CORPORATE GOVERNANCE

Corporate governance is the system by which companies are directed and controlled and involves the distribution of rights and responsibilities among the Board, management and the Company's Members. The Company has established Corporate Governance Guidelines that spell out its overall approach towards corporate governance.

The Company also has a Code of Business Conduct that applies to all directors, officers and employees in carrying out their responsibilities to, and on behalf of, the Company. No waivers of the Code of Business Conduct were requested of, or granted by, the Board for any director or executive officer during 2017.

The Company's Corporate Governance Guidelines and Code of Business Conduct are available at our website, www.whitemountains.com. These documents are available in print, free of charge, to any Member upon request.

The Board

The day-to-day management of the Company, including preparation of financial statements and short-term and long-term strategic planning, is the responsibility of management. The primary responsibility of the Board is to oversee and review management's performance of these functions in order to advance the long-term interests of the Company and its Members.

In fulfilling this responsibility, directors must exercise common sense business judgment and act in what they reasonably believe to be in the best interests of the Company and its Members. Directors are entitled to rely on the honesty and integrity of senior management and the Company's outside advisors and auditors. However, it is the Board's responsibility to establish that they have a reasonable basis for such reliance by ensuring that they have a strong foundation for trusting the integrity, honesty and undivided loyalty of the senior management team upon whom they are relying and the independence and expertise of outside advisors and auditors.

Mr. Davis, an independent director, serves as Chairman of the Board. At meetings of the Board, Mr. Davis presides over a separate session of non-management directors without Company management present. In addition to being led by an independent Board Chair, the Board is comprised of directors that, together, are knowledgeable and experienced in the Company's business. The Board is satisfied that the current structure provides strong oversight of the Company's affairs.

Table of Contents

Director Independence

The Board has determined that a majority of the Company's current directors are independent, as defined in Section 303A of the New York Stock Exchange (NYSE) Listed Company Manual. Those directors determined to be independent are Messrs. Brouillette, Davis, Frinquelli, Gelston, Smith and Tolman and Mmes. Choksi and Holiday. For a director to be independent, the Board must determine that the director has no relationship with the Company (other than being a director or shareholder of the Company or its subsidiaries) or has only immaterial relationships with the Company. The Company does not apply categorical standards as a basis for determining director independence. Accordingly, the Board considers all relevant facts and circumstances, on a case-by-case basis, in making an independence determination.

The Board notes no current relationships (other than being directors or shareholders) with Messrs. Brouillette, Frinquelli, Gelston, Tolman and Smith or Mmes. Choksi and Holiday. The Board notes a relationship with Mr. Davis, as disclosed herein under *Director Compensation*, that it concluded was immaterial and did not impair his independence. In making its independence determinations, the Board considers all such relationships in light of NYSE standards as well as the attributes it believes should be possessed by independent-minded directors. Those attributes include the relative impact of the transactions to the director's personal finances, the perceived degree of dependence by the director or the Company upon the relationship or transactions continuing in the future and whether the transactions were on terms that were reasonable and competitive.

Board Meetings and Committees; Annual Meeting Attendance

During 2017, the following meetings of the Board were held: seven meetings of the full Board, eleven meetings of the Audit Committee, four meetings of the Compensation Committee, three meetings of the Performance Compensation Subcommittee, three meetings of the Nominating and Governance Committee and four meetings of the Finance Committee. It is White Mountains practice that all directors are invited to and generally attend all Committee meetings. In addition, each Committee Chair provides regular updates to the Board regarding Committee activities.

The Board also discusses with management the Company's business strategy, risk appetite and appropriate levels of risk.

The Board's committees are assigned oversight responsibility for particular areas of risk. For example, the Audit Committee receives a report, at least annually, on company-wide risks which encompass operational, financial, legal, compliance and reputational risks. The Compensation Committee oversees risk related to executive compensation plans and implementation. The Finance Committee oversees the risks related to managing the Company's investment portfolio.

Members of record of common shares shall be entitled to one vote per common share, provided that if, and so long as, the votes conferred by Controlled common shares (as defined below) of any person constitute ten percent (10%) or more of the votes conferred by the outstanding common shares of the Company, each outstanding common share comprised in such Controlled common shares shall confer only a fraction of a vote that would otherwise be applicable according to the following formula:

$$[(T \text{ divided by } 10) - 1] \text{ divided by } C$$

Where: T is the aggregate number of votes conferred by all the outstanding common shares; and C is the number of votes conferred by the Controlled common shares of such person.

Controlled common shares in reference to any person means:

(1) all common shares directly, indirectly, or constructively owned by such person within the meaning of Section 958 of the Internal Revenue Code of 1986, as amended, of the United States; and

(2) all common shares directly, indirectly, or constructively owned by any person or group of persons within the meaning of Section 13(d)(3) of the Exchange Act and the rules and regulations promulgated thereunder; provided that this clause (ii) shall not apply to (a) any person (or any group that includes any person) that has been exempted from the provisions of this clause or (b) any person or group that the Board, by the affirmative vote of at least seventy-five percent (75%) of the entire Board, may exempt from the provisions of this clause.

The limitations set forth above do not apply to any Member which is a Byrne Entity (as defined below) for any matter submitted to the vote of Members, except with respect to the election of directors. Byrne Entity means any of John J. Byrne, any foundation or trust established by John J. Byrne, Patrick Byrne, and any associate or affiliate of any of them (or any group of which any of them is a part), as defined under Section 13(d) of the United States Securities Exchange Act of 1934, as amended.

If, as a result of giving effect to the foregoing provisions or otherwise, the votes conferred by the Controlled common shares of any person would otherwise represent 10% or more of the votes conferred by all the outstanding common shares, the votes conferred by the Controlled common shares of such person shall be reduced in accordance with the foregoing provisions. Such process shall be repeated until the votes conferred by the Controlled common shares of each person represent less than 10% of the votes

conferred by all common shares.

