(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2014

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____

Commission file number 1-31447

CenterPoint Energy, Inc.
(Exact name of registrant as specified in its charter)

Texas
(State or other jurisdiction of incorporation or organization)

74-0694415
(I.R.S. Employer Identification No.)

1111 Louisiana
Houston, Texas 77002
(Address and zip code of principal executive offices)

(713) 207-1111
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Edgar Filing: CENTERPOINT ENERGY INC - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of October 22, 2014, CenterPoint Energy, Inc. had 429,795,830 shares of common stock outstanding, excluding 166 shares held as treasury stock.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

From time to time we make statements concerning our expectations, beliefs, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements that are not historical facts. These statements are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those expressed or implied by these statements. You can generally identify our forward-looking statements by the words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “forecast,” “goal,” “may,” “objective,” “plan,” “potential,” “predict,” “projection,” “should,” “will” or other similar words.

We have based our forward-looking statements on our management’s beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that assumptions, beliefs, expectations, intentions and projections about future events may and often do vary materially from actual results. Therefore, we cannot assure you that actual results will not differ materially from those expressed or implied by our forward-looking statements.

The following are some of the factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements:

- state and federal legislative and regulatory actions or developments affecting various aspects of our businesses (including the businesses of Enable Midstream Partners, LP (Enable)), including, among others, energy deregulation or re-regulation, pipeline integrity and safety, health care reform, financial reform, tax legislation and actions regarding the rates charged by our regulated businesses;

- local, state and federal legislative and regulatory actions or developments relating to the environment, including those related to global climate change;

- timely and appropriate rate actions that allow recovery of costs and a reasonable return on investment;

- the timing and outcome of any audits, disputes and other proceedings related to taxes;

- problems with construction, implementation of necessary technology or other issues with respect to major capital projects that result in delays or in cost overruns that cannot be recouped in rates;

- industrial, commercial and residential growth in our service territories and changes in market demand, including the effects of energy efficiency measures and demographic patterns;

- changes in technology, particularly with respect to efficient battery storage or emergence or growth of new, developing or alternative sources of generation;

- the timing and extent of changes in commodity prices, particularly natural gas, and the effects of geographic and seasonal commodity price differentials;

- weather variations and other natural phenomena, including the impact of severe weather events on operations and capital;

- any direct or indirect effects on our facilities, operations and financial condition resulting from terrorism, cyber-attacks, data security breaches or other attempts to disrupt our businesses or the businesses of third parties, or other catastrophic events;

- the impact of unplanned facility outages;

timely and appropriate regulatory actions allowing securitization or other recovery of costs associated with any future hurricanes or natural disasters;

changes in interest rates or rates of inflation;

commercial bank and financial market conditions, our access to capital, the cost of such capital, and the results of our financing and refinancing efforts, including availability of funds in the debt capital markets;

actions by credit rating agencies;

effectiveness of our risk management activities;

inability of various counterparties to meet their obligations to us;

non-payment for our services due to financial distress of our customers;

the ability of GenOn Energy, Inc. (formerly known as RRI Energy, Inc., Reliant Energy, Inc. and Reliant Resources, Inc.), a wholly owned subsidiary of NRG Energy, Inc. (NRG), and its subsidiaries to satisfy their obligations to us, including

indemnity obligations, or obligations in connection with the contractual arrangements pursuant to which we are their guarantor;

the ability of retail electric providers (REPs), including REP affiliates of NRG, Energy Future Holdings Corp. and Just Energy Group, Inc., to satisfy their obligations to us and our subsidiaries;

the outcome of litigation brought by or against us;

our ability to control costs;

our ability to invest planned capital;

the investment performance of our pension and postretirement benefit plans;

our potential business strategies, including restructurings, joint ventures and acquisitions or dispositions of assets or businesses, which we cannot assure you will be completed or will have the anticipated benefits to us;

acquisition and merger activities involving us or our competitors;

future economic conditions in regional and national markets and their effect on sales, prices and costs;

the performance of Enable, the amount of cash distributions we receive from Enable, and the value of our interest in Enable, and factors that may have a material impact on such performance, cash distributions and value, including certain of the factors specified above and:

the achievement of anticipated operational and commercial synergies and expected growth opportunities, and the successful implementation of its business plan;

competitive conditions in the midstream industry, and actions taken by Enable's customers and competitors, including the extent and timing of the entry of additional competition in the markets served by Enable;

the timing and extent of changes in the supply of natural gas and associated commodity prices, particularly prices of natural gas and natural gas liquids (NGLs), the competitive effects of the available pipeline capacity in the regions served by Enable, and the effects of geographic and seasonal commodity price differentials, including the effects of these circumstances on re-contracting available capacity on Enable's interstate pipelines;

the demand for natural gas, NGLs and transportation and storage services;

environmental and other governmental regulations, including the availability of drilling permits and the regulation of hydraulic fracturing;

changes in tax status;

access to growth capital; and

the availability and prices of raw materials for current and future construction projects; and other factors we discuss in "Risk Factors" in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2013 and in Item 1A of Part II of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, which are incorporated herein by reference, and other reports we file from time to time with the Securities and Exchange Commission.

You should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the particular statement.

CENTERPOINT ENERGY, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Background and Basis of Presentation

General. Included in this Quarterly Report on Form 10-Q (Form 10-Q) of CenterPoint Energy, Inc. are the condensed consolidated interim financial statements and notes (Interim Condensed Financial Statements) of CenterPoint Energy, Inc. and its subsidiaries (collectively, CenterPoint Energy). The Interim Condensed Financial Statements are unaudited, omit certain financial statement disclosures and should be read with the Annual Report on Form 10-K of CenterPoint Energy for the year ended December 31, 2013 (CenterPoint Energy Form 10-K).

Background. CenterPoint Energy, Inc. is a public utility holding company. CenterPoint Energy's operating subsidiaries own and operate electric transmission and distribution facilities and natural gas distribution facilities and own an interest in Enable Midstream Partners, LP (Enable) as described in Note 7. As of September 30, 2014, CenterPoint Energy's indirect wholly owned subsidiaries included:

CenterPoint Energy Houston Electric, LLC (CenterPoint Houston), which engages in the electric transmission and distribution business in the Texas Gulf Coast area that includes the city of Houston; and

CenterPoint Energy Resources Corp. (CERC Corp. and, together with its subsidiaries, CERC), which owns and operates natural gas distribution systems (Gas Operations). A wholly owned subsidiary of CERC Corp. offers variable and fixed-price physical natural gas supplies primarily to commercial and industrial customers and electric and gas utilities. As of September 30, 2014, CERC Corp. also owned approximately 55.4% of the limited partner interests in Enable, which owns, operates and develops natural gas and crude oil infrastructure assets.

As of September 30, 2014, CenterPoint Energy had variable interest entities (VIEs) consisting of transition and system restoration bond companies, which it consolidates. The consolidated VIEs are wholly owned bankruptcy remote special purpose entities that were formed specifically for the purpose of securitizing transition and system restoration property. Creditors of CenterPoint Energy have no recourse to any assets or revenues of the transition and system restoration bond companies. The bonds issued by these VIEs are payable only from and secured by transition and system restoration property, and the bondholders have no recourse to the general credit of CenterPoint Energy.

Basis of Presentation. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CenterPoint Energy's Interim Condensed Financial Statements reflect all normal recurring adjustments that are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the respective periods. Amounts reported in CenterPoint Energy's Condensed Statements of Consolidated Income are not necessarily indicative of amounts expected for a full-year period due to the effects of, among other things, (a) seasonal fluctuations in demand for energy and energy services, (b) changes in energy commodity prices, (c) timing of maintenance and other expenditures and (d) acquisitions and dispositions of businesses, assets and other interests.

For a description of CenterPoint Energy's reportable business segments, see Note 14.

(2) New Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08 (ASU 2014-08), Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which significantly changes the existing accounting guidance on discontinued operations. Under ASU 2014-08, only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results should be reported as a discontinued operation. ASU 2014-08 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2014. ASU 2014-08 should be applied to components classified as held for sale after its effective date. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The adoption is expected to reduce the number of disposals that meet the definition of a discontinued operation.

Table of Contents

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09), which supersedes most current revenue recognition guidance. ASU 2014-09 provides a comprehensive new revenue recognition model that requires revenue to be recognized in a manner that depicts the transfer of goods or services to a customer at an amount that reflects the consideration expected to be received in exchange for those goods or services. ASU 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is not permitted, and entities have the option of using either a full retrospective or a modified retrospective adoption approach. Accordingly, CenterPoint Energy will adopt ASU 2014-09 on January 1, 2017, and is currently evaluating the impact that this standard will have on its financial position, results of operations, cash flows and disclosures.

Management believes that other recently issued standards, which are not yet effective, will not have a material impact on CenterPoint Energy's consolidated financial position, results of operations or cash flows upon adoption.

(3) Employee Benefit Plans

CenterPoint Energy's net periodic cost includes the following components relating to pension and postretirement benefits:

	Three Months Ended September 30,		2013	
	2014		Pension	Postretirement
	Pension	Postretirement	Benefits (1)	Benefits
	Benefits (1)	Benefits	Benefits (1)	Benefits
	(in millions)			
Service cost	\$10	\$—	\$11	\$—
Interest cost	25	5	22	5
Expected return on plan assets	(32) (1) (33) (1
Amortization of prior service cost	3	—	3	1
Amortization of net loss	11	—	15	2
Amortization of transition obligation	—	1	—	1
Net periodic cost	\$17	\$5	\$18	\$8
	Nine Months Ended September 30,		2013	
	2014		Pension	Postretirement
	Pension	Postretirement	Benefits (1)	Benefits
	Benefits (1)	Benefits	Benefits (1)	Benefits
	(in millions)			
Service cost	\$31	\$1	\$33	\$1
Interest cost	75	16	68	15
Expected return on plan assets	(94) (5) (101) (5
Amortization of prior service cost (credit)	8	(1) 7	1
Amortization of net loss	33	1	47	5
Amortization of transition obligation	—	4	—	5
Net periodic cost	\$53	\$16	\$54	\$22

(1) Net periodic cost in these tables is before considering amounts subject to overhead allocations for capital expenditure projects or for amounts subject to deferral for regulatory purposes.

Table of Contents

CenterPoint Energy's changes in accumulated comprehensive loss related to defined benefit and postretirement plans are as follows:

	Three Months Ended September 30, 2014		2013		Nine Months Ended September 30, 2014		2013	
	Pension and Postretirement Plans		Pension and Postretirement Plans		Pension and Postretirement Plans		Pension and Postretirement Plans	
	(in millions)							
Beginning Balance	\$ (85)	\$ (127)	\$ (88)	\$ (132)
Amounts reclassified from accumulated other comprehensive loss:								
Prior service cost (1)	1		1		2		2	
Actuarial losses (1)	2		4		7		11	
Total reclassifications from accumulated other comprehensive loss	3		5		9		13	
Tax expense	(1)	(2)	(4)	(5)
Net current period other comprehensive income	2		3		5		8	
Ending Balance	\$ (83)	\$ (124)	\$ (83)	\$ (124)

(1) These other comprehensive components are included in the computation of net periodic cost.

CenterPoint Energy expects to contribute a total of approximately \$96 million to its pension plans in 2014, of which approximately \$60 million and \$94 million, respectively, was contributed during the three and nine months ended September 30, 2014.

CenterPoint Energy expects to contribute a total of approximately \$17 million to its postretirement benefits plan in 2014, of which approximately \$4 million and \$12 million, respectively, was contributed during the three and nine months ended September 30, 2014.

(4) Regulatory Accounting

As of September 30, 2014, CenterPoint Energy has not recognized an allowed equity return of \$456 million because such return will be recognized as it is recovered in rates. During the three months ended September 30, 2014 and 2013, CenterPoint Houston recognized approximately \$20 million and \$15 million, respectively, of the allowed equity return not previously recognized. During the nine months ended September 30, 2014 and 2013, CenterPoint Houston recognized approximately \$52 million and \$35 million, respectively, of the allowed equity return not previously recognized.

(5) Derivative Instruments

CenterPoint Energy is exposed to various market risks. These risks arise from transactions entered into in the normal course of business. CenterPoint Energy utilizes derivative instruments such as physical forward contracts, swaps and options to mitigate the impact of changes in commodity prices and weather on its operating results and cash flows. Such derivatives are recognized in CenterPoint Energy's Condensed Consolidated Balance Sheets at their fair value unless CenterPoint Energy elects the normal purchase and sales exemption for qualified physical transactions. A derivative may be designated as a normal purchase or sale if the intent is to physically receive or deliver the product for use or sale in the normal course of business.

CenterPoint Energy has a Risk Oversight Committee composed of corporate and business segment officers that oversees all commodity price, weather and credit risk activities, including CenterPoint Energy's marketing, risk management services and hedging activities. The committee's duties are to establish CenterPoint Energy's commodity risk policies, allocate board-approved commercial risk limits, approve the use of new products and commodities, monitor positions and ensure compliance with CenterPoint Energy's risk management policies, procedures and limits established by CenterPoint Energy's board of directors.

CenterPoint Energy's policies prohibit the use of leveraged financial instruments. A leveraged financial instrument, for this purpose, is a transaction involving a derivative whose financial impact will be based on an amount other than the notional amount or volume of the instrument.

Table of Contents

(a) Non-Trading Activities

Derivative Instruments. CenterPoint Energy enters into certain derivative instruments to manage physical commodity price risk and does not engage in proprietary or speculative commodity trading. These financial instruments do not qualify or are not designated as cash flow or fair value hedges.

Weather Hedges. CenterPoint Energy has weather normalization or other rate mechanisms that mitigate the impact of weather on its gas operations in Arkansas, Louisiana, Mississippi and Oklahoma. Gas operations in Texas and Minnesota and electric operations in Texas do not have such mechanisms. As a result, fluctuations from normal weather may have a significant positive or negative effect on Gas Operations' results in these jurisdictions and on CenterPoint Houston's results in its service territory.

