Notes to Condensed Consolidated Financial Statements
June 30, 2014
(Unaudited)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tiger X Medical, Inc. ("Tiger X" or the "Company"), formerly known as Cardo Medical, Inc., a corporation organized and existing under and by the virtue of the General Corporation Law of the State of Delaware, previously operated as an orthopedic medical device company specializing in designing, developing and marketing high performance reconstructive joint devices and spinal surgical devices.

During 2010, the Company discontinued its operations and sold the assets from its previous business lines during 2011. Our continuing operations include the collection and management of our royalty income earned in connection with the Asset Purchase Agreement with Arthrex, Inc. ("Arthrex"). We continue to advance and promote our former knee product lines through participation in mobile teaching labs, seminars and live surgery. The Company is constantly evaluating opportunities for a suitable joint venture partner or buyer for the remaining intellectual property owned by the Company. The Company is also evaluating investment opportunities and uses for its cash.

Basis of Presentation

The accompanying condensed consolidated balance sheet as of December 31, 2013, which has been derived from the Company's audited financial statements as of that date, and the unaudited condensed consolidated financial information of the Company as of June 30, 2014 and for the three and six months ended June 30, 2014 and 2013, has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X. In the opinion of management, such financial information includes all adjustments considered necessary for a fair presentation of the Company's financial position at such date and the operating results and cash flows for such periods. Operating results for the interim period ended June 30, 2014 are not necessarily indicative of the results that may be expected for the entire year.

Certain information and footnote disclosure normally included in financial statements in accordance with generally accepted accounting principles have been omitted pursuant to the rules of the United States Securities and Exchange Commission ("SEC"). These unaudited financial statements should be read in conjunction with our audited financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 filed on March 24, 2014.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of Tiger X Medical, Inc., Accelerated Innovation, Inc. ("Accelerated"), Uni-Knee LLC ("Uni") and Cervical Xpand LLC ("Cervical"). All significant intercompany transactions have been eliminated in consolidation.

Royalty Agreement

On January 24, 2011, the Company entered into an Asset Purchase Agreement with Arthrex (the agreement being the "Arthrex Asset Purchase Agreement"), pursuant to which the Company agreed to sell the assets of the Reconstructive Division to Arthrex. The Arthrex Asset Purchase Agreement also provides for the Company to receive royalty payments equal to 5% of net sales of the Company's products made by Arthrex on a quarterly basis for a term up to and including the 20th anniversary of the closing date. During the three months ended June 30, 2014 and 2013, the Company received total royalty payments of \$105,000 and \$69,000, respectively, from Arthrex. During the six

months ended June 30, 2014 and 2013, the Company received total royalty payments of \$203,000 and \$107,000, respectively, from Arthrex.

These amounts are reflected as royalty income on the accompanying condensed consolidated statements of operations.

Use of Estimates

Financial statements prepared in accordance with U.S. GAAP require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among other things, management makes estimates relating to share-based payments and deferred income tax assets. Actual results could differ from those estimates.

Revenue Recognition

The Company's revenue consists of royalty income from Arthrex pursuant to the Arthrex Asset Purchase Agreement. Royalty income is recognized as the amount becomes known and collectability is reasonably assured.

Net Income (Loss) Per Share

Basic net income (loss) per share is computed by using the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per share is computed giving effect to all dilutive potential common shares using various methods such as the treasury stock or modified treasury stock method in the determination of diluted shares outstanding at each reporting period. Dilutive potential common shares consist of incremental common shares issuable upon exercise of stock options or warrants. No dilutive potential common shares are included in the computation of any diluted per share amount because their impact was anti-dilutive.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The likelihood of realizing the tax benefits related to a potential deferred tax asset is evaluated, and a valuation allowance is recognized to reduce that deferred tax asset if it is more likely than not that all or some portion of the deferred tax asset will not be realized. Deferred tax assets and liabilities are calculated at the beginning and end of the year; the change in the sum of the deferred tax asset, valuation allowance and deferred tax liability during the year generally is recognized as a deferred tax expense or benefit. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

The Company evaluates the accounting for uncertainty in income tax recognized in its financial statements and determines whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit is recorded in its financial statements. For those tax positions where it is "not more likely than not" that a tax benefit will be sustained, no tax benefit is recognized. Where applicable, associated interest and penalties are also recorded. The Company has not accrued for any such uncertain tax positions as of June 30, 2014 (unaudited) or December 31, 2013.

