Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The accompanying Consolidated Financial Statements include the accounts of Ameriprise Financial, Inc., companies in which it directly or indirectly has a controlling financial interest, variable interest entities (VIEs) in which it is the primary beneficiary and certain limited partnerships for which it is the general partner (collectively, the Company). Noncontrolling interests are the ownership interests in subsidiaries not attributable, directly or indirectly, to Ameriprise Financial, Inc. and are classified as equity within the Consolidated Balance Sheets. The Company excluding noncontrolling interests (Ameriprise Financial) includes ownership interests in subsidiaries that are attributable, directly or indirectly, to Ameriprise Financial, Inc. All material intercompany transactions and balances between or among Ameriprise Financial, Inc. and its subsidiaries and affiliates have been eliminated in consolidation.

The interim financial information in this report has not been audited. In the opinion of management, all adjustments necessary for a fair presentation of the consolidated results of operations and financial position for the interim periods have been made. All adjustments made were of a normal recurring nature.

Ameriprise Financial, Inc. is a holding company, which primarily conducts business through its subsidiaries to provide financial planning and products and services that are designed to be utilized as solutions for clients' cash and liquidity, asset accumulation, income, protection and estate and wealth transfer needs. The Company's foreign operations in the United Kingdom are conducted through its subsidiary, Threadneedle Asset Management Holdings Sàrl (Threadneedle).

The accompanying Consolidated Financial Statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain reclassifications of prior period amounts have been made to conform to the current presentation.

The Company evaluated events or transactions that may have occurred after the balance sheet date for potential recognition or disclosure through August 4, 2009, the date the financial statements were issued.

2. Recent Accounting Pronouncements

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 168 The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 162). SFAS 168 will supersede existing non-SEC accounting and reporting standards. The codification will not change GAAP but will rather organize it into a new hierarchy with two levels: authoritative and non-authoritative. All authoritative GAAP will carry equal weight and be organized in a topical structure. SFAS 168 is effective for interim and annual reporting periods ending after September 15, 2009. The adoption of SFAS 168 will not have a material effect on the Company s consolidated results of operations and financial condition.

In June 2009, the FASB issued SFAS No. 167 Amendments to FASB Interpretation No. 46(R) (SFAS 167). SFAS 167 amends the consolidation guidance applicable to VIEs under FASB Interpretation No. 46(R) Consolidation of Variable Interest Entities an interpretation of ARB No. 51 and requires additional disclosures about the Company s involvement in VIEs. SFAS 167 is effective for interim and annual reporting periods beginning after November 15, 2009, with early adoption prohibited. The Company is currently evaluating the impact of SFAS 167 on its consolidated results of operations and financial condition.

In June 2009, the FASB issued SFAS No. 166 Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (SFAS 166). SFAS 166 improves the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor s continuing involvement, if any, in transferred financial assets. SFAS 166 is effective for interim and annual reporting periods beginning after November 15, 2009, with early adoption prohibited, and must be applied to transfers of financial assets occurring on or after the effective date. The adoption of SFAS 166 is not expected to have a material effect on the Company s consolidated results of operations and financial condition.

In May 2009, the FASB issued SFAS No. 165 Subsequent Events (SFAS 165). SFAS 165 provides guidance on the recognition of subsequent events and requires additional disclosures on the time period evaluated for such events. SFAS 165 is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The Company adopted SFAS 165 in the second quarter of 2009. The adoption did not have a material effect on the Company s consolidated results of operations and financial condition.

In April 2009, the FASB issued FASB Staff Position (FSP) FAS 157-4 Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP 157-4). FSP 157-4 provides guidance on estimating the fair value of a financial asset or liability when the trade volume and level of activity for the asset or liability has significantly decreased relative to historical levels. FSP 157-4 requires entities to disclose in interim and annual periods the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, debt and equity securities as defined by SFAS No. 115 Accounting for Certain

Table of Contents

AMERIPRISE FINANCIAL, INC.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Investments in Debt and Equity Securities shall be disclosed by major category. This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009, and is to be applied prospectively. The Company early adopted FSP 157-4 in the first quarter of 2009. The adoption did not have a material effect on the Company's consolidated results of operations and financial condition.

In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2 Recognition and Presentation of Other-Than-Temporary Impairments (FSP 115-2). FSP 115-2 amends existing guidance on other-than-temporary impairments for debt securities and requires that the credit portion of other-than-temporary impairments be recorded in earnings and the noncredit portion of losses be recorded in other comprehensive income. FSP 115-2 requires presentation of both the credit and noncredit portions of other-than-temporary impairments on the financial statements and additional disclosures in interim and annual periods. This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. At the date of adoption, the portion of previously recognized other-than-temporary impairments that represent the noncredit related loss component shall be recognized as a cumulative effect of adoption with an adjustment to the opening balance of retained earnings with a corresponding adjustment to accumulated other comprehensive income (loss). The Company adopted FSP 115-2 in the first quarter of 2009 and recorded a cumulative effect increase to the opening balance of retained earnings of \$132 million, net of deferred acquisition costs (DAC) and deferred sales inducement costs (DSIC) amortization, certain benefit reserves and income taxes, and a corresponding increase to accumulated other comprehensive loss, net of impacts to DAC, DSIC, certain benefit reserves and income taxes. See Note 3 for the Company's updated accounting policy and disclosures required by this FSP.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1 Interim Disclosures about Fair Value of Financial Instruments (FSP 107-1). FSP 107-1 requires interim disclosure on the fair value of financial instruments within the scope of SFAS No. 107 Disclosures about Fair Value of Financial Instruments. This FSP is effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company applied the disclosure requirements of FSP 107-1 in the first quarter of 2009. See Note 9 for disclosures required by this FSP.

In December 2008, the FASB issued FSP FAS 132(R)-1 Employers Disclosures about Postretirement Benefit Plan Assets (FSP 132(R)-1). FSP 132(R)-1 requires enhanced disclosure related to plan assets including information about inputs and techniques used to determine the fair value of plan assets. FSP 132(R)-1 is effective for the first fiscal year ending after December 15, 2009, with early adoption permitted. The Company will apply the disclosure requirements of FSP 132(R)-1 as of December 31, 2009.

In June 2008, the FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities (FSP EITF 03-6-1). FSP EITF 03-6-1 clarifies that unvested share-based payment awards with nonforfeitable rights to dividends or dividend equivalents are considered participating securities and should be included in the calculation of earnings per share pursuant to the two-class method. FSP EITF 03-6-1 is effective for financial statements issued for periods beginning after December 15, 2008, with early adoption prohibited. FSP EITF 03-6-1 requires that all prior-period earnings per share data be adjusted retrospectively to conform with the FSP provisions. The Company adopted FSP EITF 03-6-1 as of January 1, 2009. The adoption did not have a material effect on the Company's earnings per share.

In March 2008, the FASB issued SFAS No. 161 Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 161). SFAS 161 intends to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures about their impact on an entity's financial position, financial performance, and cash flows. SFAS 161 requires disclosures regarding the objectives for using derivative instruments, the fair value of derivative instruments and their related gains and losses, and the accounting for derivatives and related hedged items. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early adoption permitted. The Company applied the disclosure requirements of SFAS 161 in the first quarter of 2009. See Note 10 for disclosures required by SFAS 161.

In December 2007, the FASB issued SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 (SFAS 160), which establishes the accounting and reporting for ownership interest in subsidiaries not attributable, directly or indirectly, to a parent. SFAS 160 requires that noncontrolling (minority) interests be classified as equity (instead of as a liability) within the consolidated balance sheet, and net income (loss) attributable to both the parent and the noncontrolling interests be disclosed on the face of the consolidated statement of operations. SFAS 160 is effective for fiscal years beginning after December 15, 2008, and interim periods within those years with early adoption prohibited. The provisions of SFAS 160 are to be applied prospectively, except for the presentation and disclosure requirements which are to be applied retrospectively to all periods presented. The Company adopted SFAS 160 as of January 1, 2009. The adoption did not have a material effect on the Company's consolidated results of operations and financial condition.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements. Accordingly, SFAS 157 does not require any new fair value measurements. The provisions of SFAS 157 are required to be applied prospectively as of the beginning of the fiscal year in which SFAS 157 is initially applied, except for certain financial instruments as defined in SFAS 157 that require retrospective application. Any retrospective application will be recognized as a cumulative effect adjustment to the opening balance of retained earnings for the fiscal year of adoption. The Company adopted SFAS 157 effective January 1, 2008 and recorded a cumulative effect reduction to the opening balance of retained earnings of \$30 million, net of DAC and DSIC amortization and income taxes. This reduction to retained earnings was related to adjusting the fair value of certain derivatives the Company uses to hedge its exposure to market risk related to certain variable annuity riders. The Company initially recorded these derivatives in accordance with EITF Issue No. 02-3 Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities (EITF 02-3). SFAS 157 nullifies the guidance in EITF 02-3 and requires these derivatives to be marked to the price the Company would receive to sell the derivatives to a market participant (an exit price). The adoption of SFAS 157 also resulted in adjustments to the fair value of the Company's embedded derivative liabilities associated with certain variable annuity riders. Since there is no market for these liabilities, the Company considered the assumptions participants in a hypothetical market would make to determine an exit price. As a result, the Company adjusted the valuation of these liabilities by updating certain policyholder assumptions, adding explicit margins to provide for profit, risk, and expenses, and adjusting the rate used to discount expected cash flows to reflect a current market estimate of the Company's risk of nonperformance specific to these liabilities. These adjustments resulted in an adoption impact of a \$4 million increase in earnings, net of DAC and DSIC amortization and income taxes, at January 1, 2008. The nonperformance risk component of the adjustment is specific to the risk of RiverSource Life Insurance Company (RiverSource Life) and RiverSource Life Insurance Co. of New York (RiverSource Life of NY) (collectively, RiverSource Life companies) not fulfilling these liabilities. As the Company's estimate of this credit spread widens or tightens, the liability will decrease or increase.

In accordance with FSP FAS 157-2, Effective Date of FASB Statement No. 157 (FSP 157-2), the Company deferred the adoption of SFAS 157 until January 1, 2009 for all nonfinancial assets and nonfinancial liabilities, except for those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The adoption of FSP 157-2 did not have a material effect on the Company's consolidated results of operations and financial condition. See Note 9 for additional information regarding the fair values of the Company's assets and liabilities.

3. Investments

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The following is a summary of investments:

	June 30, 2009	(in millions)		December 31, 2008
Available-for-Sale securities, at fair value	\$	29,911	\$	22,873
Commercial mortgage loans, net		2,758		2,887
Trading securities		904		501
Policy loans		715		729
Other investments		505		532
Total	\$	34,793	\$	27,522

Available-for-Sale Securities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Effective January 1, 2009, the Company early adopted FSP 115-2. This interpretation significantly changed the Company's accounting policy regarding the timing and amount of other-than temporary impairments for Available-for-Sale securities as follows. When the fair value of an investment is less than its amortized cost, the Company assesses whether or not: (i) it has the intent to sell the security (made a decision to sell) or (ii) it is more likely than not that the Company will be required to sell the security before its anticipated recovery. If either of these conditions are met, the Company must recognize an other-than-temporary impairment for the difference between the investment's amortized cost basis and its fair value through earnings. For securities that do not meet the above criteria, and the Company does not expect to recover a security's amortized cost basis, the security is considered other-than temporarily impaired. For these securities, the Company separates the total impairment into the credit loss component and the amount of the loss related to other factors. The amount of the total other-than-temporary impairment related to credit loss is recognized in earnings. The amount of the total other-than-temporary impairment related to other factors is recognized in other comprehensive income, net of impacts to DAC, DSIC, certain benefit reserves and income taxes. For Available-for-Sale securities that have recognized an other-than-temporary impairment through earnings, if through subsequent evaluation there is a significant increase in the cash flow expected, the difference between the amortized cost basis and the cash flows expected to be collected is accreted as interest income.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Subsequent increases and decreases in the fair value of Available-for-Sale securities are included in other comprehensive income. The Company's Consolidated Statements of Equity present all changes in other comprehensive income associated with Available-for-Sale debt securities that have been other-than-temporarily impaired on a separate line from fair value changes recorded in other comprehensive income from all other securities.

The Company provides a supplemental disclosure on the face of its Consolidated Statements of Operations that presents: (i) total other-than-temporary impairment losses recognized during the period and (ii) the portion of other-than-temporary impairment losses recognized in other comprehensive income. The sum of these amounts represents the credit-related portion of other-than-temporary impairments that were recognized in earnings during the period. The portion of other-than-temporary losses recognized in other comprehensive income includes: (i) the portion of other-than-temporary impairment losses related to factors other than credit recognized during the period and (ii) reclassifications of other-than-temporary impairment losses previously determined to be related to factors other than credit that are determined to be credit-related in the current period. The amount presented on the Consolidated Statements of Operations as the portion of other-than-temporary losses recognized in other comprehensive income excludes subsequent increases and decreases in the fair value of these securities.

For all securities that are considered temporarily impaired, the Company does not intend to sell these securities (has not made a decision to sell) and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis. The Company believes that it will collect all principal and interest due on all investments that have amortized cost in excess of fair value that are considered only temporarily impaired.

Corporate debt securities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Factors the Company considers in determining whether declines in the fair value of fixed maturity securities are other-than-temporary include: 1) the extent to which the market value is below amortized cost; 2) the duration of time in which there has been a significant decline in value; 3) fundamental analysis of the liquidity, business prospects and overall financial condition of the issuer; and 4) market events that could impact credit ratings, economic and business climate, litigation and government actions, and similar external business factors. In order to determine the amount of the credit loss component for corporate debt securities considered other-than-temporarily impaired, a best estimate of the present value of cash flows expected to be collected discounted at the security's effective interest rate is compared to the amortized cost basis of the security. The significant inputs to cash flow projections consider potential debt restructuring terms, projected cash flows available to pay creditors and the Company's position in the debtor's overall capital structure.

Structured investments

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

For structured investments (e.g., residential mortgage backed securities, commercial mortgage backed securities, asset backed securities and other structured investments), the Company also considers factors such as overall deal structure and its position within the structure, quality of underlying collateral, delinquencies and defaults, loss severities, recoveries, prepayments and cumulative loss projections in assessing potential other-than-temporary impairments of these investments. Based upon these factors, securities that have indicators of potential other-than-temporary impairment are subject to detailed review by management. Securities for which declines are considered temporary continue to be carefully monitored by management. For the six months ended June 30, 2009, certain non-agency mortgage backed securities were deemed other-than temporarily impaired. Generally, the credit loss component for the non-agency mortgage backed securities is determined as the amount the amortized cost basis exceeds the present value of the projected cash flows expected to be collected. Significant inputs considered in these projections are consistent with the factors considered in assessing potential other-than-temporary impairment for these investments. Forward interest rates are considered in the cash flow projections and are used to calculate the discount rate used to determine the present value of the expected cash flows when structures are supported by variable rate securities. Current effective interest rates are used to discount cash flows supported by fixed rate securities.

Other debt obligations	10			10
Total	\$ 24,708	\$ 257	\$ (2,092)	\$ 22,873

At June 30, 2009 and December 31, 2008, fixed maturity securities comprised approximately 86% and 83%, respectively, of the Company's total investments. These securities were rated by Moody's Investors Service (Moody's), Standard & Poor's Rating Services (S&P) and Fitch Ratings Ltd. (Fitch), except for approximately \$1.2 billion of securities at both June 30, 2009 and December 31, 2008, which were rated by the Company's internal analysts using criteria similar to Moody's and S&P. Ratings on investment grade securities are presented using S&P's convention and, if Moody's and S&P's ratings differ, the lower rating is used. A summary of fixed maturity securities by rating was as follows:

Ratings	June 30, 2009		Percent of Total Fair Value (in millions, except percentages)	December 31, 2008		Percent of Total Fair Value
	Amortized Cost	Fair Value		Amortized Cost	Fair Value	

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

AAA	\$	12,545	\$	12,595	42%	\$	9,475	\$	8,988	40%
AA		1,167		1,101	4		1,698		1,571	7

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

As part of the Company's ongoing monitoring process, management determined that a majority of the gross unrealized losses on its Available-for-Sale securities are attributable to changes in credit spreads across sectors. The primary driver of decreased unrealized losses during 2009 was the tightening of credit spreads across sectors. A portion of the decrease in unrealized losses was offset by an increase due to the adoption of FSP 115-2. The Company recorded a cumulative effect increase to the amortized cost of previously other-than-temporarily impaired investments that increased the gross unrealized losses on Available-for-Sale securities by \$211 million. This impact is due to impairment of Available-for-Sale securities recognized in other comprehensive income previously recognized through earnings for factors other than credit.

