Southern Copper Corporation

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

**NOTE 1 DESCRIPTION OF THE BUSINESS:**

The Company is a majority-owned, indirect subsidiary of Grupo Mexico S.A.B. de C.V. ( Grupo Mexico ). At June 30, 2016, Grupo Mexico through its wholly-owned subsidiary Americas Mining Corporation ( AMC ) owned 88.8% of the Company s capital stock. The condensed consolidated financial statements presented herein consist of the accounts of Southern Copper Corporation ( SCC or the Company ), a Delaware corporation, and its subsidiaries. The Company is an integrated producer of copper and other minerals, and operates mining, smelting and refining facilities in Peru and Mexico. The Company conducts its primary operations in Peru through a registered branch (the Peruvian Branch or Branch or SPCC Peru Branch ). The Peruvian Branch is not a corporation separate from the Company. The Company s Mexican operations are conducted through subsidiaries. The Company also conducts exploration activities in Argentina, Chile, Ecuador, Mexico and Peru.

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting only of normal recurring adjustments) necessary to state fairly the Company s financial position as of June 30, 2016 and the results of operations, comprehensive income and cash flows for the three and six months ended June 30, 2016 and 2015. The results of operations for the three and six months ended June 30, 2016 and 2015 are not necessarily indicative of the results to be expected for the full year. The December 31, 2015 balance sheet data was derived from audited financial statements, but does not include all disclosures required by Generally Accepted Accounting Principles in the United States of America ( GAAP ). The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements at December 31, 2015 and notes included in the Company s 2015 annual report on Form 10-K.

**NOTE 2 SHORT-TERM INVESTMENTS:**

Short-term investments were as follows ($ in millions):

| | At June 30, 2016 | At December 31, 2015 |
|---|---|---|
| Trading securities | $ 95.4 | $ 600.2 |
| Weighted average interest rate | 1.41% | 0.71% |
| | | |
| Available-for-sale | $ 2.8 | $ 3.3 |
| Weighted average interest rate | 0.89% | 0.72% |
| Total | $ 98.2 | $ 603.5 |

Trading securities consist of bonds issued by public companies and are publicly traded. Each financial instrument is independent of the others. The Company has the intention to sell these bonds in the short-term.

Available-for-sale investments consist of securities issued by public companies. Each security is independent of the others and at June 30, 2016 and December 31, 2015, included corporate bonds and asset and mortgage backed obligations. As of June 30, 2016 and December 31, 2015, gross unrealized gains and losses on available-for-sale securities were not material.

Related to these investments the Company earned interest, which was recorded as interest income in the condensed consolidated statements of earnings. Also the Company redeemed some of these securities and recognized gains (losses) due to changes in fair value, which were recorded as other income (expense) in the condensed consolidated statements of earnings.

The following table summarizes the activity of these investments by category ($ in millions):

| | Three months ended June 30, | | Six months ended June 30, | |
|---|---|---|---|---|
| | **2016** | **2015** | **2016** | **2015** |
| Trading securities: | | | | |
| Interest earned | $ 0.3 | $ 0.2 | $ 0.7 | $ 0.5 |
| Unrealized gain (loss) at the end of the period | $ 0.4 | $ (0.2) | $ 0.4 | $ (0.2) |
| Available-for-sale: | | | | |
| Interest earned | (*) | (*) | (*) | (*) |
| Investment redeemed | $ 0.2 | $ 0.4 | $ 0.5 | $ 0.6 |

(*) Less than $0.1 million

Table of Contents

**NOTE 3 - INVENTORIES:**

Inventories were as follows ($ in millions):

| | At June 30, 2016 | At December 31, 2015 |
|---|---|---|
| Inventory, current: | | |
| Metals at average cost: | | |
| Finished goods | $ 145.1 | $ 104.1 |
| Work-in-process | 176.2 | 188.6 |
| Ore stockpiles on leach pads | 300.0 | 243.2 |
| Supplies at average cost | 358.1 | 321.3 |
| Total current inventory | $ 979.4 | $ 857.2 |
| | | |
| Inventory, non-current: | | |
| Ore stockpiles on leach pads | $ 776.4 | $ 752.3 |

During the six months ended June 30, 2016 and 2015 total leaching costs capitalized as non-current inventory of ore stockpiles on leach pads amounted to $238.5 million and $232.4 million, respectively. Leaching inventories recognized in cost of sales amounted to $157.5 million and $114.0 million for the six months ended June 30, 2016 and 2015, respectively.

**NOTE 4 INCOME TAXES:**

The income tax provision and the effective income tax rate for the first six months of 2016 and 2015 consisted of ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| Statutory income tax provision | $ 175.5 | $ 249.8 |
| Peruvian royalty | | 2.9 |
| Mexican royalty | 13.7 | 22.3 |
| Peruvian special mining tax | 5.0 | 11.2 |
| Total income tax provision | $ 194.2 | $ 286.2 |
| | | |
| Effective income tax rate | 32.7% | 33.3% |

These provisions include income taxes for Peru, Mexico and the United States. In addition, a Mexican royalty tax, a portion of the Peruvian royalty tax and the Peruvian special mining tax are included in the income tax provision.

Peruvian royalty tax: The mining royalty charge is based on operating income margins with graduated rates ranging from 1% to 12% of operating profits, with a minimum royalty charge assessed at 1% of net sales. If the operating income margin is 10% or less, the royalty charge is 1% and for each 5% increment in the operating income margin, the royalty charge rate increases by 0.75%, up to a maximum of 12%. The minimum royalty charge assessed at 1% of net sales is recorded as cost of sales and those amounts assessed against operating income are included in the income tax provision. The Company has accrued $8.1 million and $13.7 million of royalty charge in the first six months of 2016 and 2015, respectively, of which $2.9 million was included in income taxes in 2015; no amounts were included in income tax in the first six months of 2016.

Peruvian special mining tax: This tax is based on operating income at rates ranging from 2% to 8.4%. It begins at 2% for operating income margin up to 10% and increases by 0.4% of operating income for each additional 5% of operating income until 85% of operating income is reached. The Company has accrued $5.0 million and $11.2 million of special mining tax as part of the income tax provision for the first six months of 2016 and 2015, respectively.

Peruvian income tax rate: In 2014, the Peruvian government enacted tax law changes to both the income tax and dividend tax rates that became effective on January 1, 2015. The new rates are as follows:

Table of Contents

| Year | Income Tax Rate | Dividend Tax Rate |
|---|---|---|
| 2015- 2016 | 28% | 6.8% |
| 2017- 2018 | 27% | 8.0% |
| 2019 and later | 26% | 9.3% |

Mexican mining royalty: In December 2013, the Mexican government enacted a law which, among other things, established a mining royalty charge of 7.5% on earnings before taxes as defined by Mexican tax regulations and an additional royalty charge of 0.5% over gross income from sales of gold, silver and platinum. The Company has accrued $13.7 million and $22.3 million of royalty taxes as part of the income tax provision for the first six months of 2016 and 2015, respectively.

