**CHASE CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****Note 1 - Basis of Presentation**

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Therefore, they do not include all information and footnote disclosure necessary for a complete presentation of Chase Corporation's financial position, results of operations and cash flows, in conformity with generally accepted accounting principles. Chase Corporation (Chase or the Company) filed audited financial statements which included all information and notes necessary for such presentation for the three years ended August 31, 2006 in conjunction with the Company's 2006 Annual Report on Form 10-K.

The accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring items) which are, in the opinion of management, necessary for a fair presentation of the Company's financial position as of February 28, 2007, the results of operations and cash flows for the interim periods ended February 28, 2007 and 2006, and changes in stockholders' equity for the interim period ended February 28, 2007.

The financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company uses the U.S. dollar as the reporting currency for financial reporting. Foreign currency translation gains and losses are determined using current exchange rates for monetary items and historical exchange rates for other balance sheet items.

Certain amounts reported in prior years have been reclassified to be consistent with the current year presentation. These reclassifications had no effect on the Company's financial position or results of operations.

The results of operations for the interim period ended February 28, 2007 are not necessarily indicative of the results to be expected for any future period or the entire fiscal year. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended August 31, 2006, which are contained in the Company's 2006 Annual Report on Form 10-K.

**Note 2 Inventories**

Inventories consist of the following as of February 28, 2007 and August 31, 2006:

	<b>February 28, 2007</b>	<b>August 31, 2006</b>
Raw materials	\$ 10,208,327	\$ 8,840,258
Finished and in process	8,889,521	7,787,135
<b>Total Inventories</b>	<b>\$ 19,097,848</b>	<b>\$ 16,627,393</b>

**Note 3 Net Income Per Share**

Net income per share is calculated as follows:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2007	2006	2007	2006
Net income	\$ 1,371,695	\$ 953,681	\$ 3,919,433	\$ 1,971,579
Weighted average common shares outstanding	4,015,835	3,886,110	3,978,653	3,866,865
Additional dilutive common stock equivalents	153,624	91,848	154,982	90,510
Diluted shares outstanding	4,169,459	3,977,958	4,133,635	3,957,375
Net income per share - Basic	\$ 0.34	\$ 0.25	\$ 0.99	\$ 0.51
Net income per share - Diluted	\$ 0.33	\$ 0.24	\$ 0.95	\$ 0.50

**Note 4 Stock Based Compensation**

At a meeting of the Board of Directors of Chase Corporation held in February 2007, the Compensation and Management Development Committee approved a grant of 3,324 restricted stock units to members of the Board of Directors for service for the period February 2007 through January 2008. These restricted stock units will be issued in the form of common stock at the conclusion of this service period. The Company is amortizing this expense over the twelve month period beginning February 2007 to January 2008.

On February 3, 2006 the Board of Directors of Chase Corporation approved a performance and service based restricted stock unit grant of 41,317 shares to key members of management based on the fiscal year 2006 results. These restricted stock units are vesting over the period February 2006 through August 31, 2008. Based on the fiscal year 2006 financial results 20,659 additional restricted stock units (for a total of 61,976 restricted stock units) were granted in accordance with the performance measurement criteria. Compensation expense is being recognized over the vesting period on a ratable basis.

In February 2006 the Board of Directors of Chase Corporation also approved a plan for issuing a performance and service based restricted stock unit grant of approximately of 44,315 shares to key members of management with an issue date of September 1, 2006 and a vesting date of August 31, 2009. These shares are subject to a performance measurement based upon the results of fiscal year 2007 which will determine the final calculation of the number of shares that will be issued. Compensation expense is being recognized over the vesting period on a ratable basis and based on quarterly probability assessments.

**Note 5 Segment Information**

The Company operates in two business segments, a Specialized Manufacturing segment consisting of protective coatings and tapes and an Electronic Manufacturing Services segment. Specialized Manufacturing products include insulating and conducting materials for wire and cable manufacturers, protective coatings for pipeline applications and moisture protective coatings for electronics and printing services. Electronic Manufacturing Services include printed circuit board and electromechanical assembly services for the electronics industry. The Company evaluates segment performance based upon income before income taxes and minority interest.