The following table presents the amounts recognized in the Consolidated Statements of Operations for other-than-temporary impairments related to credit losses on securities for which a portion of the securities' total other-than-temporary impairments was recognized in other comprehensive income:

	Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
	(in millions)	
Beginning balance of credit losses on securities held for which a portion of other-than-temporary impairment was recognized in other comprehensive income	\$ 282	\$ 258
Additional amount related to credit losses for which an other-than-temporary impairment was not previously recognized		8
Reductions for securities sold during the period (realized)	(3)	(3)
Additional increases to the amount related to credit losses for which an other-than-temporary impairment was previously recognized	31	47
Ending balance of credit losses on securities held as of June 30 for which a portion of other-than-temporary impairment was recognized in other comprehensive income	\$ 310	\$ 310

The change in net unrealized securities gains (losses) in other comprehensive income (loss) includes three components, net of tax: (i) unrealized gains (losses) that arose from changes in the market value of securities that were held during the period; (ii) (gains) losses that were previously unrealized, but have been recognized in current period net income due to sales of Available-for-Sale securities and (iii) other items primarily consisting of adjustments in asset and liability balances, such as DAC, DSIC, benefit reserves and reinsurance recoverables, to reflect the expected impact on their carrying values had the unrealized gains (losses) been realized as of the respective balance sheet dates. As a result of the adoption of FSP 115-2, effective January 1, 2009, net unrealized investment gains (losses) arising during the period also includes other-than-temporary impairment losses on Available-for-Sale securities related to factors other than credit that were recognized in other comprehensive income during the period. Additionally, reclassification of (gains) losses included in net income contains noncredit other-than-temporary impairment losses that were previously unrealized, but have been recognized in current period net income due to their reclassification as credit losses.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table presents a rollforward of the net unrealized securities losses on Available-for-Sale securities included in accumulated other comprehensive income:

	Net Unrealized Investment Gains (Losses)	Deferred Income Tax (in millions)	Accumulated Other Comprehensive Income (Loss) Related to Net Unrealized Investment Gains (Losses)
Balance at January 1, 2008	\$ (258)	\$ 90	\$ (168)
Net unrealized investment gains (losses) arising during the period	(645)	226	(419)
Reclassification of (gains) losses included in net income	51	(18)	33
Impact of net unrealized investment (gains) losses on DAC, DSIC and benefit reserves	66	(23)	43
Balance at June 30, 2008	\$ (786)	\$ 275	\$ (511)
Balance at January 1, 2009	\$ (1,478)	\$ 517	\$ (961)
Cumulative effect of accounting change	(203)(1)	71	(132)
Net unrealized investment gains (losses) arising during the period	1,499	(525)	974
Reclassification of (gains) losses included in net income	(31)	11	(20)
Impact of net unrealized investment (gains) losses on DAC, DSIC, benefit reserves and reinsurance recoverables	(280)	98	(182)
Balance at June 30, 2009	\$ (493)	\$ 172	\$ (321)(2)

(1) Amount represents the cumulative effect of adopting FSP115-2 on January 1, 2009, net of DAC and DSIC amortization and certain benefit reserves. See Note 2 for additional information on the adoption impact.

(2) At June 30, 2009, Accumulated Other Comprehensive Income (Loss) Related to Net Unrealized Investment Gains (Losses) included \$(97) million of noncredit related impairments on securities and net unrealized securities losses on previously impaired securities.

Net realized gains and losses on Available-for-Sale securities, determined using the specific identification method, recognized in net investment income were as follows:

	Three Months Ended June 30, 2009		2008		Six Months Ended June 30, 2009		2008	
	(in millions)				(in millions)			
Gross realized gains from sales	\$	57	\$	1	\$	109	\$	11

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Gross realized losses from sales	(11)		(12)	(2)
Impairment losses	(31)	(28)	(66)	(60)

The \$31 million of other-than-temporary impairments recognized in net investment income for the three months ended June 30, 2009 are related to credit losses on non-agency residential mortgage backed securities. The \$66 million of other-than-temporary impairments recognized in net investment income for the six months ended June 30, 2009 are related to credit losses on non-agency residential mortgage backed securities, corporate debt securities primarily in the gaming industry and other structured investments.

Available-for-Sale securities by maturity as of June 30, 2009 were as follows:

	Amortized Cost		Fair Value	
	(in millions)			
Due within one year	\$	1,628	\$	1,641
Due after one year through five years		7,895		7,786
Due after five years through 10 years		3,847		3,801
Due after 10 years		3,185		3,196
		16,555		16,424
Residential mortgage backed securities		7,864		7,434
Commercial mortgage backed securities		4,054		4,056
Asset backed securities		1,938		1,909
Other structured investments		24		49
Common and preferred stocks		53		39
Total	\$	30,488	\$	29,911

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The expected payments on residential mortgage backed securities, commercial mortgage backed securities, asset backed securities and other structured investments may not coincide with their contractual maturities. As such, these securities, as well as common and preferred stocks, were not included in the maturities distribution.

Trading Securities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net recognized gains related to trading securities held at June 30, 2009 were \$19 million for the six months ended and net recognized losses were \$18 million for the six months ended June 30, 2008.

4. Deferred Acquisition Costs and Deferred Sales Inducement Costs

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The balances of and changes in DAC were as follows:

	2009	(in millions)		2008
Balance at January 1	\$	4,383	\$	4,408
Cumulative effect of accounting change				36
Capitalization of acquisition costs		366		325
Amortization		(161)		(298)
Impact of change in net unrealized securities losses		(227)		42
Balance at June 30	\$	4,361	\$	4,513

The balances of and changes in DSIC, included in other assets on the Consolidated Balance Sheets, were as follows:

	2009	(in millions)		2008
Balance at January 1	\$	518	\$	511
Cumulative effect of accounting change				9
Capitalization of sales inducements		39		47
Amortization		(6)		(36)
Impact of change in net unrealized securities losses		(33)		7
Balance at June 30	\$	518	\$	538

The Company adopted FSP 115-2 in the first quarter of 2009. The adoption had no net impact to DAC and DSIC.

Effective January 1, 2008, the Company adopted SFAS 157 and recorded as a cumulative change in accounting principle a pretax increase of \$36 million and \$9 million to DAC and DSIC, respectively. See Note 2 and Note 9 for additional information regarding SFAS 157.

5. Future Policy Benefits and Claims and Separate Account Liabilities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Future policy benefits and claims consisted of the following:

	June 30, 2009	(in millions)		December 31, 2008
Fixed annuities	\$ 16,364	\$		14,058
Equity indexed annuities accumulated host values	200			228
Equity indexed annuities embedded derivatives	15			16
Variable annuities fixed sub-accounts	5,987			5,623
Variable annuity guaranteed minimum withdrawal benefits (GMWB)	584			1,471
Variable annuity guaranteed minimum accumulation benefits (GMAB)	180			367
Other variable annuity guarantees	36			67
Total annuities	23,366			21,830
Variable universal life (VUL)/universal life insurance (UL)	2,571			2,526
Other life, disability income and long term care insurance	4,486			4,397
Auto, home and other insurance	373			368
Policy claims and other policyholders funds	120			172
Total	\$ 30,916	\$		29,293

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Separate account liabilities consisted of the following:

	June 30, 2009	(in millions)	December 31, 2008
Variable annuity variable sub-accounts	\$ 41,117		\$ 37,657
VUL insurance variable sub-accounts	4,407		4,091
Other insurance variable sub-accounts	40		39
Threadneedle investment liabilities	3,097		2,959
Total	\$ 48,661		\$ 44,746

6. Variable Annuity and Insurance Guarantees

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The majority of the variable annuity contracts offered by the Company contain guaranteed minimum death benefit (GMDB) provisions. The Company also offers variable annuities with death benefit provisions that gross up the amount payable by a certain percentage of contract earnings, which are referred to as gross gain-up (GGU) benefits. In addition, the Company offers contracts with GMWB provisions. The Company discontinued sales of contracts with GMAB provisions June 1, 2009. The Company previously offered contracts containing guaranteed minimum income benefit (GMIB) provisions.

Certain universal life contracts offered by the Company provide secondary guarantee benefits. The secondary guarantee ensures that, subject to specified conditions, the policy will not terminate and will continue to provide a death benefit even if there is insufficient policy value to cover the monthly deductions and charges.

The following table provides summary information related to all variable annuity guarantees for which the Company has established additional liabilities:

Variable annuity guarantees by benefit type(1)	June 30, 2009				December 31, 2008				
	Total contract value	Contract value in separate accounts	Net amount at risk(2)	Weighted average attained age (in millions, except age)	Total contract value	Contract value in separate accounts	Net amount at risk(2)	Weighted average attained age

7. Customer Deposits

Customer deposits consisted of the following:

	June 30, 2009	(in millions)		December 31, 2008
Fixed rate certificates	\$ 3,898	\$		3,909
Stock market based certificates	860			909
Stock market embedded derivative reserve	16			5
Other	59			62
Less: accrued interest classified in other liabilities	(25)			(11)
Total investment certificate reserves	4,808			4,874
Brokerage deposits	1,865			1,988
Banking deposits	2,543			1,367
Total	\$ 9,216	\$		8,229

8. Debt

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Debt and the stated interest rates were as follows:

	Outstanding Balance		Stated Interest Rate	
	June 30, 2009	December 31, 2008	June 30, 2009	December 31, 2008
	(in millions)			
Senior notes due 2010	\$ 790	\$ 800	5.4%	5.4%
Senior notes due 2015	700	700	5.7	5.7
Senior notes due 2019	300		7.3	
Junior subordinated notes due 2066	322	457	7.5	7.5
Senior notes due 2039	200		7.8	
Municipal bond inverse floater certificates due 2021	6	6	0.4	2.2
Floating rate revolving credit borrowings due 2013	117	64	5.0	3.6
Total	\$ 2,435	\$ 2,027		

On June 3, 2009, the Company issued \$200 million of unsecured senior notes which mature June 15, 2039 and carry a fixed interest rate of 7.75%. Interest payments are due quarterly in arrears on March 15, June 15, September 15 and December 15, commencing September 15, 2009.

On June 8, 2009, the Company issued \$300 million of unsecured senior notes which mature June 28, 2019 and carry a fixed interest rate of 7.30%. Interest payments are due semi-annually in arrears on June 28 and December 28, commencing December 28, 2009.

In July 2009, the Company purchased \$450 million aggregate principal amount of its 5.35% Senior Notes (Notes) due November 15, 2010, pursuant to the cash tender offer announced on July 1, 2009. The tender offer consideration per \$1,000 principal amount of Notes accepted for purchase was \$1,000, with an early tender payment of \$30 that expired on July 15, 2009. The tender offer expired on July 29, 2009. Payments for Notes purchased pursuant to the tender offer included accrued and unpaid interest from the last interest payment date to, but not including, the settlement date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

9. Fair Values of Assets and Liabilities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Effective January 1, 2008, the Company adopted SFAS 157, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; that is, an exit price. The exit price assumes the asset or liability is not exchanged subject to a forced liquidation or distressed sale.

Valuation Hierarchy

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Under SFAS 157, the Company categorizes its fair value measurements according to a three-level hierarchy. The hierarchy prioritizes the inputs used by the Company's valuation techniques. A level is assigned to each fair value measurement based on the lowest level input that is significant to the fair value measurement in its entirety. The three levels of the fair value hierarchy are defined as follows:

- Level 1 Unadjusted quoted prices for identical assets or liabilities in active markets that are accessible at the measurement date.
- Level 2 Prices or valuations based on observable inputs other than quoted prices in active markets for identical assets and liabilities.
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Determination of Fair Value

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company uses valuation techniques consistent with the market and income approaches to measure the fair value of its assets and liabilities. The Company's market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The Company's income approach uses valuation techniques to convert future projected cash flows to a single discounted present value amount. When applying either approach, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs.

The following is a description of the valuation techniques used to measure fair value and the general classification of these instruments pursuant to the fair value hierarchy.

Assets

Cash Equivalents

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Cash equivalents include highly liquid investments with original maturities of 90 days or less. Actively traded money market funds are measured at their net asset value (NAV) and classified as Level 1. The Company's remaining cash equivalents are classified as Level 2 and measured at amortized cost, which is a reasonable estimate of fair value because of the short time between the purchase of the instrument and its expected realization.

Investments (Trading Securities and Available-for-Sale Securities)

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

When available, the fair value of securities is based on quoted prices in active markets. If quoted prices are not available, fair values are obtained from nationally-recognized pricing services, broker quotes, or other model-based valuation techniques such as the present value of cash flows. Level 1 securities include U.S. Treasuries and seed money in funds traded in active markets. Level 2 securities include agency mortgage backed securities, commercial mortgage backed securities, asset backed securities, municipal and corporate bonds, U.S. and foreign government and agency securities, and seed money and other investments in certain hedge funds. Level 3 securities include non-agency residential mortgage backed securities, asset backed securities, and corporate bonds.

Through the Company's own experience transacting in the marketplace and through discussions with its pricing vendors, the Company believes that the market for non-agency residential mortgage backed securities is inactive. Indicators of inactive markets include: pricing services' reliance on brokers or discounted cash flow analyses to provide prices, an increase in the disparity between prices provided by different pricing services for the same security, unreasonably large bid-offer spreads and a significant decrease in the volume of trades relative to historical levels. In certain cases, this market inactivity has resulted in the Company applying valuation techniques that rely more on an income approach (discounted cash flows using market rates) than on a market approach (prices from pricing services). The Company considers market observable yields for other asset classes it considers to be of similar risk which includes nonperformance and liquidity for individual securities to set the discount rate for applying the income approach to certain non-agency residential mortgage backed securities.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Separate Account Assets

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The fair value of assets held by separate accounts is determined by the NAV of the funds in which those separate accounts are invested. The NAV represents the exit price for the separate account. Separate account assets are classified as Level 2 as they are traded in principal-to-principal markets with little publicly released pricing information.

Derivatives

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Derivatives that are measured using quoted prices in active markets, such as foreign exchange forwards, or derivatives that are exchanged-traded are classified as Level 1 measurements. The fair value of derivatives that are traded in less active over-the-counter markets are generally measured using pricing models with market observable inputs such as interest rates and equity index levels. These measurements are classified as Level 2 within the fair value hierarchy and include interest rate swaps and options. Derivatives that are valued using pricing models that have significant unobservable inputs are classified as Level 3 measurements. Structured derivatives that are used by the Company to hedge its exposure to market risk related to certain variable annuity riders are classified as Level 3.

Consolidated Property Funds

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company records the fair value of the properties held by its consolidated property funds within other assets. The fair value of these assets is determined using discounted cash flows and market comparables. Given the significance of the unobservable inputs to these measurements, the assets are classified as Level 3.

Liabilities

Embedded Derivatives

Variable Annuity Riders GMAB and GMWB

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company values the embedded derivative liability attributable to the provisions of certain variable annuity riders using internal valuation models. These models calculate fair value by discounting expected cash flows from benefits plus margins for profit, risk, and expenses less embedded derivative fees. The projected cash flows used by these models include observable capital market assumptions and incorporate significant unobservable inputs related to contractholder behavior assumptions and margins for risk, profit and expenses that the Company believes an exit market participant would expect. The fair value of these embedded derivatives also reflects a current estimate of the Company's nonperformance risk specific to these liabilities. Given the significant unobservable inputs to this valuation, these measurements are classified as Level 3. The embedded derivative liability attributable to these provisions is recorded in future policy benefits and claims.

Equity Indexed Annuities and Stock Market Certificates

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company uses various Black-Scholes calculations to determine the fair value of the embedded derivative liability associated with the provisions of its equity indexed annuities and stock market certificates. The inputs to these calculations are primarily market observable. As a result, these measurements are classified as Level 2. The embedded derivative liability attributable to the provisions of the Company's equity indexed annuities and stock market certificates is recorded in future policy benefits and claims and customer deposits, respectively.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table provides the carrying value and the estimated fair value of financial instruments that are not reported at fair value. All other financial instruments that are reported at fair value have been included in the table above with balances of assets and liabilities measured at fair value on a recurring basis.

	June 30, 2009	
	Carrying Value	Fair Value
	(in millions)	
Financial Assets		
Commercial mortgage loans, net	\$ 2,758	\$ 2,617
Policy loans	715	779
Receivables	1,210	890
Restricted and segregated cash	1,730	1,730
Other investments and assets	493	495
Financial Liabilities		
Future policy benefits and claims	\$ 15,372	\$ 14,862
Investment certificate reserves	4,792	4,735
Banking and brokerage customer deposits	4,408	4,409
Separate account liabilities	3,461	3,461
Debt and other liabilities	2,568	2,300

Investments

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The fair value of commercial mortgage loans, except those with significant credit deterioration, is determined by discounting contractual cash flows using discount rates that reflect current pricing for loans with similar remaining maturities and characteristics including loan-to-value ratio, occupancy rate, refinance risk, debt-service coverage, location, and property condition. For commercial mortgage loans with significant credit deterioration, fair value is determined using the same adjustments as above with an additional adjustment for the Company's estimate of the amount recoverable on the loan.

The fair value of policy loans is determined using discounted cash flows.

Receivables

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The fair value of consumer banking loans is determined by discounting estimated cash flows and incorporating adjustments for prepayment, administration expenses, severity and credit loss estimates, with discount rates based on the Company's estimate of current market conditions.

Loans held for sale are measured at the lower of cost or market and fair value is based on what secondary markets are currently offering for loans with similar characteristics.

Brokerage margin loans are measured at outstanding balances, which are a reasonable estimate of fair value because of the sufficiency of the collateral and short term nature of these loans.

Restricted and segregated cash

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Restricted and segregated cash is generally set aside for specific business transactions and restrictions are specific to the Company and do not transfer to third party market participants; therefore, the carrying amount is a reasonable estimate of fair value.

Amounts segregated under federal and other regulations reflect resale agreements and are measured at the cost at which the securities will be sold. This measurement is a reasonable estimate of fair value because of the short time between entering into the transaction and its expected realization and the reduced risk of credit loss due to pledging U.S. government-backed securities as collateral.

Other investments and assets

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Other investments and assets primarily consist of syndicated loans. The fair value of syndicated loans is obtained from a nationally-recognized pricing service.

Future policy benefits and claims

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The fair value of fixed annuities, in deferral status, is determined by discounting cash flows using a risk neutral discount rate with adjustments for profit, expense and risk margins and for the Company's non-performance risk specific to these liabilities. The fair value of other liabilities including non-life contingent fixed annuities in payout status, equity indexed annuity host contracts and the fixed portion of a small number of variable annuity contracts classified as investment contracts is determined in a similar manner.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Customer deposits

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The fair value of investment certificate reserves is determined by discounting cash flows using discount rates that reflect current pricing for assets with similar terms and characteristics, with adjustments for early withdrawal behavior, penalty fees, expense margin and the Company's non-performance risk specific to these liabilities.

