CORNERSTONE PROGRESSIVE RETURN FUND
 NOTES TO SCHEDULES OF INVESTMENTS
 September 30, 2011 (UNAUDITED)

Federal Income Tax Cost: At September 30, 2011 the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$88,068,647, \$875,067, \$(9,859,289) and \$(8,984,222), respectively.

As required by the Fair Value Measurement and Disclosures Topic of the FASB Accounting Standards Codification, the Fund has performed an analysis of all assets and liabilities measured at fair value to determine the significance and character of all inputs to their fair value determination.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories.

- Level 1 – quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.
- Level 3 – model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund’s own assumptions that market participants would use to price the asset or liability based on the best available information.

The following is a summary of the inputs used as of September 30, 2011 in valuing the Fund’s investments carried at value:

Valuation Inputs	INVESTMENTS IN SECURITIES	OTHER FINANCIAL INSTRUMENTS*
Level 1 - Quoted Prices		
Equity Investments	\$ 78,228,839	\$ -
Short-Term Investments	855,586	-
Level 2 - Other Significant Observable Inputs	-	-
Level 3 – Significant Unobservable Inputs	-	-
Total	\$ 79,084,425	\$ -

* Other financial instruments include futures, forwards and swap contracts.

The breakdown of the Fund's investments into major categories is disclosed in its Schedule of Investments.

During the nine months ended September 30, 2011, the Fund did not have any significant transfers in and out of Level 1 or Level 2.

The Fund did not have any assets or liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at September 30, 2011.

In May 2011, FASB issued ASU No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". ASU No. 2011-04 establishes common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRSs"). ASU No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011 and is applied prospectively. Management is currently evaluating ASU No. 2011-04 and does not believe that it will have a material impact on the Fund's financial statements and disclosures.

The Fund is exposed to financial market risks, including the valuations of its investment portfolio. For the nine months ended September 30, 2011, the Fund did not engage in derivative instruments and other hedging activities.

The Fund has evaluated the need for addition disclosures and/or adjustments resulting through the date its financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to such Schedule of Investments.

Securities valuation policies and other investment related disclosures are hereby incorporated by reference to the Fund's semi-annual report previously filed with the Securities and Exchange Commission on the Form N-CSR on September 2, 2011 with a file number 811-22066.

Other information regarding the Fund is available in the Fund's most recent semi-annual report filed with the Securities and Exchange Commission on the Form N-CSR on September 2, 2011, file number 811-22066.
