DESCRIPTION OF THE COMPANY

Source Capital, Inc., is a diversified, publicly traded investment company. Its investment portfolio includes a wide range of securities with primary emphasis on common stock.

Source Capital's Common Stock is listed and traded on the New York Stock Exchange, and there are currently 8,655,240 shares outstanding. Source Capital's investment objective is to seek maximum total return for Common shareholders from both capital appreciation and investment income to the extent consistent with protection of invested capital.

Source Capital is not a mutual fund. Thus, the Company does not repurchase its own shares on demand and does not need to structure its portfolio securities to provide for possible redemptions. As a publicly traded investment company, Source Capital's Common shares are bought and sold on The New York Stock Exchange, and the Company is not involved in such transactions.

Source Capital's investment approach emphasizes primarily equity investments in seeking to achieve its growth objective for its Common shareholders. The desirability of equity in contrast with fixed-income investments has been increasingly debated in recent years. Source Capital's position is that without assuming undue risk, properly selected stocks offer the better long-term opportunity for overall investment return as well as long-term protection from the large but uncertain threat of inflation. Source Capital's equity

investments are directed toward companies with highly liquid, relatively unleveraged balance sheets and a demonstrated long-term ability to earn above-average returns on invested capital. Source Capital's equity investment portfolio is based on fundamental judgments of long-term returns attainable from income and appreciation in the

securities of such companies and is not derived from overall economic forecasts or stock market predictions.

The Company has adopted a flexible distribution policy. This policy is designed to pay Common shareholders quarterly distributions at a rate that is substantially in excess of net investment income. The rate is adjusted periodically in response to sustained changes in the net asset value, market conditions, and changes to investment company regulations and tax laws. Only a portion of such distributions is paid from net investment income. The remainder is paid from any net realized capital gains and/or paid-in capital, as determined by each year's results. To the extent the Company realizes net long-term capital gains for any year in excess of the amounts distributed under the Company's distribution policy, such excess will be distributed to shareholders. For federal income tax purposes, all distributions in excess of current year earnings will be taxable to shareholders as long as the Company continues to have accumulated earnings and profits from prior years.

SOURCE CAPITAL, INC.
LETTER TO SHAREHOLDERS

TO OUR SHAREHOLDERS:**2013 Investment Portfolio Returns**

Total net assets of Source Capital amounted to \$639,974,092 at December 31, 2013, or \$73.94 of net asset value per Common share. This compared with Common equity of \$511,150,166, and net asset value per Common share of \$59.06 one year ago. These changes reflect payments to shareholders totaling \$25,965,720. Source Capital recorded a positive total investment return during 2013 of 30.9% on its Common net asset value, reflecting the reinvestment of dividends and distributions.

Distributions to Common Shareholders

Source Capital's flexible distribution policy allows the Board of Directors to consider changes in net asset value when establishing the quarterly distribution rate. But this policy also provides for the flexibility to consider such other factors as current market conditions and changes to investment company regulations and tax laws. It is the intention of the Board of Directors to continue paying quarterly distributions at a rate that is substantially in excess of net investment income, but not in excess of cumulative earnings.

A quarterly distribution on the Common shares of \$0.75 per share was paid on December 15, 2013, to shareholders of record on November 22, 2013.

On February 10, 2014, the Board of Directors voted to increase the current distribution rate by \$0.05 a Common share and declared a regular quarterly distribution of \$0.80 a Common share, payable March 15, 2014. Consistent with Source Capital's flexible distribution policy, this increase primarily reflects the rise in net asset value for the year ended December 31, 2013.

Market Prices and Shareholder Returns

In the long run, the future returns for Source Capital Common shareholders will depend primarily on how well we manage the firm's investment portfolio. The longer the period of time involved, the more important portfolio investment returns will be in determining shareholder returns. However, in the short run, changes in the market price of Source Capital Common shares can deviate from the underlying changes in net asset value causing market returns to be either enhanced or diminished.

The following table presents 2013 market return for Common shareholders:

Change in Market Value:	
NYSE Closing Price	
12/31/2013	\$ 67.10
NYSE Closing Price	
12/31/2012	52.22
Net change in 2013	\$ 14.88
Distributions in 2013	3.00
Total return Amount	\$ 17.88
Total return Percent	34.2%

Common shareholders who participated in the Company's Automatic Reinvestment Plan experienced a positive return of 34.8% during 2013. On a long-term basis, those shareholders who participated in the Automatic Reinvestment Plan

during each of the 37 years since its inception experienced a positive annual compound rate of return of 14.9%.

Commentary

Performance

For the fourth quarter Source was up about 7.5%, close to the S&P's 10.5% and the benchmark Russell 2500's gain of 8.5%. We are proud of our returns over longer periods with strong, absolute and relative performance for 5, 10, and 20 years, as shown on the table below.

	Year	3 Years*	5 Years*	10 Years*	20 Years*
Source	30.9%	12.8%	22.6%	9.2%	11.6%
Russell 2500	36.8%	16.3%	21.8%	9.8%	10.8%
S&P 500	32.4%	16.2%	17.9%	7.4%	9.2%

* Annualized

Standout performers this year include Heartland Express (+50%) and Knight Transportation (+25%) both truckload carriers working to complete attractive acquisitions. Other winners in 2013 fit the description of light industrial or business services, with gains of +35-60% suppliers of pumps, motors, valves, bar code printers, and industrial distributors.

We would like to take this opportunity to discuss the philosophy that has long guided investment of the Source Capital portfolio. This can be traced all the way back to the mid-1970's, when Charlie Munger and Warren Buffett acquired a large stake (24%) of Source Capital and helped redirect its investments down today's more familiar paths.

We focus on owning high-quality businesses, firms with histories of earning high returns on capital with modest debt levels. These companies have leading market shares and top-tier management. They have demonstrable track records of wise allocation of the businesses' cash flow. In other words, they walk the talk.

Our approach to investing sometimes generates unusual looking portfolios. We make no attempt to manage portfolios which mimic the benchmark. We have no fear of tracking error. Our portfolios are always much more concentrated than the benchmark, with much of the weightings the result of owning only a dozen or so names. Five- to ten-year holding periods for individual securities are not unusual, as annual portfolio turnover has been very low, averaging about 15% over the past five years.