Banking and brokerage customer deposits are liabilities with no defined maturities and fair value is the amount payable on demand at the reporting date.

Separate account liabilities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Certain separate account liabilities are classified as investment contracts and are carried at an amount equal to the related separate account assets. Carrying value is a reasonable estimate of the fair value as it represents the exit value as evidenced by withdrawal transactions between contractholders and the Company. A non-performance adjustment is not included as the related separate account assets act as collateral for these liabilities and minimize non-performance risk.

Debt and other liabilities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Debt fair value is based on quoted prices in active markets, when available. If quoted prices are not available, fair value is obtained from nationally-recognized pricing services, broker quotes, or other model-based valuation techniques such as present value of cash flows.

10. Derivatives and Hedging Activities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Derivative instruments enable the Company to manage its exposure to various market risks. The value of such instruments is derived from an underlying variable or multiple variables, including equity, foreign exchange and interest rate indices or prices. The Company primarily enters into derivative agreements for risk management purposes related to the Company's products and operations.

The Company uses derivatives as economic hedges and occasionally holds derivatives designated for hedge accounting. The following table presents the balance sheet location and the gross fair value of derivative instruments, including embedded derivatives, by type of derivative and product at June 30, 2009:

Derivatives not designated as hedging instruments	Balance Sheet Location	Asset (in millions)	Balance Sheet Location	Liability (in millions)
Interest rate contracts				
GMWB and GMAB	Other assets	\$ 283	Other liabilities	\$ (307)
Interest rate lock commitments	Other assets	1		
Equity contracts				
GMWB and GMAB	Other assets	675	Other liabilities	(388)
Equity indexed annuities	Other assets	1		
Equity indexed annuities embedded derivatives			Future policy benefits and claims	(15)
Stock market certificates	Other assets	66	Other liabilities	(51)
Stock market certificates embedded derivatives			Customer deposits	(16)
Seed money			Other liabilities	(1)
Foreign exchange contracts				
Seed money			Other liabilities	(1)
Other				
GMWB and GMAB embedded derivatives(1)			Future policy benefits and claims	(759)
Total		\$ 1,026		\$ (1,538)

(1) The fair values of GMWB and GMAB embedded derivatives fluctuate primarily based on changes in equity, interest rate and credit markets.

See Note 9 for additional information regarding the Company's fair value measurement of derivative instruments.

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Derivatives Not Designated as Hedges

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The following table presents a summary of the impact of derivatives not designated as hedging instruments under SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities (SFAS 133) on the Consolidated Statements of Operations:

Derivatives not designated as hedging instruments	Location of Gain (Loss) Recognized in Income on Derivatives	Amount of Gain (Loss) Recognized in Income on Derivatives	
		Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
(in millions)			
Interest rate contracts			
GMWB and GMAB	Benefits, claims, losses and settlement expenses	\$ (262)	\$ (385)
Interest rate lock commitments	Other revenues	1	1
Equity contracts			
GMWB and GMAB	Benefits, claims, losses and settlement expenses	(873)	(812)
Equity indexed annuities	Interest credited to fixed accounts		(2)
Equity indexed annuities embedded derivatives	Interest credited to fixed accounts		1
Stock market certificates	Banking and deposit interest expense	4	1
Stock market certificates embedded derivatives	Banking and deposit interest expense	(9)	(11)
Seed money	Net investment income	(10)	
Foreign exchange contracts			
Seed money	General and administrative expense	(4)	(1)
Other			
GMWB and GMAB embedded derivatives	Benefits, claims, losses and settlement expenses	757	1,073
Total		\$ (396)	\$ (135)

The Company holds derivative instruments that either do not qualify or are not designated for hedge accounting treatment. These derivative instruments are used as economic hedges of equity, interest rate and foreign currency exchange rate risk related to various products and transactions of the Company.

Certain annuity products contain GMWB or GMAB provisions, which guarantee the right to make limited partial withdrawals each contract year regardless of the volatility inherent in the underlying investments or guarantee a minimum accumulation value of considerations received at the beginning of the contract period, after a specified holding period, respectively. The Company economically hedges the exposure related to GMWB and GMAB provisions using various equity futures, equity options, total return swaps, interest rate swaptions and interest rate swaps. The gross notional amount of these contracts was \$35.9 billion at June 30, 2009. The premium associated with certain of these options is paid or received semi-annually over the life of the option contract.

The following is a summary of the payments the Company is scheduled to make and receive for these options:

	Premiums Payable	Premiums Receivable
	(in millions)	
2009(1)	\$ (83)	\$ 7
2010	(164)	13
2011	(156)	12
2012	(143)	11
2013	(131)	10
2014-2023	(425)	6

(1) 2009 amounts represent the amounts payable and receivable for the period from July 1, 2009 to December 31, 2009.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Equity indexed annuities and investment certificate products have returns tied to the performance of equity markets. As a result of fluctuations in equity markets, the obligation incurred by the Company related to equity indexed annuities and stock market certificate products will positively or negatively impact earnings over the life of these products. As a means of economically hedging its obligations under the provisions of these products, the Company enters into index options and occasionally enters into futures contracts. The gross notional amount of these derivative contracts was \$1.7 billion at June 30, 2009.

The Company enters into futures and total return swaps to manage its exposure to price risk arising from seed money investments made in proprietary mutual funds. The gross notional amount of these contracts was \$193 million at June 30, 2009.

The Company enters into foreign currency forward contracts to hedge its exposure to certain receivables and obligations denominated in non-functional currencies. The gross notional amount of these contracts was \$10 million at June 30, 2009.

Embedded Derivatives

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Certain annuities contain GMAB and non-life contingent GMWB provisions, which are considered embedded derivatives. In addition, the equity component of the equity indexed annuity and stock market investment certificate product obligations are also considered embedded derivatives. As captured in the tables above, embedded derivatives are bifurcated from their host contracts and reported on the Consolidated Balance Sheets at fair value with changes in fair value reported in earnings. As noted above, the Company uses derivatives to mitigate the financial statement impact of these embedded derivatives.

Cash Flow Hedges

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company has amounts classified in accumulated other comprehensive loss related to gains and losses associated with the effective portion of previously designated cash flow hedges. The Company reclassifies these amounts into income as the forecasted transactions impact earnings. During the six months ended June 30, 2009, the Company held no derivatives that were designated as cash flow hedges under SFAS 133. The following table shows the impact of the Company's previously designated cash flow hedges on the Consolidated Statements of Operations:

Derivatives designated as hedging instruments	Location of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Income	Amount of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Income	
		Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
(in millions)			
Cash flow hedges			
Interest on debt	Interest and debt expense	\$ 2	\$ 4
Fixed annuity products	Net investment income	(1)	(3)
Total		\$ 1	\$ 1

At June 30, 2009, the Company expects to reclassify \$2 million of net pretax gains on derivative instruments from accumulated other comprehensive loss to earnings during the next 12 months. The \$2 million net pretax gain is made up of an \$8 million deferred gain related to interest rate swaps that will be recorded as a reduction to interest and debt expense, partially offset by a \$6 million deferred loss related to interest rate swaptions that will be recorded in net investment income. For any hedge relationships that are discontinued because the forecasted transaction is not expected to occur according to the original strategy, any related amounts previously recorded in accumulated other comprehensive loss are recognized in earnings immediately. No hedge relationships were discontinued during the six months ended June 30, 2009 due to forecasted transactions no longer expected to occur according to the original hedge strategy.

Currently, the longest period of time over which the Company is hedging exposure to the variability in future cash flows is 26 years and relates to forecasted debt interest payments.

Credit Risk

Credit risk associated with the Company's derivatives is the risk that a derivative counterparty will not perform in accordance with the terms of the applicable derivative contract. To mitigate such risk, the Company has established guidelines and oversight of credit risk through a comprehensive enterprise risk management program that includes members of senior management. Key components of this program are to require preapproval of counterparties and the use of master netting arrangements and collateral arrangements wherever practical. As of June 30, 2009, the Company held collateral consisting primarily of cash and securities of \$312 million posted by counterparties. As of June 30, 2009, the Company's maximum credit exposure related to derivative assets after considering netting arrangements with counterparties and collateral arrangements was approximately \$73 million.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Certain of the Company's derivative instruments contain provisions that adjust the level of collateral the Company is required to post based on the Company's debt rating (or based on the financial strength of the Company's life insurance subsidiaries for contracts in which those subsidiaries are the counterparty). Additionally, certain of the Company's derivative contracts contain provisions that allow the counterparty to terminate the contract if the Company's debt does not maintain a specific credit rating (generally an investment grade rating) or the Company's life insurance subsidiary does not maintain a specific financial strength rating. If these termination provisions were to be triggered, the Company's counterparty could require immediate settlement of any net liability position. At June 30, 2009, the aggregate fair value of all derivative instruments containing such credit risk features was \$103 million. The aggregate fair value of assets posted as collateral for such instruments as of June 30, 2009 was \$73 million. If the credit risk features of derivative contracts that were in a net liability position at June 30, 2009 were triggered, the additional fair value of assets needed to settle these derivative liabilities would have been \$30 million.

11. Income Taxes

The Company's effective tax rates were 24.4% and 18.4% for the three months and six months ended June 30, 2009, respectively. The Company's effective tax rates were 11.9% and 7.4% for the three months and six months ended June 30, 2008, respectively. The Company's effective tax rate for the three months and six months ended June 30, 2008 included \$27 million and \$65 million, respectively, of tax benefits related to changes in the status of current and closed audits and tax planning initiatives.

The Company is required to establish a valuation allowance for any portion of the deferred tax assets that management believes will not be realized. Included in deferred tax assets is a significant deferred tax asset relating to capital losses that have been recognized for financial statement purposes but not yet for tax return purposes. Under current U.S. federal income tax law, capital losses generally must be used against capital gain income within five years of the year in which the capital losses are recognized for tax purposes. Significant judgment is required in determining if a valuation allowance should be established, and the amount of such allowance if required. Factors used in making this determination include estimates relating to the performance of the business including the ability to generate capital gains. Consideration is given to, among other things in making this determination, a) future taxable income exclusive of reversing temporary differences and carryforwards, b) future reversals of existing taxable temporary differences, c) taxable income in prior carryback years, and d) tax planning strategies. Based on analysis of the Company's tax position, management believes it is more likely than not that the results of future operations and implementation of tax planning strategies will generate sufficient taxable income to enable the Company to utilize all of its deferred tax assets. Accordingly, no valuation allowance for deferred tax assets has been established as of June 30, 2009 and December 31, 2008.

Included in the Company's deferred income tax assets are net operating loss carryforwards of \$90 million which will expire beginning December 31, 2025 as well as tax credit carryforwards of \$137 million which will expire beginning December 31, 2025. The Company also has \$39 million of foreign tax credit carryforwards which will expire beginning December 31, 2016.

As of June 30, 2009 and December 31, 2008, the Company had \$56 million of gross unrecognized tax expense. If recognized, approximately \$62 million, net of federal tax benefits, of unrecognized tax benefits as of June 30, 2009 and December 31, 2008, would affect the effective tax rate.

The Company recognizes interest and penalties related to unrecognized tax benefits as a component of the income tax provision. The Company had a receivable of \$13 million related to the payment of interest and penalties accrued at both June 30, 2009 and December 31, 2008.

It is reasonably possible that the total amounts of unrecognized tax benefits will change in the next 12 months. However, there are a number of open audits and quantification of a range cannot be made at this time.

The Company or one or more of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 1997. The Internal Revenue Service (IRS), as part of the overall examination of the American Express Company consolidated return, completed its field examination of the Company's U.S. income tax returns for 1997 through 2002 during 2008. However, for federal income tax purposes these years continue to remain open as a consequence of certain issues under appeal. The IRS continued its examination of 2003 through 2004 which is expected to be completed during 2009. In the fourth quarter of 2008, the IRS commenced an examination of the Company's U.S. income tax returns for 2005 through 2007. The Company's or certain of its subsidiaries' state income tax returns are currently under examination by various jurisdictions for years ranging from 1998 through 2006.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

On September 25, 2007, the IRS issued Revenue Ruling 2007-61 in which it announced that it intends to issue regulations with respect to certain computational aspects of the Dividends Received Deduction (DRD) related to separate account assets held in connection with variable contracts of life insurance companies. Revenue Ruling 2007-61 suspended a revenue ruling issued in August 2007 that purported to change accepted industry and IRS interpretations of the statutes governing these computational questions. Any regulations that the IRS ultimately proposes for issuance in this area will be subject to public notice and comment, at which time insurance companies and other members of the public will have the opportunity to raise legal and practical questions about the content, scope and application of such regulations. As a result, the ultimate timing and substance of any such regulations are unknown at this time, but they may result in the elimination of some or all of the separate account DRD tax benefit that the Company receives. Management believes that it is likely that any such regulations would apply prospectively only.

12. Contingencies

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Owing to prevailing conditions in the credit markets and the isolated default of an unaffiliated structured investment vehicle (SIV) held in the portfolios of money market funds advised by its RiverSource Investments LLC subsidiary (the 2a-7 Funds), the Company intends to monitor the net asset value of the 2a-7 Funds and may in its judgment as circumstances warrant from time to time offer to purchase amounts of defaulted unaffiliated SIV securities at par from, or inject capital to, one or more of the 2a-7 Funds. Management expects this to have an immaterial impact in subsequent periods. The Company has not provided a formal capital support agreement or net asset value guarantee to any of the 2a-7 Funds.

The Company and its subsidiaries are involved in the normal course of business in legal, regulatory and arbitration proceedings, including class actions, concerning matters arising in connection with the conduct of its activities as a diversified financial services firm. These include proceedings specific to the Company as well as proceedings generally applicable to business practices in the industries in which it operates. The Company can also be subject to litigation arising out of its general business activities, such as its investments, contracts, leases and employment relationships. Uncertain economic conditions and heightened volatility in the financial markets, such as those which have been experienced for over the past year, may increase the likelihood that clients and other persons or regulators may present or threaten legal claims or that regulators increase the scope or frequency of examinations of the Company or the financial services industry generally.

As with other financial services firms, the level of regulatory activity and inquiry concerning the Company s businesses remains elevated. From time to time, the Company receives requests for information from, and/or has been subject to examination by, the Securities and Exchange Commission (SEC), Financial Industry Regulatory Authority (FINRA), Office of Thrift Supervision (OTS), state insurance regulators, state attorneys general and various other governmental and quasi-governmental authorities concerning the Company s business activities and practices, and the practices of the Company s financial advisors. Pending matters about which the Company has recently received information requests include: sales and product or service features of, or disclosures pertaining to, mutual funds, annuities, equity and fixed income securities, insurance products, brokerage services, financial plans and other advice offerings; supervision of the Company s financial advisors; supervisory practices in connection with financial advisors outside business activities; sales practices and supervision associated with the sale of fixed and variable annuities; the delivery of financial plans and the suitability of particular trading strategies. The number of reviews and investigations has increased in recent years with regard to many firms in the financial services industry, including Ameriprise Financial. The Company has cooperated and will continue to cooperate with the applicable regulators regarding their inquiries.

These legal and regulatory proceedings and disputes are subject to uncertainties and, as such, the Company is unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the Company s consolidated financial condition or results of operations.

Certain legal and regulatory proceedings are described below.

In June 2004, an action captioned John E. Gallus et al. v. American Express Financial Corp. and American Express Financial Advisors Inc., was filed in the United States District Court for the District of Arizona, and was later transferred to the United States District Court for the District of Minnesota. The plaintiffs alleged that they were investors in several of the Company s mutual funds and they purported to bring the action derivatively on behalf of those funds under the Investment Company Act of 1940. The plaintiffs alleged that fees allegedly paid to the defendants by the funds for investment advisory and administrative services were excessive. On July 6, 2007, the Court granted the Company s motion for summary judgment, dismissing all claims with prejudice. Plaintiffs appealed the Court s decision, and on April 8, 2009, the U.S. Court of Appeals for the Eighth Circuit reversed the district court s decision, and remanded the case for further proceedings. The Company will be filing with the United States Supreme Court a Petition for Writ of Certiorari to review the judgment of the Court of Appeals in this case. The Petition is due by August 6, 2009.

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Relevant to market conditions since the latter part of 2007, a large client claimed a breach of certain contractual investment guidelines. In April 2009, the client presented a formal Request for Arbitration. The parties subsequently submitted to mediation and have agreed to a structure for a comprehensive settlement of the dispute. They have targeted September 30, 2009 to have the settlement in place.

13. Guarantees

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

An unaffiliated third party is providing liquidity to clients of Securities America, Inc. (SAI) registered representatives that have assets in the Reserve Primary Fund that have been blocked from redemption and frozen by the Reserve Fund since September 16, 2008. The Company has agreed to indemnify the unaffiliated third party up to \$10 million until April 15, 2015, for costs incurred as a result of an arbitration or litigation initiated against the unaffiliated third party by clients of SAI registered representatives. In the event that a client defaults in the repayment of an advance, SAI has recourse to collect from the defaulting client.

A property fund limited partnership that the Company consolidates has floating rate revolving credit borrowings of \$117 million as of June 30, 2009. A Threadneedle subsidiary guarantees the repayment of outstanding borrowings up to the value of the assets of the partnership. The debt is secured by the assets of the partnership and there is no recourse to Ameriprise Financial.

