-

Item 2.02 Results of Operations and Financial Condition.

Item 7.01 Regulation FD Disclosure

On February 19, 2010, EnergySolutions, Inc. held a conference call to discuss a change in management and certain financial information. A copy of a transcript from the conference call is attached to this report as Exhibit 99.1 and incorporated in this report by this reference.

For purposes of the financial disclosure, the Company defines EBITDA as earnings before interest expense, income taxes, depreciation and amortization. The Company uses EBITDA to facilitate a comparison of its operating performance on a consistent basis from period to period that, when viewed with its GAAP results, management believes provides a more complete understanding of factors and trends affecting its business than GAAP measures alone. EBITDA assists management in comparing its operating performance on a consistent basis because it removes the impact of its capital structure (primarily interest charges), asset base (primarily depreciation and amortization) and items outside the control of its management team (taxes) from its results of operations. EBITDA should not be considered as a substitute for net income attributable to the Company or income from operations, as determined in accordance with GAAP. EBITDA is not defined by GAAP, and you should not consider it in isolation or as a substitute for analyzing the Company's results as reported under GAAP.

Exhibit 99.1 will not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liability of that section, nor will it be deemed incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934.

Item 9.01 Financial Statements and Exhibits

(d) Exhibits.
