THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Basis of Presentation

The interim consolidated financial statements include the accounts of The Travelers Companies, Inc. (together with its subsidiaries, the Company). These financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP) and are unaudited. In the opinion of the Company s management, all adjustments necessary for a fair presentation have been reflected. Certain financial information that is normally included in annual financial statements prepared in accordance with GAAP, but that is not required for interim reporting purposes, has been omitted. All material intercompany transactions and balances have been eliminated. The accompanying interim consolidated financial statements and related notes should be read in conjunction with the Company s consolidated financial statements and related notes included in the Company s 2012 Annual Report on Form 10-K.

The preparation of the interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and claims and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of Accounting Standards Updates

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (FASB) issued updated guidance to improve the reporting of reclassifications out of accumulated other comprehensive income. The guidance requires an entity to present, either on the face of the statement of income or in the notes, separately for each component of comprehensive income, the current period reclassifications out of accumulated other comprehensive income by the respective line items of net income affected by the reclassification.

The updated guidance is effective prospectively for reporting periods beginning after December 15, 2012. The Company adopted the updated guidance effective March 31, 2013, and such adoption did not have any effect on the Company s results of operations, financial position or liquidity.

Accounting Standard Not Yet Adopted

Parent s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity

In March 2013, the FASB issued updated guidance to resolve diversity in practice concerning the release of the cumulative foreign currency translation adjustment into net income when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity. When a company ceases to have a controlling financial interest in a subsidiary within a foreign entity, the company should recognize any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary had resided. Upon the partial sale of an equity method investment that is a foreign entity, the company should release into earnings a pro rata portion of the cumulative translation adjustment. Upon the partial sale of an equity method investment that is not a foreign entity, the company should release into earnings the cumulative translation adjustment if the partial sale represents a complete or substantially complete liquidation of the foreign entity that holds the equity method investment. The updated guidance is effective for the quarter ending March 31, 2014. Early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company s results of operations, financial position or liquidity.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), (Continued)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES, Continued

Nature of Operations

The Company is organized into three reportable business segments: Business Insurance; Financial, Professional & International Insurance; and Personal Insurance. These segments reflect the manner in which the Company s businesses are currently managed and represent an aggregation of products and services based on type of customer, how the business is marketed and the manner in which risks are underwritten. The specific business segments are as follows:

Business Insurance

The Business Insurance segment offers a broad array of property and casualty insurance and insurance-related services to its clients primarily in the United States. Business Insurance is organized into the following six groups, which collectively comprise Business Insurance Core operations: Select Accounts; Commercial Accounts; National Accounts; Industry-Focused Underwriting; Target Risk Underwriting; and Specialized Distribution.

Business Insurance also includes the Special Liability Group (which manages the Company s asbestos and environmental liabilities) and the assumed reinsurance and certain other runoff operations, which collectively are referred to as Business Insurance Other.

Financial, Professional & International Insurance

The Financial, Professional & International Insurance segment includes surety and financial liability coverages, which primarily use credit-based underwriting processes, as well as property and casualty products that are primarily marketed on a domestic basis in the United Kingdom, Canada and the Republic of Ireland, and on an international basis through Lloyd s. The segment includes Bond & Financial Products as well as International. In addition, the Company owns 49.5% of the common stock of J. Malucelli Participações em Seguros e Resseguros S.A. (JMalucelli), its joint venture in Brazil. JMalucelli is currently the market leader in surety in Brazil based on market share, and commenced writing other property and casualty insurance business in 2012. The Company s investment in JMalucelli is accounted for using the equity method and is included in other investments on the consolidated balance sheet.

On June 10, 2013, the Company entered into a definitive agreement to acquire all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (The Dominion) from E-L Financial Corporation Limited (E-L Financial) for an aggregate purchase price of C$1.125 billion (approximately US$1.092 billion at September 30, 2013), subject to adjustment to reflect changes in shareholder s equity prior to the closing, including a downward adjustment to reflect an anticipated pre-closing dividend. The purchase price is expected to be funded through a combination of internal funds and proceeds from the Company s issuance of senior debt. While the Company has not received final regulatory approvals for its acquisition of The Dominion, the Company expects to receive the remaining approvals and, subject to the satisfaction of customary closing conditions, to close the transaction in the fourth quarter of 2013. The Dominion primarily markets personal lines and small commercial insurance business in Canada. The results of operations of the acquired business will be reported in the Company s Financial, Professional & International Insurance segment from the date of closing.

Personal Insurance

The Personal Insurance segment writes a broad range of property and casualty insurance covering individuals personal risks. The primary products of automobile and homeowners insurance are complemented by a broad suite of related coverages.

3. INVESTMENTS, Continued

Derivative Financial Instruments

From time to time, the Company enters into U.S. Treasury futures contracts to modify the effective duration of specific assets within the investment portfolio. U.S. Treasury futures contracts require a daily mark-to-market and settlement with the broker. At September 30, 2013 and December 31, 2012, the Company had $0 and $800 million notional value of open U.S. Treasury futures contracts, respectively. Net realized investment gains (losses) in the three months ended September 30, 2013 and 2012 included net gains of $0 and net losses of $8 million, respectively, related to U.S. Treasury futures contracts. Net realized investment gains (losses) in the nine months ended September 30, 2013 and 2012 included net gains of $115 million and net losses of $15 million, respectively, related to U.S. Treasury futures contracts.

4. FAIR VALUE MEASUREMENTS

The Company s estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company s significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 **-** Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.

- Level 2 **-** Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

• Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company s own assumptions about the inputs that market participants would use.

Valuation of Investments Reported at Fair Value in Financial Statements

The fair value of a financial instrument is the estimated amount at which the instrument could be exchanged in an orderly transaction between knowledgeable, unrelated, willing parties, i.e., not in a forced transaction. The estimated fair value of a financial instrument may differ from the amount that could be realized if the security was sold in an immediate sale, e.g., a forced transaction. Additionally, the valuation of investments is more subjective when markets are less liquid due to the lack of market based inputs, which may increase the potential that the estimated fair value of an investment is not reflective of the price at which an actual transaction would occur.

For investments that have quoted market prices in active markets, the Company uses the unadjusted quoted market prices as fair value and includes these prices in the amounts disclosed in Level 1 of the hierarchy. The Company receives the quoted market prices from a third party, nationally recognized pricing service (pricing service). When quoted market prices are unavailable, the Company utilizes a pricing service to determine an estimate of fair value, which is mainly used for its fixed maturity investments. The fair value estimates provided from this pricing service are included in the amount disclosed in Level 2 of the hierarchy. If quoted market prices and an estimate from a pricing service are unavailable, the Company produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. The Company bases all of its estimates of fair value for assets on the bid price as it represents what a third-party market participant would be willing to pay in an arm s length transaction.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

4. FAIR VALUE MEASUREMENTS, Continued

Fixed Maturities

The Company utilized a pricing service to estimate fair value measurements for approximately 98% of its fixed maturities at both September 30, 2013 and December 31, 2012. The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and industry and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities, additional inputs may be necessary.

The pricing service utilized by the Company has indicated that it will only produce an estimate of fair value if there is objectively verifiable information to produce a valuation. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities, other than U.S. Treasury securities, provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy. The estimated fair value of U.S. Treasury securities is included in the amount disclosed in Level 1 as the estimates are based on unadjusted market prices.

The Company also holds certain fixed maturity investments which are not priced by the pricing service and, accordingly, estimates the fair value of such fixed maturities using an internal matrix that is based on market information regarding interest rates, credit spreads and liquidity. The underlying source data for calculating the matrix of credit spreads relative to the U.S. Treasury curve are the BofA Merrill Lynch U.S. Corporate Index and the BofA Merrill Lynch High Yield BB Rated Index. The Company includes the fair value estimates of these corporate bonds in Level 2, since all significant inputs are market observable.

While the vast majority of the Company s municipal bonds and corporate bonds are included in Level 2, the Company holds a number of municipal bonds and corporate bonds which are not valued by the pricing service and estimates the fair value of these bonds using an internal pricing matrix with some unobservable inputs that are significant to the valuation. Due to the limited amount of observable market information, the Company includes the fair value estimates for these particular bonds in Level 3. The fair value of the fixed maturities for which the Company used an internal pricing matrix was $103 million at September 30, 2013 and $102 million at December 31, 2012. Additionally, the Company holds a small amount of other fixed maturity investments that have characteristics that make them unsuitable for matrix pricing. For these fixed maturities, the Company obtains a quote from a broker (primarily the market maker). The fair value of the fixed maturities for which the Company received a broker quote was $150 million and $128 million at September 30, 2013 and December 31, 2012, respectively. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3.

Equities Public Common and Preferred

For public common and preferred stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1. When current market quotes in active markets are unavailable for certain non-redeemable preferred stocks held by the Company, the Company receives an estimate of fair value from the pricing service that provides fair value estimates for the Company s fixed maturities. The service utilizes some of the same methodologies to price the non-redeemable preferred stocks as it does for the fixed maturities. The Company includes the fair value estimate for these non-redeemable preferred stocks in the amount disclosed in Level 2.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

4. FAIR VALUE MEASUREMENTS, Continued

Other Investments

The Company holds investments in various publicly-traded securities which are reported in other investments. These investments include securities in the Company s trading portfolio, mutual funds and other small holdings. The $18 million and $46 million fair value of these investments at September 30, 2013 and December 31, 2012, respectively, was disclosed in Level 1. At September 30, 2013 and December 31, 2012, the Company held investments in non-public common and preferred equity securities, with fair value estimates of $32 million and $54 million, respectively, reported in other investments, where the fair value estimate is determined either internally or by an external fund manager based on recent filings, operating results, balance sheet stability, growth and other business and market sector fundamentals. Due to the significant unobservable inputs in these valuations, the Company includes the total fair value estimate for all of these investments at September 30, 2013 and December 31, 2012 in the amount disclosed in Level 3.

Derivatives

At September 30, 2013 and December 31, 2012, the Company held $20 million and $21 million, respectively, of convertible bonds containing embedded conversion options that are valued separately from the host bond contract in the amount disclosed in Level 2 fixed maturities.

Fair Value Hierarchy

The following tables present the level within the fair value hierarchy at which the Company s financial assets and financial liabilities reported at fair value are measured on a recurring basis at September 30, 2013 and December 31, 2012. An investment transferred between levels during a period is transferred at its fair value as of the beginning of that period.

(at September 30, 2013, in millions)	Total	Level 1	Level 2	Level 3
Invested assets:				
Fixed maturities				
U.S. Treasury securities and obligations of U.S. government and government agencies	$ 2,109	$ 2,092	$ 17	$

and authorities				
Obligations of states, municipalities and political subdivisions	**36,250**	**2**	**36,224**	**24**
Debt securities issued by foreign governments	**1,974**		**1,974**	
Mortgage-backed securities, collateralized mortgage obligations and pass-through securities	**2,516**		**2,484**	**32**
All other corporate bonds	**19,221**		**19,024**	**197**
Redeemable preferred stock	**32**		**32**	
Total fixed maturities	**62,102**	**2,094**	**59,755**	**253**
Equity securities				
Common stock	**584**	**584**		
Non-redeemable preferred stock	**124**	**24**	**100**	
Total equity securities	**708**	**608**	**100**	
Other investments	**50**	**18**		**32**
Total	**$ 62,860**	**$ 2,720**	**$ 59,855**	**$ 285**

During the nine months ended September 30, 2013, the Company had transfers of $32 million of redeemable preferred stock and $59 million of non-redeemable preferred stock from Level 1 to Level 2. The Company also had transfers of $3 million of non-redeemable preferred stock from Level 2 to Level 1.

4. FAIR VALUE MEASUREMENTS, Continued

Financial Instruments Disclosed, But Not Carried, At Fair Value

The Company uses various financial instruments in the normal course of its business. The Company s insurance contracts are excluded from fair value of financial instruments accounting guidance and, therefore, are not included in the amounts discussed below. The following tables present the carrying value and fair value of the Company s financial assets and financial liabilities disclosed, but not carried, at fair value at September 30, 2013 and December 31, 2012, and the level within the fair value hierarchy at which such assets and liabilities are measured on a recurring basis.

(at September 30, 2013, in millions)	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Short-term securities	**$ 5,379**	**$ 5,379**	**$ 1,995**	**$ 3,323**	**$ 61**
Financial liabilities:					
Debt	**$ 6,246**	**$ 7,239**	**$**	**$ 7,239**	**$**
Commercial paper	**$ 100**	**$ 100**	**$**	**$ 100**	**$**

(at December 31, 2012, in millions)	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Short-term securities	$ 3,483	$ 3,483	$ 1,448	$ 1,957	$ 78
Financial liabilities:					
Debt	$ 6,250	$ 7,715	$	$ 7,715	$
Commercial paper	$ 100	$ 100	$	$ 100	$

The Company utilized a pricing service to estimate fair value for approximately 98% and 95% of short-term securities at September 30, 2013 and December 31, 2012, respectively. A description of the process and inputs used by the pricing service to estimate fair value is discussed in the *Fixed Maturities* section above. Estimates of fair value for U.S. Treasury securities and money market funds are based on market quotations received from the pricing service and are disclosed in Level 1 of the hierarchy. The fair value of other short-term fixed maturity securities is estimated by the pricing service using observable market inputs and is disclosed in Level 2 of the hierarchy. For short-term securities where an estimate is not obtained from the pricing service, the carrying value approximates fair value and is included in Level 3 of the hierarchy.

The Company utilized a pricing service to estimate fair value for 100% of its debt, including commercial paper, at both September 30, 2013 and December 31, 2012. The pricing service utilizes market quotations for debt that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the fair value estimates are based on market observable inputs and disclosed in Level 2 of the hierarchy.

The Company had no material assets or liabilities that were measured at fair value on a non-recurring basis during the nine months ended September 30, 2013 or twelve months ended December 31, 2012.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The following table presents the carrying amount of the Company s goodwill by segment at September 30, 2013 and December 31, 2012:

(in millions)	September 30, 2013	December 31, 2012
Business Insurance	**$ 2,168**	$ 2,168
Financial, Professional & International Insurance	**557**	557
Personal Insurance	**613**	613
Other	**27**	27
Total	**$ 3,365**	$ 3,365

5. GOODWILL AND OTHER INTANGIBLE ASSETS, Continued

Other Intangible Assets

The following presents a summary of the Company s other intangible assets by major asset class at September 30, 2013 and December 31, 2012:

(at September 30, 2013, in millions)	Gross Carrying Amount	Accumulated Amortization	Net
Intangibles subject to amortization			
Customer-related	**$ 455**	**$ 406**	**$ 49**
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables (1)	**191**	**109**	**82**
Total intangible assets subject to amortization	**646**	**515**	**131**
Intangible assets not subject to amortization	**216**		**216**
Total other intangible assets	**$ 862**	**$ 515**	**$ 347**

(at December 31, 2012, in millions)	Gross Carrying Amount	Accumulated Amortization	Net
Intangibles subject to amortization			
Customer-related	$ 455	$ 383	$ 72
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables (1)	191	98	93
Total intangible assets subject to amortization	646	481	165
Intangible assets not subject to amortization	216		216
Total other intangible assets	$ 862	$ 481	$ 381

---

(1) The time value of money and the risk margin (cost of capital) components of the intangible asset run off at different rates, and, as such, the amount recognized in income may be a net benefit in some periods and a net expense in other periods.

The following presents a summary of the Company s amortization expense for other intangible assets by major asset class:

(in millions)	Three Months Ended September 30, 2013	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2013	Nine Months Ended September 30, 2012
Customer-related	**$ 8**	$ 8	**$ 23**	$ 26
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables	**3**	4	**11**	14
Total amortization expense	**$ 11**	$ 12	**$ 34**	$ 40

Intangible asset amortization expense is estimated to be $11 million for the remainder of 2013, $43 million in 2014, $23 million in 2015, $9 million in 2016, and $8 million in 2017.

7. DEBT

Debt Issuance. On July 25, 2013, the Company issued $500 million aggregate principal amount of 4.60% senior notes that will mature on August 1, 2043. The net proceeds of the issuance, after original issuance discount and the deduction of underwriting expenses and commissions and other expenses, totaled approximately $494 million. Interest on the senior notes is payable semi-annually in arrears on February 1 and August 1, commencing on February 1, 2014. The senior notes are redeemable in whole at any time or in part from time to time, at the Company s option, at a redemption price equal to the greater of (a) 100% of the principal amount of senior notes to be redeemed or (b) the sum of the present value of the remaining scheduled payments of principal and interest on the senior notes to be redeemed (exclusive of interest accrued to the date of redemption) discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the then current treasury rate (as defined) plus 15 basis points.

Debt Payment. On March 15, 2013, the Company s $500 million, 5.00% senior notes matured and were fully paid.

Credit Agreement. On June 7, 2013, the Company entered into a five-year, $1.0 billion revolving credit agreement with a syndicate of financial institutions, replacing its three-year $1.0 billion credit agreement that was due to expire on June 10, 2013. Pursuant to the credit agreement covenants, the Company must maintain a minimum consolidated net worth, defined as shareholders equity determined in accordance with GAAP plus (a) trust preferred securities (not to exceed 15% of total capital) and (b) mandatorily convertible securities (combined with trust preferred securities, not to exceed 25% of total capital) less goodwill and other intangible assets. That threshold is adjusted downward by an amount equal to 70% of the aggregate amount of common stock repurchased by the Company after March 31, 2013, up to a maximum deduction of $1.75 billion. The threshold was $14.71 billion at September 30, 2013 and could decline to a minimum of $13.73 billion during the term of the credit agreement, subject to the Company repurchasing an additional $1.40 billion of its common stock. In addition, the credit agreement contains other customary restrictive covenants as well as certain customary events of default,

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

7. DEBT, Continued

including with respect to a change in control, which is defined to include the acquisition of 35% or more of the Company s voting stock and certain changes in the composition of the Company s board of directors. At September 30, 2013, the Company was in compliance with these covenants. Generally, the cost of borrowing under this agreement will range from LIBOR plus 87.5 basis points to LIBOR plus 150 basis points, depending on the Company s credit ratings. At September 30, 2013, that cost would have been LIBOR plus 112.5 basis points, had there been any amounts outstanding under the credit agreement. This credit agreement also supports the Company s commercial paper program.