Accounting for uncertainty in income taxes: In the second quarter and first six months of 2016, there were no changes in the Company s uncertain tax positions.

**NOTE 5 PROVISIONALLY PRICED SALES:**

At June 30, 2016, the Company has recorded provisionally priced sales of copper at average forward prices per pound, and molybdenum at the June 30, 2016 market price per pound. These sales are subject to final pricing based on the average monthly London Metal Exchange ( LME ) or New York Commodities Exchange ( COMEX ) copper prices and Dealer Oxide molybdenum prices in the future month of settlement.

Following are the provisionally priced copper and molybdenum sales outstanding at June 30, 2016:

| | Sales volume (million lbs.) | Priced at (per pound) | Month of settlement |
|---|---|---|---|
| Copper | 182.6 | $ 2.19 | From July 2016 to September 2016 |
| Molybdenum | 15.5 | $ 7.13 | From July 2016 to September 2016 |

The provisional sales price adjustment included in accounts receivable and net sales at June, 30, 2016 includes positive adjustments of $5.8 million and $14.5 million for copper and molybdenum, respectively.

Management believes that the final pricing of these sales will not have a material effect on the Company s financial position or results of operations.

**NOTE 6 - ASSET RETIREMENT OBLIGATION:**

The Company maintains an estimated asset retirement obligation for its mining properties in Peru, as required by the Peruvian Mine Closure Law. In accordance with the requirements of this law the Company s closure plans were approved by the Peruvian Ministry of Energy and Mines ( MINEM ). As part of the closure plans, the Company is required to provide annual guarantees over the estimated life of the mines, based on a present value approach, and to furnish the funds for the asset retirement obligation. This law requires a review of closing plans every five years. Currently and for the near-term future, the Company has pledged the value of its Lima office complex as support for this obligation. The accepted value of the Lima office building, for this purpose, is $27.8 million. Through June 2016, the Company has provided guarantees of $21.7 million. The closure cost recognized for this liability includes the cost, as outlined in its closure plans, of dismantling the Toquepala and Cuajone concentrators, the smelter and refinery in Ilo, and the shops and auxiliary facilities at the three units.

In 2010, the Company announced to the Mexican federal environmental authorities its closure plans for the copper smelter plant at San Luis Potosi. The Company initiated a program for plant demolition and soil remediation with a budget of $66.2 million, of which the Company has spent $65.4 million through June 30, 2016. Plant demolition and construction of a confinement area at the south of the property were completed in 2012. During 2016, the Company continues with soil remediation which is expected to be completed by the end of 2016 along with the construction of a second confinement area. The Company expects that once the site is remediated, a decision will be made on whether sell or develop the property.

The overall cost recognized for mining closure in Mexico includes the estimated costs of dismantling concentrators, smelter and refinery plants, shops and other facilities.

The following table summarizes the asset retirement obligation activity for the six months ended June 30, 2016 and 2015 ($ in millions):

Table of Contents

| | 2016 | 2015 |
|---|---|---|
| Balance as of January 1 | $ 190.9 | $ 116.1 |
| Changes in estimates | | |
| Payments | (1.4) | (8.2) |
| Accretion expense | 13.9 | 5.2 |
| Balance as of June 30 | $ 203.4 | $ 113.1 |

**NOTE 7 RELATED PARTY TRANSACTIONS:**

The Company has entered into certain transactions in the ordinary course of business with parties that are controlling shareholders or their affiliates. These transactions include the lease of office space, air transportation and construction services and products and services related to mining and refining. The Company lends and borrows funds among affiliates for acquisitions and other corporate purposes. These financial transactions bear interest and are subject to review and approval by senior management, as are all related party transactions. It is the Company s policy that the Audit Committee of the Board of Directors shall review all related party transactions. The Company is prohibited from entering or continuing a material related party transaction that has not been reviewed and approved or ratified by the Audit Committee.

| Total sales | $ | 85.7 | $ | 110.7 |

Grupo Mexico, the parent and the majority indirect stockholder of the Company, and its affiliates provides various services to the Company. These services are primarily related to accounting, legal, tax, financial, treasury, human resources, price risk assessment and hedging, purchasing, procurement and logistics, sales and administrative and other support services. The Company pays Grupo Mexico for these services and expects to continue requiring such services in the future.

The Company s Mexican operations paid fees for freight services provided by Ferrocarril Mexicano S.A de C.V., for construction services provided by Mexico Proyectos y Desarrollo S.A. de C.V. and its affiliates, and for drilling services provided by Compania Perforadora Mexico S.A.P.I. de C.V. All of these companies are subsidiaries of Grupo Mexico.

The Company s Mexican operations purchased scrap and other residual copper mineral from Asarco, and power from MGE. Both companies are subsidiaries of Grupo Mexico.

In 2005, the Company organized MGE, as a subsidiary of Minera Mexico, for the construction of two power plants to supply power to the Company s Mexican operations. In May 2010, the Company s Mexican operations granted a $350 million line of credit to MGE for the construction of the power plants. That line of credit was due on December 31, 2012 and carried an interest rate of 4.4%. In the first quarter of 2012, Controladora de Infraestructura Energetica Mexico, S. A. de C. V., an indirect subsidiary of Grupo Mexico, acquired 99.999% of MGE through a capital subscription of 1,928.6 million of Mexican pesos (approximately $150 million), reducing Minera Mexico s participation to less than 0.001%. As consequence of this change in control, MGE became an indirect subsidiary of Grupo Mexico. Additionally, at the same time, MGE paid $150 million to the Company s Mexican operations partially reducing the total debt. At December 31, 2012, the outstanding balance of $184.0 million was restructured as subordinated debt of MGE with an interest rate of 5.75%. MGE is repaying its debt to the Company using a percentage of its profits and will continue until such time as the debt is satisfied. In the second quarter of 2016, MGE paid the Company $36.4 million reducing the debt balance to $74.8 million at June 30, 2016. This balance is recorded as a non-current related party receivable on the condensed consolidated balance sheet. Related to this loan, the Company recorded interest income of $3.1 million and $4.7 million in the first six months of 2016 and 2015, respectively.

In 2012, the Company signed a power purchase agreement with MGE, whereby MGE will supply some of the Company s Mexican operations with power through 2032. MGE completed construction of its first power plant in June 2013 and the second plant, in the second quarter of 2014. These plants are natural gas-fired combined cycle power generating units, with a net total capacity of 516.2 megawatts. The first plant began supplying power to the Company in December 2013, and the second plant began to supply power in June 2015. MGE is supplying approximately 12% of its power output to third-party energy users.