14. Earnings per Common Share

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The computations of basic and diluted earnings per common share are as follows:

	Three Months Ended June 30, 2009		Six Months Ended June 30, 2009	
	2008		2008	
	(in millions, except per share amounts)			
Numerator:				
Net income attributable to Ameriprise Financial	\$ 95	\$ 210	\$ 225	\$ 401
Denominator:				
Basic: Weighted-average common shares outstanding	228.8	223.2	225.6	225.8
Effect of potentially dilutive nonqualified stock options and other share-based awards	1.2	2.8	1.2	3.0
Diluted: Weighted-average common shares outstanding	230.0	226.0	226.8	228.8
Earnings per common share:				
Basic	\$ 0.41	\$ 0.94	\$ 1.00	\$ 1.77
Diluted	0.41	0.93	0.99	1.75

Basic weighted average common shares for the three months and six months ended June 30, 2009 included 3.9 million and 3.6 million, respectively, of vested, nonforfeitable restricted stock units and 4.7 million and 4.8 million, respectively, of non-vested restricted stock awards and restricted stock units that are forfeitable but receive nonforfeitable dividends. Potentially dilutive securities include nonqualified stock options and other share-based awards. Basic weighted average common shares for both the three months and the six months ended June 30, 2008 included 2.4 million vested nonforfeitable restricted stock units and 3.2 million non-vested restricted stock awards and restricted stock units that are forfeitable but receive nonforfeitable dividends.

15. Variable Interest Entities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company consolidates all VIEs for which it is considered to be the primary beneficiary. The determination as to whether an entity is a VIE is based on the amount and nature of the Company's equity investment in the entity. The Company also considers other characteristics such as the ability to influence the decision making about the entity's activities and how the entity is financed. The determination as to whether the Company is considered to be the primary beneficiary is based on whether the Company will absorb a majority of the VIE's expected losses, receive a majority of the VIE's expected residual return or both.

The Company consolidates a VIE for which it is considered the primary beneficiary. The Company had investments of \$10 million and non-recourse debt of \$6 million on the Consolidated Balance Sheets as of June 30, 2009 and December 31, 2008, respectively, related to this entity.

Table of Contents

AMERIPRISE FINANCIAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company has variable interests for which it is not the primary beneficiary and, therefore, does not consolidate. The Company's maximum exposure to loss as a result of its investment in these entities is limited to its carrying value. The Company has no obligation to provide further financial or other support to the VIEs nor has the Company provided any additional support to the VIEs other than services it is separately compensated for through management agreements. The Company had no liabilities recorded as of June 30, 2009 and December 31, 2008 related to these entities.

The Company is a limited partner in affordable housing partnerships which qualify for government sponsored low income housing tax credit programs. In most cases, the Company has less than 50% interest in the partnerships sharing in benefits and risks with other limited partners in proportion to the Company's ownership interest. In the limited cases in which the Company has a greater than 50% interest in affordable housing partnerships, it was determined that the relationship with the general partner is an agent relationship and the general partner was most closely related to the partnership as it is the key decision maker and controls the operations. The carrying values of the affordable housing partnerships are reflected in investments and were \$41 million and \$54 million as of June 30, 2009 and December 31, 2008, respectively.

For the collateralized debt obligations (CDOs) managed by the Company, the Company has evaluated its variability in losses and returns considering its investment levels, which are less than 50% of the residual tranches, and the fees received from managing the structures and has determined that consolidation is not required. The carrying values of the CDOs are reflected in investments and were \$49 million and \$50 million as of June 30, 2009 and December 31, 2008, respectively. The Company manages \$6.7 billion of underlying collateral consisting primarily of below investment grade syndicated bank loans within the CDOs.

16. Segment Information

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The Company's five segments are Advice & Wealth Management, Asset Management, Annuities, Protection and Corporate & Other.

The following is a summary of assets by segment:

	June 30, 2009	December 31, 2008
	(in millions)	
Advice & Wealth Management	\$ 11,776	\$ 10,624
Asset Management	5,621	5,363
Annuities	67,826	63,659
Protection	15,300	14,270
Corporate & Other	2,691	1,661
Total assets	\$ 103,214	\$ 95,577

The following is a summary of segment operating results:

	Three Months Ended June 30, 2009

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The following discussion and analysis of our consolidated financial condition and results of operations should be read in conjunction with the Forward-Looking Statements that follow and our Consolidated Financial Statements and Notes presented in Item 1. Our Management's Discussion and Analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the Securities and Exchange Commission (SEC) on March 2, 2009 (2008 10-K), as well as our current reports on Form 8-K and other publicly available information.

Overview

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

We are engaged in providing financial planning, products and services that are designed to be utilized as solutions for our clients' cash and liquidity, asset accumulation, income, protection and estate and wealth transfer needs. As of June 30, 2009, we had a network of more than 12,500 financial advisors and registered representatives (including affiliated financial advisors). In addition to serving clients through our affiliated financial advisors, our asset management, annuity, and auto and home protection products are distributed through third-party advisors and affinity relationships.

We deliver solutions to our clients through an approach focused on building long term personal relationships between our advisors and clients. We offer financial planning and advice that are responsive to our clients' evolving needs and help them achieve their identified financial goals by recommending actions and a range of product solutions consisting of investment, annuities, insurance, banking and other financial products that help them attain over time a return or form of protection while accepting what they determine to be an appropriate range and level of risk. The financial product solutions we offer through our affiliated advisors include both our own products and services and products of other companies. Our financial planning and advisory process is designed to provide comprehensive advice, when appropriate, to address our clients' cash and liquidity, asset accumulation, income, protection, and estate and wealth transfer needs. We believe that our focus on personal relationships, together with our strengths in financial planning and product development, allows us to better address our clients' financial needs, including the financial needs of our primary target market segment, the mass affluent and affluent, which we define as households with investable assets of more than \$100,000. This focus also puts us in a strong position to capitalize on significant demographic and market trends, which we believe will continue to drive increased demand for our financial planning and other financial services. Deep client-advisor relationships are central to the ability of our business model to succeed through market cycles, including the extreme market conditions that persisted through the second quarter of 2009.

We have four main operating segments: Advice & Wealth Management, Asset Management, Annuities and Protection, as well as our Corporate & Other segment. Our four main operating segments are aligned with the financial solutions we offer to address our clients' needs. The products and services we provide retail clients and, to a lesser extent, institutional clients, are the primary source of our revenues and net income. Revenues and net income are significantly impacted by investment performance and the total value and composition of assets we manage and administer for our retail and institutional clients as well as the distribution fees we receive from other companies. These factors, in turn, are largely determined by overall investment market performance and the depth and breadth of our individual client relationships.

Equity market, credit market and interest rate fluctuations can have a significant impact on our results of operations, primarily due to the effects they have on the asset management and other asset-based fees we earn, the spread income generated on our annuities, banking and deposit products and universal life (UL) insurance products, the value of deferred acquisition costs (DAC) and deferred sales inducement costs (DSIC) assets associated with variable annuity and variable UL products, the values of liabilities for guaranteed benefits associated with our variable annuities and the values of derivatives held to hedge these benefits. For additional information regarding our sensitivity to equity risk and interest rate risk, see Quantitative and Qualitative Disclosures About Market Risk.

It is management's priority to increase shareholder value over a multi-year horizon by achieving our on-average, over-time financial targets. Our financial targets are:

- Net revenue growth of 6% to 8%,
- Earnings per diluted share growth of 12% to 15%, and
- Return on equity of 12% to 15%.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues for the three months ended June 30, 2009 were \$1.9 billion, a decrease of \$91 million, or 5%, from the prior year period. Net revenues for the six months ended June 30, 2009 were \$3.6 billion, a decrease of \$363 million, or 9%, from the prior year period. The decline in net revenues for both periods primarily reflects the negative impact of weak equity markets on asset-based fees, partially offset by growth in fixed annuities.

Net income attributable to Ameriprise Financial for the three months ended June 30, 2009 was \$95 million, a decline of \$115 million from \$210 million for the three months ended June 30, 2008. Net income attributable to Ameriprise Financial

Table of Contents

for the six months ended June 30, 2009 was \$225 million, a decline of \$176 million from \$401 million for the six months ended June 30, 2008. Earnings per diluted share for the three months ended June 30, 2009 were \$0.41, compared to \$0.93 for the three months ended June 30, 2008. Earnings per diluted share for the six months ended June 30, 2009 were \$0.99, compared to \$1.75 for the six months ended June 30, 2008.

We continue to establish Ameriprise Financial as a financial services leader as we focus on meeting the financial needs of the mass affluent and affluent, as evidenced by our continued leadership in financial planning and our strong corporate foundation. Our franchisee advisor and client retention remain strong at 91% and 94%, respectively, as of June 30, 2009. We continued to attract experienced advisors, with more than 400 experienced advisors joining our branded advisor channels in the first half of 2009.

Critical Accounting Policies

Valuation of Investments

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Effective January 1, 2009, we early adopted FSP FAS 115-2 and FAS 124-2 Recognition and Presentation of Other-Than-Temporary Impairments (FSP 115-2). This interpretation significantly changed our accounting policy regarding the timing and amount of other-than temporary impairments for Available-for-Sale securities. For information regarding the changes to our accounting policy, see Note 3 to our Consolidated Financial Statements.

Deferred Acquisition Costs and Deferred Sales Inducement Costs

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

For our annuity and life, disability income and long term care insurance products, our DAC and DSIC balances at any reporting date are supported by projections that show management expects there to be adequate premiums or estimated gross profits after that date to amortize the remaining DAC and DSIC balances. These projections are inherently uncertain because they require management to make assumptions about financial markets, anticipated mortality and morbidity levels and policyholder behavior over periods extending well into the future. Projection periods used for our annuity products are typically 10 to 25 years, while projection periods for our life, disability income and long term care insurance products are often 50 years or longer. Management regularly monitors financial market conditions and actual policyholder behavior experience and compares them to its assumptions.

For annuity and universal life insurance products, the assumptions made in projecting future results and calculating the DAC balance and DAC amortization expense are management's best estimates. Management is required to update these assumptions whenever it appears that, based on actual experience or other evidence, earlier estimates should be revised. When assumptions are changed, the percentage of estimated gross profits used to amortize DAC might also change. A change in the required amortization percentage is applied retrospectively; an increase in amortization percentage will result in a decrease in the DAC balance and an increase in DAC amortization expense, while a decrease in amortization percentage will result in an increase in the DAC balance and a decrease in DAC amortization expense. The impact on results of operations of changing assumptions can be either positive or negative in any particular period and is reflected in the period in which such changes are made. For products with associated DSIC, the same policy applies in calculating the DSIC balance and periodic DSIC amortization.

For other life, disability income and long term care insurance products, the assumptions made in calculating our DAC balance and DAC amortization expense are consistent with those used in determining the liabilities and, therefore, are intended to provide for adverse deviations in experience and are revised only if management concludes experience will be so adverse that DAC are not recoverable. If management concludes that DAC are not recoverable, DAC are reduced to the amount that is recoverable based on best estimate assumptions and there is a corresponding expense recorded in our consolidated results of operations.

For annuity and life, disability income and long term care insurance products, key assumptions underlying these long-term projections include interest rates (both earning rates on invested assets and rates credited to contractholder and policyholder accounts), equity market performance, mortality and morbidity rates and the rates at which policyholders are expected to surrender their contracts, make withdrawals from their contracts and make additional deposits to their contracts. Assumptions about earned and credited interest rates are the primary factors used to project interest margins, while assumptions about equity and bond market performance are the primary factors used to project client asset value growth rates, and assumptions about surrenders, withdrawals and deposits comprise projected persistency rates. Management must also make assumptions to project maintenance expenses associated with servicing our annuity and insurance businesses during the DAC amortization period.

The client asset value growth rates are the rates at which variable annuity and variable universal life insurance contract values invested in separate accounts are assumed to appreciate in the future. The rates used vary by equity and fixed income investments. Management reviews and, where appropriate, adjusts its assumptions with respect to client asset value growth rates on a regular basis. We typically use a five-year mean reversion process as a guideline in setting near-term equity asset

Table of Contents

growth rates based on a long-term view of financial market performance as well as recent actual performance. The suggested near-term growth rate is reviewed to ensure consistency with management's assessment of anticipated equity market performance. In the first half of 2009, management elected to follow the mean reversion guideline, slightly decreasing near-term equity asset growth rates to reflect the positive market on a year-to-date basis. At recent equity market levels, increasing the annualized equity market return projected during the five-year mean reversion period by 100 basis points reduces DAC amortization and other impacted expenses by \$20-\$25 million after tax.

We monitor other principal DAC and DSIC amortization assumptions, such as persistency, mortality, morbidity, interest margin and maintenance expense levels each quarter and, when assessed independently, each could impact our DAC and DSIC balances.

The analysis of DAC and DSIC balances and the corresponding amortization is a dynamic process that considers all relevant factors and assumptions described previously. Unless management identifies a significant deviation over the course of the quarterly monitoring, management reviews and updates these DAC and DSIC amortization assumptions annually in the third quarter of each year. An assessment of sensitivity associated with changes in any single assumption would not necessarily be an indicator of future results.

Recent Accounting Pronouncements

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

For information regarding recent accounting pronouncements and their expected impact on our future consolidated results of operations or financial condition, see Note 2 to our Consolidated Financial Statements.

Owned, Managed and Administered Assets

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Owned assets include certain assets on our Consolidated Balance Sheets for which we do not provide investment management services, such as investments in non-proprietary funds held in the separate accounts of our life insurance subsidiaries, as well as restricted and segregated cash and receivables.

Managed assets include managed external client assets and managed owned assets. Managed external client assets include client assets for which we provide investment management services, such as the assets of the RiverSource family of mutual funds and Seligman family of mutual funds, assets of institutional clients and client assets held in wrap accounts. Managed external client assets also include assets managed by sub-advisors selected by us. Managed external client assets are not reported on our Consolidated Balance Sheets. Managed owned assets include certain assets on our Consolidated Balance Sheets for which we provide investment management services and recognize management fees in our Asset Management segment, such as the assets of the general account and RiverSource Variable Product funds held in the separate accounts of our life insurance subsidiaries.

Administered assets include assets for which we provide administrative services such as client assets invested in other companies' products that we offer outside of our wrap accounts. These assets include those held in clients' brokerage accounts. We do not exercise management discretion over these assets and do not earn a management fee. These assets are not reported on our Consolidated Balance Sheets.

We earn management fees on our owned separate account assets based on the market value of assets held in the separate accounts. We record the income associated with our owned investments, including net realized gains and losses associated with these investments and other-than-temporary impairments related to credit losses on these investments, as net investment income. For managed assets, we receive management fees based on the value of these assets. We generally report these fees as management and financial advice fees. We may also receive distribution fees based on the value of these assets. We generally record fees received from administered assets as distribution fees.

Fluctuations in our owned, managed and administered assets impact our revenues. Our owned, managed and administered assets are impacted by net flows of client assets, market movements and foreign exchange rates. Owned assets are also affected by changes in our capital structure.

Our owned, managed and administered assets declined to \$397 billion at June 30, 2009, a net decrease of 10% from June 30, 2008, primarily due to the 28% decline in the S&P 500 Index.

Clients' lower risk tolerances and preference for guaranteed returns reduced variable annuity net inflows and increased fixed annuity net inflows for both the three and six months ended June 30, 2009 compared to the prior year periods. Fixed annuities had total net inflows of \$562 million in the second quarter of 2009 compared to net outflows of \$383 million in the prior year period and variable annuities had net inflows of \$567 million compared to \$811 million in the prior year period. Wrap account assets had net inflows of \$2.8 billion in both the second quarter of 2009 and 2008.

Table of Contents

Fixed annuities had total net inflows of \$2.0 billion for the six months ended June 30, 2009 compared to net outflows of \$930 million in the prior year period and variable annuities had net inflows of \$895 million compared to \$1.7 billion in the prior year period. Wrap account assets had net inflows of \$4.1 billion for the six months ended June 30, 2009 compared to \$4.2 billion in the prior year period.

Our managed assets excluding wrap account assets increased during the second quarter of 2009 primarily reflecting equity market appreciation and retail net inflows. Total asset management net inflows were \$45 million for the three months ended June 30, 2009, compared to net outflows of \$4.8 billion for the prior year period. In the second quarter of 2009, Domestic managed assets had \$425 million in net outflows compared to \$2.3 billion in the prior year period and market appreciation of \$8.7 billion in the second quarter of 2009 compared to market depreciation of \$1.3 billion in the prior year period. In addition to net flows and market appreciation, Domestic managed assets were impacted by the issuance of debt and equity in the second quarter of 2009 resulting in an increase of \$1.4 billion. International managed assets had \$470 million in net inflows in the second quarter of 2009 compared to net outflows of \$2.5 billion in the prior year period and market appreciation of \$481 million in the second quarter of 2009 compared to market depreciation of \$2.3 billion in the prior year period. An increase in International retail net inflows in the second quarter of 2009 was partially offset by net outflows in lower margin Zurich-related assets. The positive impact on International managed assets due to changes in foreign currency exchange rates was \$10.4 billion in the second quarter of 2009 compared to \$446 million in the prior year period.

Our managed assets excluding wrap account assets increased during the first half of 2009 primarily reflecting equity market appreciation and retail net inflows. Total asset management net outflows declined to \$102 million for the six months ended June 30, 2009, compared to net outflows of \$9.7 billion for the prior year period. In the first half of 2009, Domestic managed assets had \$250 million in net outflows compared to \$4.7 billion in the prior year period and market appreciation of \$5.9 billion compared to market depreciation of \$8.3 billion in the prior year period. In addition to net flows and market appreciation, Domestic managed assets were impacted by the issuance of debt and equity in the second quarter of 2009 resulting in an increase of \$1.4 billion. International managed assets had \$148 million in net inflows for the six months ended June 30, 2009 compared to net outflows of \$5.0 billion in the prior year period and market depreciation of \$4.0 billion compared to \$10.6 billion in the prior year period. An increase in International retail net inflows in the first half of 2009 was partially offset by net outflows in lower margin Zurich-related assets. The positive impact on International managed assets due to changes in foreign currency exchange rates was \$8.9 billion for the six months ended June 30, 2009 compared to \$374 million in the prior year period.