8. SHAREHOLDERS EQUITY

Share Repurchase Authorization. The Company s board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company s desired ratings from independent rating agencies, funding of the Company s qualified pension plan, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. During the three months and nine months ended September 30, 2013, the Company repurchased 9.7 million and 17.0 million shares, respectively, under its share repurchase authorization, for a total cost of $800 million and $1.40 billion, respectively. The average cost per share repurchased was $82.21 and $82.12, respectively. At September 30, 2013, the Company had $759 million of capacity remaining under the share repurchase authorization. On October 22, 2013, the board of directors approved a share repurchase authorization that added an additional $5.0 billion of repurchase capacity to the $759 million of capacity remaining at September 30, 2013.

Shelf Registration Statement. At the Company s Annual Meeting of Shareholders held on May 22, 2013, the Company s shareholders voted to amend the Company s Articles of Incorporation to provide authority to issue up to five million additional shares of preferred stock. Subsequent to this amendment of the Company s Articles of Incorporation, the Company filed a shelf registration statement with the Securities and Exchange Commission in June 2013 pursuant to which it may publicly sell securities, including the new preferred stock, from time to time. The new shelf registration statement replaced the Company s prior shelf registration statement.

9. EARNINGS PER SHARE

The following is a reconciliation of the net income and share data used in the basic and diluted earnings per share computations for the periods presented:

(in millions, except per share amounts)	Three Months Ended September 30, 2013	2012	Nine Months Ended September 30, 2013	2012
Basic and Diluted				
Net income, as reported	**$ 864**	$ 864	**$ 2,685**	$ 2,169
Participating share-based awards allocated income	**(6)**	(6)	**(20)**	(17)
Net income available to common shareholders basic and diluted	**$ 858**	$ 858	**$ 2,665**	$ 2,152
Common Shares				
Basic				
Weighted average shares outstanding	**368.9**	384.0	**374.1**	388.0
Diluted				
Weighted average shares outstanding	**368.9**	384.0	**374.1**	388.0
Weighted average effects of dilutive securities stock options and performance shares	**4.0**	3.9	**4.0**	3.5
Total	**372.9**	387.9	**378.1**	391.5
Net Income per Common Share				
Basic	**$ 2.33**	$ 2.23	**$ 7.12**	$ 5.55
Diluted	**$ 2.30**	$ 2.21	**$ 7.05**	$ 5.50

10. SHARE-BASED INCENTIVE COMPENSATION

The following information relates to fully vested stock option awards at September 30, 2013:

Stock Options	Number	Weighted Average Exercise Price	Weighted Average Contractual Life Remaining	Aggregate Intrinsic Value ($ in millions)
Vested at end of period (1)	**8,470,852**	**$ 52.85**	**5.7 years**	**$ 270**
Exercisable at end of period	**5,594,322**	**$ 47.06**	**4.4 years**	**$ 211**

(1) Represents awards for which the requisite service has been rendered, including those that are retirement eligible.

The total compensation cost for all share-based incentive compensation awards recognized in earnings was $29 million and $26 million for the three months ended September 30, 2013 and 2012, respectively, and $99 million and $92 million for the nine months ended September 30, 2013 and 2012, respectively. The related tax benefits recognized in the consolidated statement of income were $10 million and $9 million for the three months ended September 30, 2013 and 2012, respectively, and $34 million and $32 million for the nine months ended September 30, 2013 and 2012, respectively.

The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at September 30, 2013 was $142 million, which is expected to be recognized over a weighted-average period of 1.8 years. The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at December 31, 2012 was $112 million, which was expected to be recognized over a weighted-average period of 1.7 years.

(for the nine months ended September 30, in millions)	Pension Plans 2013	Pension Plans 2012	Postretirement Benefit Plans 2013	Postretirement Benefit Plans 2012
Net Periodic Benefit Cost:				
Service cost	**$ 89**	$ 85	**$**	$
Interest cost on benefit obligation	**99**	103	**7**	9
Expected return on plan assets	**(156)**	(140)		(1)
Amortization of unrecognized:				
Prior service benefit			**(2)**	
Net actuarial loss	**80**	67		
Net benefit expense	**$ 112**	$ 115	**$ 5**	$ 8

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES

Contingencies

The major pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the Company or any of its subsidiaries is a party or to which any of the Company s properties is subject are described below.

Asbestos- and Environmental-Related Proceedings

In the ordinary course of its insurance business, the Company has received and continues to receive claims for insurance arising under policies issued by the Company asserting alleged injuries and damages from asbestos- and environmental-related exposures that are the subject of related coverage litigation, including, among others, the litigation described below. The Company is defending asbestos- and environmental-related litigation vigorously and believes that it has meritorious defenses; however, the outcomes of these disputes are uncertain. In this regard, the Company employs dedicated specialists and aggressive resolution strategies to manage asbestos and environmental loss exposure, including settling litigation under appropriate circumstances.

Asbestos Direct Action Litigation In October 2001 and April 2002, two purported class action suits (*Wise v. Travelers* and *Meninger v. Travelers*) were filed against Travelers Property Casualty Corp. (TPC), a wholly-owned subsidiary of the Company, and other insurers (not including The St. Paul Companies, Inc. (SPC), which was acquired by TPC in 2004) in state court in West Virginia. These and other cases subsequently filed in West Virginia were consolidated into a single proceeding in the Circuit Court of Kanawha County, West Virginia. The plaintiffs allege that the insurer defendants engaged

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

in unfair trade practices in violation of state statutes by inappropriately handling and settling asbestos claims. The plaintiffs seek to reopen large numbers of settled asbestos claims and to impose liability for damages, including punitive damages, directly on insurers. Similar lawsuits alleging inappropriate handling and settling of asbestos claims were filed in Massachusetts and Hawaii state courts. These suits are collectively referred to as the Statutory and Hawaii Actions.

In March 2002, the plaintiffs in consolidated asbestos actions pending before a mass tort panel of judges in West Virginia state court amended their complaint to include TPC as a defendant, alleging that TPC and other insurers breached alleged duties to certain users of asbestos products. The plaintiffs seek damages, including punitive damages. Lawsuits seeking similar relief and raising similar allegations, primarily violations of purported common law duties to third parties, have also been asserted in various state courts against TPC and SPC. The claims asserted in these suits are collectively referred to as the Common Law Claims.

In response to these claims, TPC moved to enjoin the Statutory Actions and the Common Law Claims in the federal bankruptcy court that had presided over the bankruptcy of TPC s former policyholder Johns-Manville Corporation on the ground that the suits violated injunctions entered in connection with confirmation of the Johns-Manville bankruptcy (the 1986 Orders). The bankruptcy court issued a temporary restraining order and referred the parties to mediation. In November 2003, the parties reached a settlement of the Statutory and Hawaii Actions, which included a lump-sum payment of up to $412 million by TPC, subject to a number of significant contingencies. In May 2004, the parties reached a settlement resolving substantially all pending and similar future Common Law Claims against TPC, which included a payment of up to $90 million by TPC, subject to similar contingencies. Among the contingencies for each of these settlements was that the bankruptcy court issue an order, which must become a final order, clarifying that all of these claims, and similar future asbestos-related claims against TPC, as well as related contribution claims, are barred by the 1986 Orders.

On August 17, 2004, the bankruptcy court entered an order approving the settlements and clarifying that the 1986 Orders barred the pending Statutory and Hawaii Actions and substantially all Common Law Claims pending against TPC (the Clarifying Order). The Clarifying Order also applies to similar direct action claims that may be filed in the future. Although the District Court substantially affirmed the Clarifying Order, on February 15, 2008, the Second Circuit issued an opinion vacating on jurisdictional grounds the District Court s approval of the Clarifying Order.

On December 12, 2008, the United States Supreme Court granted TPC s Petition for Writ of Certiorari and, on June 18, 2009, the Supreme Court reversed the Second Circuit s February 15, 2008 decision, finding, among other things, that the 1986 Orders are final and therefore may not be collaterally challenged on jurisdictional grounds. The Supreme Court further ruled that the bankruptcy court had jurisdiction to issue the Clarifying Order. However, since the Second Circuit had not ruled on certain additional issues, principally related to procedural matters and the adequacy of notice provided to certain parties, the Supreme Court remanded the case to the Second Circuit for further proceedings on those specific issues.

On March 22, 2010, the Second Circuit issued an opinion in which it found that the notice of the 1986 Orders provided to one remaining objector was insufficient to bar contribution claims by that objector against TPC. TPC s Petition for Rehearing and Rehearing *En Banc* was denied May 25, 2010 and its Petition for Writ of Certiorari and Petition for a Writ of Mandamus were denied by the United States Supreme Court on November 29, 2010.

The plaintiffs in the Statutory and Hawaii actions and the Common Law Claims actions thereafter filed motions in the bankruptcy court to compel TPC to make payment under the settlement agreements, arguing that all conditions precedent to the settlements had been met. On December 16, 2010, the bankruptcy court granted the plaintiffs motions and ruled that TPC was required to fund the settlements. The court entered judgment against TPC on January 20, 2011 in accordance with this ruling and ordered TPC to pay the settlement amounts plus prejudgment interest. The bankruptcy court s judgment was reversed by the district court on March 1, 2012, the district court having found that the conditions to the settlements had not been met in view of the Second Circuit s March 22, 2010 ruling permitting the filing of contribution claims against TPC. The plaintiffs appealed the district court s March 1, 2012 decision to the Second Circuit Court of Appeals. Oral argument before the Second Circuit took place on January 10, 2013, and the parties await the court s decision.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

SPC, which is not covered by the Manville bankruptcy court rulings or the settlements described above, from time to time has been named as a defendant in direct action cases in Texas state court asserting common law claims. All such cases that are still pending and in which SPC has been served are currently on the inactive docket in Texas state court. If any of those cases becomes active, SPC intends to litigate those cases vigorously. SPC was previously a defendant in similar direct actions in Ohio state court, which have been dismissed following favorable rulings by Ohio trial and appellate courts. From time to time, SPC and/or its subsidiaries have been named in similar individual direct actions in other jurisdictions.

Outcome and Impact of Asbestos and Environmental Claims and Litigation. Currently, it is not possible to predict legal outcomes and their impact on the future development of claims and litigation relating to asbestos and environmental claims. Any such development will be affected by future court decisions and interpretations, as well as changes in applicable legislation. Because of these uncertainties, additional liabilities may arise for amounts in excess of the Company s current reserves. In addition, the Company s estimate of ultimate claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company s results of operations in future periods.

Other Proceedings Not Arising Under Insurance Contracts or Reinsurance Agreements

The Company is involved in other lawsuits, including lawsuits alleging extra-contractual damages relating to insurance contracts or reinsurance agreements, that do not arise under insurance contracts or reinsurance agreements. Based upon currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits would be material to the Company s results of operations or have a material adverse effect on the Company s financial position or liquidity.

Gain Contingencies

On August 17, 2010, in a reinsurance dispute in New York state court captioned *United States Fidelity & Guaranty Company v. American Re-Insurance Company, et al.,* the trial court granted summary judgment for United States Fidelity and Guaranty Company (USF&G), a subsidiary of the Company, and denied summary judgment for American Re-Insurance Company, a subsidiary of Munich Re (American Re), and three other reinsurers. By order dated October 22, 2010, the trial court corrected certain clerical errors and made certain clarifications to the August 17, 2010 order. On October 25, 2010, judgment was entered against American Re and the other three insurers, awarding USF&G $420 million, comprising $251 million ceded under the terms of the disputed reinsurance contract plus interest of 9% amounting to $169 million as of that date. The judgment, including the award of interest, was appealed by the reinsurers to the New York Supreme Court, Appellate Division, First Department. On January 24, 2012, the Appellate Division affirmed the judgment. On January 30, 2012, the reinsurers filed a motion with

the Appellate Division seeking permission to appeal its decision to the New York Court of Appeals, and on March 12, 2012, the Appellate Division granted the reinsurers motion. On February 7, 2013, the Court of Appeals issued an opinion that largely affirmed the summary judgment in USF&G s favor, while modifying in part the summary judgment with respect to two discrete issues and remanding the case to the trial court for determination of those issues. The Company believes it has a meritorious position on each of these issues and intends to pursue its claim vigorously. On May 2, 2013, the Court of Appeals denied a motion by reinsurers to reconsider the February 7, 2013 opinion. At September 30, 2013, the claim totaled $487 million, comprising the $251 million of reinsurance recoverable plus interest amounting to $236 million as of that date. Interest will continue to accrue at 9% until the claim is paid. The $251 million of reinsurance recoverable owed to USF&G under the terms of the disputed reinsurance contract has been reported as part of reinsurance recoverables in the Company s consolidated balance sheet. The interest that would be owed as part of any judgment ultimately entered in favor of USF&G is treated for accounting purposes as a gain contingency in accordance with FASB Topic 450, *Contingencies,* and accordingly has not been recognized in the Company s consolidated financial statements.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

In an unrelated action, The Travelers Indemnity Company is one of the Settlement Class plaintiffs and a class member in a class action lawsuit captioned *Safeco Insurance Company of America, et al. v American International Group, Inc. et al.* (U.S. District Court, N.D. Ill.) in which the defendants are alleged to have engaged in the under-reporting of workers compensation premium in connection with a workers compensation reinsurance pool in which several subsidiaries of the Company participate. On July 26, 2011, the court granted preliminary approval of a class settlement pursuant to which the defendants agreed to pay $450 million to the class. On December 21, 2011, the court entered an order granting final approval of the settlement, and on February 28, 2012, the district court issued a written opinion approving the settlement. On March 27, 2012, three parties who objected to the settlement appealed the court s orders approving the settlement to the U.S. Court of Appeals for the Seventh Circuit. On January 11, 2013, all parties, including the three parties who had objected to the settlement, filed a Stipulation of Dismissal indicating that there were no longer any objections to the settlement. On March 25, 2013, the Seventh Circuit dismissed the appeals. On April 16, 2013, the Seventh Circuit issued its mandate returning the case to the district court for administration of the settlement. Prior to receiving payment, the Company accounted for its anticipated allocation from the settlement fund as a gain contingency in accordance with FASB Topic 450, *Contingencies.* On June 26, 2013, the Company received payment of approximately $91 million, comprising 98% of its allocation from the settlement fund. The Company anticipates receiving payment of the remaining 2% (approximately $2 million, less any additional fees and expenses to be paid from the settlement fund), prior to December 31, 2013. The $91 million received by the Company in June 2013 was recorded as a gain and is reported in Other revenues in the consolidated statement of income in the Company s consolidated financial statements.

Other Commitments and Guarantees

Commitments

Investment Commitments The Company has unfunded commitments to private equity limited partnerships and real estate partnerships in which it invests. These commitments totaled $1.48 billion and $1.27 billion at September 30, 2013 and December 31, 2012, respectively.

Guarantees

In the ordinary course of selling businesses to third parties, the Company has agreed to indemnify purchasers for losses arising out of breaches of representations and warranties with respect to the businesses being sold, covenants and obligations of the Company and/or its subsidiaries following the closing, and in certain cases obligations arising from undisclosed liabilities, adverse reserve development, imposition of additional taxes due to either a change in the tax law or an adverse interpretation of the tax law, or certain named litigation. Such indemnification

provisions generally survive for periods ranging from 18 months following the applicable closing date to the expiration of the relevant statutes of limitations, although, in some cases, there may be other agreed upon term limitations or no term limitations. Certain of these contingent obligations are subject to deductibles which have to be incurred by the obligee before the Company is obligated to make payments. The maximum amount of the Company s contingent obligation for indemnifications related to the sale of businesses that are quantifiable was $474 million at September 30, 2013, of which $9 million was recognized on the balance sheet at that date.

The Company also has contingent obligations for guarantees related to certain investments, third-party loans related to certain investments, certain insurance policy obligations of former insurance subsidiaries, and various other indemnifications. The Company also provides standard indemnifications to service providers in the normal course of business. The indemnification clauses are often standard contractual terms. Certain of these guarantees and indemnifications have no stated or notional amounts or limitation to the maximum potential future payments, and, accordingly, the Company is unable to develop an estimate of the maximum potential payments for such arrangements. The maximum amount of the Company s obligation for guarantees of certain investments and third-party loans related to certain investments that are quantifiable was $129 million at September 30, 2013, approximately $63 million of which is indemnified by a third party. The maximum amount of the Company s obligation related to the guarantee of certain insurance policy obligations of a former insurance subsidiary was $480 million at September 30, 2013, all of which is indemnified by a third party.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

13. CONSOLIDATING FINANCIAL STATEMENTS OF THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

The following consolidating financial statements of the Company have been prepared pursuant to Rule 3-10 of Regulation S-X. These consolidating financial statements have been prepared from the Company s financial information on the same basis of accounting as the consolidated financial statements. The Travelers Companies, Inc. has fully and unconditionally guaranteed certain debt obligations of TPC, which totaled $700 million at September 30, 2013.

Prior to the merger of TPC and SPC in 2004, TPC fully and unconditionally guaranteed the payment of all principal, premiums, if any, and interest on certain debt obligations of its wholly-owned subsidiary, Travelers Insurance Group Holdings, Inc. (TIGHI). Concurrent with the merger, The Travelers Companies, Inc. fully and unconditionally assumed such guarantee obligations of TPC. TPC is deemed to have no assets or operations independent of TIGHI. Consolidating financial information for TIGHI has not been presented herein because such financial information would be substantially the same as the financial information provided for TPC.

In connection with the planned acquisition of The Dominion of Canada General Insurance Company from E-L Financial Corporation Limited (E-L Financial), The Travelers Companies, Inc. (TRV) provided an unconditional guarantee to E-L Financial of a TRV subsidiary s obligation for the full and prompt payment of the purchase price when due and the performance of all agreements, covenants, and obligations under the agreement. See Financial, Professional & International Insurance in note 1 to the Company s consolidated financial statements for further information regarding the transaction.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company s financial condition and results of operations.

FINANCIAL HIGHLIGHTS

2013 Third Quarter Consolidated Results of Operations

- Net income of $864 million, or $2.33 per share basic and $2.30 per share diluted
- Net earned premiums of $5.67 billion
- Catastrophe losses of $99 million ($64 million after-tax)
- Net favorable prior year reserve development of $158 million ($107 million after-tax)
- GAAP combined ratio of 88.9%
- Net investment income of $657 million ($531 million after-tax)
- Operating cash flows of $1.64 billion

2013 Third Quarter Consolidated Financial Condition

- Total investments of $72.53 billion; fixed maturities and short-term securities comprised 93% of total investments
- Total assets of $102.69 billion
- Total debt of $6.35 billion, resulting in a debt-to-total capital ratio of 20.4% (21.4% excluding net unrealized investment gains, net of tax)
- Repurchased 9.7 million common shares for total cost of $800 million under share repurchase authorization
- Share repurchase authorization increased by $5.0 billion on October 22, 2013.
- Shareholders equity of $24.81 billion

- Book value per common share of $68.15
- Holding company liquidity of $1.87 billion

The following discussions of the Company s net income and segment operating income are presented on an after-tax basis. Discussions of the components of net income and segment operating income are presented on a pretax basis, unless otherwise noted. Discussions of net income per common share are presented on a diluted basis.

