NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2007
(Unaudited)

NOTE 1 – ORGANIZATION AND BASIS OF QUARTERLY PRESENTATION

Resource Capital Corp. and subsidiaries' (the "Company") principal business activity is to purchase and manage a diversified portfolio of commercial real estate-related assets and commercial finance assets. The Company's investment activities are managed by Resource Capital Manager, Inc. ("Manager") pursuant to a management agreement ("Management Agreement"). The Manager is a wholly-owned indirect subsidiary of Resource America, Inc. ("RAI") (Nasdaq: REXI).

The Company has three direct wholly-owned subsidiaries:

- RCC Real Estate, Inc. ("RCC Real Estate") holds real estate investments, including commercial real estate loans. RCC Real Estate owns 100% of the equity of the following entities:
 - Resource Real Estate Funding CDO 2006-1 ("RREF 2006-1"), a Cayman Islands limited liability company and qualified real estate investment trust ("REIT") subsidiary ("QRS"). RREF 2006-1 was established to complete a collateralized debt obligation ("CDO") issuance secured by a portfolio of commercial real estate loans and commercial mortgage-backed securities.
 - Resource Real Estate Funding CDO 2007-1 ("RREF 2007-1"), a Cayman Islands limited liability company and QRS. RREF 2007-1 was established to complete a CDO issuance secured by a portfolio of commercial real estate loans and commercial mortgage-backed securities.
- RCC Commercial, Inc. ("RCC Commercial") holds bank loan investments and real estate investments, including commercial and residential real estate-related securities. RCC Commercial owns 100% of the equity of the following entities:
 - Apidos CDO I, Ltd. ("Apidos CDO I"), a Cayman Islands limited liability company and taxable REIT subsidiary ("TRS"). Apidos CDO I was established to complete a CDO secured by a portfolio of bank loans.
 - Apidos CDO III, Ltd. ("Apidos CDO III"), a Cayman Islands limited liability company and TRS. Apidos CDO III was established to complete a CDO secured by a portfolio of bank loans.
 - Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), a Cayman Islands limited liability company and TRS. Apidos Cinco CDO was established to complete a CDO secured by a portfolio of bank loans.
 - Ischus CDO II, Ltd. ("Ischus CDO II"), a Cayman Islands limited liability company and QRS. Ischus CDO II was established to complete a CDO issuance secured by a portfolio of mortgage-backed and other asset-backed securities.
- Resource TRS, Inc. ("Resource TRS") holds all the Company's equipment leases and notes.

The consolidated financial statements and the information and tables contained in the notes to the consolidated financial statements are unaudited. However, in the opinion of management, these interim financial statements include all adjustments necessary to fairly present the results of the interim periods presented. The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements

included in the Company's Annual Report on Form 10-K for the period ended December 31, 2006. The results of operations for the three and nine months ended September 30, 2007 may not necessarily be indicative of the results of operations for the full fiscal year ending December 31, 2007.

Certain reclassifications have been made to the 2006 consolidated financial statements to conform to the 2007 presentation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates affecting the accompanying consolidated financial statements include the net realizable and fair values of the Company's investments and derivatives and the estimated life used to calculate amortization and accretion of premiums and discounts, respectively, on investments.

Income Taxes

For financial reporting purposes, current and deferred taxes are provided for on the portion of earnings recognized by the Company with respect to its interest in Resource TRS, a domestic TRS, because it is taxed as a regular subchapter C corporation under the provisions of the Internal Revenue Code of 1986, as amended. As of September 30, 2007 and December 31, 2006, Resource TRS recognized a provision for income taxes of \$254,000 and \$67,000, respectively.

Apidos CDO I, Apidos CDO III and Apidos Cinco CDO, the Company's foreign TRSs, are organized as exempted companies incorporated with limited liability under the laws of the Cayman Islands, and are generally exempt from federal and state income tax at the corporate level because their activities in the United States are limited to trading in stock and securities for their own account. Therefore, despite their status as TRSs, they generally will not be subject to corporate tax on their earnings and no provision for income taxes is required; however, because they are "controlled foreign corporations," the Company will generally be required to include Apidos CDO I's, Apidos CDO III's and Apidos Cinco CDO's current taxable income in its calculation of REIT taxable income.

Allowance for Loan and Lease Losses

At September 30, 2007, the Company had one bank loan and five leases that were not current with respect to the scheduled payments of principal and interest. In reviewing the portfolio of loans and the observable secondary market prices, the Company evaluates its portfolio of loans and leases each quarter for individual loan impairment. The Company reflected a provision for loan and lease losses of \$326,000 in its results of operations during the three and nine months ended September 30, 2007. This provision represents an increase in the loan and lease loss reserve based on management's evaluation of general market conditions, the Company's internal risk management policies and credit risk ratings system, industry loss experience, the likelihood of delinquencies or defaults, the credit quality of the underlying collateral and changes in the size of the loan portfolio.

Stock Based Compensation

The Company follows Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share Based Payment." Issuances of restricted stock and options are accounted for using the fair value based methodology prescribed by SFAS No. 123(R) whereby the fair value of the award is measured on the grant date and expensed monthly in stockholders' equity through an increase to additional paid-in capital and an offsetting entry to equity compensation expense – related party on the consolidated statements of operations. For issuances to the Company's Manager and to non-employees, the unvested stock and options are adjusted quarterly to reflect changes in fair value as performance under the agreement is completed. For issuance to the Company's five non-employee directors, the

amount is not remeasured under the fair value-based method. The compensation for each of these issuances is amortized over the service period and included in equity compensation expense.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Variable Interest Entities

In accordance with FASB Interpretation No. 46R (“FIN 46-R”), the Company is deemed to be the primary beneficiary of the following entities since it will absorb a majority of the expected losses or receive a majority of the expected returns and therefore the Company consolidates these entities as of September 30, 2007:

- Resource Real Estate Funding CDO 2007-1
 - Apidos Cinco CDO
- Resource Real Estate Funding CDO 2006-1
 - Apidos CDO III
 - Apidos CDO I
- Ischus CDO II (see Note 14)

Accounting for Certain Mortgage-Backed Securities and Related Repurchase Agreements

In certain circumstances, the Company has purchased debt investments from a counterparty and subsequently financed the acquisition of those debt investments through repurchase agreements with the same counterparty. The Company’s policy is to currently record the acquisition of the debt investments as assets and the related repurchase agreements as financing liabilities gross on the consolidated balance sheets. Interest income earned on the debt investments and interest expense incurred on the repurchase obligations are reported gross on the consolidated statements of operations. However, under a certain technical interpretation of SFAS 140, “Accounting for Transfers and Servicing of Financial Assets,” such transactions may not qualify as a purchase. Management of the Company believes, based upon its determination that the method it has adopted is industry practice, that it is accounting for these transactions in an appropriate manner. However, the result of this technical interpretation would prevent the Company from presenting the debt investments and repurchase agreements and the related interest income and interest expense on a gross basis on the Company’s consolidated financial statements. Instead, the Company would present the net investment in these transactions with the counterparty as a derivative with the corresponding change in fair value of the derivative being recorded through earnings. The value of the derivative would reflect changes in the value of the underlying debt investments and changes in the value of the underlying credit provided by the counterparty. As of September 30, 2007, the Company had no transactions in mortgage-backed securities where debt instruments were financed with the same counterparty. As of December 31, 2006, the Company had one transaction where debt instruments were financed with the same counterparty.

Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115,” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement is effective for fiscal years beginning after November 15, 2007. The Company is currently

evaluating the impact that SFAS 159 will have on its consolidated financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)**Recent Accounting Pronouncements – (Continued)**

In September 2006, the FASB issued SFAS No. 157 “Fair Value Measurements” (“SFAS 157”). SFAS 157 clarifies the definition of fair value, establishes a framework for measuring fair value in GAAP and expands the disclosure of fair value measurements. This statement is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently determining the effect, if any, the adoption of SFAS 157 will have on its financial statements.

In July 2006, the FASB issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes-An Interpretation of SFAS 109” (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in income taxes by creating a framework for how companies should recognize, measure, present and disclose in their financial statements uncertain tax positions that they have taken or expect to take in a tax return. The Company adopted FIN 48 on January 1, 2007. The adoption had no material effect on the Company’s financial statements.

NOTE 3 – RESTRICTED CASH

Restricted cash consists of \$64.2 million held in six consolidated CDO trusts, \$5.8 million in cash collateralizing outstanding margin calls, a \$4.8 million credit facility reserve used to fund future investments that will be acquired by the Company’s three closed bank loan CDO trusts and three expense reserves totaling \$152,000 used to cover CDO operating expenses. The remaining \$2.0 million consists of interest reserves and security deposits held in connection with the Company’s equipment lease and loan portfolio.

NOTE 4 – SECURITIES AVAILABLE-FOR-SALE

Total temporarily impaired securities	\$ 143,948	\$ (2,580)	\$ 105,844	\$ (4,517)	\$ 249,792	\$ (7,097)

The temporary impairment of the securities classified as available-for-sale results from the fair value of the securities falling below their amortized cost basis and is primarily attributed to changes in interest rates and market conditions. The Company intends and has the ability to hold the securities until the fair value of the securities held is recovered, which may be maturity. For the three and nine months ended September 30, 2007, the Company recognized \$25.5 million and \$26.3 million, respectively, of other-than-temporary impairment on its securities. As a result of the impairment charge, the cost of these securities was written down to fair value. The Company does not believe that any other of its securities classified as available-for-sale were other-than-temporarily impaired as of September 30, 2007. For the three and nine months ended September 30, 2006, the Company recognized no other-than-temporary impairment.

The determination of other-than-temporary impairment is a subjective process, and different judgments and assumptions could affect the timing of loss realization. The Company reviews its portfolios monthly and the determination of other-than-temporary impairment is made at least quarterly. The Company considers the following factors when determining if there is an other-than-temporary impairment on a security:

- the length of time the market value has been less than amortized cost;
- the Company's intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in market value;
- the severity of the impairment;

- the expected loss of the security as generated by third party software; and
- credit ratings from the rating agencies.

Repurchase and Credit Facilities

In April 2007, the Company's indirect wholly-owned subsidiary, RCC Real Estate SPE 3, LLC, entered into a master repurchase agreement with Natixis Real Estate Capital, Inc. to be used as a warehouse facility to finance the purchase of commercial real estate loans and commercial mortgage-backed securities. The maximum amount of the Company's borrowing under the repurchase agreement is \$150.0 million. The financing provided by the agreement matures April 18, 2010 subject to a one-year extension at the option of RCC Real Estate SPE 3 and subject further to the right of RCC Real Estate SPE 3 to repurchase the assets held in the facility earlier. The Company paid a facility fee of 0.75% of the maximum facility amount, or \$1.2 million, at closing. In addition, once the borrowings exceed a weighted average undrawn balance of \$75.0 million for the prior 90 day period, the Company will be required to pay a Non-Usage Fee on the unused portion equal to the product of (i) 0.15% per annum multiplied by, (ii) the weighted average undrawn balance during the prior 90 day period. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sale price, repurchase price, rate and term. These are one-month

contracts. The Company has guaranteed RCC Real Estate SPE 3, LLC's obligations under the repurchase agreement to a maximum of \$150.0 million. At September 30, 2007, RCC Real Estate SPE 3 had borrowed \$92.2 million, all of which was guaranteed by the Company, with a weighted average interest rate of one-month LIBOR plus 1.26%, which was 7.01% at September 30, 2007.