Background

White Mountains is engaged in the business of making opportunistic and value-oriented acquisitions of businesses and assets in the insurance, financial services and related sectors, operating these businesses and assets through our subsidiaries and, if and when attractive exit valuations become available, disposing of these businesses and assets.

In recent years, White Mountains has sold a number of its businesses OneBeacon, Tranzact, Sirius and Symetra as buyers made compelling offers that resulted in roughly \$1.4 billion of transaction gains that drove strong growth in adjusted book value per share (ABVPS) during 2015-2017. As a result of these sales, the Company finds itself in a period of transition as management works to intelligently redeploy and distribute the transaction proceeds. Pro forma for the OneBeacon sale, as of May 2017 the Company had an undeployed capital position of \$3.1 billion on a capital base of \$4.2 billion. In addition, the Company's remaining businesses generated much lower revenues than the sold businesses, and the high level of undeployed capital implies a low single digit go-forward rate of growth in ABVPS, at least in the short term. We expect returns to normalize and revenues to grow over several years, as undeployed capital is deployed in new opportunities or distributed. The Company remains focused on economics and creating shareholder value, while targeting redeployment in its areas of expertise: primarily insurance, broader financial services and adjacent sectors. The Company remains value-oriented, opportunistic and highly flexible.

In making compensation grants in early 2018 and setting related performance targets, the Committee took account of the stage of transition of the Company, including the level of deployed and undeployed capital and the expected run rate returns thereon, and made assumptions regarding the timing and magnitude of redeployment and distributions consistent with the Company's communications with shareholders in May 2017. In particular, for the new incentive grants, which were the first grants made after the completion of all the aforementioned sales, the Committee decreased the total target number of shares granted under the long-term incentive plan by roughly 24% and increased the performance target applicable to the new performance share cycle by 1 point over the prior cycle. In addition, the Committee considered the feedback received from owners through the Company's shareholder outreach conducted in May 2017 and the vote levels from the 2017 say-on-pay proposal. The Committee will strongly consider the feedback and vote levels when determining the appropriateness and amounts of any future separation payments to executives. The Committee has determined that separation payments relating to periods after the date of separation generally will be limited to no more than target levels.

May 2017 Shareholder Engagement

Following the announcement of the OneBeacon sale in May 2017, the Company published an investor presentation and held meetings with a number of the Company's shareholders. The presentation discussed (1) the transformation of the Company through the previously discussed sales of businesses over the course of the 2015-2017 performance cycle, (2) capital management activities, (3) management changes, and (4) expectations for the Company going forward, including lower run rate returns and revenues, particularly until capital generated from the sale transactions is redeployed.

At about the same time, in advance of the Company's annual general meeting held on May 25, 2017, certain proxy advisory firms recommended that shareholders vote against the Company's say-on-pay proposal. In light of the recommendations, the Company's management met with 14 shareholders who held roughly 51% of the Company's shares to discuss the recommendations and address questions about the Company's compensation program, including the cash retirement payment made to Mr. Barrette that is discussed below. In general, these shareholders understood the basis for the Company's compensation actions in conjunction with the sales of businesses and the strong transaction gains that the Company produced and indicated they would vote in favor of the say-on-pay proposal.

At the 2017 Annual Meeting, 68% of shareholders voted in favor of the say-on-pay proposal (65% after giving effect to the voting cutback applicable to certain shareholders). The Committee noted that, although a meaningful majority of shareholders voted in favor of the say-on-pay proposal, a reasonable minority of owners voted against the proposal. The Committee took account of shareholder feedback and these vote levels and, in the future, will strongly consider them when determining the appropriateness and amounts of any future separation payments to executives. The Committee has determined that separation payments relating to periods after the date of separation generally will be limited to no more than target levels.

Philosophy

Our executive compensation policies are designed with the primary goal of maximizing shareholder value over long periods of time. We believe that this goal is best pursued by utilizing a pay-for-performance program that closely aligns the financial interests of management with those of our shareholders and encourages appropriate risk taking. We accomplish this by emphasizing variable long-term compensation, the value of which is tied to performance over a number of years rather than entitlements (such as base salary, pensions and employee benefits). To that end, the Committee has established base salaries and target annual bonuses for our executives that tend to be lower than those paid by comparable property and casualty insurers and reinsurers, while granting the bulk of an executive's target compensation as long-term incentive compensation.

We generally have structured our long-term incentive compensation as performance shares and restricted shares, which reward company-wide performance. The number of WTM common shares earned from a grant of performance shares can be from 0x to 2x the target number granted. The metric we use to measure performance is our after-tax annual growth in compensation value per share over the performance cycle (CVPS , which is defined by the Committee as the average of growth in ABVPS and growth in intrinsic business value per share , which is the ABVPS including franchise value and certain other adjustments). The market value of our shares is not included as a measure of performance, but it determines the value of performance and restricted share awards. The Committee focuses on performance metrics that relate to growth in book value per share because it believes these are the best metrics for valuing insurance and reinsurance companies. As Benjamin Graham said in his famous quote: In the short run, the market is a voting machine, but in the long run it is a weighing machine.

Performance shares and restricted shares typically are granted annually, and performance is tied to a three-year period. Under our long-term incentive programs, at any given time an executive usually has three overlapping cycles running. This approach avoids cliffs that could foster a short-term outlook and also serves as an effective retention tool.

Table of Contents

From year-to-year when we make new long-term incentive grants, we typically adjust the target number of shares granted to individual employees to reflect the change in CVPS during the prior year, rather than focusing on changes in market values. This is consistent with our view that the change in book value per share and related metrics provides a better view of the change in value of the Company than short-term market price fluctuations. In addition, we generally limit total annual share grants to employees to less than 1% of the Company's outstanding shares. For both the 2017-2019 and 2018-2020 cycles, we adhered to this guideline.

