange rates and interest rate and currency swaps related to access to additional sources of international financing. These instruments can potentially limit foreign exchange exposure and limit or adjust interest rate exposure by swapping borrowings denominated in one currency for borrowings denominated in another currency. At December 31, 2006 and 2005, the Company had no foreign exchange options or interest rate and currency swap agreements outstanding.

### **Cash Flow Hedges**

The Company records gains and losses on derivatives qualifying as cash flow hedges in other comprehensive income (loss), to the extent that these hedges are effective and until it recognizes the underlying transactions in earnings, at which time it recognizes these gains and losses in the consolidated statement of operations.

Other comprehensive income (loss) for the years ended December 31, 2006, 2005 and 2004 reflected net unrealized after tax losses of \$0.7 million (\$1.1 million pre-tax), \$0.8 million (\$1.2 million pre-tax) and \$0.4 million (\$0.8 million pre-tax), respectively.

The estimated net amount of the existing unrecognized net gain on derivative instruments that the Company expects to be reflected in the consolidated statement of operations within the next twelve months is \$1.0 million, pre-tax. The unrealized amounts in other comprehensive income (loss) will fluctuate based on changes in the fair value of open contracts during each reporting period. The Company's cash flow hedges for the years ended December 31, 2006 and 2005 were effective hedges, meaning that they qualified for hedge accounting treatment.

### **Note 12 Financial Instruments**

Under U.S. GAAP, the Company must disclose its estimate of the fair value of material financial instruments, including those recorded as assets or liabilities in its consolidated financial statements and derivative financial instruments.

## Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The carrying amounts of current assets and liabilities approximate fair value due to their short-term maturities.

The fair value of the Company's senior notes in 2006 and 2005 and the euro notes in 2005, are based on quoted market prices. The Company derived the fair value estimates of the Company's various other debt instruments by evaluating the nature and terms of each instrument, considering prevailing economic and market conditions, and examining the cost of similar debt offered at the balance sheet date. These estimates are subjective and involve uncertainties and matters of significant judgment, and therefore the Company cannot determine them with precision. Changes in assumptions could significantly affect the Company's estimates.

The fair value of the debt in the table below differs from the carrying amount due to changes in interest rates based on market conditions as of December 31, 2006 and 2005. Generally, the fair value of fixed rate debt will increase as interest rates fall and decrease as interest rates rise.

The fair values of the Company's various derivative instruments, which are based on current market rates, generally reflect the estimated amounts that the Company would receive or pay to terminate the contracts at the reporting date.

The carrying amounts and estimated fair values of the Company's financial instruments at December 31, 2006 and 2005 were as follows:

	<b>2006 Carrying Amount</b>	<b>Fair Value</b>	<b>2005 Carrying Amount</b>	<b>Fair Value</b>
<b>Derivative financial assets:</b>				
Foreign currency forward contracts	\$ 0.1	\$ 0.1	\$ 0.6	\$ 0.6
<b>Derivative financial liabilities:</b>				
Interest rate swaps	\$ 8.9	\$ 8.9	\$ 12.5	\$ 12.5
<b>Financial liabilities:</b>				
<b>Debt:</b>				
5.625% Euro Notes	\$	\$	\$ 238.1	\$ 241.3
6.95% Senior Notes	226.8	234.5	226.6	238.3
5.375% Senior Notes(1)	290.6	308.5	286.7	312.8
5.625% Senior Notes	399.0	395.9	398.9	399.6
6.875% Senior Notes	448.5	450.5	448.4	472.3
3% Convertible Senior Notes	431.3	446.3	431.3	426.9
Other foreign loans	34.4	33.9	24.7	24.3
Other loans	21.7	16.3	21.5	20.2
<b>Total debt</b>	<b>\$ 1,852.3</b>	<b>\$ 1,885.9</b>	<b>\$ 2,076.2</b>	<b>\$ 2,135.7</b>

(1) The carrying value and fair value of such debt includes adjustments due to interest rate swaps. See Note 11.