Edgar Filing: CHASE CORP - Form 10-Q

The following table summarizes information about the Company's reportable segments:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2007	2006	2007	2006
<b>Revenues from external customers</b>				
Specialized Manufacturing	\$ 22,725,032	\$ 21,361,912	\$ 49,609,001	\$ 43,404,367
Electronic Manufacturing Services	4,778,656	2,976,725	9,139,283	5,785,494
Total	\$ 27,503,688	\$ 24,338,637	\$ 58,748,284	\$ 49,189,861
<b>Income before income taxes</b>				
Specialized Manufacturing	\$ 2,964,768	\$ 2,682,246	\$ 8,059,196	\$ 6,452,679
Electronic Manufacturing Services	578,850	196,279	951,454	412,823
Total for reportable segments	3,543,618	2,878,525	9,010,650	6,865,502
Corporate and Common Costs (a)	(1,366,325)	(1,277,789)	(2,789,328)	(4,680,459)
Total	\$ 2,177,293	\$ 1,600,736	\$ 6,221,322	\$ 2,185,043

(a) Includes deferred compensation expense net of \$814,034 for the six months ended February 28, 2006.

	February 28, 2007	August 31, 2006
<b>Total assets</b>		
Specialized Manufacturing	\$ 57,554,365	\$ 54,261,266
Electronic Manufacturing Services	13,169,170	12,098,862
Total for reportable segments	70,723,535	66,360,128
Corporate and Common Assets	12,307,159	12,476,969
Total	\$ 83,030,694	\$ 78,837,097

**Note 6 Goodwill and Other Intangibles**

The Company has two reporting units with goodwill, the Specialized Manufacturing unit and the Electronic Manufacturing Services unit. These reporting units are also reportable segments (see Note 5). Management is still finalizing the purchase price allocation for the Company's acquisition of Capital Services (see Note 7). Accordingly, the amount allocated to goodwill below as well as other identifiable intangible assets will be finalized in the near future.

The changes in the carrying value of goodwill, by reporting unit, are as follows:

	Specialized Manufacturing	Electronic Manufacturing Services	Consolidated
Balance at August 31, 2006	\$ 6,984,435	\$ 5,998,888	\$ 12,983,323
Acquisition of Capital Services Joint Systems	1,185,081		1,185,081
Foreign Exchange translation adjustment	165,554		165,554
Balance at February 28, 2007	\$ 8,335,070	\$ 5,998,888	\$ 14,333,958

The Company evaluates the possible impairment of goodwill annually each fourth quarter and whenever events or circumstances indicate the carrying value of goodwill may not be recoverable.

Edgar Filing: CHASE CORP - Form 10-Q

Intangible assets subject to amortization consist of the following at February 28, 2007 and August 31, 2006:

	Weighted-Average Amortization Period	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
<b>February 28, 2007</b>				
Patents and agreements	13.5 years	2,038,898	1,573,193	465,705
Formulas	9.1 years	1,093,485	195,481	898,004
Trade names	4.1 years	188,294	80,894	107,400
Customer lists and relationships	10.9 years	5,061,212	720,851	4,340,361
<b>August 31, 2006</b>				
Patents and agreements	13.5 years	2,032,898	1,461,213	571,685
Formulas	9.1 years	1,093,485	128,091	965,394
Trade names	4.1 years	188,294	56,730	131,564
Customer lists and relationships	10.9 years	4,884,259	470,839	4,413,420

In addition to the intangible assets summarized above, the Company also has corporate trademarks with an indefinite life and a carrying value of \$11,615.