We believe the most important contributor to the long-term investment performance of the companies we own is growth in earnings, not changes in valuation (price/earnings ratio). Because growth is driven by earning high returns on capital and successful reinvestment of cash flow, it is necessary to own most

SOURCE CAPITAL, INC.

of our portfolio securities for an extended period in order for this process to come to fruition.

Beyond the philosophical considerations, there are practical reasons we prefer low portfolio turnover. Trading has identifiable, real, and significant negative costs "moving the price," broker commissions, and realizing taxable gains. In addition, excessive trading is a distraction from our highest priority focus, understanding the business operations of our portfolio companies.

Minimizing risk, especially in treacherous economic or stock market environments, is an important element of our investment process. We do this by emphasizing companies with relatively unleveraged balance sheets, operating in more predictable, less volatile sectors of the economy, with business models we can understand. Our companies' leading market shares and high operating margins help to reduce the volatility of their earnings. Diversified portfolios and modest relative valuations, typically lower than the market, also contribute to lower risk.

A comparison of the Source portfolio with the benchmark shows the portfolio companies to be financially stronger and more profitable yet selling at a lower valuation.

	5-Year ROE	10-Year EPS Growth	Debt % Cap	PE
Source	18.9%	10.6%	36%	23.8x
Russell 2500	9.6%	7.4%	45%	26.5

Source: BNY Mellon

Many commentators have noted the outperformance of quality stocks in recent years, though with widely varying definitions of quality and generally without our 35-year track record.

Last year The Leuthold Group, a financial research firm based in Minneapolis, published a study of stock quality and investment performance for the most recent 30-year period.

We found Leuthold's research defined quality in a manner very consistent with the investment strategy we have followed over many years. Leuthold's screens for quality emphasize stable growth of revenue and income, with high operating margins, unleveraged balance sheets, and dividend growth, qualities we have highlighted in shareholder letters over many years.

The performance part of the study provides a response to the question: "what does owning a portfolio of high quality companies actually do for us?" Although Leuthold's back-testing of their quality stock hypothesis should not be a basis for personal investment decisions, it is worth noting that the quality companies identified by Leuthold have tended to outperform in very difficult markets and generally match the market in less exacting environments.

We are pleased to receive reader feedback to shareholder letters at the email address, source@fpafunds.com.

Thank you for your continued support and trust.

The discussion of Company investments represents the views of the Company's managers at the time of this report and are subject to change without notice. References to individual securities are for informational purposes only and should not be construed as recommendations to purchase or sell individual securities. While the Company's managers believe the Company's holdings are value stocks, there can be no assurance that others will consider them as such. Further, investing in value stocks presents the risk that value stocks may fall out of favor with investors and underperform growth stocks during given periods.

The Russell 2500 Index is an unmanaged index comprised of the 2,500 smallest companies in the Russell 3000 Index. The Russell 3000 Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization. The S&P 500 Index is an index of 500 companies with large market capitalization. The Nasdaq Composite Index is a market capitalization index comprised of over 3,000 stocks.

FORWARD LOOKING STATEMENT DISCLOSURE

As managers, one of our responsibilities is to communicate with shareholders in an open and direct manner. Insofar as some of our opinions and comments in our letters to shareholders are based on current management expectations, they are considered "forward-looking statements," which may or may not be accurate over the long term. While we believe we have a reasonable basis for our comments and we have confidence in our opinions, actual results may differ materially from those we anticipate. You can identify forward-looking statements by words such as "believe," "expect," "may," "anticipate," and other similar expressions when discussing prospects for particular portfolio holdings and/or the markets, generally. We cannot, however, assure future results and disclaim any obligation to update or alter any forward-looking statements, whether as a result of new information, future events, or otherwise. Further, information provided in this report should not be construed as a recommendation to purchase or sell any particular security.

11/22/2013	12/15/2013	0.75	0.0436	0.7064
TOTAL		\$ 3.00	\$ 0.2245	\$ 2.7755

The amounts in column (1) are to be included as dividend income on your tax return and 100% of these amounts are Qualified Dividend Income.

In accordance with the provisions of the Internal Revenue Code, the amounts in column (2) are long-term capital gain distributions.

A Form 1099 has been mailed to all shareholders of record on dividend record dates setting forth the specific amounts to be included in their 2013 tax returns. For corporate shareholders, 100% of the amount in column (1) qualifies for the 70% corporate dividends received deduction. Source Capital did not elect to retain any undistributed long-term capital gains for the year ended December 31, 2013. Therefore, Common shareholders will not receive a Form 2439 for 2013.

Notice to Dividend Reinvestment Plan Participants:

When additional shares are issued by Source Capital under the Automatic Reinvestment Plan at a discount from the market price, a participant in the Plan is treated for federal income tax purposes as having received a taxable distribution equal to the market value of the shares purchased. In effect, the discount from market price at which shares are purchased is added to the amount of the cash distribution to determine the total value of the taxable distribution. Such value also becomes the participant's tax basis for the shares purchased under the Plan.

For the year ended December 31, 2013 none of the distributions paid was reinvested at a discount from the market price.

State Tax Information:

None of the amounts reported in column (1) were derived from U.S. Treasury Securities.

Certain states have reduced tax rates for capital gains attributed to securities that meet certain holding periods. The following percentages should be applied to the amounts in column (2): 1.3% of these gains was derived from assets held from 1 to 2 years, 7.6% from 2 to 3 years, 2.8% from 3 to 4 years, 27.2% from 4 to 5 years, 17.5% from 5 to 6 years, and 43.6% of these gains was derived from assets held more than 6 years.

SOURCE CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS

December 31, 2013

NOTE A Significant Accounting Policies

Source Capital, Inc. (the "Company"), is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The investment objective of the Company is to seek maximum total return for Common shareholders from both capital appreciation and investment income to the extent consistent with protection of invested capital. The significant accounting policies followed by the Company in the preparation of its financial statements include the following:

1. **SECURITIES VALUATION** The Company's investments are reported at fair value as defined by accounting principles generally accepted in the United States of America. The Company generally determines its net asset value as of approximately 4:00 p.m. New York time each day the New York Stock Exchange is open. Further discussion of valuation methods, inputs and classifications can be found under Note F.
2. **USE OF ESTIMATES** The preparation of the financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates.
3. **OTHER** Securities transactions are accounted for on the date the securities are purchased or sold. Dividend income is recorded on the ex-dividend date. Interest income and expenses are recorded on an accrual basis. The books and records of the Fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, and other assets and liabilities stated in foreign currencies, are translated using the daily spot rate; and (2) purchases, sales, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions. The resultant exchange gains and losses are included in net realized or net unrealized gain (loss) on investments in the statement of operations. Distributions payable on the Common Stock are recorded on the ex-dividend date. The ratios of expenses and net investment income to average net assets prior to the year ended December 31, 2013 do not reflect the effect of dividend payments to Preferred shareholders.

NOTE B Risk Considerations

Investing in the Company may involve certain risks including, but not limited to, those described below.

Market Risk: Because the values of the Company's investments will fluctuate with market conditions, so will the value of your investment in the Fund. You could lose money on your investment in the Company or the Company could underperform other investments.

Common Stocks and Other Securities: The prices of common stocks and other securities held by the Company may decline in response to certain events taking place around the world, including; those directly involving companies whose securities are owned by the Company; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. In addition, the emphasis on a value-oriented investment approach by the Company's investment adviser, First Pacific Advisors, LLC ("Investment Adviser"), generally results in the Company's portfolio being invested primarily in medium or smaller sized companies. Smaller companies may be subject to a greater degree of change in earnings and business prospects than larger, more established companies, and smaller companies are often more reliant on key products or personnel than larger companies. Also, securities of smaller companies are traded in lower

volumes than those issued by larger companies and may be more volatile than those of larger companies. The Company's foreign investments are subject to additional risks such as, foreign markets could go down or prices of the Company's foreign investments could go down because of unfavorable changes in foreign currency exchange rates, foreign government actions, social, economic or political instability or other factors that can adversely affect investments in foreign countries. These factors can also make foreign securities less liquid, more volatile and harder to value than U.S. securities. In light of these characteristics of smaller companies and their securities, the Company may be subjected to greater risk than that assumed when investing in the equity securities of larger companies.

Interest Rate and Credit Risk: The values of, and the income generated by, most debt securities held by the Company may be affected by changing interest rates and by changes in the effective maturities and credit ratings of these securities. For example, the values of debt securities in the Company's portfolio generally will decline when interest rates rise and increase when interest rates fall. In addition, falling interest rates may cause an issuer to redeem, call or refinance a security before its stated maturity, which may result in the Company having to reinvest the proceeds in lower yielding securities. Debt securities are subject to credit risk, meaning that the issuer of the debt security may default or fail to make timely payments of principal or interest. The value of the Company's investments may also decline in response to events affecting the issuer or its credit rating. Lower rated debt securities in which the Company may invest are considered speculative and are generally subject to greater volatility and risk of loss than investment grade securities, particularly in deteriorating economic conditions.

Repurchase Agreements: Repurchase agreements permit the Company to maintain liquidity and earn income over periods of time as short as overnight. Repurchase agreements held by the Company are fully collateralized by U.S. Government securities, or securities issued by U.S. Government agencies, or securities that are within the three highest credit categories assigned by established rating agencies (Aaa, Aa, or A by Moody's or AAA, AA or A by Standard & Poor's) or, if not rated by Moody's or Standard & Poor's, are of equivalent investment quality as determined by the Investment Adviser. Such collateral is in the possession of the Company's custodian. The collateral is evaluated daily to ensure its market value equals or exceeds the current market value of the repurchase agreements including accrued interest. In the event of default on the obligation to repurchase, the Company has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation.

SOURCE CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2013

The Company may enter into repurchase agreements, under the terms of a Master Repurchase Agreement ("MRA"). The MRA permits the Company, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Company. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against such a right of offset in the event of a MRA counterparty's bankruptcy or insolvency. Pursuant to the terms of the MRA, the Company receives securities as collateral with a market value in excess of the repurchase price to be received by the Company upon the maturity of the repurchase transaction. Upon a bankruptcy or insolvency of the MRA counterparty, the Company recognizes a liability with respect to such excess collateral to reflect the Company's obligation under bankruptcy law to return the excess to the counterparty. Repurchase agreements outstanding at the end of the period are listed in the Company's Portfolio of Investments.

NOTE C Capital Stock

On May 30, 2012, the Board of Directors of Source Capital, Inc. announced the full redemption of all issued and outstanding shares of its \$2.40 Preferred Stock, \$3 par value on June 29, 2012 (the "Preferred Stock Redemption Date"). The Preferred Stock was redeemed, pursuant to its terms, at its stated call price of \$27.50 per share plus accrued and unpaid dividends to the Preferred Stock Redemption Date. At the time of the announcement there were 1,969,212 shares of Preferred Stock issued and outstanding, resulting in a total redemption amount of \$54,153,330.

The Company did not issue any shares of Common Stock under its Dividend Reinvestment Plan for shareholders during the year ended December 31, 2013.

NOTE D Advisory Fees and Other Affiliated Transactions

Pursuant to an investment advisory agreement, the Company pays the Investment Adviser, monthly investment advisory fees calculated at an annual rate of 0.725% for the first \$100 million of total net assets, 0.700% for the next \$100 million of total net assets, and 0.675% for any total net assets in excess of \$200 million. The Agreement obligates the Investment Adviser to reduce its fee to the extent necessary to reimburse the Company for any annual expenses (exclusive of interest, taxes, the cost of brokerage and research services, legal expenses related to portfolio securities, and extraordinary expenses such as litigation) in excess of 1 1/2% of the first \$30 million and 1% of the remaining average total net assets of the Company for the year.

For the year ended December 31, 2013, the Company paid aggregate fees of \$160,329 to all Directors who are not affiliated persons of the Investment Adviser.

NOTE E Federal Income Tax

No provision for federal taxes is considered necessary because the Company has elected to be taxed as a "regulated investment company" under the Internal Revenue Code. The Company intends to maintain this qualification and to distribute to shareholders each year all of its taxable net investment income and taxable net realized gain on investments in accordance with the minimum distribution requirements of the Code.

Dividends and distributions paid to shareholders are based on net investment income and net realized gains determined on a tax reporting basis, which may differ from financial reporting. For federal income tax purposes, the

components of distributable earnings at December 31, 2013, were as follows:

Undistributed ordinary income	\$ 19,635
Undistributed net realized gains	\$318,004

The tax status of dividends and distributions paid during the fiscal years ended December 31, 2013 and 2012, were as follows:

	2013	2012
Preferred Stock:		
Dividends from ordinary income		\$ 2,349,920
Common Stock:		
Dividends from ordinary income	\$ 1,943,199	\$ 1,211,734
Distributions from long-term capital gains	\$24,022,521	\$28,821,949

The cost of purchases of investment securities (excluding short-term investments with maturities of 60 days or less) aggregated \$52,329,824 during the year ended December 31, 2013. Realized gains and losses are based on the specific identification method.

SOURCE CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2013

The cost of securities was \$314,586,411 for federal income tax purposes. Gross unrealized appreciation and depreciation for all investments at December 31, 2013, for federal income tax purposes was \$310,197,773 and \$0, respectively, resulting in net unrealized appreciation of \$310,197,773. As of and during the year ended December 31, 2013, the Company did not have any liability for unrecognized tax benefits. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year, the Company did not incur any interest or penalties. The Company is not subject to examination by U.S. federal tax authorities for years ended on or before December 31, 2010 or by state tax authorities for years ended on or before December 31, 2009.

During the year ended December 31, 2013, the Company reclassified \$73,138 from undistributed net realized gains to undistributed net investment income to align financial reporting with tax reporting relating to differences in the methods used to amortize market discount.

NOTE F Disclosure of Fair Value Measurements

The Company uses the following methods and inputs to establish the fair value of its assets and liabilities. Use of particular methods and inputs may vary over time based on availability and relevance as market and economic conditions evolve.

Equity securities are generally valued each day at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are principally traded, as of the close of business on that day. If there have been no sales that day, equity securities are generally valued at the last available bid price. Securities that are unlisted and fixed-income and convertible securities listed on a national securities exchange for which the over-the-counter market more accurately reflects the securities' value in the judgment of the Company's officers, are valued at the most recent bid price. However, most fixed income securities are generally valued at prices obtained from pricing vendors and brokers. Vendors value such securities based on one or more of the following inputs: transactions, bids, offers quotations from dealers and trading systems, and relationships observed in the markets among comparable securities. Short-term corporate notes with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

Securities for which representative market quotations are not readily available or are considered unreliable by the Investment Adviser are valued as determined in good faith under procedures adopted by the authority of the Board of Directors. Various inputs may be reviewed in order to make a good faith determination of a security's value. These inputs include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. Fair valuations and valuations of investments that are not actively trading involve judgment and may differ materially from valuations of investments that would have been used had greater market activity occurred.

The Company classifies its assets based on three valuation methodologies. Level 1 values are based on quoted market prices in active markets for identical assets. Level 2 values are based on significant observable market inputs, such as quoted prices for similar assets and quoted prices in inactive markets or other market observable inputs. Level 3 values are based on significant unobservable inputs that reflect the Company's determination of assumptions that market participants might reasonably use in valuing the assets. The valuation levels are not necessarily an indication

of the risk associated with investing in those securities. The following table presents the valuation levels of the Company's investments as of December 31, 2013:

Investments	Level 1 ⁽²⁾	Level 2 ⁽²⁾	Level 3 ⁽²⁾	Total
Common Stocks ⁽¹⁾	\$ 618,606,478			\$618,606,478
Non-Convertible Bonds & Debentures		\$ 6,177,706		6,177,706
Short-Term Investments		15,247,000		15,247,000
Total Investments	\$ 618,606,478	\$21,424,706		\$640,031,184

⁽¹⁾ All common stocks are classified under Level 1. The Portfolio of Investments provides further information on major security types.

⁽²⁾ Transfers of investments between different levels of the fair value hierarchy are recorded at market value as of the end of the reporting period. There were no transfers between Levels 1, 2, or 3 during the year ended December 31, 2013.

NOTE G Collateral Requirements

The Company has implemented the disclosure requirements pursuant to FASB Accounting Standards Update No. 2011-11, Disclosures about Offsetting Assets and Liabilities, that requires disclosures to make financial statements that are prepared under U.S. GAAP more comparable to those prepared under International Financial Reporting Standards. Under this guidance the Company discloses both gross and net information about instruments and transactions eligible for offset such as instruments and transactions

SOURCE CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2013

subject to an agreement similar to a master netting arrangement. In addition, the Company discloses collateral received and posted in connection with master netting agreements or similar arrangements.

The following table presents the Company's repurchase agreements by counterparty net of amounts available for offset under an ISDA Master agreement or similar agreements and net of the related collateral received or pledged by the Company as of December 31, 2013, are as follows:

Counterparty	Gross Assets in the Statement of Assets and Liabilities	Collateral Received	Assets (Liabilities) Available for Offset	Net Amount of Assets*
State Street Bank and Trust Company	\$ 15,247,000	\$15,247,000**		

* Represents the net amount receivable from the counterparty in the event of default.

** Collateral with a value of \$15,552,025 has been received in connection with a master repurchase agreement. Excess of collateral received from the individual master repurchase agreement is not shown for financial reporting purposes.

SOURCE CAPITAL, INC.
REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

TO THE SHAREHOLDERS AND
BOARD OF DIRECTORS OF SOURCE CAPITAL, INC.

We have audited the accompanying statement of assets and liabilities of Source Capital, Inc. (the "Company"), including the portfolio of investments, as of December 31, 2013, the related statement of operations for the year then ended, the statements of changes in total net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2013, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Source Capital, Inc., as of December 31, 2013, the results of its operations for the year then ended, the changes in total net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

STOCK EXCHANGE LISTING

New York Stock Exchange: SOR

DIVIDEND REINVESTMENT PLAN

Holders of record (other than brokers or nominees of banks and other financial institutions) of Common Stock are eligible to participate in the Dividend Reinvestment Plan ("Plan"), pursuant to which distributions to shareholders are paid in or reinvested in shares of Common Stock of the Company ("Dividend Shares"). American Stock Transfer & Trust Company, LLC, Attn: Shareholder Relations Department, 6201 15th Avenue, Brooklyn, New York, 11219, acts as Agent for participants under the Plan.

A shareholder may join the Plan by signing and returning an authorization form that may be obtained from the Agent. A shareholder may elect to withdraw from the Plan at any time by written notice to the Agent and thereby elect to receive cash in lieu of Dividend Shares. There is no penalty for withdrawal from the Plan, and shareholders who have previously withdrawn from the Plan may rejoin at any time. The Company reserves the right to amend or terminate the Plan.

Purchases of the Company's shares are made by the Agent, on behalf of the participants in the Plan, promptly after receipt of funds, and in no event later than 30 days from such receipt except when restricted under applicable federal securities laws. The Agent purchases outstanding shares in the market when the price plus estimated commissions of the Company's Common Stock on the NYSE is lower than the Company's most recently calculated net asset value per share. To the extent that outstanding shares are not available at a cost of less than per share net asset value, the Agent, on behalf of the participants in the Plan, accepts payment of the dividend, or the remaining portion thereof, in authorized but unissued shares of Common Stock of the Company on the payment date. Such shares are issued at a per share price equal to the higher of (1) the net asset value per share on the payment date, or (2) 95% of the closing market price per share on the payment date. There are no brokerage charges with respect to shares issued directly by the Company to satisfy the

dividend reinvestment requirements. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account is the average cost, including brokerage commissions, of any shares purchased in the open market plus the cost of any shares issued by the Company.

For Federal income tax purposes, shareholders who reinvest distributions are treated as receiving distributions in an amount equal to the fair market value, determined as of the payment date, of the shares received if the shares are purchased from the Company. Such value may exceed the amount of the cash distribution that would have been paid. If outstanding shares are purchased in the open market, the taxable distribution equals the cash distribution that would have been paid. In either event, the cost basis in the shares received equals the amount recognized as a taxable distribution.

In the case of foreign participants whose dividends are subject to United States income tax withholding and in the case of any participants subject to 31% federal backup withholding, the Agent will reinvest dividends after deduction of the amount required to be withheld.

All record holders of Common Stock are also offered the opportunity, on a voluntary basis, to send in cash payments of not less than \$100 each up to a total of \$7,500 per month to purchase additional shares of the Common Stock of the Company through participation in the Cash Investment Plan ("Cash Plan"). Under the Cash Plan, shares are purchased in the market and no shares are issued by the Company. A brochure describing the terms and conditions of the Cash Plan, including fees and expenses, is available from the Agent.

Item 2. Code of Ethics.

- (a) The registrant has adopted a code of ethics that applies to the registrant's senior executive and financial officers.
- (b) Not Applicable
- (c) During the period covered by this report, there were not any amendments to the provisions of the code of ethics adopted in 2(a) above.
- (d) During the period covered by this report, there were not any implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a).
- (e) Not Applicable
- (f) A copy of the registrant's code of ethics is filed as an exhibit to this Form N-CSR. Upon request, any person may obtain a copy of this code of ethics, without charge, by calling (800) 982-4372.

Item 3. Audit Committee Financial Expert.

The registrant's board of directors has determined that Patrick B. Purcell, a member of the registrant's audit committee and board of directors, is an audit committee financial expert and is independent, as those terms are defined in this Item. This designation will not increase the designee's duties, obligations or liability as compared to his duties, obligations and liability as a member of the audit committee and of the board of directors. This designation does not affect the duties, obligations or liability of any other member of the audit committee or the board of directors.

Item 4. Principal Accountant Fees and Services.

		2012		2013
(a)	Audit Fees	\$	37,700	\$ 37,700
(b)	Audit Related Fees		-0-	-0-
(c)	Tax Fees	\$	8,000	\$ 8,160

Edgar Filing: SOURCE CAPITAL INC /DE/ - Form N-CSR

(d) All Other Fees

-0-

(e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X. The audit committee shall pre-approve all audit and permissible non-audit services that the committee considers compatible with maintaining the independent auditors' independence. The pre-approval requirement will extend to all non-audit services provided to the registrant, the adviser, and any entity

controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant, if the engagement relates directly to the operations and financial reporting of the registrant; provided, however, that an engagement of the registrant's independent auditors to perform attest services for the registrant, the adviser or its affiliates required by generally accepted auditing standards to complete the examination of the registrant's financial statements (such as an examination conducted in accordance with Statement on Auditing Standards Number 70 issued by the American Institute of Certified Public Accountants), will be deemed pre-approved if: (i) the registrant's independent auditors inform the audit committee of the engagement, (ii) the registrant's independent auditors advise the audit committee at least annually that the performance of this engagement will not impair the independent auditor's independence with respect to the registrant, and (iii) the audit committee receives a copy of the independent auditor's report prepared in connection with such services. The committee may delegate to one or more committee members the authority to review and pre-approve audit and permissible non-audit services. Actions taken under any such delegation will be reported to the full committee at its next meeting.

(e)(2) Disclose the percentage of services described in each of paragraphs (b) (d) of this Item that were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X. 100% of the services provided to the registrant described in paragraphs (b) (d) of this Item were pre-approved by the audit committee pursuant to paragraph (e)(1) of this Item. There were no services provided to the investment adviser or any entity controlling, controlled by or under common control with the adviser described in paragraphs (b) (d) of this Item that were required to be pre-approved by the audit committee.

(f) If greater than 50%, disclose the percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees. All services performed on the engagement to audit the registrant's financial statements for the most recent fiscal year end were performed by the principal accountant's full-time, permanent employees.

(g) Disclose the aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under

common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant. None.

(h) Disclose whether the registrant's audit committee of the board of directors has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence. Not Applicable.

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, consisting of all the independent directors of the registrant. The members of the audit committee are: Thomas P. Merrick, Alfred E. Osborne, Jr., Patrick B. Purcell, Allan M. Rudnick and David Rees.

Item 6. Schedule of Investments. The schedule of investments is included as part of the report to stockholders filed under Item 1 of this Form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

POLICY

First Pacific Advisors, LLC (Adviser) acts as discretionary investment adviser for various clients, including SEC-registered closed-end and open-end investment companies (RIC clients), separately managed accounts (including those governed under the laws and provisions of ERISA), as well as non-registered investment funds (collectively referred to as client or clients). The Adviser is authorized to vote proxies on behalf of its clients, unless a client specifically retains or delegates this authority to another party in writing. The Adviser will vote all proxies in a timely manner as part of its full discretionary authority over client assets in accordance with these Policies and Procedures.

When voting proxies for clients, the Adviser's utmost concern is that all decisions be made solely in the best interest of the client (and for ERISA accounts, plan beneficiaries and participants, in accordance with the letter and spirit of ERISA). The Adviser will act in a prudent and diligent manner intended to enhance the value of the assets of the client's account.

PURPOSE

Edgar Filing: SOURCE CAPITAL INC /DE/ - Form N-CSR

The purpose of these Policies and Procedures is to enable the Adviser to comply with its fiduciary responsibilities to clients and the requirements under the Investment Advisers Act of 1940, as amended (Advisers Act), and the Investment Company Act of 1940, as amended (1940 Act). These Policies and Procedures also reflect the fiduciary standards and responsibilities set forth by the Department of Labor for ERISA accounts.

PROCEDURES

The Adviser is ultimately responsible for ensuring that all proxies received by the Adviser are voted in a timely manner and in a manner consistent with the Adviser's determination of the client's best interests. Although many proxy proposals can be voted in accordance with the Adviser's guidelines (see Guidelines below), the Adviser recognizes that some proposals require special consideration which may dictate that the Adviser make an exception to the Guidelines.

CONFLICTS OF INTEREST

Where a proxy proposal raises a material conflict between the Adviser's interests and a client's interest, the Adviser will resolve such a conflict in the manner described below:

Vote in Accordance with the Guidelines. To the extent that the Adviser has little or no discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser shall vote in accordance with such pre-determined voting policy.

Obtain Consent of Clients. To the extent that the Adviser has discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser will disclose the conflict to the relevant clients and obtain their consent to the proposed vote prior to voting the securities. The disclosure to the client will include sufficient detail regarding the matter to be voted on and the nature of the Adviser's conflict that the client would be able to make an informed decision regarding

the vote. If a client does not respond to such a conflict disclosure request or denies the request, the Adviser will abstain from voting the securities held by that client's account.

Client Directive to Use an Independent Third Party. Alternatively, a client may, in writing, specifically direct the Adviser to forward all proxy matters in which the Adviser has a conflict of interest regarding the client's securities to an identified independent third party for review and recommendation. Where such independent third party's recommendations are received on a timely basis, the Adviser will vote all such proxies in accordance with such third party's recommendation. If the third party's recommendations are not timely received, the Adviser will abstain from voting the securities held by that client's account.

The Adviser will review the proxy proposal for conflicts of interest as part of the overall vote review process. All material conflicts of interest so identified by the Adviser will be addressed as above. Matters to be reviewed include: (i) whether the issuer of the portfolio security to be voted, or an affiliate or employee group of the issuer, is a client of the Adviser; (ii) whether the Adviser has made or is actively considering a business proposal to provide services to the issuer or an affiliate or employee group of the issuer; (iii) whether the Adviser has any other material business relationship with the issuer or an affiliate of the issuer; (iv) whether an officer or director of the Adviser or the portfolio manager responsible for recommending the proxy vote is a close relative or has a personal or business relationship with an executive, director or director candidate of the issuer or is a participant in a proxy contest; and (v) whether there is any other business or personal relationship where the portfolio manager has a personal interest in the outcome of the matter to be voted upon.

LIMITATIONS

In certain circumstances where the Adviser has determined that it is in the client's best interest, the Adviser will not vote proxies received. In other situations the client will decide unilaterally to retain proxy voting authority. The following are some, but not all, circumstances where the Adviser will limit its role in voting proxies:

Client Maintains Proxy Voting Authority. Where the client has instructed the Adviser in writing, the Adviser will not vote the securities and will direct the relevant custodian to send the proxy material directly to the client. If any proxy material is received by the Adviser, it will promptly be forwarded to the client or a specified third party.

Terminated Account. Once a client account has been terminated with the Adviser in accordance with the investment advisory agreement, the Adviser may refrain from voting any proxies received after the termination. However, the client may specify in writing who the proxies shall be forwarded to.

Securities No Longer Held. The Adviser may refrain from voting proxies received for securities which are no longer held by the client's account.

Securities Lending Programs. When securities are out on loan, they are transferred into the borrower's name and are voted by the borrower, in its discretion. However, where the Adviser determines that a proxy vote is materially important to the client's account, the Adviser may recall

the security for purposes of voting.

Unsupervised Securities. The Adviser will not vote unsupervised securities.

Non-Discretionary Accounts. If the Adviser accepts a client with non-discretionary authority it may also yield the authority to vote proxies.

Foreign Issuers/Non-U.S. proxies. The Adviser will vote foreign issue proxies on a best efforts basis. Some foreign proxies may involve a number of issues that restrict or prevent the Adviser's ability to vote in a timely manner, or otherwise make voting impractical. For example, some proxies may not appear on any platform (including ProxyEdge and ISS) because some issuers do not reimburse custodians for the distribution of proxies. The Adviser will use its best efforts to vote all proxies but cannot guarantee the votes will be processed due to obstacles such as share blocking, re-registration, required powers of attorney, and sub-custodial arrangements. The Adviser may also be limited in obtaining proxy records but will maintain evidence reflecting best efforts to vote such proxies.

PROXY MANAGEMENT SYSTEMS

FPA utilizes Broadridge's proxy management system, ProxyEdge, for electronic proxy notification, on-line voting, tracking, monitoring, management, and reporting. Prior to receiving any electronic ballots, accounts must be setup with Broadridge using their Account Registration Form, which includes a section for the client's custodian to validate. FPA is responsible for completion of Part I of the Account Registration Form and when possible, will attach the partially completed form to the proxy notification letter sent to the new account's custodian who is required to validate and complete Parts II and III. The custodian will forward the completed Account Registration Form to Broadridge via e-mail or fax. Once the account is set up with Broadridge, each time the custodian passes votable positions for that account, they will be passed electronically to FPA via ProxyEdge.

In instances when an account has not yet been set up with ProxyEdge, FPA may utilize an independent proxy voting website (proxyvote.com) to vote electronically. FPA will contact the client's custodian to obtain the applicable control number and any applicable codes in order to vote the particular ballot. In other instances, such as for some non-U.S. proxies (as described above), FPA may have to forward vote instructions to the custodian directly if the issuer is not on a platform.

Additionally, Northern Trust, as a custodian, uses Broadridge for US proxies and Institutional Shareholder Services Inc. (ISS) for global proxies. FPA will receive proxy notification from ISS for those clients whose custodian are Northern Trust and will vote ballots using the ISS platform.

PROCEDURES FOR VOTING

Proxies and annual or other reports received by the Adviser for issuers in clients' accounts under management are promptly forwarded to the appropriate portfolio manager, who votes the proxy and returns it to the operations department to process the votes.

When voting by telephone. The telephone number on the proxy is called and voted, verification of the vote is made after all proposals have been voted, and the date of the telephone call is noted on the

proxy and filed in the account's file. Note of the date of the telephone call is also made on the cross-reference report and filed alphabetically in a binder by issuer.

When voting manually. Sign and date after manually checking each proposal being voted and send through the regular postal service. A copy of the proxy is filed in the account's file. Note of the date of mailing is also made on the cross reference report and filed alphabetically in a binder by issuer.

When voting electronically. Go online and vote each proxy as designated. A confirmation is then returned through e-mail. These confirmations are printed and are then filed with the proxy in the account's file. Note of the date of voting is also made on the cross reference report and filed alphabetically in a binder by issuer.

When voting foreign proxies manually. For proxies that do not appear on any platform (as previously discussed above), the Adviser will use its best efforts to vote all proxies and evidence communications to vote accordingly, regardless of the outcome of the execution.

If there is a disagreement as to how a proxy is to be voted, it is the responsibility of the portfolio managers of the Adviser to discuss and substantiate their voting. See Guidelines below for further explanation of standard voting procedures.

RECORD KEEPING

In accordance with the Rules under the Advisers Act, the Adviser will maintain for the time periods set forth in the Rules the following information:

1. these proxy voting policies and procedures, and all amendments thereto;
2. all proxy statements received regarding client securities (provided however, that the Adviser may rely on the proxy statement filed on EDGAR as its records);
3. a record of all votes cast on behalf of clients;
4. records of all client requests for proxy voting information;
5. any documents prepared by the Adviser that were material in making a decision and/or used as the basis for the decision; and
6. all records relating to requests made to clients regarding conflicts of interest in voting the proxy. These requests will be kept in the client proxy file.

Edgar Filing: SOURCE CAPITAL INC /DE/ - Form N-CSR

The Adviser will disclose its proxy voting policies and procedures and will inform clients how they may obtain information on how the Adviser voted proxies with respect to the clients' portfolio securities. Clients may obtain information on how their securities were voted or a copy of the Adviser's Policies and Procedures by written request addressed to the Adviser. The Adviser will prepare all the information required to be filed by its RIC clients on Form N-PX with the Securities and Exchange Commission.

GUIDELINES

Each proxy issue will be considered individually. The following guidelines are a partial list to be used in voting proposals contained the proxy statements, but will not be used as rigid rules.

Edgar Filing: SOURCE CAPITAL INC /DE/ - Form N-CSR

1.	Issues regarding the issuer's Board entrenchment and anti-takeover measures such as the following:	Oppose
1.	Proposals to stagger board members' terms;	
2.	Proposals to limit the ability of shareholders to call special meetings;	
3.	Proposals to require super majority votes;	
4.	Proposals requesting excessive increases in authorized common or preferred shares where management provides no explanation for the use or need of these additional shares;	
5.	Proposals regarding fair price provisions;	
6.	Proposals regarding poison pill provisions; and	
7.	Permitting green mail.	
2.	Providing cumulative voting rights	Oppose
3.	Social issues, unless specific client guidelines supersede	Oppose
4.	Election of directors recommended by management, except if there is a proxy fight	Approve
5.	Election of independent auditors recommended by management, unless seeking to replace if there exists a dispute over policies	Approve
6.	Date and place of annual meeting	Approve
7.	Limitation on charitable contributions or fees paid to lawyers	Approve
8.	Ratification of directors' actions on routine matters since previous annual meeting	Approve
9.	Confidential voting	Approve
	Confidential voting is most often proposed by shareholders as a means of eliminating undue management pressure on shareholders regarding their vote on proxy issues	
	The Adviser will generally approve these proposals as shareholders can later divulge their votes to management on a selective basis if a legitimate reason arises	
10.	Limiting directors' liability	Approve
11.	Eliminate preemptive right	Approve

Preemptive rights give current shareholders the opportunity to maintain their current percentage ownership through any subsequent equity offerings. These provisions are no longer common in the U.S., and can restrict managements ability to raise new capital

The Adviser generally approves the elimination of preemptive rights, but will oppose the elimination of limited preemptive rights, e.g., on proposed issues representing more than an acceptable level of total dilution

NOTICE TO CLIENTS OF FIRST PACIFIC ADVISORS, LLC
REGARDING PROXY VOTING POLICIES AND PROCEDURES

Unless specifically noted otherwise in writing by the Client, First Pacific Advisors, LLC (Adviser) retains all authority and responsibility to vote proxies for any stocks held in Accounts under its management.

In accordance with Rule 207.206(4)-6 of the Advisers Act of 1940 with respect to proxy voting procedures of the Adviser, we are hereby notifying you of your right to obtain information about our proxy voting policy and procedures, including how we vote shares held in your Account. If at any time you would like information on our proxy voting policy and procedures, you may send a request in writing to J. Richard Atwood, Chief Operating Officer, First Pacific Advisors, LLC, 11400 West Olympic Boulevard, Suite 1200, Los Angeles, CA 90064, or fax your request to (310) 996-5450, or by e-mail to atwood@firstpacad.com

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) Eric S. Ende, Steven R. Geist and Gregory A. Herr are primarily responsible for the day-to-day management of the registrant.

Mr. Ende has been the President, Chief Investment Officer and Director of the registrant for more than the past five years and Partner of the Adviser since October 2006. Mr. Ende also serves as Director of FPA Paramount Fund, Inc., and as Director, President and Portfolio Manager of FPA Perennial Fund, Inc., and as Vice President of FPA Capital Fund, Inc., FPA New Income, Inc., FPA Funds Trust's FPA Crescent Fund for more than the past five years, and FPA Funds Trust's FPA International Value Fund since December 2011. Mr. Ende served as Senior Vice President of First Pacific Advisors, Inc. from December 1994 to September 2006, and as President and Portfolio Manager of FPA Paramount Fund, Inc. from March 2000 to September 2013.

Mr. Geist has been the Executive Vice President and Portfolio Manager of the registrant since November 2006, and Partner of the Adviser since October 2006. Mr. Geist also serves as Executive Vice President and Portfolio Manager of FPA Perennial Fund, Inc. for more than the past five years. Mr. Geist served as Senior Vice President and Fixed-Income Manager of the registrant from November 1999 to November 2006, Vice President of the First Pacific Advisors, Inc. from December 1994 to September 2006, and Executive Vice President and Portfolio Manager of FPA Paramount Fund, Inc. from March 2000 to September 2013.

Mr. Herr has been the Vice President and Portfolio Manager of the registrant since August 2013, and Managing Director of the Adviser since January 2013. Mr. Herr also serves as Co-President and Co-Chief Investment Officer of FPA Paramount Fund, Inc. since September 2013, and Vice President and Portfolio Manager of FPA Perennial Fund, Inc. since August 2013. Mr. Herr served as Vice President of the Adviser from April 2007 to December 2013, and as Vice President (from November 2011) and Portfolio Manager (from May 2011) of FPA Paramount Fund, Inc. to September 2013.

FPA Capital Fund, Inc., FPA Funds Trust's FPA Crescent Fund, FPA Funds Trust's FPA International Value Fund, FPA New Income, Inc., FPA Paramount Fund, Inc. and FPA Perennial Fund, Inc. are registered investment companies managed by the Adviser.

(a)(2) The Portfolio Managers, Eric S. Ende, Steven R. Geist and Gregory A. Herr, are also responsible for the day-to-day management of one open-end investment company with total net assets of approximately \$311 million at December 31, 2013. Messrs. Ende and Geist, are also responsible for the day-to-day management of two other accounts, with total aggregate assets of approximately \$20 million at December 31, 2013. Mr. Herr is also responsible for the day-to-day management of one open-end investment company with an officer of the investment adviser with total net assets of approximately \$298 million at December 31, 2013. None of these accounts have an advisory fee based on the performance of the account. The Adviser does not believe any material conflicts of interest exist as a result of the Portfolio Managers managing the registrant and the other accounts noted above. The Adviser seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell identical securities for several clients managed by the Adviser. The Adviser may aggregate orders for its client accounts for the same security where concurrent decisions are made to purchase or to sell identical securities for several clients managed by the Adviser and such aggregation will generally result in more favorable net results for its clients. In these cases, the Adviser will allocate the securities or proceeds arising out of those transactions (and the related expenses) on an average price basis among the various participants. While the Adviser believes combining orders in this way will, over time, be advantageous to all participants, in

particular cases, this procedure could have an adverse effect on the price or the amount of securities purchased or sold by any one client. In making such allocations, the main factors considered by the Adviser are the respective investment objectives, the relative size of portfolio holdings of the same or comparable securities, the availability of cash for investment, the size of investment commitments generally held and the opinions of the persons responsible for recommending the investment.

(a)(3) Compensation of the Adviser's Portfolio Managers consists of: (i) a base salary; (ii) an annual bonus; and (iii) if the Portfolio Managers are equity owners of the Adviser, participation in residual profits of the Adviser.

The bonus calculation has both variable and fixed components. The most significant portion of the variable component is based upon the Adviser's assessment of the Portfolio Managers' performance in three key areas: long-term performance, team building, and succession planning. The Adviser assesses long-term performance over a full market cycle, which generally lasts between five- and ten years. Other considerations include manager and strategy recognition, client engagement and retention and business development. Portfolio Managers can receive 100% of their variable participation when the Fund is closed to investors.

The majority of the fixed portion is based on the revenues received on the assets managed by the Portfolio Managers, including the registrant's assets.

For Portfolio Managers who are equity owners of the Adviser, the value of their ownership interest is dependent upon their ability to effectively manage their business over the long term.

The Adviser offers a 401(k) plan whereby the Portfolio Managers, as well as all permanent employees of the Adviser, may elect to contribute up to the legal limit.

(a)(4) The dollar value of shares of Common Stock of the registrant owned at December 31, 2013 by Mr. Ende was between \$100,001 and \$500,000, by Mr. Geist was between \$10,001 and \$50,000, and by Mr. Herr was between \$100,001 and \$500,000.

(b) Not Applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers. Not Applicable.

Item 10. Submission of Matters to a Vote of Security Holders. There has been no material change to the procedures by which shareholders may recommend nominees to the registrant's board of directors.

Item 11. Controls and Procedures.

(a) The principal executive officer and principal financial officer of the registrant have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the

Investment Company Act of 1940) are effective based on their evaluation of the disclosure controls and procedures as of a date within 90 days of the filing date of this report.

(b) There have been no significant changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or is reasonably likely to materially affect, the registrant's internal controls over financial reporting.

Item 12. Exhibits.

(a)(1) Code of ethics as applies to the registrant's officers and directors, as required to be disclosed under Item 2 of Form N-CSR. Attached hereto as Ex.99.CODE.ETH.

(a)(2) Separate certification for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940. Attached hereto.

(a)(3) Not Applicable

(b) Separate certification for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(b) under the Investment Company Act of 1940. Attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
