Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

We are a regional distributor of grocery and household items specializing in distribution to the military market. We distribute a wide variety of items, including fresh and frozen meat and poultry, seafood, frozen foods, canned and dry goods, beverages, dairy products, paper goods and cleaning and other supplies. Our operations are currently directed to servicing the commissary at each of six military installations located in Colorado, Wyoming and South Dakota, including the Air Force Academy located in Colorado Springs, Colorado. We are approved by the Department of Defense to contract with military commissaries and exchanges.

Military commissaries are large supermarket-type stores operated by the United States Defense Commissary Agency ("DeCA") to provide grocery items for sale to authorized patrons at the lowest practicable prices in facilities designed and operated under standards similar to those in commercial food stores. As of April 30, 2004, there were 275 commissaries worldwide, of which 171 were located in the Continental U.S. and 104 were located overseas. Commissaries are authorized by law to sell goods only to authorized patrons, which include the approximately 1.4 million active duty U.S. military personnel, their dependents and certain authorized reservists and retirees. As of April 30, 2004, these authorized patrons totaled approximately 12.4 million individuals. Annual worldwide commissary sales totaled approximately \$5 billion in DeCA's fiscal year ended September 30, 2003.

We were formed as a New York corporation on August 31, 1983 under the name Owl Capital Corp. On June 17, 1988, we changed our name to Bactrol Technologies, Inc. On November 15, 2001, we acquired 98.2% of the issued and outstanding shares of Military Resale Group, Inc., a Maryland corporation, in a reverse acquisition (the "Reverse Acquisition") and subsequently changed our name to Military Resale Group, Inc. In connection with the Reverse Acquisition, we commenced operations in our current line of business. Prior to the Reverse Acquisition, we were inactive and had nominal assets and liabilities. Our principal address is 2180 Executive Circle, Colorado Springs, Colorado 80906, and our telephone number at that address is (719) 391-4564. In this Prospectus, reference to the terms "Military Resale Group," "we," "us" and "the company" refer collectively to Military Resale Group, Inc. (a New York corporation) unless otherwise indicated.

ABOUT THIS OFFERING

We are offering up to 10,000,000 shares of common stock at a price of \$0.25 per share. At June 18, 2004, we had 29,928,071 shares of common stock issued and outstanding. If we were to sell all of the shares offered by us in this offering, there would be 39,928,071 shares of common stock outstanding after the offering. There is no underwriter of this offering. We are offering the shares on a best efforts, no minimum basis. This means that, although we are offering up to 10,000,000 shares, we are not required to sell a specified number of shares in this offering prior to accepting any subscriptions. As a result, we may only sell a nominal amount of shares and receive minimal proceeds from this offering. In addition, we may terminate the offering at any time before we have sold all 10,000,000 shares. We will not escrow any of the proceeds we receive from this offering. There is no minimum offering and the proceeds from any subscription accepted by us will be immediately available to us. We may reject any subscription in whole or in part. If we reject a subscription we will return the investor's check or other funds without deduction and without the payment of any interest.

RISK FACTORS

You should carefully consider the risks described below before buying shares in this offering. If any of the following risks actually occur, our business, results of operations and financial condition could be seriously harmed, the trading price of our common stock could decline and you may lose all or part of your investment.

OUR OPERATING HISTORY IS LIMITED, SO IT WILL BE DIFFICULT FOR YOU TO EVALUATE OUR BUSINESS IN MAKING AN INVESTMENT DECISION.

Although we were incorporated in 1983, we commenced operations in our current line of business in November 2001 (at which time we acquired Military Resale Group, Inc., a Maryland corporation that commenced operations in November 1998) and have a limited operating history. We are still in the early stages of our development, which makes the evaluation of our business operations and our prospects difficult. Before buying our common stock, you should consider the risks and difficulties frequently encountered by early stage companies. These risks and difficulties, as they apply to us in particular, include:

- o our need to expand the number of products we distribute;
- o potential fluctuations in operating results and uncertain growth rates;
- o limited market acceptance of the products we distribute;
- o concentration of our revenues in a single market;
- o our dependence on the military market for most of our revenue;
- o our need to expand our direct sales force;
- o our need to manage rapidly expanding operations; and
- o our need to attract and train qualified personnel.