Overview

Diluted net income per share of $2.30 in the third quarter of 2013 increased by 4% over diluted net income per share of $2.21 in the same period of 2012 as a result of share repurchases in recent periods. Net income of $864 million in the third quarter of 2013 was level with the same period of 2012, as the pretax impact of higher underwriting margins excluding catastrophe losses and prior year reserve development (underlying underwriting margins) was offset primarily by (i) a decrease in net investment income and (ii) a decrease in net favorable prior year reserve development. The improvement in underlying underwriting margins primarily resulted from the impact of earned pricing that exceeded loss cost trends in each of the Company s business segments, as well as lower non-catastrophe weather-related losses. Catastrophe losses in the third quarters of 2013 and 2012 were $99 million and $91 million, respectively. Net favorable prior year reserve development in the third quarters of 2013 and 2012 was $158 million and $193 million, respectively.

Table of Contents

Diluted net income per share of $7.05 in the first nine months of 2013 increased by 28% over diluted net income per share of $5.50 in the same period of 2012. Net income of $2.69 billion in the first nine months of 2013 increased by 24% over net income of $2.17 billion in the same period of 2012. The higher rate of increase in diluted net income per share reflected the impact of share repurchases in recent periods. The increase in net income primarily reflected the pretax impacts of (i) higher underlying underwriting margins, (ii) lower catastrophe losses, (iii) an increase in net realized investment gains and (iv) a gain from the settlement of a legal proceeding, partially offset by (v) lower net investment income and (vi) lower net favorable prior year reserve development. The improvement in underlying underwriting margins primarily resulted from the impact of earned pricing that exceeded loss cost trends in each of the Company s business segments, as well as lower non-catastrophe weather-related losses. Partially offsetting this net pretax increase in income was the related tax expense. Additionally, net income in the first nine months of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the first nine months of 2013 was higher than in the same period in 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income, partially offset by the resolution of prior year tax matters discussed above. Catastrophe losses in the first nine months of 2013 were $538 million, compared with $808 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 and 2012 was $581 million and $718 million, respectively.

Revenues

Earned Premiums

Earned premiums in the third quarter of 2013 were $5.67 billion, level with the same period of 2012. Earned premiums in the first nine months of 2013 were $16.79 billion, $68 million or less than 1% higher than in the same period of 2012. In the Business Insurance segment, earned premiums in the third quarter and first nine months of 2013 increased by 2% and 3% over the respective periods of 2012. In the Financial, Professional & International Insurance segment, earned premiums in the third quarter of 2013 increased by 2% over the same period of 2012, while earned premiums for the first nine months of 2013 were virtually level with the same period of 2012. In the Personal Insurance segment, earned premiums in the third quarter and first nine months of 2013 both decreased by 4% from the respective periods of 2012. Factors contributing to the changes in earned premiums in each segment are discussed in more detail in the segment discussions that follow.

Net Investment Income

The following table sets forth information regarding the Company s investments.

	Three Months Ended September 30,		Nine Months Ended September 30,	
(dollars in millions)	**2013**	**2012**	**2013**	**2012**
Average investments (a)	**$ 70,419**	$ 69,813	**$ 70,128**	$ 69,684
Pretax net investment income	**657**	722	**2,014**	2,200
After-tax net investment income	**531**	578	**1,624**	1,760
Average pretax yield (b)	**3.7%**	4.1%	**3.8%**	4.2%
Average after-tax yield (b)	**3.0%**	3.3%	**3.1%**	3.4%

(a) Excludes net unrealized investment gains and losses, net of tax, and reflects cash, receivables for investment sales, payables on investment purchases and accrued investment income.

(b) Excludes net realized investment gains and losses and net unrealized investment gains and losses, net of tax.

Table of Contents

Net investment income in the third quarter of 2013 was $657 million, $65 million or 9% lower than in the same period of 2012. Net investment income in the first nine months of 2013 was $2.01 billion, $186 million or 8% lower than in the same period of 2012. Net investment income from fixed maturity investments in the third quarter and first nine months of 2013 was $33 million and $104 million lower, respectively, than in the same periods of 2012, primarily resulting from lower long-term reinvestment yields available in the market. Net investment income from non-fixed maturity investments in the third quarter and first nine months of 2013 was $33 million and $82 million lower, respectively, than in the same periods of 2012, primarily reflecting lower results in the Company s real estate partnership investments. The average pretax yield on the total investment portfolio was 3.7% and 3.8% for the third quarter and first nine months of 2013, respectively, compared with 4.1% and 4.2% for the respective periods of 2012, primarily reflecting the decline in both fixed maturity and non-fixed maturity investment income.

Fee Income

The National Accounts market in the Business Insurance segment is the primary source of the Company s fee-based business. The $15 million and $53 million increases in fee income in the third quarter and first nine months of 2013, respectively, compared with the same periods of 2012 are discussed in the Business Insurance segment discussion that follows.

Net Realized Investment Gains (Losses)

The following table sets forth information regarding the Company s net realized investment gains (losses).

(in millions)	Three Months Ended September 30, 2013	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2013	Nine Months Ended September 30, 2012
Net Realized Investment Gains (Losses)				
Other-than-temporary impairment losses	**$ (3)**	$ (3)	**$ (10)**	$ (11)
Other net realized investment gains (losses)	**(19)**	1	**165**	23
Net realized investment gains (losses)	**$ (22)**	$ (2)	**$ 155**	$ 12

Included in other net realized investment gains in the first nine months of 2013 were $115 million of net realized gains associated with U.S. Treasury futures contracts (which require daily mark-to-market settlement and are used to shorten the duration of the Company s fixed maturity investment portfolio). During the third quarter of 2013, the Company did not utilize any U.S. Treasury futures contracts.

Other Revenues

Other revenues in the third quarter of 2013 included a $20 million gain from the sale of renewal rights related to the Company s National Flood Insurance Program business. Other revenues in the first nine months of 2013 also included a $91 million gain from the settlement of a legal

proceeding in the second quarter of 2013, which is discussed in more detail in note 12 of notes to the unaudited consolidated financial statements in this report. The remainder of other revenues in all periods presented primarily consisted of premium installment charges.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the third quarter of 2013 were $3.30 billion, $62 million or 2% lower than in the same period of 2012. The decrease primarily reflected (i) lower non-catastrophe weather-related losses and (ii) the impact of lower business volumes, partially offset by (iii) a decrease in net favorable prior year reserve development, (iv) the impact of loss cost trends and (v) a slight increase in catastrophe losses. Net favorable prior year reserve development in the third quarters of 2013 and 2012 was $158 million and $193 million, respectively. Catastrophe losses in the third quarters of 2013 and 2012 were $99 million and $91 million, respectively. Catastrophe losses in the third quarter of 2013 primarily resulted from wind and hail storms in several regions of the United States, as well as increases in estimated losses related to wind and hail storms that occurred in the second quarter of 2013. Catastrophe losses in the third quarter of 2012 primarily resulted from increases in estimated losses related to wind and hail storms that occurred in the second quarter of 2012.

Table of Contents

Claims and claim adjustment expenses in the first nine months of 2013 were $9.98 billion, $529 million or 5% lower than in the same period of 2012, primarily reflecting (i) a decline in catastrophe losses, (ii) the impact of lower business volumes and (iii) lower non-catastrophe weather-related losses, partially offset by (iv) the impact of loss cost trends and (v) lower net favorable prior year reserve development. Catastrophe losses in the first nine months of 2013 and 2012 were $538 million and $808 million, respectively. Catastrophe losses in the first nine months of 2013 included the storms and increases in estimated losses in the third quarter described above, as well as second quarter storms in the United States and floods in Alberta, Canada, and tornadoes and hail storms in the Southeastern United States in the first quarter of 2013. Catastrophe losses in the first nine months of 2012 included the increases in estimated losses in the third quarter described above, as well as storms in the second quarter and tornadoes and hail storms in the Midwest and Southeast regions of the United States in the first quarter of 2012. Net favorable prior year reserve development in the first nine months of 2013 and 2012 was $581 million and $718 million, respectively. Net favorable prior year reserve development in the first nine months of 2013 was reduced by a $42 million charge that was precipitated by legislation in New York enacted during the first quarter of 2013 related to the New York Fund for Reopened Cases for workers compensation. Factors contributing to net favorable prior year reserve development in each segment during these periods are discussed in more detail in the segment discussions that follow.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the third quarter of 2013 was $953 million, $33 million or 3% lower than in the same period of 2012. The amortization of deferred acquisition costs in the first nine months of 2013 was $2.85 billion, $82 million or 3% lower than in the same 2012 period. Amortization of deferred acquisition costs is discussed in more detail in the segment discussions that follow.

General and Administrative Expenses

General and administrative expenses in the third quarter of 2013 were $934 million, $30 million or 3% higher than in the same period of 2012. General and administrative expenses in the first nine months of 2013 were $2.78 billion, $99 million or 4% higher than in the same period of 2012. General and administrative expenses are discussed in more detail in the segment discussions that follow.

Interest Expense

Interest expense in the third quarter and first nine months of 2013 was $91 million and $269 million, respectively, 2% and 6% lower than the respective periods of 2012, primarily reflecting lower average levels of debt outstanding.

Income Tax Expense

Income tax expense in the third quarter of 2013 was $313 million, $7 million or 2% higher than in the same period of 2012. Income tax expense in the first nine months of 2013 was $889 million, $203 million or 30% higher than in the same period of 2012, primarily reflecting the impact of a $633 million increase in underwriting margins (including the impact of decreases in catastrophe losses and net favorable prior year reserve development), partially offset by a reduction in income tax expense of $63 million resulting from the resolution of prior year tax matters.

The Company s effective tax rates in the third quarter and first nine months of 2013 were 27% and 25%, respectively. In the third quarter and first nine months of 2012, the Company s effective tax rates were 26% and 24%, respectively. The effective tax rates in all periods were lower than the statutory rate of 35% primarily due to the impact of tax-exempt investment income on the calculation of the Company s income tax provision. In addition, the effective tax rate in the first nine months of 2013 was reduced by the impact of the resolution of prior year tax matters.

GAAP Combined Ratio

The consolidated GAAP combined ratio of 88.9% in the third quarter of 2013 was 1.4 points lower than the consolidated GAAP combined ratio of 90.3% in the same period of 2012. The consolidated GAAP combined ratio of 90.6% in the first nine months of 2013 was 3.7 points lower than the consolidated GAAP combined ratio of 94.3% in the same period of 2012.

The consolidated loss and loss adjustment expense ratio of 57.3% in the third quarter of 2013 was 1.1 points lower than the consolidated loss and loss adjustment expense ratio of 58.4% in the same period of 2012. Catastrophe losses accounted for 1.7 points and 1.6 points of the 2013 and 2012 third quarter loss and loss adjustment expense ratios, respectively. The 2013

and 2012 third quarter loss and loss adjustment expense ratios included 2.8 and 3.4 points of benefit from net favorable prior year reserve development, respectively. The consolidated loss and loss adjustment expense ratio excluding catastrophe losses and prior year reserve development (underlying loss and loss adjustment expense ratio) in the third quarter of 2013 was 1.8 points lower than the 2012 third quarter ratio on the same basis, primarily reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The consolidated loss and loss adjustment expense ratio of 58.6% in the first nine months of 2013 was 3.5 points lower than the consolidated loss and loss adjustment expense ratio of 62.1% in the same period of 2012. Catastrophe losses accounted for 3.2 points and 4.9 points of the 2013 and 2012 nine-month loss and loss adjustment expense ratios, respectively. The 2013 and 2012 nine-month loss and loss adjustment expense ratios included 3.4 and 4.3 points of benefit from net favorable prior year reserve development, respectively. The 2013 nine-month underlying loss and loss adjustment expense ratio was 2.7 points lower than the 2012 nine-month ratio on the same basis, primarily reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The consolidated underwriting expense ratio of 31.6% for the third quarter of 2013 was 0.3 points lower than the consolidated underwriting expense ratio of 31.9% in the same period of 2012. In the first nine months of 2013, the consolidated underwriting expense ratio of 32.0% was 0.2 points lower than the consolidated underwriting expense ratio of 32.2% in the same 2012 period.

Written Premiums

Consolidated gross and net written premiums were as follows:

	Gross Written Premiums			
Business Insurance	**$ 3,483**	$ 3,382	**$ 10,453**	$ 10,091

GAAP combined ratio	**93.0%**	93.3%	**92.9%**	95.3%

Overview

Operating income in the third quarter of 2013 was $526 million, $17 million or 3% lower than operating income of $543 million in the same period of 2012. The decrease in operating income in the third quarter of 2013 compared with the same period of 2012 primarily reflected the pretax impacts of (i) a decline in net investment income, partially offset by (ii) higher underlying underwriting margins. The improvement in underlying underwriting margins primarily resulted from the impact of earned pricing that exceeded loss cost trends, partially offset by higher non-catastrophe weather-related losses. Partially offsetting this net pretax decrease in operating income was the related reduction in income tax expense. The effective tax rate in the third quarter of 2013 decreased from the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income. Catastrophe losses in the third quarter of 2013 were $61 million, compared with $50 million in the same period of 2012. Net favorable prior year reserve development was $36 million in the third quarter of 2013, compared with $41 million in the same period of 2012.

Operating income in the first nine months of 2013 was $1.70 billion, $178 million or 12% higher than operating income of $1.52 billion in the same period of 2012. The increase in operating income in the first nine months of 2013 compared with the same period of 2012 primarily

reflected the pretax impact of (i) higher underlying underwriting margins, (ii) lower catastrophe losses and (iii) the settlement of a legal matter, partially offset by (iv) lower net favorable prior year reserve development and (vi) lower net investment income. The improvement in underlying underwriting margins primarily resulted from the impact of earned pricing that exceeded loss cost trends. Partially offsetting this net pretax increase in operating income was the related tax expense. Additionally, operating income in the first nine months of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the first nine months of 2013 decreased from the same period of 2012. This resulted from the resolution of prior year tax matters described above, partially offset by the impact of interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income. Catastrophe losses in the first nine months of 2013 were $244 million, compared with $355 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 was $204 million, compared with $347 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 was reduced by a $42 million charge that was precipitated by legislation in New York as described in the consolidated Claims and Claim Adjustment Expenses section above.

Table of Contents

Earned Premiums

Earned premiums in the third quarter of 2013 were $3.05 billion, $64 million or 2% higher than in the same period of 2012. Earned premiums in the first nine months of 2013 were $9.01 billion, $288 million or 3% higher than in the same period of 2012. The increases in both periods of 2013 primarily reflected the impact of an increase in net written premiums over the preceding twelve months.

Net Investment Income

Net investment income in the third quarter of 2013 was $479 million, $45 million or 9% lower than in the same 2012 period. Net investment income in the first nine months of 2013 was $1.47 billion, $124 million or 8% lower than in the same period of 2012. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the decline in the Company s consolidated net investment income in the third quarter and first nine months of 2013 compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company s consolidated financial statements in the Company s Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company s net investment income allocation methodology.

Fee Income

National Accounts is the primary source of fee income due to its service businesses, which include claim and loss prevention services to large companies that choose to self-insure a portion of their insurance risks, as well as claims and policy management services to workers compensation residual market pools. Fee income in the third quarter and first nine months of 2013 increased by $14 million and $53 million over the respective periods of 2012, primarily reflecting the impact of higher serviced premium volume in workers compensation residual market pools and higher claim volume in the large deductible business.

Other Revenues

Other revenues in the first nine months of 2013 included a $91 million gain from the settlement of a legal proceeding in the second quarter of 2013.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the third quarter of 2013 were $1.97 billion, $59 million or 3% higher than in the same period of 2012, primarily reflecting (i) the impact of loss cost trends, (ii) higher catastrophe and non-catastrophe weather-related losses and (iii) a decrease in net favorable prior year reserve development, partially offset by (iv) the impact of a modest decline in business volumes. Net favorable prior year reserve development in the third quarter of 2013 was $36 million, compared with $41 million in the same period of 2012. Net favorable prior year reserve development in the third quarter of 2013 was primarily driven by better than expected loss experience in the general liability product line for accident years 2009 through 2012, reflecting more favorable legal and judicial environments than what the Company previously expected, and by better than expected loss experience in the property product line for accident years 2010 through 2012. Net favorable prior year reserve development in the third quarter of 2012 was concentrated in the property product line and the property coverages in the commercial multi-peril product line primarily for accident years 2009 through 2011, driven by favorable loss experience related to losses incurred in 2011, and by higher than expected subrogation recoveries for accident years 2009 through 2011. Also contributing to the net favorable prior year reserve development in the third quarter of 2012 was the general liability product line for accident years 2003 through 2009, reflecting more favorable legal and judicial environments than what the Company previously expected. These factors contributing to net favorable prior year reserve development in the third quarters of 2013 and 2012 were partially offset by $190 million and $167 million increases, respectively, to asbestos reserves, which are discussed in further detail in the Asbestos Claims and Litigation section herein. Catastrophe losses in the third quarter of 2013 were $61 million, compared with $50 million in the same period of 2012.

Claims and claim adjustment expenses in the first nine months of 2013 were $5.72 billion, $58 million or 1% higher than in the same 2012 period. Claims and claim adjustment expenses in the first nine months of 2013 were impacted by the same factors described above for the third quarter of 2013, except that catastrophe losses in the first nine months of 2013 declined from the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 was $204

million, compared with $347 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 was primarily driven by the same factors described above. Net favorable prior year reserve development in the first nine months of 2013 was also reduced by a $42 million workers compensation charge that was precipitated by legislation in New York. Net favorable prior year reserve development in the first nine months of 2012 was primarily driven by the same factors described above, as well as net favorable prior year reserve development in the workers compensation product line, primarily driven by better than expected frequency and severity related to lifetime medical claims for accident years 2008 and prior. These factors contributing to net favorable prior year reserve development in the first nine months of 2013 and 2012 were partially offset by $65 million and $90 million increases, respectively, to environmental reserves in the second quarter of each year, which are discussed in further detail in the Environmental Claims and Litigation section herein. Net favorable prior year reserve development in the first nine months of 2012 was also partially offset by net unfavorable prior year reserve development in the commercial automobile line of business. Catastrophe losses in the first nine months of 2013 were $244 million, compared with $355 million in the same period of 2012.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the third quarter of 2013 was $479 million, $2 million or less than 1% higher than in the same period of 2012. Amortization of deferred acquisition costs in the first nine months of 2013 was $1.44 billion, $26 million or 2% higher than in the same 2012 period.