CenterPoint Energy entered into heating-degree day swaps for certain Gas Operations jurisdictions to mitigate the effect of fluctuations from normal weather on its results of operations and cash flows for the winter heating season, which contained a bilateral dollar cap of \$15 million in 2012 - 2013, \$16 million in 2013 - 2014 and \$16 million in 2014 - 2015. In both 2013 and 2014, CenterPoint Energy also entered into a similar winter weather hedge for the CenterPoint Houston service territory, which each contained a bilateral dollar cap of \$8 million. The swaps are based on ten-year normal weather. During both the three months ended September 30, 2014 and 2013, CenterPoint Energy recognized losses of \$-0- related to these swaps. During the nine months ended September 30, 2014 and 2013, CenterPoint Energy recognized losses of \$8 million and \$6 million, respectively, related to these swaps. Weather hedge gains and losses are included in revenues in the Condensed Statements of Consolidated Income.

(b) Derivative Fair Values and Income Statement Impacts

The following tables present information about CenterPoint Energy's derivative instruments and hedging activities. The first four tables provide a balance sheet overview of CenterPoint Energy's Derivative Assets and Liabilities as of September 30, 2014 and December 31, 2013, while the last two tables provide a breakdown of the related income statement impacts for the three and nine months ended September 30, 2014 and 2013.

Fair Value of Derivative Instruments

Total derivatives not designated as hedging instruments	Balance Sheet Location	September 30, 2014	
		Derivative Assets Fair Value (in millions)	Derivative Liabilities Fair Value
Natural gas derivatives (1) (2)	Current Assets: Non-trading derivative assets	\$45	\$11
Natural gas derivatives (1) (2)	Other Assets: Non-trading derivative assets	17	—
Natural gas derivatives (1) (2)	Current Liabilities: Non-trading derivative liabilities	1	12
Natural gas derivatives (1) (2)	Other Liabilities: Non-trading derivative liabilities	3	5
Indexed debt securities derivative	Current Liabilities	—	483
Total		\$66	\$511

(1) The fair value shown for natural gas contracts is comprised of derivative gross volumes totaling 811 billion cubic feet (Bcf) or a net 34 Bcf long position. Of the net long position, basis swaps constitute 126 Bcf.

(2) Natural gas contracts are presented on a net basis in the Condensed Consolidated Balance Sheets. Natural gas contracts are subject to master netting arrangements. This netting applies to all undisputed amounts due or past due and causes derivative assets (liabilities) to be ultimately presented net in a liability (asset) account within the

Condensed Consolidated Balance Sheets. The net of total non-trading derivative assets and liabilities was a \$38 million asset as shown on CenterPoint Energy's Condensed Consolidated Balance Sheets (and as detailed in the table below), and was comprised of the natural gas contracts derivative assets and liabilities separately shown above.

Table of Contents

Offsetting of Natural Gas Derivative Assets and Liabilities

	September 30, 2014			
	Gross Amounts Recognized (1)	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amount Presented in the Consolidated Balance Sheets (2)	
	(in millions)			
Current Assets: Non-trading derivative assets	\$46	\$(12) \$34	
Other Assets: Non-trading derivative assets	20	(3) 17	
Current Liabilities: Non-trading derivative liabilities	(23) 12	(11)
Other Liabilities: Non-trading derivative liabilities	(5) 3	(2)
Total	\$38	\$—	\$38	

(1) Gross amounts recognized include some derivative assets and liabilities that are not subject to master netting arrangements.

(2) The derivative assets and liabilities on the Consolidated Balance Sheets exclude accounts receivable or accounts payable that, should they exist, could be used as offsets to these balances in the event of a default.

Fair Value of Derivative Instruments

Total derivatives not designated as hedging instruments	Balance Sheet Location	December 31, 2013	
		Derivative Assets Fair Value (in millions)	Derivative Liabilities Fair Value
Natural gas derivatives (1) (2) (3)	Current Assets: Non-trading derivative assets	\$28	\$4
Natural gas derivatives (1) (2)	Other Assets: Non-trading derivative assets	10	—
Natural gas derivatives (1) (2)	Current Liabilities: Non-trading derivative liabilities	4	21
Natural gas derivatives (1) (2)	Other Liabilities: Non-trading derivative liabilities	1	5
Indexed debt securities derivative	Current Liabilities	—	455
Total		\$43	\$485

(1) The fair value shown for natural gas contracts is comprised of derivative gross volumes totaling 607 Bcf or a net 46 Bcf long position. Of the net long position, basis swaps constitute 99 Bcf.

Natural gas contracts are presented on a net basis in the Condensed Consolidated Balance Sheets. Natural gas contracts are subject to master netting arrangements. This netting applies to all undisputed amounts due or past due and causes derivative assets (liabilities) to be ultimately presented net in a liability (asset) account within the (2) Condensed Consolidated Balance Sheets. The net of total non-trading derivative assets and liabilities was a \$13 million asset as shown on CenterPoint Energy's Condensed Consolidated Balance Sheets (and as detailed in the table below), and was comprised of the natural gas contracts derivative assets and liabilities separately shown above, offset by collateral netting of less than \$1 million.

(3) The \$28 million Derivative Current Asset includes \$1 million related to physical forwards purchased from Enable.

Table of Contents

Offsetting of Natural Gas Derivative Assets and Liabilities

	December 31, 2013			
	Gross Amounts Recognized (1)	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amount Presented in the Consolidated Balance Sheets (2)	
	(in millions)			
Current Assets: Non-trading derivative assets	\$32	\$(8) \$24	
Other Assets: Non-trading derivative assets	11	(1) 10	
Current Liabilities: Non-trading derivative liabilities	(25) 8	(17)
Other Liabilities: Non-trading derivative liabilities	(5) 1	(4)
Total	\$13	\$—	\$13	

(1) Gross amounts recognized include some derivative assets and liabilities that are not subject to master netting arrangements.

(2) The derivative assets and liabilities on the Consolidated Balance Sheets exclude accounts receivable or accounts payable that, should they exist, could be used as offsets to these balances in the event of a default.

Realized and unrealized gains and losses on derivatives are recognized in the Condensed Statements of Consolidated Income as revenue for physical natural gas sales derivative contracts and as natural gas expense for financial natural gas derivatives and other physical natural gas derivatives. Unrealized gains and losses on indexed debt securities are recorded as Other Income (Expense) in the Condensed Statements of Consolidated Income.

Income Statement Impact of Derivative Activity

		Three Months Ended September 30,		
Total derivatives not designated as hedging instruments	Income Statement Location	2014	2013	
		(in millions)		
Natural gas derivatives	Gains (Losses) in Revenues	\$22	\$11

Indexed debt securities derivative	Gains (Losses) in Other Income (Expense)	(22) (42)
Total		\$(4) \$(33)

Income Statement Impact of Derivative Activity

		Nine Months Ended September 30,		
Total derivatives not designated as hedging instruments	Income Statement Location	2014	2013	
		(in millions)		
Natural gas derivatives	Gains (Losses) in Revenues	\$(74) \$24	
Natural gas derivatives (1)	Gains (Losses) in Expenses: Natural Gas	110	(3)
Indexed debt securities derivative	Gains (Losses) in Other Income (Expense)	(29) (120)
Total		\$7	\$(99)

(1) The Gains (Losses) in Expenses: Natural Gas includes \$-0- and \$2 million during the three and nine months ended September 30, 2014, respectively, related to physical forwards purchased from Enable.

(c) Credit Risk Contingent Features

CenterPoint Energy enters into financial derivative contracts containing material adverse change provisions. These provisions could require CenterPoint Energy to post additional collateral if the Standard & Poor's Ratings Services or Moody's Investors Service, Inc. credit ratings of CenterPoint Energy, Inc. or its subsidiaries are downgraded. The total fair value of the derivative instruments that contain credit risk contingent features that are in a net liability position at both September 30, 2014 and December 31, 2013 was \$1 million. The aggregate fair value of assets that were posted as collateral was less than \$1 million at both September 30, 2014 and December 31, 2013. If all derivative contracts (in a net liability position) containing credit risk

Table of Contents

contingent features were triggered at both September 30, 2014 and December 31, 2013, \$1 million of additional assets would be required to be posted as collateral.

(6) Fair Value Measurements

Assets and liabilities that are recorded at fair value in the Condensed Consolidated Balance Sheets are categorized based upon the level of judgment associated with the inputs used to measure their value. Hierarchical levels, as defined below and directly related to the amount of subjectivity associated with the inputs to fair valuations of these assets and liabilities, are as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets carried at Level 1 fair value generally are exchange-traded derivatives and equity securities.

Level 2: Inputs, other than quoted prices included in Level 1, are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, and inputs other than quoted prices that are observable for the asset or liability. Fair value assets and liabilities that are generally included in this category are derivatives with fair values based on inputs from actively quoted markets. A market approach is utilized to value CenterPoint Energy's Level 2 assets or liabilities.

Level 3: Inputs are unobservable for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. Unobservable inputs reflect CenterPoint Energy's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. CenterPoint Energy develops these inputs based on the best information available, including CenterPoint Energy's own data. A market approach is utilized to value CenterPoint Energy's Level 3 assets or liabilities. Currently, CenterPoint Energy's Level 3 assets and liabilities are comprised of physical forward contracts and options. Level 3 physical forward contracts are valued using a discounted cash flow model which includes illiquid forward price curve locations (ranging from \$2.04 to \$4.95 per one million British thermal units) as an unobservable input. Level 3 options are valued through Black-Scholes (including forward start) option models which include option volatilities (ranging from 0 to 81%) as an unobservable input. CenterPoint Energy's Level 3 derivative assets and liabilities consist of both long and short positions (forwards and options) and their fair value is sensitive to forward prices and volatilities. If forward prices decrease, CenterPoint Energy's long forwards lose value whereas its short forwards gain in value. If volatility decreases, CenterPoint Energy's long options lose value whereas its short options gain in value.

CenterPoint Energy determines the appropriate level for each financial asset and liability on a quarterly basis and recognizes transfers between levels at the end of the reporting period. For the nine months ended September 30, 2014, there were no transfers between Level 1 and 2. CenterPoint Energy also recognizes purchases of Level 3 financial assets and liabilities at their fair market value at the end of the reporting period.

The following tables present information about CenterPoint Energy's assets and liabilities (including derivatives that are presented net) measured at fair value on a recurring basis as of September 30, 2014 and December 31, 2013, and indicate the fair value hierarchy of the valuation techniques utilized by CenterPoint Energy to determine such fair value.

(1) CenterPoint Energy did not have significant Level 3 purchases, sales or transfers out of Level 3 during either the three or nine months ended September 30, 2014 or 2013.

Table of Contents

Estimated Fair Value of Financial Instruments

The fair values of cash and cash equivalents, investments in debt and equity securities classified as “trading” and short-term borrowings are estimated to be approximately equivalent to carrying amounts and have been excluded from the table below. The carrying amounts of non-trading derivative assets and liabilities and CenterPoint Energy’s 2.0% Zero-Premium Exchangeable Subordinated Notes due 2029 (ZENS) indexed debt securities derivative are stated at fair value and are excluded from the table below. The fair value of each debt instrument is determined by multiplying the principal amount of each debt instrument by the market price. These assets and liabilities, which are not measured at fair value in the Condensed Consolidated Balance Sheets but for which the fair value is disclosed, would be classified as Level 1 or Level 2 in the fair value hierarchy.

	September 30, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(in millions)

(7) Unconsolidated Affiliates

On May 1, 2013 (the Closing Date) CERC Corp., OGE Energy Corp. (OGE) and ArcLight Capital Partners, LLC (ArcLight) closed on the formation of Enable. CenterPoint Energy has the ability to significantly influence the operating and financial policies of Enable and, accordingly, accounts for its investment in Enable using the equity method of accounting. Under the equity method, CenterPoint Energy will adjust its investment in Enable each period for contributions made, distributions received, CenterPoint Energy’s share of Enable’s comprehensive income and accretion of basis differences, as appropriate. CenterPoint Energy evaluates its equity method investments for impairment when events or changes in circumstances indicate there is a loss in value of the investment that is other than a temporary decline.

CenterPoint Energy’s investment in Enable is considered to be a VIE because the power to direct the activities that most significantly impact Enable’s economic performance does not reside with the holders of equity investment at risk. However, CenterPoint Energy is not considered the primary beneficiary of Enable since it does not have the power to direct the activities of Enable that are considered most significant to the economic performance of Enable. CenterPoint Energy’s maximum exposure to loss related to Enable is limited to its equity investment as presented in the Condensed Consolidated Balance Sheet at September 30, 2014, CERC Corp.’s guarantee of collection of Enable’s \$1.1 billion senior notes due 2019 and 2024 (Guaranteed Senior Notes) and other guarantees discussed in Note 12, CERC Corp.’s \$363 million notes receivable from Enable and outstanding current accounts receivable from Enable. The \$363 million of notes receivable from Enable bears interest at an annual rate of 2.10% to 2.45% and matures in 2017. CenterPoint Energy recorded interest income of \$2 million and \$2 million during the three months ended September 30, 2014 and 2013, respectively, and \$6 million and \$3 million during the nine months ended September 30, 2014 and 2013, respectively, for interest earned on or after the Closing Date and had interest receivable from Enable of \$2 million and \$4 million as of September 30, 2014 and December 31, 2013, respectively, on its notes receivable from Enable.

Effective on the Closing Date, CenterPoint Energy and Enable entered into a Services Agreement, Employee Transition Agreement, Transitional Services Agreement and other agreements (collectively, Transition Agreements) whereby CenterPoint Energy agreed to provide certain support services to Enable such as accounting, legal, risk management and treasury functions for an initial term ending on April 30, 2016. The support services automatically

extend year-to-year at the end of the initial term, unless terminated by Enable with at least 90 days' notice. Enable may terminate the initial support services at any time with 180 days' notice if approved by the board of Enable's general partner. Additionally, CenterPoint Energy agreed to provide seconded employees to Enable to support its operations for an initial term ending on December 31, 2014, unless revised by mutual agreement with CenterPoint Energy, OGE and Enable prior to that date.

CenterPoint Energy billed Enable for reimbursement of transitional services, including the costs of seconded employees, \$36 million and \$42 million during the three months ended September 30, 2014 and 2013, respectively, and \$118 million and \$70 million during the nine months ended September 30, 2014 and 2013, respectively, under the Transition Agreements for transition services incurred on or after the Closing Date. Actual transitional services costs are recorded net of reimbursements received from Enable. Effective April 1, 2014, Enable's general partner, CenterPoint Energy and OGE agreed to reduce certain governance related costs billed to Enable for transition services. CenterPoint Energy had accounts receivable from Enable of \$17 million and \$21

Table of Contents

million as of September 30, 2014 and December 31, 2013, respectively, for amounts billed for transitional services, including the cost of seconded employees.

Enable, at its discretion, has the right to select and offer employment to seconded employees from CenterPoint Energy. CenterPoint Energy did not transfer any employees to Enable at formation of the partnership or at any time during the period from the Closing Date through September 30, 2014. As of September 30, 2014, CenterPoint Energy determined it cannot reasonably estimate the impact of the costs associated with the termination of employees related to the formation of Enable or transfer of employees from CenterPoint Energy to Enable, including the impact of the changes to the actuarial determination of employee benefit plan obligations. Pursuant to the Transition Agreements, Enable has agreed to reimburse CenterPoint Energy for certain severance and termination costs related to the termination of CenterPoint Energy's seconded employees.

On April 16, 2014, Enable completed its initial public offering (IPO) of 28,750,000 common units, at a price of \$20.00 per unit, which included 3,750,000 common units sold by ArcLight pursuant to an over-allotment option that was fully exercised by the underwriters. Enable received \$464 million in net proceeds from the sale of the units, after deducting underwriting fees, structuring fees and other offering costs. In connection with Enable's IPO, a portion of CenterPoint Energy's common units were converted into subordinated units, as discussed further below. Subsequent to the IPO, Enable continues to be equally controlled by CenterPoint Energy and OGE; each own 50% of the management rights in the general partner of Enable. CenterPoint Energy and OGE also own a 40% and 60% economic interest, respectively, in the incentive distribution rights held by the general partner of Enable.

As a result of Enable's IPO, CenterPoint Energy's limited partner interest in Enable was reduced from approximately 58.3% to approximately 54.7%. CenterPoint Energy accounted for the dilution of its investment in Enable as a result of Enable's IPO as a failed partial sale of in-substance real estate. CenterPoint Energy did not receive any cash from Enable's IPO and, as such, CenterPoint Energy did not recognize a gain or loss. CenterPoint Energy's basis difference in Enable was reduced for the impact of the Enable IPO.

In accordance with the Enable formation agreements, CenterPoint Energy had certain put rights, and Enable had certain call rights, exercisable with respect to the 25.05% interest in Southeast Supply Header, LLC (SESH) retained by CenterPoint Energy on the Closing Date, under which CenterPoint Energy would contribute its retained interest in SESH, in exchange for a specified number of limited partner units in Enable and a cash payment, payable either from CenterPoint Energy to Enable or from Enable to CenterPoint Energy, to the extent of changes in the value of SESH subject to certain restrictions. Specifically, the rights were and are exercisable with respect to (1) a 24.95% interest in SESH (24.95% Put), which closed on May 30, 2014 as discussed below and (2) a 0.1% interest in SESH, which may be exercised no earlier than June 2015 for 25,341 common units in Enable.

On May 30, 2014, CenterPoint Energy closed its 24.95% Put and contributed to Enable its 24.95% interest in SESH in exchange for 6,322,457 common units of Enable, which increased CenterPoint Energy's limited partner interest in Enable from approximately 54.7% to approximately 55.4%. No cash payment was required to be made pursuant to the Enable formation agreements in connection with CenterPoint Energy's exercise of the 24.95% Put. CenterPoint Energy accounted for the contribution of its 24.95% interest in SESH to Enable in exchange for common units of Enable as a non-monetary transaction of in-substance real estate equity method investments. As such, CenterPoint Energy recorded the 6,322,457 common units at the historical cost of the contributed 24.95% interest in SESH of \$196 million and recorded no gain or loss in connection with its exercise of the 24.95% Put. As a result, CenterPoint Energy's basis difference in Enable was reduced for the impact of its exercise of the 24.95% Put.

CenterPoint Energy incurred natural gas expenses, including transportation and storage costs, of \$24 million and \$42 million, during the three months ended September 30, 2014 and 2013, respectively, and \$99 million and \$70 million during the nine months ended September 30, 2014 and 2013, respectively, for transactions with Enable occurring on

or after the Closing Date. CenterPoint Energy had accounts payable to Enable of \$10 million and \$22 million at September 30, 2014 and December 31, 2013, respectively, from such transactions.

As of September 30, 2014, CenterPoint Energy held an approximate 55.4% limited partner interest in Enable consisting of 94,126,366 common units and 139,704,916 subordinated units and a 0.1% interest in SESH. The principal difference between Enable common units and subordinated units is that in any quarter during the subordination period, holders of the subordinated units are not entitled to receive any distribution of available cash until the common units have received the minimum quarterly distribution plus any arrearages in the payment of the minimum quarterly distribution from prior quarters. If Enable does not pay distributions on its subordinated units, the subordinated units will not accrue arrearages for those unpaid distributions. At the end of the subordination period, CenterPoint Energy's subordinated units in Enable will be converted to common units in Enable on a one-for-one basis. On September 30, 2014, Enable's common units closed at \$24.64 per unit on the New York Stock Exchange.

- On May 1, 2013, CenterPoint Energy formed Enable with OGE and ArcLight. The amounts included in the table represent the three- and five- month periods ended September 30, 2013. Enable concluded that its formation was considered a business combination, in which the fair value of the consideration paid for Enogex, LLC (Enogex), the businesses contributed by OGE, was allocated to the assets acquired and liabilities assumed by Enable on the (1) Closing Date. In the third quarter of 2013, Enable completed its valuation of Enogex, and Enogex's assets, liabilities and equity, and its related depreciation and amortization for the five-month period ended September 30, 2013, was accordingly adjusted to estimated fair value as of the Closing Date. CenterPoint Energy's equity in earnings, net of basis difference, in the third quarter of 2013 was not materially different as a result of the final fair value determination.

Table of Contents

(2) On each of May 1, 2013 and May 30, 2014, CenterPoint Energy contributed a 24.95% interest in SESH to Enable, leaving CenterPoint Energy with a 0.1% interest in SESH as of September 30, 2014.

(8) Goodwill

Goodwill by reportable business segment as of both September 30, 2014 and December 31, 2013 is as follows (in millions):

Natural Gas Distribution	\$746
Energy Services	83
Other Operations	11
Total	\$840

CenterPoint Energy performs its goodwill impairment tests at least annually and evaluates goodwill when events or changes in circumstances indicate that its carrying value may not be recoverable. The impairment evaluation for goodwill is performed by using a two-step process. In the first step, the fair value of each reporting unit is compared with the carrying amount of the reporting unit, including goodwill. The estimated fair value of the reporting unit is generally determined on the basis of discounted cash flows. If the estimated fair value of the reporting unit is less than the carrying amount of the reporting unit, then a second step must be completed in order to determine the amount of the goodwill impairment that should be recorded. In the second step, the implied fair value of the reporting unit's goodwill is determined by allocating the reporting unit's fair value to all of its assets and liabilities other than goodwill (including any unrecognized intangible assets) in a manner similar to a purchase price allocation. The resulting implied fair value of the goodwill that results from the application of this second step is then compared to the carrying amount of the goodwill and an impairment charge is recorded for the difference.

CenterPoint Energy performed its annual impairment test in the third quarter of 2014 and determined, based on the results of the first step, that no impairment charge was required for any reportable segment.

Table of Contents

(9) Capital Stock

CenterPoint Energy, Inc. has 1,020,000,000 authorized shares of capital stock, comprised of 1,000,000,000 shares of \$0.01 par value common stock and 20,000,000 shares of \$0.01 par value preferred stock. At September 30, 2014, 429,795,996 shares of CenterPoint Energy, Inc. common stock were issued and 429,795,830 shares were outstanding. At December 31, 2013, 428,798,612 shares of CenterPoint Energy, Inc. common stock were issued and 428,798,446 shares were outstanding. Outstanding common shares exclude 166 treasury shares at both September 30, 2014 and December 31, 2013.

(10) Short-term Borrowings and Long-term Debt

(a) Short-term Borrowings

Inventory Financing. Gas Operations has asset management agreements associated with its utility distribution service in Arkansas, north Louisiana and Oklahoma that extend through March 2015. Pursuant to the provisions of the agreements, Gas Operations sells natural gas and agrees to repurchase an equivalent amount of natural gas during the winter heating seasons at the same cost, plus a financing charge. These transactions are accounted for as a financing and had an associated principal obligation of \$80 million and \$43 million as of September 30, 2014 and December 31, 2013, respectively.

(b) Long-term Debt

On March 17, 2014, CenterPoint Energy Houston Electric, LLC issued \$600 million principal amount of 4.50% General Mortgage Bonds due 2044.

Debt Repayments. Approximately \$44 million aggregate principal amount of pollution control bonds issued on behalf of CenterPoint Houston were redeemed on March 3, 2014 at 101% of their principal amount plus accrued interest. The bonds had an interest rate of 4.25%, were scheduled to mature in 2017 and were collateralized by general mortgage bonds of CenterPoint Houston.

Approximately \$56 million aggregate principal amount of pollution control bonds issued on behalf of CenterPoint Houston were purchased by CenterPoint Houston on March 3, 2014 at 101% of their principal amount plus accrued interest pursuant to the mandatory tender provisions of the bonds. The bonds had an interest rate of 5.60% prior to CenterPoint Houston's purchase and have a variable rate thereafter. The bonds mature in 2027 and are collateralized by general mortgage bonds of CenterPoint Houston. The purchased pollution control bonds may be remarketed.

Approximately \$84 million aggregate principal amount of pollution control bonds issued on behalf of CenterPoint Houston were redeemed on June 2, 2014 at 100% of their principal amount plus accrued interest. The bonds had an interest rate of 4.25%, were scheduled to mature in 2017 and were collateralized by general mortgage bonds of CenterPoint Houston.

Credit Facilities. On September 9, 2014, the revolving credit facilities of CenterPoint Energy, CenterPoint Houston and CERC Corp. were amended to, among other things, extend the maturity date of the commitments under the credit facilities from September 9, 2018 to September 9, 2019. The amendments also reduced the swingline and letter of credit sub-facilities under each credit facility, with total commitments under each credit facility remaining unchanged. As of September 30, 2014 and December 31, 2013, CenterPoint Energy, CenterPoint Houston and CERC Corp. had the following revolving credit facilities and utilization of such facilities (in millions):

	September 30, 2014	December 31, 2013
Loans		Loans

Edgar Filing: CENTERPOINT ENERGY INC - Form 10-Q

	Size of Facility		Letters of Credit	Commercial Paper		Letters of Credit	Commercial Paper
CenterPoint Energy	\$1,200	\$—	\$6	\$190	\$—	\$6	\$—
CenterPoint Houston	300	—	4	—	—	4	—
CERC Corp.	600	—	—	—	—	—	118
Total	\$2,100	\$—	\$10	\$190	\$—	\$10	\$118

CenterPoint Energy's \$1.2 billion revolving credit facility, which is scheduled to terminate on September 9, 2019, can be drawn at the London Interbank Offered Rate (LIBOR) plus 1.25% based on CenterPoint Energy's current credit ratings. The revolving credit facility contains a financial covenant which limits CenterPoint Energy's consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of CenterPoint Energy's consolidated capitalization. The financial covenant limit will temporarily increase from 65% to 70% if CenterPoint Houston experiences damage from a natural disaster in

Table of Contents

its service territory and CenterPoint Energy certifies to the administrative agent that CenterPoint Houston has incurred system restoration costs reasonably likely to exceed \$100 million in a consecutive twelve-month period, all or part of which CenterPoint Houston intends to seek to recover through securitization financing. Such temporary increase in the financial covenant would be in effect from the date CenterPoint Energy delivers its certification until the earliest to occur of (i) the completion of the securitization financing, (ii) the first anniversary of CenterPoint Energy's certification or (iii) the revocation of such certification.

CenterPoint Houston's \$300 million revolving credit facility, which is scheduled to terminate on September 9, 2019, can be drawn at LIBOR plus 1.125% based on CenterPoint Houston's current credit ratings. The revolving credit facility contains a financial covenant which limits CenterPoint Houston's consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of CenterPoint Houston's consolidated capitalization.

CERC Corp.'s \$600 million revolving credit facility, which is scheduled to terminate on September 9, 2019, can be drawn at LIBOR plus 1.50% based on CERC Corp.'s current credit ratings. The revolving credit facility contains a financial covenant which limits CERC's consolidated debt to an amount not to exceed 65% of CERC's consolidated capitalization.

CenterPoint Energy, CenterPoint Houston and CERC Corp. were in compliance with all financial covenants in their respective revolving credit facilities as of September 30, 2014.

(11) Income Taxes

The effective tax rate reported for the three months ended September 30, 2014 was 33%, compared to 34% for the same period in 2013. For the three months ended September 30, 2014, CenterPoint Energy recognized a tax benefit of \$6 million related to the reversal of previously accrued taxes as a result of filing the 2013 federal income tax return. For the three months ended September 30, 2013, CenterPoint Energy recognized a tax benefit of \$8 million based on the settlement of outstanding tax claims for the 2002 and 2003 audit cycles.

The effective tax rate reported for the nine months ended September 30, 2014 was 36%, compared to 67% for the same period in 2013. The higher effective tax rate for the nine months ended September 30, 2013 was primarily associated with the formation of Enable. As a result of the formation of Enable, a deferred tax liability of \$225 million was recorded for the book-to-tax basis difference in CenterPoint Energy's investment resulting from the goodwill that was contributed by CenterPoint Energy. In addition, CenterPoint Energy recognized a tax benefit of \$29 million associated with the remeasurement of state deferred taxes related to Enable's formation.

CenterPoint Energy reported no uncertain tax liability as of September 30, 2014 and expects no significant change to the uncertain tax liability over the next twelve months. The consolidated federal income tax returns for the years 2012 and 2013 are currently under audit by the Internal Revenue Service (IRS). Tax years through 2011 have been audited and settled with the IRS. For 2014, CenterPoint Energy is a participant in the IRS's Compliance Assurance Process.

(12) Commitments and Contingencies

(a) Natural Gas Supply Commitments

Natural gas supply commitments include natural gas contracts related to CenterPoint Energy's Natural Gas Distribution and Energy Services business segments, which have various quantity requirements and durations, that are not classified as non-trading derivative assets and liabilities in CenterPoint Energy's Consolidated Balance Sheets as of September 30, 2014 and December 31, 2013 as these contracts meet an exception as "normal purchases contracts" or do not meet the definition of a derivative. Natural gas supply commitments also include natural gas transportation

contracts that do not meet the definition of a derivative. As of September 30, 2014, minimum payment obligations for natural gas supply commitments are approximately \$232 million for the remaining three months in 2014, \$634 million in 2015, \$557 million in 2016, \$485 million in 2017, \$434 million in 2018 and \$180 million after 2018.

(b)Legal, Environmental and Other Regulatory Matters

Legal Matters

Gas Market Manipulation Cases. CenterPoint Energy, CenterPoint Houston or their predecessor, Reliant Energy, Incorporated (Reliant Energy), and certain of their former subsidiaries have been named as defendants in certain lawsuits described below. Under a master separation agreement between CenterPoint Energy and a former subsidiary, Reliant Resources, Inc. (RRI), CenterPoint Energy and its subsidiaries are entitled to be indemnified by RRI and its successors for any losses, including certain

Table of Contents

attorneys' fees and other costs, arising out of these lawsuits. In May 2009, RRI sold its Texas retail business to a subsidiary of NRG and RRI changed its name to RRI Energy, Inc. In December 2010, Mirant Corporation merged with and became a wholly owned subsidiary of RRI, and RRI changed its name to GenOn Energy, Inc. (GenOn). In December 2012, NRG acquired GenOn through a merger in which GenOn became a wholly owned subsidiary of NRG. None of the sale of the retail business, the merger with Mirant Corporation, or the acquisition of GenOn by NRG alters RRI's (now GenOn's) contractual obligations to indemnify CenterPoint Energy and its subsidiaries, including CenterPoint Houston, for certain liabilities, including their indemnification obligations regarding the gas market manipulation litigation, nor does it affect the terms of existing guarantee arrangements for certain GenOn gas transportation contracts discussed below.

A large number of lawsuits were filed against numerous gas market participants in a number of federal and western state courts in connection with the operation of the natural gas markets in 2000-2002. CenterPoint Energy and its affiliates have since been released or dismissed from all but one such case. CenterPoint Energy Services, Inc. (CES), a subsidiary of CERC Corp., is a defendant in a case now pending in federal court in Nevada alleging a conspiracy to inflate Wisconsin natural gas prices in 2000-2002. In July 2011, the court issued an order dismissing the plaintiffs' claims against other defendants in the case, each of whom had demonstrated Federal Energy Regulatory Commission jurisdictional sales for resale during the relevant period, based on federal preemption. The plaintiffs appealed this ruling to the United States Court of Appeals for the Ninth Circuit, which reversed the trial court's dismissal of the plaintiffs' claims. In August 2013, the other defendants filed a petition for review with the U.S. Supreme Court, which the court granted on July 1, 2014. The defendants filed an opening brief with the court on September 18, 2014. The plaintiffs' brief is due on November 21, 2014, and the other defendants' reply brief is due on December 22, 2014. Four amicus briefs favorable to our co-defendants were filed by the United States, Interstate Natural Gas Association of America, et. al., Washington Legal Foundation and Noble America Corporation, et. al. CenterPoint Energy believes that CES is not a proper defendant in this case and will continue to pursue a dismissal. CenterPoint Energy does not expect the ultimate outcome of this matter to have a material impact on its financial condition, results of operations or cash flows.

Environmental Matters

Manufactured Gas Plant Sites. CERC and its predecessors operated manufactured gas plants (MGPs) in the past. There are seven MGP sites in CERC's Minnesota service territory. CERC believes it never owned or operated, and therefore has no liability with respect to, two of these sites. With respect to two other sites, CERC has completed state ordered remediation, other than ongoing monitoring and water treatment.

At September 30, 2014, CERC had recorded a liability of \$13 million for remediation of these Minnesota sites. The estimated range of possible remediation costs for the sites for which CERC believes it may have responsibility was \$6 million to \$41 million based on remediation continuing for 30 to 50 years. The cost estimates are based on studies of a site or industry average costs for remediation of sites of similar size. The actual remediation costs will be dependent upon the number of sites to be remediated, the participation of other potentially responsible parties (PRPs), if any, and the remediation methods used. The Minnesota Public Utilities Commission includes approximately \$285,000 annually in rates to fund normal ongoing remediation costs. As of September 30, 2014, CERC had collected \$6.5 million from insurance companies to be used for future environmental remediation.

In addition to the Minnesota sites, the United States Environmental Protection Agency and other regulators have investigated MGP sites that were owned or operated by CERC or may have been owned by one of its former affiliates. CERC and CenterPoint Energy do not expect the ultimate outcome of these investigations will have a material adverse impact on the financial condition, results of operations or cash flows of either CenterPoint Energy or CERC.

Asbestos. Some facilities owned by CenterPoint Energy contain or have contained asbestos insulation and other asbestos-containing materials. CenterPoint Energy or its subsidiaries have been named, along with numerous others, as a defendant in lawsuits filed by a number of individuals who claim injury due to exposure to asbestos. Some of the claimants have worked at locations owned by subsidiaries of CenterPoint Energy, but most existing claims relate to facilities previously owned by CenterPoint Energy's subsidiaries, some of which are currently owned by an affiliate of NRG. CenterPoint Energy anticipates that additional claims like those received may be asserted in the future. In 2004 and early 2005, CenterPoint Energy sold its generating business, to which most of these claims relate, to a company which is now an affiliate of NRG. Under the terms of the arrangements regarding separation of the generating business from CenterPoint Energy and its sale of that business, ultimate financial responsibility for uninsured losses from claims relating to the generating business has been assumed by the NRG affiliate, but CenterPoint Energy has agreed to continue to defend such claims to the extent they are covered by insurance maintained by CenterPoint Energy, subject to reimbursement of the costs of such defense by the NRG affiliate. Although their ultimate outcome cannot be predicted at this time, CenterPoint Energy intends to continue vigorously contesting claims that it does not consider to have merit and, based on its experience to date, does not expect these matters, either individually or in the aggregate, to have a material adverse effect on CenterPoint Energy's financial condition, results of operations or cash flows.

Table of Contents

Other Environmental. From time to time CenterPoint Energy identifies the presence of environmental contaminants on property where its subsidiaries conduct or have conducted operations. Other such sites involving contaminants may be identified in the future. CenterPoint Energy has and expects to continue to remediate identified sites consistent with its legal obligations. From time to time CenterPoint Energy has received notices from regulatory authorities or others regarding its status as a PRP in connection with sites found to require remediation due to the presence of environmental contaminants. In addition, CenterPoint Energy has been named from time to time as a defendant in litigation related to such sites. Although the ultimate outcome of such matters cannot be predicted at this time, CenterPoint Energy does not expect, based on its experience to date, these matters, either individually or in the aggregate, to have a material adverse effect on CenterPoint Energy's financial condition, results of operations or cash flows.

Other Proceedings

CenterPoint Energy is involved in other legal, environmental, tax and regulatory proceedings before various courts, regulatory commissions and governmental agencies regarding matters arising in the ordinary course of business. From time to time, CenterPoint Energy is also a defendant in legal proceedings with respect to claims brought by various plaintiffs against broad groups of participants in the energy industry. Some of these proceedings involve substantial amounts. CenterPoint Energy regularly analyzes current information and, as necessary, provides accruals for probable liabilities on the eventual disposition of these matters. CenterPoint Energy does not expect the disposition of these matters to have a material adverse effect on CenterPoint Energy's financial condition, results of operations or cash flows.

(c) Guarantees

Prior to the distribution of CenterPoint Energy's ownership in RRI to its shareholders, CERC had guaranteed certain contractual obligations of what became RRI's trading subsidiary. When the companies separated, RRI agreed to secure CERC against obligations under the guarantees RRI had been unable to extinguish by the time of separation. Pursuant to such agreement, as amended in December 2007, RRI (now GenOn) agreed to provide to CERC cash or letters of credit as security against CERC's obligations under its remaining guarantees for demand charges under certain gas transportation agreements if and to the extent changes in market conditions expose CERC to a risk of loss on those guarantees based on an annual calculation, with any required collateral to be posted each December. The undiscounted maximum potential payout of the demand charges under these transportation contracts, which will be in effect until 2018, was approximately \$46 million as of September 30, 2014. Based on market conditions in the fourth quarter of 2014 at the time the most recent annual calculation was made under the agreement, GenOn was not obligated to post any security. If GenOn should fail to perform the contractual obligations, CERC could have to honor its guarantee and, in such event, any collateral then provided as security may be insufficient to satisfy CERC's obligations.

CenterPoint Energy has provided guarantees (CenterPoint Midstream Guarantees) with respect to the performance of certain obligations of Enable under long-term gas gathering and treating agreements with an indirect wholly owned subsidiary of Encana Corporation and an indirect wholly owned subsidiary of Royal Dutch Shell plc. As of September 30, 2014, CenterPoint Energy had guaranteed Enable's obligations up to an aggregate amount of \$100 million under these agreements. Under the terms of the omnibus agreement entered into in connection with the closing of the formation of Enable, Enable and CenterPoint Energy have agreed to use commercially reasonable efforts and cooperate with each other to terminate the CenterPoint Midstream Guarantees and to release CenterPoint Energy from such guarantees by causing Enable or one of its subsidiaries to enter into substitute guarantees or to assume the CenterPoint Midstream Guarantees as applicable.

CERC Corp. has also provided a guarantee of collection of \$1.1 billion of Enable's Guaranteed Senior Notes. This guarantee is subordinated to all senior debt of CERC Corp. and is subject to automatic release on May 1, 2016.

The fair value of these guarantees is not material.

Table of Contents

(13) Earnings Per Share

The following table reconciles numerators and denominators of CenterPoint Energy's basic and diluted earnings per share calculations:

	Three Months Ended		Nine Months Ended September	
	September 30, 2014	2013	30, 2014	2013
	(in millions, except share and per share amounts)			
Net income	\$ 143	\$ 151	\$ 435	\$ 198
Basic weighted average shares outstanding	429,796,000	428,628,000	429,580,000	428,389,000
Plus: Incremental shares from assumed conversions:				
Stock options	—	97,000	—	93,000
Restricted stock	1,777,000	2,142,000	1,777,000	2,142,000
Diluted weighted average shares	431,573,000	430,867,000	431,357,000	430,624,000
Basic earnings per share:				
Net income	\$0.33	\$0.35	\$1.01	\$0.46
Diluted earnings per share:				
Net income	\$0.33	\$0.35	\$1.01	\$0.46

(14) Reportable Business Segments

CenterPoint Energy's determination of reportable business segments considers the strategic operating units under which CenterPoint Energy manages sales, allocates resources and assesses performance of various products and services to wholesale or retail customers in differing regulatory environments. CenterPoint Energy uses operating income as the measure of profit or loss for its business segments.

CenterPoint Energy's reportable business segments include the following: Electric Transmission & Distribution, Natural Gas Distribution, Energy Services, Midstream Investments and Other Operations. The electric transmission and distribution function (CenterPoint Houston) is reported in the Electric Transmission & Distribution business segment. Natural Gas Distribution consists of intrastate natural gas sales to, and natural gas transportation and distribution for, residential, commercial, industrial and institutional customers. Energy Services represents CenterPoint Energy's non-rate regulated gas sales and services operations. Midstream Investments consists primarily of CenterPoint Energy's investment in Enable and its retained interest in SESH. Other Operations consists primarily of other corporate operations which support all of CenterPoint Energy's business operations.

Prior to May 1, 2013, CenterPoint Energy also reported an Interstate Pipelines business segment, which included CenterPoint Energy's interstate natural gas pipeline operations, and a Field Services business segment, which included CenterPoint Energy's non-rate regulated natural gas gathering, processing and treating operations. The formation of Enable closed on May 1, 2013. Enable now owns substantially all of CenterPoint Energy's former Interstate Pipelines and Field Services business segments, except for a 0.1% interest in SESH. As a result, effective May 1, 2013, CenterPoint Energy reports equity earnings associated with its interest in Enable and equity earnings associated with its interest in SESH under a new Midstream Investments segment, and no longer has Interstate Pipelines and Field Services reporting segments prospectively.