On August 4, 2014, Mexico Generadora de Energia Eolica S. de R.L. de C.V, an indirect subsidiary of Grupo Mexico, which is located in Oaxaca, Mexico, acquired Eolica El Retiro, S.A.P.I de C.V. ( Eolica el Retiro ). Eolica el Retiro is a windfarm with 37 wind turbines. In 2014, Eolica el Retiro started to sell power to IMMSA, one of our Mexican subsidiaries groups. During the first six months of 2016, approximately 11% of Eolica El Retiro s power was sold to IMMSA, the rest of its power output was sold to third-party energy users, including the Federal Electricity Commission.

The Company sold copper cathodes, rod and anodes, as well as sulfuric acid, silver, gold and lime to Asarco. In addition, the

Table of Contents

Company received fees for building rentals and maintenance services provided to Mexico Proyectos y Desarrollos, S.A. de C.V. and its affiliates and to Perforadora Mexico S.A.P.I de C.V., and for natural gas and services provided to MGE, all subsidiaries of Grupo Mexico.

**Companies with relationships to the controlling group:**

The following tables summarize the purchase and sales activities with other Larrea family companies in the six months ended June 30, 2016 and 2015 ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| **Purchase activity** | | |
| Boutique Bowling de Mexico S.A. de C.V. | $ 0.2 | $ |
| Mextransport | 1.0 | 0.1 |
| Operadora de Cinemas S.A. de C.V. | 0.3 | |
| Total purchases | $ 1.5 | $ 0.1 |
| | | |
| **Sales activity** | | |
| Boutique Bowling de Mexico S.A. de C.V. | $ 0.1 | $ |
| Mextransport | 0.2 | 0.1 |
| Operadora de Cinemas S.A. de C.V. | | |
| Total sales | $ 0.3 | $ 0.1 |

The Larrea family controls a majority of the capital stock of Grupo Mexico, and has extensive interests in other businesses, including transportation, real estate and entertainment. The Company engages in certain transactions in the ordinary course of business with other entities controlled by the Larrea family relating to the lease of office space, air transportation and entertainment.

The Company s Mexican operations paid fees for entertainment services provided by Boutique Bowling de Mexico S.A de C.V. and Operadora de Cinemas S.A. de C.V. Both companies are controlled by the Larrea family.

MexTransport provides aviation services to the Company s Mexican operations. This is a company controlled by the Larrea family.

**Companies with relationships to SCC executive officers:**

The following table summarizes the purchase activities with companies with relationships to SCC executive officers in the six months ended June 30, 2016 and 2015 ($ in millions):

| | 2016 | 2015 |
|---|---|---|

| | | | | |
|---|---|---|---|---|
| Breaker | $ | 0.4 | $ | 0.5 |
| Higher Technology S.A.C. | | 0.6 | | 0.8 |
| Pigoba S.A. de C.V. | | 0.1 | | |
| Sempertrans and affiliates | | | | 0.3 |
| Servicios y Fabricaciones Mecanicas S.A.C. | | 0.2 | | 0.4 |
| Total purchases | $ | 1.3 | $ | 2.0 |

The Company purchased industrial materials from Higher Technology S.A.C and paid fees for maintenance services provided by Servicios y Fabricaciones Mecanicas S.A.C. Mr. Carlos Gonzalez, son of SCC s Chief Executive Officer, has a proprietary interest in these companies.

The Company purchased industrial material from Sempertrans and its affiliates, which employed Mr. Alejandro Gonzalez as a sales representative, through August 4, 2015. Also, the Company purchased industrial material from Pigoba, S.A. de C.V., a company in which Mr. Alejandro Gonzalez has a proprietary interest. Mr. Alejandro Gonzalez is the son of SCC s Chief Executive Officer.

The Company purchased industrial material and services from Breaker, a company in which Mr. Jorge Gonzalez, son-in-law of SCC s Chief Executive Officer, has a proprietary interest; and from Breaker Peru S.A.C., a company in which Mr. Jorge Gonzalez, son-in-law and Mr. Carlos Gonzalez, son of SCC s Chief Executive Officer have a proprietary interest.

**Equity Investment in Affiliate:** The Company has a 44.2% participation in Compania Minera Coimolache S.A. ( Coimolache ), which it accounts for on the equity method. Coimolache owns Tantahuatay, a gold mine located in the northern part of Peru. It is anticipated that in the future the Company will enter into similar transactions with these same parties.

Table of Contents

**NOTE 8- BENEFIT PLANS:**

*Post retirement defined benefit plans*:

The Company has two noncontributory defined benefit pension plans covering former salaried employees in the United States and certain former expatriate employees in Peru. Effective October 31, 2000, the Board of Directors amended the qualified pension plan to suspend the accrual of benefits.

In addition, the Company s Mexican subsidiaries have a defined contribution pension plan for salaried employees and a non-contributory defined benefit pension plan for union employees.

The components of the net periodic benefit costs for the six months ended June 30, 2016 and 2015 are as follows ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| Service cost | $ 0.4 | $ 0.5 |
| Interest cost | 0.5 | 0.5 |
| Expected return on plan assets | (1.3) | (1.6) |
| Amortization of prior service cost (credit) | 0.1 | (0.2) |
| Amortization of net loss | 0.1 | 0.2 |
| Net periodic benefit costs | $ (0.2) | $ (0.6) |

*Post-retirement Health care plans*:

United States: The Company adopted a post-retirement health care plan for retired salaried employees eligible for Medicare in 1996. The Company manages the plan and is currently providing health benefits to retirees. The plan is accounted for in accordance with ASC 715 Compensation retirement benefits .

Mexico: Through 2007, the Buenavista unit provided health care services free of charge to employees and retired unionized employees and their families through its hospital at the Buenavista unit. In 2011, the Company signed an agreement with the Secretary of Health of the State of Sonora to provide these services to its retired workers and their families. The new workers of Buenavista del Cobre will receive health services from the Mexican Institute of Social Security as is the case for all Mexican workers.

The components of the net periodic benefit cost for the six months ended June 30, 2016 and 2015 are as follows ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| Interest cost | $ 0.3 | $ 0.6 |
| Amortization of net loss (gain) | (0.2) | (0.1) |
| Amortization of prior service cost (credit) | (*) | (*) |
| Net periodic benefit cost | $ 0.1 | $ 0.5 |

(*) amount is lower than $0.1 million

**NOTE 9 COMMITMENTS AND CONTINGENCIES:**

**Environmental matters:**

The Company has instituted extensive environmental conservation programs at its mining facilities in Peru and Mexico. The Company s environmental programs include, among others, water recovery systems to conserve water and minimize the impact on nearby streams, reforestation programs to stabilize the surface of the tailings dams and the implementation of scrubbing technology in the mines to reduce dust emissions.