General and Administrative Expenses

General and administrative expenses in the third quarter of 2013 were $503 million, $1 million or less than 1% lower than in the same period of 2012, primarily driven by a reduction in assessments from certain states, partially offset by increases in employee- and technology-related expenses. General and administrative expenses in the first nine months of 2013 were $1.53 billion, $25 million or 2% higher than in the same period of 2012. The increase in the first nine months of 2013 was primarily driven by increases in employee- and technology-related expenses.

Income Tax Expense

Income tax expense in the third quarter of 2013 was $166 million, $11 million or 6% lower than in the same period of 2012, primarily reflecting the impacts of a decline in net investment income from the Company s non-fixed maturity investments, partially offset by the $18 million increase in underwriting margins (including the impact of an increase in catastrophe losses and lower net favorable prior year reserve development). Income tax expense in the first nine months of 2013 was $511 million, $34 million or 7% higher than in the same period of 2012, primarily reflecting the impacts of a $232 million increase in underwriting margins (including the impact of decreases in catastrophe losses and net favorable prior year reserve development), partially offset by a reduction in income tax expense of $43 million resulting from the resolution of prior year tax matters in the second quarter of 2013.

GAAP Combined Ratio

The GAAP combined ratio of 93.0% in the third quarter of 2013 was 0.3 points lower than the GAAP combined ratio of 93.3% in the same period of 2012. The GAAP combined ratio of 92.9% in the first nine months of 2013 was 2.4 points lower than the GAAP combined ratio of 95.3% in the same period of 2012.

The loss and loss adjustment expense ratio of 63.0% in the third quarter of 2013 was 0.7 points higher than the loss and loss adjustment expense ratio of 62.3% in the same period of 2012. Catastrophe losses in the third quarters of 2013 and 2012 accounted for 2.0 points and 1.7 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the third quarters of 2013 and 2012 provided 1.2 points and 1.4 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2013 third quarter underlying loss and loss adjustment expense ratio was 0.2 points higher than the 2012 ratio on the same basis, as the benefit of earned pricing exceeding loss cost trends was offset by the slightly larger impacts of higher non-catastrophe weather-related losses in the third quarter of 2013 and a comparatively low level of non-weather-related losses in the third quarter of 2012.

The loss and loss adjustment expense ratio of 62.0% in the first nine months of 2013 was 1.7 points lower than the loss and loss adjustment expense ratio of 63.7% in the same period of 2012. Catastrophe losses in the first nine months of 2013 and 2012 accounted for 2.7 points and 4.1 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the first nine months of 2013 and 2012 provided 2.3 points and 4.0 points of benefit, respectively, to the loss and loss adjustment expense ratio. The underlying loss and loss adjustment expense ratio in the first nine months of 2013 was 2.0 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

Table of Contents

The underwriting expense ratio of 30.0% for the third quarter of 2013 was 1.0 point lower than the underwriting expense ratio of 31.0% in the same period of 2012. In the first nine months of 2013, the underwriting expense ratio of 30.9% was 0.7 points lower than the underwriting expense ratio of 31.6% in the same 2012 period. The decrease in both periods of 2013 primarily reflected the impact of growth in earned premiums.

Written Premiums

The Business Insurance segment s gross and net written premiums by market were as follows:

	Gross Written Premiums			
	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2013	2012	2013	2012
Select Accounts	**$ 671**	$ 699	**$ 2,131**	$ 2,160

Gross and net written premiums in the third quarter of 2013 increased by 3% and 2%, respectively, over the same period of 2012. The increases in gross and net written premiums in the third quarter of 2013 were concentrated in Target Risk Underwriting and National Accounts, partially offset by a decline in Select Accounts. Overall business retention rates in the third quarter of 2013 remained strong but were slightly lower than in the same period of 2012. Renewal premium changes comprising both renewal rate changes and insured exposure growth remained positive in the third quarter of 2013 but were slightly lower than in the same period of 2012. Excluding the National Accounts market, for which renewal premium changes are primarily driven by changes in exposures, renewal premium changes remained positive in the third quarter of 2013 and were slightly higher than in the same period of 2012. Renewal rate changes continued to exceed expected loss cost trends in the third quarter of 2013. New business volume in the third quarter of 2013 increased over the same period of 2012.

Gross and net written premiums in the first nine months of 2013 increased by 4% and 3%, respectively, over the same period of 2012. The increases in gross and net written premiums in the first nine months of 2013 occurred in all markets except Select Accounts and Specialized Distribution. In the first nine months of 2013, business retention rates remained strong and were virtually level with the same period of 2012. Renewal premium changes (both including and excluding the National Accounts market) remained positive in the first nine months of 2013 but were slightly lower than in the same period of 2012. Renewal rate changes continued to exceed expected loss cost trends. New business volume in the first nine months of 2013 increased over the same period of 2012.

Table of Contents

Select Accounts. Net written premiums of $654 million in the third quarter of 2013 decreased by 4% from the same period of 2012. Net written premiums of $2.09 billion in the first nine months of 2013 decreased by 1% from the same period of 2012. Business retention rates in the third quarter of 2013 remained strong but were lower than in the third quarter of 2012. Business retention rates in the first nine months of 2013 remained strong and were slightly higher than in the same period of 2012. Renewal premium changes remained positive in the third quarter and first nine months of 2013 and were slightly higher than in the same periods of 2012. New business volume in the third quarter and first nine months of 2013 declined from the same periods of 2012.

Commercial Accounts. Net written premiums of $807 million in the third quarter of 2013 were virtually level with the same period of 2012. Net written premiums of $2.45 billion in the first nine months of 2013 increased by 3% over the same period of 2012. Business retention rates in the third quarter and first nine months of 2013 remained strong but were lower than in the same periods of 2012. Renewal premium changes remained positive in the third quarter and first nine months of 2013 but were lower than in the same periods of 2012. New business volumes in the third quarter and first nine months of 2013 increased over the same periods of 2012.

National Accounts. Net written premiums of $236 million in the third quarter of 2013 increased by 17% over the same period of 2012. Net written premiums of $755 million in the first nine months of 2013 increased by 14% over the same period of 2012. Business retention rates remained strong in the third quarter and were higher than in the same period of 2012. Business retention rates remained strong in the first nine months of 2013 but were lower than in the same period of 2012. Renewal premium changes in the third quarter and first nine months of 2013 remained positive but were lower than in the same periods of 2012. New business volumes in the third quarter and first nine months of 2013 were higher than in the same periods of 2012. Growth in workers compensation residual market pools also contributed to premium growth in both periods of 2013.

Industry-Focused Underwriting. Net written premiums of $673 million in the third quarter of 2013 were virtually level with the same period of 2012. Net written premiums of $2.03 billion in the first nine months of 2013 increased by 4% over the same period of 2012. In the third quarter of 2013, premium growth in the Construction business unit was largely offset by premium declines in the Public Sector Services and Oil & Gas business units. In the first nine months of 2013, premium growth in the Construction business unit was partially offset by a premium decline in the Public Sector Services business unit. Business retention rates in the Industry-Focused Underwriting market in total remained strong in the third quarter of 2013 and were virtually level with the same period of 2012. Business retention rates in the first nine months of 2013 remained strong and were higher than in the same period of 2012. Renewal premium changes remained positive in the third quarter of 2013 and were higher than in the same period of 2012. Renewal premium changes remained positive in the first nine months of 2013 but were slightly lower than in the same period of 2012. New business volume in the third quarter of 2013 was virtually level with the same period of 2012. New business volume in the first nine months of 2013 was higher than in the same period of 2012.

Target Risk Underwriting. Net written premiums of $441 million in the third quarter of 2013 increased by 15% over the same period of 2012. Net written premiums of $1.39 billion in the first nine months of 2013 increased by 7% over the same period of 2012. Premium growth in the third quarter of 2013 was concentrated in the National Property business unit, whereas net written premium growth in the first nine months of 2013 was concentrated in the National Property and Inland Marine business units. Business retention rates in the Target Risk Underwriting market in total remained strong in the third quarter and first nine months of 2013 and were virtually level with the same periods of 2012. Renewal premium changes remained positive in the third quarter of 2013 and were slightly higher than in the same period of 2012. Renewal premium changes remained positive in the first nine months of 2013 but were slightly lower than in the same period of 2012. New business volume in the third quarter and first nine months of 2013 was higher than in the same periods of 2012.

Specialized Distribution. Net written premiums of $220 million in the third quarter of 2013 was virtually level with the same period of 2012. Net written premiums of $656 million in the first nine months of 2013 declined by 2% from the same period of 2012. Business retention rates in the Specialized Distribution market in total remained strong in the third quarter and first nine months of 2013 but declined from the same periods

of 2012. Renewal premium changes remained positive in the third quarter and first nine months of 2013 and were higher than in the same periods of 2012. New business volume in the third quarter and first nine months of 2013 increased over the same periods of 2012.

Table of Contents

Financial, Professional & International Insurance

Results of the Company s Financial, Professional & International Insurance segment were as follows:

(dollars in millions)	Three Months Ended September 30, 2013	2012	Nine Months Ended September 30, 2013	2012
Revenues				
Earned premiums	**$ 785**	$ 772	**$ 2,271**	$ 2,275

GAAP combined ratio	**83.2%**	80.2%	**83.9%**	82.6%

Overview

Operating income in the third quarter of 2013 was $160 million, $20 million or 11% lower than operating income of $180 million in the third quarter of 2012, primarily reflecting the pretax impact of (i) lower net favorable prior year reserve development, (ii) a decline in net investment income and (iii) lower underlying underwriting margins. The decline in underlying underwriting margins were driven by (i) a higher level of what the Company defines as large losses and (ii) higher expenses resulting from a change in business mix and timing, largely offset by (iii) earned pricing increases that exceeded loss cost trends. Partially offsetting this net pretax decrease in operating income was the related reduction in tax expense. The effective tax rate in the third quarter of 2013 decreased from the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income. Net favorable prior year reserve development in the third quarter of 2013 was $74 million, compared with $87 million in the same period of 2012. No catastrophe losses were incurred in the third quarter of 2013, compared with catastrophe losses of $1 million in the same period of 2012.

Operating income in the first nine months of 2013 was $477 million, $34 million or 7% lower than operating income of $511 million in the same period of 2012. The decrease in operating income primarily reflected the pretax impact of (i) higher catastrophe losses, (ii) lower net investment income and (iii) lower net favorable prior year reserve development, partially offset by (iv) higher underlying underwriting margins. The increase in underlying underwriting margins was driven by (i) earned pricing that exceeded loss cost trends, partially offset by (ii) the impact of lower business volumes and (iii) higher general and administrative expenses. Partially offsetting this net pretax decrease in operating income was the related reduction in tax expense, as well as the reduction in tax expense that resulted from the resolution of prior year tax matters. Additionally, operating income in the first nine months of 2013 benefited from a reduction in income tax expense resulting from the resolution

of prior year tax matters. The effective tax rate in the first nine months of 2013 decreased from the same period of 2012, primarily due to the impact of the resolution of prior year tax matters described above. Catastrophe losses in the first nine months of 2013 were $46 million, compared with $5 million in the same period of 2012. Catastrophe losses in the first nine months of 2013 primarily resulted from floods in Alberta, Canada. Net favorable prior year reserve development in the first nine months of 2013 was $204 million, compared with $229 million in the same period of 2012.

Table of Contents

Earned Premiums

Earned premiums in the third quarter of 2013 were $785 million, $13 million or 2% higher than in the same period of 2012. Earned premiums in the first nine months of 2013 were $2.27 billion, virtually level with the same period of 2012. Both periods of 2013 primarily reflected the impact of changes in net written premiums over the preceding twelve months.

Net Investment Income

Net investment income in the third quarter of 2013 was $88 million, $9 million or 9% lower than in the same period of 2012. Net investment income in the first nine months of 2013 was $271 million, $29 million or 10% lower than in the same period of 2012. Included in the Financial, Professional & International Insurance segment are certain legal entities whose invested assets and related net investment income are reported exclusively in this segment and not allocated among all business segments. Refer to the Net Investment Income section of Consolidated Results of Operations herein for a discussion of the decline in the Company s consolidated net investment income in the third quarter and first nine months of 2013 as compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company s consolidated financial statements in the Company s Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company s net investment income allocation methodology.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the third quarter of 2013 were $331 million, $22 million or 7% higher than in the same period of 2012, primarily reflecting (i) a higher level of large losses and (ii) a decline in net favorable prior year reserve development, partially offset by (iii) reduced loss cost trends. Net favorable prior year reserve development in the third quarter of 2013 was $74 million, compared with $87 million in the same period of 2012. In Bond & Financial Products, net favorable prior year reserve development in the third quarter of 2013 primarily reflected better than expected results for the surety business for accident years 2004 through 2010. In International, net favorable prior year reserve development in the third quarter of 2013 primarily reflected better than expected loss experience for the surety line of business in Canada and the marine line of business in the Company s operations at Lloyd s. In Bond & Financial Products, net favorable prior year reserve development in the third quarter of 2012 primarily reflected better than expected results for the contract surety business for accident years 2006 and 2007. In International, net favorable prior year reserve development in the third quarter of 2012 occurred in several lines of business in the United Kingdom and in Canada, as well as in the Company s operations at Lloyd s, partially offset by an $8 million increase to asbestos reserves. No catastrophe losses were incurred in the third quarter of 2013, compared with catastrophe losses of $1 million in the same period of 2012.

Claims and claim adjustment expenses in the first nine months of 2013 were $965 million, $13 million or 1% higher than in the same 2012 period, primarily reflecting (i) an increase in catastrophe losses and (ii) a decline in net favorable prior year reserve development, largely offset by (iii) reduced loss cost trends and (iv) the impact of lower business volumes. Catastrophe losses in the first nine months of 2013 were $46 million, primarily resulting from floods in Alberta, Canada, compared with $5 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013 was $204 million and was driven by the factors described above for the third quarter of 2013. Net favorable prior year reserve development in the first nine months of 2012 was $229 million and was driven by the factors described

above for the third quarter of 2012. Additionally, in Bond & Financial Products, net favorable prior year reserve development in the first nine months of 2012 reflected better than expected results for the surety line of business for accident years 2008 through 2010, and better than expected results for management liability business for accident years 2007 and prior. In International, net favorable prior year reserve development in the first nine months of 2012 primarily reflected the factors described above for the third quarter.

Amortization of Deferred Acquisition Expenses

Amortization of deferred acquisition costs in the third quarter of 2013 was $155 million, $6 million or 4% higher than in the same period of 2012. Amortization of deferred acquisition costs in the first nine months of 2013 was $445 million, $4 million or 1% higher than in the same 2012 period. The increases in both periods of 2013 primarily reflected a change in business mix and timing.

General and Administrative Expenses

General and administrative expenses in the third quarter of 2013 were $169 million, $4 million, or 2% higher than in the same period of 2012. General and administrative expenses in the first nine months of 2013 were $503 million, $8 million or 2% higher than in the same period of 2012. The increases in the third quarter and first nine months of 2013 primarily reflected higher employee-related expenses. In addition, the increase in the first nine months of 2013 reflected legal expenses related to the Company s acquisition of The Dominion of Canada General Insurance Company. See note 1 of notes to the consolidated financial statements for further information regarding this acquisition.

Income Tax Expense

Income tax expense in the third quarter of 2013 was $64 million, $10 million or 14% lower than in the same period of 2012, primarily reflecting the impact of the $18 million decrease in underwriting margins (including the impact of a decrease in net favorable prior year reserve development). Income tax expense in the first nine months of 2013 was $168 million, $30 million or 15% lower than in the same period of 2012, primarily reflecting the impact of the $15 million reduction in income tax expense resulting from the resolution of prior year tax matters in the second quarter of 2013.

GAAP Combined Ratio

The GAAP combined ratio of 83.2% in the third quarter of 2013 was 3.0 points higher than the GAAP combined ratio of 80.2% in the same period of 2012. The GAAP combined ratio of 83.9% in the first nine months of 2013 was 1.3 points higher than the GAAP combined ratio of 82.6% in the same period of 2012.

The loss and loss adjustment expense ratio of 41.8% in the third quarter of 2013 was 2.1 points higher than the loss and loss adjustment expense ratio of 39.7% in the same period of 2012. Catastrophe losses in the third quarters of 2013 and 2012 accounted for 0.0 points and 0.1 points, respectively, of the loss and loss adjustment expense ratio. The 2013 and 2012 third quarter ratios included 9.3 points and 11.3 points of benefit, respectively, from net favorable prior year reserve development. The 2013 third quarter underlying loss and loss adjustment expense ratio was 0.2 points higher than the 2012 ratio on the same basis, reflecting the decline in underlying underwriting margins discussed in the Overview section above.

The loss and loss adjustment expense ratio of 42.2% in the first nine months of 2013 was 0.7 points higher than the loss and loss adjustment expense ratio of 41.5% in the same period of 2012. Catastrophe losses in the first nine months of 2013 and 2012 accounted for 2.0 points and 0.2 points, respectively, of the loss and loss adjustment expense ratio. The 2013 and 2012 year-to-date ratios included 9.0 points and 10.0 points of benefit, respectively, from net favorable prior year reserve development. The underlying loss and loss adjustment expense ratio in the first nine months of 2013 was 2.1 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The underwriting expense ratio of 41.4% in the third quarter of 2013 was 0.9 points higher than the underwriting expense ratio of 40.5% in the same period of 2012. In the first nine months of 2013, the underwriting expense ratio of 41.7% was 0.6 points higher than the underwriting expense ratio of 41.1% in the same period of 2012. The increases in the third quarter and first nine months of 2013 primarily reflected the increases in amortization of deferred acquisition costs and general and administrative expenses described above.

Written Premiums

The Financial, Professional & International Insurance segment s gross and net written premiums by market were as follows:

	Gross Written Premiums			
	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	**2013**	**2012**	**2013**	**2012**
Bond & Financial Products	**$ 561**	$ 537	**$ 1,601**	$ 1,547
International	**238**	226	**903**	889
Total Financial, Professional & International Insurance	**$ 799**	$ 763	**$ 2,504**	$ 2,436

Table of Contents

Bond & Financial Products	**$**	**553**	$	529	**$**	**1,479**	$	1,410
International		**217**		200		**787**		763
Total Financial, Professional & International Insurance	**$**	**770**	$	729	**$**	**2,266**	$	2,173

The Financial, Professional & International Insurance segment s gross and net written premiums in the third quarter of 2013 increased by 5% and 6%, respectively, over the same period of 2012. In the first nine months of 2013, gross and net written premiums increased by 3% and 4%, respectively, over the same period of 2012.