In August 2006, the Company's subsidiary, RCC Real Estate SPE 2, LLC, entered into a master repurchase agreement with Column Financial, Inc., a wholly-owned subsidiary of CS, to finance the purchase of commercial real estate loans. As of September 30, 2007, all borrowings had been repaid and the agreement has been terminated. At December 31, 2006, RCC Real Estate SPE 2, LLC had borrowed \$54.5 million, all of which was guaranteed by the Company, with a weighted average interest rate of one-month LIBOR plus 1.07%, which was 6.42% at December 31, 2006.

Repurchase and Credit Facilities – (Continued)

In March 2006, the Company entered into a secured term credit facility with Bayerische Hypo-und Vereinsbank AG to finance the purchase of equipment leases and notes. The maximum amount of the Company's borrowing under this facility is \$100.0 million. Borrowings under this facility bear interest at one of two rates, determined by asset class.

The Company paid \$300,000 in commitment fees during the year ended December 31, 2006. Commitment fees are being amortized into interest expense using the effective yield method over the life of the facility and are recorded in the consolidated statements of operations. The Company paid \$17,000 and \$44,000 for the three and nine months ended September 30, 2007 in unused line fees. Unused line fees are charged immediately into interest expense and are recorded in the consolidated statements of operations. At September 30, 2007, the Company had borrowed \$79.2 million at a weighted average interest rate of 6.40%. As of December 31, 2006, the Company had borrowed \$84.7 million at a weighted average interest rate of 6.33%. The facility expires March 2010.

In December 2005, the Company entered into a \$15.0 million unsecured revolving credit facility with Commerce Bank, N.A. ("Commerce"). This facility was increased to \$25.0 million in April 2006. Outstanding borrowings bear interest at one of two rates elected at the Company's option; (i) the lender's prime rate plus a margin ranging from 0.50% to 1.50% based upon the Company's leverage ratio; or (ii) LIBOR plus a margin ranging from 1.50% to 2.50% based upon the Company's leverage ratio. The facility expires in December 2008. The Company paid Commerce \$250,000 in commitment fees to enter into the facility and to increase the facility. Commitment fees are being amortized into interest expense using the effective yield method over the life of the facility and are recorded in the consolidated statements of operations. The Company paid \$9,000 and \$27,000 for the three and nine months ended September 30, 2007, respectively, in unused line fees. Unused line fees are expensed immediately into interest expense and are recorded in the consolidated statements of operations. As of September 30, 2007 and December 31, 2006, \$11.2 million and \$7.3 million, respectively, were available under this facility. As of September 30, 2007 and December 31, 2006, no borrowings were outstanding under this facility.

The Company has received a waiver for the period ended September 30, 2007 from Commerce Bank, N.A. with respect to its non-compliance with the consolidated tangible net worth covenant. The waiver was required due to the Company's unrealized losses on its derivatives and CMBS-private placement securities during the three months ended September 30, 2007. Under the covenant, the Company is required to maintain a consolidated net worth (stockholder's equity) of at least \$195.0 million plus 90% of the net proceeds of any capital transactions, measured at each quarter end, as further described in the agreement.

In August 2005, the Company's subsidiary, RCC Real Estate, Inc. ("RCC Real Estate"), entered into a master repurchase agreement with Bear Stearns International Limited ("Bear Stearns") to finance the purchase of commercial real estate loans. The maximum amount of the Company's borrowing under the repurchase agreement is \$150.0 million. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sales price, repurchase price, rate and term. These are one-month contracts. The Company has guaranteed RCC Real Estate's obligations under the repurchase agreement to a maximum of \$150.0 million. At September 30, 2007, RCC Real Estate had borrowed \$2.2 million, all of which was guaranteed by the Company, with a weighted average interest rate of one-month LIBOR plus 1.00%, which was 6.50% at September 30, 2007. At December 31, 2006, RCC Real Estate had borrowed \$36.7 million, all of which was guaranteed by the Company, with a weighted average interest rate of one-month LIBOR plus 1.08%, which was 6.43% at December 31, 2006.

At September 30, 2007, the Company borrowed \$4.2 million with a weighted average interest rate of 6.12%. At December 31, 2006, no borrowings were outstanding under this facility.

Collateralized Debt Obligations

Resource Real Estate Funding CDO 2007-1

In June 2007, the Company closed RREF 2007-1, a \$500.0 million CDO transaction that provides financing for commercial real estate loans and commercial mortgage-backed securities. The investments held by RREF 2007-1 collateralize the debt it issued and as a result, the investments are not available to the Company, its creditors or stockholders. RREF 2007-1 issued a total of \$390.0 million of senior notes at par to unrelated investors. In addition, RCC Real Estate purchased 100% of the class H senior notes (rated BBB+:Fitch), class K senior notes (rated BBB-:Fitch), class L senior notes (rated BB:Fitch) and class M senior notes (rated B: Fitch) for \$68.0 million. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF 2007-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF 2007-1.

The senior notes issued to investors by RREF 2007-1 consist of the following classes: (i) \$180.0 million of class A-1 notes bearing interest at one-month LIBOR plus 0.28%; (ii) \$50.0 million of unissued class A-1R notes, which allow the CDO to fund future funding obligations under the existing whole loan participations that have future funding commitments; the undrawn balance of the class A-1R notes will accrue a commitment fee at a rate per annum equal to 0.18%, the drawn balance will bear interest at one-month LIBOR plus 0.32%; (iii) \$57.5 million of class A-2 notes bearing interest at one-month LIBOR plus 0.46%; (iv) \$22.5 million of class B notes bearing interest at one-month LIBOR plus 0.80%; (v) \$7.0 million of class C notes bearing interest at a fixed rate of 6.423%; (vi) \$26.8 million of class D notes bearing interest at one-month LIBOR plus 0.95%; (vii) \$11.9 million of class E notes bearing interest at one-month LIBOR plus 1.15%; (viii) \$11.9 million of class F notes bearing interest at one-month LIBOR plus 1.30%; (ix) \$11.3 million of class G notes bearing interest at one-month LIBOR plus 1.55%; (x) \$11.3 million of class H notes bearing interest at one-month LIBOR plus 2.30%; (xi) \$11.3 million of class J notes bearing interest at

Trust Preferred Securities

In May 2006 and September 2006, the Company formed Resource Capital Trust I (“RCTI”) and RCC Trust II (“RCTII”), respectively, for the sole purpose of issuing and selling trust preferred securities. In accordance with FIN 46-R, although the Company owns 100% of the common shares of RCTI and RCTII, RCTI and RCTII are not consolidated into the Company’s consolidated financial statements because the Company is not deemed to be the primary beneficiary of these entities. Each respective trust issued \$25.0 million of preferred shares to unaffiliated investors.

In connection with the issuance and sale of the trust preferred securities, the Company issued junior subordinated debentures to RCTI and RCTII of \$25.8 million each, representing the Company’s maximum exposure to loss. The debt issuance costs associated with the junior subordinated debentures for RCTI and RCTII at September 30, 2007 were \$774,000 and \$781,000, respectively. These costs, which are included in other assets, are being amortized into interest expense using the effective yield method over a ten year period.

The rights of holders of common shares of RCTI and RCTII are subordinate to the rights of the holders of preferred shares only in the event of a default; otherwise, the common shareholders’ economic and voting rights are pari passu with the preferred shareholders. The preferred and common securities of RCTI and RCTII are subject to mandatory redemption upon the maturity or call of the junior subordinated debentures. Unless earlier dissolved, RCTI will dissolve on May 25, 2041 and RCTII will dissolve on September 29, 2041. The junior subordinated debentures are the sole assets of RCTI and RCTII and mature on June 30, 2036 and October 30, 2036, respectively, and may be called at par by the Company any time after June 30, 2011 and October 30, 2011, respectively. Interest is payable for RCTI and RCTII quarterly at a floating rate equal to three-month LIBOR plus 3.95% per annum. The rates for RCTI and RCTII, at September 30, 2007, were 9.31% and 9.31%, respectively. The Company records its investments in RCTI and RCTII’s common shares of \$774,000 each as investments in unconsolidated entities and records dividend income upon declaration by RCTI and RCTII.

Unvested shares as of September 30, 2007	113,666	4,404	239,312	357,382

Pursuant to SFAS No. 123(R), the Company is required to value any unvested shares of restricted common stock granted to the Manager and non-employees at the current market price. The fair value of the unvested shares of restricted stock granted during the respective periods, including shares issued to the non-employee directors, was \$4.1 million and \$60,000 at September 30, 2007 and December 31, 2006, respectively.

On March 8, 2005, the Company granted 345,000 shares of restricted common stock and options to purchase 651,666 common shares at an exercise price of \$15.00 per share, to the Manager. One third of the shares of restricted stock and options vested on each of March 8, 2006 and March 8, 2007. On March 8, 2005 and March 8, 2006, the Company also granted 4,000 and 4,224 shares of restricted common stock, respectively, to the Company's non-employee directors as part of their annual compensation. These shares vested in full on March 8, 2006 and March 8, 2007, respectively.

On January 5, 2007, the Company issued 184,541 shares of restricted common stock under its 2005 Stock Incentive Plan. These restricted shares vest 33.3% on January 5, 2008. The balance will vest quarterly thereafter through January 5, 2010.

On February 1, 2007 and March 8, 2007, the Company granted 816 and 3,588 shares of restricted stock, respectively, to the Company's non-employee directors as part of their annual compensation. These shares will vest in full on the first anniversary of the date of grant.

