Explanatory Note

This Amendment No. 1 to Form 8-K of RiceBran Technologies (the “Company”) amends the Company’s Form 8-K originally filed with the Securities and Exchange Commission on May 15, 2015 (the “Original Filing”). The Company is filing this amendment to correct typographical errors in the interest rate and maturity date of the promissory notes that were in effect prior to their amendment on May 12, 2015. This Amendment No. 1 to Form 8-K amends and restates in its entirety the subsection “Amended Note and Warrant Purchase Agreement” under Item 1.01. No other changes were made to the Original Filing.

Item 1.01 Entering into a Material Definitive Agreement

Amended Note and Warrant Purchase Agreement

On May 12, 2015, the Company entered into an Amendment to Loan Documents with certain investors under the Note and Warrant Purchase Agreement, originally dated January 17, 2012, and as amended thereafter (the “Amendment”). Pursuant to the Amendment, the terms of the promissory notes held by electing investors extend the maturity dates from July 31, 2016 to May 31, 2018, and changes the interest rate from 5% per annum to an annual interest rate of Base Rate (determined as a function of LIBOR and as defined in the Amendment) plus 11%. Subordinated note holders representing approximately 97% of the principal due have agreed to the amendment to their notes. These participating noteholders will receive warrants to acquire approximately 289,670 shares of common stock in the aggregate with an exercise price equal to \$5.25 per share, which warrants will be split pro rata among the participating noteholders based upon the principal amounts of their promissory notes. Each participating noteholder also signed a subordination agreement, pursuant to which they subordinated their security interest to Senior Lender. Further, the participating investors and the Company entered into a Third Amended and Restated Security Agreement, which secured the notes under the Note and Warrant Purchase Agreement, subordinate to Senior Lender.
