AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

1. Organization and Significant Accounting Policies

Organization

AeroVironment, Inc., a Delaware corporation (the "Company"), is engaged in the design, development, production and support of unmanned aircraft systems and efficient energy systems for various industries and governmental agencies.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation with respect to the interim financial statements have been included. The results of operations for the three months ended July 30, 2011 are not necessarily indicative of the results for the full year ending April 30, 2012. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended April 30, 2011, included in AeroVironment, Inc.'s Annual Report on Form 10-K.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions, including estimates of anticipated contract costs and revenue utilized in the revenue recognition process, that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

The Company's consolidated financial statements include the assets, liabilities and operating results of wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Segments

The Company's products are sold and divided among two reportable segments to reflect the Company's strategic goals. Operating segments are defined as components of an enterprise from which separate financial information is available that is evaluated regularly by the Chief Operating Decision Maker ("CODM") in deciding how to allocate resources and in assessing performance. The Company's CODM is the Chief Executive Officer, who reviews the revenue and gross margin results for each of these segments in order to make resource allocation decisions, including

Edgar Filing: AeroVironment Inc - Form 10-Q

the focus of research and development (R&D) activities and assessing performance. The Company's reportable segments are business units that offer different products and services and are managed separately.

Investments

The Company's investments are accounted for as held-to-maturity and available-for-sale and reported at amortized cost and fair value, respectively.

Fair Values of Financial Instruments

Fair values of cash and cash equivalents, accounts receivable, unbilled receivables, retentions and accounts payable approximate cost due to the short period of time to maturity.

Government Contracts

Payments to the Company on government cost reimbursable contracts are based on provisional, or estimated indirect rates, which are subject to an annual audit by the Defense Contract Audit Agency (DCAA). The cost audits result in the negotiation and determination of the final indirect cost rates that the Company may use for the period(s) audited. The final rates, if different from the provisional billing rates, may create an additional receivable or liability for the Company.

Table of Contents

AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

For example, during the course of its audits, the DCAA may question the Company's incurred project costs, and if the DCAA believes the Company has accounted for such costs in a manner inconsistent with the requirements under Federal Acquisition Regulations, the DCAA auditor may recommend to the Company's administrative contracting officer to disallow such costs. The Company can provide no assurance that the DCAA or other government audits will not result in material disallowances for incurred costs in the future.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed using the weighted-average number of common shares outstanding, excluding shares of unvested restricted stock. The dilutive effect of potential common shares outstanding is included in diluted earnings per share and excludes any anti-dilutive effects of options and shares of unvested restricted stock.

The reconciliation of diluted to basic shares is as follows:

	Three Months Ended	
	July 30, 2011	July 31, 2010
Denominator for basic earnings (loss) per share:		
Weighted average common shares outstanding, excluding unvested restricted stock	21,724,053	21,545,870
Dilutive effect of employee stock options and unvested restricted stock	514,064	
Denominator for diluted earnings (loss) per share	22,238,117	21,545,870

During the three months ended July 30, 2011, certain shares reserved for issuance upon exercise of stock options and shares of unvested restricted stock were not included in the computation of diluted earnings per share because their inclusion would have been anti-dilutive. The number of shares reserved for issuance upon exercise of stock options and shares of unvested restricted stock that met this anti-dilutive criterion was approximately 19,000 for the three months ended July 30, 2011. Due to the net loss for the three months ended July 31, 2010, no shares reserved for issuance upon exercise of stock options or shares of unvested restricted stock were included in the computation of diluted loss per share as their inclusion would have been anti-dilutive.

Recently Issued Accounting Standards

In June 2011, the Financial Accounting Standards Board (FASB) issued accounting guidance which requires companies to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The new guidance eliminates the option to present the components of other comprehensive income as part of the statement of equity. The new guidance is effective for the Company's interim and

Edgar Filing: AeroVironment Inc - Form 10-Q

annual reporting periods beginning on May 1, 2012 and will be applied retrospectively, with early adoption permitted. The Company does not expect the adoption of this new guidance to have a material impact on the Company's consolidated financial statements, other than the change in presentation described in the new guidance.