NOTE 9 – SHARED-BASED COMPENSATION – (Continued)

In connection with the July 2006 hiring of a commercial mortgage direct loan origination team by Resource Real Estate, Inc. ("Resource Real Estate"), a subsidiary of RAI (see Related Party Transactions – Note 11), the Company agreed to issue up to 100,000 shares of common stock and options to purchase an additional 100,000 shares of common stock if certain loan origination performance thresholds are achieved by this origination team for the Company's account. The performance thresholds are two-tiered. Upon the achievement of \$400.0 million of direct loan originations of commercial real estate loans, 60,000 restricted shares of common stock and options to purchase an additional 60,000 shares of common stock are issuable. Upon the achievement of another \$300.0 million of direct loan originations of commercial real estate loans, a second tranche of 40,000 restricted shares of common stock and options to purchase another 40,000 shares of common stock are issuable. The restricted shares and options to purchase shares of common stock vest over a two-year period after issuance. The Company accounts for equity instruments issued to non-employees for goods or services in accordance with the provisions of SFAS No. 123(R) and Emerging Task Force Issue No. 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services" ("EITF 96-18"). Accordingly, when the origination team, none of whom is an employee of the Company, completes its performance or when a performance commitment is reached, the Company is required to measure the fair value of the equity instruments. On June 27, 2007, 60,000 shares of restricted common stock and 60,000 options to purchase additional shares were issued as a result of the achievement of \$400.0 million of direct loan originations of commercial real estate loans. The restricted shares vest 50% on June 27, 2008 and 50% on June 27, 2009. The options vest 33.3% per year beginning on June 27, 2008.

The following table summarizes common stock option transactions:

At September 30, 2007 and December 31, 2006, the Company was indebted to LEAF for servicing fees in connection with the Company's equipment finance portfolio of approximately \$134,000 and \$229,000, respectively. LEAF's servicing fees for the three and nine months ended September 30, 2007 were \$199,000 and \$612,000, respectively, as compared to \$210,000 and \$430,000 for the three and nine months ended September 30, 2006, respectively.

During the three months ended September 30, 2007, the Company did not sell any leases back to LEAF. During the nine months ended September 30, 2007, the Company sold three leases back to LEAF at a price equal to the Company's book value. The total proceeds received on outstanding notes receivable were \$1.8 million.

Relationship with RAI

At September 30, 2007, RAI had a 7.8% ownership interest in the Company, consisting of 1,900,000 shares it had purchased, 61,579 shares received by the Manager, its subsidiary, as incentive compensation pursuant to the management agreement and 614 vested shares associated with the issuance of restricted stock. In addition, executive officers of the Manager and its affiliates had a 1.1% ownership interest in the Company, consisting of 193,918 shares they had purchased and 81,664 vested shares associated with the issuance of restricted stock as of September 30, 2007. All purchased shares were either acquired in offerings by the Company at the same price at which shares were purchased by the other investors in those offerings or in the open market.

As of September 30, 2007, the Company had executed six CDO transactions. These CDO transactions are structured for the Company by the Manager; however, the Manager is not separately compensated by the Company for these transactions. In addition, the Company may reimburse the Manager and RAI for expenses for employees of RAI who perform legal, accounting, due diligence and other services that outside professional or consultants would otherwise perform. As of and for the periods ended September 30, 2007 and December 31, 2006, the Company was not obligated for, and had not paid, any reimbursements to the Manager for such services.

Relationship with Law Firm

Until 1996, the Company's Chairman, Edward Cohen, was of counsel to Ledgewood Law Firm. The Company paid Ledgewood approximately \$31,000 and \$283,000 for legal services during the three and nine months ended September 30, 2007, respectively, compared to \$25,000 and \$314,000 during the three and nine months ended September 30, 2006, respectively. Mr. Cohen receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest.

NOTE 12 – DISTRIBUTIONS

In order to qualify as a REIT, the Company must currently distribute at least 90% of its taxable income. In addition, the Company must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. The Company anticipates it will distribute substantially all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as asset impairments), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

On September 17, 2007, the Company declared a quarterly distribution of \$0.41 per share of common stock, \$10.3 million in the aggregate, which was paid on October 12, 2007 to stockholders of record on September 28, 2007.

On June 18, 2007, the Company declared a quarterly distribution of \$0.41 per share of common stock, \$10.3 million in the aggregate, which was paid on July 17, 2007 to stockholders of record as of June 29, 2007.

On March 20, 2007, the Company declared a quarterly distribution of \$0.39 per share of common stock, \$9.7 million in the aggregate, which was paid on April 16, 2007 to stockholders of record as of March 30, 2007.

On January 13, 2006, the Company paid a special dividend to stockholders of record on January 4, 2006, including holders of restricted stock, consisting of warrants to purchase the Company's common stock. Each warrant entitles the holder to purchase one share of common stock at an exercise price of \$15.00 per share. Stockholders received one warrant for each ten shares of common stock and restricted stock held. If an existing stockholder owned shares in other than a ten-share increment, the stockholder received an additional warrant. The warrants will expire on January 13, 2009 and became exercisable on January 13, 2007. An aggregate of 1,568,244 shares were issuable upon exercise of the warrants, of which 375,547 shares have been issued as of September 30, 2007. Upon exercise of warrants, new shares are issued.

NOTE 13 – INTEREST RATE RISK AND DERIVATIVE INSTRUMENTS

The primary market risk to the Company is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the Company's control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of the Company's interest-earning assets and the Company's ability to realize gains from the sale of these assets. A decline in the value of the Company's interest-earning assets pledged as collateral for borrowings under repurchase agreements could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels.

The Company seeks to manage the extent to which net income changes as a function of changes in interest rates by matching adjustable-rate assets with variable-rate borrowings. During periods of changing interest rates, interest rate mismatches could negatively impact the Company's consolidated financial condition, consolidated results of operations and consolidated cash flows. In addition, the Company mitigates the potential impact on net income of periodic and lifetime coupon adjustment restrictions in its investment portfolio by entering into interest rate hedging agreements such as interest rate caps and interest rate swaps.

At September 30, 2007, the Company had 29 interest rate swap contracts. The Company paid an average fixed rate of 5.36% and received a variable rate equal to one-month LIBOR on the interest rate swap contracts. The aggregate notional amount of these contracts was \$352.0 million. In addition, the Company had one interest rate cap agreement outstanding whereby it reduced its exposure to variability in future cash outflows attributable to changes in LIBOR. The aggregate notional amount of this contract was \$15.0 million at September 30, 2007.

At December 31, 2006, the Company had 12 interest swap contracts and five forward interest rate swap contracts. The Company paid an average fixed rate of 5.33% and received a variable rate equal to one-month and three-month LIBOR on the interest rate swap contracts. The aggregate notional amount of these contracts was \$150.9 million. The Company paid an average fixed rate of 5.19% and received a variable rate equal to one-month and three-month LIBOR on the forward interest rate swap contracts, which commenced in February 2007. The aggregate notional amount of these contracts was \$74.0 million. In addition, the Company had one interest rate cap agreement outstanding whereby it reduced its exposure to variability in future cash outflows attributable to changes in LIBOR. The aggregate notional amount of this contract was \$15.0 million at December 31, 2006.

The fair value of the Company's interest rate swaps and interest rate cap was \$(8.8) million and \$(3.1) million as of September 30, 2007 and December 31, 2006, respectively. The Company had aggregate unrealized losses of \$6.4 million and \$3.2 million on the interest rate swap agreements and interest rate cap agreement, as of September 30, 2007 and December 31, 2006, respectively, which is recorded in accumulated other comprehensive loss.

NOTE 13 – INTEREST RISK AND DERIVATIVE INSTRUMENTS – (Continued)

Changes in interest rates may also have an effect on the rate of mortgage principal prepayments and, as a result, prepayments on mortgage-backed securities in the Company's investment portfolio. The Company seeks to mitigate the effect of changes in the mortgage principal repayment rate by balancing assets purchased at a premium with assets purchased at a discount. At September 30, 2007, the aggregate discount exceeded the aggregate premium on the Company's mortgage-backed securities by approximately \$7.1 million. At December 31, 2006, the aggregate discount exceeded the aggregate premium on the Company's mortgage-backed securities by approximately \$3.1 million.

NOTE 14 – SUBSEQUENT EVENTS

The Company continued to buy back shares as part of the share repurchase program authorized by the board of directors. As of November 9, 2007, the Company had bought back a total of 263,000 shares at a weighted average price, including commissions, of \$10.54.

On November 7, 2007, the Company sold a notional \$2.7 million, or 10%, of its preference equity of \$27.0 million in Ischus CDO II to an unrelated party. Under FIN 46-R, Ischus CDO II was determined to be a Variable Interest Entity ("VIE") and the Company was deemed the primary beneficiary at inception in July 2005. Further, under paragraph 15 of the Interpretation, the primary beneficiary is required to reconsider its initial decision to consolidate a VIE if the primary beneficiary sells all or part of its variable interests to unrelated parties. Given these circumstances, the Company has reconsidered its initial decision to consolidate the VIE and concluded that it is no longer the primary beneficiary of Ischus CDO II since the Company will not absorb a majority of the expected losses or receive a majority of the expected returns. As a result, the Company will not consolidate the VIE beginning in the fourth quarter of 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Unaudited)

This report contains certain forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "could," "estimate," "expects," "intend," "may," "plan," "potential," "project," "should," "will" and "would" or the negative of these terms or other comparable terminology. Such statements are subject to the risks and uncertainties more particularly described in Item 1A, under the caption "Risk Factors," in our Annual Report on Form 10-K for period ended December 31, 2006. These risks and uncertainties could cause actual results to differ materially. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly release the results of any revisions to forward-looking statements which we may make to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events, except as may be required under applicable law.

Overview

We are a specialty finance company that focuses primarily on commercial real estate loans and commercial finance. We qualify as a real estate investment trust, or REIT, under Subchapter M of the Internal Revenue Code of 1986, as amended. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategy. We invest in a combination of real estate-related loan assets and, to a lesser extent, commercial finance assets. We finance a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those investments, and to mitigate interest rate risk through derivative instruments. Future distributions and capital appreciation are not guaranteed, however, and we have only limited operating history and REIT experience upon which you can base an assessment of our ability to achieve our objectives.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance the purchase of those assets and hedge interest rate risks. We generate revenues from the interest we earn on our whole loans, A notes, B notes, mezzanine debt, commercial mortgage-backed securities, or CMBS, residential mortgage-backed securities, or ABS-RMBS, other asset-backed securities, bank loans and payments on equipment leases and notes. We use a substantial amount of leverage to enhance our returns and we finance each of our different asset classes with different degrees of leverage. The cost of borrowings to finance our investments comprises a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue. In our ABS-RMBS, CMBS, other asset-backed, bank loans and equipment leases and notes, we have used warehouse facilities as a short-term financing source and collateralized debt obligations, or CDOs, and, to a lesser extent, other term financing as a long-term financing source. In our commercial real estate loan portfolio, we have used repurchase agreements as a short-term financing source, and CDOs and, to a lesser extent, other term financing as a long-term financing source. Our other term financing consists of long-term match-funded financing provided through long-term bank financing and asset-backed financing programs.

