DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

We make forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 throughout this report. Whenever you read a statement that is not simply a statement of historical fact (such as when we describe what we believe, intend, plan, estimate, expect or anticipate will occur and other similar statements), you must remember that our expectations may not be achieved, even though we believe they are reasonable. We do not guarantee that any future transactions or events described herein will happen as described or that they will happen at all. You should read this report completely and with the understanding that actual future results may be materially different from what we expect. Whether actual events or results will conform with our expectations and predictions is subject to a number of risks and uncertainties.

The risks and uncertainties include, but are not limited to, the following:

General Risks Affecting Our Business

- We currently derive a substantial portion of our revenue from our two primary customers, DISH Network and Bell TV. The loss of, or a significant reduction in, orders from, or a decrease in selling prices of digital set-top boxes, transponder leasing, provision of digital broadcast services, and/or other products or services to DISH Network or Bell TV would significantly reduce our revenue and adversely impact our results of operations.
- Economic weakness, including high unemployment and reduced consumer spending, may adversely affect our ability to grow or maintain our business.
- If we are unable to properly respond to technological changes, our business could be significantly harmed.
- Certain of our sales to DISH Network could be terminated or substantially curtailed on short notice, which would have a detrimental effect on us.
- We may be required to raise and refinance indebtedness during unfavorable market conditions.
- We may experience significant financial losses on our existing investments.
- We may pursue acquisitions and other strategic transactions to complement or expand our business, which may not be successful and we may lose up to the entire value of our investment in these acquisitions and transactions.
- We may not be aware of certain foreign government laws or regulations or changes to them which could have a significant adverse impact on our business.
- Our international sales and operations are subject to applicable laws relating to trade, export controls and foreign corrupt practices, the violation of which could adversely affect our operations.
- Our business depends on certain intellectual property rights and on not infringing the intellectual property rights of others. The loss of or infringement of our intellectual property rights could have a significant adverse impact on our business.

- Any failure or inadequacy of our information technology infrastructure or those of our third-party service providers could harm our business.
- We are party to various lawsuits which, if adversely decided, could have a significant adverse impact on our business, particularly lawsuits regarding intellectual property.
- We have not been an independent company for a significant amount of time and we may be unable to make, on a timely or cost-effective basis, the changes necessary to operate as an independent company.
- We rely on key personnel and the loss of their services may negatively affect our businesses.
- We have substantial debt outstanding and may incur additional debt.

i

Table of Contents

Risks Affecting Our EchoStar Technologies Segment

- We depend on sales of digital set-top boxes for a substantial portion of our revenue and a decline in sales of our digital set-top boxes would have a material adverse effect on our financial position and results of operations.
- Our business may suffer if our customer base does not compete successfully with existing and emerging competition.
- Our future financial performance depends in part on our ability to penetrate new markets for digital set-top boxes.
- Component pricing may remain stable or be negatively affected by inflation, increased demand, decreased supply, or other factors, which could have a material adverse effect on our results of operations.
- The average selling price and gross margins of our digital set-top boxes has been decreasing and may decrease even further, which could negatively impact our financial position and results of operations.
- Our ability to sell our digital set-top boxes to other operators depends on our ability to obtain licenses to use the conditional access systems utilized by these other operators.
- Growth in our EchoStar Technologies segment likely requires expansion of our sales to international customers, and we may be unsuccessful in expanding international sales.
- If we are successful in growing sales of our digital set-top boxes to international customers, we may be subject to additional risks including, among other things, trade barriers and political instability abroad.
- The digital set-top box industry is extremely competitive.
- We expect to continue to face competition from new market entrants, principally located in Asia, that offer low cost set-top boxes.
- Our digital set-top boxes are highly complex and may experience quality or supply problems.
- If significant numbers of television viewers are unwilling to pay for pay-TV services that utilize digital set-top boxes, we may not be able to sustain our current revenue level.
- Our reliance on a single supplier or a limited number of suppliers for several components used in our digital set-top boxes could restrict production, result in higher digital set-top box costs and delay deliveries to customers.
- Our future growth depends on growing demand for advanced technologies.
- If the encryption and related security technology used in our digital set-top boxes is compromised, sales of our digital set-top boxes may decline.