Table of Contents

Financial data for business segments is as follows (in millions):

Table of Contents

Sales to affiliates of NRG in the three months ended September 30, 2014 and 2013 represented approximately \$222 million and \$202 million, respectively, of CenterPoint Houston's transmission and distribution revenues. Sales to affiliates of Energy Future Holdings Corp. in the three months ended September 30, 2014 and 2013 represented approximately \$59 million and \$52 million, respectively, of CenterPoint Houston's transmission and distribution revenues. Sales to affiliates of NRG in the nine months ended September 30, 2014 and 2013 represented approximately \$552 million and \$494 million, respectively, of CenterPoint Houston's transmission and distribution revenues. Sales to affiliates of Energy Future Holdings Corp. in the nine months ended September 30, 2014 and 2013 represented approximately \$140 million and \$125 million, respectively, of CenterPoint Houston's transmission and distribution revenues.

(2) Results reflected in the nine months ended September 30, 2013 represent only January 2013 through April 2013.

Midstream Investments reported equity earnings of \$79 million from Enable and less than \$1 million of equity earnings from CenterPoint Energy's interest in SESH for the three months ended September 30, 2014. Midstream Investments reported equity earnings of \$236 million from Enable and \$5 million of equity earnings from CenterPoint Energy's interest in SESH for the nine months ended September 30, 2014. Midstream Investments reported equity earnings of \$77 million from Enable and \$3 million of equity earnings from CenterPoint Energy's interest in SESH for the three months ended September 30, 2013. Midstream Investments reported equity earnings of \$110 million from Enable and \$5 million of equity earnings from CenterPoint Energy's interest in SESH for the five months ended September 30, 2013. Included in total assets of Midstream Investments as of September 30, 2014 and December 31, 2013 is \$4,524 million and \$4,319 million, respectively, related to CenterPoint Energy's investment in Enable and \$1 million and \$199 million, respectively, related to CenterPoint Energy's interest in SESH.

(4) Included in total assets of Other Operations as of September 30, 2014 and December 31, 2013 are pension and other postemployment related regulatory assets of \$594 million and \$627 million, respectively.

(15) Subsequent Events

On October 21, 2014, CenterPoint Energy's board of directors declared a regular quarterly cash dividend of \$0.2375 per share of common stock payable on December 10, 2014, to shareholders of record as of the close of business on November 14, 2014.

Table of ContentsItem MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS OF CENTERPOINT ENERGY, INC. AND SUBSIDIARIES

The following discussion and analysis should be read in combination with our Interim Condensed Financial Statements contained in this Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2013 (2013 Form 10-K).

EXECUTIVE SUMMARY

Recent Events

Debt Matters. On September 9, 2014, our revolving credit facility and the revolving credit facilities of CenterPoint Houston and CERC Corp. were amended to, among other things, extend the maturity date of the commitments under the credit facilities from September 9, 2018 to September 9, 2019. The amendments also reduced the swingline and letter of credit sub-facilities under each credit facility, with total commitments under each credit facility remaining unchanged.

CONSOLIDATED RESULTS OF OPERATIONS

All dollar amounts in the tables that follow are in millions, except for per share amounts.

	Three Months Ended		Nine Months Ended September

Diluted Earnings Per Share	\$0.33	\$0.35	\$1.01	\$0.46

Three months ended September 30, 2014 compared to three months ended September 30, 2013

We reported consolidated net income of \$143 million (\$0.33 per diluted share) for the three months ended September 30, 2014 compared to net income of \$151 million (\$0.35 per diluted share) for the same period in 2013. The decrease in net income of \$8 million was primarily due to a \$23 million decrease in the gain on our marketable securities, an \$11 million decrease in operating income (discussed by segment below) and a \$1 million decrease in equity earnings of unconsolidated affiliates, which were partially offset by a \$20 million decrease in the loss on our indexed debt securities and an \$8 million decrease in income tax expense (as discussed below).

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013

We reported consolidated net income of \$435 million (\$1.01 per diluted share) for the nine months ended September 30, 2014 compared to net income of \$198 million (\$0.46 per diluted share) for the same period in 2013. The increase in net income of \$237 million was primarily due to a \$167 million decrease in income tax expense (as discussed below), a \$119 million increase in equity earnings of unconsolidated affiliates, a \$91 million decrease in the loss on our indexed debt securities and a \$19 million decrease in interest expense, which were partially offset by an \$85 million decrease in the gain on our marketable securities and an \$85 million decrease in operating income (discussed by segment below).

Table of Contents

Income Tax Expense

Our effective tax rate reported for the three months ended September 30, 2014 was 33%, compared to 34% for the same period in 2013. For the three months ended September 30, 2014, we recognized a tax benefit of \$6 million related to the reversal of previously accrued taxes as a result of filing the 2013 federal income tax return. For the three months ended September 30, 2013, we recognized a tax benefit of \$8 million based on the settlement of outstanding tax claims for the 2002 and 2003 audit cycles.

Our effective tax rate reported for the nine months ended September 30, 2014 was 36%, compared to 67% for the same period in 2013. The higher effective tax rate for the nine months ended September 30, 2013 was primarily associated with the formation of Enable. As a result of the formation of Enable, a deferred tax liability of \$225 million was recorded for the book-to-tax basis difference in our investment resulting from the goodwill that was contributed. In addition, we recognized a tax benefit of \$29 million associated with the remeasurement of state deferred taxes related to Enable's formation.

RESULTS OF OPERATIONS BY BUSINESS SEGMENT

The following table presents operating income (loss) (in millions) for each of our business segments for the three and nine months ended September 30, 2014 and 2013. Included in revenues are intersegment sales. We account for intersegment sales as if the sales were to third parties, that is, at current market prices.

	Three Months Ended		Nine Months Ended		
	September 30,		September 30,		
	2014	2013	2014	2013	
Electric Transmission & Distribution	\$232	\$239	\$482	\$488

Electric Transmission & Distribution

For information regarding factors that may affect the future results of operations of our Electric Transmission & Distribution business segment, please read “Risk Factors — Risk Factors Affecting Our Electric Transmission & Distribution Business,” “— Risk Factors Associated with Our Consolidated Financial Condition” and “— Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 (First Quarter Form 10-Q).

The following table provides summary data of our Electric Transmission & Distribution business segment for the three and nine months ended September 30, 2014 and 2013 (in millions, except throughput and customer data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Revenues:				
Electric transmission and distribution utility	\$660	\$600	\$1,716	\$1,534
Transition and system restoration bond companies	179	145	450	399
Total revenues	839	745	2,166	1,933
Expenses:				
Operation and maintenance, excluding transition and system restoration bond companies	319	256	907	740
Depreciation and amortization, excluding transition and system restoration bond companies	83	80	247	238
Taxes other than income taxes	56	57	170	169
Transition and system restoration bond companies	149	113	360	298
Total expenses	607	506	1,684	1,445
Operating Income	\$232	\$239	\$482	\$488
Operating Income:				
Electric transmission and distribution utility	\$202	\$207	\$392	\$387
Transition and system restoration bond companies (1)	30	32	90	101
Total segment operating income	\$232	\$239	\$482	\$488
Throughput (in gigawatt-hours (GWh)):				
Residential	9,737	9,945	22,000	21,736
Total	24,802	24,410	63,129	61,544
Number of metered customers at end of period:				
Residential	2,018,858	1,973,270	2,018,858	1,973,270
Total	2,284,202	2,234,041	2,284,202	2,234,041

(1) Represents the amount necessary to pay interest on the transition and system restoration bonds.

Three months ended September 30, 2014 compared to three months ended September 30, 2013

Our Electric Transmission & Distribution business segment reported operating income of \$232 million for the three months ended September 30, 2014, consisting of \$202 million from the regulated electric transmission and distribution utility (TDU) and \$30 million related to transition and system restoration bond companies (Bond

Companies). For the three months ended September 30, 2013, operating income totaled \$239 million, consisting of \$207 million from the TDU and \$32 million related to Bond Companies. TDU operating income decreased \$5 million primarily due to increased labor and support services costs (\$9 million), an adjustment to our claims liability reserve (\$6 million) and decreased usage (\$11 million), primarily due to milder weather, which were partially offset by customer growth (\$10 million) from the addition of over 50,000 new customers, higher equity returns (\$7 million) primarily related to true-up proceeds and increased right-of-way revenues (\$6 million). Increased transmission costs of \$47 million were largely offset by increased transmission revenue.

Table of Contents

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013

Our Electric Transmission & Distribution business segment reported operating income of \$482 million for the nine months ended September 30, 2014, consisting of \$392 million from TDU and \$90 million related to Bond Companies. For the nine months ended September 30, 2013, operating income totaled \$488 million, consisting of \$387 million from the TDU and \$101 million related to Bond Companies. TDU operating income increased \$5 million primarily due to customer growth (\$24 million) from the addition of over 50,000 new customers and higher equity returns (\$20 million) primarily related to true-up proceeds, which were partially offset by increased labor and support services costs (\$15 million), an adjustment to our claims liability reserve (\$6 million), increased other operation and maintenance expenses (\$7 million, excluding \$139 million of higher transmission costs largely offset by increased transmission revenue), increased depreciation expense (\$9 million) and decreased usage (\$2 million), primarily due to milder weather.

Natural Gas Distribution

For information regarding factors that may affect the future results of operations of our Natural Gas Distribution business segment, please read “Risk Factors — Risk Factors Affecting Our Natural Gas Distribution and Energy Services Businesses,” “— Risk Factors Associated with Our Consolidated Financial Condition” and “— Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our First Quarter Form 10-Q.

The following table provides summary data of our Natural Gas Distribution business segment for the three and nine months ended September 30, 2014 and 2013 (in millions, except throughput and customer data):

	Three Months Ended		Nine Months Ended September	
	September 30,		30,	
	2014	2013	2014	2013
Revenues	\$382	\$381	\$2,401	\$1,961
Expenses:

Total	3,324,422	3,288,288	3,324,422	3,288,288

Three months ended September 30, 2014 compared to three months ended September 30, 2013

Our Natural Gas Distribution business segment reported an operating loss of \$8 million for the three months ended September 30, 2014 compared to operating income \$5 million for the three months ended September 30, 2013.

Operating income decreased \$13 million due to higher labor and support services costs (\$8 million), increased pipeline integrity work (\$2 million), increased depreciation and other taxes (\$6 million) and increased other operation and maintenance expenses (\$2 million). These increases were partially offset by rate increases (\$3 million) and increased economic activity across our footprint including the addition of approximately 36,000 customers (\$2 million). Decreased expense related to lower gross receipt taxes (\$3 million) was offset by the related revenues.

Table of Contents

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013

Our Natural Gas Distribution business segment reported operating income of \$184 million for the nine months ended September 30, 2014 compared to \$169 million for the nine months ended September 30, 2013. Operating income increased \$15 million primarily due to rate increases (\$27 million), increased usage resulting from colder than normal weather, partially mitigated by weather hedges and weather normalization adjustments (\$15 million), increased economic activity across our footprint including the addition of approximately 36,000 customers (\$8 million) and increased miscellaneous revenues (\$7 million). These increases were partially offset by increased labor and support services costs (\$18 million), higher depreciation (\$9 million), higher bad debt expense (\$4 million), an increase in other taxes (\$5 million) and increased pipeline integrity work (\$6 million). Increased expense related to energy efficiency programs (\$8 million) and increased expense related to higher gross receipt taxes (\$7 million) were offset by the related revenues.

Energy Services

For information regarding factors that may affect the future results of operations of our Energy Services business segment, please read “Risk Factors — Risk Factors Affecting Our Natural Gas Distribution and Energy Services Businesses,” “— Risk Factors Associated with Our Consolidated Financial Condition” and “— Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our First Quarter Form 10-Q.

The following table provides summary data of our Energy Services business segment for the three and nine months ended September 30, 2014 and 2013 (in millions, except throughput and customer data):

	Three Months Ended		Nine Months Ended September	
	September 30,		30,	
	2014	2013	2014	2013
Revenues	\$604	\$520	\$2,364	\$1,745
Expenses:				
Natural gas	582	503	2,280	1,693
Operation and maintenance	14	13	36	35
Depreciation and amortization	2	2	4	4
Taxes other than income taxes	—	—	1	1
Total expenses	598	518	2,321	1,733
Operating Income	\$6	\$2	\$43	\$12
Throughput (in Bcf)	140	134	463	433
Number of customers at end of period	17,900	17,537	17,900	17,537

Three months ended September 30, 2014 compared to three months ended September 30, 2013

Our Energy Services business segment reported operating income of \$6 million for the three months ended September 30, 2014 compared to \$2 million for the three months ended September 30, 2013. The increase in operating income of \$4 million was primarily due to a \$13 million benefit resulting from mark-to-market accounting for derivatives associated with certain forward natural gas purchases and sales used to lock in economic margins compared to a benefit of \$6 million for the same period of 2013.

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013

Our Energy Services business segment reported operating income of \$43 million for the nine months ended September 30, 2014 compared to \$12 million for the nine months ended September 30, 2013. The increase in operating income of \$31 million was primarily due to \$15 million of improved margins resulting from optimization of existing gas transportation assets, reduced fixed costs, increased throughput and price volatility. The first nine months of 2014 included a \$23 million benefit resulting from mark-to-market accounting for derivatives associated with certain forward natural gas purchases and sales used to lock in economic margins compared to a benefit of \$7 million for the same period of 2013.

Table of Contents

Interstate Pipelines

For information regarding factors that may affect our historical Interstate Pipelines business segment, please read “Risk Factors — Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” and “ — Additional Risk Factors Affecting Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our First Quarter Form 10-Q.

The following table provides summary data of our historical Interstate Pipelines business segment for the three and nine months ended September 30, 2013 (in millions, except throughput data):

	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013 (1)
Revenues	\$—	\$186
Expenses:		
Natural gas	—	35
Operation and maintenance	—	51
Depreciation and amortization	—	20
Taxes other than income taxes	—	8
Total expenses	—	114
Operating Income	\$—	\$72
Equity in earnings of unconsolidated affiliates	\$—	7
Transportation throughput (in Bcf)	—	482

(1) Represents January 2013 through April 2013 results only.

Our Interstate Pipeline business segment reported operating income of \$-0- and \$72 million for the three and nine months ended September 30, 2013, respectively. Substantially all of this segment was contributed to Enable on May 1, 2013. As a result, the three and nine months ended September 30, 2014 are not comparable to the same periods in the prior year. Effective May 1, 2013, our equity method investment and related equity income in Enable are included in our Midstream Investments segment.

Equity Earnings. In addition, this business segment recorded equity income from its ownership in SESH, a jointly owned pipeline, of \$-0- and \$7 million for the three and nine months ended September 30, 2013, respectively. Beginning May 1, 2013, equity earnings related to our interest in SESH and Enable are reported as components of equity income in our Midstream Investments segment.

Field Services

For information regarding factors that may affect our historical Field Services business segment, please read “Risk Factors — Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” and “ — Additional Risk Factors Affecting Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our First Quarter Form 10-Q.

The following table provides summary data of our historical Field Services business segment for the three and nine months ended September 30, 2013 (in millions, except throughput data):

	Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013 (1)
Revenues	\$—	\$196
Expenses:		
Natural gas	—	54
Operation and maintenance	—	45
Depreciation and amortization	—	20
Taxes other than income taxes	—	4
Total expenses	—	123
Operating Income	\$—	\$73
Gathering throughput (in Bcf)	—	252

(1) Represents January 2013 through April 2013 results only.

Our Field Services business segment reported operating income of \$-0- and \$73 million for the three and nine months ended September 30, 2013, respectively. Substantially all of this segment was contributed to Enable on May 1, 2013. As a result, the three and nine months ended September 30, 2014 are not comparable to the same periods in the prior year. Effective May 1, 2013, our equity method investment and related equity income in Enable are included in our Midstream Investments segment.

Midstream Investments

For information regarding factors that may affect the future results of operations of our Midstream Investments business segment, please read “Risk Factors — Other Risk Factors Affecting Our Businesses or Our Interests in Enable Midstream Partners, LP” and “ — Additional Risk Factors Affecting Our Interests in Enable Midstream Partners, LP” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II of our First Quarter Form 10-Q.

The following table provides pre-tax equity income of our Midstream Investments business segment for the three and nine months ended September 30, 2014 and 2013 (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013 (1)
Enable	\$79	\$77	\$236	\$110
SESH	—	3	5	5
Total	\$79	\$80	\$241	\$115

(1) Represents our 58.3% limited partner interest in Enable and our 25.05% interest in SESH for the five months ended September 30, 2013.

Table of Contents

Other Operations

The following table shows the operating income (loss) of our Other Operations business segment for the three and nine months ended September 30, 2014 and 2013 (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,		
	2014	2013	2014	2013	
Revenues	\$4	\$4	\$11	\$10	
Expenses	1	6	6	25	
Operating Income (Loss)	\$3	\$(2) \$5	\$(15)

Three months ended September 30, 2014 compared to three months ended September 30, 2013

Our Other Operations business segment reported operating income of \$3 million for the three months ended September 30, 2014 compared to an operating loss of \$2 million for the three months ended September 30, 2013. The increase in operating income of \$5 million primarily resulted from decreased benefits expense (\$2 million) and decreased other operating costs (\$2 million).

Nine months ended September 30, 2014 compared to nine months ended September 30, 2013

Our Other Operations business segment reported operating income of \$5 million for the nine months ended September 30, 2014 compared to an operating loss of \$15 million for the nine months ended September 30, 2013. The increase in operating income of \$20 million primarily related to the costs associated with the formation of Enable in 2013 (\$12 million), decreased other operating costs (\$6 million) and decreased benefits expense (\$2 million).

CERTAIN FACTORS AFFECTING FUTURE EARNINGS

For information on other developments, factors and trends that may have an impact on our future earnings, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Certain Factors Affecting Future Earnings” in Item 7 of Part II of our 2013 Form 10-K, “Risk Factors” in Item 1A of Part I of our 2013 Form 10-K and Item 1A of Part II in our First Quarter Form 10-Q and “Cautionary Statement Regarding Forward-Looking Information” in this Form 10-Q.

LIQUIDITY AND CAPITAL RESOURCES

Historical Cash Flows

The following table summarizes the net cash provided by (used in) operating, investing and financing activities for the nine months ended September 30, 2014 and 2013:

	Nine Months Ended September 30,		
	2014	2013	
	(in millions)		
Cash provided by (used in):			
Operating activities	\$1,124	\$1,132	
Investing activities	(1,026) (926)
Financing activities	(76) (633)

Cash Provided by Operating Activities

Net cash provided by operating activities in the first nine months of 2014 decreased \$8 million compared to the same period in 2013 due primarily to decreased cash provided by fuel cost recovery (\$162 million) and increased cash paid for income taxes (\$80 million), which were partially offset by increased cash provided by net accounts receivable/payable (\$89 million), decreased cash paid for interest (\$56 million) and increased equity earnings, net of distributions (\$59 million).

Table of Contents

Cash Used in Investing Activities

Net cash used in investing activities in the first nine months of 2014 increased \$100 million compared to the same period in 2013 due primarily to increased capital expenditures (\$86 million), increased restricted cash (\$22 million) and decreased proceeds from the sale of marketable securities (\$9 million), which were partially offset by decreased contributions to Enable (\$38 million).

Cash Used in Financing Activities

Net cash used by financing activities in the first nine months of 2014 decreased \$557 million compared to the same period in 2013 primarily due to decreased payments of long-term debt (\$978 million) and increased net proceeds of commercial paper (\$72 million), which were partially offset by decreased proceeds from long-term debt (\$450 million) and increased payment of common stock dividends (\$39 million).

Future Sources and Uses of Cash

Our liquidity and capital requirements are affected primarily by our results of operations, capital expenditures, debt service requirements, tax payments and working capital needs. Substantially all of our capital expenditures are expected to be used for investment in infrastructure for our electric transmission and distribution operations, and our natural gas transmission and distribution operations. These capital expenditures relate to reliability, safety and system expansions. Our principal cash requirements for the remaining three months of 2014 include the following:

- capital expenditures of approximately \$393 million;
- scheduled principal payments on transition and system restoration bonds of \$60 million;
- contributions to pension plans aggregating approximately \$2 million; and
- dividend payments on CenterPoint Energy common stock and interest payments on debt.

We expect that invested cash, borrowings under our credit facilities, proceeds from commercial paper, anticipated cash flows from operations, and distributions from Enable will be sufficient to meet our anticipated cash needs for the remaining three months of 2014. Discretionary financing or refinancing may result in the issuance of equity or debt securities in the capital markets or the arrangement of additional credit facilities. Issuances of equity or debt in the capital markets and additional credit facilities may not, however, be available to us on acceptable terms.

Off-Balance Sheet Arrangements

Prior to the distribution of our ownership in Reliant Resources, Inc. (RRI) to our shareholders, CERC had guaranteed certain contractual obligations of what became RRI's trading subsidiary. When the companies separated, RRI agreed to secure CERC against obligations under the guarantees RRI had been unable to extinguish by the time of separation. Pursuant to such agreement, as amended in December 2007, RRI (now GenOn Energy, Inc. (GenOn)) agreed to provide to CERC cash or letters of credit as security against CERC's obligations under its remaining guarantees for demand charges under certain gas transportation agreements if and to the extent changes in market conditions expose CERC to a risk of loss on those guarantees based on an annual calculation, with any required collateral to be posted each December. The undiscounted maximum potential payout of the demand charges under these transportation contracts, which will be in effect until 2018, was approximately \$46 million as of September 30, 2014. Based on market conditions in the fourth quarter of 2014 at the time the most recent annual calculation was made under the agreement, GenOn was not obligated to post any security. If GenOn should fail to perform the

contractual obligations, CERC could have to honor its guarantee and, in such event, any collateral provided as security may be insufficient to satisfy CERC's obligations.

CenterPoint Energy has provided guarantees (CenterPoint Midstream Guarantees) with respect to the performance of certain obligations of Enable under long-term gas gathering and treating agreements with an indirect wholly owned subsidiary of Encana Corporation and an indirect wholly owned subsidiary of Royal Dutch Shell plc. As of September 30, 2014, CenterPoint Energy had guaranteed Enable's obligations up to an aggregate amount of \$100 million under these agreements. Under the terms of the omnibus agreement entered into in connection with the closing of the formation of Enable, Enable and CenterPoint Energy have agreed to use commercially reasonable efforts and cooperate with each other to terminate the CenterPoint Midstream Guarantees and to release CenterPoint Energy from such guarantees by causing Enable or one of its subsidiaries to enter into substitute guarantees or to assume the CenterPoint Midstream Guarantees as applicable.

Table of Contents

CERC Corp. has also provided a guarantee of collection of \$1.1 billion of Enable's senior notes due 2019 and 2024. This guarantee is subordinated to all senior debt of CERC Corp. and is subject to automatic release on May 1, 2016.

The fair value of these guarantees is not material. Other than the guarantees described above and operating leases, we have no off-balance sheet arrangements.

Regulatory Matters

Significant regulatory developments that have occurred since our Quarterly Report on Form 10-Q for the quarter ended June 30, 2014 was filed with the Securities and Exchange Commission (SEC) are discussed below.

CenterPoint Houston

2008 Energy Efficiency Cost Recovery Factor (EECRF) Appeal. In October 2009, the Public Utility Commission of Texas (Texas Utility Commission) issued an order disallowing recovery of a performance bonus of \$2 million on approximately \$10 million in 2008 energy efficiency costs expended pursuant to the terms of a settlement agreement in a prior rate case. CenterPoint Houston appealed the denial of the full 2008 performance bonus. CenterPoint Houston had also appealed similar orders by the Texas Utility Commission providing for the partial disallowance of performance bonuses totaling approximately \$5.5 million relating to CenterPoint Houston's 2009, 2010 and 2011 (only through August 2011) energy efficiency programs. These subsequent cases were abated pending the final outcome of the 2008 bonus appeal. In August 2013, the court of appeals reversed the Texas Utility Commission's decision disallowing such bonuses and in January 2014, the Texas Supreme Court declined to hear the Texas Utility Commission's appeal. As a result of the Texas Supreme Court's decision, in April 2014, four separate proceedings were initiated, which were later consolidated into one proceeding, at the Texas Utility Commission to determine the amount CenterPoint Houston is to recover. In May 2014, parties to the proceeding entered into a unanimous stipulation agreeing to the amount to be recovered but not to the customer class recovery allocation. The parties agreed that CenterPoint Houston is to recover \$7.5 million in performance bonus, \$0.2 million in rate case expenses associated with appeals of the proceedings and at least \$2.5 million in carrying costs, with final determination of carrying costs based on the timing of the decision regarding customer class recovery allocation. In August 2014, the Texas Utility Commission entered a final order approving \$10.4 million with no change regarding customer class recovery allocation. The rates became effective October 15, 2014. Starting September 2011, CenterPoint Houston's energy efficiency programs are no longer funded pursuant to the terms of the prior settlement, and performance bonus calculations subsequent to that date are not affected by the court's decision.

2014 EECRF. On May 30, 2014, CenterPoint Houston filed an application for approval of an adjustment to its EECRF for 2015. CenterPoint Houston's requested recovery is \$51.4 million composed of approximately: (1) \$39.1 million in estimated 2015 program costs; (2) a performance bonus for 2013 achievements of \$16.2 million; (3) \$0.9 million for 2015 evaluation, measurement and verification costs; (4) a credit of \$5.1 million for the over-recovery of 2013 program costs; and (5) \$0.2 million in rate case expenses from the 2013 EECRF proceeding. In September 2014, the parties signed a partial stipulation agreeing that CenterPoint Houston shall be allowed to recover the net of (1) \$39.1 million in estimated 2015 program costs; (2) a performance bonus for 2013 achievements of between \$15.8 million and \$16.2 million, depending on the outcome of the one remaining contested issue relating to a bonus calculation; (3) \$0.9 million for 2015 evaluation, measurement and verification costs; (4) a credit of \$5.1 million for the over-recovery of 2013 program costs; (5) \$0.2 million in rate case expenses from the 2013 EECRF proceeding; and (6) an adjustment of \$57,000 to exclude certain administrative costs. The Texas Utility Commission is expected to rule on the partial settlement and decide the remaining contested issue in the fourth quarter of 2014. Upon approval, the effective date of the rate adjustment will be March 1, 2015.

Brazos Valley Connection Project. In July 2013, CenterPoint Houston and other transmission service providers submitted analyses and transmission proposals to the Electric Reliability Council of Texas (ERCOT) for an additional transmission path into the Houston Region (Brazos Valley Connection, formerly referred to by CenterPoint Houston as the Houston Import Project). In April 2014, ERCOT's Board of Directors voted to endorse the Brazos Valley Connection and deemed the project critical for reliability. The project will consist of (i) construction of a new double-circuit 345 kilovolt (kV) line spanning 130 miles, (ii) upgrades to three substations to accommodate new connections and additional capacity, and (iii) improvements to approximately 11 miles of an existing 345 kV TH Wharton-Addicks transmission line to increase its rating. ERCOT deemed the approved project critical for reliability in the Houston region. Also in April 2014, ERCOT staff determined that CenterPoint Houston would be the designated transmission service provider for the portion of the project between our Zenith substation and the Gibbons Creek substation owned by the Texas Municipal Power Agency, consisting of approximately 60 miles of 345 kV transmission line, upgrades to the Limestone and Zenith substations and upgrades to 11 miles of the 345 kV TH Wharton-Addicks transmission line. Other transmission service providers were designated by ERCOT for the portion of the project from Gibbons Creek Substation to the Limestone Substation as well as the upgrades to the Gibbons Creek Substation. As the owner of the originating and terminating substations of the entire project, CenterPoint Houston appealed that determination to the Texas Utility Commission in May 2014

Table of Contents

and sought the right to construct, own, and maintain the entire project, except for necessary upgrades to the Gibbons Creek Substation. On October 17, 2014, the Texas Utility Commission filed an order that denied CenterPoint Houston's appeal and upheld the April 2014 ERCOT decision to split the project between CenterPoint Houston and other transmission service providers. As a result, CenterPoint Houston estimates that its portion of the capital costs will be \$300 million. ERCOT has estimated that the cost of the entire project will be approximately \$600 million. CenterPoint Houston anticipates that its portion of the Brazos Valley Connection project will be completed by mid-2018. Also in May 2014, several electric generators appealed the ERCOT Board of Directors' April 2014 approval of the project and the determination that the project was critical for reliability in the Houston region to the Texas Utility Commission. A hearing on the May 2014 appeal by the electric generators was held in October 2014, but the Texas Utility Commission has not yet ruled on the appeal.

Gas Operations

Minnesota Rate Proceeding. On August 2, 2013, our natural gas distribution business (Gas Operations) filed a general rate case in Minnesota to increase base rates by \$44.3 million (including the movement of a \$15 million energy efficiency rider into base rates), based on a rate base of \$700 million and return on equity (ROE) of 10.3%. In compliance with state law, Gas Operations implemented interim rates reflecting \$42.9 million dollars of the requested increase for gas used on and after October 1, 2013. This rate filing is intended to recover significant capital expenditures Gas Operations is making in Minnesota and included moving \$15 million of energy efficiency expenditures to base rates. Evidentiary hearings were held before an administrative law judge (ALJ) in January 2014. On April 9, 2014 the ALJ issued its findings of fact and recommendations, which support a \$31.6 million revenue increase based on a 9.59% ROE. In May 2014, the Minnesota Public Utility Commission (MPUC) entered an order approving a rate increase of \$33 million based on a 9.59% ROE and a 52.6% equity ratio. The MPUC also authorized the implementation of a three-year pilot revenue decoupling mechanism with an effective date of July 1, 2015. Gas Operations anticipates final rates will be implemented in the fourth quarter of 2014. Since the adopted revenue increase is less than the interim revenue increase, a refund to customers, which has been accrued, is anticipated in the fourth quarter of 2014.

Arkansas Government Mandated Expenditure Surcharge Rider (GMESR). On May 1, 2014, Gas Operations made a filing with the Arkansas Public Service Commission (APSC) requesting to increase revenue under its interim GMESR by an additional \$1.8 million. Interim rates were implemented upon filing and are subject to refund pending a final order from the APSC.

Louisiana Rate Stabilization Plan (RSP). Gas Operations made its 2014 Louisiana RSP filings with the Louisiana Public Service Commission on October 1, 2014. The North Louisiana Rider RSP filing shows a revenue deficiency of \$4.0 million, compared to the authorized return of 10.25%. The South Louisiana Rider RSP filing shows a revenue deficiency of \$2.3 million, compared to the authorized return of 10.5%. Gas Operations will begin billing the revised rates in December 2014 subject to refund.

Mississippi Rate Regulation Adjustment (RRA). On May 1, 2014, Gas Operations filed for a \$4.1 million RRA with an adjusted ROE of 9.27%. On August 5, 2014, the Mississippi Public Service Commission approved a joint stipulation for a revenue adjustment of \$2.8 million, which included an adjustment to amortize over three years \$0.5 million of expense incurred with the 2013 test year. New rates went into effect in September 2014.

Oklahoma Performance Based Rate Change (PBRC). In March 2014, Gas Operations made a PBRC filing for the 2013 calendar year proposing to increase revenues by \$1.5 million. On July 3, 2014, the Oklahoma Corporation Commission approved a joint stipulation by Gas Operations and the intervening parties resulting in a rate increase of \$0.3 million, which included an adjustment to amortize over five years \$1.5 million of expense incurred within the 2013 test year. New rates went into effect on July 3, 2014.

Table of Contents

Other Matters

Credit Facilities

On September 9, 2014, our revolving credit facility and the revolving credit facilities of CenterPoint Houston and CERC Corp. were amended to, among other things, extend the maturity date of the commitments under the credit facilities from September 9, 2018 to September 9, 2019. The amendments also reduced the swingline and letter of credit sub-facilities under each credit facility, with total commitments under each credit facility remaining unchanged. As of October 22, 2014, we had the following revolving credit facilities (in millions):

Date Executed	Company	Size of Facility	Amount Utilized at October 22, 2014 ⁽¹⁾	Termination Date
September 9, 2011	CenterPoint Energy	\$1,200	\$69 ⁽²⁾	September 9, 2019
September 9, 2011	CenterPoint Houston	300	4 ⁽³⁾	September 9, 2019
September 9, 2011	CERC Corp.	600	—	September 9, 2019

(1) Based on the consolidated debt to capitalization covenant in our revolving credit facility and the revolving credit facility of each of CenterPoint Houston and CERC Corp., we would have been permitted to utilize the full capacity of such revolving credit facilities, which aggregated \$2.1 billion at September 30, 2014.

(2) Includes \$63 million of commercial paper and \$6 million of outstanding letters of credit.

(3) Represents outstanding letters of credit.

Our \$1.2 billion revolving credit facility can be drawn at the London Interbank Offered Rate (LIBOR) plus 1.25% based on our current credit ratings. The revolving credit facility contains a financial covenant which limits our consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of our consolidated capitalization. The financial covenant limit will temporarily increase from 65% to 70% if CenterPoint Houston experiences damage from a natural disaster in its service territory and we certify to the administrative agent that CenterPoint Houston has incurred system restoration costs reasonably likely to exceed \$100 million in a consecutive twelve-month period, all or part of which CenterPoint Houston intends to seek to recover through securitization financing. Such temporary increase in the financial covenant would be in effect from the date we deliver our certification until the earliest to occur of (i) the completion of the securitization financing, (ii) the first anniversary of our certification or (iii) the revocation of such certification.

CenterPoint Houston's \$300 million revolving credit facility can be drawn at LIBOR plus 1.125% based on CenterPoint Houston's current credit ratings. The revolving credit facility contains a financial covenant which limits CenterPoint Houston's consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of CenterPoint Houston's consolidated capitalization.

CERC Corp.'s \$600 million revolving credit facility can be drawn at LIBOR plus 1.5% based on CERC Corp.'s current credit ratings. The revolving credit facility contains a financial covenant which limits CERC's consolidated debt to an amount not to exceed 65% of CERC's consolidated capitalization.

Borrowings under each of the three revolving credit facilities are subject to customary terms and conditions. However, there is no requirement that the borrower make representations prior to borrowings as to the absence of material adverse changes or litigation that could be expected to have a material adverse effect. Borrowings under each of the revolving credit facilities are subject to acceleration upon the occurrence of events of default that we consider customary. The revolving credit facilities also provide for customary fees, including commitment fees, administrative

agent fees, fees in respect of letters of credit and other fees. In each of the three revolving credit facilities, the spread to LIBOR and the commitment fees fluctuate based on the borrower's credit rating. The borrowers are currently in compliance with the various business and financial covenants in the three revolving credit facilities.

Our \$1.2 billion revolving credit facility backstops our \$1.0 billion commercial paper program. CERC Corp.'s \$600 million revolving credit facility backstops its \$600 million commercial paper program. As of September 30, 2014, there was \$190 million of commercial paper outstanding under our \$1.0 billion commercial paper program.

Table of Contents

Securities Registered with the SEC

CenterPoint Energy, CenterPoint Houston and CERC Corp. have filed a joint shelf registration statement with the SEC registering indeterminate principal amounts of CenterPoint Houston’s general mortgage bonds, CERC Corp.’s senior debt securities and CenterPoint Energy’s senior debt securities and junior subordinated debt securities and an indeterminate number of CenterPoint Energy’s shares of common stock, shares of preferred stock, as well as stock purchase contracts and equity units.

Temporary Investments

As of October 22, 2014, we had no temporary investments in money market funds.

Money Pool

We have a money pool through which the holding company and participating subsidiaries can borrow or invest on a short-term basis. Funding needs are aggregated and external borrowing or investing is based on the net cash position. The net funding requirements of the money pool are expected to be met with borrowings under our revolving credit facility or the sale of our commercial paper.

Impact on Liquidity of a Downgrade in Credit Ratings

The interest on borrowings under our credit facilities is based on our credit rating. As of October 22, 2014, Moody’s Investors Service, Inc. (Moody’s), Standard & Poor’s Ratings Services (S&P), a division of The McGraw-Hill Companies, and Fitch, Inc. (Fitch) had assigned the following credit ratings to senior debt of CenterPoint Energy and certain subsidiaries:

Company/Instrument	Moody’s		S&P		Fitch	
	Rating	Outlook (1)	Rating	Outlook (2)	Rating	Outlook (3)
CenterPoint Energy Senior Unsecured Debt	Baa1	Stable	BBB+	Stable	BBB	Stable
CenterPoint Houston Senior Secured Debt	A1	Stable	A	Stable	A	Stable
CERC Corp. Senior Unsecured Debt	Baa2	Stable	A-	Stable	BBB	Stable

(1) A Moody’s rating outlook is an opinion regarding the likely direction of an issuer’s rating over the medium term.

(2) An S&P rating outlook assesses the potential direction of a long-term credit rating over the intermediate to longer term.

(3) A Fitch rating outlook indicates the direction a rating is likely to move over a one- to two-year period.

We cannot assure you that the ratings set forth above will remain in effect for any given period of time or that one or more of these ratings will not be lowered or withdrawn entirely by a rating agency. We note that these credit ratings are included for informational purposes and are not recommendations to buy, sell or hold our securities and may be revised or withdrawn at any time by the rating agency. Each rating should be evaluated independently of any other rating. Any future reduction or withdrawal of one or more of our credit ratings could have a material adverse impact on our ability to obtain short- and long-term financing, the cost of such financings and the execution of our commercial strategies.

A decline in credit ratings could increase borrowing costs under our \$1.2 billion revolving credit facility, CenterPoint Houston's \$300 million revolving credit facility and CERC Corp.'s \$600 million revolving credit facility. If our credit ratings or those of CenterPoint Houston or CERC Corp. had been downgraded one notch by each of the three principal credit rating agencies from the ratings that existed at September 30, 2014, the impact on the borrowing costs under the three revolving credit facilities would have been immaterial. A decline in credit ratings would also increase the interest rate on long-term debt to be issued in the capital markets and could negatively impact our ability to complete capital market transactions and to access the commercial paper market. Additionally, a decline in credit ratings could increase cash collateral requirements and reduce earnings of our Natural Gas Distribution and Energy Services business segments.

CERC Corp. and its subsidiaries purchase natural gas from one of their suppliers under supply agreements that contain an aggregate credit threshold of \$140 million based on CERC Corp.'s S&P senior unsecured long-term debt rating of A-. Under these

Table of Contents

agreements, CERC may need to provide collateral if the aggregate threshold is exceeded or if the S&P senior unsecured long-term debt rating is downgraded below BBB+.

CenterPoint Energy Services, Inc. (CES), a wholly owned subsidiary of CERC Corp. operating in our Energy Services business segment, provides natural gas sales and services primarily to commercial and industrial customers and electric and gas utilities throughout the central and eastern United States. In order to economically hedge its exposure to natural gas prices, CES uses derivatives with provisions standard for the industry, including those pertaining to credit thresholds. Typically, the credit threshold negotiated with each counterparty defines the amount of unsecured credit that such counterparty will extend to CES. To the extent that the credit exposure that a counterparty has to CES at a particular time does not exceed that credit threshold, CES is not obligated to provide collateral. Mark-to-market exposure in excess of the credit threshold is routinely collateralized by CES. As of September 30, 2014, the amount posted as collateral aggregated approximately \$18 million. Should the credit ratings of CERC Corp. (as the credit support provider for CES) fall below certain levels, CES would be required to provide additional collateral up to the amount of its previously unsecured credit limit. We estimate that as of September 30, 2014, unsecured credit limits extended to CES by counterparties aggregated \$308 million, and less than \$1 million of such amount was utilized.

Pipeline tariffs and contracts typically provide that if the credit ratings of a shipper or the shipper's guarantor drop below a threshold level, which is generally investment grade ratings from both Moody's and S&P, cash or other collateral may be demanded from the shipper in an amount equal to the sum of three months' charges for pipeline services plus the unrecouped cost of any lateral built for such shipper. If the credit ratings of CERC Corp. decline below the applicable threshold levels, CERC Corp. might need to provide cash or other collateral of as much as \$161 million as of September 30, 2014. The amount of collateral will depend on seasonal variations in transportation levels.

In September 1999, we issued Zero-Premium Exchangeable Subordinated Notes due 2029 (ZENS) having an original principal amount of \$1.0 billion of which \$828 million remains outstanding at September 30, 2014. Each ZENS note was originally exchangeable at the holder's option at any time for an amount of cash equal to 95% of the market value of the reference shares of Time Warner Inc. common stock (TW Common) attributable to such note. The number and identity of the reference shares attributable to each ZENS note are adjusted for certain corporate events. On June 6, 2014, Time Warner Inc. spun off its ownership of Time Inc. by distributing one share of Time Inc. common stock (Time Common) for every eight shares of TW Common held on the May 23, 2014 record date. As of September 30, 2014, the reference shares for each ZENS note consisted of 0.5 share of TW Common, 0.125505 share of Time Warner Cable Inc. (TWC) common stock (TWC Common), 0.045455 share of AOL Inc. common stock (AOL Common) and 0.0625 share of Time Common. On February 13, 2014, TWC announced that it had agreed to merge with Comcast Corporation (Comcast). In the merger, each share of TWC Common would be exchanged for 2.875 shares of Comcast common stock (Comcast Common). Upon the closing of the merger (assuming no change in the merger consideration), the reference shares for each ZENS note would include 0.360827 share of Comcast Common in place of the current 0.125505 share of TWC Common. If our creditworthiness were to drop such that ZENS note holders thought our liquidity was adversely affected or the market for the ZENS notes were to become illiquid, some ZENS note holders might decide to exchange their ZENS notes for cash. Funds for the payment of cash upon exchange could be obtained from the sale of the shares of TW Common, TWC Common, AOL Common and Time Common that we own or from other sources. We own shares of TW Common, TWC Common, AOL Common and Time Common equal to approximately 100% of the reference shares used to calculate our obligation to the holders of the ZENS notes. ZENS note exchanges result in a cash outflow because tax deferrals related to the ZENS notes and TW Common, TWC Common, AOL Common and Time Common shares would typically cease when ZENS notes are exchanged or otherwise retired and TW Common, TWC Common, AOL Common and Time Common shares are sold. The ultimate tax liability related to the ZENS notes continues to increase by the amount of the tax benefit realized each year, and there could be a significant cash outflow when the taxes are paid as a result of the retirement of the

ZENS notes. If all ZENS notes had been exchanged for cash on September 30, 2014, deferred taxes of approximately \$362 million would have been payable in 2014. If all the TW Common, TWC Common, AOL Common and Time Common had been sold on September 30, 2014, capital gains taxes of approximately \$247 million would have been payable in 2014.