Recently, the credit markets in the United States and elsewhere have been subject to substantial volatility and reduction in liquidity, principally as a result of conditions in the residential mortgage sector, particularly in the sub-prime sector. To the date of this report, our ability to use the funding available to us under existing credit facilities has not been materially affected, nor have our lenders indicated that they intend to restrict our ability to use the funding available under such facilities. We discuss funding availability in "– Borrowings," below. We anticipate, however, that obtaining long-term CDO and other financing for future asset acquisitions may be more difficult than it has been in the past and, if successful, the terms may be less favorable than those that have been available to us

previously. This may affect our ability to sustain our historical asset and income growth. Current market conditions also have, as discussed in “-Stockholders’ Equity” below, reduced the value of our interest in one CDO investment and, if they persist, may further affect the value of this investment and other of our investments, which could reduce our book value and earnings.

32

On December 20, 2006, we received net proceeds of \$93.0 million from our follow-on offering of 6,000,000 shares of common stock and we received net proceeds of \$10.1 million on January 8, 2007 on the sale of an additional 650,000 shares of common stock pursuant to the partial exercise of the underwriters' overallotment option.

As of September 30, 2007, we had allocated our equity among our targeted asset classes as follows: 75% of our portfolio was in commercial real estate-related assets, 24% was in commercial bank loans and 1% was in direct financing leases and notes. As of December 31, 2006, we had allocated our equity as follows: 77% of our portfolio was in commercial real estate-related assets, 8% was in ABS-RMBS, 14% was in commercial bank loans and 1% was in direct financing leases and notes.

Critical Accounting Policies and Estimates

The following represents our critical accounting policies and estimates. For a complete list of our critical accounting policies and estimates, see our annual report on Form 10-K for fiscal 2006 under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Securities Available-for-Sale

Statement of Financial Accounting Standards, or SFAS, No. 115, "Accounting for Certain Investments in Debt and Equity Securities," requires us to classify our investment portfolio as either trading investments, available-for-sale investments or held-to-maturity investments. Although we generally plan to hold most of our investments to maturity, we may, from time to time, sell any of our investments due to changes in market conditions or changes in our investment strategy. Accordingly, SFAS 115 requires us to classify all of our investment securities as available-for-sale. All investments classified as available-for-sale are reported at fair value, based on market prices provided by dealers, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in stockholders' equity.

We evaluate our available-for-sale investments for other-than-temporary impairment charges under SFAS 115, and the disclosure requirements of Emerging Issues Task Force, or EITF, Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments." SFAS 115 and EITF 03-1 require an investor to determine when an investment is considered impaired (that is, experienced a decline in fair value below its amortized cost), evaluate whether that impairment is other than temporary (that is, the investment value will not be recovered over its remaining life), and, if the impairment is other than temporary, recognize an impairment loss equal to the difference between the investment's cost and its fair value. SFAS 115 also includes accounting considerations subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. In November 2005, and as interpreted by the Financial Accounting Standards Board, or FASB, issued FASB staff position, or FSP, 115-1, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments," which replaces the guidance for impairment evaluation. We have adopted FSP No. 115-1 as required.

Investment securities transactions are recorded on the trade date. Purchases of newly issued securities are recorded when all significant uncertainties regarding the characteristics of the securities are removed, generally shortly before settlement date. Realized gains and losses on investment securities are determined on the specific identification method.

Derivative Instruments

Our policies permit us to enter into derivative contracts, including interest rate swaps and interest rate caps, to add stability to our interest expense and to manage our exposure to interest rate movements or other identified risks. We designate these transactions as cash flow hedges. We evaluate the contracts or hedge instruments at inception and at subsequent balance sheet dates to determine if they qualify for hedge accounting under SFAS No. 133, "Accounting for

Derivative Instruments and Hedging Activities.” SFAS 133 requires that we recognize all derivatives on the balance sheet at fair value. We record changes in the fair value of the derivative in other comprehensive income to the extent that it is deemed to be an effective hedge. Any ineffective portion of a derivative’s change in fair value will be immediately recognized in earnings.

Interest Income Recognition

We accrue interest income on our mortgage-backed and other asset-backed securities using the effective yield method based on the actual coupon rate and the outstanding principal amount of the underlying mortgages or other assets. We amortize or accrete premiums and discounts into interest income over the lives of the securities also using the effective yield method (or a method that approximates effective yield), adjusted for the effects of estimated prepayments based on SFAS No. 91, "Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases." For an investment purchased at par, the effective yield is the contractual interest rate on the investment. If we purchase the investment at a discount or at a premium, we compute the effective yield based on the contractual interest rate increased for the accretion of a purchase discount or decreased for the amortization of a purchase premium. The effective yield method requires us to make estimates of future prepayment rates for our investments that can be contractually prepaid before their contractual maturity date so that the purchase discount can be accreted, or the purchase premium can be amortized, over the estimated remaining life of the investment. The prepayment estimates that we use directly impact the estimated remaining lives of our investments. We review actual prepayment estimates as of each quarter end or more frequently if we become aware of any material information that would lead us to believe that an adjustment is necessary. If prepayment estimates are incorrect, we may have to adjust the amortization or accretion of premiums and discounts, which would have an impact on future income.

Loan Interest Income Recognition

Interest income on loans includes interest at stated rates adjusted for amortization or accretion of premiums and discounts, as discussed in "- Interest Income Recognition." When we purchase a loan or pool of loans at a discount, we consider the provisions of AICPA Statement of Position, or SOP, 03-3 "Accounting for Certain Loans or Debt Securities Acquired in a Transfer" to evaluate whether all or a portion of the discount represents accretable yield. If a loan with a premium or discount is prepaid, we immediately recognize the unamortized portion as a decrease or increase to interest income. In addition, we defer loan origination fees and loan origination costs and recognize them over the life of the related loan against interest using the effective yield method.

Results of Operations – Three and Nine Months Ended September 30, 2007 as compared to Three and Nine Months Ended September 30, 2006

Our net loss for the three months ended September 30, 2007 was \$13.9 million, or \$0.56 per weighted average common share-basic (\$0.56 per weighted average common share-diluted) while our net income for the nine months ended September 30, 2007 was \$5.4 million, or \$0.22 per weighted average common share-basic (\$0.22 per weighted average common share-diluted), as compared to a net loss of \$2.4 million, or \$0.14 per weighted average common share-basic (\$0.14 per weighted average common share-diluted) and net income of \$8.8 million, or \$0.51 per weighted average common share-basic (\$0.51 per weighted average common share-diluted) for the three and nine months ended September 30, 2006, respectively.

35

Interest Income – Three and Nine Months Ended September 30, 2007 as compared to Three and Nine Months Ended September 30, 2006

Interest income increased \$9.4 million (24%) and \$28.5 million (28%) to \$48.5 million and \$131.9 million for the three and nine months ended September 30, 2007, respectively, from \$39.1 million and \$103.5 million for the three and nine months ended September 30, 2006, respectively. We attribute this increase to the following:

Interest Income from Loans

Interest income from loans increased \$17.2 million (87%) and \$53.5 million (115%) to \$37.1 million and \$100.1 million for the three and nine months ended September 30, 2007 from \$19.9 million and \$46.6 million for the three and nine months ended September 30, 2006, respectively.

Bank loans generated \$18.7 million and \$51.8 million of interest income for the three and nine months ended September 30, 2007 as compared to \$12.2 million and \$30.2 million for the three and nine months ended September 30, 2006, respectively an increase of \$6.5 million (53%) and \$21.6 million (71%). These increases resulted primarily from the following:

- The acquisition of \$28.1 million and \$216.4 million of bank loans (net of principal repayments and sales of \$62.0 million and \$214.5 million) during the three and nine months ended September 30, 2006 primarily for the accumulation of assets for Apidos CDO III which closed in May 2006. These loans were held for the entire three and nine months ended September 30, 2007.
- The acquisition of an additional \$337.5 million of bank loans (net of principal repayments and sales of \$466.6 million) since September 30, 2006 primarily for Apidos Cinco CDO which began accumulating assets in January 2007.
- An increase in the weighted average interest rate on these loans to 7.53% for the nine months ended September 30, 2007, respectively, from 7.25% for the nine months ended September 30, 2006 primarily due to an increase in the LIBOR rate.

Commercial real estate loans produced \$18.4 million and \$48.3 million of interest income for the three and nine months ended September 30, 2007 as compared to \$7.7 and \$16.4 million for the three and nine months ended September 30, 2006, an increase of \$10.7 million (139%) and \$31.9 million (194%), respectively. These increase resulted from the following:

- The acquisition of \$157.9 million and \$268.2 million of commercial real estate loans (net of principal repayments and sales of \$16.5 million and \$44.0 million) during the three and nine months ended September 30, 2006, which were held for the entire three and nine months ended September 30, 2007.
- The acquisition of \$423.9 million of commercial real estate loans (net of principal repayments and sales of \$239.0 million) since September 30, 2006.
- A \$505,000 acceleration of loan origination fees as a result of loan sales that we booked as part of interest income for the nine months ended September 30, 2007.

Interest Income - Leasing

Our equipment leasing portfolio generated \$1.9 million and \$5.7 million of interest income for the three and nine months ended September 30, 2007, respectively, as compared to \$1.6 million and \$3.4 million for the three and nine months ended September 30, 2006, respectively, an increase of \$267,000 (17%) and \$2.3 million (67%),

respectively. This increase resulted from the following:

- The acquisition of \$31.6 million and \$68.0 million of equipment leases and notes (net of principal payments and sales of \$3.4 million and \$29.1 million) during the three and nine months ended September 30, 2006, which were held for the entire three and nine months ended September 30, 2007.
- An increase in the weighted average interest rate on these leases to 8.67% and 8.70% for the three and nine months ended September 30, 2007, respectively, from 8.49% and 8.51% for the three and nine months ended September 30, 2006, respectively.

Interest Income from Securities Available-for-Sale

The increase in total interest income was offset by a decrease in interest income from securities available-for-sale. Interest income from securities available-for-sale decreased \$7.5 million (46%) and \$24.6 million (51%) to \$8.8 million and \$24.1 million for the three and nine months ended September 30, 2007, respectively, from \$16.2 million and \$48.7 million for the three and nine months ended September 30, 2006, respectively. The decrease in interest income from securities available-for-sale resulted principally from the sale of \$125.4 million of our agency ABS-RMBS portfolio in January 2006 and the sale of the remaining \$753.1 million of these securities in September 2006. This portfolio had generated \$9.1 million and \$28.7 million of interest income for the three and nine months ended September 30, 2006. As a result of the sale, no interest income from this portfolio was generated during the three and nine months ended September 30, 2007.

