**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**NOTE 1. GENERAL**

*Basis of Presentation*

The accompanying unaudited consolidated financial statements include the results of operations, financial position and cash flows of US Ecology, Inc. and its wholly-owned subsidiaries. All significant intercompany balances have been eliminated. Throughout these financial statements words such as we, us, our, US Ecology and the Company refer to US Ecology, Inc. and its subsidiaries.

In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments necessary to present fairly, in all material respects, the results of the Company for the periods presented. These consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ( GAAP ) have been omitted pursuant to the rules and regulations of the SEC. These consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2013. The results of operations and cash flows for the nine months ended September 30, 2014 are not necessarily indicative of results to be expected for the entire fiscal year.

The Company s Consolidated Balance Sheet as of December 31, 2013 has been derived from the Company s audited Consolidated Balance Sheet as of that date.

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ materially from the estimates and assumptions that we use in the preparation of our financial statements. As it relates to estimates and assumptions in amortization rates and environmental obligations, significant engineering, operations and accounting judgments are required. We review these estimates and assumptions no less than annually. In many circumstances, the ultimate outcome of these estimates and assumptions will not be known for decades into the future. Actual results could differ materially from these estimates and assumptions due to changes in applicable regulations, changes in future operational plans and inherent imprecision associated with estimating environmental impacts far into the future.

*Restricted Cash and Investments*

Restricted cash and investments represent funds held in third-party managed trust accounts as collateral for our financial assurance obligations for post-closure activities at our non-operating facilities. These funds are invested in fixed-income U.S. Treasury and government agency securities and money market accounts. The balances are adjusted monthly to fair market value based on quoted prices in active markets for identical or similar assets.

**NOTE 2. BUSINESS COMBINATION**

On June 17, 2014, the Company acquired 100% of the outstanding shares of EQ Holdings, Inc. and its wholly-owned subsidiaries (collectively EQ). EQ is a fully integrated environmental services company providing waste treatment and disposal, wastewater treatment, remediation, recycling, industrial cleaning and maintenance, transportation, total waste management, technical services, and emergency response services to a variety of industries and customers in North America. The total purchase price was \$465.9 million, net of cash acquired, and was funded through a combination of cash on hand and borrowings under a new \$415.0 million term loan. The purchase price is subject to post-closing adjustments including agreed upon working capital requirements.

We have recognized the assets and liabilities of EQ based on our preliminary estimates of their acquisition date fair values. The determination of the fair values of the acquired assets and assumed liabilities (and the related determination of estimated lives of depreciable tangible and identifiable intangible assets) requires significant judgment. As such, we have not completed our valuation analysis and calculations in sufficient detail necessary to arrive at the final estimates of the fair market value of the assets acquired and liabilities assumed, along with the related allocations to goodwill and intangible assets. All information presented is preliminary and

Table of Contents

subject to revision pending finalization of our fair market valuation analysis. Our final fair value determinations may be significantly different than those reflected in our consolidated financial statements as of September 30, 2014.

The following table summarizes the consideration paid for EQ and the preliminary fair value estimates of assets acquired and liabilities assumed recognized at the acquisition date, with purchase price allocation adjustments since the preliminary purchase price allocation as previously disclosed as of June 30, 2014:

\$s in thousands	Purchase Price Allocation		
	June 30, 2014	Adjustments	September 30, 2014
Current assets	\$ 114,227	\$ (1,028)	\$ 113,199
Property and equipment	103,532		103,532
Identifiable intangible assets	250,900		250,900
Current liabilities	(56,550)	(888)	(57,438)
Other liabilities	(131,336)	177	(131,159)
Total identifiable net assets	280,773	(1,739)	279,034
Goodwill	190,894	1,739	192,633
Total purchase price	\$ 471,667	\$	\$ 471,667

Purchase price allocation adjustments relate primarily to the receipt of additional information regarding the fair values of accounts receivable, prepaid expenses, accounts payable and accrued expenses, deferred income taxes and residual goodwill.