When making new long-term incentive grants, the Committee assesses the impact of different performance scenarios on potential realizable compensation. Further, in order to test our beliefs about the size of the awards we make and their variability, annually the Committee has reviewed and considered a systematic analysis prepared by management of the public disclosures about compensation made by other property and casualty insurers and reinsurers that the Committee considers to be peers. The focus of the analysis is not on benchmarking, but rather on the variability, structure and levels of compensation at those companies at differing levels of performance. The companies included in the analysis presented to the Committee prior to it making compensation decisions in 2018 were:

- Alleghany Corporation
- Arch Capital Group
- Argo Group
- Aspen Insurance Holdings
- Axis Capital
- Cincinnati Financial
- CAN Financial
- Everest Re Group
- Markel Corp
- RenaissanceRe Holdings
- Selective Insurance Group
- Validus Holdings
- W. R. Berkley
- XL Group

The Company uses this group of companies as it reflects traditional competitors of White Mountains. The Committee regularly evaluates the continuing appropriateness of this group and, although the Company is going through a period of transition as management works to redeploy and distribute the sales proceeds, the Committee believes this group currently remains appropriate. The Committee concluded that the analysis supported its view that the Company's compensation programs are appropriately sized and more variable than most other insurers, have fewer fixed elements of compensation and perquisites, and do not lead to significant rewards for poor performance.

To measure value sharing, in light of the significant sales of businesses over the past couple of years, the amount of undeployed capital, and the resulting change in the profile of the Company, the Committee has begun focusing on run rate at target compensation expense relative to the capital base. In 2015, 2016 and 2017, the at target run rate compensation expense was 1.3%, 1.4% and 1.6% of total capital. Despite the substantial shrink in the capital base as a result of the return of over \$1.6 billion to shareholders in 2016 and 2017, the 2018 run rate expense is back down to 1.3% of total capital as the Company has aggressively managed total compensation expense while working to redeploy the proceeds of the sale transactions.

The Committee believes that the compensation structures that have been developed for the Company closely align the financial interests of management with those of our shareholders and encourage appropriate, but not excessive, risk taking.

Our Compensation Process

The Committee is responsible for approving our compensation practices that affect executive officers, and it specifically approves all compensation for our executive officers and for any employee with target annual compensation in excess of \$1.5 million. Our CEO annually presents the Committee with his evaluation of our executives, their individual performances, responsibilities, and the contributions they made to the Company's accomplishments over the past year, as well as over the last long-term incentive plan cycle and his expectations for the future and succession plans. In connection with this evaluation, the CEO presents the Committee with his recommendations for establishing the compensation for these executives for its consideration. The Committee assesses the performance, responsibilities, and contributions of the CEO, considers CEO succession plans, and sets the compensation of the CEO.

Table of Contents

With the exception of significant promotions and new hires, compensation matters are usually addressed at the first meeting of the Committee each year (typically late February) following the availability of financial results for the prior year and the current year's financial plan. This allows us to determine the results of prior period grants and to set targets for the current year and newest long-term performance cycle. Performance cycles for long-term compensation typically run for three years beginning on January 1st of the year of grant.

Tax Considerations. Because Mr. Tolman did not satisfy certain requirements of Section 162(m) to be considered an outside director for purposes of that rule, the Committee formed the Performance Compensation Subcommittee (the Subcommittee) comprised of the other members of the Committee, each of whom met the requirements to be considered an outside director for purposes of Section 162(m). The Subcommittee administers and approves all performance-based compensation awards made prior to the enactment of the Tax Cuts and Jobs Act of 2017 (the TCJA) in order to maintain favorable tax treatment of such awards to the extent applicable. However, the Company may establish compensation that is not tax deductible if in the Committee or Subcommittee's judgment doing so better promotes its objectives. Further, as a Bermuda-domiciled company, we do not receive a tax deduction for compensation paid to employees of White Mountains Insurance Group, Ltd. and, accordingly, the limitation of Section 162(m) does not impact compensation paid to our named executive officers who are employees of non-U.S. companies. With the elimination of the performance-based compensation exception from the limits of Section 162(m) under the TCJA, the Committee will administer and approve compensation grants made in 2018 and beyond.

Significant Corporate Transactions in 2017 and During the 2015-2017 Long-term Incentive Cycle

Over the course of the 2015-2017 performance cycle, White Mountains sold its interest in four major businesses generating \$1.4 billion of transaction gains. Over the three-year period, ABVPS grew from \$664 to \$915, representing an annualized ROE of 11.4%, including dividends. In 2017, ABVPS grew from \$789 to \$915, an ROE of 16.1%, including dividends.

In 2017, OneBeacon agreed to be acquired by Intact Financial for \$1.7 billion, or 1.7x book value. In exchange for our 76% stake, we received cash proceeds of about \$1.3 billion and recorded an after-tax gain of \$555 million. Over the 16 years from acquisition to sale, White Mountains's returns on the OneBeacon investment were a 14% after-tax IRR (vs. an S&P 500 annual total return of 6%) and a 2.5 multiple of invested capital. With the timing and structure of the transaction, we avoided the significant catastrophe losses resulting from the difficult Atlantic hurricane season and the other natural catastrophes experienced by most other insurers and reinsurers.

In 2016, White Mountains sold Tranzact after a 20-month hold generating an \$82 million after-tax gain in adjusted book value (\$16 per share) and a 35% IRR.

In 2015, White Mountains agreed to sell its reinsurance business, Sirius Group, to China Minsheng Investments for approximately \$2.6 billion. The transaction closed in 2016, and White Mountains recorded a total after-tax gain on the sale of \$477 million. Over White Mountains's 20-year history with its reinsurance business, we managed to produce an after-tax IRR of 11%.