Environmental capital investments in the six months ended June 30, 2016 and 2015 were as follows ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| Peruvian operations | $ 36.2 | $ 38.0 |
| Mexican operations | 69.5 | 6.9 |
| | $ 105.7 | $ 44.9 |

Table of Contents

Peruvian operations: The Company s operations are subject to applicable Peruvian environmental laws and regulations. The Peruvian government, through the Ministry of Environment ( MINAM ) conducts annual audits of the Company s Peruvian mining and metallurgical operations. Through these environmental audits, matters related to environmental obligation, compliance with legal requirements, atmospheric emissions, effluent monitoring and waste management are reviewed. The Company believes that it is in material compliance with applicable Peruvian environmental laws and regulations. Peruvian law requires that companies in the mining industry provide assurances for future mine closure and remediation. In accordance with the requirements of this law, the Company s closure plans were approved by MINEM. See Note 6 Asset retirement obligation, for further discussion of this matter. In accordance with the requirements of the law, in 2015 the Company submitted the closure plans for the Tia Maria project and for the Toquepala expansion. The process of review and approval of closure plans usually takes several months. In March 2016, MINEM approved the Mining Closure Plan for the Toquepala expansion project. The closure plan for the Tia Maria project is pending approval.

In 2008, the Peruvian government enacted environmental regulations establishing more stringent air quality standards ( AQS ) for daily sulfur dioxide ( SO2 ) in the air for the Peruvian territory. These regulations, as amended in 2013, recognize distinct zones/areas, as atmospheric basins. MINAM has established three atmospheric basins that require further attention to comply with the air quality standards. The Ilo basin is one of these three areas and the Company s smelter and refinery are part of the area. A supreme decree issued on April 8, 2014, indicates that mining companies should review their compliance with these regulations and develop a modification plan to reach compliance. The Company continues to work with an environmental technical study group, established by a MINAM resolution to identify activities, goals, deadlines, timetables and to develop an action plan in order to achieve compliance with AQS.

While the Company believes that a potential loss contingency may exist, it cannot currently estimate the amount of such contingency. The Company and other industries affected by this supreme decree believe that the lack of further regulations and direction from the government has delayed the full review and analysis of the necessary actions to establish compliance. Pending further government action, the Company will continue to work with its study group to analyze this issue. Furthermore, the Company does not believe it can estimate a reasonable range of possible costs until additional guidance is received from the government. Therefore, currently the Company is not able to disclose a range of costs that is meaningful.

In 2013, the Peruvian government enacted new soil environmental quality standards ( SQS ) applicable to any existing facility or project that generates or could generate risk of soil contamination in its area of operation or influence. In March 2014, MINAM issued a supreme decree which establishes additional provisions for the gradual implementation of SQS. Under this rule the Company had twelve months to identify contaminated sites in and around its facilities and present a report of identified contaminated sites. This report was submitted to MINEM in April 2015. After a review, MINEM should evaluate and issue a report to the Company which will allow it to continue to the next phase. Currently, the Company is awaiting an official response from MINEM. Once MINEM notifies the Company, it must prepare a characterization study to determine the depth, extent and physio-chemical composition of the contaminated areas and to define an appropriate remediation plan and the time-frame in which it will take place. In addition, the Company must submit for approval a Soil Decontamination Plan (SDP) within 24 months after being notified by the authority. This SDP shall include remediation actions, a schedule and compliance deadlines. Also under this rule, if deemed necessary and given reasonable justification, the Company may request a one year extension for the decontamination plan.

Soil confirmation tests must be carried out after completion of decontamination actions (within the approved schedule) and results must be presented to authorities within 30 days after receiving such results. Non-compliance with this obligation or with decontamination goals will carry penalties, although no specific sanctions have been established yet. During compliance with this schedule, companies cannot be penalized for non-compliance with the SQS.

While the Company believes that there is a reasonable possibility that a potential loss contingency may exist, it cannot currently estimate the amount of the contingency. The Company believes that a reasonable determination of the loss will be possible once the characterization study and the SDP are substantially completed. At that time the Company will be in a position to estimate the remediation cost. Further, the Company does not believe that it can estimate a reasonable range of possible costs until the noted studies have substantially progressed and therefore is not be able to disclose a range of costs that is meaningful.

Mexican operations: The Company s operations are subject to applicable Mexican federal, state and municipal environmental laws, to Mexican official standards, and to regulations for the protection of the environment, including regulations relating to water supply, water quality, air quality, noise levels and hazardous and solid waste.

The principal legislation applicable to the Company s Mexican operations is the Federal General Law of Ecological Balance and Environmental Protection (the General Law ), which is enforced by the Federal Bureau of Environmental Protection

Table of Contents

( PROFEPA ). PROFEPA monitors compliance with environmental legislation and enforces Mexican environmental laws, regulations and official standards. It may also initiate administrative proceedings against companies that violate environmental laws, which in the most extreme cases may result in the temporary or permanent shutdown of non-complying facilities, the revocation of operating licenses and/or other sanctions or fines.

In 2011, the General Law was amended, giving an individual or entity the ability to contest administrative acts, including environmental authorizations, permits or concessions granted, without the need to demonstrate the actual existence of harm to the environment as long as it can be argued that the harm may be caused. In addition, in 2011, amendments to the Civil Federal Procedures Code ( CFPC ) were enacted. These amendments establish three categories of collective actions by means of which 30 or more people claiming injury derived from environmental, consumer protection, financial services and economic competition issues will be considered to be sufficient in order to have a legitimate interest to seek through a civil procedure restitution or economic compensation or suspension of the activities from which the alleged injury derived. The amendments to the CFPC may result in more litigation, with plaintiffs seeking remedies, including suspension of the activities alleged to cause harm.

In 2013, the Environmental Liability Federal Law was enacted. The law establishes general guidelines for actions to be considered to likely cause environmental harm. If a possible determination regarding harm occurs, environmental clean-up and remedial actions sufficient to restore environment to a pre-existing condition should be taken. Under this law, if restoration is not possible, compensation measures should be provided. Criminal penalties and monetary fines can be assessed under this law.

On August 6, 2014, an accidental spill of approximately 40,000 cubic meters of copper sulfate solution occurred at a leaching pond that was under construction ten kilometers from the mine of Buenavista del Cobre, S.A. de C.V. ( BVC ) a subsidiary of the Company. The accident was caused by a rock collapse that affected the system s pumping station and by a construction defect in the seal of a pipe in the leaching system containment dam, a part of the new SX-EW III plant. This solution reached the Bacanuchi River and the Sonora River. Immediate actions were taken in order to contain the spill, and to comply with all the legal requirements. In August 2014, the Company hired contractors including environmental specialists and more than 1,200 of its own workers to clean the river.