WE HAVE INCURRED LOSSES SINCE INCEPTION AND WE MAY BE UNABLE TO ACHIEVE PROFITABILITY OR GENERATE POSITIVE CASH FLOW.

We incurred net losses of \$2,319,221 in 2002, \$2,631,749 in 2003 and \$515,812 in the first quarter of 2004 and we may be unable to achieve profitability in the future. If we continue to incur net losses in future periods, we may be unable to achieve one or more of the key elements of our business strategy, including the following:

- o increase the number of products we distribute;
- o increase our sales and marketing activities, including the number of our sales personnel;

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

- o increase the number of regions in which we distribute products; or
- o acquire additional distributorships.

As of March 31, 2004, we had an accumulated deficit of \$6,422,525. We may not achieve profitability if our revenues increase more slowly than we expect, or if operating expenses exceed our expectations or cannot be adjusted to compensate for lower than expected revenues. If we do achieve profitability, we may be unable to sustain or increase profitability on a quarterly or annual basis. Any of the factors discussed above could cause our stock price to decline.

3

OUR BUSINESS RELATIONSHIPS WITH THE PRODUCERS AND MANUFACTURERS FOR WHICH WE DISTRIBUTE AND SELL PRODUCTS MAY BE TERMINATED AT ANY TIME, AND THE LOSS OF ANY SUCH RELATIONSHIP WOULD REDUCE OUR REVENUES AND OUR PROSPECTS FOR ACHIEVING PROFITABILITY.

Although we have good working relationships with our principal suppliers, we do not have long-term arrangements with these entities. Our relationships with the suppliers for which we distribute products may be terminated at any time by any supplier. Therefore, we cannot be assured that we will be able to maintain a business relationship with the producers and manufacturers for which we currently distribute and sell products. Any disruption in our relationship with the producers and manufacturers for which we distribute goods could result in the termination of our representation of such producers and manufacturers and their products, which would reduce our revenues and our prospects for achieving profitability.

PRODUCTS SUPPLIED BY CERTAIN SUPPLIERS ACCOUNT FOR A MATERIAL PERCENTAGE OF OUR REVENUES, AND THE LOSS OF ANY OF THESE SUPPLIERS COULD DRAMATICALLY REDUCE OUR REVENUES.

We derive a significant portion of our revenues from the distribution of products that are supplied by a limited number of suppliers. The loss of any major supplier could dramatically reduce our revenues. In 2002, products supplied by Tyson Foods Inc. accounted for approximately 40% of our revenues. In 2003, products supplied by Tyson Foods Inc. accounted for approximately 25% of our revenues and products supplied by S&K Sales, Inc. accounted for approximately 12% of our revenues. In the first quarter of 2004, products supplied by Tyson Foods Inc. accounted for approximately 30% of our revenues and products supplied by S&K Sales, Inc. accounted for approximately 15% of our revenues.

VARIOUS CHANGES IN THE DISTRIBUTION AND RETAIL MARKETS IN WHICH WE OPERATE HAVE LED AND MAY CONTINUE TO LEAD TO REDUCED SALES AND MARGINS AND LOWER PROFITABILITY FOR OUR CUSTOMERS AND, CONSEQUENTLY, FOR US.

The distribution and retail markets in which we operate are undergoing accelerated change as distributors and retailers, including military commissaries, seek to lower costs and provide additional services in an increasingly competitive environment. For example, there is a growing trend of large self-distributing chains consolidating to reduce costs and gain efficiencies. Eating away from home and alternative format food stores, such as warehouse stores and supercenters, have taken market share from traditional supermarket operators, including military commissaries, some of which are our customers. In an effort to ensure that more of their promotional fees and allowances are used by retailers to increase sales volume, vendors increasingly direct promotional dollars to large self-distributing chains. We believe that

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

these changes have led to reduced sales, reduced margins and lower profitability among many of our customers and, consequently, for us.