Also in 2015, Symetra Financial agreed to be sold to Sumitomo Life. White Mountains recorded a total after-tax gain relating to the sale of \$270 million and generated a 15% IRR over its 11-year ownership period, more than double the S&P 500 return over during that time.

These four transactions generated total proceeds of \$4.2 billion and resulted in undeployed capital of roughly \$3.1 billion at May 2017 pro forma for the OneBeacon transaction. As discussed with shareholders through an investor presentation and meetings in May 2017, management expects to shrink the Company over the medium term by distributing \$1.5 billion to \$2 billion of undeployed capital. To that end, in 2017 the Company returned \$724 million to owners while reducing outstanding shares by 832,725. In addition, management is seeking to deploy \$200 million annually in new opportunities, though we expect these deployments to be lumpy. In 2017, approximately \$275 million was deployed in/committed to new business opportunities. In total, about \$1.0 billion was returned or deployed, bringing year-end undeployed capital to \$2.1 billion.

Table of Contents

Compensation for 2017

The principal elements of compensation for our executives in 2017 long-term incentive compensation, base salary, and annual incentive bonuses are discussed below.

2017 Target Annual Direct Compensation Mix

1. Base Salary

As discussed above under Philosophy, the Company's compensation program emphasizes variable long-term incentive compensation, rather than entitlements. Accordingly, we pay our executive officers salaries that we believe to be below-market. In 2008, we limited base salaries to a maximum of \$500,000. Each of our Named Executive Officers currently receives a salary of \$500,000, other than Mr. Palmer who receives a salary of \$400,000.

2. Annual Incentive Bonuses

We provide annual bonus opportunities to our executive officers. Each Named Executive Officer participates in the annual bonus pool applicable to the parent holding companies. For 2017, the target bonus pool was \$4.2 million for 38 employees. The awarded bonus pool size can range from 0% to 200% of target, depending upon performance. Individual bonuses can vary widely around the pool average based on individual performance and no cap (other than the size of the pool) applies to any single individual

For the Named Executive Officers, the annual incentive bonus is designed to reward company-wide performance and the individual NEO's contributions to those results. The Committee did not set a quantitative target in 2017 and instead established the size of the awarded pool based on a qualitative assessment of the Company's performance during the year based on its judgment. The Committee believes that using a qualitative assessment rather than a quantitative target for the Company's annual bonus is appropriate given that the Company seeks to maximize shareholder value over long periods of time, whereas quantitative results over a one-year period do not necessarily provide a full picture of the performance of the Company. In addition, and reflecting this, annual bonus opportunity reflects a small proportion of the total compensation opportunity of our executive officers (e.g., less than 10% of the total compensation opportunity in the case of our CEO and EVPs), with the bulk of our executive officers' compensation opportunity tied to long-term incentives. For 2017, the Named Executive Officers had target annual bonuses of 75% of salary, which was unchanged from the prior year.

Table of Contents

Based on the Company's strong performance in 2017, the Committee awarded a bonus pool of 175% of target, which equaled \$7.4 million. Among the items considered by the Committee in awarding the bonus pool were: (1) the Company's 15% growth in adjusted book value per share for compensation purposes (which reflects in 2017 the full amount of the Wobi write down), (2) 8% growth in intrinsic business value per share (including the full amount of the Wobi write down), (3) the large gain on the well-timed sale of OneBeacon, and (4) strong investment results that were well above benchmarks and plan. Messrs. Rountree and Seelig received lower percentage bonuses in order to free up additional money in the bonus pool for more junior employees.

	Target Bonus	Earned Bonus	% of Target
Rountree	\$375,000	\$500,000	133%
Campbell	\$375,000	\$750,000	200%
Seelig	\$375,000	\$500,000	133%
Palmer	\$300,000	\$600,000	200%

3. Long-Term Incentive Compensation

New Grants for the 2017-2019 Performance Cycle. For the CEO and each named executive officer recipient of a long-term incentive grant for the 2017-2019 performance cycle, the new grants were allocated 50% as performance shares and 50% as restricted shares, which generally was the same allocation as in 2016. The Subcommittee established a target of 5% annual growth in CVPS as the performance target that would result in the payout of 100% of the target performance shares. Annual growth of 1% or less would result in a payout of 0%, and annual growth of 9% or more would result in a payout of 200%. In setting this performance scale, the Subcommittee took account of the level of deployed and undeployed capital (and the expected run rate returns thereon) and made assumptions regarding the timing and magnitude of redeployment and distributions of undeployed capital consistent with the Company's communications with shareholders in May 2017.

In total, the WTM performance share and restricted share grants made to all employees of the Company for the 2017-2019 performance cycle totaled approximately 0.8% of the then outstanding shares, within the Committee's 1% guideline.

CEO. Mr. Rountree became CEO of the Company on March 1, 2017. Previously, Mr. Rountree served as EVP of the Company and President of WM Capital. Mr. Rountree's promotion to CEO occurred at the same time as the board meeting at which compensation decisions for the year were made. After reviewing Mr. Rountree's historical compensation, his share ownership, his existing incentives, compensation granted to CEOs at other property and casualty (re)insurance companies, and the historical run rate compensation level of WTM's CEO (i.e., in 2015 and prior, which was before the former CEO's 2016 compensation package was reduced as he moved toward retirement), the Subcommittee determined to grant him 2,900 target performance shares and 2,900 restricted shares for the 2017-2019 performance cycle. The grant date market value was approximately \$5.5 million. The number of performance shares that will be earned will be determined after the end of 2019 based on the Company's performance over the cycle compared to the target described above. The 2017-2019 restricted shares will vest on January 1, 2020, subject to Mr. Rountree's continued employment.