The following table presents detail regarding our owned, managed and administered assets:

	2009	June 30,	2008	Change
		(in billions, except percentages)		
Owned Assets	\$	32.5	\$ 36.9	(12)%
Managed Assets(1):				
Domestic		134.8	143.2	(6)
International		82.5	120.9	(32)
Wrap account assets		79.0	91.4	(14)
Eliminations(2)		(11.3)	(14.3)	(21)
Total Managed Assets		285.0	341.2	(16)
Administered Assets		79.8	65.6	22
Total Owned, Managed and Administered Assets	\$	397.3	\$ 443.7	(10)%

(1) Includes managed external client assets and managed owned assets.

(2) Includes eliminations for RiverSource mutual fund assets included in wrap account assets and RiverSource assets sub-advised by Threadneedle.

Overall

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net income attributable to Ameriprise Financial for the three months ended June 30, 2009 was \$95 million, down \$115 million from \$210 million for the prior year period, reflecting the impact of the significant decline in equity markets and the lower short-term interest rate environment. The S&P 500 Index ended at 919 at the end of the second quarter of 2009 compared to 1,280 at the end of the second quarter of 2008, a drop of 361 points, or 28%. Short-term interest rates declined period over period as the Fed Funds target rate was 0-25 basis points in the second quarter of 2009 compared to a range of 200-225 basis points in the second quarter of 2008.

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The decrease in net revenues was driven by lower management and financial advice fees and distribution fees, primarily due to lower asset levels attributable to the decline in equity markets that persisted throughout the period from June 30, 2008 to June 30, 2009, partially offset by growth in fixed annuities.

Management and financial advice fees decreased \$174 million, or 22%, to \$606 million for the three months ended June 30, 2009 compared to \$780 million for the prior year period primarily due to lower asset levels, as well as the negative impact of foreign currency translation. Wrap account assets decreased \$12.5 billion, or 14%, compared to the prior year period due to market depreciation, partially offset by net inflows and an increase in wrap account assets due to the acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008. Total managed assets excluding wrap account assets decreased \$45.0 billion, or 17%, in the second quarter of 2009 compared to the prior year period primarily due to market

Table of Contents

depreciation, net outflows and the impact of changes in foreign currency exchange rates, partially offset by an increase in managed assets due to the acquisition of J. & W. Seligman & Co. (Seligman) in the fourth quarter of 2008.

Distribution fees decreased \$71 million, or 17%, to \$351 million for the three months ended June 30, 2009 compared to \$422 million in the prior year period primarily due to lower equity markets and growth in cash and deposit products due to clients' preference for short-term and fixed income investment products, which resulted in slower sales and flows for other products that generate higher distribution fees.

Net investment income increased \$121 million, or 31%, to \$514 million for the three months ended June 30, 2009 compared to \$393 million in the prior year period primarily due to an increase of \$77 million in investment income on fixed maturity securities and \$6 million in net realized investment gains for the second quarter of 2009 compared to \$27 million in net realized investment losses for the second quarter of 2008. The increase in investment income earned on fixed maturity securities was driven by higher invested asset levels due to fixed annuity net inflows, partially offset by the combination of low short-term interest rates and high liquidity levels. In the second quarter of 2009, net realized gains from sales of Available-for-Sale securities were \$46 million and other-than-temporary impairments on previously impaired non-agency residential mortgage-backed securities were \$31 million. In the second quarter of 2008, net realized gains from sales of Available-for-Sale securities were \$1 million and other-than-temporary impairments were \$28 million.

Premiums increased \$12 million, or 5%, to \$269 million for the three months ended June 30, 2009 due to growth in Auto and Home premiums compared to the prior year period driven by higher volumes. Auto and Home policy counts increased 7% period-over-period.

Other revenues increased \$17 million, or 11%, to \$175 million for the three months ended June 30, 2009 compared to \$158 million in the prior year period primarily due to an \$8 million gain on the repurchase of certain junior subordinated notes (junior notes) in the second quarter of 2009 and an increase in guaranteed benefit rider fees on variable annuities.

Banking and deposit interest expense decreased \$4 million to \$38 million for the three months ended June 30, 2009 compared to \$42 million in the prior year period primarily due to lower crediting rates on certificates, partially offset by higher certificate balances.

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Total expenses increased \$26 million, or 1%, to \$1.8 billion for the three months ended June 30, 2009 compared to \$1.7 billion for the three months ended June 30, 2008, primarily due to acquisition related costs in the second quarter of 2009, growth in fixed annuity interest credited expense and market impacts on variable annuity guarantees. These increases were partially offset by market-driven declines in distribution expenses and a decrease in amortization of DAC and DSIC offsetting higher variable annuity benefit expenses, as well as cost controls.

Distribution expenses decreased \$81 million, or 16%, to \$425 million for the three months ended June 30, 2009 compared to \$506 million in the prior year period reflecting decreased advisor compensation, primarily due to year-over-year market depreciation on assets. Net revenues per advisor decreased to \$63,000 in the second quarter of 2009 compared to \$77,000 in the prior year period and total managed assets decreased \$56.2 billion, or 16%, compared to the prior year period.

Interest credited to fixed accounts increased \$45 million, or 23%, to \$237 million for the three months ended June 30, 2009 compared to \$192 million for the three months ended June 30, 2008, primarily due to higher average fixed annuity account balances and higher average crediting rates compared to the prior year period. Average fixed annuities contract accumulation values increased \$2.2 billion, or 19%, compared to the prior year period. The average crediting rate excluding capitalized interest increased to 4.0% in the second quarter of 2009 compared to 3.7% in the same period a year ago.

Benefits, claims, losses and settlement expenses increased \$293 million, or 100%, to \$587 million for the three months ended June 30, 2009 compared to \$294 million for the three months ended June 30, 2008. Benefits, claims, losses and settlement expenses for the second quarter of 2009 were impacted by \$340 million in variable annuity death and living benefit expenses, which included \$604 million in expenses from the non-cash impact of the credit default spread on the Statement of Financial Accounting Standards No. 157 Fair Value Measurements (SFAS 157) valuation of living benefit liabilities. Benefits, claims, losses and settlement expenses also reflect \$49 million in related lower DSIC amortization in the second quarter of 2009. Benefits, claims, losses and settlement expenses in the second quarter of 2008 included a \$12 million benefit related to variable annuity guaranteed death and living benefits, of which \$6 million in expense was related to the credit default spread.

Amortization of DAC was a net benefit of \$125 million for the three months ended June 30, 2009 compared to expense of \$144 million in the prior year period. DAC amortization for the three months ended June 30, 2009 included a benefit of \$206 million offsetting higher variable annuity benefit expenses compared to a \$2 million expense for the three months ended

Table of Contents

June 30, 2008. In addition, the impact of higher policyholder account balances as a result of equity and fixed income market performance in the second quarter of 2009 decreased DAC amortization by \$39 million compared to an expense of \$10 million in the second quarter of 2008.

General and administrative expense increased \$38 million, or 7%, to \$610 million for the three months ended June 30, 2009 compared to \$572 million in the prior year period. General and administrative expense in the second quarter of 2009 included integration costs and ongoing expenses from acquisitions closed in the fourth quarter of 2008 of \$25 million and \$66 million, respectively, and \$23 million in increased legal expenses and a provision for a client settlement. Excluding these costs, general and administrative expense decreased 13% as a result of expense controls, lower performance-driven compensation-related expenses and a positive impact of foreign currency translation. The positive impact of foreign currency translation on general and administrative expense partially offset the negative impact of foreign currency translation on management and financial advice fees.

Income Taxes

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our effective tax rate on net income attributable to Ameriprise Financial increased to 24.4% for the three months ended June 30, 2009, compared to 11.9% for the three months ended June 30, 2008. Our effective tax rate for the second quarter of 2008 included \$27 million of tax benefits related to changes in the status of current audits and tax planning initiatives.

On September 25, 2007, the IRS issued Revenue Ruling 2007-61 in which it announced that it intends to issue regulations with respect to certain computational aspects of the Dividends Received Deduction (DRD) related to separate account assets held in connection with variable contracts of life insurance companies. Revenue Ruling 2007-61 suspended a revenue ruling issued in August 2007 that purported to change accepted industry and IRS interpretations of the statutes governing these computational questions. Any regulations that the IRS ultimately proposes for issuance in this area will be subject to public notice and comment, at which time insurance companies and other members of the public will have the opportunity to raise legal and practical questions about the content, scope and application of such regulations. As a result, the ultimate timing and substance of any such regulations are unknown at this time, but they may result in the elimination of some or all of the separate account DRD tax benefit that we receive. Management believes that it is likely that any such regulations would apply prospectively only.

Advice & Wealth Management

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our Advice & Wealth Management segment provides financial planning and advice, as well as full service brokerage and banking services, primarily to retail clients, through our financial advisors. Our affiliated advisors utilize a diversified selection of both proprietary and non-proprietary products to help clients meet their financial needs.

The following table presents the results of operations of our Advice & Wealth Management segment for the three months ended June 30, 2009 and 2008:

	Three Months Ended June 30,		Change	
	2009	2008		
(in millions, except percentages)				
Revenues				
Management and financial advice fees	\$ 295	\$ 352	\$ (57)	(16)%

Pretax income (loss) attributable to Ameriprise Financial	\$ (3)	\$ 51	\$ (54)	NM

NM Not Meaningful.

Our Advice & Wealth Management segment pretax loss was \$3 million for the three months ended June 30, 2009 compared to pretax income of \$51 million for the three months ended June 30, 2008.

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues were \$788 million for the three months ended June 30, 2009 compared to \$891 million in the prior year period, a decrease of \$103 million, or 12%, primarily driven by decreases in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$57 million, or 16%, to \$295 million for the three months ended June 30, 2009, primarily due to lower asset levels in wrap accounts. Wrap account assets decreased \$12.5 billion, or 14%, compared to the prior year period, due to market depreciation, partially offset by net inflows and an increase in wrap account assets due to the acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008. Market depreciation from June 30, 2008 to June 30, 2009 negatively impacted wrap account assets by \$18.1 billion, whereas total net inflows during the same period were \$3.6 billion. Financial planning fees were lower in the second quarter of 2009 compared to the prior year period resulting from accelerated financial plan delivery standards in the second quarter of 2008.

Distribution fees decreased \$85 million, or 17%, to \$423 million for the three months ended June 30, 2009, primarily due to lower equity markets and growth in cash and deposit products due to clients' preference for short-term and fixed income investment products, which resulted in slower sales and flows for other products that generate higher distribution fees.

Net investment income increased \$31 million, or 57%, to \$85 million for the three months ended June 30, 2009, due to a decrease in net realized investment losses and an increase in investment income earned on fixed maturity securities. Net realized investment losses were \$8 million in the second quarter of 2009 compared to \$21 million in the prior year period. Investment income on fixed maturity securities increased \$19 million driven by volume-related increases in invested asset levels.

Banking and deposit interest expense decreased \$4 million, or 10%, to \$38 million for the three months ended June 30, 2009, due to lower crediting rates on certificates, partially offset by higher certificate balances.

Table of Contents

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Total expenses decreased \$49 million, or 6%, to \$791 million for the three months ended June 30, 2009.

Distribution expenses decreased \$93 million, or 16%, to \$471 million for the three months ended June 30, 2009, reflecting decreased advisor compensation, primarily due to year-over-year market depreciation on assets. Net revenues per advisor decreased to \$63,000 in the second quarter of 2009 compared to \$77,000 in the prior year period and total managed assets decreased \$56.2 billion, or 16%, compared to the prior year period.

General and administrative expense increased \$44 million, or 16%, from the prior year period primarily due to integration costs and ongoing expenses from our acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008, partially offset by lower expenses due to expense controls.

Asset Management

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our Asset Management segment provides investment advice and investment products to retail and institutional clients.

The following table presents the results of operations of our Asset Management segment for the three months ended June 30, 2009 and 2008:

	Three Months Ended June 30,		Change	
	2009	2008	(in millions, except percentages)

NM Not Meaningful.

Our Asset Management segment pretax loss excluding net loss attributable to noncontrolling interest was \$12 million for the three months ended June 30, 2009 compared to pretax income excluding net loss attributable to noncontrolling interest of \$42 million in the prior year period.

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues decreased \$79 million, or 22%, to \$285 million for the three months ended June 30, 2009, primarily due to declines in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$65 million, or 22%, to \$230 million for the three months ended June 30, 2009, primarily driven by lower asset levels and the negative impact of foreign currency translation. Domestic managed assets decreased \$8.4 billion, or 6%, to \$134.8 billion as of June 30, 2009 compared to \$143.2 billion as of June 30, 2008 due to market depreciation of \$14.5 billion and net outflows of \$7.0 billion, partially offset by Seligman assets acquired in the fourth quarter of 2008. International managed assets decreased \$38.4 billion, or 32%, to \$82.5 billion as of June 30, 2009 compared to \$120.9 billion as of June 30, 2008 due to market depreciation of \$13.2 billion, net outflows of \$10.6 billion and a decrease of \$20.0 billion related to changes in foreign currency exchange rates, partially offset by an increase in assets acquired.

Distribution fees decreased \$16 million, or 23%, to \$54 million for the three months ended June 30, 2009, primarily due to lower 12b-1 fees driven by flows and negative market impacts, as well as decreased mutual fund sales volume.

Table of Contents

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Total expenses decreased \$22 million, or 7%, to \$305 million for the three months ended June 30, 2009, due to a decrease in distribution expenses.

Distribution expenses decreased \$26 million from the prior year period primarily due to decreased mutual fund sales volume.

General and administrative expense increased \$3 million, or 1%, to \$214 million for the three months ended June 30, 2009, primarily due to integration costs and ongoing expenses from our acquisition of Seligman in the fourth quarter of 2008, as well as an increase in legal expenses, partially offset by decreases due to expense controls and lower performance-driven compensation-related expenses and a positive impact of foreign currency translation. The positive impact of foreign currency translation on general and administrative expense partially offset the negative impact of foreign currency translation on management and financial advice fees.

Annuities

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our Annuities segment provides variable and fixed annuity products of RiverSource Life Insurance Company (RiverSource Life) and RiverSource Life Insurance Co. of New York (RiverSource Life of NY), collectively RiverSource Life companies, to our retail clients primarily through our Advice & Wealth Management segment and to the retail clients of unaffiliated advisors through third-party distribution.

The following table presents the results of operations of our Annuities segment for the three months ended June 30, 2009 and 2008:

	Three Months Ended June 30,		Change	
	2009	2008

Our Annuities segment pretax income was \$94 million for the three months ended June 30, 2009, up \$17 million from \$77 million in the prior year period.

Table of Contents

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues increased \$68 million, or 14%, to \$562 million for the three months ended June 30, 2009, primarily driven by an increase in net investment income, partially offset by decreases in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$26 million, or 20%, to \$104 million due to lower fees on variable annuities. Average variable annuities contract accumulation values decreased \$11.7 billion or 23% from the prior year period primarily due to equity market declines, partially offset by net inflows. Clients' lower risk tolerances and preference for guaranteed returns reduced variable annuity net inflows and increased fixed annuity net inflows compared to the prior year period.

Distribution fees decreased \$14 million, or 19%, to \$58 million for the three months ended June 30, 2009, primarily due to lower fees on variable annuities driven by equity market declines.

Net investment income increased \$102 million, or 43%, to \$339 million for the three months ended June 30, 2009, primarily due to an increase in investment income on fixed maturity securities, as well as net realized investment gains of \$8 million compared to net realized investment losses of \$5 million in the prior year period. The increase in investment income on fixed maturity securities was driven by higher invested asset levels due to fixed annuity net inflows.

Other revenues increased \$4 million to \$38 million for the three months ended June 30, 2009, primarily due to an increase in our guaranteed benefit rider fees on variable annuities.

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Total expenses increased \$51 million, or 12%, to \$468 million for the three months ended June 30, 2009, primarily due to growth in fixed annuity interest credited expense and market impacts on variable annuity guarantees, partially offset by the related impact on amortization of DAC.

Interest credited to fixed accounts increased \$45 million, or 29%, to \$201 million for the three months ended June 30, 2009, primarily driven by higher average fixed annuity account balances and higher average crediting rates compared to the prior year period. Interest credited on fixed annuities exclusive of payout annuity interest credited increased 33% in the second quarter of 2009 compared to the same period a year ago. Average fixed annuities contract accumulation values increased \$2.2 billion, or 19%, compared to the prior year period. The average crediting rate excluding capitalized interest increased to 4.0% in the second quarter of 2009 compared to 3.7% in the same period a year ago. In total, interest credited on payout annuities and the fixed portion of variable annuities increased 18% in the second quarter of 2009 compared to the prior year period.

Benefits, claims, losses and settlement expenses increased \$282 million to \$351 million for the three months ended June 30, 2009 compared to \$69 million in the prior year period. Benefits, claims, losses and settlement expenses for the second quarter of 2009 were impacted by \$340 million in variable annuity death and living benefit expenses, which included \$604 million in expenses from the non-cash impact of the credit default spread on the SFAS 157 valuation of living benefit liabilities. Benefits, claims, losses and settlement expenses also reflect \$49 million in related lower DSIC amortization in the second quarter of 2009. Benefits, claims, losses and settlement expenses in the second quarter of 2008 included a \$12 million benefit related to variable annuity guaranteed death and living benefits, of which \$6 million in expense was related to the credit default spread.