Net written premiums in Bond & Financial Products in the third quarter of 2013 were $553 million, $24 million or 5% higher than in the same period of 2012, primarily driven by higher contract surety volume and rate increases in the management liability business. Net written premiums in the first nine months of 2013 were $1.48 billion, $69 million or 5% higher than in the same period of 2012, primarily driven by the same factors impacting the third quarter as well as lower reinsurance costs in the first quarter of 2013. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the third quarter and first nine months of 2013 remained strong but were lower than in the same periods of 2012. Renewal premium changes in the third quarter of 2013 remained positive and were level with the same period of 2012. Renewal premium changes in the first nine months of 2013 remained positive and were slightly higher than in the same period of 2012. Renewal rate changes continued to exceed expected loss cost trends in the third quarter and first nine months of 2013. New business volume in the third quarter of 2013 increased over the same period of 2012. New business volume in the first nine months of 2013 declined from the same period of 2012.

Net written premiums in International in the third quarter of 2013 were $217 million, $17 million or 9% higher than in the same period of 2012. Net written premiums in the first nine months of 2013 were $787 million, $24 million or 3% higher than in the same period of 2012. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the third quarter of 2013 remained strong and were virtually level with the same period of 2012. In the first nine months of 2013, business retention rates remained strong and were higher than in the same period of 2012. Renewal premium changes in the third quarter and first nine months of 2013 were positive and increased over the same periods of 2012. Renewal rate changes remained positive but were lower than in the same periods of 2012. Insured exposures increased in the third quarter of 2013, compared with a decrease in the same period of 2012, while insured exposures in the first nine months of 2013 declined at a lower rate than in the same period of 2012. New business volume in the third quarter and first nine months of 2013 increased compared with the same periods of 2012.

Overview

Operating income in the third quarter of 2013 was $262 million, $56 million or 27% higher than operating income of $206 million in the same period of 2012. The increase in operating income primarily reflected the pretax impact of (i) higher underlying underwriting margins and (ii) an increase in other revenues, partially offset by (iii) a decline in net favorable prior year reserve development and (iv) lower net investment income. The higher underlying underwriting margins resulted from lower non-catastrophe weather-related losses and the impact of earned pricing that exceeded loss cost trends. Partially offsetting this net pretax increase in operating income was the related tax expense. The effective tax rate in the third quarter of 2013 increased over the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income. Net favorable prior year reserve development in the third quarters of 2013 and 2012 was $48 million and $65 million, respectively. Catastrophe losses in the third quarters of 2013 and 2012 were $38 million and $40 million, respectively.

Operating income in the first nine months of 2013 was $601 million, $270 million or 82% higher than operating income of $331 million in the same period of 2012. The increase in operating income primarily reflected the pretax impact of (i) higher underlying underwriting margins, (ii) lower catastrophe losses, (iii) an increase in net favorable prior year reserve development and (iv) an increase in other revenues, partially offset by (v) lower net investment income. The higher underlying underwriting margins resulted from the impact of earned pricing that exceeded loss cost trends and lower non-catastrophe weather-related losses. Partially offsetting this net pretax increase in operating income was the related tax expense. Additionally, operating income in the first nine months of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters in the second quarter of 2013. The effective tax rate in the first nine months of 2013 increased over the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income. Catastrophe losses in the first nine months of 2013 were $248 million, compared with $448 million in the same period of 2012. Net favorable prior year reserve development in the first nine months of 2013

was $173 million, compared with $142 million in the same period of 2012.

Table of Contents

Earned Premiums

Earned premiums in the third quarter of 2013 were $1.84 billion, $77 million or 4% lower than in the same period of 2012. Earned premiums in the first nine months of 2013 were $5.51 billion, $216 million or 4% lower than in the same period of 2012. The decreases in both periods of 2013 reflected lower net written premiums over the preceding twelve months.

Net Investment Income

Net investment income in the third quarter of 2013 was $90 million, $11 million or 11% lower than in the same period of 2012. Net investment income in the first nine months of 2013 was $275 million, $33 million or 11% lower than in the same period of 2012. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the decline in the Company s consolidated net investment income in the third quarter and first nine months of 2013 compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company s consolidated financial statements in the Company s Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company s net investment income allocation methodology.

Other Revenues

Other revenues in the third quarter and first nine months of 2013 included a $20 million gain from the sale of renewal rights in the third quarter of 2013 related to the Company s National Flood Insurance Program (NFIP) business. The Company was a participant in the NFIP Write Your Own (WYO) Program administered by the Federal Emergency Management Agency (FEMA) and the Federal Insurance & Mitigation Administration (FIMA).

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the third quarter of 2013 were $1.00 billion, $143 million or 13% lower than in the same period of 2012. The decrease primarily reflected (i) lower non-catastrophe weather-related losses, (ii) the impact of lower business volumes, partially offset by (iii) the impact of loss cost trends and (iv) lower net favorable prior year reserve development. Net favorable prior year reserve development in the third quarter of 2013 was $48 million, compared with $65 million in the same period of 2012. Net favorable prior year reserve development in the third quarter of 2013 was primarily driven by better than expected loss experience in the Homeowners and Other product line for catastrophe losses incurred in 2012. Net favorable prior year reserve development in the third quarter of 2012 was primarily driven by better than expected loss experience related to catastrophe and non-catastrophe weather-related losses incurred in 2011, as well as favorable loss experience in accident years 2007 through 2011 for the umbrella line of business in the Homeowners and Other product line. Catastrophe losses in the third quarter of 2013 were $38 million, compared with $40 million in the same period of 2012.

Claims and claim adjustment expenses in the first nine months of 2013 were $3.29 billion, $600 million or 15% lower than in the same period of 2012, primarily reflecting (i) lower catastrophe losses, (ii) lower non-catastrophe weather-related losses, (iii) higher net favorable prior year reserve development and (iv) the impact of lower business volumes, partially offset by (v) the impact of loss cost trends. Catastrophe losses in the first nine months of 2013 and 2012 were $248 million and $448 million, respectively. Net favorable prior year reserve development in the first nine months of 2013 and 2012 was $173 million and $142 million, respectively, driven by the same factors described above, as well as net favorable development in the first six months of 2013 for both catastrophe and non-catastrophe weather-related losses and non-weather-related losses for accident years 2012 and 2011 in the Homeowners and Other product line.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the third quarter of 2013 was $319 million, $41 million or 11% lower than in the same period of 2012. Amortization of deferred acquisition costs in the first nine months of 2013 was $971 million, $112 million or 10% lower than in the same period of 2012. The decrease in both periods of 2013 reflected the decline in earned premiums compared with the same periods of 2012, a reclassification of fee income related to the National Flood Insurance Program from general and administrative expenses to a component of acquisition costs to conform to the presentation prescribed by insurance regulators, and lower fixed-value commission expense.

General and Administrative Expenses

General and administrative expenses in the third quarter of 2013 were $256 million, $26 million or 11% higher than in the same period of 2012. General and administrative expenses in the first nine months of 2013 were $729 million, $66 million or 10% higher than in the same period of 2012. The increase in both periods of 2013 included an increase in contingent commission expense due to the increase in the number of agents reverting to a contingent commission compensation program

Table of Contents

and the impact of the reclassification of fee income described above. The increase in both periods of 2013 also included the impact of $10 million of restructuring charges, primarily comprised of severance costs related to the Company s announced plan to reduce certain claim and other insurance expenses in this segment.

Income Tax Expense

Income tax expense in the third quarter of 2013 was $121 million, $31 million or 34% higher than in the same period of 2012, primarily reflecting the impact of the $81 million increase in underwriting margins (including the impact of a decrease in net favorable prior year reserve development and a slight decrease in catastrophe losses) compared with the same period of 2012. Income tax expense in the first nine months of 2013 was $257 million, $142 million higher than in the same period of 2012, primarily reflecting the impacts of the $430 million increase in underwriting margins (including the impact of a decrease in catastrophe losses and the increase in net favorable prior year reserve development), partially offset by a reduction in income tax expense of $5 million resulting from the resolution of prior year tax matters in the second quarter of 2013.

GAAP Combined Ratio

The GAAP combined ratio of 84.7% in the third quarter of 2013 was 5.0 points lower than the GAAP combined ratio of 89.7% in the same period of 2012. The GAAP combined ratio of 89.5% in the first nine months of 2013 was 7.9 points lower than the GAAP combined ratio of 97.4% in the same period of 2012.

The loss and loss adjustment expense ratio of 54.5% in the third quarter of 2013 was 5.3 points lower than the loss and loss adjustment expense ratio of 59.8% in the same period of 2012. Catastrophe losses accounted for 2.0 points and 2.1 points of the loss and loss adjustment expense ratios in the third quarters of 2013 and 2012, respectively. The loss and loss adjustment expense ratio for the third quarters of 2013 and 2012 included 2.6 points and 3.4 points of benefit, respectively, from net favorable prior year reserve development. The 2013 third quarter underlying loss and loss adjustment expense ratio was 6.0 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The loss and loss adjustment expense ratio of 59.8% in the first nine months of 2013 was 8.2 points lower than the loss and loss adjustment expense ratio of 68.0% in the same period of 2012. Catastrophe losses accounted for 4.5 points and 7.8 points of the loss and loss adjustment expense ratios in the first nine months of 2013 and 2012, respectively. The loss and loss adjustment expense ratio for the first nine months of 2013 and 2012 included 3.2 points and 2.5 points of benefit, respectively, from net favorable prior year reserve development. The 2013 nine-month underlying loss and loss adjustment expense ratio was 4.2 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The underwriting expense ratio of 30.2% for the third quarter of 2013 was 0.3 points higher than the underwriting expense ratio of 29.9% in the same period of 2012. In the first nine months of 2013, the underwriting expense ratio of 29.7% was 0.3 points higher than the underwriting expense ratio of 29.4% in the same 2012 period. The increases in both periods of 2013 primarily reflected the decrease in earned premiums and restructuring charges discussed above.

Agency Written Premiums

Personal Insurance s gross and net written premiums by product line were as follows for its Agency business, which comprises business written through agents, brokers and other intermediaries and represents almost all of the Personal Insurance segment s gross and net written premiums:

	Gross Written Premiums			
	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	**2013**	**2012**	**2013**	**2012**
Agency Automobile	**$ 834**	$ 911	**$ 2,507**	$ 2,718
Agency Homeowners and Other	**1,150**	1,171	**3,158**	3,218
Total Agency Personal Insurance	**$ 1,984**	$ 2,082	**$ 5,665**	$ 5,936

Table of Contents

	Net Written Premiums			
	Three Months Ended September 30,		Nine Months Ended September 30,	
(in millions)	2013	2012	2013	2012
Agency Automobile	**$ 828**	$ 906	**$ 2,493**	$ 2,705
Agency Homeowners and Other	**1,039**	1,056	**2,892**	2,975
Total Agency Personal Insurance	**$ 1,867**	$ 1,962	**$ 5,385**	$ 5,680

In both the third quarter and first nine months of 2013, gross and net agency written premiums were 5% lower than in the respective periods of 2012. Renewal rate changes continued to exceed expected loss cost trends, assuming weather patterns consistent with the Company s expectations.

In the third quarter and first nine months of 2013 in the Agency Automobile line of business, net written premiums were 9% and 8% lower, respectively, than in the same periods of 2012. Business retention rates in the third quarter of 2013 remained strong and were higher than in the third quarter of 2012. In the first nine months of 2013, business retention rates remained strong but were slightly lower than in the same period of 2012. Renewal premium changes in the third quarter of 2013 remained positive, primarily driven by renewal rate changes, but were lower than in the third quarter of 2012. In the first nine months of 2013, renewal premium changes remained positive, primarily driven by renewal rate changes, and were higher than in the first nine months of 2012. New business levels in the third quarter and first nine months of 2013 were lower than in the same periods of 2012.

In the third quarter and first nine months of 2013 in the Agency Homeowners and Other line of business, net written premiums were 2% and 3% lower, respectively, than in the same periods of 2012. Business retention rates in the third quarter of 2013 remained strong and were slightly higher than in the same period of 2012. In the first nine months of 2013, business retention rates remained strong but were slightly lower than in the same period of 2012. Renewal premium changes in the third quarter of 2013 remained positive, primarily driven by renewal rate changes, but were lower than in the third quarter of 2012. In the first nine months of 2013, renewal premium changes remained positive, primarily driven by renewal rate changes, and were slightly higher than in the same period of 2012. New business levels in the third quarter of 2013 were higher than in the same period of 2012. New business levels in the first nine months of 2013 were lower than in the same period of 2012.

For its Agency business, the Personal Insurance segment had approximately 6.4 million and 7.1 million active policies at September 30, 2013 and 2012, respectively. In the third quarter of 2013, the Company sold the renewal rights related to its National Flood Insurance Program (NFIP) business. Active policies in force at both dates have been adjusted to exclude the NFIP business.

Direct to Consumer Written Premiums

In its direct to consumer business, net written premiums in the third quarter and first nine months of 2013 were $44 million and $123 million, respectively, compared with $44 million and $121 million in the respective periods of 2012. The direct to consumer business had 163,000 active policies at September 30, 2013, an increase of 3% over the same date in 2012.

Interest Expense and Other

(in millions)	Three Months Ended September 30, 2013	2012	Nine Months Ended September 30, 2013	2012
Operating loss	**$ (65)**	$ (62)	**$ (187)**	$ (196)

The operating loss for Interest Expense and Other in the third quarter of 2013 was $65 million, compared with $62 million in the same period of 2012. The operating loss for Interest Expense and Other in the first nine months of 2013 was $187 million, compared with $196 million in the same period of 2012. After-tax interest expense in the third quarter and first nine months of 2013 was $59 million and $175 million, respectively, compared with $60 million and $185 million, respectively, in the same periods of 2012. The decline in interest expense in both periods of 2013 primarily reflected lower average levels of debt outstanding.

Table of Contents

ASBESTOS CLAIMS AND LITIGATION

The Company believes that the property and casualty insurance industry has suffered from court decisions and other trends that have expanded insurance coverage for asbestos claims far beyond the original intent of insurers and policyholders. The Company has received and continues to receive a significant number of asbestos claims from the Company s policyholders (which includes others seeking coverage under a policy). Factors underlying these claim filings include continued intensive advertising by lawyers seeking asbestos claimants and the continued focus by plaintiffs on defendants who were not traditionally primary targets of asbestos litigation. The focus on these defendants is primarily the result of the number of traditional asbestos defendants who have sought bankruptcy protection in previous years. In addition to contributing to the overall number of claims, bankruptcy proceedings may increase the volatility of asbestos-related losses by initially delaying the reporting of claims and later by significantly accelerating and increasing loss payments by insurers, including the Company. The bankruptcy of many traditional defendants has also caused increased settlement demands against those policyholders who are not in bankruptcy but remain in the tort system. Currently, in many jurisdictions, those who allege very serious injury and who can present credible medical evidence of their injuries are receiving priority trial settings in the courts, while those who have not shown any credible disease manifestation are having their hearing dates delayed or placed on an inactive docket. Prioritizing claims involving credible evidence of injuries, along with the focus on defendants who were not traditionally primary targets of asbestos litigation, contributes to the claims and claim adjustment expense payment patterns experienced by the Company. The Company s asbestos-related claims and claim adjustment expense experience also has been impacted by the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers.

The Company continues to be involved in coverage litigation concerning a number of policyholders, some of whom have filed for bankruptcy, who in some instances have asserted that all or a portion of their asbestos-related claims are not subject to aggregate limits on coverage. In these instances, policyholders also may assert that each individual bodily injury claim should be treated as a separate occurrence under the policy. It is difficult to predict whether these policyholders will be successful on both issues. To the extent both issues are resolved in a policyholder s favor and other Company defenses are not successful, the Company s coverage obligations under the policies at issue would be materially increased and bounded only by the applicable per-occurrence limits and the number of asbestos bodily injury claims against the policyholders. Although the Company has seen a moderation in the overall risk associated with these lawsuits, it remains difficult to predict the ultimate cost of these claims.

Many coverage disputes with policyholders are only resolved through settlement agreements. Because many policyholders make exaggerated demands, it is difficult to predict the outcome of settlement negotiations. Settlements involving bankrupt policyholders may include extensive releases which are favorable to the Company but which could result in settlements for larger amounts than originally anticipated. There also may be instances where a court may not approve a proposed settlement, which may result in additional litigation and potentially less beneficial outcomes for the Company. As in the past, the Company will continue to pursue settlement opportunities.

In addition to claims against policyholders, proceedings have been launched directly against insurers, including the Company, by individuals challenging insurers conduct with respect to the handling of past asbestos claims and by individuals seeking damages arising from alleged asbestos-related bodily injuries. It is possible that the filing of other direct actions against insurers, including the Company, could be made in the future. It is difficult to predict the outcome of these proceedings, including whether the plaintiffs will be able to sustain these actions against insurers based on novel legal theories of liability. The Company believes it has meritorious defenses to these claims and has received favorable rulings in certain jurisdictions.

TPC had entered into settlement agreements, which are subject to a number of contingencies, in connection with a number of these direct action claims (Direct Action Settlements). For a full discussion of these settlement agreements, see the Asbestos Direct Action Litigation section of note 12 of notes to the unaudited consolidated financial statements in this report.

Because each policyholder presents different liability and coverage issues, the Company generally reviews the exposure presented by each policyholder at least annually. Among the factors which the Company may consider in the course of this review are: available insurance coverage, including the role of any umbrella or excess insurance the Company has issued to the policyholder; limits and deductibles; an analysis of the policyholder s potential liability; the jurisdictions involved; past

Table of Contents

and anticipated future claim activity and loss development on pending claims; past settlement values of similar claims; allocated claim adjustment expense; potential role of other insurance; the role, if any, of non-asbestos claims or potential non-asbestos claims in any resolution process; and applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products/completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

In the third quarter of 2013, the Company completed its annual in-depth asbestos claim review, including a review of active policyholders and litigation cases for potential product and non-product liability, and noted the continuation of the following trends:

- continued high level of litigation activity in certain jurisdictions involving individuals alleging serious asbestos-related illness;
- while overall payment patterns have been generally stable, there has been an increase in severity for certain policyholders due to the continued high level of litigation activity;
- continued moderate level of asbestos-related bankruptcy activity; and
- the absence of new theories of liability or new classes of defendants.