The decrease was offset by the following:

- Our ABS-RMBS contributed \$6.5 million and \$19.0 million to interest income for the three and nine months ended September 30, 2007, respectively, as compared to \$6.4 million and \$17.7 million for the three and nine months ended September 30, 2006, respectively, an increase of \$89,000 (1%) and \$1.3 million (8%) for the three and nine months ended September 30, 2007, respectively. The increase for the nine months ended September 30, 2007 was primarily the result of an increase in LIBOR, which increased the weighted average rate from 6.65% for the nine months ended September 30, 2006 to 6.90% for the nine months ended September 30, 2007.
- Our CMBS-private placement portfolio contributed \$1.5 million and \$2.6 million to interest income for the three and nine months ended September 30, 2007, respectively, due to the accumulation of securities in this portfolio beginning in December 2006. We held no such securities for the three and nine months ended September 30, 2006.

Interest Income - Other

The increase in interest income was also offset by a decrease in interest income - other. Interest income - other decreased \$637,000 (45%) and \$2.7 million (57%) to \$769,000 and \$2.1 million for the three and nine months ended September 30, 2007, respectively, as compared to \$1.4 million and \$4.8 million for the three and nine months ended September 30, 2006, respectively. This was due to interest rate swap agreements which generated \$118,000 and \$150,000 of interest income, for the three and nine months ended September 30, 2007, respectively, a decrease of \$1.0 million (90%) and \$3.6 million (96%) from \$1.1 million and \$3.8 million for the three and nine months ended September 30, 2006, respectively. This was primarily the result of the termination of interest rate swaps related to our agency ABS-RMBS portfolio which we sold in January and September 2006.

Interest Expense – Three and Nine Months Ended September 30, 2007 as compared to Three and Nine Months Ended September 30, 2006

Interest expense increased \$3.4 million (11%) and \$12.7 million (16%) to \$34.3 million and \$91.3 million for the three and nine months ended September 30, 2007, respectively, from \$30.9 million and \$78.6 million for the three and nine months ended September 30, 2006, respectively. We attribute this increase to the following:

Interest expense on commercial real estate loans was \$11.5 million and \$26.1 million for the three and nine months ended September 30, 2007, respectively, as compared to \$4.4 million and \$8.8 million for the three and nine months ended September 30, 2006, respectively, an increase of \$7.1 million (164%) and \$17.3 million (195%), respectively. This increase resulted primarily from the following:

- We closed our first commercial real estate loan CDO, Resource Real Estate Funding CDO 2006-1, in August 2006. Resource Real Estate Funding CDO 2006-1 issued \$308.7 million of senior notes at par consisting of several classes with floating rates ranging from one-month LIBOR plus 0.32% to one-month LIBOR plus 3.75% and fixed rates ranging from 5.84% to 6.00%. Prior to August 10, 2006, we financed these commercial real estate loans primarily with repurchase agreements. We continued to finance the growth of our commercial real estate loan portfolio after the closing of Resource Real Estate Funding CDO 2006-1 through repurchase agreements and closed our second commercial real estate loan CDO, Resource Real Estate Funding CDO 2007-1 in June 2007. Resource Real Estate Funding CDO 2007-1 issued \$408.8 million of senior notes at par consisting of several classes with floating rates ranging from one-month LIBOR plus 0.28% to one-month LIBOR plus 3.25% and fixed rates ranging from 6.42% to 8.50%. We continue to finance the growth of our commercial real estate loan portfolio with a secured term facility until loans can be matched-funded through one of our CDO vehicles. The increase in expense is primarily related to the growth of this portfolio. The weighted average balance for the three and nine months ended September 30, 2007 was \$700.7 million and \$534.5 million, respectively, as compared to \$263.6 million and \$185.8 million for the three and nine months ended September 30, 2006.
- We amortized \$469,000 and \$944,000 of deferred debt issuance costs related to the CDO and repurchase facility financings for the three and nine months ended September 30, 2007, respectively, compared to \$147,000 and \$445,000 for the three and nine months ended September 30, 2006, respectively.

Interest expense on bank loans was \$13.9 million and \$38.8 million for the three and nine months ended September 30, 2007, respectively, as compared to \$8.9 million and \$22.0 million for the three and nine months ended September 30, 2006, respectively, an increase of \$5.0 million (57%), and \$16.9 million (77%), respectively. This increase resulted primarily from the following:

-

As a result of the continued acquisitions of bank loans after the closing of Apidos CDO III, we financed our third bank loan CDO (Apidos Cinco CDO) in May 2007. Apidos CDO Cinco issued \$322.0 million of senior notes into several classes with floating rates ranging from three-month LIBOR plus 0.23% to three-month LIBOR plus 4.25%. We used Apidos CDO Cinco proceeds to repay borrowings under a warehouse facility which had a balance at the time of repayment of \$311.1 million. The weighted average interest rate on the senior notes and warehouse line was 5.88% and 5.92% for the three and nine months ended September 30, 2007. No such debt existed for the three and nine months ended September 30, 2006.

- In May 2006, Apidos CDO III issued \$262.5 million of senior notes into several classes with floating rates ranging from three-month LIBOR plus 0.26% to three-month LIBOR plus 4.25%. We used the Apidos CDO III proceeds to repay borrowings under a warehouse facility which had a balance at the time of repayment of \$222.6 million. The weighted average interest rate on the senior notes was 5.88% and 5.83% for the three and nine months ended September 30, 2007, respectively, as compared to 5.76% and 5.50% for the three and nine months ended September 30, 2006, respectively, on the warehouse facility and on the notes. The warehouse facility began accumulating assets in July 2006.
- In August 2005, Apidos CDO I issued \$321.5 million of senior notes consisting of several classes with floating rates ranging from three-month LIBOR plus 0.26% to three-month LIBOR plus 1.85% and a fixed rate of 9.25%. The weighted average interest rate on the senior notes was 5.81% for the three month and nine months ended September 30, 2007, respectively, as compared to 5.84% and 5.40% for the three and nine months ended September 30, 2006, respectively.
- The weighted average balance of debt related to bank loans increased to \$906.0 million and \$855.7 million for the three and nine months ended September 30, 2007, respectively, from \$584.0 million and \$520.4 million for the three and nine months ended September 30, 2006, respectively.
- We amortized \$351,000 and \$854,000 of deferred debt issuance costs related to the CDO financings for the three and nine months ended September 30, 2007, respectively, compared to \$229,000 and \$558,000 for the three and nine months ended September 30, 2006, respectively.

ABS-RMBS, CMBS and other asset-backed were pooled and financed by Ischus CDO II. Interest expense related to these obligations was \$5.9 million and \$17.1 million for the three and nine months ended September 30, 2007, respectively, as compared to \$5.7 million and \$15.9 million for the three and nine months ended September 30, 2006, respectively, an increase of \$105,000 (2%) and \$1.2 million (7%). This increase resulted primarily from an increase in LIBOR, which increased the weighted average interest rate on the senior notes issued by Ischus CDO II which was 5.94% and 5.84% for the three and nine months ended September 30, 2007, respectively, as compared to 5.83% and 5.43% for the three and nine months ended September 30, 2006, respectively.

Interest expense on CMBS-private placement was \$190,000 and \$1.0 million for the three and nine months ended September 30, 2007, respectively, due to the accumulation of securities in this portfolio beginning in December 2006. There were no such assets for the three and nine months ended September 30, 2006.

Interest expense on leasing activities was \$1.4 million and \$4.3 million for the three and nine months ended September 30, 2007, respectively, as compared to \$1.3 million and \$2.2 million for the three and nine months ended September 30, 2006, respectively, an increase of \$183,000 (15%) and \$2.0 million (93%), respectively. The increase for the nine months ended September 30, 2007 resulted from an increase in the amount of direct financing leases and notes we acquired and the related financing after March 31, 2006 and through September 30, 2007. The assets were acquired with cash until the facility closed on March 31, 2006 when we entered into a secured term facility. The increase for the three and nine months ended September 30, 2007 was also the result of an increase in the weighted average rate from 6.36% and 6.43% for the three and nine months ended September 30, 2006, respectively, to 6.72% and 6.57% for the three and nine months ended September 30, 2007, respectively.

General interest expense was \$1.4 million and \$3.9 million for the three and nine months ended September 30, 2007, respectively, as compared to \$745,000 and \$1.2 million for the three and nine months ended September 30, 2006, respectively, an increase of \$634,000 (85%) and \$2.7 million (225%), respectively. These increases resulted from an increase of \$613,000 and \$2.8 million in expenses on our unsecured junior subordinated debentures held by unconsolidated trusts that issued trust preferred securities which were not issued until May 2006 and September 2006, respectively.

These increases in interest expense were offset by a decrease of \$9.9 million and \$28.4 million for the three and nine months ended September 30, 2007 in interest expense related to the agency ABS-RMBS portfolio as a result of the sale and repayment of debt on our agency ABS-RMBS portfolio in January and September 2006, respectively.

Other Revenue

Net realized losses on investments decreased \$8.4 million (101%) and \$9.2 million (104%) to a gain of \$115,000 and \$336,000 for the three and nine months ended September 30, 2007, respectively, from a loss of \$8.3 million and \$8.9 million for the three and nine months ended September 30, 2006, respectively. Realized losses during the three and nine months ended September 30, 2006 primarily consisted of \$8.3 million and \$9.6 million, respectively, of losses on the sale of our agency ABS-RMBS portfolio.

Other income decreased \$74,000 (19%) to \$310,000 for the three months ended September 30, 2007 from \$384,000 for the three months ended September 30, 2006, primarily due to \$90,000 in consulting fee income earned during the three months ended September 30, 2006. There was no such income during the three months ended September 30, 2007.

Other income increased \$388,000 (99%) to \$779,000 for the nine months ended September 30, 2007 from \$391,000 for the nine months ended September 30, 2006 as a result of an increase of \$394,000 in prepayment penalties on commercial real estate loans and an increase of \$83,000 in dividend income related to our unsecured junior subordinated debentures held by unconsolidated trusts that issue trust preferred securities which were not issued until May 2006 and September 2006, respectively. These increases were offset by the decrease in consulting fee income referred to above.

Non-Investment Expenses

The following table sets forth information relating to the expenses we incurred for the periods presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Management fee – related party	\$ 1,298	\$ 917	\$ 5,357	\$ 3,147
Equity compensation – related party	94	798	717	1,620
Professional services	772	480	2,005	1,266
Insurance	116	126	351	372
General and administrative	496	443	1,403	1,220
Total	\$ 2,776	\$ 2,764	\$ 9,833	\$ 7,625

Management fee–related party increased \$381,000 (42%) and \$2.2 million (70%) to \$1.3 million and \$5.4 million for the three and nine months ended September 30, 2007, respectively, as compared to \$917,000 and \$3.1 million for the three and nine months ended September 30, 2006, respectively. These amounts represent compensation in the form of base management fees and incentive management fees pursuant to our management agreement. The base management fees increased by \$381,000 (42%) and \$1.2 million (43%) to \$1.3 million and \$3.9 million for the three and nine months ended September 30, 2007, respectively, as compared to \$917,000 and \$2.7 million for the three and nine months ended September 30, 2006, respectively. This increase was due to increased equity as a result of our public offerings in February and December 2006 and the January 2007 exercise of the over-allotment option that was part of the December 2006 follow-on offering. Incentive management fees increased by \$1.0 million (241%) to \$1.5 million for the nine months ended September 30, 2007 from \$433,000 for the nine months ended September 30, 2006 as a result of an increase of \$8.9 million in our adjusted GAAP income, as defined in the management agreement, during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006. This was partially offset by an increase during the nine months ended September 30, 2007 in two measures used in the formula calculating the incentive management fee: weighted average common shares and weighted average offering price per share. The Manager did not earn an incentive management fee for the three months ended September 30, 2007 and 2006.