In addition, the Company developed a service program to assist the residents of the Sonora River region, which included (i) water distribution provisions, and infrastructure development within the affected region, (ii) the expansion of the current Community Development program to communities further downstream that were affected and previously not within the scope of the Company´s program, (iii) meetings with local farmers and producers in coordination with the Federal Ministry of Agriculture, Livestock, Rural Development, Fisheries, and Nutrition in order to revamp and promote the activities of local farmers and producers, (iv) the implementation of sustainable productive projects at each affected site, as well as (v) the establishment of service desks to address specific complaints and concerns of the community.

The National Water Commission, the Federal Commission for the Protection of Sanitary Risk and PROFEPA initiated administrative proceedings regarding the spill to determine possible environmental and health damages. On August 19, 2014, PROFEPA, as part of the administrative proceeding initiated after the spill, announced the filing of a criminal complaint against BVC in order to determine those responsible for the environmental damages. The Company is vigorously defending itself against this complaint. As of June 30, 2016, the case remains in the procedural stages and is pending resolution.

On September 15, 2014, BVC executed an administrative agreement with PROFEPA, providing for the submission of a remediation action plan to the Mexican Ministry of Environment and Natural Resources (Secretaria de Medio Ambiente y Recursos Naturales SEMARNAT ). The general remediation program submitted to SEMARNAT was approved on January 6, 2015. This program is being developed in five different zones all of which have obtained approval from SEMARNAT. The Company is complying with the remedial program.

The Company also created a trust with Nacional Financiera S.N.C., a Mexican development bank, acting as a Trustee to support environmental remedial actions in connection with the spill, to comply with the remedial action plan and to compensate those persons adversely affected by the spill. The Company committed up to two billion Mexican pesos (approximately $150 million) of which approximately one billion Mexican pesos have already been contributed. A technical committee for the trust was created with representatives from the federal government, the Company and specialists assisted by a team of environmental experts to ensure the proper use of the funds. Along with the administrative agreement executed with PROFEPA, the trust serves as an alternative mechanism for dispute resolution to mitigate public and private litigation risks.

As a result of the administrative proceeding, conducted by PROFEPA, on March 2, 2015 a final ruling imposed a fine of $1.7 million.

Table of Contents

During the last half of 2014 and the first half of 2015, six collective action lawsuits were filed in federal courts in Mexico City and Sonora against two subsidiaries of the Company seeking economic compensation, clean up and remedial activities in order to restore the environment to its pre-existing conditions. Three of the collective action lawsuits have been dismissed by the court. The plaintiffs in these six lawsuits are: Acciones Colectivas de Sinaloa, A.C. which established two collective actions; Filiberto Navarro Soto et al (dismissed on July 14, 2015); Defensa Colectiva A.C. (dismissed on August 7, 2015); Ismael Navarro Babuca et al (dismissed on August 17, 2015); and Ana Luisa Salazar Medina et al. Similarly, during 2015, eight civil action lawsuits were filed against BVC in the state courts of Sonora seeking damages for alleged injuries and for moral damages as a consequence of the spill. The plaintiffs in the state court lawsuits are: Jose Vicente Arriola Nunez et al; Santana Ruiz Molina et al; Andres Nogales Romero et al; Teodoro Javier Robles et al; Gildardo Vasquez Carvajal et al; Rafael Noriega Souffle et al; Grupo Banamichi Unido de Sonora El Dorado, S.C. de R.L. de C.V; and Marcelino Mercado Cruz. In the first quarter of 2016, one additional civil action lawsuit, claiming the same damages, was filed by Juan Melquicedec Lebaron

During 2015, four constitutional lawsuits (juicios de amparo) were filed before Federal Courts against various authorities and against a subsidiary of the Company, arguing; (i) the alleged lack of a waste management program approved by SEMARNAT; (ii) the alleged lack of a remediation plan approved by SEMARNAT with regard to the August 2014 spill; (iii) the alleged lack of community approval regarding the environmental impact authorizations granted by SEMARNAT to the subsidiary of the Company; and (iv) the alleged inactivity of the authorities with regard of the spill in August 2014. The plaintiffs of those lawsuits are: Francisca Garcia Enriquez, et al which established two lawsuits, Francisco Ramon Miranda, et al and Jesus David Lopez Peralta et al. In the first quarter of 2016, another constitutional lawsuit, claiming the same damages, was filed by Oscar Encinas Gamez et al. For a description of the collective actions in Mexico, please see to the 2011 amendments to the CFPC described above. It is currently not possible to determine the extent of the damages sought in these state and federal lawsuits but the Company considers that these lawsuits are without merit. Accordingly, the Company is vigorously defending against these actions. Nevertheless, the Company considers that none of the legal proceedings resulting from the spill, individually or in the aggregate, would have a material effect on its financial position or results of operations.

As of June 30, 2016, BVC estimated total damages at $136.4 million, of which $41.1 million was paid with the Company s funds, and approximately one billion Mexican pesos (approximately $74.9 million) was deposited in the trust. These funds have been available and have been used to compensate claims as they have arisen. This deposit was classified as restricted cash and was recorded as an operating expense in the Company s results.

The Company believes that all of its facilities in Peru and Mexico are in material compliance with applicable environmental, mining and other laws and regulations.

The Company also believes that continued compliance with environmental laws of Mexico and Peru will not have a material adverse effect on the Company s business, properties, result of operations, financial condition or prospects and will not result in material capital investments.

**Litigation matters**:

Garcia Ataucuri and Others against SCC s Peruvian Branch:

In April 1996, the Branch was served with a complaint filed in Peru by Mr. Garcia Ataucuri and approximately 900 former employees seeking the delivery of a substantial number of labor shares (acciones laborales) plus dividends on such shares, to be issued to each former employee in proportion to their time of employment with SCC s Peruvian Branch, pursuant to a former Peruvian mandated profit sharing law.

The labor share litigation is based on claims of former employees for ownership of labor shares that the plaintiffs state that the Branch did not issue during the 1970s until 1979 under such former Peruvian mandated profit sharing law. In 1971, the Peruvian government enacted legislation providing that mining workers would have a 10% participation in the pre-tax profits of their employing enterprises. This participation was distributed 40% in cash and 60% in an equity interest of the enterprise. In 1978, the equity portion, which was originally delivered to a mining industry workers organization, was set at 5.5% of pre-tax profits and was delivered, mainly in the form of labor shares to individual workers. The cash portion was set at 4.0% of pre-tax earnings and was delivered to individual employees also in proportion to their time of employment with the Branch. In 1992, the workers participation was set at 8%, with 100% payable in cash and the equity participation was eliminated from the law.

In relation to the issuance of labor shares by the Branch in Peru, the Branch is a defendant in the following lawsuits:

1) Mr. Garcia Ataucuri seeks delivery, to himself and each of the approximately 900 former employees of the Peruvian Branch, of the 3,876,380,679.65 old soles or 38,763,806.80 labor shares (acciones laborales), as required by Decree Law 22333 (a former profit sharing law), to be issued proportionally to each former employee in accordance with the time of

Table of Contents

employment of such employee with SCC s Branch in Peru, plus dividends on such shares. The 38,763,806.80 labor shares sought in the complaint, with a face value of 100.00 old soles each, represent 100% of the labor shares issued by the Branch during the 1970s until 1979 for all of its employees during that period. The plaintiffs do not represent 100% of the Branch s eligible employees during that period.

