## NET LOSS PER SHARE OF COMMON STOCK

Net loss per share of common stock is based on the weighted average number of shares of common stock outstanding. Common stock equivalents are not included in the weighted average calculation since their effect would be anti-dilutive.

## BASIS OF PRESENTATION

The interim financial statements and summarized notes included herein were prepared in accordance with accounting principals generally accepted in the United States of America for interim financial information, pursuant to rules and regulations of the Securities and Exchange Commission. Because certain information and notes normally included in complete financial statements prepared in accordance with accounting principals generally accepted in the United States of America were condensed or omitted pursuant to such rules and regulations, it is suggested that these financial statements be read in conjunction with the Consolidated Financial Statements and the Notes thereto, included in Worldteq's Report 10KSB-A filed June 3, 2005. These interim financial statements and notes hereto reflect all adjustments that are, in the opinion of management, necessary for a fair statement of results for the interim periods presented. Such financial results should not be construed as necessarily indicative of future results.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the financial condition and results of operations should be read in conjunction with the financial statements, related notes, and other detailed information included elsewhere in this Form 10QSB. Certain information contained below and elsewhere in this Form 10QSB, including information regarding our plans and strategy for our business, are forward-looking statements. See "Note Regarding Forward-Looking Statements."

Our business plan for the next twelve months is to demonstrate the efficacy of our product candidate in animal models. It is necessary for us to establish evidence of efficacy of our approach in order to advance to subsequent milestones.

## OVERVIEW

CYIOS Corporation operates three subsidiaries, the first two CYIOS Corporation and CKO Incorporated are the two vehicles the company will be operating its business in, going forward after its merger on September 19, 2005. WorldTeq Corporation has been ordered to dismantle its long distance program and what is to be done with that subsidiary will be decided at a later date.

Through our subsidiary CYIOS we provide leading systems integrations and knowledge management solutions to the United States Army, Dept of Defense, and other prospective U.S. Government agencies. As a leading defense contractor we offer service and products that reduce the time frame for achieving mission-critical goals by delivering the right information, in the right context, when employees need it. Our Subsidiary CKO Incorporated owns and has developed XO Office.com, an online office management tool that has been model after AKO (Army Knowledge Online) which CYIOS Corporatin original developed.

## RECENT DEVELOPMENTS

During the third quarter of 2006, The previously known China Print, Inc. merged with CYIOS Corporation and officially changed its name. The company now trades on the OTC-BB under CYIO.

## FINANCIAL CONDITION

We currently have limited financial resources but the company is able to support its 25+ member staff in addition to its investment in operations and product, like the development of XO Office

## RESULTS OF OPERATIONS

Total sales for the second quarter 2005 was \$611,796 as compared to \$110,748 for the quarter ended September 30, 2004, an approximately 500% decrease. This due to the merger that took place during the third quarter.

Our net loss for the quarter ending September 30, 2005 was \$108,439 or less than \$.01 per share, as compared to \$327,849 for the same period in 2004. The reduction in loss is due to the lower expenses of WorldTeq Corporation in Q3 of 2005 then in 2004. The quarter in 2005 would have most likely shown a gain it wasn't for the losses from WorldTeq Corporation whose operations will soon be discontinued.

Selling, general and administrative expenses for the third quarter of fiscal 2005 were \$611,827 as compared to \$393,365 for the same quarter in fiscal 2004.

Cost of sales for the third quarter of fiscal 2005 was \$108,397 as compared to \$45,232 for the same quarter in fiscal 2004. This increase of 250% was primarily attributable to additional COGS in CYIOS Corporation's business

(296,101) (192,802)

## LIQUIDITY AND CAPITAL RESOURCES

Net cash used in operating activities for the period ended September 30th, 2005 and 2004 was (\$296,101) and (\$192,802) respectively. These losses were once again mainly attributable to the operations of WorldTeq Corporation.

The Company, at September 30th, 2005 and Year End of 2004, respectively, had total assets of approximately \$389,503 and \$82,399. The increase in assets is largely attributable to the merger and the addition of CYIOS Corporation's subsidiaries assets.

### Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements with any party.