Equity compensation–related party decreased \$704,000 (88%) and \$903,000 (56%) to \$94,000 and \$717,000 for the three and nine months ended September 30, 2007, respectively, as compared to \$798,000 and \$1.6 million for the three and nine months ended September 30, 2006, respectively. These expenses relate to the amortization of the March 8, 2005 grant of restricted common stock to the Manager, the March 8, 2005, 2006 and 2007 grants of restricted common stock to our non-employee independent directors, the March 8, 2005 grant of options to the Manager to purchase common stock, the January 5, 2007 grant of restricted stock to several employees of Resource America, Inc., or RAI, who provide investment management services to us through our Manager and a June 27, 2007 grant of performance shares to two employees of RAI. The decreases in expense were primarily the result of the vesting of two thirds of the stock and options related to the March 8, 2005 grants of restricted stock and options to the Manager on March 8, 2006 and March 8, 2007 as well as an adjustment related to our quarterly remeasurement of unvested stock and options granted to the Manager to reflect changes in the fair value of our common stock. This was offset by expense related to the January 5, 2007 and June 27, 2007 grants.

Professional services increased \$292,000 (61%) and \$739,000 (58%) to \$772,000 and \$2.0 million for the three and nine months ended September 30, 2007, respectively, as compared to \$480,000 and \$1.3 million for the three and nine months ended September 30, 2006, respectively, due to the following:

- Increases of \$78,000 and \$201,000 in audit and tax fees for the three and nine months ended September 30, 2007, respectively, due to the timing of when the services were performed and billed.
- Increase of \$182,000 in LEAF servicing expense for the nine months ended September 30, 2007 due to the increase in managed assets in the nine months ended September 30, 2007.
- Increases of \$41,000 and \$89,000 in fees associated with our Sarbanes-Oxley compliance for the three and nine months ended September 30, 2007, respectively.
- Increases of \$60,000 and \$139,000 in trustee fees with respect to our CDOs and increases of \$62,000 and \$63,000 in agreed-upon procedures fees to independent audit firms for the three and nine months ended September 30, 2007, respectively, due to three CDO vehicles closing subsequent to September 30, 2006. Therefore, we incurred no trustee fees or agreed-upon procedures fees for them for the three and nine months ended September 30, 2006.
- Increases of \$61,000 and \$72,000 in legal fees due to our having been subject to a full nine months of reporting obligations under the Securities Exchange Act of 1934.

General and administrative expenses increased \$53,000 (12%) and \$183,000 (15%) to \$496,000 and \$1.4 million for the three and nine months ended September 30, 2007, respectively, as compared to \$443,000 and \$1.2 million for the three and nine months ended September 30, 2006, respectively. These expenses include expense reimbursements to our Manager, rating agency expenses and all other operating costs incurred. The increase for the nine months ended September 30, 2007 primarily was the result of an increase in income tax expense related to Resource TRS, our domestic taxable REIT subsidiary. Resource TRS had no taxable income for the nine months ended September 30, 2006.

Other Expenses

Our provision for loan and lease losses was \$326,000 for the three and nine months ended September 30, 2007. It consisted of a \$196,000 provision for loan loss on our bank loan portfolio and a \$130,000 provision for lease loss on our direct financing leases and notes as a result of having one bank loan and five leases that were not current with respect to scheduled payment of interest. There was no such provision for the three and nine months ended September 30, 2006.

Asset impairments were \$25.5 million and \$26.3 million for the three and nine months ended September 30, 2007, respectively, and consisted entirely of other-than-temporary impairment on assets in our ABS-RMBS portfolio. During the second and third quarters of 2007 we experienced illiquidity in the sub-prime market and deteriorating delinquency characteristics of the mortgages underlying our bonds. These trends together with significant rating agency actions supported the need to further reevaluate the level of asset impairments in our ABS-RMBS portfolio. The asset impairments recorded reflect these worsening market conditions. There was no such impairment for the three and nine months ended September 30, 2006.

Income Taxes

We do not pay federal income tax on income we distribute to our stockholders, subject to our compliance with REIT qualification requirements. However, Resource TRS, our domestic TRS, is taxed as a regular subchapter C corporation under the provisions of the Internal Revenue Code. For the three and nine months ended September 30, 2007, Resource TRS recorded a \$254,000 and \$83,000 provision for income taxes. For the three and nine months ended September 30, 2006, we did not conduct any of our operations through Resource TRS. These amounts are included in general and administrative expense.

Investment Portfolio

The table below summarizes the amortized cost and fair value of our investment portfolio as of September 30, 2007 and December 31, 2006, classified by interest rate type. The following table includes both (i) the amortized cost of our investment portfolio and the related dollar price, which is computed by dividing amortized cost by par amount, and (ii) the fair value of our investment portfolio and the related dollar price, which is computed by dividing the fair value by par amount (in thousands, except percentages):

We present an analysis of the credit quality of each of our principal asset classes below. If we are unable to maintain the credit quality of our portfolio, however, our earnings may decrease. Because the amount of leverage we intend to use will vary by asset class, our asset allocation may not reflect the relative amounts of equity capital we have invested in the respective classes.

ABS.RMBS. At September 30, 2007 and December 31, 2006, we held \$203.8 million and \$342.8 million, respectively, of ABS-RMBS, at fair value, which is based on market prices provided by dealers, net of unrealized gains of \$31,000 and \$913,000, respectively, and unrealized losses of \$120.0 million and \$6.6 million, respectively. The fair value also included \$26.3 million of realized losses as a result of other-than-temporary impairment recognized on our securities during the nine months ended September 30, 2007. In the aggregate, we purchased our ABS-RMBS portfolio at a discount. The remaining discounts (net of premium) to be accreted into income over the remaining lives of the securities at September 30, 2007 and December 31, 2006 was \$2.5 million and \$2.7 million, respectively. As of September 30, 2007 and December 31, 2006, our ABS-RMBS were valued below par, in the aggregate, because of wide credit spreads during the respective periods. These securities are classified as available-for-sale and, as a result, are carried at their fair market value.

The table below summarizes our ABS-RMBS portfolio as of September 30, 2007 and December 31, 2006 (in thousands, except percentages). Dollar price is computed by dividing amortized cost by par amount.

Bank Loans. At September 30, 2007, we held a total of \$915.7 million of bank loans at fair value, all of which are held by and secure the debt issued by Apidos CDO I, Apidos CDO III and Apidos Cinco CDO. This is an increase of \$301.9 million over our holdings at December 31, 2006. The increase in total bank loans was principally due to the accumulation of bank loans for Apidos Cinco CDO. We own 100% of the equity issued by Apidos CDO I, Apidos CDO III and Apidos Cinco CDO which we have determined are variable interest entities, or VIEs and are, therefore, deemed to be their primary beneficiaries. See “-Variable Interest Entities.” As a result, we consolidated Apidos CDO I, Apidos CDO III and Apidos Cinco CDO as of September 30, 2007.

Variable Interest Entities

In December 2003, the FASB issued Financial Interpretation No. 46-R, or FIN 46-R which addresses the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to a VIE, and requires that the assets, liabilities and results of operations of a VIE be consolidated into the financial statements of the enterprise that has a controlling financial interest in it. The interpretation provides a framework for determining whether an entity should be evaluated for consolidation based on voting interests or significant financial support provided to the entity which we refer to as variable interests. We consider all counterparties to a transaction to determine whether a counterparty is a VIE and, if so, whether our involvement with the entity results in a variable interest in the entity. We perform analyses to determine whether we are the primary beneficiary. As of September 30, 2007, we determined that Resource Real Estate Funding CDO 2006-1, Resource Real Estate Funding CDO 2007-1, Ischus CDO II, Apidos CDO I, Apidos CDO III and Apidos Cinco CDO were VIEs and that we were the primary beneficiary of the VIEs. We own 100% of the equity interests of Resource Real Estate Funding CDO 2006-1, Resource Real Estate Funding CDO 2007-1, Ischus CDO II, Apidos CDO I, Apidos CDO III and Apidos Cinco CDO. As a result of the application of FIN 46-R, we consolidated \$2.0 billion of loans and securities for these entities onto our balance sheet; however, only our initial equity investments in these VIEs, amounting to \$295.9 million as of September 30, 2007, is available to our creditors.

Interest Receivable

At September 30, 2007, we had accrued interest receivable of \$14.0 million, which consisted of \$13.7 million of interest on our securities, loans and equipment leases and notes and \$273,000 of interest earned on escrow, sweep accounts and margin calls. At December 31, 2006, we had accrued interest receivable of \$8.8 million, which consisted of \$8.7 million of interest on our securities, loans and equipment leases and notes, \$8,000 of purchased interest that had been accrued on commercial real estate loans purchased and \$73,000 of interest earned on brokerage and sweep accounts.

Principal Paydown Receivables

At September 30, 2007 and December 31, 2006, we had principal paydown receivables of \$427,000 and \$503,000, respectively, which consisted of principal payments on our bank loans.

Other Assets

Other assets at September 30, 2007 of \$5.7 million consisted primarily of \$3.5 million of loan origination costs associated with our revolving credit facility, commercial real estate loan portfolio and secured term facility, \$201,000 of prepaid directors' and officers' liability insurance, \$337,000 of prepaid expenses and \$1.6 million of lease payment receivables.

Other assets at December 31, 2006 of \$3.1 million consisted primarily of \$2.9 million of loan origination costs associated with our trust preferred securities issuance, revolving credit facility, commercial real estate loan portfolio and secured term facility and \$92,000 of prepaid directors' and officers' liability insurance.