It should be noted that the lawsuit refers to a prior Peruvian currency called sol de oro or old soles, which was later changed to the inti , and then into today s sol . Due to a past period of high inflation between 1985 and 1990, one billion of old soles is equivalent to today s one sol.

After lengthy proceedings before the civil courts in Peru on September 19, 2001, on appeal by the Branch, the Peruvian Supreme Court annulled the proceedings noting that the civil courts lacked jurisdiction and that the matter had to be decided by a labor court (the 2000 appeal ).

In October 2007, in a separate proceeding initiated by the plaintiffs, the Peruvian Constitutional Court nullified the September 19, 2001 Peruvian Supreme Court decision and ordered the Supreme Court to decide again on the merits of the case accepting or denying the 2000 appeal.

In May 2009, the Supreme Court rejected the 2000 appeal of the Branch affirming the adverse decision of the appellate civil court and lower civil court. While the Supreme Court has ordered SCC s Peruvian Branch to deliver the labor shares and dividends, it has clearly stated that SCC s Peruvian Branch may prove, by all legal means, its assertion that the labor shares and dividends were distributed to the former employees in accordance with the profit sharing law then in effect, an assertion which SCC s Peruvian Branch continues to make.

On June 9, 2009, SCC s Peruvian Branch filed a proceeding of relief before a civil court in Peru seeking the nullity of the 2009 Supreme Court decision and, in a separate proceeding, a request for a precautionary measure. The civil court rendered a favorable decision on the nullity and the precautionary measure, suspending the enforcement of the Supreme Court decision, for the reasons indicated above and other reasons. In February 2012, the Branch was notified that the civil court had reversed its prior decisions. On appeal by the Peruvian Branch the Superior Court affirmed the lower court s decisions regarding the nullity of the 2009 Supreme Court decision and the precautionary measure. As a result, the nullity of the precautionary measure became final and is not appealable. However, the nullity of the 2009 Supreme Court decision was appealed by the Branch before the Constitutional Court. On April 10, 2014, the Constitutional Court denied the Company s appeal and affirmed the lower court s decision.

On September 23, 2015, the lower court that ordered the delivery by the Branch of the labor shares, seized 10,501,857 investment shares owned by SCC and Compania Minera Los Tolmos, S.A. ( Los Tolmos ). The Company is vigorously defending against these measures, and has challenged them on various grounds, mainly because a labor share created by law in 1979 is not equivalent to an investment share , on a one to one basis, as the latter must recognize the Peruvian inflation of the 1980-2014 period. One investment share represents ten million labor shares . Additionally, the seized investment shares are owned by SCC and Los Tolmos, companies that are not a party in the lawsuit.

In December 2015, the Company appealed the lower court´s decision before the Superior Court that declared without merit its opposition to the seizure. Los Tolmos initiated a third party claim to ownership, to have the lower court cancel the seizure order on their investment shares. In January 2016, the lower court issued a resolution clarifying that the seizure measure applies to the investment shares owned by SCC s Peruvian Branch even if they are in possession of SCC or Los Tolmos. The Company continues to vigorously defend against the seizure measure.

2) In addition, there are filed against SCC s Branch the following lawsuits, involving approximately 800 plaintiffs, which seek the same number of labor shares as in the Garcia Ataucuri case, plus interest, labor shares resulting from capital increases and dividends: (1) Armando Cornejo Flores and others v. SCC s Peruvian Branch (filed May 10, 2006); (2) Alejandro Zapata Mamani and others v. SCC s Peruvian Branch (filed June 27, 2008); (3) Edgardo Garcia Ataucuri, in representation of 216 of SCC s Peruvian Branch former workers, v. SCC s Peruvian Branch (filed May 2011); (4) Juan Guillermo Oporto Carpio v. SCC s Peruvian Branch (filed August 2011); (5) Rene Mercado Caballero v. SCC s Peruvian Branch (filed November 2011); (6) Enrique Salazar Alvarez and others v. SCC s Peruvian Branch (filed December 2011; (7) Armando Cornejo Flores, in representation of 37 of SCC s Peruvian Branch former workers v. SCC s Peruvian Branch (filed March 2012), (8) Porfirio Ochochoque Mamani and others v. SCC s Peruvian Branch (filed July 2012); (9) Alfonso Claudio Flores Jimenez and others v. SCC s Peruvian Branch (filed July 2013); (10) Edgardo Garcia Ataucuri in representation of 104 of SCC´s Peruvian Branch former workers (filed March 2015); (11) Nicolas Aurelio Sueros Benavente v. SCC s Peruvian Branch (filed May 2015) and (12) Victor Raul Marquez Cano v. SCC s Peruvian Branch (filed June 2015). SCC s Peruvian Branch has answered the complaints and denied the validity of the asserted claims.

Table of Contents

SCC s Peruvian Branch asserts that the labor shares were distributed to the former employees in accordance with the profit sharing law then in effect. The Peruvian Branch has not made a provision for these lawsuits because it believes that it has meritorious defenses to the claims asserted in the complaints. Additionally, the amount of this contingency cannot be reasonably estimated by management at this time.

The Virgen Maria Mining Concessions of the Tia Maria Mining Project

The Tia Maria project includes various mining concessions, totaling 32,989.64 hectares. One of the concessions is the Virgen Maria mining concession totaling 943.72 hectares or 2.9% of the total mining concessions.

Related to the Virgen Maria mining concessions, the Company is party to the following lawsuit:

- Exploraciones de Concesiones Metalicas S.A.C. ( Excomet ): In August 2009, a lawsuit was filed against SCC s Branch by the former stockholders of Excomet. The plaintiffs allege that the acquisition of Excomet s shares by the Branch is null and void because the $2 million purchase price paid by the Branch for the shares of Excomet was not fairly negotiated by the plaintiffs and the Branch. In 2005, the Branch acquired the shares of Excomet after lengthy negotiations with the plaintiffs, and after the plaintiffs, which were all the stockholders of Excomet, approved the transaction in a general stockholders meeting. Excomet was at the time owner of the Virgen Maria mining concession. In October 2011, the civil court dismissed the case on the grounds that the claim had been barred by the statute of limitations. On appeal by the plaintiffs, the superior court reversed the lower court s decision and remanded it to the lower court for further proceedings. In August 2015, the lower court dismissed the case on the grounds that the plaintiffs had not proven the alleged unfairness of the negotiations. The plaintiffs appealed this resolution before the Superior Court. As of June 30, 2016, the case remains pending resolution.