Concentration of Credit Risk

The cash and cash equivalents held in the Company's business money market and other bank accounts are with local and national banking institutions and subjected to FDIC insurance limits of \$250,000 per banking institution. As of June 30, 2014, the Company's balances in these bank accounts exceeded the insured amount by \$13,154,000.

Recent Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-10, *Development Stage Entities (Topic 915)*. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of inception-to-date information on the statements of operations, cash flows and stockholders' equity. ASU 2014-10 is effective prospectively for annual reporting periods beginning after December 15, 2014, and interim periods within those annual periods, however early adoption is permitted. The Company has elected to early adopt the provisions of ASU 2014-10 and has removed the related disclosures in the accompanying condensed consolidated financial statements and notes.

NOTE 2 - SHARE BASED PAYMENT

The Company has outstanding stock options issued to employees and Board members which are exercisable at \$0.23 per share. The options vest 20% each year over a five year period and expire after ten years. As of June 30, 2014, there were no unvested options. Stock option compensation recognized for the six months ended June 30, 2014 and 2013 in the accompanying condensed consolidated statements of operations amounted to \$0 and \$1,000, respectively.

A summary of stock option activity as of June 30, 2014, and changes during the period then ended is presented below.

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2013	385,000	\$ 0.23	4.66	\$ -
Granted	-	-	-	-
Exercised	-	-	-	-
Forfeited	-	-	-	-
Outstanding at June 30, 2014 (unaudited)	385,000	\$ 0.23	4.17	\$ -
Vested and expected to vest at June 30, 2014 (unaudited)	385,000	\$ 0.23	4.17	\$ -
Exercisable at June 30, 2014 (unaudited)	385,000	\$ 0.23	4.17	\$ -

The Company had 575,613 warrants outstanding as of June 30, 2014 which entitle the holders to immediately purchase one share of the Company's common stock at an exercise price of \$0.44 per share. The warrants expire on November 13, 2014.

NOTE 3 - STOCKHOLDERS' EQUITY

Our authorized capital consists of 750,000,000 shares of common stock and 50,000,000 shares of preferred stock. Our preferred stock may be designated into series pursuant to authority granted by our Certificate of Incorporation, and on approval from our Board of Directors. As of June 30, 2014 and December 31, 2013, we did not have any preferred stock issued.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which we have prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements, as well as the reported revenues and expenses during the reporting periods. On an ongoing basis, we evaluate estimates and judgments, including those described in greater detail below. We base our estimates on historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

As used in this "Management's Discussion and Analysis of Financial Condition and Results of Operation," except where the context otherwise requires, the term "we," "us," "our" or "Tiger X" refers to the business of Tiger X Medical, Inc.

The following discussion should be read together with the information contained in the unaudited condensed consolidated financial statements and related notes included in Item 1, "Financial Statements," in this Form 10-Q.

Overview

Tiger X Medical, Inc. ("Tiger X" or the "Company"), formerly known as Cardo Medical, Inc., previously operated as an orthopedic medical device company specializing in designing, developing and marketing high performance reconstructive joint devices and spinal surgical devices. During 2010, the Company discontinued its operations and sold the assets from its previous business lines during 2011. Our continuing operations include the collection and management of our royalty income earned in connection with the Asset Purchase Agreement with Arthrex. We continue to advance and promote our former knee product lines through participation in mobile teaching labs, seminars and live surgery. The Company is constantly evaluating opportunities for a suitable joint venture partner or buyer for the remaining intellectual property owned by the Company. The Company is also evaluating investment opportunities and uses for its cash.

