Item 8.01 Other Events.

This Current Report on Form 8-K is being filed principally to reflect certain retrospective revisions that have been made to the consolidated financial statements of Caterpillar Inc. (the Company, we, our) that were previously filed with the Securities and Exchange Commission by the Company on February 22, 2011 as Exhibit 13 to its Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 Form 10-K) to reflect the change in reportable segments. The Company began reporting comparative results using the revised segment presentation effective with the filing of its Quarterly Report on Form 10-Q for the period ended March 31, 2011.

Additional detail follows for the business segment realignments:

In the first quarter of 2011, we implemented revised internal financial measurements in line with changes to our organizational structure that were announced during 2010. Our previous structure used a matrix organization comprised of multiple profit and cost center divisions. Previously, there were twenty-five operating segments of the Company, twelve of which were reportable segments. These segments were led by vice-presidents that were managed by the Company's Executive Office (comprised of our CEO and Group Presidents), which served as our Chief Operating Decision Maker. As part of the strategy revision, Group Presidents were given accountability for a related set of end-to-end businesses that they manage, a significant change for the Company. The CEO allocates resources and manages performance at the Group President level. As such, the CEO now serves as our Chief Operating Decision Maker and operating segments are primarily based on the Group President reporting structure.

Following this reorganization, three of our operating segments, Construction Industries, Resource Industries and Power Systems, are led by Group Presidents. One operating segment, Financial Products, is led by a Group President who has responsibility for Corporate Services. Corporate Services is a cost center primarily responsible for the performance of certain support functions globally and to provide centralized services; it does not meet the definition of an operating segment. One Group President leads three smaller operating segments that are included in All Other operating segments.

As a result, we revised our reportable segments beginning in the first quarter of 2011. The 2010, 2009, 2008, fourth-quarter 2010 and fourth-quarter 2009 financial information has been retrospectively revised to reflect the change in reportable segments.

Item 9.01 of this Current Report on Form 8-K revises certain information contained in the Company's 2010 Form 10-K to reflect these changes in reportable segments. In particular, Exhibit 99.1 contains a revised description of the Company's business segments, and Exhibit 99.2 contains a revised version of certain portions of Exhibit 13 to the 2010 Form 10-K, which includes revised financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations.