Risks Affecting Our EchoStar Satellite Services and Hughes Segments

- We currently face competition from established competitors in the satellite service business and may face competition from others in the future.
- Our owned and leased satellites in orbit are subject to significant operational and environmental risks that could limit our ability to utilize these satellites.
- Our satellites have minimum design lives ranging from 12 to 15 years, but could fail or suffer reduced capacity before then.
- Our satellites under construction are subject to risks related to construction and launch that could limit our ability to utilize these satellites.
- Our business is subject to risks of adverse government regulation.
- Our business depends on Federal Communications Commission (FCC) licenses that can expire or be revoked or modified and applications for FCC licenses that may not be granted.
- Our use of certain satellites is often dependent on satellite coordination agreements, which may be difficult to obtain.
- Our dependence on outside contractors could result in delays related to the design, manufacture and launch of our new satellites, which could in turn adversely affect our operating results.

ii

Table of Contents

- We generally do not have commercial insurance coverage on the satellites we use and could face significant impairment charges if one of our uninsured satellites fails.
- We currently have unused satellite capacity in our EchoStar Satellite Services segment, and our results of operations may be materially adversely affected if we are not able to lease more of this capacity to third parties.
- The enterprise network communications industry is highly competitive. We may be unsuccessful in competing effectively against other terrestrial and satellite-based network providers in our enterprise groups.
- The consumer network communications market is highly competitive. We may be unsuccessful in competing effectively against fiber, Digital Subscriber Line (DSL), cable service providers and other satellite broadband providers in the consumer market.
- We are dependent upon third-party providers for components, manufacturing, installation services, and customer support services, and our results of operations may be materially adversely affected if any of these third-party providers fail to appropriately deliver the contracted goods or services.
- The failure to adequately anticipate the need for transponder capacity or the inability to obtain transponder capacity for our Hughes segment could harm our results of operations.
- If our products contain defects, we could be subject to significant costs to correct such defects and our product and network service contracts could be delayed or cancelled, which could adversely affect our revenues.
- We may face difficulties in accurately assessing and collecting contributions towards the Universal Service Fund.
- Our foreign operations expose us to regulatory risks and restrictions not present in our domestic operations.
- Although we expect that the Hughes Acquisition (as defined below) will benefit us, those expected benefits may not occur because of the complexity of integration and other challenges.

Other Risks

- We may have potential conflicts of interest with DISH Network due to our common ownership and management.
- We cannot assure you that there will not be deficiencies leading to material weaknesses in our internal control over financial reporting.
- It may be difficult for a third party to acquire us, even if doing so may be beneficial to our shareholders, because of our capital structure.
- We are controlled by one principal stockholder who is our Chairman.
- We may face other risks described from time-to-time in periodic and current reports we file with the Securities and Exchange Commission (SEC).

All cautionary statements made herein should be read as being applicable to all forward-looking statements wherever they appear. Investors should consider the risks described herein and should not place undue reliance on any forward-looking statements. We assume no responsibility for updating forward-looking information contained or incorporated by reference herein or in other reports we file with the SEC.

In this report, the words EchoStar, the Company, we, our and us refer to EchoStar Corporation and its subsidiaries, unless the context otherwrequires. DISH Network refers to DISH Network Corporation and its subsidiaries, unless the context otherwise requires.

ECHOSTAR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Organization and Business Activit	ies
---	-----

Principal Business

We were organized in October 2007 as a corporation under the laws of the State of Nevada. EchoStar Corporation is a holding company (together with its subsidiaries, EchoStar, the Company, we, us and/or our). On June 8, 2011, we acquired all of the outstanding equity of Hughes Communications, Inc. (the Hughes Acquisition). Following the Hughes Acquisition, we operate three primary business segments.

- *EchoStar Technologies* which designs, develops and distributes digital set-top boxes and related products and technology, including our Slingbox placeshifting technology, primarily for satellite TV service providers, telecommunication and international cable companies and, with respect to Slingboxes, directly to consumers via retail outlets. Our EchoStar Technologies segment also provides digital broadcast operations including satellite uplinking/downlinking, transmission services, signal processing, conditional access management and other services primarily to DISH Network.
- *EchoStar Satellite Services* which uses 10 of our 11 owned and leased in-orbit satellites and related Federal Communications Commission (FCC) licenses to lease capacity on a full-time and occasional-use basis primarily to DISH Network, and secondarily to Dish Mexico, S. de R.L. de C.V. (Dish Mexico), United States government service providers, state agencies, Internet service providers, broadcast news organizations, programmers and private enterprise customers.
- *Hughes* which provides satellite broadband Internet access to North American consumers and broadband network services and systems to the domestic and international enterprise markets. Hughes also provides managed services to large enterprises and networking systems solutions to customers for mobile satellite and wireless backhaul systems. Hughes became a new segment as a result of the Hughes Acquisition and the operating results of Hughes Communications, Inc. and its subsidiaries (Hughes Communications) are included in our results effective June 9, 2011. See Note 11 for further discussion of the Hughes Acquisition.

Effective January 1, 2008, DISH Network completed its distribution to us (the Spin-off) of its digital set-top box business and certain infrastructure and other assets, including certain of its satellites, uplink and satellite transmission assets, real estate and other assets and related liabilities. Since the Spin-off, we and DISH Network have operated as separate publicly-traded companies, and neither entity has any ownership interest in the other. However, a substantial majority of the voting power of the shares of both companies is owned beneficially by Charles W. Ergen, our Chairman, or by certain trusts established by Mr. Ergen for the benefit of his family.

Note 2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The following (a) condensed balance sheet as of December 31, 2011, which has been derived from our audited financial statements, and (b) unaudited interim condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and with the instructions to Form 10-Q and Article 10 of Regulation S-X for interim financial information. Accordingly, these financial statements do not include all of the information and notes required for complete financial statements prepared under GAAP. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Our results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the full year. For further information, refer to the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the year ended

(Unaudited)

December 31, 2011 (2011 10-K). Certain prior period amounts have been reclassified to conform to the current period presentation.

Our Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) for the three and six months ended June 30, 2011 include the operating results of Hughes Communications after June 8, 2011, the date of the Hughes Acquisition.

Principles of Consolidation

We consolidate all majority owned subsidiaries, investments in entities in which we have controlling influence and variable interest entities where we are the primary beneficiary. Non-majority owned investments are accounted for using the equity method when we have the ability to significantly influence the operating decisions of the investee. When we do not have the ability to significantly influence the operating decisions of an investee, the cost method is used. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense for each reporting period. Estimates are used in accounting for, among other things, deferred revenue and deferred subscriber acquisition cost amortization periods, percentage-of-completion related to revenue recognition, allowances for doubtful accounts, allowances for sales returns/rebates, warranty obligations, self-insurance obligations, deferred taxes and related valuation allowances, uncertain tax positions, loss contingencies, fair value of financial instruments, fair value of options granted under our stock-based compensation plans, fair value of assets and liabilities acquired in business combinations, capital leases, asset impairments, useful lives of property, equipment and intangible assets, and royalty obligations. Weakened economic conditions may increase the inherent uncertainty in the estimates and assumptions indicated above. We base our estimates and assumptions on historical experience and on various other factors that we believe to be reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, actual results may differ from previously estimated amounts, and such differences may be material to our Condensed Consolidated Financial Statements. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected prospectively in the period they occur.

Fair Value Measurements

We determine fair value based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. Market or observable inputs are the preferred source of values, followed by unobservable inputs or assumptions based on hypothetical transactions in the absence of market inputs. We apply the following hierarchy in determining fair value:

- Level 1, defined as observable inputs being quoted prices in active markets for identical assets;
- Level 2, defined as observable inputs other than quoted prices included in Level 1, including quoted prices for similar assets and
 liabilities in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived
 valuations in which significant inputs and significant value drivers are observable in active markets; and

5

ECHOSTAR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS Continued

(Unaudited)

Level 3, defined as unobservable inputs for which little or no market data exists, consistent with reasonably available assumptions
made by other participants therefore requiring assumptions based on the best information available.

As of June 30, 2012 and December 31, 2011, the carrying value of our cash and cash equivalents, current marketable investment securities, trade accounts receivable, net of allowance for doubtful accounts, and accrued liabilities were equal to or approximated fair value due to their short-term nature or proximity to current market rates.

Fair values for our publicly traded debt securities are based on quoted market prices. The fair value of our private debt is estimated based on an analysis in which we evaluate market conditions, related securities, various public and private offerings, and other publicly available information. In performing this analysis, we make various assumptions regarding, among other things, credit spreads, and the impact of these factors on the value of the notes. See Note 9 for the fair value of our long-term debt.

We use fair value measurements from time-to-time in connection with impairment testing and the assignment of purchase consideration to assets and liabilities of acquired companies. Those fair value measurements typically include significant unobservable inputs and are categorized within Level 3 of the fair value hierarchy.

Note 3. Basic and Diluted Net Income (Loss) Per Share

We present both basic earnings per share (EPS) and diluted EPS. Basic EPS excludes potential dilution and is computed by dividing Net income (loss) attributable to EchoStar by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if stock awards were exercised.

The potential dilution from stock awards was computed using the treasury stock method based on the average market value of our Class A common stock. The following table presents EPS amounts for all periods and the basic and diluted weighted-average shares outstanding used in the calculation.

		For the Three Months Ended June 30,			For the Six Mont Ended June 30,				
	2012 2011		2012 pt per share amounts)			2011			
			(111)	mousanus except	per sna	i e amounts)			
Net income (loss) attributable to EchoStar	\$	35,682	\$	18,482	\$	162,270	\$	35,646	

Weighted-average common shares outstanding - Class A and B common stock:

Class A and B common stock:				
Basic	87,127	86,314	86,905	85,893
Dilutive impact of stock awards outstanding	687	1,383	696	1,283
Diluted	87,814	87,697	87,601	87,176
Earnings per share - Class A and B common				
stock:				
Basic net income (loss) per share attributable to				
EchoStar	\$ 0.41	\$ 0.21	\$ 1.87	\$ 0.42
Diluted net income (loss) per share attributable to				
EchoStar	\$ 0.41	\$ 0.21	\$ 1.85	\$ 0.41

As of June 30, 2012 and 2011, there were stock awards to purchase 5.6 million and 3.1 million shares, respectively, of our Class A common stock outstanding, not included in the weighted-average common shares outstanding above, as their effect is anti-dilutive.

ECHOSTAR CORPORATION

(Unaudited)

Vesting of options and rights to acquire shares of our Class A common stock granted pursuant to a performance-based stock incentive plan (Restricted Performance Units) is contingent upon meeting a certain company goal which was not probable of being achieved as of June 30, 2012 and 2011. As a result, the following awards were outstanding and were not included in the diluted EPS calculation.

	As of June 30,				
	2012	2011			
	(In thousands)				
Performance-based options	636	676			
Restricted Performance Units	66	90			
Total	702	766			

Note 4. Other Comprehensive Income (Loss) and Related Tax Effects

We have not recognized any tax effects on foreign currency translation adjustments because they are not expected to result in future taxable income or deductions. We have not recognized any tax effects on unrealized gains or losses on available-for-sale securities to the extent the gains or losses would affect the amount of existing capital loss carryforwards for which the related deferred tax asset has been fully offset by a valuation allowance.

Note 5. Marketable Investment Securities, Restricted Cash and Cash Equivalents, and Other Investment Securities

ECHOSTAR CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS Continued

(Unaudited)

Marketable Investment Securities
Our marketable investment securities portfolio consists of various debt and equity instruments, all of which are classified as available-for-sale.
Variable rate demand notes (VRDNs)
VRDNs are long-term floating rate municipal bonds with embedded put options that allow the bondholder to sell the security at par plus accrued interest. All of the put options are secured by a pledged liquidity source. Our VRDN portfolio is comprised of investments in many municipalities, which are backed by financial institutions or other highly rated companies that serve as the pledged liquidity source. While they are classified as marketable investment securities, the put option allows VRDNs to be liquidated generally on a same day or on a five business day settlement basis.
Strategic
Our current strategic marketable investment securities are highly speculative and have experienced and continue to experience volatility. As of June 30, 2012 and December 31, 2011, a significant portion of our strategic investment portfolio consisted of securities of several issuers and a significant portion of the value of that portfolio depends on the value of those issuers.
Other
Our other current marketable investment securities portfolio includes investments in various debt instruments including corporate and government bonds.
Restricted Cash and Marketable Investment Securities

As of June 30, 2012 and December 31, 2011, our restricted marketable investment securities, together with our restricted cash, included amounts required as collateral for our letters of credit or surety bonds.

Marketable and Other Investment Securities Noncurrent

We have several strategic investments in certain equity securities that are accounted for using either the equity or the cost method of accounting. Our ability to realize value from our strategic investments in companies that are not publicly traded depends on the success of those companies businesses and their ability to obtain sufficient capital to execute their business plans. Because private markets are not as liquid as public markets, there is also increased risk that we will not be able to sell these investments, or that when we desire to sell them we will not be able to obtain fair value for them.

Realized Gains on Marketable Investment Securities and Other Investments

We recognized realized gains on our marketable investment securities and other investments of \$0.2 million and \$9.0 million for the three months ended June 30, 2012 and 2011, respectively, and \$128.2 million and \$9.7 million for the six months ended June 30, 2012 and 2011, respectively.

Unrealized Gains (Losses) on Marketable Investment Securities

The components of our available-for-sale investments are summarized in the table below.

								1	As of							
	June 30, 2012									December 31, 2011						
	Marketable Investment Securities		Unrealized Gains Losses			Marketable Investment Net Securities (In thousands)		Gains		Unrealized Losses			Net			
Debt securities:																
VRDNs	\$	62,295	\$		\$		\$		\$	218,665	\$		\$		\$	
Other (including																
restricted)		785,122		506		(707)		(201)		651,591		253		(2,715)		(2,462)
Equity securities -																
strategic		120,187		87,733				87,733		216,090		182,214				182,214
Total marketable investment																
securities	\$	967,604	\$	88,239	\$	(707)	\$	87,532	\$	1,086,346	\$	182,467	\$	(2,715)	\$	179,752

As of June 30, 2012, restricted and non-restricted marketable investment securities included debt securities of \$737 million with contractual maturities of one year or less and \$110 million with contractual maturities greater than one year. We may realize proceeds from certain investments prior to contractual maturity as a result of our ability to sell these securities prior to their contractual maturity.

Marketable Investment Securities in a Loss Position

The following table reflects the length of time that our available-for-sale debt securities have been in an unrealized loss position. We do not intend to sell these debt securities before they recover, and it is more likely than not that we will hold these debt securities until they recover or mature. In addition, we are not aware of any specific factors indicating that the underlying issuers of these debt securities would not be able to pay interest as it becomes due or repay the principal at maturity. Therefore, we believe that these changes in the estimated fair values of these debt securities are primarily related to temporary market fluctuations.

As of June 30, 2012 December 31, 2011

Fair Value Measurements

Our current marketable investment securities were measured at fair value on a recurring basis as summarized in the table below. As of June 30, 2012 and December 31, 2011, we did not have investments that were classified as Level 3 of the fair value hierarchy.

		In	ne 30, 2012	A	s of		December 31, 2011			
	Total	Level 1		Level 2 (In tho	Total thousands)			Level 1	Level 2	
Cash equivalents (including				,						
restricted)	\$ 544,500	\$	16,027	\$ 528,473	\$	543,243	\$	16,197	\$	527,046
Debt securities:										
VRDNs	\$ 62,295	\$		\$ 62,295	\$	218,665	\$		\$	218,665
Other (including restricted)	785,122			785,122		651,591				651,591
Equity securities - strategic	120,187		120,187			216,090		216,090

securities	\$ 967,604	\$	120,187	\$ 847,417	\$	1,086,346	\$	216,090	\$	870,256

As of June 30, 2012, we did not have investments that were accounted for using fair value method. During the six months ended June 30, 2011, we held investments that were accounted for using the fair value method, which reported realized and unrealized gains and losses in Unrealized/realized gains (losses) on investments accounted for at fair value, net in our Condensed Consolidated Statements of Operations and Comprehensive Income (Loss). Certain unrealized gains and losses on investments accounted for using the fair value method were based on fair value measurements categorized within Level 3 of the fair value hierarchy. Changes in such investments for the six months ended June 30, 2011 were as follows:

	(I	Amount n thousands)
Balance as of December 31, 2010	\$	608,955
Net unrealized gains included in earnings		3,507
Purchases		37,589
Issuances		24,807
Balance as of June 30, 2011	\$	674,858

Investment in TerreStar

In February 2008, we completed several transactions under a Master Investment Agreement between us, TerreStar Corporation and TerreStar Networks Inc. (TerreStar). Under the Master Investment Agreement, we acquired, among other things, \$50 million in aggregate principal amount of TerreStar s 6 1/2% Senior Exchangeable Paid-in-Kind Notes due June 15, 2014 (Exchangeable Notes). TerreStar and certain of its affiliates filed for bankruptcy protection under Chapter 11 of the United States Bankruptcy Code on October 19, 2010. The United States Bankruptcy Court for the Southern District of New York confirmed TerreStar s Chapter 11 plan of reorganization (the TerreStar Plan) on February 15, 2012.

Effective March 29, 2012, the Exchangeable Notes were cancelled pursuant to the TerreStar Plan. In satisfaction of our claims against TerreStar under the Exchangeable Notes, we have a right to receive a distribution, along with other general unsecured creditors, in accordance with the terms of the TerreStar Plan. The amount of any distribution we ultimately receive will vary depending upon and will be impacted by, among other things, the outcome of any claim objections, and will be substantially less than the amount we paid for the Exchangeable Notes. Any proceeds received on this investment will be recognized in Unrealized/realized gains (losses) on investments accounted for at fair value, net on our Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) and will directly impact our profitability. As of June 30, 2012, we had no investment in TerreStar.