Named Executive Officers. In the case of Messrs. Campbell, Seelig and Palmer, in determining the amount of new long-term incentive compensation grants for 2017, the Committee assessed each executive's scope of authority and ability to impact the

success of the Company. Based on the Committee's general experience and the recommendation of the CEO, the Committee established a grant level that it believed was appropriate to reflect each such executive's expected contribution to the Company over the next performance cycle.

Reid Campbell. Mr. Campbell became EVP and CFO of the Company in May 2017. Previously, he was a Managing Director of WM Capital and the President of WM Advisors. For the performance cycle from 2017-2019, Mr. Campbell originally was granted 2,000 WTM performance shares and 2,000 restricted shares. The grant date market value was approximately \$3.8 million. In connection with his promotion to CFO in May 2018, the Subcommittee granted Mr. Campbell an additional 250 target performance shares and 250 restricted shares in each open cycle. The grant date market value of the total additional grants was approximately \$1.3 million. The number of performance shares that will be earned in the 2017-2019 cycle will be determined after the end of 2019 based on the Company's performance over the cycle compared to the target described above. The 2017-2019 restricted shares will vest on January 1, 2020, subject to Mr. Campbell's continued employment.

Table of Contents

Robert Seelig. Mr. Seelig is EVP and General Counsel of the Company. For the performance cycle from 2017-2019, Mr. Seelig was granted a total of 2,000 WTM performance shares and 2,000 restricted shares. The total grant date market value was approximately \$3.8 million. The number of performance shares that will be earned will be determined after the end of 2019 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on January 1, 2020, subject to Mr. Seelig's continued employment.

Brian Palmer. Mr. Palmer is Managing Director and Chief Accounting Officer of the Company. For the performance cycle from 2017-2019, Mr. Palmer was granted a total of 560 WTM performance shares and 560 restricted shares. The total grant date market value was approximately \$1.1 million. The number of performance shares that will be earned will be determined after the end of 2019 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on January 1, 2020, subject to Mr. Palmer's continued employment.

Payout of 2015-2017 Performance Cycle. For the 2015-2017 performance cycle, long-term incentives were granted to the NEOs as follows: 50% as performance shares and 50% as restricted shares. For the performance shares, which matured at the end of 2017, 8% annual growth in CVPS was the performance target for a payout of 100% of the target performance shares. Annual growth of 2% or less would have resulted in a payout of 0% and annual growth of 14% or more would have resulted in a payout of 200%. At its meeting in March 2018, based on an average annual growth in CVPS of 10.7%, the Subcommittee confirmed that the payout that was earned was 145% of target.

2015-2017 Performance Share Cycle					
	Target Shares	Performance Scale (min/target/max)	Actual Annual Performance	Payout %	Shares Earned
Rountree	3,000	2%-8%-14%	10.7%	145%	4,350
Campbell	2,750	2%-8%-14%	10.7%	145%	3,988
Seelig	2,500	2%-8%-14%	10.7%	145%	3,625
Palmer	700	2%-8%-14%	10.7%	145%	1,015

2018 Compensation Actions**New Long-Term Incentive Grants and Annual Bonus Program**

In March 2018, the Committee made new long-term incentive grants to and established annual bonus target levels for the Named Executive Officers based on the same factors described above with respect to grants made in 2017. The 2018 target annual bonus pool is \$4.6 million for 37 employees. The Committee granted 26,900 target shares for the 2018-2020 performance cycle. This amount was down substantially from the 2017-2019 and 2016-2018 cycles, when the Subcommittee granted 35,275 and 45,460 target shares, respectively. In total, the WTM performance share and restricted share grants made to all employees of the Company for the 2018-2020 performance cycle totaled approximately 0.7% of the then outstanding shares, within the Committee's 1% guideline. The new long-term incentive grants were allocated 50% as performance shares and 50% as restricted shares, which was the same allocation as in 2017.

With approximately \$2.1 billion of undeployed capital at year-end 2017, deploying capital intelligently remains the key job for the Company's management team. Taking account of the level of deployed and undeployed capital (and current expected run rate returns thereon) and reasonable assumptions regarding the timing and magnitude of redeployment and distributions of undeployed capital, the Committee determined that 6% annual growth in CVPS is an appropriately challenging target for a payout of 100% of the target shares for the 2018-2020 performance cycle. Annual growth of 2% or less would result in a payout of 0%, and annual growth of 10% or more would result in a payout of 200%.

Table of Contents

Performance Cycle	Target Shares Granted	% Change from Prior Year	Performance Target (min/target/max)
2016-2018	45,460	(23)%	0%-4%-8%
2017-2019	35,275	(22)%	1%-5%-9%
2018-2020	26,900	(24)%	2%-6%-10%

The Committee believes this target and scale properly balance the competing incentives (i) to deploy or distribute undeployed capital aggressively and (ii) to remain patient for good opportunities. This target is an increase of 1 point from the target for the previous cycle. The Committee expects targets for future performance share cycles to increase as the level of undeployed capital normalizes over time.

Compensation Actions Relating to Former Executive Officers**Former CEO**

Mr. Barrette retired as Chairman and CEO on March 1, 2017. As discussed in the Company's Compensation Discussion and Analysis included in the Company's Proxy Statement last year, in connection with Mr. Barrette's retirement, the Company entered into a letter agreement (the Agreement) with him. Pursuant to the agreement, the Company agreed to pay Mr. Barrette (i) a cash bonus for 2017 equal to \$187,500 and (ii) a cash retirement payment equal to approximately \$21 million. Mr. Barrette's unvested long term performance shares and restricted shares were canceled in connection with his retirement. The Agreement also provides that Mr. Barrette will be subject to certain restrictive covenants regarding competition, solicitation and disparagement that apply through December 31, 2018.