Aggregate amortization expense related to intangible assets for the six months ended February 28, 2007 and 2006 was \$431,483 and \$257,583, respectively. Estimated amortization expense for the remainder of fiscal year 2007 and for each of the five succeeding fiscal years is as follows:

**Years ending August 31,**

2007 (remaining six months)	\$ 393,149
2008	775,409
2009	735,172
2010	665,958
2011	612,895
2012	605,314
	\$ 3,787,897

**Note 7 Acquisitions**

*Capital Services*

On September 1, 2006, Chase Corporation acquired all of the capital stock of Capital Services Joint Systems of Schenectady, New York ( Capital Services ) for approximately \$1,800,000 subject to adjustments and holdbacks including balance sheet retentions, and retentions for warranty and indemnifications and tax retentions. The value of the holdbacks and retentions total \$110,000. The assets acquired by the Company include inventories, trade receivables, cash, and other current assets. The purchase agreement for this acquisition requires additional contingent payments to be made by the Company if certain revenue targets are met with respect to the Capital Services and E-poxy products over the four years ending August 31, 2010.

Capital Services is a leading manufacturer of waterproofing sealants, expansion joints and accessories for the transportation, industrial and architectural markets. This new acquisition joins Chase's Royston and E-poxy Engineered Materials brands to form the Construction Products group of Chase Specialty Coatings.

The effective date for this acquisition was September 1, 2006 and the results of Capital Services operations have been included in the Company's financial statements since then. The purchase price was funded through a loan from Bank of America (See Note 9).

Management is still finalizing the purchase price allocation as it relates to the value of the intangible assets acquired. All assets, including goodwill, acquired as part of Capital Services are included in the Company's Specialized Manufacturing segment.

#### Note 8 Commitments and Contingencies

From time to time, the Company is involved in litigation incidental to the conduct of its business. The Company is not party to any lawsuit or proceeding that, in management's opinion, is likely to seriously harm the Company's business, results of operations, financial conditions or cash flows.

The Company is one of over 100 defendants in a personal injury lawsuit, pending in Ohio, which alleges personal injury from exposure to asbestos contained in certain Chase products. The plaintiff in the case issued discovery requests to Chase in August 2005, to which Chase timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date has since been postponed and no new trial date has been set. Since that time, the Ohio lawsuit has been inactive with respect to Chase.

#### Note 9 Long Term Debt

The Company borrowed \$1,800,000 from Bank of America in September 2006 in order to fund the acquisition of Capital Services. This borrowing involved an unsecured, five year term note with interest payments due monthly and principal payments due quarterly. Interest is calculated at the applicable LIBOR rate plus a margin of 1.5% per annum. Interest payments are due on the first day of each month. In addition to monthly interest payments, Chase Corporation must make quarterly payments of principal in the amount of \$112,500 on each quarterly anniversary of the first interest payment date during the term of the note.

#### Note 10 - Pensions and Other Post Retirement Benefits

The components of net periodic benefit cost for the three and six months ended February 28, 2007 and 2006 are as follows:

	Three Months Ended		Six Months Ended	
	February 28, 2007	February 28, 2006	February 28, 2007	February 28, 2006
Service cost	\$ 104,220	\$ 118,263	\$ 208,440	\$ 236,526
Interest cost	125,320	121,661	250,640	243,322
Expected return on plan assets	(110,778 )	(85,475 )	(221,556 )	(170,950 )
Amortization of prior service cost	21,996	21,996	43,992	43,992
Amortization of unrecognized loss	12,242	35,861	24,484	71,722
Net periodic benefit cost	\$ 153,000	\$ 212,306	\$ 306,000	\$ 424,612

As of February 28, 2007, the Company has contributed \$0 in the current fiscal year to fund its obligations under the pension plan. The Company plans to contribute \$384,000 to fund pension plan obligations in the fiscal year ending August 31, 2007.

**Note 11 Recent Accounting Pronouncements**

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (FAS 158). FAS 158 requires employers to fully recognize the obligations associated with single-employer defined benefit pension, retiree healthcare and other postretirement plans in their financial statements. The provisions of FAS 158 are effective as of the end of the fiscal year ending August 31, 2007. The Company is currently evaluating the impact of the provisions of FAS 158.