While the Company believes that over the past several years there has been a reduction in the volatility associated with the Company s overall asbestos exposure, there nonetheless remains a high degree of uncertainty with respect to future exposure from asbestos claims.

The Home Office and Field Office categories, which account for the vast majority of policyholders with active asbestos-related claims, experienced a slight increase in the number of policyholders with open asbestos claims at September 30, 2013 compared with September 30, 2012, while net asbestos-related payments in these categories decreased slightly in the first nine months of 2013 compared with the same period of 2012. Payments on behalf of policyholders in these categories continue to be influenced by the high level of litigation activity in a limited number of jurisdictions where individuals alleging serious asbestos-related injury continue to target defendants who were not traditionally primary targets of asbestos litigation.

The Company s quarterly asbestos reserve reviews include an analysis of exposure and claim payment patterns by policyholder category, as well as recent settlements, policyholder bankruptcies, judicial rulings and legislative actions. The Company also analyzes developing payment patterns among policyholders in the Home Office, Field Office and Assumed Reinsurance and Other categories as well as projected reinsurance billings and recoveries. In addition, the Company reviews its historical gross and net loss and expense paid experience, year-by-year, to assess any emerging trends, fluctuations, or characteristics suggested by the aggregate paid activity. Conventional actuarial methods are not utilized to establish asbestos reserves nor have the Company s evaluations resulted in any way of determining a meaningful average asbestos defense or indemnity payment.

The completion of these reviews and analyses in the third quarters of 2013 and 2012 resulted in $190 million and $175 million increases, respectively, in the Company s net asbestos reserves. In both 2013 and 2012, the reserve increases were primarily driven by increases in the Company s estimate of projected settlement and defense costs related to a broad number of policyholders in the Home Office category and by higher projected payments on assumed reinsurance accounts. The increase in the estimate of projected settlement and defense costs resulted from payment trends that continue to be moderately higher than previously anticipated due to the impact of the current litigation environment

discussed above. Notwithstanding these trends, the Company s overall view of the underlying asbestos environment is essentially unchanged from recent periods and there remains a high degree of uncertainty with respect to future exposure to asbestos claims.

Net asbestos paid losses in the first nine months of 2013 were $145 million, compared with $167 million in the same period of 2012. Net asbestos reserves were $2.42 billion at September 30, 2013, compared with $2.45 billion at September 30, 2012.

The following table displays activity for asbestos losses and loss expenses and reserves:

Table of Contents

(at and for the nine months ended September 30, in millions)	2013	2012
Beginning reserves:

See Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves.

ENVIRONMENTAL CLAIMS AND LITIGATION

The Company has received and continues to receive claims from policyholders who allege that they are liable for injury or damage arising out of their alleged disposition of toxic substances. Mostly, these claims are due to various legislative as well as regulatory efforts aimed at environmental remediation. For instance, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), enacted in 1980 and later modified, enables private parties as well as federal and state governments to take action with respect to releases and threatened releases of hazardous substances. This federal statute permits the recovery of response costs from some liable parties and may require liable parties to undertake their own remedial action. Liability under CERCLA may be joint and several with other responsible parties.

The Company has been, and continues to be, involved in litigation involving insurance coverage issues pertaining to environmental claims. The Company believes that some court decisions have interpreted the insurance coverage to be broader than the original intent of the insurers and policyholders. These decisions often pertain to insurance policies that were issued by the Company prior to the mid-1980s. These decisions continue to be inconsistent and vary from jurisdiction to jurisdiction. Environmental claims when submitted rarely indicate the monetary amount being sought by the claimant from the policyholder, and the Company does not keep track of the monetary amount being sought in those few claims which indicate a monetary amount.

The resolution of environmental exposures by the Company generally occurs through settlements with policyholders as opposed to claimants. Generally, the Company strives to extinguish any obligations it may have under any policy issued to the policyholder for past, present and future environmental liabilities and extinguish any pending coverage litigation dispute with the policyholder. This form of settlement is commonly referred to as a buy-back of policies for future environmental liability. In addition, many of the agreements have also extinguished any insurance obligation which the Company may have for other claims, including but not limited to asbestos and other cumulative injury claims. The Company and its policyholders may also agree to settlements which extinguish any liability arising from known specified sites or claims. Where appropriate, these agreements also include indemnities and hold harmless provisions to protect the Company. The Company s general purpose in

executing these agreements is to reduce the Company s potential environmental exposure and eliminate the risks presented by coverage litigation with the policyholder and related costs.

Table of Contents

In establishing environmental reserves, the Company evaluates the exposure presented by each policyholder and the anticipated cost of resolution, if any. In the course of this analysis, the Company generally considers the probable liability, available coverage, relevant judicial interpretations and historical value of similar exposures. In addition, the Company considers the many variables presented, such as: the nature of the alleged activities of the policyholder at each site; the number of sites; the total number of potentially responsible parties at each site; the nature of the alleged environmental harm and the corresponding remedy at each site; the nature of government enforcement activities at each site; the ownership and general use of each site; the overall nature of the insurance relationship between the Company and the policyholder, including the role of any umbrella or excess insurance the Company has issued to the policyholder; the involvement of other insurers; the potential for other available coverage, including the number of years of coverage; the role, if any, of non-environmental claims or potential non-environmental claims in any resolution process; and the applicable law in each jurisdiction. The evaluation of the exposure presented by a policyholder can change as information concerning that policyholder and the many variables presented is developed. Conventional actuarial techniques are not used to estimate these reserves.

In its review of environmental reserves, the Company considers: past settlement payments; changing judicial and legislative trends; its reserves for the costs of litigating environmental coverage matters; the potential for policyholders with smaller exposures to be named in new clean-up actions for both on- and off-site waste disposal activities; the potential for adverse development; the potential for additional new claims beyond previous expectations; and the potential higher costs for new settlements.

The duration of the Company s investigation and review of these claims and the extent of time necessary to determine an appropriate estimate, if any, of the value of the claim to the Company vary significantly and are dependent upon a number of factors. These factors include, but are not limited to, the cooperation of the policyholder in providing claim information, the pace of underlying litigation or claim processes, the pace of coverage litigation between the policyholder and the Company and the willingness of the policyholder and the Company to negotiate, if appropriate, a resolution of any dispute pertaining to these claims. Because these factors vary from claim-to-claim and policyholder-by-policyholder, the Company cannot provide a meaningful average of the duration of an environmental claim. However, based upon the Company s experience in resolving these claims, the duration may vary from months to several years.

The Company continues to receive notices from policyholders tendering claims for the first time, frequently under policies issued prior to the mid-1980 s. These policyholders continue to present smaller exposures, have fewer sites and are lower tier defendants. Further, in many instances, clean-up costs have been reduced because regulatory agencies are willing to accept risk-based site analyses and more efficient clean-up technologies. Over the past several years, the Company has experienced generally favorable trends in the number of new policyholders tendering environmental claims for the first time and in the number of pending declaratory judgment actions relating to environmental matters. However, the degree to which those favorable trends have continued has been less than anticipated. In addition, reserve development on existing environmental claims has been greater than anticipated. As a result of these factors, the Company increased its net environmental reserves by $65 million and $90 million in the second quarters of 2013 and 2012, respectively.

Net environmental paid losses in the first nine months of 2013 and 2012 were $53 million and $58 million, respectively. At September 30, 2013, approximately 94% of the net environmental reserve (approximately $337 million) was carried in a bulk reserve and included unresolved environmental claims, incurred but not reported environmental claims and the anticipated cost of coverage litigation disputes relating to these claims. The bulk reserve the Company carries is established and adjusted based upon the aggregate volume of in-process environmental claims and the Company s experience in resolving those claims. The balance, approximately 6% of the net environmental reserve (approximately $22 million), consists of case reserves.

Table of Contents

The following table displays activity for environmental losses and loss expenses and reserves:

UNCERTAINTY REGARDING ADEQUACY OF ASBESTOS AND ENVIRONMENTAL RESERVES

As a result of the processes and procedures discussed above, management believes that the reserves carried for asbestos and environmental claims at September 30, 2013 are appropriately established based upon known facts, current law and management s judgment. However, the uncertainties surrounding the final resolution of these claims continue, and it is difficult to determine the ultimate exposure for asbestos and environmental claims and related litigation. As a result, these reserves are subject to revision as new information becomes available and as claims develop. The continuing uncertainties include, without limitation, the risks and lack of predictability inherent in complex litigation, any impact from the bankruptcy protection sought by various asbestos producers and other asbestos defendants, a further increase or decrease in the cost to resolve, and/or the number of, asbestos and environmental claims beyond that which is anticipated, the role of any umbrella or excess policies the Company has issued, the resolution or adjudication of disputes pertaining to the amount of available coverage for asbestos and environmental claims in a manner inconsistent with the Company s previous assessment of these claims, the number and outcome of direct actions against the Company, future developments pertaining to the Company s ability to recover reinsurance for asbestos and environmental claims and the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers. In addition, uncertainties arise from the insolvency or bankruptcy of policyholders and other defendants. It is also not possible to predict changes in the legal, regulatory and legislative environment and their impact on the future development of asbestos and environmental claims. This environment could be affected by changes in applicable legislation and future court and regulatory decisions and interpretations, including the outcome of legal challenges to legislative and/or judicial reforms establishing medical criteria for the pursuit of asbestos claims. It is also difficult to predict the ultimate outcome of complex coverage disputes until settlement negotiations near completion and significant legal questions are resolved or, failing settlement, until the dispute is adjudicated. This is particularly the case with policyholders in bankruptcy where negotiations often involve a large number of claimants and other parties and require court approval to be effective. As part of its continuing analysis of asbestos and environmental reserves, the Company continues to study the implications of these and other developments. (Also see note 12 of notes to the unaudited consolidated financial statements in this report).

Because of the uncertainties set forth above, additional liabilities may arise for amounts in excess of the Company s current reserves. In addition, the Company s estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of

either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company s operating results in future periods.

Table of Contents

INVESTMENT PORTFOLIO

The Company s invested assets at September 30, 2013 were $72.53 billion, of which 93% was invested in fixed maturity and short-term investments, 1% in equity securities, 1% in real estate and 5% in other investments. Because the primary purpose of the investment portfolio is to fund future claims payments, the Company employs a conservative investment philosophy. A significant majority of funds available for investment are deployed in a widely diversified portfolio of high quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The carrying value of the Company s fixed maturity portfolio at September 30, 2013 was $62.10 billion. The Company closely monitors the duration of its fixed maturity investments, and investment purchases and sales are executed with the objective of having adequate funds available to satisfy the Company s insurance and debt obligations. The weighted average credit quality of the Company s fixed maturity portfolio, both including and excluding U.S. Treasury securities, was Aa2 at both September 30, 2013 and December 31, 2012. Below investment grade securities represented 3.3% and 3.1% of the total fixed maturity investment portfolio at September 30, 2013 and December 31, 2012, respectively. The average effective duration of fixed maturities and short-term securities was 3.6 (3.9 excluding short-term securities) at September 30, 2013 and 3.2 (3.4 excluding short-term securities) at December 31, 2012. The increase in the average effective duration of the Company s fixed maturities and short-term securities at September 30, 2013 when compared to year-end 2012 primarily reflected an increase in interest rates during the first nine months of 2013. See the Outlook section in Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations.

Obligations of States, Municipalities and Political Subdivisions

The Company s fixed maturity investment portfolio at September 30, 2013 and December 31, 2012 included $36.25 billion and $38.68 billion, respectively, of securities which are obligations of states, municipalities and political subdivisions (collectively referred to as the municipal bond portfolio). The municipal bond portfolio is diversified across the United States, the District of Columbia and Puerto Rico and includes general obligation and revenue bonds issued by states, cities, counties, school districts and similar issuers. Included in the municipal bond portfolio at September 30, 2013 and December 31, 2012 were $9.63 billion and $9.03 billion, respectively, of pre-refunded bonds, which are bonds for which states or municipalities have established irrevocable trusts, almost exclusively comprised of U.S. Treasury securities, which were created to satisfy their responsibility for payments of principal and interest. The irrevocable trusts are verified as to their sufficiency by an independent verification agent of the underwriter, issuer or trustee. In August 2013, Moody s Investor Service revised its outlook for U.S. states to stable from negative. Moody s local government outlook remains negative.

The Company bases its investment decision on the underlying credit characteristics of the municipal security. While its municipal bond portfolio includes a number of securities that were enhanced by third-party insurance for the payment of principal and interest in the event of an issuer default, the Company does not rely on enhanced credit characteristics provided by such third-party insurance as part of its investing decisions. Of the insured municipal securities in the Company s investment portfolio at September 30, 2013, approximately 99% were rated at A3 or above, and approximately 91% were rated at Aa3 or above, without the benefit of insurance. The Company believes that a loss of the benefit of insurance would not result in a material adverse impact on the Company s results of operations, financial position or liquidity, due to the underlying credit strength of the issuers of the securities, as well as the Company s ability and intent to hold the securities. The average credit rating of the underlying issuers of these securities was Aa2 at September 30, 2013. The average credit rating of the entire municipal bond portfolio was Aa1 at September 30, 2013 with and without the enhancement provided by third-party insurance.

Mortgage-Backed Securities, Collateralized Mortgage Obligations and Pass-Through Securities

The Company s fixed maturity investment portfolio at September 30, 2013 and December 31, 2012 included $2.52 billion and $3.00 billion, respectively, of residential mortgage-backed securities including pass-through-securities and collateralized mortgage obligations (CMOs), all of which are subject to prepayment risk (either shortening or lengthening of duration).

Table of Contents

While prepayment risk for securities and its effect on income cannot be fully controlled, particularly when interest rates move dramatically, the Company s investment strategy generally favors securities that reduce this risk within expected interest rate ranges. Included in the totals at September 30, 2013 and December 31, 2012 were $1.12 billion and $1.44 billion, respectively, of GNMA, FNMA and FHLMC (excluding FHA project loans) guaranteed residential mortgage-backed pass-through securities classified as available for sale. Also included in those totals were residential CMOs classified as available for sale with a fair value of $1.40 billion and $1.56 billion, at September 30, 2013 and December 31, 2012, respectively. Approximately 43% of the Company s CMO holdings at both September 30, 2013 and December 31, 2012 were guaranteed by or fully collateralized by securities issued by GNMA, FNMA or FHLMC. The average credit rating of the $793 million and $893 million of non-guaranteed CMO holdings at September 30, 2013 and December 31, 2012, respectively, was Ba3 and B2, respectively. The average credit rating of all of the above securities was A1 at both September 30, 2013 and December 31, 2012.

The Company makes investments in residential CMOs that are either guaranteed by GNMA, FNMA or FHLMC, or if not guaranteed, are senior or super-senior positions within their respective securitizations. Both guaranteed and non-guaranteed residential CMOs allocate the distribution of payments from the underlying mortgages among different classes of bondholders. In addition, non-guaranteed residential CMOs provide structures that allocate the impact of credit losses to different classes of bondholders. Senior and super-senior CMOs are protected, to varying degrees, from credit losses as those losses are initially allocated to subordinated bondholders. The Company s investment strategy is to purchase CMO tranches that are expected to offer the most favorable return given the Company s assessment of associated risks. The Company does not purchase residual interests in CMOs.

Alternative Documentation Mortgages and Sub-Prime Mortgages

At September 30, 2013 and December 31, 2012, the Company s fixed maturity investment portfolio included collateralized mortgage obligations backed by alternative documentation mortgages and asset-backed securities collateralized by sub-prime mortgages with a collective fair value of $308 million and $347 million, respectively (comprising less than 1% of the Company s total fixed maturity investments at both dates). The Company defines sub-prime mortgage-backed securities as investments in which the underlying loans primarily exhibit one or more of the following characteristics: low FICO scores, above-prime interest rates, high loan-to-value ratios or high debt-to-income ratios. Alternative documentation securitizations are those in which the underlying loans primarily meet the government-sponsored entities requirements for credit score but do not meet the government-sponsored entities guidelines for documentation, property type, debt and loan-to-value ratios. The average credit rating on these securities and obligations held by the Company was Ba2 and Ba1 at September 30, 2013 and December 31, 2012, respectively.

Commercial Mortgage-Backed Securities and Project Loans

At September 30, 2013 and December 31, 2012, the Company held commercial mortgage-backed securities (including FHA project loans) of $416 million and $453 million, respectively. The Company does not believe this portfolio exposes it to a material adverse impact on its results of operations, financial position or liquidity, due to the portfolio s relatively small size and the underlying credit strength of these securities.

Equity Securities Available for Sale, Real Estate and Short-Term Investments

See note 1 of notes to the Company s consolidated financial statements in the Company s Annual Report on Form 10-K for the year ended December 31, 2012 for further information about these invested asset classes. Included in short-term investments at September 30, 2013 was approximately $998 million (C$1.028 billion) of short-term investments that will be utilized to fund the Company s acquisition of The Dominion General Insurance Company of Canada, which is expected to be completed in the fourth quarter of 2013, pending final regulatory approvals.

Table of Contents

Other Investments

At September 30, 2013 and December 31, 2012, the carrying value of the Company s other investments was $3.43 billion. The Company s other investments are primarily comprised of private equity limited partnerships, hedge funds, real estate partnerships, joint ventures, mortgage loans, venture capital (through direct ownership and limited partnerships) and trading securities, which are subject to more volatility than the Company s fixed maturity investments. These asset classes have historically provided a higher return than fixed maturities but are subject to more volatility.

CATASTROPHE REINSURANCE COVERAGE

There have been no material changes to the Company s catastrophe reinsurance coverage from that reported in the Reinsurance section of Part I Item 1 Business of the Annual Report on Form 10-K for the year ended December 31, 2012 except for those changes discussed in the Catastrophe Reinsurance Coverage section of Part I Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations in the Company s Quarterly Report on Form 10-Q for the quarter ended June 30, 2013**.** The Company regularly reviews its catastrophe reinsurance coverage and may adjust such coverage in the future.

REINSURANCE RECOVERABLES

For a description of the Company s reinsurance recoverables, refer to Reinsurance Recoverables in the Company s Annual Report on Form 10-K for the year ended December 31, 2012.

The following table summarizes the composition of the Company s reinsurance recoverables:

(in millions)		**September 30, 2013**		**December 31, 2012**
Gross reinsurance recoverables on paid and unpaid claims and claim adjustment expenses	**$**	**4,761**	$	5,256
Allowance for uncollectible reinsurance		**(245)**		(258)
Net reinsurance recoverables		**4,516**		4,998
Mandatory pools and associations		**1,878**		2,549
Structured settlements		**3,150**		3,165
Total reinsurance recoverables	**$**	**9,544**	$	10,712

The $482 million decline in net reinsurance recoverables since December 31, 2012 primarily reflected the impact of cash collections, including commutation agreements, and the impact of net favorable prior year reserve development in the first nine months of 2013.