In May 2011, the FASB issued accounting guidance to provide a consistent definition of fair value and to ensure that the fair value measurement and disclosure requirements are similar between generally accepted accounting principles in the United States and International Financial Reporting Standards. The new guidance changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The new guidance is effective for the Company's interim and annual reporting periods beginning on May 1, 2012 and will be applied prospectively. The Company is currently evaluating the potential impact of this adoption on its consolidated financial statements.

2. Investments

Investments consist of the following (in thousands):

	July 30, 2011	April 30, 2011
	(In thousands)	
Short-term investments:		
Held-to-maturity securities:		
U.S. Treasury bills	\$ 106,883	\$ 126,839
Total short-term investments	\$ 106,883	\$ 126,839
Long-term investments:		
Available-for-sale securities:		
Auction rate securities	\$ 6,154	\$ 6,275
Total long-term investments	\$ 6,154	\$ 6,275

[Table of Contents](#)
AeroVironment, Inc.
Notes to Consolidated Financial Statements (Unaudited)
Held-To-Maturity Securities

At July 30, 2011, the balance of held-to-maturity securities consisted of U.S. Treasury bills. Interest earned from these investments is recorded in interest income.

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of July 30, 2011, were as follows (in thousands):

	Amortized Cost		Gross Unrealized Gains		Gross Unrealized Losses		Fair Value
U.S. Treasury bills	\$	106,883	\$	16	\$	(9)	\$ 106,890
Total held-to-maturity investments	\$	106,883	\$	16	\$	(9)	\$ 106,890

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of April 30, 2011, were as follows (in thousands):

	Amortized Cost		Gross Unrealized Gains		Gross Unrealized Losses		Fair Value
U.S. Treasury bills	\$	126,839	\$	38	\$	(3)	\$ 126,874
Total held-to-maturity investments	\$	126,839	\$	38	\$	(3)	\$ 126,874

The amortized cost and fair value of the Company's held-to-maturity securities by contractual maturity at July 30, 2011, were as follows (in thousands):

	Cost		Fair Value
Due within one year	\$	106,883	\$ 106,890
Total	\$	106,883	\$ 106,890

Available-For-Sale Securities

Edgar Filing: AeroVironment Inc - Form 10-Q

As of July 30, 2011, the entire balance of available-for-sale securities consisted of four investment grade auction rate municipal bonds with maturities ranging from 8 to 23 years. These investments have characteristics similar to short-term investments, because at pre-determined intervals, generally ranging from 30 to 35 days, there is a new auction process at which the interest rates for these securities are reset to current interest rates. At the end of such period, the Company chooses to roll-over its holdings or redeem the investments for cash. A market maker facilitates the redemption of the securities and the underlying issuers are not required to redeem the investment within 365 days. Interest earned from these investments is recorded in interest income.

During the fourth quarter of the fiscal year ended April 30, 2008, the Company began experiencing failed auctions on some of its auction rate securities. A failed auction occurs when a buyer for the securities cannot be obtained and the market maker does not buy the security for its own account. The Company continues to earn interest on the investments that failed to settle at auction at the maximum contractual rate until the next auction occurs. In the event the Company needs to access funds invested in these auction rate securities, the Company may not be able to liquidate these securities at the fair value recorded on July 30, 2011, until a future auction of these securities is successful or a buyer is found outside of the auction process.

As a result of the failed auctions, the fair values of these securities are estimated utilizing a discounted cash flow analysis as of July 30, 2011. The analysis considers, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows, and the estimated date upon which the security is expected to have a successful auction.

Based on the Company's ability to access its cash and cash equivalents, expected operating cash flows, and other sources of cash, the Company does not anticipate the current lack of liquidity of these investments will affect its ability to operate the business in the ordinary course. The Company believes the current lack of liquidity of these investments is temporary and expects that the securities will be redeemed or refinanced at some point in the future. The Company will continue to monitor the value of its auction rate securities at each reporting period for a possible other-than-temporary impairment. The auction rate securities have been in an unrealized loss position for more than 12 months. The Company has the ability and the intent to hold these investments until a recovery of fair value, which may be at maturity, and as of July 30, 2011, it did not consider these investments to be other-than-temporarily impaired.