Amortization of DAC was a net benefit of \$182 million for the three months ended June 30, 2009 compared to expense of \$91 million in the prior year period. Amortization of DAC in the second quarter of 2009 included a benefit of \$206 million offsetting higher variable annuity benefit expenses compared to a \$2 million expense for the three months ended June 30, 2008. In addition, the impact of higher policyholder account balances as a result of equity and fixed income market performance in the second quarter of 2009 decreased DAC amortization by \$33 million compared to an expense of \$9 million in the second quarter of 2008.

NM Not Meaningful.

Our Protection segment pretax income was \$110 million for the three months ended June 30, 2009, down \$3 million, or 3%, from \$113 million.

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues increased \$18 million, or 4%, from the prior year period due to an increase in net investment income and premiums.

Management and financial advice fees decreased \$5 million, or 31%, to \$11 million for the three months ended June 30, 2009, primarily driven by lower equity markets.

Net investment income increased \$12 million, or 14%, to \$97 million for the three months ended June 30, 2009, primarily due to a \$9 million increase in investment income earned on fixed maturity securities driven by higher yields on the overall asset portfolio, as well as volume-related increases in investment balances.

Premiums increased \$10 million, or 4%, to \$254 million for the three months ended June 30, 2009 due to growth in Auto and Home premiums compared to the prior year period driven by higher volumes. Auto and Home policy counts increased 7% period-over-period.

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Benefits, claims, losses and settlement expenses increased \$11 million, or 5%, to \$236 million for the three months ended June 30, 2009 primarily due to volume-driven increases in Auto and Home reserves compared to the prior year period.

Overall

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net income attributable to Ameriprise Financial for the six months ended June 30, 2009 was \$225 million, down \$176 million from \$401 million for the prior year period, reflecting the impact of the significant decline in equity markets and the lower short-term interest rate environment. The S&P 500 Index was 919 at the end of the second quarter of 2009 compared to 1,280 at the end of the second quarter of 2008, a drop of 361 points, or 28%. Short-term interest rates declined period over period as the Fed Funds target rate was 0-25 basis points in the first half of 2009 compared to a range of 200-425 basis points in the first half of 2008.

Net Revenues

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net revenues decreased \$363 million, or 9%, to \$3.6 billion for the six months ended June 30, 2009 compared to \$4.0 billion for the prior year period. The decrease in net revenues was driven by lower management and financial advice fees and distribution fees, primarily due to lower asset levels attributable to the decline in equity markets that persisted throughout the period from June 30, 2008 to June 30, 2009, partially offset by growth in fixed annuities.

Table of Contents

Management and financial advice fees decreased \$411 million, or 26%, to \$1.2 billion for the six months ended June 30, 2009 compared to \$1.6 billion for the prior year period primarily due to lower asset levels, as well as the negative impact of foreign currency translation. Wrap account assets decreased \$12.5 billion, or 14%, compared to the prior year period, primarily due to market depreciation, partially offset by net inflows and an increase in wrap account assets due to the acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008. Total managed assets excluding wrap account assets decreased \$45.0 billion, or 17%, to \$214.1 billion as of June 30, 2009 primarily due to net outflows in Domestic and International funds, market depreciation, and the negative impact of changes in foreign currency exchange rates, partially offset by an increase in managed assets due to the acquisition of J. & W. Seligman & Co. (Seligman) in the fourth quarter of 2008.

Distribution fees decreased \$193 million, or 23%, to \$662 million for the six months ended June 30, 2009 compared to \$855 million in the prior year period primarily due to lower equity markets and growth in cash and deposit products due to clients' preference for short-term and fixed income investment products, which resulted in slower sales and flows for other products that generate higher distribution fees.

Net investment income increased \$141 million, or 18%, to \$935 million for the six months ended June 30, 2009 compared to \$794 million in the prior year period, primarily due to \$21 million in net realized investment gains for the six months ended June 30, 2009 compared to \$51 million in net realized investment losses for the six months ended June 30, 2008 and an increase of \$54 million in investment income on fixed maturity securities. For the six months ended June 30, 2009, net realized gains from sales of Available-for-Sale securities were \$97 million and other-than-temporary impairments recognized in earnings were \$66 million. For the six months ended June 30, 2008, net realized gains from sales of Available-for-Sale securities were \$9 million and other-than-temporary impairments recognized in earnings were \$60 million. The increase in investment income earned on fixed maturity securities was driven by higher invested asset levels due to fixed annuity net inflows, partially offset by the combination of low short-term interest rates and high liquidity levels.

Premiums increased \$22 million, or 4%, to \$535 million for the six months ended June 30, 2009 primarily due to growth in Auto and Home premiums compared to the prior year period driven by higher volumes. Auto and Home policy counts increased 7% period-over-period.

Other revenues increased \$69 million, or 22%, to \$384 million for the six months ended June 30, 2009 compared to \$315 million in the prior year period primarily due to a \$58 million gain on the repurchase of certain junior notes in the 2009 period.

Banking and deposit interest expense decreased \$9 million to \$80 million for the six months ended June 30, 2009 compared to \$89 million in the prior year period primarily due to lower crediting rates on certificates, partially offset by higher certificate balances.

Expenses

Total expenses decreased \$190 million, or 5%, to \$3.3 billion for the six months ended June 30, 2009 compared to \$3.5 billion for the six months ended June 30, 2008, primarily due to market-driven declines in distribution expenses and continued strong expense controls, partially offset by acquisition related costs and growth in fixed annuity interest credited expense.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Distribution expenses decreased \$230 million, or 22%, to \$808 million for the six months ended June 30, 2009 compared to \$1.0 billion in the prior year period reflecting decreased advisor compensation, primarily due to year-over-year market depreciation on assets. Net revenues per advisor decreased to \$121,000 in the first half of 2009 compared to \$158,000 in the prior year period and total managed assets decreased \$56.2 billion, or 16%, compared to the prior year period.

Interest credited to fixed accounts increased \$55 million, or 14%, to \$442 million for the six months ended June 30, 2009 compared to \$387 million for the six months ended June 30, 2008, primarily due to higher average fixed annuity account balances and higher average rates paid to clients on fixed annuities compared to the prior year period. Average fixed annuities contract accumulation values increased \$1.2 billion, or 10%, compared to the prior year period. The average crediting rate excluding capitalized interest increased to 3.9% in the first half of 2009 compared to 3.7% in the same period a year ago.

Benefits, claims, losses and settlement expenses increased \$89 million, or 15%, to \$687 million for the six months ended June 30, 2009 compared to \$598 million for the six months ended June 30, 2008, driven by an increase in expenses from benefits associated with variable annuity death and living benefit guarantees. Benefits, claims, losses and settlement expenses for the first half of 2009 were impacted by \$104 million in variable annuity death and living benefit expenses, which included \$401 million in expenses from the non-cash impact of the credit default spread on the SFAS 157 valuation of living benefit liabilities. Benefits, claims, losses and settlement expenses in the first half of 2008 included a \$5 million expense related to variable annuity guaranteed death and living benefits, of which \$23 million of benefit was

Table of Contents

related to the credit default spread. Benefits, claims, losses and settlement expenses also reflect \$13 million in related lower DSIC amortization in the first half of 2009 compared to \$1 million in the prior year period.

Amortization of DAC decreased \$137 million, or 46%, to \$161 million for the six months ended June 30, 2009 compared to \$298 million in the prior year period. DAC amortization for the six months ended June 30, 2009 included \$60 million in lower DAC amortization offsetting higher variable annuity benefit expenses. The impact of equity and fixed income market performance on policyholder account balances increased DAC amortization by \$1 million in the first half of 2009 compared to \$34 million in the first half of 2008. Variable annuity amortization decreased in the first half of 2009 compared to the prior year period driven by lower period-over-period account values and associated asset fees.

General and administrative expense increased \$33 million, or 3%, to \$1.2 billion for the six months ended June 30, 2009. General and administrative expense for the six months ended June 30, 2009 included integration costs and ongoing expenses from acquisitions closed in the fourth quarter of 2008 of \$44 million and \$132 million, respectively. Excluding these costs, general and administrative expense decreased 12% as a result of expense controls and a positive impact of foreign currency translation, partially offset by increased legal expenses and a provision for a client settlement. The positive impact of foreign currency translation on general and administrative expense partially offset the negative impact of foreign currency translation on management and financial advice fees.

Income Taxes

Our effective tax rate on net income attributable to Ameriprise Financial increased to 18.4% for the six months ended June 30, 2009, compared to 7.4% for the six months ended June 30, 2008. Our effective tax rate for the six months ended June 30, 2008 included \$65 million of tax benefits related to changes in the status of current audits and tax planning initiatives.

Table of Contents**Results of Operations by Segment for the Six Months ended June 30, 2009 and 2008**

The following tables present summary financial information by segment and reconciliation to consolidated totals derived from Note 16 to our Consolidated Financial Statements for the six months ended June 30, 2009 and 2008:

	2009	Six Months Ended June 30, Percent Share of Total (in millions, except percentages)	2008	Percent Share of Total

Advice & Wealth Management

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our Advice & Wealth Management segment provides financial planning and advice, as well as full service brokerage and banking services, primarily to retail clients, through our financial advisors. Our affiliated advisors utilize a diversified selection of both proprietary and non-proprietary products to help clients meet their financial needs.

The following table presents the results of operations of our Advice & Wealth Management segment for the six months ended June 30, 2009 and 2008:

	Six Months Ended June 30,				Change	
	2009	2008				
(in millions, except percentages)

Pretax income (loss) attributable to Ameriprise Financial	\$	(64)	\$	115	\$	(179) NM

NM Not Meaningful.

Our Advice & Wealth Management segment pretax loss was \$64 million for the six months ended June 30, 2009 compared to pretax income of \$115 million for the six months ended June 30, 2008.

Net Revenues

Net revenues were \$1.5 billion for the six months ended June 30, 2009 compared to \$1.8 billion in the prior year period, a decrease of \$310 million, or 17%, primarily driven by decreases in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$156 million, or 22%, to \$563 million for the six months ended June 30, 2009, primarily due to lower asset levels in wrap accounts. Wrap account assets decreased \$12.5 billion, or 14%, compared to the prior year period due to market depreciation, partially offset by net inflows and an increase in wrap account assets due to the acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008. Market depreciation from June 30, 2008 to June 30, 2009 negatively impacted wrap account assets by \$18.1 billion, whereas total net inflows during the same period were \$3.6 billion. Financial planning fees were lower in the first half of 2009 compared to the prior year period resulting from accelerated financial plan delivery standards in the first half of 2008.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Distribution fees decreased \$171 million, or 17%, to \$854 million for the six months ended June 30, 2009, primarily due to lower equity markets and growth in cash and deposit products due to clients' preference for short-term and fixed income investment products, which resulted in slower sales and flows for other products that generate higher distribution fees.

Net investment income increased \$6 million, or 5%, to \$139 million for the six months ended June 30, 2009. Net realized investment losses were \$18 million for the six months ended June 30, 2009 compared to \$21 million in the prior year period. Investment income on fixed maturity securities increased \$12 million compared to the prior year period primarily due to volume-related increases in invested asset levels. Investment income earned on seed money and other investments decreased \$9 million compared to the prior year period.

Banking and deposit interest expense decreased \$10 million, or 11%, to \$79 million for the six months ended June 30, 2009, due to lower crediting rates accrued on certificates, partially offset by higher certificate balances compared to the prior year period.

Table of Contents

Expenses

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Total expenses decreased \$131 million, or 8%, to \$1.6 billion for the six months ended June 30, 2009.

Distribution expenses decreased \$217 million, or 19%, to \$932 million for the six months ended June 30, 2009, reflecting decreased advisor compensation, primarily due to year-over-year market depreciation on assets. Net revenues per advisor decreased to \$121,000 for the six months ended June 30, 2009 compared to \$158,000 in the prior year period and total managed assets decreased \$56.2 billion, or 16%, compared to the prior year period.

General and administrative expense increased \$86 million, or 15%, from the prior year period primarily due to integration costs and ongoing expenses from our acquisition of H&R Block Financial Advisors, Inc. in the fourth quarter of 2008, partially offset by lower expenses due to expense controls.

Asset Management

Our Asset Management segment provides investment advice and investment products to retail and institutional clients.

The following table presents the results of operations of our Asset Management segment for the six months ended June 30, 2009 and 2008:

	Six Months Ended June 30,				Change	
	2009	2008	(in millions, except percentages)

Pretax income (loss) attributable to Ameriprise Financial	\$ (20)	\$ 60	\$ (80)		NM	

NM Not Meaningful.

Our Asset Management segment pretax loss attributable to Ameriprise Financial was \$20 million for the six months ended June 30, 2009 compared to pretax income attributable to Ameriprise Financial of \$60 million in the prior year period.

Net Revenues

Net revenues decreased \$186 million, or 26%, to \$533 million for the six months ended June 30, 2009, primarily due to declines in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$152 million, or 26%, to \$439 million for the six months ended June 30, 2009, primarily driven by market depreciation on assets, net outflows and the negative impact of foreign currency translation. Domestic managed assets decreased \$8.4 billion, or 6%, to \$134.8 billion as of June 30, 2009 compared to \$143.2 billion as of June 30, 2008 due to market depreciation of \$14.5 billion and net outflows of \$7.0 billion, partially offset by Seligman assets acquired in the fourth quarter of 2008. International managed assets decreased \$38.4 billion, or 32%, to \$82.5 billion as of June 30, 2009 compared to \$120.9 billion as of June 30, 2008 due to market depreciation of \$13.2 billion, net outflows of \$10.6 billion and a decrease of \$20.0 billion related to changes in foreign currency exchange rates, partially offset by an increase in assets acquired.

Distribution fees decreased \$39 million, or 28%, to \$101 million for the six months ended June 30, 2009, primarily due to lower 12b-1 fees driven by flows and negative market impacts, as well as decreased mutual fund sales volume.

Table of Contents*Expenses*

Total expenses decreased \$94 million, or 14%, to \$575 million for the six months ended June 30, 2009, primarily due to decreases in distribution expenses and general and administrative expense.

Distribution expenses decreased \$62 million from the prior year period primarily due to decreased mutual fund sales volume.

General and administrative expense decreased \$31 million, or 7%, to \$396 million for the six months ended June 30, 2009, primarily due to expense controls, lower performance-driven compensation-related expenses and a positive impact of foreign currency translation, partially offset by integration costs and ongoing expenses from our acquisition of Seligman in the fourth quarter of 2008 and an increase in legal expenses. The positive impact of foreign currency translation on general and administrative expense partially offset the negative impact of foreign currency translation on management and financial advice fees.

Annuities

Our Annuities segment provides variable and fixed annuity products of RiverSource Life Insurance Company (RiverSource Life) and RiverSource Life Insurance Co. of New York (RiverSource Life of NY), collectively RiverSource Life companies, to our retail clients primarily through our Advice & Wealth Management segment and to the retail clients of unaffiliated advisors through third-party distribution.

The following table presents the results of operations of our Annuities segment for the six months ended June 30, 2009 and 2008:

	Six Months Ended June 30,		Change	
	2009	2008	(in millions, except percentages)

Our Annuities segment pretax income was \$223 million for the six months ended June 30, 2009, up \$104 million from \$119 million in the prior year period.

Table of Contents

Net Revenues

Net revenues increased \$82 million, or 8%, to \$1.1 billion for the six months ended June 30, 2009, primarily driven by an increase in net investment income, partially offset by decreases in management and financial advice fees and distribution fees.

Management and financial advice fees decreased \$62 million, or 24%, to \$194 million for the six months ended June 30, 2009, due to lower fees on variable annuities. Average variable annuities contract accumulation values decreased \$12.8 billion or 26% from the prior year period primarily due to equity market declines, partially offset by net inflows. Clients' lower risk tolerances and preference for guaranteed returns reduced variable annuity net inflows and increased fixed annuity net inflows.

Distribution fees decreased \$27 million, or 19%, to \$115 million for the six months ended June 30, 2009, primarily due to lower fees on variable annuities driven by the equity market decline.

Net investment income increased \$154 million, or 32%, to \$628 million for the six months ended June 30, 2009, primarily due to higher invested asset levels due to fixed annuity net inflows, as well as net realized investment gains of \$28 million compared to net realized investment losses of \$25 million in the prior year period, including \$30 million of other-than-temporary impairments on Available-for-Sale securities.

Premiums increased \$8 million to \$47 million for the six months ended June 30, 2009, due to higher sales of immediate annuities with life contingencies.

Other revenues increased \$9 million to \$70 million for the six months ended June 30, 2009, primarily due to an increase in guaranteed benefit rider fees on variable annuities.

Expenses

Total expenses decreased \$22 million, or 3%, to \$831 million for the six months ended June 30, 2009, primarily due to a decrease in DAC amortization, partially offset by increases in benefits, claims, losses and settlement expenses and interest credited to fixed accounts.

Distribution expenses increased \$13 million, or 14%, to \$105 million for the six months ended June 30, 2009, primarily due to higher non-deferred distribution-related costs driven by higher sales of fixed annuities.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Interest credited to fixed accounts increased \$54 million, or 17%, to \$370 million for the six months ended June 30, 2009, primarily driven by higher average fixed annuity balances and higher average crediting rates compared to the prior year period. Interest credited to fixed annuities exclusive of payout annuity interest credited increased 21% in the first half of 2009 compared to the same period a year ago. Average fixed annuities contract accumulation values increased \$1.2 billion, or 10%, compared to the prior year period. The average crediting rate excluding capitalized interest increased to 3.9% in the first half of 2009 compared to 3.7% in the same period a year ago. In total, interest credited on payout annuities and the fixed portion of variable annuities increased 9% in the first half of 2009 compared to the prior year period.