Hedging Instruments

Our hedges at September 30, 2007 and December 31, 2006, were fixed-for-floating interest rate swap agreements whereby we swapped the floating rate of interest on the liabilities we hedged for a fixed rate of interest. We also had one interest rate cap. As of December 31, 2006, we had entered into hedges with a notional amount of \$239.9 million and maturities ranging from November 2009 to February 2017. At September 30, 2007, the unrealized loss on our interest rate swap agreements and interest rate cap agreement was \$6.4 million. We intend to continue to seek such hedges for our floating rate debt in the future. Our hedges at September 30, 2007 were as follows (in thousands):

Borrowings

Repurchase Agreements

We have entered into repurchase agreements to finance our commercial real estate loans and CMBS-private placement portfolio. These agreements are secured by the financed assets and bear interest rates that have historically moved in close relationship to LIBOR. At September 30, 2007, we had established 10 borrowing arrangements with various financial institutions and had utilized four of these arrangements, principally our arrangement with Credit Suisse Securities (USA) LLC, the initial purchaser and placement agent for our March 2005 offering and one of the underwriters in our two public offerings. None of the counterparties to these agreements are affiliates of the Manager or us.

In April 2007, RCC Real Estate SPE 3, LLC, entered into a three year term master repurchase agreement with Natixis Real Estate Capital, Inc. to finance the purchase of commercial real estate loans and commercial mortgage-backed securities. The maximum amount of our borrowings under the repurchase agreement is \$150.0 million. The financing provided by the agreement matures April 18, 2010 subject to a one-year extension at the option of RCC Real Estate SPE 3 and subject further to the right of RCC Real Estate SPE 3 to repurchase the assets held in the facility earlier. We paid a facility fee of 0.75% of the maximum facility amount, or \$1.2 million, at closing. In addition, once the borrowings exceed a weighted average undrawn balance of \$75.0 million for the prior 90 day period, we will be required to pay a Non-Usage Fee equal to the product of (i) 0.15% per annum multiplied by, (ii) the weighted average undrawn balance during the prior 90 day period. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sales price, repurchase price, rate and term. We guarantee RCC Real Estate SPE 3, LLC's obligations under the repurchase agreement to a maximum of \$150.0 million. At September 30, 2007, we had borrowed \$92.2 million, all of which was guaranteed, with a weighted average interest rate of 7.01%.

Collateralized Debt Obligations

As of September 30, 2007, we had closed six CDO transactions as follows:

- In June 2007, we closed Resource Real Estate CDO 2007-1, a \$500.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by Resource Real Estate Funding CDO 2007-1 collateralized \$390.0 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, Inc., or RCC Real Estate, purchased 100% of the class H senior notes (rated BBB+:Fitch), class K senior notes (rated BBB-:Fitch), class L senior notes (rated BB:Fitch) and class M senior notes (rated B:Fitch) for \$68.0 million. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. At September 30, 2007, the notes issued to outside investors had a weighted average borrowing rate of 5.74%.
- In May 2007, we closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos Cinco CDO collateralized \$322.0 million of senior notes issued by the CDO vehicle. At September 30, 2007, the notes issued to outside investors had a weighted average borrowing rate of 5.88%.
- In August 2006, we closed Resource Real Estate Funding CDO 2006-1, a \$345.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by Resource Real Estate Funding CDO 2006-1 collateralized \$308.7 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, Inc., or RCC Real Estate, purchased 100% of the class J senior notes (rated BB:Fitch) and class K senior notes (rated B:Fitch) for \$43.1 million. At September 30, 2007, the notes issued to outside investors had a weighted average borrowing rate of 5.96%.

- In May 2006, we closed Apidos CDO III, a \$285.5 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO III collateralized \$262.5 million of senior notes issued by the CDO vehicle. At September 30, 2007, the notes issued to outside investors had a weighted average borrowing rate of 6.16%.
- In August 2005, we closed Apidos CDO I, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO I collateralize \$321.5 million of senior notes issued by the CDO vehicle. At September 30, 2007, the notes issued to outside investors had a weighted average borrowing rate of 5.81%.

- In July 2005, we closed Ischus CDO II, a \$403.0 million CDO transaction that provided financing for MBS and other asset-backed. The investments held by Ischus CDO II collateralize \$376.0 million of senior notes issued by the CDO vehicle. At September 30, 2007, the notes had a weighted average borrowing rate of 6.28%.

Trust Preferred Securities

In May and September 2006, we formed Resource Capital Trust I and RCC Trust II, respectively, for the sole purpose of issuing and selling trust preferred securities. In accordance with FIN 46-R, Resource Capital Trust I and RCC Trust II are not consolidated into our consolidated financial statements because we are not deemed to be the primary beneficiary of either trust. We own 100% of the common shares of each trust, each of which issued \$25.0 million of preferred shares to unaffiliated investors. Our rights as the holder of the common shares of each trust are subordinate to the rights of the holders of preferred shares only in the event of a default; otherwise, our economic and voting rights are pari passu with the preferred shareholders. We record each of our investments in the trusts' common shares of \$774,000 as an investment in unconsolidated entities and record dividend income upon declaration by each trust.

In connection with the issuance and sale of the trust preferred securities, we issued \$25.8 million principal amount of junior subordinated debentures to each of Resource Capital Trust I and RCC Trust II. The junior subordinated debentures debt issuance costs are deferred in other assets in the consolidated balance sheets. We record interest expense on the junior subordinated debentures and amortization of debt issuance costs in our consolidated statements of operations. At September 30, 2007, the junior subordinated debentures had a weighted average borrowing rate of 9.31%.

Warehouse Facility

In January 2007, we formed Apidos Cinco CDO and began borrowing on a warehouse facility provided by Credit Suisse Securities (USA) LLC to purchase bank loans. At May 30, 2007, \$311.1 million was outstanding under the facility. On May 30, 2007, we terminated our Apidos Cinco CDO warehouse agreement with Credit Suisse Securities (USA) LLC and the warehouse funding liability was replaced with the issuance of long-term debt by Apidos Cinco CDO.

Term Facility

In March 2006, we entered into a secured term credit facility with Bayerische Hypo- und Vereinsbank AG, New York Branch to finance the purchase of equipment leases and notes. The maximum amount of our borrowing under this facility is \$100.0 million. At September 30, 2007, \$79.2 million was outstanding under the facility. The facility bears interest at one of two rates, determined by asset class. The weighted average borrowing rate was 6.40% at September 30, 2007.

Credit Facility

In December 2005, we entered into a \$15.0 million corporate credit facility with Commerce Bank, N.A., or Commerce Bank. This facility was increased to \$25.0 million in April 2006. The unsecured revolving credit facility permits us to borrow up to the lesser of the facility amount and the sum of 80% of the sum of our unsecured assets rated higher than Baa3 or better by Moody's and BBB- or better by Standard and Poor's plus our interest receivables plus 65% of our unsecured assets rated lower than Baa3 by Moody's and BBB- from Standard and Poor's. Up to 20% of the borrowings under the facility may be in the form of standby letters of credit. At September 30, 2007, there were no borrowings outstanding under this facility. The interest rate varies, in the case of LIBOR loans, from the adjusted LIBOR rate (as defined in the agreement) plus between 1.50% to 2.50% depending upon our leverage ratio (the ratio of consolidated total liabilities to consolidated tangible net worth) or, in the case of base rate loans, from Commerce Bank's base rate plus between 0.50% and 1.50% also depending upon our leverage ratio. As of September 30, 2007,

\$11.2 million was available under this facility.

50

We received a waiver for the period ended September 30, 2007 from Commerce Bank, N.A. with respect to our non-compliance with the consolidated tangible net worth covenant. The waiver was required due to our unrealized losses on our derivatives and CMBS private placement securities during the three months ended September 30, 2007. Under the covenant, we are required to maintain a consolidated net worth (stockholder's equity) of at least \$195.0 million plus 90% of the net proceeds of any capital transactions, measured at each quarter end, as further described in the agreement. The next covenant measurement date is December 31, 2007. We will seek to renegotiate this agreement during the fourth quarter of 2007.

Stockholders' Equity

Stockholders' equity at September 30, 2007 was \$174.3 million and included \$127.3 million of net unrealized losses on our ABS-RMBS, CMBS and other asset-backed portfolio, \$7.8 million of unrealized losses on our CMBS-private placement portfolio, and \$6.4 million of unrealized losses on cash flow hedges all of which are shown as components of accumulated other comprehensive loss. Stockholders' equity at December 31, 2006 was \$317.6 million and included \$6.0 million of net unrealized losses on our ABS-RMBS, CMBS and other asset-backed portfolio and \$3.2 million of unrealized losses on cash flow hedges, shown as a component of accumulated other comprehensive loss.

The decrease in stockholders' equity during the nine months ended September 30, 2007 was principally due to an increase of \$121.3 million in the unrealized losses in the ABS-RMBS portfolio held by Ischus CDO II. The unrealized losses were due primarily to significant widening in interest rate spreads in the ABS-RMBS market, which produced illiquidity and increased levels of risk premium attached to these types of securities. The Ischus CDO II investment is the only residential mortgage exposure in our portfolio. Our investment and, as a consequence, our risk exposure in Ischus CDO II is limited to our original \$27.0 million investment. However, as a result of the application of FIN 46-R, we have been deemed to be the primary beneficiary of Ischus CDO II and must consolidate its assets and liabilities with ours. Consequently, \$127.3 million of unrealized loss experienced by Ischus CDO II is reflected in our other comprehensive income, notwithstanding that our maximum risk exposure is \$27.0 million. At September 30, 2007, we recognized an other-than-temporary impairment on securities in this portfolio totaling \$25.5 million and \$26.3 million for the three and nine months ended September 30, 2007, respectively.

On November 7, 2007, we sold 10% of our \$27.0 million of preference equity in Ischus CDO II to an unrelated party. Under FIN 46-R, we are required to reconsider our initial decision to consolidate the Ischus CDO II investment if we sell all or part of our variable interest in the investment. We have reconsidered our initial decision to consolidate the VIE and concluded that we are no longer the primary beneficiary of Ischus CDO II since we will not absorb the majority of the expected losses or receive the majority of the expected returns. As a result, we will not consolidate the VIE beginning in the fourth quarter of 2007.

The decrease in the Ischus CDO II portfolio was partially offset by the exercise in January 2007, of the over allotment option of 650,000 shares of common stock related to our December 2006 follow-on offering at a price of \$16.50 per share. The option exercise generated net proceeds after underwriting discounts and commissions of \$10.1 million. The decrease in stockholders equity was also offset by the exercise of 375,547 warrants at a price of \$15.00 per share during the three months ended September 30, 2007.

Fluctuations in market values of assets do not impact our income determined in accordance with GAAP, or our taxable income, but rather are reflected on our consolidated balance sheets by changing the carrying value of the asset and stockholders' equity under "Accumulated Other Comprehensive Income (Loss)." By accounting for our assets in this manner, we hope to provide useful information to stockholders and creditors and to preserve flexibility to sell assets in the future without having to change accounting methods.