In September 2006, the FASB issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, which provides interpretive guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. The Company will be required to initially apply SAB No. 108 during fiscal year 2007. The Company is assessing the impact, if any, the adoption of SAB No. 108 will have on its financial position and results of operations.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes that a company should use a more-likely-than-not recognition threshold based on the technical merits of the tax position taken. Tax positions that meet the more-likely-than-not threshold should be measured in order to determine the tax benefit to be recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of FIN 48 on its results of operations, financial position and cash flows.

**Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion provides an analysis of the Company's financial condition and results of operations and should be read in conjunction with the Consolidated Financial Statements and notes thereto included in Item 1 of Part I of this Quarterly Report on Form 10-Q and the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2006.

**Recent Developments**

On March 14, 2007 Chase Corporation expanded its international presence with the formation of HumiSeal Europe SARL in France. This business will be part of the Company's HumiSeal® division ([www.humiseal.com](http://www.humiseal.com)), the global leader in conformal coatings for the protection of high reliability printed circuit boards and electronic assemblies.

HumiSeal Europe SARL will operate a sales/technical service office and warehouse near Paris. In conjunction with establishing the new company certain assets were acquired from Metronelec SARL, a former distributor of HumiSeal products. The new business will work closely with the HumiSeal operation in Camberley, Surrey, England allowing direct sales and service to the French market. Additionally, it is a key step in developing the supply of HumiSeal products on the European continent.

The purchase price for this acquisition was 885,000 (approximately US \$1,150,000) plus additional contingent payments to be made by the Company if certain revenue targets are met during the five year period ending February 28, 2012. The purchase price was financed out of cash flow from the Company's European operations.

Not included in the acquisition was the equipment and other materials of Metronelec. That business, which is unrelated to the HumiSeal business, will continue to operate independently under the Metronelec name.

On September 1, 2006, Chase Corporation acquired all of the capital stock of Capital Services Joint Systems of Schenectady, New York (Capital Services) for approximately \$1,800,000 subject to adjustments and holdbacks including balance sheet retentions, and retentions for warranty and indemnifications and tax retentions. The value of the holdbacks and retentions total approximately US \$110,000. The assets acquired by the Company include inventories, trade receivables, cash, and other current assets. The purchase agreement for this acquisition requires additional contingent payments to be made by the Company if certain revenue targets are met with respect to the Capital Services and E-poxy products over the four years ending August 31, 2010.

Capital Services is a leading manufacturer of waterproofing sealants, expansion joints and accessories for the transportation, industrial and architectural markets. This new acquisition joins Chase's Royston and E-poxy Engineered Materials brands to form the Construction Products group of Chase Specialty Coatings.

**Overview**

Continued benefit from strategic acquisitions, efficiency improvements and strong demand in the first half of fiscal year 2007 has resulted in significant revenue and profit increases in both the quarter and year to date periods. Revenue for the Specialized Manufacturing segment achieved solid results in the current quarter especially in light of the fact that the Company's second fiscal quarter is typically the slowest due to the decreased demand for construction related products in the winter months. The acquisition of

Capital Services in September 2006 added to the organic sales growth seen from existing facilities and product lines, while close attention to the manufacturing cost structure helped increase profitability. During the remainder of the fiscal year, the Company expects that stabilization of raw material costs and continued attention to the manufacturing cost structure will assist it in leveraging its fixed costs.

The Chase Electronic Manufacturing Services segment continued to have robust demand from both its existing and new customers and had significant revenue and profit increases in the second quarter compared to the same period in the prior year. The current demand for this service offering is high and has helped offset increased material costs in this segment.