Goodwill of \$192.6 million arising from the acquisition is the result of several factors. EQ has an assembled workforce that serves the U.S. industrial market utilizing state-of-the-art technology to treat a wide range of industrial and hazardous waste. The acquisition of EQ increases our geographic base providing a coast-to-coast presence and an expanded service platform to better serve key North American hazardous waste markets. In addition, the acquisition of EQ provides us with an opportunity to compete for additional waste clean-up project work; expand penetration with national accounts; improve and enhance transportation, logistics, and service offerings with existing customers and attract new customers. All of the goodwill recognized was assigned to our EQ Operations reporting segment. None of the goodwill recognized is expected to be deductible for income tax purposes.

The preliminary fair value estimate of identifiable intangible assets by major intangible asset class and related weighted average amortization period are as follows:

\$s in thousands	June 17, 2014	Weighted Average
		Amortization Period (Years)
Permits and licenses	\$ 119,500	45

Table of Contents

The following unaudited pro forma financial information presents the combined results of operations as if EQ had been combined with us at the beginning of each of the periods presented. The pro forma financial information includes the accounting effects of the business combination, including the amortization of intangible assets, depreciation of property, plant and equipment, and interest expense. The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the periods presented, nor should it be taken as indication of our future consolidated results of operations.

**NOTE 4. CONCENTRATIONS AND CREDIT RISK**

*Major Customers*

## Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Revenue from a single customer accounted for approximately 12% and 10% of total revenue for the three and nine months ended September 30, 2014, respectively. Revenue from a single customer accounted for 14% of total revenue for the three months ended September 30, 2013. No customer accounted for more than 10% of total revenue for the nine months ended September 30, 2013.

Receivables from a single customer accounted for approximately 14% of total trade receivables as of September 30, 2014. Receivables from a single customer accounted for approximately 16% of total trade receivables as of December 31, 2013.

### *Credit Risk Concentration*

We maintain most of our cash with nationally recognized financial institutions like Wells Fargo Bank, National Association ( Wells Fargo ). Substantially all balances are uninsured and are not used as collateral for other obligations. Concentrations of credit risk on accounts receivable are believed to be limited due to the number, diversification and character of the obligors and our credit evaluation process.

Table of Contents**NOTE 5. RECEIVABLES**

Receivables consisted of the following:

\$s in thousands	September 30, 2014	December 31, 2013

Receivables, net	\$ 152,212	\$ 43,636

**NOTE 6. FAIR VALUE MEASUREMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities recorded at fair value are categorized using defined hierarchical levels directly related to the amount of subjectivity associated with the inputs to fair value measurements, as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable;

Level 3 - Unobservable inputs in which little or no market activity exists, requiring an entity to develop its own assumptions that market participants would use to value the asset or liability.

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, restricted cash and investments, accounts payable, accrued liabilities and long-term debt. The estimated fair value of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximate their carrying value due to the short-term nature of these instruments. The carrying amount of our long-term debt approximates fair value due to the absence of any significant changes in interest rates or the Company's credit risk profile since the execution of the Company's Credit Agreement (as defined below) on June 17, 2014.

Edgar Filing: US ECOLOGY, INC. - Form 10-Q

Table of Contents

The Company's assets measured at fair value on a recurring basis consisted of our Restricted cash and investments as follows:

\$s in thousands	September 30, 2014			Total

(1) We invest a portion of our Restricted cash and investments in fixed-income securities, including U.S. Treasury and U.S. agency securities. We measure the fair value of U.S. Treasury securities using quoted prices for identical assets in active markets. We measure the fair value of U.S. agency securities using observable market activity for similar assets. The fair value of our fixed-income securities approximates our cost basis in the investments.

(2) We invest a portion of our Restricted cash and investments in money market funds. We measure the fair value of these money market fund investments using quoted prices for identical assets in active markets.