[Table of Contents](#)
AeroVironment, Inc.
Notes to Consolidated Financial Statements (Unaudited)

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the available-for-sale investments as of July 30, 2011, were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Auction rate securities	\$ 7,450	\$	\$ (1,296)	\$ 6,154
Total available-for-sale investments	\$ 7,450	\$	\$ (1,296)	\$ 6,154

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the available-for-sale investments as of April 30, 2011, were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Auction rate securities	\$ 7,575	\$	\$ (1,300)	\$ 6,275
Total available-for-sale investments	\$ 7,575	\$	\$ (1,300)	\$ 6,275

The amortized cost and fair value of the Company's auction rate securities by contractual maturity at July 30, 2011, were as follows (in thousands):

	Cost	Fair Value
Due after five through 10 years	\$ 1,925	\$ 1,722
Due after 10 years	5,525	4,432
Total	\$ 7,450	\$ 6,154

3. Inventories, net

Inventories consist of the following (in thousands):

	July 30, 2011	April 30, 2011
Raw materials	\$ 11,350	\$ 13,737

Edgar Filing: AeroVironment Inc - Form 10-Q

Work in process	9,664	7,994
Finished goods	18,570	17,647
Inventories, gross	39,584	39,378
Reserve for inventory obsolescence	(1,285)	(1,241)
Inventories, net	\$ 38,299	\$ 38,137

4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

- **Level 1** Inputs to the valuation based upon quoted prices (unadjusted) for identical assets or liabilities in active markets that are accessible as of the measurement date.

- **Level 2** Inputs to the valuation include quoted prices in either markets that are not active, or in active markets for similar assets or liabilities, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data.

- **Level 3** Inputs to the valuation that are unobservable inputs for the asset or liability.

[Table of Contents](#)
AeroVironment, Inc.
Notes to Consolidated Financial Statements (Unaudited)

The Company's financial assets measured at fair value on a recurring basis at July 30, 2011, were as follows (in thousands):

Description	Fair Value Measurement Using Significant			Total
	Quoted prices in active markets for identical assets (Level 1)	other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Auction rate securities	\$	\$	\$ 6,154	\$ 6,154
Total	\$	\$	\$ 6,154	\$ 6,154

Due to the auction failures of the Company's auction rate securities that began in the fourth quarter of fiscal 2008, there are still no quoted prices in active markets for identical assets as of July 30, 2011. Therefore, the Company has classified its auction rate securities as Level 3 financial assets. The following table provides a reconciliation between the beginning and ending balances of items measured at fair value on a recurring basis in the table above that used significant unobservable inputs (Level 3) (in thousands):

Description	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
	Auction Rate Securities	
Balance at April 30, 2011	\$	6,275
Transfers to Level 3		
Total gains (losses) (realized or unrealized)		
Included in earnings		
Included in other comprehensive income (loss)		4
Settlements		(125)
Balance at July 30, 2011	\$	6,154
The amount of total gains or (losses) for the period included in earnings (or change in net assets) attributable to the change in unrealized gains or losses relating to assets still held at July 30, 2011	\$	

The auction rate securities are valued using a discounted cash flow model. The analysis considers, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows, and the estimated date upon which the security is expected to have a successful auction.

Based on the Company's ability to access its cash and cash equivalents, expected operating cash flows, and other sources of cash, the Company does not anticipate the current lack of liquidity on these investments will affect its ability to operate the business in the ordinary course. The Company believes the current lack of liquidity of these investments is temporary and expects that the securities will be redeemed or refinanced

Edgar Filing: AeroVironment Inc - Form 10-Q

at some point in the future, allowing the Company to recover the original cost of \$7.5 million. The Company will continue to monitor the value of its auction rate securities at each reporting period for a possible other-than-temporary impairment.