The Company asserts that this lawsuit is without merit and is vigorously defending against it.

The Tia Maria Mining Project

There are four lawsuits filed against the Peruvian Branch of the Company related to the Tia Maria project.

In June 2015, a lawsuit was filed against the Company´s Peruvian Branch and the Mining Council of MINEM by Mr. Jorge Isaac del Carpio Lazo, which seeks to declare null and void the Resolution which approved the Environmental Impact Assessment of the project.

In October 2015, a lawsuit was filed against the Company´s Peruvian Branch and MINEM by Mr. Ernesto Mendoza Padilla seeking the cancellation of the project and the withdrawal of mining activities by the Branch in the area.

In January 2016, a lawsuit was filed against the Company´s Peruvian Branch and MINEM by Mr. Nicolas Belfiori Nicolini seeking to declare null and void the Beneficiation Concession application of the Tia Maria project.

In March 2016, a lawsuit was filed against the Company´s Peruvian Branch and MINEM by Mr. Juan Alberto Guillen Lopez seeking to declare null and void the Resolution which approved the Environmental Impact Assessment for the project.

The Company asserts that these lawsuits are without merit and is vigorously defending against them.

Special Regional Pasto Grande Project ( Pasto Grande Project )

In 2012, the Pasto Grande Project, an entity of the Regional Government of Moquegua, filed a lawsuit against SCC s Peruvian Branch alleging property rights over a certain area used by the Peruvian Branch and seeking the demolition of the tailings dam where SCC s Peruvian Branch has deposited its tailings from the Toquepala and Cuajone operations since 1995. The Peruvian Branch has had title to use the area in question since 1960 and has constructed and operated the tailing dams also with proper governmental authorization, since 1995. SCC s Peruvian Branch asserts that the lawsuit is without merit and is vigorously defending against the lawsuit. Upon a motion filed by the Peruvian Branch, the lower court has included MINEM as a defendant in this lawsuit. MINEM has answered the complaint and denied the validity of the claim. As of June 30, 2016, the case remains pending resolution without further developments.

Table of Contents

Carla Lacey and Barbara Siegfried, on behalf of themselves and all other similarly situated stockholders of Southern Copper Corporation, and derivatively on behalf of Southern Copper Corporation

A purported class action derivative lawsuit filed in the Delaware Court of Chancery was served on the Company and its Directors in February 2016 relating to the 2012 capitalization of 99.999% of MGE by Controladora de Infraestructura Energetica Mexico, S.A. de C.V., an indirect subsidiary of Grupo Mexico (the CIEM Capitalization ), the Company s entry into a power purchase agreement with MGE in 2012 (the MGE Power Purchase Agreement ), and the 2012 restructuring of a loan from the Company s Mexican Operations to MGE for the construction of two power plants to supply power to the Company s Mexican operations (the MGE Loan Restructuring ). The action purports to be brought on behalf of the Company and its common stockholders. The complaint alleges, among other things, that the CIEM Capitalization, the MGE Power Purchase Agreement and the MGE Loan Restructuring were the result of breaches of fiduciary duties and the Company s charter. The Company has filed a response denying these allegations.

**Labor matters**:

Peruvian operations: Approximately 75% of the Company s 4,560 Peruvian workers were unionized at June 30, 2016. Currently, there are five separate unions, one large union and four smaller unions. In the first quarter of 2016, the Company signed three-year agreements with all five unions. These agreements include, among other things, annual salary increases of 5% for each of the three years.

Mexican operations: In recent years, the Mexican operations have experienced a positive improvement of their labor environment, as its workers opted to change their affiliation from the Sindicato Nacional de Trabajadores Mineros, Metalurgicos y Similares de la Republica Mexicana (the National Mining Union ) led by Napoleon Gomez Urrutia to other less politicized unions.

However, the workers of the San Martin and Taxco mines, are still under the National Mining Union and have been on strike since July 2007. On December 10, 2009, a federal court confirmed the legality of the San Martin strike. In order to recover the control of the San Martin mine and resume operations, the Company filed a court petition on January 27, 2011 requesting that the court, among other things, define the termination payment for each unionized worker. The court denied the petition alleging that, according to federal labor law, the union was the only legitimate party to file such petition. On appeal by the Company, on May 13, 2011, the Mexican federal tribunal accepted the petition. In July 2011, the National Mining Union appealed the favorable court decision before the Supreme Court. On November 7, 2012, the Supreme Court affirmed the decision of the federal tribunal. The Company filed a new proceeding before the labor court on the basis of the Supreme Court decision, which recognized the right of the labor court to define responsibility for the strike and the termination payment for each unionized worker. A favorable decision of the labor court in this new proceeding would have the effect of terminating the protracted strike at San Martin. As of June 30, 2016, the case remains pending resolution without further developments.

In the case of the Taxco mine, following the workers refusal to allow exploration of new reserves, the Company commenced litigation seeking to terminate the labor relationship with workers at the mine (including termination of the related collective bargaining agreement). On September 1, 2010, the federal labor court issued a ruling approving the termination of the collective bargaining agreement and all the individual labor contracts of the workers affiliated with the Mexican mining union at the Taxco mine. The mining union appealed the labor court ruling before a federal court. In September 2011, the federal court accepted the union s appeal and remanded the case to the federal labor court for reconsideration. After several legal proceedings on January 25, 2013, the Company filed a new proceeding before the labor court. On June 16, 2014, the labor court denied the petition of the Company. The resolution issued by the labor court was challenged by the Company before a federal court. In August 2015, the Supreme Court decided to assert jurisdiction over the case and to rule on it directly. Considering this new decision of the Supreme Court, there could be grounds for a favorable decision to end the protracted strike at the Taxco Unit. As of June 30, 2016, the case remains pending resolution without further developments.

It is expected that operations at these mines will remain suspended until these labor issues are resolved.

In view of these lengthy strikes, the Company has reviewed the carrying value of the San Martin and Taxco mines to ascertain whether impairment exists. The Company concluded that there is a non-material impairment of the assets located at these mines.

Table of Contents

**Other legal matters**:

The Company is involved in various other legal proceedings incidental to its operations, but the Company does not believe that decisions adverse to it in any such proceedings, individually or in the aggregate, would have a material effect on its financial position or results of operations.

**Other commitments**:

Peruvian Operations

*Tia Maria:*

On August 1, 2014, the Company received the final approval of Tia Maria´s Environmental Impact Assessment ( EIA ). However, the issuance of the project´s construction permit has been delayed due to pressures from anti-mining groups. During the first half of 2016, the Company has continued working with community groups in order to resolve open issues concerning the project.