**The Company continues to identify and pursue efficiency enhancements to its manufacturing operations as a means of better positioning its businesses and maximizing resources.**

The Company has two reportable segments summarized below:

Segment	Divisions	Manufacturing Focus and Products
Specialized Manufacturing Segment	<ul style="list-style-type: none"> <li>• Chase Coating &amp; Laminating</li> <li>• Chase Specialty Coatings</li> <li>• NEQP</li> </ul>	Produces protective coatings and tape products including insulating and conducting materials for wire and cable manufacturers, protective coatings for pipeline applications and moisture protective coatings for electronics and printing services, bridge deck waterproofing systems, reflective cracking and waterproofing membranes, as well as high performance polymeric asphalt additives.
Electronic Manufacturing Services Segment	<ul style="list-style-type: none"> <li>• Chase EMS</li> </ul>	Provides assembly and turnkey contract manufacturing services including printed circuit board and electromechanical assembly services to the electronics industry operating principally in the United States.

## Results of Operations

*Revenues and Operating Profit by Segment are as follows (dollars in thousands)*

	Revenue	Income Before Income Taxes	% of Revenue	
<b>Three Months Ended February 28, 2007</b>				
Specialized Manufacturing	\$ 22,725	\$ 2,965	13	%
Electronic Manufacturing Services	4,779	579	12	
	\$ 27,504	3,544	13	
Less corporate and common costs		(1,367)		)
Income before income taxes		\$ 2,177		
<b>Three Months Ended February 28, 2006</b>				
Specialized Manufacturing	\$ 21,362	\$ 2,682	13	%
Electronic Manufacturing Services	2,977	196	7	
	\$ 24,339	2,878	12	
Less corporate and common costs		(1,277)		)
Income before income taxes		\$ 1,601		

**Total Revenues**

Total revenues increased \$3,165,000 or 13% to \$27,504,000 for the quarter ended February 28, 2007 compared to \$24,339,000 in the prior year quarter. Total revenues increased \$9,558,000 or 19% to \$58,748,000 in the fiscal year to date period compared to \$49,190,000 in the same period in fiscal 2006. Revenues from the Company's Specialized Manufacturing segment increased \$1,363,000 and \$6,205,000, in the current quarter and year to date periods, respectively.

The increase in revenues is primarily due to the following for the quarter and year to date periods, respectively (a) \$561,000 and \$1,648,000 from the October 2005 acquisition of the Humiseal Europe business, (b) \$241,000 and \$769,000 from the September 2006 acquisition of Capital Services, and (c) \$567,000 and \$1,432,000 from increased sales of the Coating & Laminating division's transportation and specialty laminate products. Additionally the Specialty Coatings division's Rosphalt50® product accounted for increased sales of \$889,000 in the first fiscal quarter due to increased highway projects.

Revenues from the Company's Electronic Manufacturing Services segment increased \$1,802,000 and \$3,354,000, in the current quarter and year to date periods, respectively. The increase in revenues in both the quarter and year to date periods is a result of increased order activity from existing customers as well as higher volume due to several new customers added in the latter half of fiscal 2006. Additionally, the softness in the assembly market seen in prior periods continues to rebound contributing to overall demand.

**Cost of Products and Services Sold**

Cost of products and services sold increased \$2,090,000 or 12% to \$20,032,000 for the quarter ended February 28, 2007 compared to \$17,942,000 in the prior year quarter. Cost of products and services sold increased \$6,364,000 or 18% to \$41,827,000 in the fiscal year to date period compared to \$35,463,000 in the same period in fiscal 2006.

Cost of products and services sold in the Company's Specialized Manufacturing segment were \$16,065,000 and \$34,234,000 in the current quarter and year to date periods compared to \$15,398,000 and \$30,589,000 in the comparable periods in the prior year. Cost of products and services sold in the Company's Electronic Manufacturing Services segment were \$3,967,000 and \$7,593,000 in the current quarter and year to date periods compared to \$2,544,000 and \$4,874,000 in the comparable periods in the prior year.