OUTLOOK

The following discussion provides outlook information for certain key drivers of the Company s results of operations and capital position.

Premiums. The Company s earned premiums are a function of net written premium volume. Net written premiums comprise both renewal business and new business and are recognized as earned premium over the life of the underlying policies. When business renews, the amount of net written premiums associated with that business may increase or decrease (renewal premium change) as a result of increases or decreases in rate and/or insured exposures, which the Company considers as a measure of units of exposure (such as the number and value of vehicles or properties insured). Net written premiums from both renewal and new business, and therefore earned premiums, are impacted by competitive market conditions as well as general economic conditions, which, particularly in the case of the Business Insurance segment, affect audit premium adjustments, policy endorsements and mid-term cancellations. Net written premiums are also impacted by the structure of reinsurance programs and related costs.

Given the possibility that more active weather patterns such as the Company experienced in a number of recent periods may continue, as well as the possibility that interest rates may remain low for some period of time, along with the current level of profitability in certain of its product lines, the Company has undertaken various efforts, and expects to undertake additional efforts, to improve its underwriting margins. These efforts include seeking improved rates where the Company believes it is appropriate, as well as improved terms and conditions, on many of its insurance products, and also include other initiatives, such as reducing operating expenses and acquisition costs. In the Agency Automobile line of business, given new business levels, the Company has undertaken various actions (which are discussed in more detail in the Underwriting Gain/Loss section below) to reduce expenses and costs in order to improve underwriting margins and enable it to have a more competitively-priced product. These and other actions to improve profitability with respect to Agency Automobile or the Company s other business units may not be successful and/or may result in lower retention and new business levels and therefore lower business volumes. If these actions are not effective, the Company may need to explore other actions or initiatives to improve its competitive position and profitability. Refer to Part I Item 1A Risk Factors The intense competition that we face could harm our ability to maintain or increase our business volumes and our profitability and Disruptions to our relationships with our independent agents and brokers could adversely affect us in the Company s Annual Report on Form 10-K for the year ended December 31, 2012.

Overall, the Company expects retention levels (the amount of expiring premium that renews, before the impact of renewal premium changes) will remain strong relative to historical experience. The Company also expects to continue to achieve, in the aggregate, price increases on renewal business during the remainder of 2013 and into 2014 that generally exceed loss cost trends. In the Business Insurance segment, the Company expects that renewal premium changes during the remainder of 2013 and into 2014 will be broadly consistent with the levels attained in the first nine months of 2013 and will be driven by both positive renewal rate changes and, subject to the economic uncertainties discussed below, growth in insured exposures. In the Financial, Professional & International Insurance segment, the Company expects that renewal premium changes during the remainder of 2013 and into 2014 will be broadly consistent with the first nine months of 2013. With respect to surety, the Company expects net written premium volumes during the remainder of 2013 and in the first nine months of 2014 that are broadly consistent with the respective periods of 2012 and 2013. In the Personal Insurance segment, the Company expects both Agency Automobile and Agency Homeowners and Other renewal premium changes during the remainder of 2013 and into 2014 will decline as compared to the first nine months of 2013, but the Company expects such renewal premium changes will remain positive and exceed underlying loss cost trends, assuming weather patterns and other loss trends consistent with the Company s expectations. Renewal premium changes for both Agency Automobile and Agency Homeowners and Other in the remainder of 2013 and into 2014 are expected to be driven by both positive renewal rate changes (based on the Company s actions to file for rate increases) and, subject to the economic uncertainties discussed below, growth in insured exposures. The need for state regulatory approval for changes to personal property and casualty insurance prices, as well as competitive market conditions, may impact the timing and extent of renewal premium changes.

The pricing environment for new business generally has less of an impact on underwriting profitability than renewal rate changes, given the volume of new business relative to renewal business. Property and casualty insurance market conditions are expected to remain competitive during the remainder of 2013 and into 2014 for new business,

Table of Contents

not only in Business Insurance and Financial, Professional & International Insurance, but especially in Personal Insurance, where price comparison technology used by agents and brokers, sometimes referred to as comparative raters, has facilitated the process of generating multiple quotes, thereby increasing price comparison on new business and, increasingly, on renewal business.

Modest economic growth in the United States experienced in recent periods may or may not continue, or may continue at a slower rate for an extended period of time. In addition, some economic conditions, such as employment rates, may continue to be weak. Future actions or inactions of the United States government, such as a failure to increase the government debt limit or a shutdown of the federal government, could increase the actual or perceived risk that the U.S. may not ultimately pay its obligations when due and may disrupt financial markets. Further, general uncertainty regarding the U.S. Federal budget and taxes has added to the uncertainty regarding economic conditions generally. If weak economic conditions persist or deteriorate, the resulting low levels of economic activity could impact exposure changes at renewal and the Company s ability to write business at acceptable rates. Additionally, low levels of economic activity could adversely impact audit premium adjustments, policy endorsements and mid-term cancellations after policies are written. All of the foregoing, in turn, could adversely impact net written premiums during the remainder of 2013 and into 2014 and, since earned premiums are a function of net written premiums, earned premiums could be adversely impacted later in 2013 and into 2014.

Underwriting Gain/Loss. The Company s underwriting gain/loss can be significantly impacted by catastrophe losses and net favorable or unfavorable prior year reserve development, as well as underlying underwriting margins.

Catastrophe and other weather-related losses are inherently unpredictable from period to period. The Company experienced significant catastrophe and other weather-related losses in a number of recent periods which adversely impacted its results of operations. The Company s results of operations would continue to be adversely impacted if significant catastrophe and other weather-related losses were to occur during the remainder of 2013 and into 2014.

For the last several years, the Company s results have included significant amounts of net favorable prior year reserve development, although at lower levels in some recent years, driven by better than expected loss experience in all of the Company s segments. The lower level of net favorable prior year reserve development in a number of recent periods may have been in part due to the Company s reserve estimation process incorporating those factors that led to the higher levels of net favorable prior year reserve development in previous years. If that trend continues, the better than expected loss experience may continue at these recent lower levels, or even lower levels. However, given the inherent uncertainty in estimating claims and claim adjustment expense reserves, loss experience could develop such that the Company recognizes higher or lower levels of favorable prior year reserve development, no favorable prior year reserve development or unfavorable prior year reserve development in future periods. In addition, the ongoing review of prior year claims and claim adjustment expense reserves, or other changes in current period circumstances, may result in the Company revising current year loss estimates upward or downward in future periods of the current year.

Table of Contents

In Business Insurance, the Company expects that the anticipated impact of increases in renewal premium changes, partially offset by consistent modest loss cost trends, and assuming weather patterns consistent with the Company s expectations, will likely result in underlying underwriting margins during the remainder of 2013 and in the first nine months of 2014 that are higher than in the respective periods of 2012 and 2013.

In Financial, Professional & International Insurance (excluding the impact of the pending acquisition of The Dominion), the Company expects that the anticipated impact of recent underwriting actions and positive renewal premium changes, partially offset by consistent modest loss cost trends, and assuming weather patterns and what the Company defines as large losses consistent with the Company s expectations, will likely result in underlying underwriting margins during the remainder of 2013 and into 2014 that are slightly improved over the first nine months of 2013. The Company expects to receive the remaining regulatory approvals for its acquisition of The Dominion to enable it to close the transaction in the fourth quarter of 2013, subject to the satisfaction of customary closing conditions. Historically, The Dominion has had a higher combined ratio than the existing business in the Financial, Professional & International Insurance segment. As a result, during the remainder of 2013 and into 2014, the acquisition of The Dominion is expected to negatively impact this segment s combined ratio and underlying underwriting margins. While the Company intends to take actions to improve profitability at The Dominion, it will be a number of years before these actions, to the extent successful, will be fully realized.

In Personal Insurance, the Company anticipates underlying underwriting margins during the remainder of 2013 and in the first nine months of 2014 that are broadly consistent with the respective periods of 2012 and 2013. In Agency Automobile, the Company anticipates an improvement in underlying underwriting margins during the remainder of 2013 and in the first nine months of 2014 compared to the respective periods of 2012 and 2013 due to the anticipated impact of continued positive renewal premium changes, combined with the Company s announced plan to reduce certain claim and other insurance expenses, partially offset by loss cost trends. The Company anticipates that the recently announced launching of Quantum Auto 2.0, as discussed below, will not have a meaningful impact on underlying underwriting margins during the remainder of 2013 and into 2014. In Agency Homeowners and Other, the Company anticipates a modest decline in underlying underwriting margins during the remainder of 2013 and in the first nine months of 2014 compared to the respective periods of 2012 and 2013, reflecting a return to non-catastrophe weather-related loss levels and loss cost trends consistent with the Company s expectations, partially offset by the anticipated impact of continued positive renewal premium changes. Also in Personal Insurance, the Company s direct to consumer initiative, the distribution channel that the Company launched in 2009, while intended to enhance the Company s long-term ability to compete successfully in a consumer-driven marketplace, is expected to remain unprofitable for a number of years as this book of business grows and matures.

The Agency Automobile line of business has been negatively impacted by various factors, including the use of price comparison technology by agents and brokers as discussed above. The Company s actions include, among other things, an announced plan to reduce certain claim and other insurance expenses, with the majority of the impact in the Agency Automobile line of business. That plan is intended to result in annualized savings of $140 million pre-tax in 2015 when fully implemented. It is also expected to result in a restructuring charge of approximately $16 million, $10 million of which was incurred in the third quarter of 2013. Additionally, in the third quarter, the Company announced that it is launching a new private passenger automobile product, Quantum Auto 2.0. This product will have a lower base commission rate than the Company s existing Quantum Auto 1.0 product. The change in commission structure, combined with the anticipated cost reductions described above, is intended to enable the Company to price Quantum Auto 2.0 more competitively while generating an appropriate return. The new product is being launched in approximately fifteen states in the fourth quarter of 2013 and is expected to be eventually offered in all but three states before the end of 2014. The Company currently intends that, in approved states, all new accounts will be on the new product; in addition, the product will also be available to agents at their discretion for existing accounts.

Investment Portfolio. The Company expects to continue to focus its investment strategy on maintaining a high-quality investment portfolio and a relatively short average effective duration. The average effective duration of fixed maturities and short-term securities was 3.6 (3.9 excluding short-term securities) at September 30, 2013. By the end of the second quarter of 2013, based upon the outlook for interest rates as compared to the carrying cost of these positions, the Company closed all of its short positions in U.S. Treasury futures, which it has used to manage the duration of its fixed maturity portfolio to reduce the Company s exposure to a decrease in its book value

74

resulting from an increase in interest rates. During the third quarter of 2013, the Company did not enter into any U.S. Treasury futures contracts. The Company may once again enter into short positions in U.S. Treasury futures in future periods. The Company continually evaluates its investment alternatives and mix. Currently, the majority of the Company s investments are comprised of a widely diversified portfolio of high-quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The Company also invests much smaller amounts in equity securities, real estate, private equity limited partnerships, hedge funds, real estate partnerships, joint ventures, mortgage loans, venture capital (through direct ownership and limited partnerships) and trading securities. These investment classes have the potential for higher returns but also the potential for higher degrees of risk, including less stable rates of return and less liquidity.

Net investment income is a material contributor to the Company s results of operations. Interest rates remain at very low levels by historical standards. Based on the current interest rate environment, the Company estimates that the impact of lower reinvestment yields on the Company s fixed maturity portfolio could, in the remainder of 2013 and into 2014, result in approximately $25 million of lower after-tax net investment income from that portfolio on a quarterly basis as compared to the corresponding prior year quarter. Given recent general economic and investment market conditions, the Company expects investment income from the non-fixed maturity portfolio for the fourth quarter of 2013 will be lower than the fourth quarter of 2012. If general economic conditions and/or investment market conditions deteriorate in the remainder of 2013 or during 2014, the Company could also experience a further reduction in net investment income and/or significant realized investment losses, including impairments. Future actions or inactions of the United States government, such as a failure to increase the government debt limit or a shutdown of the federal government, could increase the actual or perceived risk that the U.S. may not ultimately pay its obligations when due and may disrupt financial markets. The carrying value of the Company s investments in U.S. Treasury securities and obligations of U.S. government and government agencies and authorities was $2.11 billion at September 30, 2013. Additionally, the carrying value of the Company s investments in obligations of states, municipalities and political subdivisions included pre-refunded bonds of $9.63 billion at September 30, 2013. Pre-refunded bonds are bonds for which states or municipalities have established irrevocable trusts, almost exclusively comprised of U.S. Treasury securities, which were created to satisfy their responsibility for payments of principal and interest. For further discussion of the Company s investment portfolio, see Investment Portfolio in this report. For a discussion of the risks to the Company s business during or following a financial market disruption and risks to the Company s investment portfolio, see the risk factors entitled During or following a period of financial market disruption or economic downturn, our business could be materially and adversely affected and Our investment portfolio may suffer reduced returns or material realized or unrealized losses included in Part I Item 1A Risk Factors in the Company s Annual Report on Form 10-K for the year ended December 31, 2012.

Capital Position. The Company believes it has a strong capital position and, as part of its ongoing efforts to create shareholder value, expects to continue to return capital not needed to support its business operations to its shareholders. The Company expects that, generally over time, the combination of dividends to common shareholders and common share repurchases will likely not exceed operating income. In addition, the timing and actual number of shares to be repurchased in the future will depend on a variety of additional factors, including the Company s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company s desired ratings from independent rating agencies, funding of the Company s qualified pension plan, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. For information regarding the Company s common share repurchases in 2013, see Liquidity and Capital Resources in this report.

The Company had a net after-tax unrealized investment gain of $1.40 billion in its fixed maturity investment portfolio at September 30, 2013. While the Company does not attempt to predict future interest rate movements, a rising interest rate environment would reduce the market value of fixed maturity investments and, therefore, reduce shareholders equity, and a declining interest rate environment would have the opposite effects. For a discussion of the risks to the Company s business during or following a financial market disruption and risks to the Company s investment portfolio, see the risk factors entitled During or following a period of financial market disruption or economic downturn, our business

could be materially and adversely affected and Our investment portfolio may

Table of Contents

suffer reduced returns or material realized or unrealized losses included in Part I Item 1A Risk Factors in the Company s Annual Report on Form 10-K for the year ended December 31, 2012.

Many of the statements in this Outlook section are forward-looking statements, which are subject to risks and uncertainties that are often difficult to predict and beyond the Company s control. Actual results could differ materially from those expressed or implied by such forward-looking statements. Further, such forward-looking statements speak only as of the date of this report and the Company undertakes no obligation to update them. See Forward Looking Statements. For a discussion of potential risks and uncertainties that could impact the Company s results of operations or financial position, see Item 1A Risk Factors in the Company s Annual Report on Form 10-K for the year ended December 31, 2012, Item 1A Risk Factors of the Company s Quarterly Report on Form 10-Q for the quarter ended June 30, 2013 and Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates in this report.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is a measure of a company s ability to generate sufficient cash flows to meet the cash requirements of its business operations and to satisfy general corporate purposes when needed. The liquidity requirements of the Company have been met primarily by funds generated from premiums, fees, income received on investments and investment maturities. Cash provided from these sources is used primarily for claims and claim adjustment expense payments, operating expenses, debt servicing, taxes, shareholder dividends and, in recent years, for common share repurchases. The timing and amount of catastrophe claims are inherently unpredictable. Such claims increase liquidity requirements. The timing and amount of reinsurance recoveries may be affected by reinsurer solvency and reinsurance coverage disputes. Additionally, the variability of asbestos-related claim payments, as well as the volatility of potential judgments and settlements arising out of litigation, may also result in increased liquidity requirements. It is the opinion of the Company s management that the Company s future liquidity needs will be adequately met from all of the above sources.

At September 30, 2013, total cash and short-term invested assets aggregating $1.87 billion and having a weighted average maturity of 74 days were held in the United States by the holding company. These assets are sufficient to meet the holding company s current liquidity requirements and are in excess of the Company s minimum target level, comprising the Company s estimated annual pretax interest expense and common shareholder dividends, and currently totaling approximately $1.1 billion. These liquidity requirements primarily include shareholder dividends, debt service and, from time to time, contributions to its qualified domestic pension plan.

The holding company is not dependent on dividends or other forms of repatriation from its foreign operations to support its liquidity needs. U.S. income taxes have not been recognized on substantially all of the Company s foreign operations undistributed earnings as of September 30, 2013, as such earnings are intended to be permanently reinvested in those operations. Furthermore, taxes paid to foreign governments on these earnings may be used as credits against the U.S. tax on dividend distributions if such earnings were to be distributed to the holding company. The amount of undistributed earnings from foreign operations and related taxes on those undistributed earnings were not material to the Company s financial position or liquidity at September 30, 2013.

Table of Contents

On June 7, 2013, the Company entered into a five-year, $1.0 billion revolving credit agreement with a syndicate of financial institutions, replacing its three-year $1.0 billion credit agreement that was due to expire on June 10, 2013. For additional information regarding terms and covenants in this credit agreement, see note 7 of notes to the unaudited consolidated financial statements in this report. This credit agreement also supports the Company s $800 million commercial paper program, of which $100 million was outstanding at September 30, 2013. The Company is not reliant on its commercial paper program to meet its operating cash flow needs.

On June 19, 2013, the Company filed a shelf registration statement with the Securities and Exchange Commission. For additional information regarding this shelf registration statement, see note 8 of notes to the unaudited consolidated financial statements in this report.

The Company currently utilizes uncollateralized letters of credit issued by major banks with an aggregate limit of approximately $391 million to provide much of the capital needed to support its obligations at Lloyd s. If uncollateralized letters of credit are not available at a reasonable price or at all in the future, the Company can collateralize these letters of credit or may have to seek alternative means of supporting its obligations at Lloyd s, which could include utilizing holding company funds on hand.

Operating Activities

Net cash flows provided by operating activities in the first nine months of 2013 and 2012 were $2.89 billion and $2.77 billion, respectively.

Investing Activities

Net cash flows used in investing activities in the first nine months of 2013 and 2012 were $1.11 billion and $1.16 billion, respectively. The Company s consolidated total investments at September 30, 2013 decreased by $1.31 billion or 2% from year-end 2012, which included the impact of a significant decline in net unrealized appreciation of investments driven by an increase in interest rates.