### **Credit and Market Risk**

Financial instruments, including derivatives, expose the Company to counterparty credit risk for nonperformance and to market risk related to changes in interest or currency exchange rates. The Company manages its exposure to counterparty credit risk through specific minimum credit standards, diversification of counterparties, and procedures to monitor concentrations of credit risk.

The Company does not expect any of its counterparties in derivative transactions to fail to perform as they are substantial investment and commercial banks with high credit ratings and financial strength and

have significant experience using such derivative instruments. Nevertheless, there is a risk that the Company's exposure to losses arising out of derivative contracts could be material if the counterparties to these agreements fail to perform their obligations.

The Company monitors the impact of market risk on the fair value and cash flows of its derivative and other financial instruments considering reasonably possible changes in interest and currency exchange rates and restricts the use of derivative financial instruments to hedging activities. The Company does not use derivative financial instruments for trading or other speculative purposes and does not use leveraged derivative financial instruments.

The Company continually monitors the creditworthiness of its diverse base of customers to which it grants credit terms in the normal course of business and generally does not require collateral. The Company considers the concentrations of credit risk associated with its trade accounts receivable to be commercially reasonable and believes that such concentrations do not leave it vulnerable to significant risks of near-term severe adverse impacts. The terms and conditions of the Company's credit sales are designed to mitigate concentrations of credit risk with any single customer. The Company's sales are not materially dependent on a single customer or a small group of customers.

### Note 13 Global Manufacturing Strategy, Restructuring and Other Charges

#### *Global Manufacturing Strategy*

The Company's global manufacturing strategy, when implemented, will expand production in countries where demand for the Company's products and services has been growing significantly. At the same time, the Company intends to realign certain manufacturing capacity in North America and Europe into centers of excellence. The goals of this multi-year program are to expand capacity in growing markets, further improve the Company's operating efficiencies, and implement new technologies more effectively. The Company expects this program, combined with the Company's supply chain initiative, to produce meaningful savings in future years. By taking advantage of new technologies and streamlining production on a global scale, the Company expects to continue to enhance its profitable growth and its global leadership position.

In July 2006, the Company announced the first phase of this multi-year global manufacturing strategy. The financial scope of this phase is expected to be as follows:

	Expected Range	Incurred through December 31, 2006
Capital Expenditures	\$ 130.0 150.0	\$ 14.2
Associated Costs	\$ 90.0 100.0	\$ 15.6

The associated costs include such items as equipment relocation, facility start-up and severance. The Company expects the capital expenditures and charges for associated costs to occur between 2007 and 2008, although the actual timing of these expenditures is subject to change due to a variety of factors.

During 2006, all charges for the associated costs related to the food packaging segment and consisted of the following:

Employee termination costs	\$ 11.6
FAS 88 curtailment and settlements	0.2
Equipment relocations and facility start-up	3.8
Total	\$ 15.6

The components of the associated costs appear in the 2006 consolidated statement of operations on the following line items:

Restructuring charges	\$ 11.8
Cost of sales	3.8
Total	\$ 15.6

The Company has accrued \$11.6 million in severance costs in connection with this strategy. These costs will be future cash expenditures that will be incurred for one-time termination benefits. At the time the severance was accrued, the Company expected to eliminate 242 full-time positions. Since that time, the Company revised the number of positions to be eliminated to 245. During 2006, 36 positions were eliminated and the remaining positions are expected to be eliminated in 2007. The Company expects these benefits will be paid out before the end of 2009. The Company expects to add approximately 120 full-time employees at other facilities as production is transferred, so the net reduction in positions is expected to be 125. The Company reflected the \$11.6 million of severance costs in its consolidated statement of operations for 2006 in restructuring charges.

The components of the restructuring charges, spending and other activity through December 31, 2006 and the remaining accrual balance at December 31, 2006 were as follows:

	Employee Termination Costs	
Original provision in 2006	\$	11.6
Cash payments during 2006	(0.4)	
Effect of changes in currency rates	(0.3)	
Restructuring accrual at December 31, 2006	\$	10.9

**The Company expects to pay \$5.7 million of the remaining accrual balance at December 31, 2006 in 2007. This amount is reflected in other current liabilities on the Company's consolidated balance sheet at December 31, 2006. The remaining accrual of \$5.2 million is expected to be paid in 2008 and 2009 and is reflected in other liabilities on the Company's consolidated balance sheet at December 31, 2006.**

#### *Other 2006 Restructuring Activities*

During 2006, the Company accrued severance costs of \$0.6 million related to the Company's consolidation of its food packaging customer service activities in Canada. Such amount was reflected in the consolidated statement of operations on the restructuring charges line. The Company expects to eliminate 9 full-time positions. No cash payments were made during 2006 related to this accrual. The accrual balance at December 31, 2006 was \$0.6 million which was reflected in other current liabilities on the Company's consolidated balance sheet.

#### *2004 Restructuring Program*

During the fourth quarter of 2004, the Company announced a series of separate profit improvement plans in various geographic regions in order to complement the Company's long-term growth programs and financial goals, improve the Company's operating efficiencies and lower its overall cost structure. The plans principally reduced the number of employees and consolidated or relocated operations in both of the Company's reportable business segments.

At December 31, 2004, the Company expected to eliminate 473 full-time positions, which was increased to 475 during 2005. As an element of the program, the Company expected to add approximately 100 positions in connection with the Company's realignment or relocation of some of its manufacturing activities, so that the net reduction in positions was approximately 375. These actions affected principally

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

production workers and members of the Company's sales force, primarily in Europe. The Company has completed its reduction in headcount related to its 2004 restructuring program.

The charges for the year ended December 31, 2004 consisted of the following:

	Year Ended December 31, 2004		
	Food Packaging	Protective Packaging	Total Cost
Employee termination costs	\$ 17.5	\$ 4.1	\$ 21.6
Long-lived asset impairments	10.2	0.1	10.3
Facility exit costs	1.1		1.1
FAS 88 curtailment and settlements	0.3		0.3
<b>Total</b>	<b>\$ 29.1</b>	<b>\$ 4.2</b>	<b>\$ 33.3</b>

The long-lived asset impairment of \$10.3 million consisted of write-downs and write-offs of property and equipment. The impairments related to decisions to rationalize and realign production of some of the Company's smaller product lines and to close several smaller European manufacturing facilities. Since the undiscounted cash flows associated with these asset groups, including estimated salvage value, were less than the carrying values of these asset groups, they were written down to their estimated fair value. The Company disposed of these facilities and much of the equipment during the first six months of 2006.

The components of the restructuring charges, spending and other activity through December 31, 2006 and the remaining accrual balance at December 31, 2006 were as follows:

	Employee Termination Costs	Facility Exit Costs	Total Cost
Original provision in 2004	\$ 21.6	\$ 1.1	\$ 22.7
Cash payments during 2004	(0.6)		(0.6)
Effect of changes in currency rates	0.2		0.2
Restructuring accrual at December 31, 2004	21.2	1.1	22.3
Cash payments during 2005	(16.5)	(0.3)	(16.8)
Adjustment to restructuring liability, net	0.4		0.4
Effect of changes in currency rates	(0.4)	(0.1)	(0.5)
Restructuring accrual at December 31, 2005	4.7	0.7	5.4
Cash payments during 2006	(3.8)	(0.3)	(4.1)
Adjustment to restructuring liability, net	(0.1)		(0.1)
Effect of changes in currency rates	0.2		0.2
Restructuring accrual at December 31, 2006	\$ 1.0	\$ 0.4	\$ 1.4

The Company expects to pay \$1.3 million of the remaining \$1.4 million accrual balance in 2007 and \$0.1 million in 2008.

For the year ended December 31, 2006, the Company recorded in its consolidated statement of operations an additional restructuring charge of \$0.6 million which was related to the 2004 program. This amount includes additional costs related to the relocation of employees and assets from closed facilities which were completed in 2006. The Company also recorded in its consolidated statement of operations a net credit of \$0.1 million related to employee termination costs that were accrued as part of the 2004 restructuring program. The modifications to the originally recorded amounts resulted from increases in the amounts due to terminated employees of \$0.1 million and reductions based upon certain employees no longer being eligible for the termination benefits of \$0.2 million.

For the year ended December 31, 2005, the Company recorded \$1.7 million of additional charges related to the 2004 restructuring program. This amount includes \$1.3 million of costs incurred in 2005

related to the relocation of assets and employees from facilities that were closed as part of the restructuring program. The Company also recorded a net charge of \$0.4 million related to the employee termination costs that were accrued as part of the 2004 restructuring program. The modifications to the originally recorded amounts resulted from increases in the amounts due to terminated employees of \$0.9 million and reductions based upon certain employees no longer being eligible for the termination benefits of \$0.5 million.

**Note 14 Employee Benefits and Incentive Programs**

**Profit-Sharing and Retirement Savings Plans**

## Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The Company has a non-contributory profit-sharing plan covering most of its U.S. employees. Contributions to this plan, which are made at the discretion of the Board of Directors, may be made in cash, shares of the Company's common stock, or in a combination of cash and shares of the Company's common stock. The Company also maintains a contributory thrift and retirement savings plan in which most of its U.S. employees are eligible to participate. The contributory thrift and retirement savings plan generally provides for Company contributions based upon the amount contributed to the plan by the participants. Company contributions to or provisions for its profit-sharing plan and thrift and retirement savings plan are charged to operations and amounted to \$30.4 million, \$30.0 million and \$27.0 million in 2006, 2005 and 2004, respectively. In 2006, 2005 and 2004 there were no shares of common stock issued for the Company's contribution to its profit-sharing plan.

### **Defined Benefit Pension Plans**

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

As required, the Company adopted the provisions of Statement of Financial Accounting Standards No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R) ( SFAS No. 158 ), as of December 31, 2006. SFAS No. 158 requires, among other things, the recognition of the funded status of each defined pension benefit plan. Each over funded plan is recognized as an asset and each under funded plan is recognized as a liability. The initial impact of the standard due to unrecognized prior service costs and net actuarial gains or losses as well as subsequent changes in the funded status is recognized as a component of accumulated other comprehensive loss in the line item unamortized pension liability which is included in total shareholders equity. The amount of unamortized pension liability is recorded net of tax. Additional minimum pension liabilities and related intangible assets are also derecognized upon adoption of the new standard. The measurement date used by the Company to determine the benefit obligations and the plan assets is December 31. In accordance with SFAS No. 158, the Company s 2005 accounting and related disclosures were not affected by the adoption of the new standard. The table below summarizes the incremental effects of SFAS No. 158 adoption on the individual line items in the Company s consolidated balance sheet at December 31, 2006:

	Pre-SFAS No. 158 Adoption		SFAS No. 158 Adjustment		Post SFAS No. 158 Adoption	
<b>Assets:</b>						
Deferred income taxes	\$	152.8	\$	22.6	\$	175.4
Other assets	\$	224.4	\$	(62.8 )	\$	161.6
<b>Liabilities:</b>						
Other current liabilities	\$	573.9	\$	2.3	\$	576.2
Other liabilities	\$	112.5	\$	13.3	\$	125.8
<b>Shareholders equity:</b>						
Minimum pension liability, net of tax	\$	(4.4 )	\$	4.4	\$	
Unamortized pension, net of tax	\$		\$	(60.2 )	\$	(60.2 )

**United States**

A limited number of the Company's U.S. employees, including some employees who are covered by collective bargaining agreements, participate in defined benefit pension plans. The measurement date for the defined benefit pension plans presented below is December 31 of each period.

	2006	2005
<b>Change in benefit obligation:</b>		
Projected benefit obligation at beginning of period	\$ 37.6	\$ 33.1
Service cost	1.2	1.2
Interest cost	2.1	1.9
Plan amendments	0.3	
Actuarial loss	2.9	2.2
Benefits paid	(0.9 )	(0.8 )
Projected benefit obligation at end of period	\$ 43.2	\$ 37.6
<b>Change in plan assets:</b>		
Fair value of plan assets at beginning of period	\$ 32.9	\$ 30.2
Actual gain on plan assets	2.4	1.3
Employer contributions	0.5	2.2
Benefits paid	(0.9 )	(0.8 )
Fair value of plan assets at end of period	\$ 34.9	\$ 32.9
Funded status at end of year	\$ (8.3 )	\$ (4.7 )
Unrecognized net prior service costs (in 2005)		3.6
Unrecognized net actuarial loss (in 2005)		13.9
Net amount recognized (in 2005)		\$ 12.8

Amounts recognized in the consolidated balance sheet consist of:

	2006	2005
Other assets	\$ 0.5	\$
Other liabilities	(8.8 )	
Prepaid pension cost		12.8
Net amount recognized	\$ (8.3 )	\$ 12.8

The following presents the Company's pension expense for 2006, 2005 and 2004 under SFAS No. 132 for its U.S. pension plans.

	Year Ended December 31, 2006	Year Ended December 31, 2005	Year Ended December 31, 2004
<b>Components of net periodic benefit cost:</b>			
Service cost	\$ 1.2	\$ 1.2	\$ 1.1
Interest cost	2.1	1.9	1.8
Expected return on plan assets	(2.6 )	(2.4 )	(2.2 )
Amortization of prior service cost	0.7	0.7	0.7
Amortization of net actuarial loss	0.9	0.7	0.6
Net periodic pension cost	\$ 2.3	\$ 2.1	\$ 2.0

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

Weighted average assumptions used to determine benefit obligations at December 31, 2006 and 2005 were as follows:

	2006	2005
Discount rate	5.75 %	5.5 %
Rate of compensation increase	3.5 %	4.5 %

Weighted average assumptions used to determine net cost for the years ended December 31, 2006, 2005 and 2004 were as follows:

	2006	2005	2004
Discount rate	5.5 %	5.75 %	6.0 %
Expected long-term rate of return	8.0 %	8.0 %	8.0 %
Rate of compensation increase	4.5 %	4.5 %	4.5 %

The Company reviews the expected long-term rate of return on plan assets annually, taking into consideration the Company's asset allocation, historical returns, and the current economic environment.

The Company's long-term objectives for plan investments are to ensure that (a) there is an adequate level of assets to support benefit obligations to participants over the life of the plans, (b) there is sufficient liquidity in plan assets to cover current benefit obligations, and (c) there is a high level of investment return consistent with a prudent level of investment risk. The investment strategy is focused on a long-term total return in excess of a pure fixed income strategy with short-term volatility less than that of a pure equity strategy. To accomplish this objective, the Company causes assets to be invested in a balanced and diversified mix of equity and fixed income investments. The target asset allocation will typically be 50-65% in equity securities, with a maximum equity allocation of 75%, and 35-50% in fixed income securities, with a minimum fixed income allocation of 25% including cash.

The U.S. pension asset allocations at December 31, 2006 and 2005 were as follows:

	2006	2005
Equities	66.0 %	66.7 %
Fixed income investments	30.0 %	27.6 %
Cash	4.0 %	5.7 %

The Company expects to contribute \$0.5 million to its U.S. defined benefit plans in 2007.

The Company expects the following estimated future benefit payments, which reflect expected future service, as appropriate, to be paid in the years indicated:

Year	Amount
2007	\$ 1.0
2008	1.2
2009	1.4
2010	1.6
2011	1.8
2012 - 2016	14.1

Edgar Filing: SEALED AIR CORP/DE - Form 10-K

The amounts in accumulated other comprehensive income that have not yet been recognized as components of net periodic benefit cost at December 31, 2006, are:

Unrecognized prior service costs	\$ 3.3
Unrecognized net actuarial loss	16.1
<b>Total</b>	<b>\$ 19.4</b>

The amounts in accumulated other comprehensive income that are expected to be recognized as components of net periodic benefit cost during 2007 are as follows:

Unrecognized prior service costs	\$ 0.7
Unrecognized net actuarial loss	1.0
<b>Total</b>	<b>\$ 1.7</b>

**International**

Some of the Company's non-U.S. employees participate in defined benefit pension plans in their respective countries.