5. Other Comprehensive Income (Loss)

The components of comprehensive income (loss) are as follows (in thousands):

	Three Months Ended	
	July 30, 2011	July 31, 2010
Net income (loss)	\$ 326	\$ (3,443)
Other comprehensive income, net of tax:		
Unrealized gains on long-term investments	2	14
Comprehensive income (loss)	\$ 328	\$ (3,429)

Table of Contents

AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

6. Warranty Reserves

The Company accrues an estimate of its exposure to warranty claims based upon both current and historical product sales data and warranty costs incurred. The warranty reserve is included in other current liabilities. The related expense is included in cost of sales. Warranty reserve activity is summarized as follows for the three months ended July 30, 2011 and July 31, 2010 (in thousands):

	Three Months Ended	
	July 30, 2011	July 31, 2010
Beginning balance	\$ 1,127	\$ 804
Warranty expense	352	216
Warranty costs incurred	(433)	(221)
Ending balance	\$ 1,046	\$ 799

7. Customer-Funded Research & Development

Customer-funded R&D costs are incurred pursuant to contracts (revenue arrangements) to perform R&D activities according to customer specifications. These costs are direct contract costs and are expensed to cost of sales when the corresponding revenue is recognized, which is generally as the R&D services are performed. Revenue from customer-funded R&D was approximately \$5.2 million and \$11.9 million for the three months ended July 30, 2011 and July 31, 2010, respectively.

8. Income Taxes

For the three months ended July 30, 2011 and July 31, 2010, the Company recorded a provision and (benefit) for income taxes of \$0.2 million and (\$3.7) million, respectively, yielding an effective tax rate of 35.7% and 52.1%, respectively. The variance from statutory rates for the three months ended July 31, 2010 was primarily due to a reduction in the liability for uncertain tax positions related to the conclusion of the examination of the Company's fiscal 2003 and 2004 tax returns. The examination concluded in May of 2010 and no change was required to the tax returns filed.

9. Segment Data

Edgar Filing: AeroVironment Inc - Form 10-Q

The Company's product segments are as follows:

- **Unmanned Aircraft Systems (UAS)** The UAS segment focuses primarily on the design, development, production and support of innovative UAS that provide situational awareness and other mission effects to increase the security and operational effectiveness of the Company's customers.
- **Efficient Energy Systems (EES)** The EES segment focuses primarily on the design, development, production and support of innovative efficient electric energy systems that address the growing demand for electric transportation solutions.

The accounting policies of the segments are the same as those described in Note 1, **Organization and Significant Accounting Policies**. The operating segments do not make sales to each other. Depreciation and amortization related to the manufacturing of goods is included in gross margin for the segments. The Company does not discretely allocate assets to its operating segments, nor does the CODM evaluate operating segments using discrete asset information. Consequently, the Company operates its financial systems as a single segment for accounting and control purposes, maintains a single indirect rate structure across all segments, has no inter-segment sales or corporate elimination transactions, and maintains limited financial statement information by segment.

AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

The segment results are as follows (in thousands):

	Three Months Ended	
	July 30, 2011	July 31, 2010
Revenue:		
UAS	\$ 52,205	\$ 33,447
EES	9,792	4,781
Total	61,997	38,228
Gross margin:		
UAS	20,205	10,370
EES	1,510	1,666
Total	21,715	12,036
Selling, general and administrative	13,700	11,371
Research and development	7,586	7,972
Income (loss) from operations	429	(7,307)
Interest income	78	121
Income (loss) before income taxes	\$ 507	\$ (7,186)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section and other parts of this Quarterly Report on Form 10-Q contain forward-looking statements that involve risks and uncertainties. In some cases, forward-looking statements can be identified by words such as anticipates, believes, could, estimates, expects, intends, may, potential, predicts, projects, should, will, would or similar expressions. Such forward-looking statements are based on current expectations, estimates and projections about our industry, our management's beliefs and assumptions made by our management. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part II, Item 1A, Risk Factors.

Unless required by law, we expressly disclaim any obligation to update publicly any forward-looking statements, whether as result of new information, future events or otherwise.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. When we prepare these consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Some of our accounting policies require that we make subjective judgments, including estimates that involve matters that are inherently uncertain. Our most critical estimates include those related to revenue recognition, inventories and reserves for excess and obsolescence, long-term investments, self-insured liabilities, accounting for stock-based awards, and income taxes. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for our judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our actual results may differ from these estimates under different assumptions or conditions.

There have been no material changes made to the critical accounting estimates during the periods presented in the consolidated financial statements from those disclosed in the Form 10-K for the fiscal year ended April 30, 2011.

Fiscal Periods

Due to our fixed year end date of April 30, our first and fourth quarters each consist of approximately 13 weeks. The second and third quarters each consist of exactly 13 weeks. Our first three quarters end on a Saturday. Our 2012 fiscal year ends on April 30, 2012 and our fiscal quarters end on July 30, 2011, October 29, 2011 and January 28, 2012.

Results of Operations

Our operating segments are Unmanned Aircraft Systems, or UAS, and Efficient Energy Systems, or EES. The accounting policies for each of these segments are the same. In addition, a significant portion of our research and development, or R&D, selling, general and administrative, or SG&A, and general overhead resources are shared across our segments.

Table of Contents

The following table sets forth our revenue and gross margin generated by each operating segment for the periods indicated (in thousands):

Three Months Ended July 30, 2011 Compared to Three Months Ended July 31, 2010

	Three Months Ended	
	July 30, 2011	July 31, 2010
Revenue:		
UAS	\$ 52,205	\$ 33,447
EES	9,792	4,781
Total	61,997	38,228
Gross margin:		
UAS	20,205	10,370
EES	1,510	1,666
Total	21,715	12,036
Selling, general and administrative	13,700	11,371
Research and development	7,586	7,972
Income (loss) from operations	429	(7,307)
Interest income	78	121
Income (loss) before income taxes	\$ 507	\$ (7,186)

Revenue. Revenue for the three months ended July 30, 2011 was \$62.0 million, as compared to \$38.2 million for the three months ended July 31, 2010, representing an increase of \$23.8 million, or 62%. UAS revenue increased by \$18.8 million to \$52.2 million for the three months ended July 30, 2011, primarily due to an increase in UAS product deliveries of \$12.8 million and service revenue of \$12.3 million, partially offset by a decrease in customer-funded R&D work of \$6.3 million. The increase in UAS product deliveries and service revenue was primarily due to increased deliveries of digital Puma All Environment unmanned aircraft systems, or Puma AE systems, and services in support of Puma AE systems. The decrease in customer-funded R&D work was primarily due to decreased activity on the Global Observer program. EES revenue increased by \$5.0 million to \$9.8 million for the three months ended July 30, 2011. The increase in EES revenue was primarily due to increased product deliveries of electric vehicle test systems, industrial electric vehicle charging systems, and passenger electric vehicle charging docks.

Cost of Sales. Cost of sales for the three months ended July 30, 2011 was \$40.3 million, as compared to \$26.2 million for the three months ended July 31, 2010, representing an increase of \$14.1 million, or 54%. The increase in cost of sales was caused primarily by increases in UAS cost of sales of \$8.9 million and EES cost of sales of \$5.2 million due to increased revenue.

Gross Margin. Gross margin for the three months ended July 30, 2011 was \$21.7 million, as compared to \$12.0 million for the three months ended July 31, 2010, representing an increase of \$9.7 million, or 80%. UAS gross margin increased \$9.8 million, or 95%, to \$20.2 million for the three months ended July 30, 2011. As a percentage of revenue, gross margin for UAS increased from 31% to 39% primarily due to the higher portion of revenue associated with fixed-price contracts compared to cost-reimbursable contracts. EES gross margin decreased \$0.2 million, or 9%, to \$1.5 million for the three months ended July 30, 2011. As a percentage of revenue, EES gross margin decreased from 35% to 15% primarily due to higher than expected program costs on Department of Defense related development contracts and transition costs related to initial low-rate production of several new electric vehicle charging systems.

Edgar Filing: AeroVironment Inc - Form 10-Q

Selling, General and Administrative. SG&A expense for the three months ended July 30, 2011 was \$13.7 million, or 22% of revenue, compared to SG&A expense of \$11.4 million, or 30% of revenue, for the three months ended July 31, 2010. SG&A expense increased \$2.3 million primarily due to higher marketing and business development costs and higher administrative infrastructure costs.

Research and Development. R&D expense for the three months ended July 30, 2011 was \$7.6 million, or 12% of revenue, compared to R&D expense of \$8.0 million, or 21% of revenue, for the three months ended July 31, 2010. R&D expense decreased \$0.4 million primarily due to lower investment in various UAS and EES technology development initiatives as they transitioned into production.

Interest Income. Interest income for the three months ended July 30, 2011 and July 31, 2010 remained unchanged at \$0.1 million.

Income Tax Expense. Our effective income tax expense rate was 35.7%, for the three months ended July 30, 2011, as compared to an income tax benefit rate of 52.1% for the three months ended July 31, 2010. The decrease in the tax rate was primarily due to a reduction in the liability for uncertain tax positions related to the conclusion of the examination of the Company's fiscal 2003 and 2004 tax returns that was recorded during the three months ended July 31, 2010, that resulted in a higher tax benefit rate. There was no such reduction in the liability for uncertain tax positions during the three months ended July 30, 2011.

Table of Contents

Backlog. We define funded backlog as unfilled firm orders for products and services for which funding currently is appropriated to us under the contract by the customer. As of July 30, 2011 and April 30, 2011, our funded backlog was approximately \$72.7 million and \$82.9 million, respectively.

In addition to our funded backlog, we also had unfunded backlog of \$192.6 million and \$230.8 million as of July 30, 2011 and April 30, 2011, respectively. We define unfunded backlog as the total remaining potential order amounts under cost reimbursable and fixed price contracts with multiple one-year options, and indefinite delivery indefinite quantity, or IDIQ, contracts. Unfunded backlog does not obligate the U.S. government to purchase goods or services. There can be no assurance that unfunded backlog will result in any orders in any particular period, if at all. Management believes that unfunded backlog does not provide a reliable measure of future estimated revenue under our contracts.

Because of possible future changes in delivery schedules and/or cancellations of orders, backlog at any particular date is not necessarily representative of actual sales to be expected for any succeeding period, and actual sales for the year may not meet or exceed the backlog represented. Our backlog is typically subject to large variations from quarter to quarter as existing contracts expire or are renewed, or new contracts are awarded. A majority of our contracts, specifically our IDIQ contracts, do not currently obligate the U.S. government to purchase any goods or services. Additionally, all U.S. government contracts included in backlog, whether or not funded, may be terminated at the convenience of the U.S. government.

Liquidity and Capital Resources

We currently have no material cash commitments, except for normal recurring trade payables, accrued expenses and ongoing research and development costs, all of which we anticipate funding through our existing working capital and funds provided by operating activities. The majority of our purchase obligations are pursuant to funded contractual arrangements with our customers. In addition, we do not currently anticipate significant investment in property, plant and equipment, and we believe that our existing cash, cash equivalents, cash provided by operating activities and other financing sources will be sufficient to meet our anticipated working capital, capital expenditure and debt service requirements, if any, during the next twelve months. There can be no assurance, however, that our business will continue to generate cash flow at current levels. If we are unable to generate sufficient cash flow from operations, then we may be required to sell assets, reduce capital expenditures or obtain additional financing. The global credit situation has imposed high levels of volatility and disruption in the capital markets, severely diminished liquidity and credit availability, and increased counterparty risk. Nevertheless, we anticipate that existing sources of liquidity and cash flows from operations will be sufficient to satisfy our cash needs for the foreseeable future.

Our primary liquidity needs are for financing working capital, investing in capital expenditures, supporting product development efforts, introducing new products and enhancing existing products and services, and promoting market acceptance and adoption of our products and services. Our future capital requirements, to a certain extent, are also subject to general conditions in or affecting the defense and electric vehicle industries and are subject to general economic, political, financial, competitive, legislative and regulatory factors that are beyond our control. Moreover, to the extent that existing cash, cash equivalents, cash from operations, and cash from short-term borrowing are insufficient to fund our future activities, we may need to raise additional funds through public or private equity or debt financing. To the extent we require additional funding, we cannot be certain that such funding will be available to us on acceptable terms, or at all. Although we are currently not a party to any agreement or letter of intent with respect to potential investment in, or acquisitions of, businesses, services or technologies, we may enter into these types of arrangements in the future, which could also require us to seek additional equity or debt financing.

Recent global market and economic conditions have been unprecedented and challenging with tighter credit conditions and recession in most major economies. As a result of these market conditions, the cost and availability of credit has been and may continue to be adversely affected

Edgar Filing: AeroVironment Inc - Form 10-Q

by illiquid credit markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led many lenders and institutional investors to reduce, and in some cases, cease to provide credit to businesses and consumers. These factors have led to a decrease in spending by businesses and consumers alike, and a corresponding decrease in global infrastructure spending. Continued turbulence in the U.S. and international markets and economies and prolonged declines in business and consumer spending may adversely affect our liquidity and financial condition, and the liquidity and financial condition of our customers, including our ability to access the capital markets to meet liquidity needs. In addition, we maintain significant amounts of cash and cash equivalents at one or more financial institutions that are in excess of federally insured limits. Given the current instability of financial institutions, we cannot be assured that we will not experience losses on these deposits.

Table of Contents

Our working capital requirements vary by contract type. On cost-plus-fee programs, we typically bill our incurred costs and fees monthly as work progresses, and therefore working capital investment is minimal. On fixed-price contracts, we typically are paid as we deliver products, and working capital is needed to fund labor and expenses incurred during the lead time from contract award until contract deliveries begin.

Cash Flows

The following table provides our cash flow data for the three months ended July 30, 2011 and July 31, 2010 (in thousands):

	Three Months Ended	
	July 30, 2011	July 31, 2010
	(Unaudited)	
Net cash provided by (used in) operating activities	\$ 1,456	\$ (5,254)
Net cash provided by investing activities	\$ 17,475	\$ 21,896
Net cash provided by financing activities	\$ 275	\$ 135

Cash Provided by Operating Activities. Net cash provided by operating activities for the three months ended July 30, 2011 increased by \$6.7 million to \$1.5 million, compared to net cash used in operating activities of \$5.2 million for the three months ended July 31, 2010. This increase in net cash provided by operating activities was primarily due to higher income of \$3.8 million and lower working capital needs of \$3.2 million.

Cash Provided by Investing Activities. Net cash provided by investing activities decreased by \$4.4 million to \$17.5 million for the three months ended July 30, 2011, compared to net cash provided by investing activities of \$21.9 million for the three months ended July 31, 2010. The decrease in net cash provided by investing activities was primarily due to lower net redemptions of investments of \$3.6 million and higher acquisitions of property and equipment of \$0.7 million.

Cash Provided by Financing Activities. Net cash provided by financing activities increased by \$0.2 million to \$0.3 million for the three months ended July 30, 2011, compared to \$0.1 million for the three months ended July 31, 2010. During the three months ended July 30, 2011, we received proceeds from stock option exercises of \$0.2 million.

Off-Balance Sheet Arrangements

During the first quarter, there were no material changes in our off-balance sheet arrangements or contractual obligations and commercial commitments from those disclosed in the Form 10-K for the fiscal year ended April 30, 2011.

Inflation

Our operations have not been, and we do not expect them to be, materially affected by inflation. Historically, we have been successful in adjusting prices to our customers to reflect changes in our material and labor costs.

New Accounting Standards

Please refer to Note 1 Organization and Significant Accounting Policies to our unaudited consolidated financial statements in Part I, Item 1 of this quarterly report for a discussion of new accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the ordinary course of business, we are exposed to various market risk factors, including fluctuations in interest rates, changes in general economic conditions, domestic and foreign competition, and foreign currency exchange rates.

Interest Rate Risk

It is our policy not to enter into interest rate derivative financial instruments. We do not currently have any significant interest rate exposure.

Table of Contents

Foreign Currency Exchange Rate Risk

Since a significant part of our sales and expenses are denominated in U.S. dollars, we have not experienced significant foreign exchange gains or losses to date, and do not expect to incur significant foreign exchange gains or losses in the future. We occasionally engage in forward contracts in foreign currencies to limit our exposure on non-U.S. dollar transactions.

ITEM 4. CONTROLS AND PROCEDURES

Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures.

Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and were operating at a reasonable assurance level.

Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting or in other factors identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during the quarter ended July 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not currently a party to any material legal proceedings. We are, however, subject to lawsuits from time to time in the ordinary course of business.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors disclosed under Part I, Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended April 30, 2011. Please refer to that section for disclosures regarding the risks and uncertainties related to our business.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. RESERVED

ITEM 5. OTHER INFORMATION

None.