Estimated REIT Taxable Income

We calculate estimated REIT taxable income, which is a non-GAAP financial measure, according to the requirements of the Internal Revenue Code. The following table reconciles net income to estimated REIT taxable income for the periods presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Net (loss) income	\$ (13,915)	\$ (2,401)	\$ 5,360	\$ 8,814
Adjustments:				
Share-based compensation to related parties	(385)	798	(725)	1,620
Incentive management fee expense to related parties paid in shares	(417)	—	—	108
Capital losses from the sale of securities available-for-sale	—	10,875	—	12,286
Asset impairments related to ABS-RMBS portfolio	25,490	—	26,277	—
Other net book to tax adjustments	90	(49)	139	713
Estimated REIT taxable income	\$ 10,863	\$ 9,223	\$ 31,051	\$ 23,541

We believe that a presentation of estimated REIT taxable income provides useful information to investors regarding our financial condition and results of operations as this measurement is used to determine the amount of dividends that we are required to declare to our stockholders in order to maintain our status as a REIT for federal income tax purposes. Since we, as a REIT, expect to make distributions based on taxable earnings, we expect that our distributions may at times be more or less than our reported GAAP earnings. Total taxable income is the aggregate amount of taxable income generated by us and by our domestic and foreign taxable REIT subsidiaries. Estimated REIT taxable income excludes the undistributed taxable income of our domestic taxable REIT subsidiary, if any such income exists, which is not included in REIT taxable income until distributed to us. There is no requirement that our domestic taxable REIT subsidiary distribute its earnings to us. Estimated REIT taxable income, however, includes the taxable income of our foreign taxable REIT subsidiaries because we will generally be required to recognize and report their taxable income on a current basis. We use estimated REIT taxable income for this purpose. Because not all companies use identical calculations, this presentation of estimated REIT taxable income may not be comparable to other similarly-titled measures of other companies.

Liquidity and Capital Resources*Capital Sources*

For the nine months ended September 30, 2007, our principal sources of funds were CDO financings of \$670.9 million, \$92.0 million from secured term financings, \$21.9 million of repurchase agreement debt, \$2.2 million from a commercial real estate credit facility, \$10.1 million of net proceeds from the exercise of the over-allotment option related to our December 31, 2006 follow-on offering, and \$5.6 million of proceeds from the exercise of warrants.

Liquidity

Our liquidity needs consist principally of capital needed to make investments, make distributions to our stockholders, pay our operating expenses, including management fees and our approved share repurchase plan. Our ability to meet our liquidity needs will be subject to our ability to generate cash from operations, and, with respect to our investments, our ability to obtain debt financing and equity capital. We may seek to increase our capital resources through offerings of equity securities (possibly including common stock and one or more classes of preferred stock), CDOs, trust preferred securities or other forms as has been available to us in the past of term financing. However, the availability of any such financing will depend on market conditions which, as discussed in "Overview", have recently been subject to substantial volatility and reduction in liquidity. If we are unable to renew, replace or expand our sources of financing on substantially similar terms, we may be unable to implement our investment strategies successfully and may be required to liquidate portfolio investments. If required, a sale of portfolio investments could be at prices lower than the carrying value of such investments, which could result in losses and reduced income.

Through the date of this report we have not experienced any constraints with respect to our use of our existing credit facilities, nor have any lenders indicated to us that they will impose any such constraints and at September 30, 2007, we maintained adequate liquidity. We had \$76.9 million of restricted cash in our six CDOs available for investment by them and \$8.9 million of cash and available cash from our three year non-recourse secured financing facilities. We also had \$205.8 million of unused capacity under our secured financing facilities, \$39.7 million available to finance future funding commitments associated with real estate whole loans under Resource Real Estate Funding CDO 2007-1, Ltd., or RREF CDO 2, \$20.8 million of availability under a secured term facility and \$12.7 million of unused capacity under a unsecured revolving credit facility.

Subsequent to September 30, 2007, we have continued to maintain adequate liquidity. At November 9, 2007, we had \$35.3 million of restricted cash in our six CDOs available for investment by them, \$7.4 million of cash and cash equivalents, \$5.3 million of restricted cash in margin call accounts and \$10.8 million of cash and available cash from our three year non-recourse secured financing facilities. We also had \$199.4 million of unused capacity under our secured financing facilities, \$38.3 million available to finance future funding commitments associated with real estate whole loans under RREF CDO 2, \$23.4 million of availability under a secured term facility and \$11.2 million of unused capacity under a unsecured revolving credit facility.

Distributions

On September 17, 2007, we declared a quarterly distribution of \$0.41 per share of common stock, \$10.3 million in aggregate, which was paid on October 12, 2007. On June 18, 2007, we declared a quarterly distribution of \$0.41 per share of common stock, \$10.3 million in the aggregate, which was paid on July 17, 2007. On March 20, 2007, we declared a quarterly distribution of \$0.39 per share of common stock, \$9.7 million in the aggregate, which was paid on April 16, 2007.

Leverage

Our leverage ratio may vary as a result of the different asset categories and funding strategies we apply. As of September 30, 2007 and December 31, 2006 our leverage ratio was 12.1 times and 4.6 times, respectively. This increase was primarily a result of mark to market adjustments through Other Comprehensive Income and CDO closings and other financings through September 30, 2007.

Contractual Obligations and Commitments

The table below summarizes our contractual obligations as of September 30, 2007. The table below excludes contractual commitments related to our derivatives, which we discuss in our Annual Report on Form 10-K for fiscal 2006 in Item 7A, “Quantitative and Qualitative Disclosures about Market Risk,” and the incentive fee payable under the management agreement that we have with our Manager, which we discuss in our Annual Report on Form 10-K for fiscal 2006 in Item 1, “Business” and Item 13, “Certain Relationships and Related Transactions,” because those contracts do not have fixed and determinable payments.

	Contractual commitments (dollars in thousands)				
	Payments due by period				
	Total	Less than 1 year	1 – 3 years	3 – 5 years	More than 5 years
Repurchase agreements ⁽¹⁾	\$ 116,293	\$ 116,293	\$ –	\$ –	\$ –
CDOs	1,868,363	–	–	–	1,868,363

Base management fees ⁽²⁾	5,243	5,243	–	–	–
Total	\$ 2,120,624	\$ 121,536	\$ 79,177	\$ –	\$ 1,919,911

(1) Includes accrued interest of \$254.

(2) Calculated only for the next 12 months based on our current equity, as defined in our management agreement.

At September 30, 2007, we had 29 interest rate swap contracts with a notional value of \$352.0 million. These contracts are fixed-for-floating interest rate swap agreements under which we contracted to pay a fixed rate of interest for the term of the hedge and will receive a floating rate of interest. As of September 30, 2007, the average fixed pay rate of our interest rate hedges was 5.36% and our receive rate was one-month LIBOR, or 5.28%.

At September 30, 2007, we also had one interest rate cap with a notional value of \$15.0 million. This cap reduces our exposure to the variability in future cash flows attributable to changes in LIBOR.

Off-Balance Sheet Arrangements

As of September 30, 2007, we did not maintain any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities or variable interest entities, established for the purpose of facilitating off-balance sheet arrangements or contractually narrow or limited purposes. Further, as of September 30, 2007, we had not guaranteed any obligations of unconsolidated entities or entered into any commitment or intent to provide additional funding to any such entities.

Recent Developments

We continue to buy back shares as part of the share repurchase program authorized by the board of directors. As of November 9, 2007, we had repurchased a total of 263,000 shares at a weighted average price, including commission, of \$10.54.

On November 7, 2007, we sold a notional \$2.7 million or 10% of our preference equity of \$27.0 million in Ischus CDO II to an unrelated party. Under FIN 46-R, Ischus CDO II was considered a VIE and we were deemed the primary beneficiary at inception in July 2005. Further, (under paragraph 15 of the Interpretation) the primary beneficiary is required to reconsider its initial decision to consolidate a VIE if the primary beneficiary sells all or part of its variable interests to unrelated parties. Given these circumstances, we reconsidered our initial decision to consolidate the VIE and concluded that it is no longer the primary beneficiary of Ischus CDO II since we will not absorb a majority of the expected losses or receive a majority of the expected returns. As a result, we will not consolidate the VIE beginning in the fourth quarter of 2007.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of September 30, 2007 and December 31, 2006, the primary component of our market risk was interest rate risk, as described below. While we do not seek to avoid risk completely, we do seek to assume risk that can be quantified from historical experience, to actively manage that risk, to earn sufficient compensation to justify assuming that risk and to maintain capital levels consistent with the risk we undertake or to which we are exposed.

The following sensitivity analysis tables illustrate the estimated impact on the fair value of our interest rate-sensitive investments and liabilities of changes in interest rates, assuming rates instantaneously fall 100 basis points and rise 100 basis points at September 30, 2007 and December 31, 2006 (dollars in thousands):

-----------------------------------	-----	---	-----

(1) Includes the fair value of other available-for-sale investments that are sensitive to interest rate changes.

(2) The fair value of the repurchase agreements and warehouse agreements would not change materially due to the short-term nature of these instruments.

For purposes of the tables, we have excluded our investments with variable interest rates that are indexed to LIBOR. Because the variable rates on these instruments are short-term in nature, we are not subject to material exposure to movements in fair value as a result of changes in interest rates.

It is important to note that the impact of changing interest rates on fair value can change significantly when interest rates change beyond 100 basis points from current levels. Therefore, the volatility in the fair value of our assets could increase significantly when interest rates change beyond 100 basis points from current levels. In addition, other factors impact the fair value of our interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of our assets would likely differ from that shown above and such difference might be material and adverse to our stockholders.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

There were no significant changes in our internal control over financial reporting that have partially affected, or are reasonably likely to materially affect, our internal control over financial reporting during our most recent fiscal quarter.

PART II. OTHER INFORMATION**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

(a). In accordance with the provisions of the management agreement, on July 31, 2007, we issued 26,194 shares of common stock to the Manager. These shares represented 50% of the Manager's quarterly incentive compensation fee that accrued for the three months ended June 30, 2007. The issuance of these shares was exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereof.

(c). The following table provides information about purchases by us during the three months ended September 30, 2007 of equity securities that are registered by us pursuant to Section 12 of the Securities Exchange Act of 1934.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet be Purchased Under the Plans or Programs (1)
July 26 to July 31, 2007	—	\$ —	—	2,500,000
August 1 to August 31, 2007	—	\$ —	—	2,500,000

Total	118,900		118,900	

(1) On July 26, 2007, the Board of Directors approved a share repurchase program under which we may repurchase our common stock up to an aggregate of 2.5 million shares, or approximately 10% of our outstanding common shares. Repurchases may be made from time to time through open market purchases or privately negotiated transactions at the discretion of the Company and in accordance with the rules of the Securities and Exchange Commission, as applicable. The amount and timing of any repurchases will depend on market conditions.

(2) Through September 30, 2007, we have repurchased an aggregate of 118,900 shares at a total cost of approximately \$1.3 million pursuant to our stock repurchase program, at an average cost, including commission, of \$10.76 per share.