The following table summarizes the relative percentages of revenues for costs of products and services sold for both the Company's reporting segments:

	Three Months Ended February 28,		Six Months Ended February 28,					
	2007		2006	2007		2006		
Specialized Manufacturing	71	%	72	%	69	%	70	%
EMS	83	%	85	%	83	%	84	%
<b>Total</b>	<b>73</b>	<b>%</b>	<b>74</b>	<b>%</b>	<b>71</b>	<b>%</b>	<b>72</b>	<b>%</b>

The majority of the dollar value increase in the Specialized Manufacturing segment was a direct result of increased revenues during the first half of fiscal 2007. In spite of increases and fluctuations in the price of raw materials, management's continued focus on improving manufacturing efficiencies and emphasis on strategic purchases helped maintain solid margins on most of the Company's key product lines.

The increase in dollar value of cost of products and services sold in the Company's Electronic Manufacturing segment was a direct result of higher revenues in the first six months of fiscal 2007. The

percentage decrease in cost of products and services sold in this segment reflects the Company's ability to leverage its fixed overhead costs on a higher revenue base and offset the increasing raw material costs.

***Selling, General and Administrative Expenses***

Selling, general and administrative expenses increased \$574,000 or 13% to \$5,133,000 for the quarter ended February 28, 2007 compared to \$4,559,000 in the prior year quarter. Selling, general and administrative expenses increased \$22,000 to \$10,349,000 in the fiscal year to date period compared to \$10,327,000 in the same period in fiscal 2006.

The increase in the current quarter includes approximately \$300,000 related to professional services for compliance with the internal control reporting requirements of Section 404 of the Sarbanes-Oxley Act. Due to the increased market value of the Company's public float, the deadline for complying with the internal control provisions of Sarbanes-Oxley has been accelerated as the Company will be considered an accelerated filer under SEC regulations beginning with its annual report for the fiscal year ending August 31, 2007. Accordingly, increased costs in the current quarter and the remainder of fiscal 2007 will be incurred in order to comply with the internal control provisions as of August 31, 2007. The increase in selling, general and administrative expenses is also in part due to stock based compensation of approximately \$210,000 in the current quarter compared to \$120,000 in the prior year period.

***Interest Expense***

Interest expense decreased \$39,000 or 13% to \$246,000 for the quarter ended February 28, 2007 compared to \$285,000 in the prior year quarter. The decrease in interest expense is a direct result of the Company's ability to reduce its overall debt balances through principal payments from operating cash flow. The Company expects to continue to pay down its debt through operating cash flow in fiscal 2007 and receive the benefits from favorable borrowing rates from its financial institutions.

***Other Income (Expense)***

Other income increased \$37,000 to \$85,000 for the quarter ended February 28, 2007 compared to \$48,000 in the prior year quarter. Other income includes monthly rental income of \$14,875 on property (building and land) owned by the Company and leased to Sunburst Electronic Manufacturing Solutions, Inc. under a thirty-six month rental agreement commencing on December 1, 2006 and expiring on November 30, 2009.

***Income Taxes***

In the quarter ending November 30, 2005, the Company concluded that it was more likely than not that the deferred tax asset in the form of capital loss carryforwards totaling \$1.7 million would be realized prior to its expiration beginning in fiscal 2009 as a result of the anticipated sale of real property currently owned by the Company. Accordingly, the valuation allowance previously recorded against this deferred tax asset was reversed in the quarter ending November 30, 2005 resulting in a tax benefit of \$635,000 which is reflected in the fiscal 2006 year to date results. The gain on the sale of this property will be recorded for both financial reporting and tax purposes in the period in which title is transferred from the Company to the buyer of the property. The anticipated effective tax rate in fiscal year 2007 is 37%. This compares to a rate of 38% with a net effective rate after reversal of the valuation allowance of approximately 32% in fiscal 2006.

***Net Income***

Net income increased \$418,000 or 44% to \$1,372,000 in the quarter ended February 28, 2007 compared to \$954,000 in the prior year quarter. The increase in the current quarter is a direct result of increased revenue growth coupled with the Company's ability to leverage its fixed costs.