Other Former Executive Officers

David Foy. In connection with Mr. Campbell's promotion to CFO in May 2017, Mr. Foy became an advisor to senior management and entered into an employment agreement with the Company dated May 2, 2017, which predated the Company's shareholder engagement later that month. The agreement provided for his employment through December 31, 2017 at which point he retired from the Company. Under the terms of the agreement, and following his execution of a release agreement and a non-compete/non-solicit agreement, Mr. Foy's 3,000 performance shares for the 2015-2017 performance cycle and 2,900 performance shares for the 2016-2018 performance cycle were canceled and in lieu thereof he was paid the cash value of 8,850 shares. This was equivalent to such shares being paid out at 150% of target, which was the estimated payout level of these two cycles at the time of the agreement after giving effect to the gain resulting from the sale of OneBeacon. In addition, his outstanding restricted shares for those cycles vested. Mr. Foy received an annual bonus for 2017 of \$656,250, which equaled 175% (the average pool percentage) of his target bonus. Because Mr. Foy remained employed through the end of 2017, the only additional payouts that he received under his employment agreement that he would not have otherwise earned were the vesting of his long-term incentive grants for the 2016-2018 performance cycle. The Committee believes this was appropriate in light of his 14 years of service to the Company and his assistance in ensuring a smooth transition as Mr. Campbell became CFO.

David Linker. In November 2017, in connection with the reorganization of the Company's investment operations following the sale of OneBeacon, Mr. Linker ceased to be an executive officer of the Company, although he remained an employee of the Company.

For the 2015-2017 cycle, Mr. Linker was granted 1,725 target performance shares and 1,725 restricted shares. Based on performance targets applicable to White Mountains Advisors, the performance shares paid out at 148% of target and he earned 2,553 performance shares. The restricted shares vested on January 1, 2018. In addition, for 2017 Mr. Linker earned a bonus of \$825,000, which was 132% of his target bonus. Lastly, for the performance cycle from 2017-2019, Mr. Linker was granted 1,500 WTM performance shares and 1,500 restricted shares. The total grant date market value was approximately \$2.8 million.

Table of Contents

Michael Miller. In September 2017, Mr. Miller ceased to be an executive officer of the Company as he remained the CEO of OneBeacon upon completion of the OneBeacon sale.

Following the OneBeacon initial public offering (the "OB IPO") in November 2006, the Committee determined that it would fully delegate to the OneBeacon Compensation Committee (the "OneBeacon Committee") authority for the compensation of OneBeacon's officers, including those who might be Named Executive Officers of the Company. Accordingly, the OneBeacon Committee was responsible for compensation actions for Mr. Miller.

In February 2017, for the 2017-2019 performance cycle, the OneBeacon Committee granted Mr. Miller (1) 26,250 OneBeacon performance units with a target value of \$2,650,000 and (2) 96,200 OneBeacon restricted shares. In addition, upon the closing of the OneBeacon sale, the OneBeacon Committee awarded Mr. Miller a \$4,000,000 bonus in light of the success of the transaction and to recognize that OneBeacon's compensation programs did not otherwise incentivize management to pursue a sale of OneBeacon.

Clawback Policy

The Company has adopted a clawback policy applicable to bonuses and long-term incentive awards. If the Company is required to restate any financial statement included in an SEC filing as a result of an employee's misconduct, the Board may, without prejudice to any other remedies available to the Company, seek reimbursement of any bonus or long-term incentive award received by such person that relates in whole or in part to any period for which such financial statements were restated. If the misconduct was fraud, then in addition to other actions the Board mandatorily will seek such reimbursement.

Other Elements of Compensation

Retirement Benefits

We have no active U.S. defined benefit pension plans. Benefit accruals under all our U.S. qualified defined benefit pension plans and all our U.S. supplemental defined benefit pension plans were frozen for all employees in 2002.

Our Named Executive Officers who are not employees of Bermuda-domiciled entities may participate in our voluntary non-qualified deferred compensation plans whereby they may defer all or a portion of their compensation. Investment options in these plans are those available in our 401(k) plans, including White Mountains common shares. None of the investment options offered under these plans provides an above-market rate of interest.

Our employees may participate in our qualified 401(k) plans and eligible employees can participate in a qualified employee stock ownership plan. We do not provide supplemental retirement benefits to any employees in connection with these plans.

Perquisites

We review the perquisites that our senior management receives. The primary perquisites include housing allowances in special circumstances and personal use of corporate aircraft.

We allow our Named Executive Officers to use our corporate aircraft from time to time for personal reasons. The aggregate incremental cost to the Company is included, for proxy reporting purposes, as compensation to the Named Executive Officer. For tax purposes, we comply with IRS regulations. We do not gross-up our Named Executive Officers for their taxes associated with perquisites, including with respect to personal use of our aircraft.

Our Named Executive Officers also participate in our other benefit plans on the same terms as our other employees. These plans include medical and health insurance, company paid life insurance and charitable gift matching.

Table of Contents

Certain Board Fees

Our Named Executive Officers do not receive director fees for serving on the Company's board of directors or for serving on the boards of directors of our wholly-owned or majority-owned subsidiaries. However, those Named Executive Officers who serve on the boards of directors of other companies in which we have a minority interest may receive director fees. We consider those board fees when evaluating the compensation of our Named Executive Officers.

Employment and Severance Agreements; Change in Control

We have no long-term employment agreements with our Named Executive Officers although, from time to time, we have entered into short-term arrangements with newly hired executives governing their compensation and severance during up to their first three years with the Company. No such arrangements are in effect with our Named Executive Officers.

Severance benefits, if any, for our Named Executive Officers are determined by the Committee in its sole discretion. Executive officers of our operating subsidiaries participate in the severance plans, if any, generally applicable at those companies.

If any of our most senior executives were to retire, in order to enable the Company to ensure a smooth transition, to receive a non-compete/non-solicit from the executive and to retain access to valuable knowledge, talents and relationships, we generally will consider entering into arrangements that would permit the executive to earn some or all of such executive's long-term incentive compensation then outstanding.

We have no standalone change in control agreements with our Named Executive Officers. However, under our long-term incentive plans, if a change in control of the Company (or a business unit, as applicable) were to occur, certain events, such as involuntary or constructive employment termination or amendments to our incentive plans which are materially adverse to its participants, may cause stock options to become fully exercisable, restricted shares to become immediately vested and performance shares and performance units to become payable in full or in part. Our plans do not provide for tax gross-ups for excess parachute payments that may result from a change in control.

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Footnotes to Grants of Plan-Based Awards Table

(a) On February 28, 2017 Mr. Miller was granted OB performance units for the 2017-2019 performance cycle under the OneBeacon Long-Term Incentive Plan. Each unit has a fixed value of \$100. The performance goals are weighted 67% based on achievement of an average annual 96.5% combined ratio over the award period, and 33% based on achievement of an average annual Growth in Book Value Per Share (GBVPS) of 10.0%. For the portion of the performance goal weighted based on the achievement of an average annual combined ratio, 101.5% or more (Threshold) would result in no payout and 91.5% or lower (Maximum) would result in a 200% payout. For the portion of the performance goal weighted based on the achievement of an average annual GBVPS, 3% or lower (Threshold) would result in no payout and 17% or more (Maximum) would result in a 200% payout.

(b) Messrs. Rountree, Campbell, Seelig, Palmer and Linker were granted WTM performance shares for the 2017-2019 performance cycle. Mr. Campbell was also granted 250 WTM performance shares for the 2016-2018 performance cycle and 250 WTM performance shares for the 2015-2017 performance cycle. For the 2017-2019 performance cycle, the targeted performance goal for full payment of outstanding WTM performance shares granted under the WTM Incentive Plan for all NEOs, except for Mr. Linker, is a 5% average growth in adjusted book value per share and intrinsic value per share. Average growth of 1% or less would result in no payout and average growth of 9% or more would result in a payout of 200%. For Mr. Linker's grant of WTM performance shares for the 2017-2019 performance cycle, the targeted performance goal for full payment of outstanding WTM performance shares granted under the WTM Incentive Plan is based one-third on average growth in adjusted book value per share and intrinsic value per share (as described above) and two-thirds on achieving a total return on invested assets as measured against metrics based on U.S. Treasury Note. For the 2016-2018 performance cycle, the targeted performance goal for full payment of outstanding WTM performance shares granted under the WTM Incentive Plan is a 4% average growth in adjusted book value per share and intrinsic value per share. Average growth of 0% or less would result in no payout and average growth of 8% or more would result in a payout of 200%. For the 2015-2017 performance cycle, the targeted performance goal for full payment of outstanding WTM performance shares granted under the WTM Incentive Plan is an 8% average growth in adjusted book value per share and intrinsic value per share. Average growth of 2% or less would result in no payout and average growth of 14% or more would result in a payout of 200%.

(c) Messrs. Rountree, Campbell, Seelig, Palmer and Linker were granted WTM restricted shares that vest on January 1, 2020. Mr. Campbell was also granted 250 WTM restricted shares that vest on January 1, 2019 and 250 WTM restricted shares that vested on January 1, 2018.

(d) Mr. Miller was granted 24,200 OB restricted shares that vested on February 24, 2018, 24,200 OB restricted shares that vest on February 24, 2019 and 47,800 OB restricted shares that vest on January 1, 2020.

(e) Represents the grant date fair value (based on a market price on the date of grant) as determined in accordance with ASC Topic 718 without regard to forfeitures. Assuming a maximum 200% payout, the grant date fair value of the WTM performance shares granted to Messrs. Rountree, Campbell, Seelig, Palmer and Linker would be \$5,492,600, \$5,099,255, \$3,788,000, \$1,060,640 and \$2,841,000.

Employment and Severance Agreements

We have no employment agreements with our Named Executive Officers although from time to time we have entered into short-term arrangements with newly hired executives governing their compensation and severance for a period of up to their first three years with the Company.

Long-Term Incentive Plans

Under our long-term incentive plans, certain events, such as retirement, death or disability, or the occurrence of both a change in control of the Company (or a business unit, as applicable) and an involuntary or constructive employment termination or materially adverse amendments to such plans, WTM restricted shares become vested and WTM performance shares become payable in full or in part. Below is a description of the payments to which each of our Named Executive Officers would be entitled assuming in each case that such events occurred on December 31, 2017.

Table of Contents

Voluntary Termination of Employment

Had any of our Named Executive Officers voluntarily terminated their employment on December 31, 2017, their unvested long-term incentive grants would have been cancelled and payments, if any, in respect of those cancelled grants would be made at the sole discretion of the Compensation Committee.

CEO PAY RATIO

CEO Pay Ratio

Below is (i) the 2017 annual total compensation of our CEO; (ii) the 2017 annual total compensation of our median employee; (iii) the ratio of the annual total compensation of our CEO to that of our median employee, and (iv) the methodology we used to calculate our CEO pay ratio:

CEO Annual Total Compensation	\$6,633,124
Median Employee Annual Total Compensation	\$88,307
CEO to Median Employee Pay Ratio	75:1

Methodology

Our CEO pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules. Our methodology and process is explained below:

(1) **Determined Employee Population.** We began with our global employee population as of December 31, 2017, including full-time and part-time workers employed by our company or consolidated subsidiaries, but excluding our CEO.

(2) **Identified the Median Employee.** We calculated compensation for each employee using (i) base annual salary including estimated overtime pay as of December 31, 2017, (ii) cash incentives earned in 2017, (iii) WTM performance shares and WTM performance units vested on December 31, 2017, and (iv) WTM restricted shares vested on January 1, 2018 to identify the median employee. Compensation paid in foreign currency was translated to the U.S. dollar equivalent based on foreign exchange rates as of December 31, 2017.

(3) **Calculated CEO Pay Ratio.** We calculated our median employee's annual total compensation for 2017 in accordance with SEC rules for preparing the Summary Compensation Table. We compared the median employee's compensation to our CEO's annual total compensation in the Summary Compensation Table to determine the pay ratio shown above.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Audit Committee Charter states that the Audit Committee shall approve any related or affiliated person transactions and review disclosures thereof. In determining whether to approve or reject a related person transaction, the Audit Committee takes into account, among other factors it deems appropriate, whether the proposed transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related persons' economic interest in the transaction. For purposes of Audit Committee approval, a related person transaction is defined as any transaction that is required to be reported under Item 404 of SEC Regulation S-K.

During 2017, the Audit Committee approved all Transactions with Related Persons occurring since the beginning of the Company's calendar year.

Based on these reviews and discussions, the Audit Committee determined that the non-audit fees billed by PwC for services performed in 2017 and 2016 (as presented herein) are compatible with maintaining their independence. Further, the Audit Committee recommended to the Board that the audited financial statements be included in the Annual Report on Form 10-K for filing with the SEC and for presentation to the Members at the 2018 Annual Meeting.

Management is responsible for the preparation, presentation and integrity of the Company's consolidated financial statements as well as for establishing and maintaining adequate internal control over financial reporting. The Company's independent registered public accounting firm, PwC, is responsible for expressing its opinion on the conformity of the Company's audited financial statements with Generally Accepted Accounting Principles (GAAP). In addition, PwC is responsible for expressing its opinion on the effectiveness of the Company's internal control over financial reporting. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with GAAP; that, as described above, is the responsibility of management and PwC. In giving its recommendation to the Board, the Audit Committee has relied on (1) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with GAAP and (2) the reports of PwC with respect to such financial statements.

The Audit Committee has established a Charter which outlines its primary duties and responsibilities. The Audit Committee Charter, which has been approved by the Board, is reviewed at least annually, is updated as necessary and is available for viewing at www.whitemountains.com.

PROPOSAL 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Securities Exchange Act of 1934, in this Proposal 2 we are asking you to provide approval, on an advisory basis, of the compensation of the named executive officers as disclosed in the section of this proxy statement titled Executive Compensation . You are being asked to vote on the following advisory resolution:

RESOLVED, that the compensation paid to the Company s named executive officers, as disclosed in the company s proxy statement dated April 10, 2018, pursuant to Item 402 of Regulation S-K, including the Compensation Discussion & Analysis, compensation tables and narrative discussion, is hereby APPROVED.

The Board of Directors believes that the compensation policies and practices described in the Compensation Discussion & Analysis are effective in achieving the Company s primary goal of maximizing shareholder value over long periods of time, as well as motivating and retaining our key executives. The compensation of our named executive officers is heavily weighted toward variable long-term compensation, the value of which is tied to performance over a number of years.

We urge you to read the Compensation Discussion & Analysis, beginning on page 13 of this proxy statement, as well as the 2017 summary compensation table and related compensation tables and narrative, beginning on page 23, which provide detailed information on the Company s compensation policies and practices and the compensation of our named executive officers.

Although the vote is non-binding, the Board of Directors and the Compensation Committee will review and consider the voting results when evaluating our executive compensation program.

The Board recommends a vote FOR Proposal 2 which calls for the approval of the advisory resolution on executive compensation.

OTHER MATTERS

Manner of Voting Proxies

Common shares represented by all valid proxies received will be voted in the manner specified in the proxies. Where specific choices are not indicated, the common shares represented by all valid proxies received will be voted in accordance with the Board's recommendation for each of the proposals named earlier in this Proxy Statement.

In the case of common shares held in employee benefit plans, the trustee will typically vote all common shares within such plans in direct proportion to those common shares actually voted by plan participants.

Should any matter not described above be acted upon at the meeting, the persons named in the proxy card will vote in accordance with their judgment. The Board knows of no other matters which are to be considered at the 2018 Annual Meeting.

Votes Required for Approval

With respect to the election of directors, the nominees will be elected if the number of votes cast for such director exceeds the number of votes cast against that director. If a director in an uncontested election receives less than a simple majority of votes cast for his election, the director is required to submit a letter of resignation to the Board of Directors, which the Board may either accept or reject in accordance with the Company's By-laws. The majority vote standard is not applicable to contested director elections, which are determined by a plurality of the votes cast. A plurality of votes cast means that the proposed director receiving the highest number of affirmative votes is elected, irrespective of how small the number of affirmative votes is in comparison to the total number of shares voted. The other proposals require the affirmative vote of a majority of the voting power held by holders of common shares present at the 2018 Annual General Meeting, in person or by proxy, provided a quorum is present.

Inspectors of Election

Computershare Trust Company, N.A., 480 Washington Boulevard, 26th Floor, Jersey City, New Jersey 07310, has been appointed as Inspectors of Election for the 2018 Annual Meeting. Representatives of Computershare will attend the Annual Meeting and receive votes and ballots, supervise the counting and tabulating of all votes and ballots and determine the results of the vote.

Costs of Solicitation

The solicitation of proxies will be made primarily by mail; however, directors, officers, employees and agents of the Company may also solicit proxies by telephone, internet or personal interview. Solicitation costs will be paid by the Company. Upon request, the Company will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses incurred in forwarding proxy materials to their principals.

Delivery of Documents to Members Sharing an Address

SEC regulations permit a single set of the Annual Report and Proxy Statement to be sent to any household at which two or more shareholders reside if they appear to be members of the same family. Each Member will continue to receive a separate proxy card. This procedure, referred to as house-holding, reduces the volume of duplicate information shareholders receive and reduces our mailing and printing costs. Those Members who desire additional copies of this document or would like to receive separate copies of this document in the future should contact their bank, broker or other holder of record or the Corporate Secretary at the address presented under Available Information below.