Cross Defaults

Under our revolving credit facility, a payment default on, or a non-payment default that permits acceleration of, any indebtedness exceeding \$75 million by us or any of our significant subsidiaries will cause a default. In addition, three outstanding series of our senior notes, aggregating \$750 million in principal amount as of September 30, 2014, provide that a payment default by us, CERC Corp. or CenterPoint Houston in respect of, or an acceleration of, borrowed money and certain other specified types of obligations, in the aggregate principal amount of \$50 million, will cause a default. A default by CenterPoint Energy would not trigger a default under our subsidiaries' debt instruments or revolving credit facilities.

Table of Contents

Possible Acquisitions, Divestitures and Joint Ventures

From time to time, we consider the acquisition or the disposition of assets or businesses or possible joint ventures or other joint ownership arrangements with respect to assets or businesses. Any determination to take action in this regard will be based on market conditions and opportunities existing at the time, and accordingly, the timing, size or success of any efforts and the associated potential capital commitments are unpredictable. We may seek to fund all or part of any such efforts with proceeds from debt and/or equity issuances. Debt or equity financing may not, however, be available to us at that time due to a variety of events, including, among others, maintenance of our credit ratings, industry conditions, general economic conditions, market conditions and market perceptions.

Enable Midstream Partners

Certain of the entities contributed to Enable by CERC Corp. are obligated on approximately \$363 million of indebtedness owed to a wholly owned subsidiary of CERC Corp. that is scheduled to mature in 2017.

Following its IPO in April 2014, Enable is expected to pay a minimum quarterly distribution of \$0.2875 per unit on its outstanding units to the extent it has sufficient cash from operations after establishment of cash reserves and payment of fees and expenses, including payments to its general partner and its affiliates (referred to as “available cash”) within 45 days after the end of each quarter. On October 24, 2014, Enable declared a quarterly cash distribution of \$0.3025 per unit on all of its outstanding common and subordinated units for the quarter ended September 30, 2014. Accordingly, CERC Corp. expects to receive a cash distribution of approximately \$71 million from Enable in the fourth quarter of 2014 to be made with respect to CERC Corp.'s limited partner interest in Enable for the third quarter of 2014.

Dodd-Frank Swaps Regulation

We use derivative instruments such as physical forward contracts, swaps and options to mitigate the impact of changes in commodity prices and weather on our operating results and cash flows. Following enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) in July 2010, the Commodity Futures Trading Commission (CFTC) has promulgated regulations to implement Dodd-Frank's changes to the Commodity Exchange Act, including the definition of commodity-based swaps subject to those regulations. The CFTC regulations are intended to implement new reporting and record keeping requirements related to their swap transactions and a mandatory clearing and exchange-execution regime for various types, categories or classes of swaps, subject to certain exemptions, including the trade-option and end-user exemptions. Although we anticipate that most, if not all, of our swap transactions should qualify for an exemption to the clearing and exchange-execution requirements, we will still be subject to record keeping and reporting requirements. Other changes to the Commodity Exchange Act made as a result of Dodd-Frank and the CFTC's implementing regulations could increase the cost of entering into new swaps.

Other Factors that Could Affect Cash Requirements

In addition to the above factors, our liquidity and capital resources could be affected by:

cash collateral requirements that could exist in connection with certain contracts, including our weather hedging arrangements, and gas purchases, gas price and gas storage activities of our Natural Gas Distribution and Energy Services business segments;

acceleration of payment dates on certain gas supply contracts, under certain circumstances, as a result of increased gas prices and concentration of natural gas suppliers;

- increased costs related to the acquisition of natural gas;
- increases in interest expense in connection with debt refinancings and borrowings under credit facilities;
- various legislative or regulatory actions;
- incremental collateral, if any, that may be required due to regulation of derivatives;
- the ability of GenOn and its subsidiaries to satisfy their obligations in respect of GenOn's indemnity obligations to us and our subsidiaries;

Table of Contents

- the ability of retail electric providers (REPs), including REP affiliates of NRG Energy, Inc., Energy Future Holdings Corp. and Just Energy Group, Inc., to satisfy their obligations to us and our subsidiaries;
- slower customer payments and increased write-offs of receivables due to higher gas prices or changing economic conditions;
- the outcome of litigation brought by and against us;
- contributions to pension and postretirement benefit plans;
- restoration costs and revenue losses resulting from future natural disasters such as hurricanes and the timing of recovery of such restoration costs; and
- various other risks identified in “Risk Factors” in Item 1A of Part I of our 2013 Form 10-K and in Item 1A of Part II of our First Quarter Form 10-Q.

Certain Contractual Limits on Our Ability to Issue Securities and Borrow Money

CenterPoint Houston’s revolving credit facility limits CenterPoint Houston’s consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of its consolidated capitalization. CERC Corp.’s revolving credit facility limits CERC’s consolidated debt to an amount not to exceed 65% of its consolidated capitalization. Our revolving credit facility limits our consolidated debt (excluding transition and system restoration bonds) to an amount not to exceed 65% of our consolidated capitalization. The financial covenant limit in our revolving credit facility will temporarily increase from 65% to 70% if CenterPoint Houston experiences damage from a natural disaster in its service territory that meets certain criteria. Additionally, CenterPoint Houston has contractually agreed that it will not issue additional first mortgage bonds, subject to certain exceptions.

NEW ACCOUNTING PRONOUNCEMENTS

See Note 2 to our Interim Condensed Consolidated Financial Statements for a discussion of new accounting pronouncements that affect us.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price Risk From Non-Trading Activities

We use derivative instruments as economic hedges to offset the commodity price exposure inherent in our businesses. The stand-alone commodity risk created by these instruments, without regard to the offsetting effect of the underlying exposure these instruments are intended to hedge, is described below. We measure the commodity risk of our non-trading energy derivatives using a sensitivity analysis. The sensitivity analysis performed on our non-trading energy derivatives measures the potential loss in fair value based on a hypothetical 10% movement in energy prices. At September 30, 2014, the recorded fair value of our non-trading energy derivatives was a net asset of \$38 million (before collateral), all of which is related to our Energy Services business segment. An increase of 10% in the market prices of energy commodities from their September 30, 2014 levels would have decreased the fair value of our non-trading energy derivatives net asset by \$8 million.

The above analysis of the non-trading energy derivatives utilized for commodity price risk management purposes does not include the favorable impact that the same hypothetical price movement would have on our non-derivative physical purchases and sales of natural gas to which the hedges relate. Furthermore, the non-trading energy derivative

portfolio is managed to complement the physical transaction portfolio, reducing overall risks within limits. Therefore, the adverse impact to the fair value of the portfolio of non-trading energy derivatives held for hedging purposes associated with the hypothetical changes in commodity prices referenced above is expected to be substantially offset by a favorable impact on the underlying hedged physical transactions.

Interest Rate Risk

As of September 30, 2014, we had outstanding long-term debt, bank loans, lease obligations and obligations under our ZENS (indexed debt securities) that subject us to the risk of loss associated with movements in market interest rates.

At September 30, 2014 and December 31, 2013, our floating-rate obligations aggregated \$190 million and \$118 million, respectively.

Table of Contents

At September 30, 2014 and December 31, 2013, we had outstanding fixed-rate debt (excluding indexed debt securities) aggregating \$8.2 billion and \$8.1 billion, respectively, in carrying amount and having a fair value of \$8.9 billion and \$8.6 billion, respectively. Because these instruments are fixed-rate, they do not expose us to the risk of loss in earnings due to changes in market interest rates. However, the fair value of these instruments would increase by approximately \$238 million if interest rates were to decline by 10% from their levels at September 30, 2014. In general, such an increase in fair value would impact earnings and cash flows only if we were to reacquire all or a portion of these instruments in the open market prior to their maturity.

The ZENS obligation is bifurcated into a debt component and a derivative component. The debt component of \$149 million at September 30, 2014 was a fixed-rate obligation and, therefore, did not expose us to the risk of loss in earnings due to changes in market interest rates. However, the fair value of the debt component would increase by approximately \$25 million if interest rates were to decline by 10% from levels at September 30, 2014. Changes in the fair value of the derivative component, a liability recorded at \$483 million at September 30, 2014, are recorded in our Condensed Statements of Consolidated Income and, therefore, we are exposed to changes in the fair value of the derivative component as a result of changes in the risk-free interest rate. If the risk-free interest rate were to increase by 10% from September 30, 2014 levels, the fair value of the derivative component would increase by approximately \$10 million, which would be recorded as an unrealized loss in our Condensed Statements of Consolidated Income.

Equity Market Value Risk

We are exposed to equity market value risk through our ownership of 7.1 million shares of TW Common, 1.8 million shares of TWC Common, 0.6 million shares of AOL Common and 0.9 million shares of Time Common, which we hold to facilitate our ability to meet our obligations under the ZENS. A decrease of 10% from the September 30, 2014 aggregate market value of these shares would result in a net loss of approximately \$13 million, which would be recorded as an unrealized loss in our Condensed Statements of Consolidated Income.

Item 4. CONTROLS AND PROCEDURES

On May 14, 2013, the Committee of Sponsoring Organizations of the Treadway Commission (COSO) issued an updated version of its Internal Control - Integrated Framework (2013 Framework). Originally issued in 1992 (1992 Framework), the framework helps organizations design, implement and evaluate the effectiveness of internal control concepts and simplify their use and application. The 1992 Framework remains available during the transition period, which extends to December 15, 2014, after which time COSO will consider it as superseded by the 2013 Framework. As of September 30, 2014, we continue to utilize the 1992 Framework and will transition to the 2013 Framework by the end of 2014.

In accordance with Exchange Act Rules 13a-15 and 15d-15, we carried out an evaluation, under the supervision and with the participation of management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of September 30, 2014 to provide assurance that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

There has been no change in our internal controls over financial reporting that occurred during the three months ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal controls over

financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

For a description of certain legal and regulatory proceedings affecting CenterPoint Energy, please read Note 12(b) to our Interim Condensed Financial Statements and "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Future Sources and Uses of Cash" and "— Regulatory Matters," each of which is incorporated herein by reference. See also "Business — Regulation" and "— Environmental Matters" in Item 1 and "Legal Proceedings" in Item 3 of our 2013 Form 10-K.

Item 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in our 2013 Form 10-K and First Quarter Form 10-Q.

Item 5. OTHER INFORMATION

Ratio of Earnings to Fixed Charges. The ratio of earnings to fixed charges for the nine months ended September 30, 2014 and 2013 was 2.83 and 2.39, respectively. We do not believe that the ratios for these nine-month periods are necessarily indicative of the ratios for the twelve-month periods due to the seasonal nature of our business. The ratios were calculated pursuant to applicable rules of the Securities and Exchange Commission.

Table of Contents

Item 6. EXHIBITS

The following exhibits are filed herewith:

Exhibits not incorporated by reference to a prior filing are designated by a cross (+); all exhibits not so designated are incorporated by reference to a prior filing as indicated.

Agreements included as exhibits are included only to provide information to investors regarding their terms. Agreements listed below may contain representations, warranties and other provisions that were made, among other things, to provide the parties thereto with specified rights and obligations and to allocate risk among them, and no such agreement should be relied upon as constituting or providing any factual disclosures about CenterPoint Energy, Inc., any other persons, any state of affairs or other matters.

Pursuant to Item 601(b)(4)(iii)(A) of Regulation S-K, CenterPoint Energy has not filed as exhibits to this Form 10-Q certain long-term debt instruments, including indentures, under which the total amount of securities authorized does not exceed 10% of the total assets of CenterPoint Energy and its subsidiaries on a consolidated basis. CenterPoint Energy hereby agrees to furnish a copy of any such instrument to the SEC upon request.

Exhibit Number	Description	Report or Registration Statement	SEC File or Registration Number	Exhibit Reference

Index to Exhibits

The following exhibits are filed herewith:

Exhibits not incorporated by reference to a prior filing are designated by a cross (+); all exhibits not so designated are incorporated by reference to a prior filing as indicated.

Agreements included as exhibits are included only to provide information to investors regarding their terms. Agreements listed below may contain representations, warranties and other provisions that were made, among other things, to provide the parties thereto with specified rights and obligations and to allocate risk among them, and no such agreement should be relied upon as constituting or providing any factual disclosures about CenterPoint Energy, Inc., any other persons, any state of affairs or other matters.

Pursuant to Item 601(b)(4)(iii)(A) of Regulation S-K, CenterPoint Energy has not filed as exhibits to this Form 10-Q certain long-term debt instruments, including indentures, under which the total amount of securities authorized does not exceed 10% of the total assets of CenterPoint Energy and its subsidiaries on a consolidated basis. CenterPoint Energy hereby agrees to furnish a copy of any such instrument to the SEC upon request.