We are headquartered in Los Angeles, California. Our common stock is quoted on the National Association of Securities Dealers, Inc.'s, Over-the-Counter Bulletin Board, or the OTC Bulletin Board with a trading symbol of CDOM.OB.

Critical Accounting Policies

Use of Estimates

Financial statements prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among other things, management makes estimates relating to share-based payments, and deferred income tax assets. Given the short operating history of Tiger X, actual results could differ from those estimates.

Royalty Agreement

On January 24, 2011, the Company entered into an Asset Purchase Agreement with Arthrex (the agreement being the "Arthrex Asset Purchase Agreement"), pursuant to which the Company agreed to sell the assets of the Reconstructive Division to Arthrex. The Arthrex Asset Purchase Agreement also provides for the Company to receive royalty payments equal to 5% of net sales of the Company's products made by Arthrex on a quarterly basis for a term up to and including the 20th anniversary of the closing date. During the three months ended June 30, 2014 and 2013, the Company received total royalty payments of \$105,000 and \$69,000, respectively, from Arthrex. During the six months ended June 30, 2014 and 2013, the Company received total royalty payments of \$203,000 and \$107,000, respectively, from Arthrex.

These amounts are reflected as royalty income on the accompanying condensed consolidated statements of operations.

Revenue Recognition

The Company's revenue consists of royalty income from Arthrex pursuant to the Arthrex Asset Purchase Agreement. Revenue is recognized as the amount becomes known and collectability is reasonably assured.

Recent Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-10, *Development Stage Entities (Topic 915)*. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of inception-to-date information on the statements of operations, cash flows and stockholders' equity. ASU 2014-10 is effective prospectively for annual reporting periods beginning after December 15, 2014, and interim periods within those annual periods, however early adoption is permitted. The Company has elected to early adopt the provisions of ASU 2014-10 and has removed the related disclosures in the accompanying condensed consolidated financial statements and notes.

Results of Operations for the Three Months Ended June 30, 2014 as Compared to the Three Months Ended June 30, 2013.

The following is a comparison of the condensed consolidated results of operations for Tiger X for the three months ended June 30, 2014 and 2013.

(In thousands)	Three Months Ended June 30,		Change
	2014	2013	
Royalty income	\$ 105	\$ 69	\$ 36
General and administrative expenses	40	63	(23)
Income from operations	65	6	59
Interest income	1	3	(2)
Income before income tax provision	66	9	57
Provision for income taxes	-	-	-
Net income	\$ 66	\$ 9	\$ 57
	8		

Royalty income

Royalty income amounted to \$105,000 for the quarter ended June 30, 2014 as compared to \$69,000 for the quarter ended June 30, 2013. Revenues represented royalties received from Arthrex in connection with the Arthrex Asset Purchase Agreement. The increase during 2014 is the result of Arthrex's increased sales of the acquired product line. Until we find a joint venture partner or buyer for our remaining intellectual property or find an investment opportunity for our existing cash, we expect our primary source of revenue to be royalty payments under the Arthrex Asset Purchase Agreement.

General and Administrative Expenses

General and administrative expenses for the quarter ended June 30, 2014 decreased by \$23,000 as compared to the same period in 2013 due primarily to higher professional fees incurred during the quarter ended June 30, 2013. General and administrative expenses primarily represent our continuing operating expenses, including business insurance expense and professional fees such as legal, accounting and audit services. In the future, we expect our general and administrative expenses to remain at the same level as 2014.

Interest Income

Our interest income remained consistent for to the quarters ended June 30, 2014 and 2013 due to our cash levels remaining consistent. We had no interest expense in 2014 or 2013, as there was no debt outstanding during this timeframe.