## Liquidity and Sources of Capital

The Company's cash balance increased \$121,000 to \$2,537,000 at February 28, 2007 from \$2,416,000 at August 31, 2006. Generally, the Company manages its borrowings and payments under its revolving line of credit in order to maintain a low cash balance. The higher cash balance at February 28, 2007 was primarily the result of the cash acquired during the Humiseal Europe acquisition a portion of which was being held for the acquisition of certain assets from Metronelec in establishing HumiSeal Sarl in early March 2007. Management continues to review its current cash balances denominated in foreign currency in light of current tax guidelines and potential acquisitions.

Cash flow provided by operations was \$3,181,000 in the first six months of fiscal year 2007 compared to \$3,112,000 in the prior year period. Cash provided by operations during the first half of fiscal 2007 was primarily due to operating income offset by purchases of raw materials and income tax payments.

The ratio of current assets to current liabilities increased to 2.5 as of February 28, 2007 from 2.1 as of August 31, 2006. Increases in inventory, due to increased demand and overall sales volume, along with decreases in accrued income taxes and the current portion of long-term debt were the primary contributors to the increased working capital.

Cash flow used in investing activities of \$2,320,000 was primarily due to the \$1,690,000 cash paid for the acquisition of Capital Services and purchases of property, plant and equipment.

Cash flow used in financing activities of \$842,000 was primarily due to the new term loan of \$1,800,000 from Bank of America used to fund the Company's acquisition of Capital Services offset by net payments of long-term debt and the annual dividend payment.

On December 4, 2006 the Company paid a cash dividend of \$0.40 per share (totaling \$1,589,000) to shareholders of record on October 31, 2006.

The Company continues to have long-term unsecured credit available up to a maximum amount of \$10 million at the bank's base lending rate or, at the option of the Company, at the effective London Interbank Offered Rate (LIBOR) or Eurodollar rate plus 1.5 percent, or at the effective 30-day LIBOR rate plus 1.75 percent. The outstanding balance and weighted average interest rate of outstanding balances on this credit facility was \$5.1 million and 6.82%, respectively, at February 28, 2007. The Company had \$4.9 million in available credit at February 28, 2007 under this credit facility and plans to use this availability to help finance its cash needs in fiscal 2007 and future periods. The outstanding balance on this long-term unsecured credit facility is included in scheduled principal payments at its maturity (March 2009).

As of March 31, 2007, the Company had \$5.0 million in available credit under this credit facility.

Under the terms of the Company's credit facility, the Company must comply with certain debt covenants related to (a) the ratio of total liabilities to tangible net worth and (b) the ratio of operating cash flow to debt service on a rolling twelve month basis. The Company was in compliance with its debt covenants as of February 28, 2007.

In September 2006 (fiscal 2007), the Company borrowed \$1.8 million from Bank of America in order to fund its acquisition of Capital Services Joint Systems. This borrowing involved an unsecured, five year term note with interest payments due monthly and principal payments due quarterly. Interest is calculated at the applicable LIBOR rate plus a margin of 1.5% per annum. Interest payments are due on the first day of each month. In addition to monthly interest payments, Chase Corporation must make quarterly payments of principal in the amount of \$112,500 on each quarterly anniversary of the first interest payment date during the term of the note. The loan is subject to certain debt covenants similar to the

Company's credit facility as discussed above. Prepayment of the note is allowed at any time during the term of the loan.

To the extent that interest rates increase in future periods, the Company will assess the impact of these higher interest rates on the financial and cash flow projections of its potential acquisitions.

The Company does not have any significant off-balance sheet arrangements.

The Company has no significant capital commitments in fiscal 2007 but plans on adding additional machinery and equipment as needed to increase capacity or to enhance operating efficiencies in its manufacturing plants. Additionally, the Company may consider the acquisitions of companies or other assets in fiscal 2007 which are complementary to its business. The Company believes that its existing resources, including its primary credit facility, together with cash generated from operations and additional bank borrowings, will be sufficient to fund its cash flow requirements through at least the next twelve months. However, there can be no assurances that such financing will be available at favorable terms, if at all.