Benefits, claims, losses and settlement expenses increased \$75 million, or 51%, to \$222 million for the six months ended June 30, 2009, due to an increase in expenses from benefits associated with variable annuity death and living benefit guarantees. Benefits, claims, losses and settlement expenses for the first half of 2009 were impacted by \$104 million in variable annuity death and living benefit expenses, which included \$401 million in expenses from the non-cash impact of the credit default spread on the SFAS 157 valuation of living benefit liabilities. Benefits, claims, losses and settlement expenses in the first half of 2008 included a \$5 million expense related to variable annuity guaranteed death and living benefits, of which \$23 million of benefit was related to the credit default spread. Benefits, claims, losses and settlement expenses also reflect \$13 million in related lower DSIC amortization in the first half of 2009 compared to \$1 million in the prior year period.

Amortization of DAC decreased \$148 million to \$37 million for the six months ended June 30, 2009 compared to \$185 million in the prior year period. DAC amortization for the six months ended June 30, 2009 included \$60 million in lower DAC amortization offsetting higher variable annuity benefit expenses. The impact of equity and fixed income market performance on policyholder account balances increased DAC amortization by \$1 million in the first half of 2009 compared to \$31 million in the first half of 2008. Variable annuity amortization decreased in the first half of 2009 compared to the prior year period driven by lower period-over-period account values and associated asset fees.

General and administrative expense decreased \$16 million, or 14%, to \$97 million for the six months ended June 30, 2009 primarily due to expense controls.

Table of Contents

Protection

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Our Protection segment offers a variety of protection products to address the identified protection and risk management needs of our retail clients including life, disability income and property-casualty insurance.

The following table presents the results of operations of our Protection segment for the six months ended June 30, 2009 and 2008:

	Six Months Ended June 30,		Change	
	2009	2008		
Revenues				
Management and financial advice fees	\$ 21	\$ 31	\$ (10)	(32)%

Total expenses	771	747	24	3
Pretax income	222	215	7	3
Less: Net loss attributable to noncontrolling interests				
Pretax income attributable to Ameriprise Financial	\$ 222	\$ 215	\$ 7	3%

NM Not Meaningful.

Our Protection segment pretax income was \$222 million for the six months ended June 30, 2009, up \$7 million, or 3%, from \$215 million in the prior year period.

Net Revenues

Net revenues increased \$31 million, or 3%, to \$993 million from the prior year period primarily due to an increase in net investment income and premiums.

Management and financial advice fees decreased \$10 million, or 32%, to \$21 million for the six months ended June 30, 2009, primarily driven by lower equity markets.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Net investment income increased \$29 million, or 17%, to \$197 million for the six months ended June 30, 2009, primarily due to net realized investment gains of \$7 million in the first half of 2009 compared to net realized investment losses of \$4 million in the first half of 2008 and an increase of \$11 million in investment income earned on fixed maturity securities compared to the prior year period primarily due to higher yields on the overall asset portfolio, as well as volume-related increases in investment balances.

Premiums increased \$12 million, or 2%, to \$501 million for the six months ended June 30, 2009 primarily due to growth in Auto and Home premiums compared to the prior year period driven by higher volumes. Auto and Home policy counts increased 7% period-over-period.

Expenses

Total expenses increased \$24 million, or 3%, to \$771 million for the six months ended June 30, 2009, primarily due to increases in benefits, claims, losses and settlement expenses and amortization of DAC.

Benefits, claims, losses and settlement expenses increased \$14 million, or 3%, to \$465 million for the six months ended June 30, 2009 primarily due to volume-driven increases in Auto and Home reserves compared to the prior year period.

Amortization of DAC increased \$12 million, or 12%, to \$112 million for the six months ended June 30, 2009, primarily due to an increase in the variable universal life and disability income lapse rate.

Less: Net loss attributable to noncontrolling interests				
Pretax loss attributable to Ameriprise Financial	\$ (90)	\$ (77)	\$ (13)	(17)%

NM Not Meaningful.

Our Corporate & Other segment pretax loss was \$90 million for the six months ended June 30, 2009, an increase of \$13 million from pretax loss of \$77 million in the prior year period.

Net revenues increased \$1 million compared to the prior year period, due to an increase in other revenues offset by a decrease in net investment income. Net investment loss for the six months ended June 30, 2009 reflects the transfer priced interest income allocated to the Annuities and Protection segments for maintaining excess liquidity. The increase in other revenues was due to a \$58 million gain on the repurchase of certain junior notes in the 2009 period.

Total expenses increased \$14 million, or 14%, to \$114 million for the six months ended June 30, 2009, due to an increase in general and administrative expense primarily related to legal settlements.

Market Risk

Equity market and interest rate fluctuations can have a significant impact on our results of operations, primarily due to the effects they have on the asset management and other asset-based fees we earn, the spread income generated on our annuities, banking, and face amount certificate products and UL insurance products, the value of DAC and DSIC assets associated with variable annuity and variable UL products, the values of liabilities for guaranteed benefits associated with our variable annuities and the values of derivatives held to hedge these benefits.

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

The guaranteed benefits associated with our variable annuities are guaranteed minimum withdrawal benefits (GMWB), guaranteed minimum accumulation benefits (GMAB), GMDB and guaranteed minimum income benefits (GMIB) options. Each of these guaranteed benefits guarantees payouts to the annuity holder under certain specific conditions regardless of the performance of the underlying investment assets.

To evaluate interest rate and equity market risk we perform sensitivity testing which measures the impact on pretax income from the sources listed below for a 12 month period following a hypothetical 100 basis point increase in interest rates or a hypothetical 10% decline in equity markets. The interest rate risk test assumes a sudden 100 basis point parallel shift in the yield curve, with rates then staying at those levels for the next 12 months. The equity market risk test assumes a sudden 10% drop in equity prices, with equity prices then staying at those levels for the next 12 months. In estimating the values of variable annuity riders, equity indexed annuities, stock market certificates and the associated hedge assets, we assumed no change in implied market volatility despite the 10% drop in equity markets.

Table of Contents

The numbers below show our estimates of the pretax impacts on income from these hypothetical market movements, net of hedging, as of June 30, 2009.

Equity Market Decline 10%	Equity Market Exposure to Pretax Income		Net Impact
	Before Hedge Impact	Hedge Impact (in millions)	
Asset-based management and distribution fees	\$ (121)	N/A	\$ (121)
DAC and DSIC amortization(1)	(156)	N/A	(156)
Variable annuity riders:			
GMDB and GMIB	(69)	N/A	(69)
GMWB	(139)	\$ 170	31
GMAB	(36)	23	(13)
DAC and DSIC amortization(2)	N/A	N/A	(6)
Total variable annuity riders	(244)	193	(57)
Equity indexed annuities			
Stock market certificates	6	(6)	
Total	\$ (515)	\$ 187	\$ (334)

Interest Rate Increase 100 Basis Points	Interest Rate Exposure to Pretax Income		Net Impact
	Before Hedge Impact	Hedge Impact (in millions)	
Asset-based management and distribution fees	\$ (17)	N/A	\$ (17)
Variable annuity riders:			
GMWB	219	\$ (370)	(151)
GMAB	46	(23)	23
DAC and DSIC amortization(2)	N/A	N/A	57
Total variable annuity riders	265	(393)	(71)
Fixed annuities, fixed portion of variable annuities and fixed insurance products		N/A	
Flexible savings and other fixed rate savings products	(8)	N/A	(8)
Total	\$ 240	\$ (393)	\$ (96)

N/A Not Applicable.

(1) Market impact on DAC and DSIC amortization resulting from lower projected profits.

(2) Market impact on DAC and DSIC amortization related to variable annuity riders is modeled net of hedge impact.

In evaluating equity market risk, the estimated impact on DAC and DSIC amortization resulting from lower projected profits as a result of the equity market decline is shown separately from the estimated impact on DAC and DSIC amortization resulting from changes in the values of GMWB and GMAB riders net of hedges. In estimating the impact on DAC and DSIC amortization resulting from lower projected profits, we have not changed our assumed equity asset growth rates. This is a significantly more conservative estimate than if we assumed management follows its mean reversion guideline and increased near-term rates to recover the drop in equity values over a five-year period. See Critical Accounting Policies for additional discussion on our DAC and DSIC accounting policies. We make this same conservative assumption in estimating the impact from GMDB and GMIB riders.

Net impacts shown in the above table from GMWB and GMAB riders result largely from differences between the liability valuation basis and the hedging basis. Liabilities are valued under SFAS 157, with key policyholder behavior assumptions loaded to provide risk margins and with discount rates increased to reflect a current market estimate of our risk of nonperformance specific to these liabilities. Management has elected to hedge based on best estimate policyholder assumptions and explicitly does not hedge nonperformance spread risk.

Actual results could differ materially from those illustrated above as they are based on a number of estimates and assumptions. These include assuming that implied market volatility does not change when equity values fall by 10%, that management does not increase assumed equity asset growth rates to anticipate recovery of the drop in equity values when valuing DAC, DSIC and GMDB and GMIB liability values and that the 100 basis point increase in interest rates is a parallel shift of the yield curve. Furthermore, we have not tried to anticipate changes in client preferences for different types of assets or other changes in client behavior, nor have we tried to anticipate actions management might take to increase revenues or reduce expenses in these scenarios.

The selection of a 100 basis point interest rate increase as well as a 10% equity market decline should not be construed as a prediction of future market events. Impacts of larger or smaller changes in interest rates or equity prices may not be proportional to those shown for a 100 basis point increase in interest rates or a 10% decline in equity prices.

Table of Contents

Credit Risk

We are exposed to credit risk within our investment portfolio, including our loan portfolio, and through our derivative and reinsurance activities. Credit risk relates to the uncertainty of an obligor's continued ability to make timely payments in accordance with the contractual terms of the financial instrument or contract. We consider our total potential credit exposure to each counterparty and its affiliates to ensure compliance with pre-established credit guidelines at the time we enter into a transaction which would potentially increase our credit risk. These guidelines and oversight of credit risk are managed through a comprehensive enterprise risk management program that includes members of senior management.

We manage the risk of credit-related losses in the event of nonperformance by counterparties by applying disciplined fundamental credit analysis and underwriting standards, prudently limiting exposures to lower-quality, higher-yielding investments, and diversifying exposures by issuer, industry, region and underlying investment type. We remain exposed to occasional adverse cyclical economic downturns during which default rates may be significantly higher than the long-term historical average used in pricing.

We manage our credit risk related to over-the-counter derivatives by entering into transactions with creditworthy counterparties, maintaining collateral arrangements and through the use of master netting arrangements that provide for a single net payment to be made by one counterparty to another at each due date and upon termination. Generally, our current credit exposure on over-the-counter derivative contracts is limited to a derivative counterparty's net positive fair value of derivative contracts after taking into consideration the existence of netting arrangements and any collateral received. This exposure is monitored and managed to an acceptable threshold level.

Because exchange-traded futures are effected through regulated exchanges, and positions are marked to market and generally cash settled on a daily basis, we have minimal exposure to credit-related losses in the event of nonperformance by counterparties to such derivative instruments.

We manage our credit risk related to reinsurance treaties by evaluating the financial condition of reinsurance counterparties prior to entering into new reinsurance treaties. In addition, we regularly evaluate their financial strength during the terms of the treaties. As of June 30, 2009, our largest reinsurance credit risk is related to a long term care coinsurance treaty with a life insurance subsidiary of Genworth Financial, Inc.

Fair Value Measurements

We report certain assets and liabilities at fair value; specifically, separate account assets, derivatives, embedded derivatives, properties held by our consolidated property funds, and most investments and cash equivalents. SFAS 157 defines fair value, provides a framework for measuring fair value and expands disclosures about fair value measurements. Fair value assumes the exchange of assets or liabilities occurs in orderly transactions. SFAS 157 does not require the use of market prices that are the result of a forced liquidation or distressed sale. We include actual market prices or observable inputs in our fair value measurements to the extent available. Broker quotes are obtained when quotes from pricing services are not available. We validate prices obtained from third parties through a variety of means such as: price variance analysis, subsequent sales testing, stale price review, price comparison across pricing vendors and due diligence reviews of vendors.

Inactive Markets

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

Through our own experience transacting in the marketplace and through discussions with our pricing vendors, we believe that the market for non-agency residential mortgage backed securities is inactive. Indicators of inactive markets include: pricing services' reliance on brokers or discounted cash flow analyses to provide prices, an increase in the disparity between prices provided by different pricing services for the same security, unreasonably large bid-offer spreads and a significant decrease in the volume of trades relative to historical levels. In certain cases, this market inactivity has resulted in our applying valuation techniques that rely more on an income approach (discounted cash flows using market rates) than on a market approach (prices from pricing services). We consider market observable yields for other asset classes of similar risk which includes nonperformance and liquidity for individual securities to set the discount rate for applying the income approach to certain non-agency residential mortgage backed securities. The discount rates used for the fair value of these securities at June 30, 2009 ranged from 11% to 22%.

Table of Contents

Non-agency Residential Mortgage Backed Securities Backed by Subprime, Alt-A or Prime Collateral

Subprime mortgage lending is the origination of residential mortgage loans to customers with weak credit profiles. Alt-A mortgage lending is the origination of residential mortgage loans to customers who have credit ratings above subprime but may not conform to government-sponsored standards. Prime mortgage lending is the origination of residential mortgage loans to customers with good credit profiles. We have exposure to these types of loans predominantly through mortgage backed and asset backed securities. The slow down in the U.S. housing market, combined with relaxed underwriting standards by some originators, has recently led to higher delinquency and loss rates for some of these investments. Recent market conditions have increased the likelihood of other-than-temporary impairments for certain non-agency residential mortgage backed securities. As a part of our risk management process, an internal rating system is used in conjunction with market data as the basis of analysis to assess the likelihood that we will not receive all contractual principal and interest payments for these investments. For the investments that are more at risk for impairment, we perform our own assessment of projected cash flows incorporating assumptions about default rates, prepayment speeds, loss severity, and geographic concentrations to determine if an other-than-temporary impairment should be recognized.

The following table presents, as of June 30, 2009, our non-agency residential mortgage backed and asset backed securities backed by subprime, Alt-A or prime mortgage loans by credit rating and vintage year (in millions):

	AAA		AA		A		BBB		BB & Below		Total

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

(1) Re-Remics of mortgage backed securities are prior vintages with cash flows structured into senior and subordinated bonds. Credit enhancement on senior bonds is increased through the Re-Remic process. All senior bonds are rated AAA by Moody's, S&P, or Fitch. Total exposure to subordinate tranches was de minimus as of June 30, 2009.

Table of Contents

Fair Value of Liabilities and Nonperformance Risk

SFAS 157 also requires companies to measure the fair value of liabilities at the price that would be received to transfer the liability to a market participant (an exit price). Since there is not a market for our obligations of our variable annuity riders, we consider the assumptions participants in a hypothetical market would make to reflect an exit price. As a result, we adjust the valuation of variable annuity riders by updating certain contractholder assumptions, adding explicit margins to provide for profit, risk and expenses, and adjusting the rates used to discount expected cash flows to reflect a current market estimate of our nonperformance risk. The nonperformance risk adjustment is based on broker quotes for credit default swaps that are adjusted to estimate the risk of our life insurance company subsidiaries not fulfilling these liabilities. Consistent with general market conditions, this estimate resulted in a spread over the LIBOR swap curve as of June 30, 2009. As our estimate of this spread widens or tightens, the liability will decrease or increase. If this nonperformance credit spread moves to a zero spread over the LIBOR swap curve, the reduction to net income would be approximately \$63 million, net of DAC and DSIC amortization and income taxes, based on June 30, 2009 credit spreads.

Liquidity and Capital Resources

Overview

We maintained substantial liquidity during the six months ended June 30, 2009. At June 30, 2009, we had \$4.5 billion in cash and cash equivalents compared to \$6.2 billion at December 31, 2008. Excluding collateral received from derivative counterparties, cash and cash equivalents were \$4.2 billion and \$4.4 billion at June 30, 2009 and December 31, 2008, respectively. We have additional liquidity available through an unsecured revolving credit facility for \$750 million that expires in September 2010. Under the terms of the underlying credit agreement, we can increase this facility to \$1.0 billion. Available borrowings under this facility are reduced by any outstanding letters of credit. We have had no borrowings under this credit facility and had \$2 million of outstanding letters of credit at June 30, 2009.

In June 2009, we issued \$200 million of 7.75% Senior Notes due 2039 and \$300 million of 7.30% Senior Notes due 2019 (collectively, Senior Notes). In July 2009, we used the proceeds from the issuance of our Senior Notes to repurchase \$450 million aggregate principal amount of our 5.35% Senior Notes due November 15, 2010 pursuant to a cash tender offer. In addition, in June 2009, we received cash of \$869 million from the issuance and sale of 36 million shares of our common stock. We plan to use the proceeds from the issuance of our common stock for general corporate purposes, including to support growth initiatives and to take advantage of acquisition opportunities as they become available. In March 2009, our life insurance subsidiary, RiverSource Life, became a member of the Federal Home Loan Bank of Des Moines (FHLB of Des Moines), which provides RiverSource Life access to collateralized borrowings. As of June 30, 2009, we had no borrowings from the FHLB of Des Moines. We believe cash flows from operating activities, available cash balances and our availability of revolver borrowings will be sufficient to fund our operating liquidity needs.

