 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 2.02. Results of Operations and Financial Condition

On January 8, 2014, Mistras Group, Inc. (the Company, we or us) issued a press release announcing the financial results for the second quarter of fiscal year 2014, which ended November 30, 2013. A copy of the press release is attached as Exhibit 99.1 to this report.

Disclosure of Non-GAAP Financial Measures

In the press release attached, the Company uses the term Adjusted EBITDA which is not a measurement of financial performance under U.S. generally accepted accounting principles (GAAP). Information regarding the Adjusted EBITDA and the non-GAAP term EBITDA and their use by the Company is set forth in the Company's annual report on Form 10-K filed August 14, 2013, as updated by its reports on Form 10-Q.

The tables attached to the press release also include the non-GAAP financial measurements Segment and Total Company Income from Operations before Acquisition-Related Expense (Benefit), net Net Income Excluding Acquisition-related Items and Diluted EPS Excluding Acquisition-related Items, reconciling these measurements to financial measurements under GAAP. These non-GAAP measurements exclude from the GAAP measurement income from operations or net income (a) transaction expenses related to acquisitions, such as professional fees and due diligence costs and (b) the net changes in the fair value of acquisition-related contingent consideration liabilities. These items have been excluded from the GAAP measurement because these expenses and credits are not related to the Company's core business operations and are related solely to the Company's acquisition activities. Changes in the fair value of acquisition-related contingent consideration liabilities can be a net expense or credit in any given period, and fluctuate based upon the then current value of cash consideration the Company expects to pay in the future for prior acquisitions, without impacting cash generated from the Company's business operations.

Management believes that these measurements provide investors with useful information and more meaningful period over period comparisons by identifying and excluding these acquisition-related costs so that the performance of the core business operations can be identified and compared. Management also believes that these measurements help our investors to better understand the profitability trends of our business, and facilitate easier comparisons of our profitability to prior and future periods and to our peers.

These non-GAAP measurements should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measurements. These measurements have limitations because there are no standards to determine which adjustments to GAAP measurements should be made, and/or may not be comparable with similar measurements for other companies. In addition, acquisitions are a part of our growth strategy, and therefore acquisition-related items are a necessary cost of the Company's business. Segment and Total Company Income from Operations before Acquisition-Related Expense (Benefit), net, Net Income Excluding Acquisition-related Items and Diluted EPS Excluding Acquisition-related Items are not metrics used to determine incentive compensation for executives or employees.

Item 9.01. Financial Statement and Exhibits