Financing Activities

Net cash flows used in financing activities in the first nine months of 2013 and 2012 were $1.81 billion and $1.61 billion, respectively. The totals in both periods primarily reflected common share repurchases, dividends to shareholders and debt repayments, partially offset by the proceeds from employee stock option exercises and, in 2013, proceeds from the issuance of debt.

Dividends. Dividends paid to shareholders were $549 million and $519 million in the first nine months of 2013 and 2012, respectively. The declaration and payment of future dividends to holders of the Company s common stock will be at the discretion of the Company s board of directors and will depend upon many factors, including the Company s financial position, earnings, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints and other factors as the board of directors deems relevant. Dividends will be

paid by the Company only if declared by its board of directors out of funds legally available, subject to any other restrictions that may be applicable to the Company. On October 22, 2013, the Company announced that it declared a regular quarterly dividend of $0.50 per share, payable December 31, 2013, to shareholders of record on December 10, 2013.

Share Repurchase Authorization. The Company s board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company s desired ratings from independent rating agencies, funding of the Company s qualified pension plan, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. During the three months and nine months ended September 30, 2013, the Company repurchased 9.7 million and 17.0 million shares, respectively, under its share repurchase authorization, for a total cost of $800 million and $1.40 billion, respectively. The average cost per share repurchased was $82.21 and $82.12, respectively. At September 30, 2013, the Company had $759 million of capacity remaining under the share repurchase authorization. On October 22, 2013, the board of directors approved a share repurchase authorization that added an additional $5.0 billion of repurchase capacity to the $759 million of capacity remaining at September 30, 2013.

Table of Contents

Capital Structure. The following table summarizes the components of the Company s capital structure at September 30, 2013 and December 31, 2012.

(in millions)	September 30, 2013	December 31, 2012
Debt:		
Short-term	**$ 100**	$ 600
Long-term	**6,261**	5,761
Net unamortized fair value adjustments and debt issuance costs	**(15)**	(11)
Total debt	**6,346**	6,350
Shareholders equity:		
Common stock and retained earnings, less treasury stock	**24,106**	23,169
Accumulated other comprehensive income	**705**	2,236
Total shareholders equity	**24,811**	25,405
Total capitalization	**$ 31,157**	$ 31,755

On July 25, 2013, the Company issued $500 million aggregate principal amount of 4.60% senior notes that will mature on August 1, 2043. See note 7 of notes to the consolidated financial statements herein for further discussion.

The following table provides a reconciliation of total capitalization excluding net unrealized gain on investments to total capitalization presented in the foregoing table.

(dollars in millions)	September 30, 2013	December 31, 2012
Total capitalization excluding net unrealized gain on investments	**$ 29,598**	$ 28,652
Net unrealized gain on investments, net of taxes	**1,559**	3,103
Total capitalization	**$ 31,157**	$ 31,755
Debt-to-total capital ratio	**20.4%**	20.0%
Debt-to-total capital ratio excluding net unrealized gain on investments	**21.4%**	22.2%

The debt-to-total capital ratio excluding net unrealized gain on investments is calculated by dividing (a) debt by (b) total capitalization excluding net unrealized gains and losses on investments, net of taxes. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company s management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company s financial leverage position. The Company s ratio of debt-to-total capital (excluding after-tax net unrealized investment gains) was 21.4% at September 30, 2013, within the Company s target range of 15% to 25%.

RATINGS

Ratings are an important factor in assessing the Company s competitive position in the insurance industry. The Company receives ratings from the following major rating agencies: A.M. Best Company (A.M. Best), Fitch Ratings (Fitch), Moody s Investors Service (Moody s) and Standard & Poor s (S&P). The following rating agency action was taken with respect to the Company since July 23, 2013, the date on which the Company s Form 10-Q for the quarter ended June 30, 2013 was filed with the Securities and Exchange Commission. For additional discussion of ratings, see the Ratings section of Part I Item 1 Business in the Company s Annual Report on Form 10-K for the year ended December 31, 2012.

- On October 1, 2013, A.M. Best withdrew its A financial strength rating and a issuer credit rating for First Trenton Indemnity Company (First Trenton) as a result of First Trenton s merger into an affiliate company, The Travelers Indemnity Company, a member of the Travelers Reinsurance Pool.

Table of Contents

CRITICAL ACCOUNTING ESTIMATES

For a description of the Company s critical accounting estimates, refer to Item 7 Management s Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates in the Company s Annual Report on Form 10-K for the year ended December 31, 2012. The Company considers its most significant accounting estimates to be those applied to claims and claim adjustment expense reserves and related reinsurance recoverables, investment valuation and impairments, and goodwill and other intangible assets impairments. Except as shown in the table below, there have been no material changes to the Company s critical accounting estimates since December 31, 2012.

Claims and Claim Adjustment Expense Reserves

The table below displays the Company s gross claims and claim adjustment expense reserves by product line. Additional liabilities may arise for amounts in excess of the current related reserves. In addition, the Company s estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company s operating results in future periods. In particular, a portion of the Company s gross claims and claim adjustment expense reserves (totaling $3.06 billion at September 30, 2013) are for asbestos and environmental claims and related litigation. While the ongoing review of asbestos and environmental claims and associated liabilities considers the inconsistencies of court decisions as to coverage, plaintiffs expanded theories of liability and the risks inherent in complex litigation and other uncertainties, in the opinion of the Company s management, it is possible that the outcome of the continued uncertainties regarding these claims could result in liability in future periods that differs from current reserves by an amount that could be material to the Company s future operating results. See the preceding discussion of Asbestos Claims and Litigation and Environmental Claims and Litigation.

Gross claims and claim adjustment expense reserves by product line were as follows:

	September 30, 2013			December 31, 2012		
(in millions)	**Case**	**IBNR**	**Total**	**Case**	**IBNR**	**Total**
General liability	**$ 5,378**	**$ 8,825**	**$ 14,203**	$ 5,525	$ 9,109	$ 14,634
Commercial property	**853**	**532**	**1,385**	992	638	1,630
Commercial multi-peril	**1,933**	**1,701**	**3,634**	2,018	1,723	3,741
Commercial automobile	**2,338**	**1,207**	**3,545**	2,343	1,241	3,584
Workers compensation	**9,901**	**7,759**	**17,660**	9,684	7,589	17,273
Fidelity and surety	**404**	**924**	**1,328**	479	934	1,413
Personal automobile	**1,900**	**678**	**2,578**	1,980	722	2,702
Homeowners and personal other	**638**	**598**	**1,236**	1,335	809	2,144
International and other	**2,046**	**1,507**	**3,553**	2,216	1,551	3,767
Property-casualty	**25,391**	**23,731**	**49,122**	26,572	24,316	50,888
Accident and health	**31**		**31**	34		34
Claims and claim adjustment expense reserves	**$ 25,422**	**$ 23,731**	**$ 49,153**	$ 26,606	$ 24,316	$ 50,922

The $1.77 billion decrease in gross claims and claim adjustment expense reserves since December 31, 2012 primarily reflected payments related to significant catastrophe losses incurred in 2012, the impact of net favorable prior year reserve development and payments related to operations

in runoff, including asbestos and environmental claims.

Asbestos and environmental reserves are included in the General liability, Commercial multi-peril and International and other lines in the summary table above. Asbestos and environmental reserves are discussed separately; see Asbestos Claims and Litigation , Environmental Claims and Litigation and Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves in this report.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

See note 1 of notes to the Company s unaudited consolidated financial statements contained in this quarterly report for a discussion of recently issued accounting pronouncements.

Table of Contents

FORWARD-LOOKING STATEMENTS

This report contains, and management may make, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, may be forward-looking statements. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, believes, estimates and similar expressions are used to identify these statements. Specifically, statements about the Company s share repurchase plans, expected margin improvement, future pension plan contributions and the potential impact of investment markets and other economic conditions on the Company s investment portfolio and underwriting results, among others, are forward looking, and the Company may also make forward-looking statements about, among other things:

- its results of operations and financial condition (including, among other things, premium volume, premium rates, net and operating income, investment income and performance, loss costs, return on equity, and expected current returns and combined ratios);
- the sufficiency of the Company s asbestos and other reserves;
- the impact of emerging claims issues as well as other insurance and non-insurance litigation;
- the cost and availability of reinsurance coverage;
- catastrophe losses;
- the impact of investment, economic and underwriting market conditions;
- strategic initiatives, including initiatives, such as in Personal Insurance, to improve profitability and competitiveness; and
- the potential closing date and impact of its merger and acquisition transactions, including the acquisition of The Dominion of Canada General Insurance Company (The Dominion).

The Company cautions investors that such statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond the Company s control, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

Some of the factors that could cause actual results to differ include, but are not limited to, the following:

- catastrophe losses could materially and adversely affect the Company s results of operations, its financial position and/or liquidity, and could adversely impact the Company s ratings, the Company s ability to raise capital and the availability and cost of reinsurance;
- during or following a period of financial market disruption or economic downturn (including, among other things, following a government shutdown or potential debt default), the Company s business could be materially and adversely affected;

- if actual claims exceed the Company s claims and claim adjustment expense reserves, or if changes in the estimated level of claims and claim adjustment expense reserves are necessary, the Company s financial results could be materially and adversely affected;

- the Company s investment portfolio may suffer reduced returns or material realized or unrealized losses;

- the Company s business could be harmed because of its potential exposure to asbestos and environmental claims and related litigation;

- the Company is exposed to, and may face adverse developments involving, mass tort claims such as those relating to exposure to potentially harmful products or substances;

- the effects of emerging claim and coverage issues on the Company s business are uncertain;

- the intense competition that the Company faces could harm its ability to maintain or increase its business volumes and profitability;

- the Company may not be able to collect all amounts due to it from reinsurers and reinsurance coverage may not be available to the Company in the future at commercially reasonable rates or at all;

- the Company is exposed to credit risk in certain of its business operations;

- within the United States, the Company s businesses are heavily regulated by the states in which it conducts business, including licensing and supervision, and changes in regulation may reduce the Company s profitability and limit its growth;

- changes in federal regulation could impose significant burdens on the Company and otherwise adversely impact the Company s results;

Table of Contents

FORWARD-LOOKING STATEMENTS, Continued

- a downgrade in the Company s claims-paying and financial strength ratings could adversely impact the Company s business volumes, adversely impact the Company s ability to access the capital markets and increase the Company s borrowing costs;

- the inability of the Company s insurance subsidiaries to pay dividends to the Company s holding company in sufficient amounts would harm the Company s ability to meet its obligations, pay future shareholder dividends or make future share repurchases;

- disruptions to the Company s relationships with its independent agents and brokers could adversely affect the Company;

- the Company s efforts to develop new products, including in Personal Insurance, or expand in targeted markets may not be successful and may create enhanced risks;

- changes in U.S. tax laws or in the tax laws of other jurisdictions in which the Company operates could adversely impact the Company;

- the Company may be adversely affected if its pricing and capital models provide materially different indications than actual results;

- the Company s business success and profitability depend, in part, on effective information technology systems and on continuing to develop and implement improvements in technology;

- if the Company experiences difficulties with technology, data security and/or outsourcing relationships, the Company s ability to conduct its business could be negatively impacted;

- the Company is subject to a number of risks associated with its business outside the United States;

- new regulations outside of the U.S., including in the European Union, could adversely impact the Company s results of operations and limit its growth;

- acquisitions and integration of acquired businesses, including the Company s planned acquisition of The Dominion, may result in operating difficulties and other unintended consequences;

- changes to existing accounting standards may adversely impact the Company s reported results;

- the Company could be adversely affected if its controls to ensure compliance with guidelines, policies and legal and regulatory standards are not effective;

- the Company s businesses may be adversely affected if it is unable to hire and retain qualified employees;

- loss of or significant restriction on the use of credit scoring in the pricing and underwriting of Personal Insurance products could reduce the Company s future profitability;

- the Company s repurchase plans depend on a variety of factors, including the Company s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company s desired ratings from independent rating agencies, funding of the Company s qualified pension plan, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors;

- the Company may not achieve the anticipated benefits of its transactions or its strategic initiatives, including in Personal Insurance, or complete a transaction that is subject to closing conditions; and

- conditions in the capital markets may not be suitable for the Company to incur additional indebtedness and/or to issue preferred or other capital stock.

The Company s forward-looking statements speak only as of the date of this report or as of the date they are made, and the Company undertakes no obligation to update forward-looking statements. For a more detailed discussion of these factors, see the information under the caption Risk Factors in the Company s most recent annual report on Form 10-K filed with the Securities and Exchange Commission and Management s Discussion and Analysis of Financial Condition and Results of Operations herein and in the Company s most recent annual report on Form 10-K.

WEBSITE AND SOCIAL MEDIA DISCLOSURE

From time to time, the Company may use its website and/or social media outlets, such as Facebook and Twitter, as distribution channels of material company information. Financial and other important information regarding the Company is routinely accessible through and posted on the Company s website at http://investor.travelers.com, its Facebook page at https://www.facebook.com/travelers and its Twitter account (@TRV_Insurance) at https://twitter.com/TRV_Insurance. In addition, you may automatically receive email alerts and other information about the Company when you enroll your email address by visiting the Email Alert Service section at http://investor.travelers.com.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the Company s disclosures about market risk, please see Quantitative and Qualitative Disclosures About Market Risk in Part II, Item 7A of the Company s 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission. There have been no material changes to the Company s disclosures about market risk in Part II, Item 7A of the Company s 2012 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) that are designed to ensure that information required to be disclosed in the Company s reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms, and that such information is accumulated and communicated to the Company s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. The Company s management, with the participation of the Company s Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company s disclosure controls and procedures as of September 30, 2013. Based upon that evaluation and subject to the foregoing, the Company s Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2013, the design and operation of the Company s disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

In addition, there was no change in the Company s internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2013 that has materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The information required with respect to this item can be found under Contingencies in note 12 of notes to the Company s unaudited consolidated financial statements contained in this quarterly report and is incorporated by reference into this Item 1.

Item 1A. RISK FACTORS

For a discussion of the Company s potential risks or uncertainties, please see Risk Factors in Part I, Item 1A of the Company s 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission, and Risk Factors in Part II, Item 1A of the Company s Quarterly Report on Form 10-Q for the quarter ended June 30, 2013. In addition, please see Management s Discussion and Analysis of Financial Condition and Results of Operations Outlook and Critical Accounting Estimates herein and in the 2012 Form 10-K. There have been no material changes to the risk factors disclosed in Part I, Item 1A of the Company s 2012 Annual Report on Form 10-K and Risk Factors in Part II, Item 1A of the Company s Quarterly Report on Form 10-Q for the quarter ended June 30, 2013.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information regarding repurchases by the Company of its common stock during the periods indicated.

Table of Contents

ISSUER PURCHASES OF EQUITY SECURITIES

Period Beginning	Period Ending	Total number of shares purchased		Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs		Approximate dollar value of shares that may yet be purchased under the plans or programs
July 1, 2013	July 31, 2013	1,172,367	$	83.14	1,167,900	$	1,462,080,731
Aug. 1, 2013	Aug. 31, 2013	5,237,067	$	81.28	5,231,055	$	1,036,886,948
Sept. 1, 2013	Sept. 30, 2013	3,339,811	$	83.35	3,332,094	$	759,166,988
Total		9,749,245	$	82.21	9,731,049	$	759,166,988
Additional authorization on October 22, 2013						$	5,000,000,000

The Company s board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company s desired ratings from independent rating agencies, funding of the Company s qualified pension plan, capital requirements of the Company s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. On October 22, 2013, the board of directors approved a share repurchase authorization that added an additional $5.0 billion of repurchase capacity to the $759 million of capacity remaining at September 30, 2013.

The Company acquired 18,196 shares during the three months ended September 30, 2013 that were not part of the publicly announced share repurchase authorization. These shares consisted of shares retained to cover payroll withholding taxes in connection with the vesting of restricted stock awards and shares used by employees to cover the exercise price of certain stock options that were exercised.

Item 5. OTHER INFORMATION

Executive Ownership and Sales. All of the Company s executive officers hold equity in the Company in excess of the required level under the Company s executive stock ownership policy. For a summary of this policy as currently in effect, see Compensation Discussion and Analysis Stock Ownership Guidelines in the Company s proxy statement filed with the Securities and Exchange Commission on April 9, 2013. From time to time, some of the Company s executives may determine that it is advisable to diversify their investments for personal financial planning reasons, or may seek liquidity for other reasons, and may sell shares of common stock of the Company in the open market, in private transactions or to the Company. To effect such sales, some of the Company s executives have entered into, and may in the future enter into, trading plans designed to comply with the Company s Securities Trading Policy and the provisions of Rule 10b5-1 under the Securities Exchange Act of 1934. The trading plans will not reduce any of the executives ownership of the Company s shares below the applicable executive stock ownership guidelines. The Company does not undertake any obligation to report Rule 10b5-1 plans that may be adopted by any employee or director of the Company in the future, or to report any modifications or termination of any publicly announced plan.

As of the date of this report, Jay S. Fishman, Chairman and Chief Executive Officer, and Alan D. Schnitzer, Vice Chairman Financial, Professional & International Insurance and Field Management; Chief Legal Officer were the only named executive officers (i.e., an executive officer named in the compensation disclosures in the Company s proxy statement) that have entered into Rule 10b5-1 trading plans that remain in effect. The trading plans extend from approximately six to thirteen months from the date of this report. Under the Company s stock ownership guidelines, Mr. Fishman has a target ownership level established as the lesser of 150,000 shares or the equivalent value of 500% of base salary, and Mr. Schnitzer has a target ownership level established as the lesser of 30,000 shares or the equivalent value of 300% of base salary (as such amounts are calculated for purposes of the stock ownership guidelines). See Compensation Discussion and Analysis Stock Ownership Guidelines in the Company s proxy statement filed with the SEC on April 9, 2013.

Filed herewith.

The total amount of securities authorized pursuant to any instrument defining rights of holders of long-term debt of the Company does not exceed 10% of the total assets of the Company and its consolidated subsidiaries. Therefore, the Company is not filing any instruments evidencing long-term debt. However, the Company will furnish copies of any such instrument to the Securities and Exchange Commission upon request.

Copies of any of the exhibits referred to above will be furnished to security holders who make written request therefor to The Travelers Companies, Inc., 385 Washington Street, Saint Paul, MN 55102, Attention: Corporate Secretary.

The agreements and other documents filed as exhibits to this report are not intended to provide factual information or other disclosure other than the terms of the agreements or other documents themselves, and you should not rely on them for that purpose. In particular, any representations and warranties made by the Company in these agreements or other documents were made solely within the specific context of the relevant agreement or document and may not describe the actual state of affairs at the date they were made or at any other time.
