If and only to the extent a holder elects to convert its notes in connection with a make-whole fundamental change (as defined under Description of notes Conversion rights Increase in conversion rate upon conversion upon a make-whole fundamental change in the preliminary prospectus supplement), the Issuer will, under certain circumstances, increase the conversion rate by a number of additional shares of common stock. The following table sets forth the number of additional shares to be added to the conversion rate per \$1,000 principal amount of notes in connection with a make-whole fundamental change, as the case may be:

Stock Price

| Effective Date | \$7.62 | \$8.38 | \$8.50 | \$9.00 | \$9.50 | \$10.00 | \$10.50 |

The exact stock prices and effective dates may not be set forth in the table above, in which case:

- If the stock price is between two stock prices in the table or the effective date is between two effective dates in the table, the number of additional shares by which the conversion rate will be increased will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock prices and the earlier and later effective dates, as applicable, based on a 365-day year.
- If the stock price is greater than \$10.50 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above), no additional shares will be added to the conversion rate.
- If the stock price is less than \$7.62 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above), no additional shares will be added to the conversion rate.

Notwithstanding the foregoing, in no event will the conversion rate per \$1,000 principal amount of notes exceed 131.2335 shares of common stock, subject to adjustment in the same manner as the conversion rate as set forth under Description of notes Conversion rights Conversion rate adjustments in the preliminary prospectus supplement.