Various ratings organizations publish financial strength ratings, which measure an insurance company's ability to meet contractholder and policyholder obligations, and credit ratings. The following table summarizes the ratings for Ameriprise Financial, Inc. and certain of its insurance subsidiaries as of the date of this filing:

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

	A.M. Best Company, Inc.	Standard & Poor's Ratings Services	Moody's Investors Service	Fitch Ratings Ltd.
Financial Strength Ratings				
RiverSource Life	A+	AA-	Aa3	AA-
IDS Property Casualty Insurance Company	A	N/R	N/R	N/R
Credit Ratings				
Ameriprise Financial, Inc.	a-	A	A3	A-

On January 29, 2009, Standard & Poor's Ratings Services and Moody's Investors Service affirmed the ratings of Ameriprise Financial, Inc. and RiverSource Life. On March 4 and March 27, 2009, A.M. Best Company, Inc. and Fitch Ratings Ltd., respectively, also affirmed the ratings of Ameriprise Financial, Inc. and RiverSource Life. At the same time, each of the ratings organizations revised their outlooks on Ameriprise Financial, Inc. and RiverSource Life from stable to negative. For information on how changes in our financial strength or credit ratings could affect our financial condition and results of operations, see the Risk Factors discussion included in Part 1, Item 1A of our 2008 10-K.

Table of Contents**Dividends from Subsidiaries**

Ameriprise Financial is primarily a parent holding company for the operations carried out by our wholly owned subsidiaries. Because of our holding company structure, our ability to meet our cash requirements, including the payment of dividends on our common stock, substantially depends upon the receipt of dividends or return of capital from our subsidiaries, particularly our life insurance subsidiary, RiverSource Life, our face-amount certificate subsidiary, Ameriprise Certificate Company (ACC), our retail introducing broker-dealer subsidiary, Ameriprise Financial Services, Inc. (AFSI), our clearing broker-dealer subsidiary, American Enterprise Investment Services, Inc. (AEIS), our auto and home insurance subsidiary, IDS Property Casualty Insurance Company (IDS Property Casualty), doing business as Ameriprise Auto & Home Insurance, Threadneedle Asset Management Holdings Sàrl (Threadneedle), RiverSource Service Corporation and our investment advisory company, RiverSource Investments, LLC. The payment of dividends by many of our subsidiaries is restricted and certain of our subsidiaries are subject to regulatory capital requirements.

Actual capital and regulatory capital requirements for our wholly owned subsidiaries subject to regulatory capital requirements were as follows:

	Actual Capital		Regulatory Capital Requirements	
	June 30, 2009	December 31, 2008	June 30, 2009	December 31, 2008
	(in millions)			
RiverSource Life(1)(2)	\$ 2,487	\$ 2,722	\$ N/A	\$ 551
RiverSource Life of NY(1)(2)	237	229	N/A	58
IDS Property Casualty(1)(3)	447	436	128	124
Ameriprise Insurance Company(1)(3)	48	47	2	2
ACC(4)(5)	289	243	265	264
Threadneedle(6)	244	227	161	140
Ameriprise Bank, FSB(7)	161	113	161	123
AFSI(3)(4)	117	132	1	#
Ameriprise Captive Insurance Company(3)	24	20	16	9
Ameriprise Trust Company(3)	34	35	28	28
AEIS(3)(4)	88	74	4	4
Securities America, Inc.(3)(4)	17	17	#	#
RiverSource Distributors, Inc.(3)(4)	38	41	#	#
RiverSource Fund Distributors, Inc.(3)(4)	8	7	2	1
RiverSource Services, Inc.(3)(4)	1	1	#	#
Ameriprise Advisor Services, Inc.(3)(4)	80	22	6	5

Amounts are less than \$1 million.

N/A Not Applicable.

(1) Actual capital is determined on a statutory basis.

(2) Regulatory capital requirement is based on the statutory risk-based capital filing as of December 31, 2008.

(3) Regulatory capital requirement is based on the applicable regulatory requirement, calculated as of June 30, 2009 and December 31, 2008.

(4) Actual capital is determined on an adjusted GAAP basis.

(5) ACC is required to hold capital in compliance with the Minnesota Department of Commerce and SEC capital requirements. As of December 31, 2008, ACC's capital dropped to 4.61% and 4.97% per the Minnesota Department of Commerce and SEC capital requirements, respectively. Ameriprise Financial promptly provided additional capital to ACC in January 2009 to bring capital back above the 5% requirement.

(6) Actual capital and regulatory capital requirements are determined in accordance with U.K. regulatory legislation.

(7) Ameriprise Bank is required to hold capital in compliance with the Federal Deposit Insurance Corporation (FDIC) policy regarding de novo depository institutions, which requires a Tier 1 (core) capital ratio of not less than 8% during its first three years of operations. As

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

of December 31, 2008, Ameriprise Bank's Tier 1 core capital dropped to 7.36%. Ameriprise Financial promptly provided additional capital to Ameriprise Bank in January 2009 to bring the Tier 1 core capital back above the 8% de novo requirement.

In addition to the particular regulations restricting dividend payments and establishing subsidiary capitalization requirements, we take into account the overall health of the business, capital levels and risk management considerations in determining a dividend strategy for payments to our company from our subsidiaries, and in deciding to use cash to make capital contributions to our subsidiaries. During the six months ended June 30, 2009, Ameriprise Financial, Inc. received cash dividends from and made cash contributions to subsidiaries of \$18 million and \$223 million, respectively. During the six months ended June 30, 2008, Ameriprise Financial, Inc. received cash dividends from and made cash contributions to subsidiaries of \$570 million and \$35 million, respectively. Of the dividends received during the six months ended June 30, 2008, \$400 million came from RiverSource Life.

Table of Contents

Share Repurchases, Debt Repurchases and Dividends Paid to Shareholders

We have a share repurchase program in place to return excess capital to shareholders. In light of the current market environment, we have temporarily suspended our stock repurchase program. We may resume activity under our stock repurchase program and begin repurchasing shares in the open market or in privately negotiated transactions from time to time without notice. We reserve the right to suspend any such repurchases and to resume later repurchasing at any time, and expressly disclaim any obligation to maintain or lift any such suspension.

In July 2009, we repurchased \$450 million aggregate principal amount of our 5.35% Senior Notes due November 15, 2010 pursuant to a cash tender offer. In the first half of 2009, we extinguished \$135 million principal amount of our junior notes and \$10 million principal amount of our Senior Notes due 2010. In the future, we may from time to time seek to retire or purchase additional outstanding debt through cash purchases in open market purchases, privately negotiated transactions or otherwise, without prior notice. Such repurchases, if any, will depend upon market conditions and other factors. The amounts involved could be material.

We paid regular quarterly cash dividends to our shareholders totaling \$74 million for the six months ended June 30, 2009. On July 23, 2009, our Board of Directors declared a regular quarterly cash dividend of \$0.17 per common share. The dividend will be paid on August 17, 2009 to our shareholders of record at the close of business on August 3, 2009.

Operating Activities

Net cash used in operating activities for the six months ended June 30, 2009 was \$1.6 billion compared to net cash provided by operating activities of \$202 million for the six months ended June 30, 2008, a decrease of \$1.8 billion. The decrease was primarily driven by a \$1.6 billion reduction in collateral held related to derivative instruments during the six months ended June 30, 2009.

Investing Activities

Our investing activities primarily relate to our Available-for-Sale investment portfolio. Further, this activity is significantly affected by the net flows of our investment certificate, fixed annuity and universal life products reflected in financing activities.

Net cash used in investing activities for the six months ended June 30, 2009 was \$5.3 billion compared to net cash provided by investing activities of \$362 million for the six months ended June 30, 2008, a decrease of \$5.7 billion. Cash used for purchases of Available-for-Sale securities increased \$8.5 billion and proceeds from sales and maturities, sinking fund payments and calls of Available-for-Sale securities increased \$2.7 billion compared to the prior year period, resulting in a \$5.8 billion decrease to cash.

Financing Activities

Net cash provided by financing activities for the six months ended June 30, 2009 was \$5.0 billion compared to net cash used in financing activities of \$1.0 billion for the six months ended June 30, 2008, an increase in cash of \$6.0 billion. Cash received from the issuance of our Senior Notes and common stock in June 2009 was \$491 million, net of issuance costs, and \$869 million, respectively. Net cash received from policyholder and contractholder account values increased \$3.5 billion compared to the prior year period primarily due to \$2.9 billion in higher net flows of fixed annuities as a result of clients' increased preference for short-term and fixed income investment products. Cash provided by the change in other banking deposits increased \$1.1 billion. Cash used for the repurchase of our common stock decreased \$531 million compared to the prior year period due to the temporary suspension of our repurchase program in light of the current market environment. These increases to cash were offset by \$87 million of cash used to extinguish certain of our junior notes and Senior Notes due 2010 in the first half of 2009.

Contractual Commitments

There have been no material changes in our contractual obligations disclosed in our 2008 10-K.

Off-Balance Sheet Arrangements

There have been no material changes in our off-balance sheet arrangements disclosed in our 2008 10-K.

Forward-Looking Statements

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

This report contains forward-looking statements that reflect management's plans, estimates and beliefs. Actual results could differ materially from those described in these forward-looking statements. The Company has made various forward-looking statements in this report. Examples of such forward-looking statements include:

- statements of the Company's plans, intentions, expectations, objectives or goals, including those relating to asset flows, mass affluent and affluent client acquisition strategy, client retention, financial advisor retention, recruiting and enrollments, general and administrative costs; consolidated tax rate, and excess capital position;
- other statements about future economic performance, the performance of equity markets and interest rate variations and the economic performance of the United States and of global markets; and
- statements of assumptions underlying such statements.

The words believe, expect, anticipate, optimistic, intend, plan, aim, will, may, should, could, would, likely and similar to identify forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from such statements.

Such factors include, but are not limited to:

- changes in the valuations, liquidity and volatility in the interest rate, credit default, equity market, and foreign exchange environments;
- changes in the litigation and regulatory environment, including ongoing legal proceedings and regulatory actions, the frequency and extent of legal claims threatened or initiated by clients, other persons and regulators, and developments in regulation and legislation;
- investment management performance and consumer acceptance of the Company's products;
- effects of competition in the financial services industry and changes in product distribution mix and distribution channels;
- the Company's capital structure, including indebtedness, limitations on subsidiaries to pay dividends, and the extent, manner, terms and timing of any share or debt repurchases management may effect as well as the opinions of rating agencies and other analysts and the reactions of market participants or the Company's regulators, advisors, distribution partners or customers in response to any change or prospect of change in any such opinion;
- risks of default by issuers or guarantors of investments the Company owns or by counterparties to hedge, derivative, insurance or reinsurance arrangements or by manufacturers of products the Company distributes, experience deviations from the Company's assumptions regarding such risks, the evaluations or the prospect of changes in evaluations of any such third parties published by rating agencies or other analysts, and the reactions of other market participants or the Company's regulators, advisors, distribution partners or customers in response to any such evaluation or prospect of changes in evaluation;
- experience deviations from the Company's assumptions regarding morbidity, mortality and persistency in certain annuity and insurance products, or from assumptions regarding market returns assumed in valuing DAC and DSIC or market volatility underlying our valuation and hedging of guaranteed living benefit annuity riders;
- changes in capital requirements that may be indicated, required or advised by regulators or rating agencies;
- the impacts of the Company's efforts to improve distribution economics and to grow third-party distribution of its products;

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 10-Q

- the Company's ability to realize the financial, operating and business fundamental benefits or to obtain regulatory approvals regarding integration we plan for the acquisitions we have completed;
- the ability and timing to realize savings and other benefits from reengineering and tax planning;
- changes in the capital markets and competitive environments induced or resulting from the partial or total ownership or other support by central governments of certain financial services firms or financial assets; and
- general economic and political factors, including consumer confidence in the economy, the ability and inclination of consumers generally to invest as well as their ability and inclination to invest in financial instruments and products other than cash and cash equivalents, the costs of products and services the Company consumes in the conduct of its business, and applicable legislation and regulation and changes therein, including tax laws, tax treaties, fiscal and central government treasury policy, and policies regarding the financial services industry and publicly-held firms, and regulatory rulings and pronouncements.

Management cautions the reader that the foregoing list of factors is not exhaustive. There may also be other risks that management is unable to predict at this time that may cause actual results to differ materially from those in forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. Management undertakes no obligation to update publicly or revise any forward-looking statements. The foregoing list of factors should be read in conjunction with the Risk Factors discussion included in Part 1, Item 1A of our 2008 10-K.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information set forth in Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations Market Risk and Management's Discussion and Analysis of Financial Condition and Results of Operations Credit Risk in this report is incorporated herein by reference. These disclosures should be read in conjunction with the Quantitative and Qualitative Disclosures About Market Risk discussion included as Part II, Item 7A of our Annual Report on Form 10-K for 2008 filed with the SEC on March 2, 2009.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our company maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) designed to provide reasonable assurance that the information required to be reported in the Exchange Act filings is recorded, processed, summarized and reported within the time periods specified and pursuant to SEC regulations, including controls and procedures designed to ensure that this information is accumulated and communicated to our management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosure. It should be noted that, because of inherent limitations, our company's disclosure controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the disclosure controls and procedures are met.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our company's Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective at a reasonable level of assurance as of June 30, 2009.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our company's internal control over financial reporting.

Table of Contents**AMERIPRISE FINANCIAL, INC.****PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

The information set forth in Note 12 to Consolidated Financial Statements in Part I, Item 1 is incorporated herein by reference.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors provided in Part I, Item 1A of our 2008 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents the information with respect to purchases made by or on behalf of Ameriprise Financial, Inc. or any affiliated purchaser (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934), of our common stock during the second quarter of 2009:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as part of Publicly Announced Plans or Programs(1)	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs(1)
April 1 to April 30, 2009				
Share repurchase program(1)		\$		\$ 1,304,819,604
Employee transactions(2)	2,111	\$ 21.07	N/A	N/A
May 1 to May 31, 2009				
Share repurchase program(1)		\$		\$ 1,304,819,604
Employee transactions(2)	803	\$ 28.04	N/A	N/A
June 1 to June 30, 2009				
Share repurchase program(1)		\$		\$ 1,304,819,604
Employee transactions(2)	2,245	\$ 27.23	N/A	N/A
Totals				
Share repurchase program		\$		
Employee transactions	5,159	\$ 24.83	N/A	
	5,159			

- (1) On April 22, 2008, we announced that our Board of Directors authorized us to repurchase up to \$1.5 billion worth of our common stock through April 22, 2010. The share repurchase program does not require the purchase of any minimum number of shares, and depending on market conditions and other factors, these purchases may be commenced or suspended at any time without prior notice. Acquisitions under the share repurchase program may be made in the open market, through block trades or other means. In light of the current market environment, we have temporarily suspended our stock repurchase program. We may resume activity under our stock repurchase program and begin repurchasing shares in the open market or in privately negotiated transactions from time to time without notice. The Company reserves the right to suspend any such repurchases and to resume later repurchasing at any time, and expressly disclaims any obligation to maintain or lift any such suspension.
- (2) Restricted shares withheld pursuant to the terms of awards under the amended and restated Ameriprise Financial 2005 Incentive Compensation Plan (the Plan) to offset tax withholding obligations that occur upon vesting and release of restricted shares. The Plan provides that the value of the shares withheld shall be the average of the high and low prices of common stock of Ameriprise Financial, Inc. on the date the relevant transaction occurs.

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

The Company's 2009 annual meeting of shareholders was held on April 22, 2009. The holders of 199,255,056 shares of common stock, which represents approximately 87 percent of the outstanding shares entitled to vote as of the record date of February 25, 2009, were represented at the meeting in person or by proxy.

At the meeting, the vote on the election of three Class I directors, each for a term of three years to expire at the 2012 annual meeting or until their successors are elected and qualified, was as follows:

Name	Votes For	Votes Against	Abstentions	Broker Non-Votes
Warren D. Knowlton	170,891,843	20,095,362	267,851	
Jeffrey Noddle	180,641,285	10,338,925	274,846	
Robert F. Sharpe, Jr.	166,592,968	24,384,367	277,721	

At the meeting, the vote on ratification of the Audit Committee's selection of Ernst & Young LLP as the Company's independent registered public accounting firm for 2009 was as follows:

Votes For	Votes Against	Abstentions	Broker Non-Votes
190,587,930	456,876	210,250	

The directors whose terms continued after the meeting, and the years their terms expire, are as follows:

Class II Directors	Class III Directors
Term Expires in 2010	Term Expires in 2011
James M. Cracchiolo	W. Walker Lewis
H. Jay Sarles	Siri S. Marshall
	William H. Turner

Ira D. Hall and Richard F. Powers, III, both of whom were Class I directors, elected not to stand for re-election at the 2009 annual meeting of shareholders. Therefore, the Board of Directors nominated Warren D. Knowlton and Robert F. Sharpe, Jr., both of whom were previously Class II directors, to stand for election as Class I directors.

EXHIBIT INDEX

Pursuant to the rules and regulations of the Securities and Exchange Commission, we have filed certain agreements as exhibits to this Quarterly Report on Form 10-Q. These agreements may contain representations and warranties by the parties. These representations and warranties have been made solely for the benefit of the other party or parties to such agreements and (i) may have been qualified by disclosures made to such other party or parties, (ii) were made only as of the date of such agreements or such other date(s) as may be specified in such agreements and are subject to more recent developments, which may not be fully reflected in our public disclosure, (iii) may reflect the allocation of risk among the parties to such agreements and (iv) may apply materiality standards different from what may be viewed as material to investors. Accordingly, these representations and warranties may not describe our actual state of affairs at the date hereof and should not be relied upon.

The following exhibits are filed as part of this Quarterly Report on Form 10-Q. The exhibit numbers followed by an asterisk (*) indicate exhibits electronically filed herewith. All other exhibit numbers indicate exhibits previously filed and are hereby incorporated herein by reference.

Exhibit	Description
3.1	Amended and Restated Certificate of Incorporation of Ameriprise Financial, Inc. (incorporated by reference to Exhibit 3.1 to the Current Report on Form 8-K, File No. 1-32525, filed on October 4, 2005).