Tia Maria´s project budget is approximately $1.4 billion of which $362.5 million has been invested through June 30, 2016. When completed, it is expected to produce 120,000 tons of copper cathodes per year. This project will use state-of-the-art SX-EW technology with the highest international environmental standards. SX-EW facilities are the most environmentally friendly in the industry as they do not require a smelting process and consequently, no emissions into the atmosphere are released. The project will only use seawater, transporting this more than 25 kilometers to 1,000 meters above sea level, and includes a desalinization plant which will be constructed at a cost of $95 million. In this manner, the Company guarantees that the Tambo river water resources and the water resources from the wells of the areas will be used solely for farming and human consumption.

The Company expects the project to generate 3,500 jobs during the construction phase. When in operation, Tia Maria will directly employ 600 workers and indirectly another 2,000. Through its expected twenty-year life, the project related services will create significant business opportunities in the Arequipa region.

In view of the delay in this project, the Company has reviewed the carrying value of this asset to ascertain whether impairment exists. Should the Tia Maria project not be restarted, the Company is confident that most of the project equipment will continue to be used productively, through reassignment to other mine locations operated by the Company. The Company believes that an impairment loss, if any, will not be material.

In connection with the Tia Maria project, in 2014 the Company offered to establish a S/ 100 million fund (approximately $30 million) for the benefit of social and infrastructure improvements in Tia Maria s neighboring communities.

*Toquepala Concentrator Expansion:*

In April 2015, the construction permit for the Toquepala expansion project was approved by the MINEM. The project budget is $1.2 billion, of which $431.1 million has been expended through June 30, 2016. When completed, this expansion project is expected to increase annual production capacity by 100,000 tons of copper and 3,100 tons of molybdenum.

In connection with this project, the Company has committed to fund various social and infrastructure improvement projects in Toquepala s neighboring communities. The total amount committed for these purposes is S/ 445.0 million (approximately $134 million).

*Power purchase agreements*

- *Enersur:* In 1997, SCC signed a power purchase agreement with an independent power company, Enersur S.A. under which SCC agreed to purchase all of its power needs for its current Peruvian operations from Enersur for twenty years, through April 2017.

- *Electroperu S.A.:* In June 2014, the Company signed a power purchase agreement for 120 megawatt ( MW ) with the state power company Electroperu S.A., under which Electroperu S.A. will supply energy for the Peruvian operations for twenty years starting on April 17, 2017 and ending on April 30, 2037.

• *Kallpa Generacion S.A. ( Kallpa ):* In July 2014, the Company signed a power purchase agreement for 120MW with Kallpa, an independent Israeli owned power company, under which Kallpa will supply energy for the Peruvian operations for ten years starting on April 17, 2017 and ending on April 30, 2027. In May 2016, the Company signed an additional power purchase agreement for a maximum of 80MW with Kallpa, under which Kallpa will supply energy for the Peruvian operations related to the Toquepala Expansion and other minor projects for ten years starting on May 1, 2017 and ending after ten years of commercial operation of the Toquepala Expansion or on April 30, 2029; whichever happens first.

Mexican operations

*Power purchase agreements*

• *MGE:* In 2012, the Company signed a power purchase agreement with MGE, an indirect subsidiary of Grupo Mexico, to supply power to some of the Company s Mexican operations through 2032. For further information, please see Note 7 Related party transactions .

Corporate operations

*Commitment for Capital projects*

As of June 30, 2016, the Company has committed approximately $2,302.3 million for the development of its capital investment projects at its operations.

**Tax contingency matters:**

Tax contingencies are provided for under ASC 740-10-50-15 Uncertain tax position (see Note 4 Income taxes ).

**NOTE 10 SEGMENT AND RELATED INFORMATION:**

Company management views Southern Copper as having three reportable segments and manages it on the basis of these segments. The reportable segments identified by the Company are: the Peruvian operations, the Mexican open-pit operations and the Mexican underground mining operations segment identified as the IMMSA unit.

The three reportable segments identified are groups of mines, each of which constitute an operating segment, with similar economic characteristics, type of products, processes and support facilities, similar regulatory environments, similar employee bargaining contracts and similar currency risks. In addition, each mine within the individual group earns revenues from similar type of customers for their products and services and each group incurs expenses independently, including commercial transactions between groups.

Financial information is regularly prepared for each of the three segments and the results of the Company s operations are regularly reported to Senior Management on the segment basis. Senior Management of the Company focus on operating income and on total assets as measures of performance to evaluate different segments and to make decisions to allocate resources to the reported segments. These are common measures in the mining industry.

Table of Contents

Financial information relating to Southern Copper s segments is as follows ($ in millions):

| | Three Months Ended June 30, 2016 | | | | |
|---|---|---|---|---|---|
| | Mexican Open-Pit | Mexican IMMSA Unit | Peruvian Operations | Corporate, other and eliminations | Consolidated |
| Net sales outside of segments | $ 815.9 | $ 82.7 | $ 436.5 | | $ 1,335.1 |

**NOTE 11    STOCKHOLDERS    EQUITY:**

*Treasury Stock:*

Activity in treasury stock in the six-month period ended June 30, 2016 and 2015 is as follows ($ in millions):

| | 2016 | 2015 |
|---|---|---|
| Southern Copper common shares | | |
| Balance as of January 1, | $ 2,697.6 | $ 1,693.5 |
| Purchase of shares | 53.7 | 414.6 |
| Used for corporate purposes | (0.3) | (0.4) |
| Balance as of June 30, | 2,751.0 | 2,107.7 |
| | | |
| Parent Company (Grupo Mexico) common shares | | |
| Balance as of January 1, | 211.3 | 207.2 |
| Other activity, including dividend, interest and foreign currency transaction effect | 4.7 | (2.5) |
| Balance as of June 30, | 216.0 | 204.7 |
| | | |
| Treasury stock balance as of June 30, | $ 2,967.0 | $ 2,312.4 |

The following table summarizes share distributions in the first six months of 2016 and 2015:

| | 2016 | 2015 |
|---|---|---|
| Southern Copper common shares | | |
| Directors    Stock Award Plan | 12,000 | 13,200 |
| | | |
| Parent Company (Grupo Mexico) common shares | | |
| Employee stock purchase plan (shares in millions) | 0.6 | 0.2 |

*Southern Copper Common Shares:*

At June 30, 2016 and 2015, there were in treasury 110,877,016 and 86,556,843 SCC   s common shares, respectively.

*SCC share repurchase program:*

In 2008, the Company s Board of Directors ( BOD ) authorized a $500 million share repurchase program that has since been increased by the BOD and is currently authorized to $3 billion. Pursuant to this program, the Company purchased common stock as shown in the table below. These shares are available for general corporate purposes. The Company may purchase additional shares of its common stock from time to time, based on market conditions and other factors. This repurchase program has no expiration date and may be modified or discontinued at any time.

| Period | | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plan | Maximum Number of Shares that May Yet Be Purchased Under the Plan @ $26.98 (*) | Total Cost ($ in millions) |