OUR SALES MAY DECLINE UPON A GENERAL DECREASE IN THE PRICE OF CONSUMABLE GOODS OR AN ECONOMIC DOWNTURN.

We derive most of our revenues from the consumable goods distribution industry. This industry is characterized by a high volume of sales with relatively low profit margins. A significant portion of our sales are at prices that are based on product cost plus a percentage markup. Consequently, our sales may decline when the prices of consumable goods go down, even though our percentage markup may remain constant. The consumable goods industry is also sensitive to national and regional economic conditions, and the demand for our consumable goods has declined from time to time as a result of economic downturns.

4

AN INCREASE IN FUEL AND OTHER TRANSPORTATION-RELATED COSTS COULD REDUCE OUR PROFITS OR INCREASE OUR LOSSES.

Our distribution business is sensitive to increases in fuel and other transportation-related costs. In 2003, we transported approximately 5,800 tons of product and our trucks traveled in excess of 145,000 miles. Any significant increase in fuel or other transportation-related expenses would increase our operating expenses, which would have the effect of reducing our profits or increasing our losses.

REDUCTIONS IN THE ARMED FORCES MAY LEAD TO LOWER DEMAND FOR THE PRODUCTS WE DISTRIBUTE AND SELL, WHICH COULD RESULT IN REDUCTIONS IN OUR REVENUES AND REDUCE OUR PROFITS OR INCREASE OUR LOSSES.

We distribute and sell products for resale to active and retired military personnel. Since the end of the Cold War, the United States has streamlined its Armed Forces by reducing the number of military personnel and closing military bases. Reductions in funding for force modernization and military end strength have outpaced reductions in support services and overhead. Proposals have been made to decrease the cost to taxpayers of operating commissaries, including:

- o increasing the surcharge charged to commissary patrons;
- o merging commissaries with exchanges; and
- o privatizing the commissary system.

Funding for commissaries has decreased since the early 1990s. In October 1996, DeCA became a "Performance Based Operation," which has resulted in DeCA's obtaining special waivers from Federal procurement regulations for the purpose of striving to operate more efficiently by adopting some characteristics of private-sector companies. The impact of these trends on our business is uncertain and could lead to reduced demand for the products we distribute and sell, which could result in reductions in our revenues and reduce our profits or increase our losses.

THERE IS NO MINIMUM NUMBER OF SHARES TO BE SOLD IN THIS OFFERING AND THERE IS A RISK THAT WE WILL BE UNABLE TO SELL A SUFFICIENT NUMBER OF SHARES TO ENABLE US TO CARRY OUT OUR BUSINESS PLAN OR TO GENERATE NET PROCEEDS FROM THIS OFFERING IN AN AMOUNT SUFFICIENT TO ENABLE US TO CONTINUE OPERATIONS.

There is no minimum number of shares of common stock that we must sell in this offering prior to the initial closing, and we expect to accept

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

subscriptions for shares of common stock as they are received. In addition, this offering is a self-underwritten offering, and therefore there is no guarantee that we will sell all or any part of the shares offered in this offering. As a result, there can be no assurance that we will raise sufficient funds in this offering to carry out our business plan as currently proposed, or that the net proceeds from the initial subscriptions for shares will be in an amount sufficient to enable us to continue operations in any meaningful manner.

WE MAY NEED ADDITIONAL FINANCING TO IMPLEMENT OUR BUSINESS PLAN AND WE CANNOT BE SURE WE WILL BE ABLE TO OBTAIN ADDITIONAL FUNDING WHEN NEEDED OR ON ACCEPTABLE TERMS.

