**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On June 22, 2005, the Applied Biosystems group of Applera Corporation (the "Company") announced that it will take a pre-tax charge in the fourth quarter of its 2005 fiscal year of approximately \$20 million to \$22 million to cover costs of employee severance and facilities closures. The charge reflects the Applied Biosystems group's decision to reduce and rebalance its workforce. The Company committed to this course of action on June 22, 2005, when most of the affected employees were notified. Substantially all of the affected employees will have been terminated or will no longer be actively employed by August 2005, and substantially all severance payments and other benefits to these employees will be completed by October 2005. Attached hereto as Exhibit 99.1 and incorporated by reference herein is the text of a press release issued by the Company's Applied Biosystems group on June 22, 2005, announcing this action.

Of the total amount of the charge described above, approximately \$12.0 million is for employee severance payments and other benefits, approximately \$7.0 million is for excess lease space and related leasehold improvements, and approximately \$2.0 million is for an asset impairment consisting of the write-down in value of an Applied Biosystems group facility. The Company estimates that approximately \$12.0 million of the pre-tax charge will result in future cash expenditures for employee severance payments and other benefits, and approximately \$2.5 million of the pre-tax charge will result in future cash expenditures for excess lease space. None of the pre-tax charge for the asset impairment is expected to result in future cash expenditures.

**Item 8.01. Other Events.**

On June 22, 2005, the Company's Applied Biosystems group announced that it will take a pre-tax charge in the fourth quarter of its 2005 fiscal year of approximately \$20 million to \$22 million to cover costs of employee severance and facilities closures. The charge reflects the Applied Biosystems group's decision to reduce and rebalance its workforce.
