Monica Eisinger, Chairperson and CEO, commented: "Although in the first half of 2007 we experienced a decline in our revenues, we succeeded in managing our expenses accordingly and we generated over \$2 million in cash flow from our operations. While the results reflect the effect of delayed decisions and long sales cycles, we operate in a very active market that shows continuous demand for our products and services. The strong install base and the long-term relationships with our customers continue to represent the majority of our revenue and are the basis for future revenue stream. We are pleased to announce a new win this quarter, a Pan-European IP services carrier to whom we will provide a complete customer care and billing solution. We expect to see new wins in the following quarters and we expect to increase our profitability as well."

Revenue Distribution for Q2 2007

Sales in the Americas represented 43% and sales in Europe represented 38% of total revenue. Revenue from our customer care and billing software totaled \$3.13 million, while revenue from our enterprise call management software was \$915 thousand.