Results of Operations for the Six Months Ended June 30, 2014 as Compared to the Six Months Ended June 30, 2013.

The following is a comparison of the condensed consolidated results of operations for Tiger X for the six months ended June 30, 2014 and 2013.

(In thousands)	Six Months Ended June 30,		Change
	2014	2013	
Royalty income	\$ 203	\$ 107	\$ 96
General and administrative expenses	75	127	(52)
Income (loss) from operations	128	(20)	148
Interest income	2	4	(2)
Income (loss) before income tax provision	130	(16)	146
Provision for income taxes	-	-	-
Net income (loss)	\$ 130	\$ (16)	\$ 146

Royalty income

Royalty income amounted to \$203,000 for the six months ended June 30, 2014 as compared to \$107,000 for the six months ended June 30, 2013. Revenues represented royalties received from Arthrex in connection with the Arthrex Asset Purchase Agreement. The increase during 2014 is the result of Arthrex's increased sales of the acquired product line. Until we find a joint venture partner or buyer for our remaining intellectual property or find an investment opportunity for our existing cash, we expect our primary source of revenue to be royalty payments under the Arthrex Asset Purchase Agreement.

General and Administrative Expenses

General and administrative expenses for the six months ended June 30, 2014 decreased by \$52,000 as compared to the same period in 2013 due primarily to increased business taxes paid and higher professional fees incurred during the six months ended June 30, 2013. General and administrative expenses primarily represent our continuing operating expenses, including business insurance expense and professional fees such as legal, accounting and audit services. In the future, we expect our general and administrative expenses to remain at the same level as 2014.

Interest Income

Our interest income remained consistent for to the six months ended June 30, 2014 and 2013 due to our cash levels remaining consistent. We had no interest expense in 2014 or 2013, as there was no debt outstanding during this timeframe.

Liquidity and Capital Resources

Net cash provided by operating activities was \$106,000 for the six months ended June 30, 2014 compared to net cash provided by operating activities of \$1,000 for the same period in 2013. The change between the six month period in 2014 compared to 2013 was primarily due to an increase in our royalty revenue for the six months ended June 30, 2014 of \$96,000 as compared to 2013.

We had no cash flows from investing or financing activities during the six months ended June 30, 2014 or 2013.

We believe our cash and cash equivalents as of June 30, 2014 are adequate to meet our cash needs for the next twelve months and beyond.

Forward-Looking Statements

Some of the statements in this Quarterly Report on Form 10-Q are "forward-looking statements," as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "may," "will," "should," "anticipate," "estimate," "expect," "plan," "believe," "predict," "potential," "project," "target," "forecast," "intend," "assume," "guide," "seek" and similar expressions. Forward-looking statements do not relate strictly to historical or current matters. Rather, forward- looking statements are predictive in nature and may depend upon or refer to future events, activities or conditions. Although we believe that these statements are based upon reasonable assumptions, we cannot provide any assurances regarding future results. We undertake no obligation to revise or update any forward-looking statements, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. Information regarding our risk factors appears in Part I, Item 1A, "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2013 filed on March 24, 2014.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable for smaller reporting companies.

ITEM 4 - CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and our interim principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation under the supervision and with the participation of our management, including our principal executive officer and interim principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report. Based on this evaluation, our Chief Executive Officer and interim Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of June 30, 2014.

The determination that our disclosure controls and procedures were not effective as of June 30, 2014 is a result of:

- the Company not having a full time Chief Financial Officer since late June 2011;
- the fact that we no longer have significant operations and as a result have eliminated our internal accounting and finance department; and
- insufficient segregation of duties.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

We know of no material, existing or pending legal proceeding against our Company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3 - DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4 - MINE SAFETY DISCLOSURES

Not applicable

ITEM 5 - OTHER INFORMATION

None

ITEM 6 - EXHIBITS

The following exhibits are filed as part of, or incorporated by reference into this Report:
