Changes to the preliminary prospectus supplement

The first paragraph under the caption "Use of proceeds" appearing on page S-43 of the preliminary prospectus supplement is amended and restated in its entirety as follows:

We estimate that the net proceeds from this offering will be approximately \$391.0 million after deducting underwriting discounts and commissions and our estimated expenses related to this offering. We intend to use the net proceeds of this offering (1) to pay the cash consideration required to purchase the September 2015 Notes and the December 2029 Notes tendered in connection with the Exchange Offers for any and all of our outstanding September 2015 Notes and December 2029 Notes if we commence the Exchange Offers, depending on market conditions and other factors, including the payment of any applicable accrued and unpaid interest on such September 2015 Notes and December 2029 Notes, (2) to repay all amounts outstanding under our existing revolving credit facility and (3) to pay related fees and expenses. Any proceeds we are unable to use in the manner described above, due to market conditions or otherwise, or any excess proceeds after those uses may be used to tender for, redeem or repurchase any of the September 2015 Notes or December 2029 Notes that remain outstanding and/or for general corporate purposes. Pending the use of any proceeds, we may invest the net proceeds of this offering in money-market type funds.

The issuer has filed a registration statement (including a prospectus supplement and accompanying prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus supplement and the accompanying prospectus in that registration statement and other documents the issuer has filed with the SEC for more complete information about