### **Recently Issued Accounting Standards**

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (FAS 158). FAS 158 requires employers to fully recognize the obligations associated with single-employer defined benefit pension, retiree healthcare and other postretirement plans in their financial statements. The provisions of FAS 158 are effective as of the end of the fiscal year ending August 31, 2007. The Company is currently evaluating the impact of the provisions of FAS 158.

In September 2006, the FASB issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, which provides interpretive guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. The Company will be required to initially apply SAB No. 108 during fiscal year 2007. The Company is assessing the impact, if any, the adoption of SAB No. 108 will have on its financial position and results of operations.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*—an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes that a company should use a more-likely-than-not recognition threshold based on the technical merits of the tax position taken. Tax positions that meet the more-likely-than-not threshold should be measured in order to determine the tax benefit to be recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of FIN 48 on its results of operations, financial position and cash flows.

### **Forward Looking Information**

The part of this Quarterly Report on Form 10-Q captioned *Management's Discussion and Analysis of Financial Condition and Results of Operations* contains certain forward-looking statements, which involve risks and uncertainties. These statements are based on current expectations, estimates and projections about the industries in which we operate, management's beliefs and assumptions made by management. Readers should refer to the discussions under *Forward Looking Information* and *Risk Factors* contained in the Company's Annual Report on Form 10-K for the year ended August 31, 2006 concerning certain factors that could cause the Company's actual results to differ materially from the results anticipated in such forward-looking statements. These discussions and Risk Factors are hereby incorporated by reference into this Quarterly Report.

**Item 3 - Quantitative and Qualitative Disclosures about Market Risk**

The Company limits the amount of credit exposure to any one issuer. At August 31, 2006, other than the Company's restricted investments (which are restricted for use in a non qualified retirement savings plan for certain key employees and Directors), all of the Company's funds were in demand deposit accounts. If the Company places its funds in other than demand deposit accounts, it uses instruments that meet high credit quality standards such as money market funds, government securities, and commercial paper.

The Company's domestic operations have limited currency exposure since all invoices are denominated in U.S. dollars. With the addition of the Company's UK operations (Humiseal Europe) in fiscal 2006, the exposure to currency exchange fluctuation has increased. The Company is reviewing its policies and procedures to reduce this exposure while maintaining the benefit from this operation and sales to other European customers. Historically, the Company has maintained minimal cash balances outside the U.S. As of February 28, 2007, the Company had cash balances in the United Kingdom for its Humiseal Europe division denominated primarily in pounds sterling and equal to US \$2,092,000. The Company expects to reduce this balance in fiscal 2007 by using the cash to pay down debt or for other strategic acquisitions.

The Company incurred a foreign currency translation gain in the six months ended February 28, 2007 in the amount of \$382,000 related to its Humiseal Europe division which is recorded in other comprehensive income (loss) within the Company's Statement of Stockholders' Equity. The Company does not have or utilize any derivative financial instruments for speculative or trading purposes.

**Item 4 - Controls and Procedures**

*Evaluation of disclosure controls and procedures*

Our management evaluated, under the supervision and with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

*Changes in internal control over financial reporting*

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Part II OTHER INFORMATION**

**Item 1 Legal Proceedings**

From time to time, the Company is involved in litigation incidental to the conduct of its business. The Company is not party to any lawsuit or proceeding that, in management's opinion, is likely to seriously harm the Company's business, results of operations, financial conditions or cash flows.

The Company is one of over 100 defendants in a personal injury lawsuit, pending in Ohio, which alleges personal injury from exposure to asbestos contained in certain Chase products. The plaintiff in the case issued discovery requests to Chase in August 2005, to which Chase timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date has since been postponed and no new trial date has been set. Since that time, the Ohio lawsuit has been inactive with respect to Chase.

**Item 1A Risk Factors**

Please refer to Item 1A in the Company's Form 10-K for the fiscal year ended August 31, 2006 for a complete discussion for the risk factors which could materially affect the Company's business, financial condition or future results.

**Item 6 - Exhibits**