Assuming at least 4,000,000 shares of common stock offered hereby are sold in this offering, we believe the net proceeds from this offering, together with our projected cash flow from operations, will be sufficient to fund our operations as currently conducted for at least the next 12 months. Such belief, however, cannot give rise to an assumption that our cost estimates are accurate or that unforeseen events will not occur that will require us to seek additional funding to meet our operational needs. As a result, we may require substantial

5

additional financing in order to implement our business objectives. There can be no assurances that we will be able to obtain additional funding when needed, or that such funding, if available, will be obtainable on terms we find acceptable. In the event our operations do not generate sufficient cash flow, or we cannot obtain additional funds if and when needed, we may not be able to:

- o attract additional suppliers;
- o expand into additional regions; o develop or enhance our product line;
- o take advantage of future opportunities; or
- o respond to competitive pressures or unanticipated requirements.

For additional information on our anticipated future capital requirements, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources."

OUR RELATIONSHIPS WITH THIRD PARTY BROKERS TO STOCK AND DISPLAY THE PRODUCTS WE DISTRIBUTE MAY BE TERMINATED AT ANY TIME AND THE LOSS OF CERTAIN THIRD PARTY BROKER RELATIONSHIPS COULD CAUSE THE TERMINATION OF OUR RELATIONSHIPS WITH THE COMMISSARIES WE SERVE OR THE SUPPLIERS WITH WHICH WE HAVE RELATIONSHIPS.

We rely on a network of brokers to ensure that sufficient inventories of products are received by commissaries and that products are properly stocked and displayed. Our arrangements with brokers may be terminated at any time by any broker. Although we have good working relationships with our brokers, there can be no assurance that we will be successful in maintaining our existing arrangements with brokers or in acquiring, or entering into arrangements with, additional brokers. In addition, we do not have exclusive relationships with the brokers we utilize. Many of these brokers may represent other products in addition to the products we distribute. There can be no assurance that the representation by brokers of multiple products does not result in conflicts of interest. The loss of certain of our brokers could cause the termination of our relationships with the commissaries we serve or with the manufacturers or

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

suppliers of the products such brokers service.

WE CARRY ONLY A LIMITED AMOUNT OF PRODUCT LIABILITY INSURANCE AND ANY SIGNIFICANT PRODUCT LIABILITY CLAIM MAY IMPAIR OUR ABILITY TO FUND CURRENT OPERATIONS OR PREVENT US FROM CARRYING OUT OUR STRATEGIC PLANS.

The marketing and sale of products of the type we distribute entails a risk of product liability claims by consumers and others. Although we have obtained product liability insurance in the amount of \$2,000,000, there is no assurance that such policy will be sufficient to cover us against all possible liabilities or that the policy can be maintained in force at a cost we find acceptable. In the event of a successful product liability claim against us, lack or insufficiency of insurance coverage could impair our ability to fund current operations or prevent us from carrying out our strategic plans.

6

FLUCTUATIONS IN OUR QUARTERLY OPERATING RESULTS MAY CAUSE OUR STOCK PRICE TO DECLINE AND A DECLINE IN THE VALUE OF YOUR INVESTMENT.

Our quarterly operating results have varied significantly in the past and will likely fluctuate significantly in the future. Significant annual and quarterly fluctuations in our results of operations may be caused by, among other factors:

- o the volume of revenues we have generated;
- o the timing of our announcements for the distribution of new products, and any such announcements by our competitors;
- o the acceptance of the products we distribute in the military marketplace; and
- o general economic conditions.

There can be no assurance that the level of revenues and profits, if any, achieved by us in any particular fiscal period will not be significantly lower than in other, including comparable, fiscal periods. We believe quarter-to-quarter comparisons of our revenues and operating results are not necessarily meaningful and should not be relied on as indicators of future performance. Operating expenses are based on management's expectations of future revenues and are relatively fixed in the short term. We plan to increase operating expenses to:

- o expand our product line;
- o expand our sales and marketing operations;
- o increase our services and support capabilities; and
- o improve our operational and financial systems.

If our revenues do not increase along with these expenses, our operating margins will decline and our net losses in a given quarter would be larger than expected. It is possible that in some future quarter our operating results may be below the expectations of public market analysts or investors, which could cause a reduction in the market price of our common stock.

WE MAY PURSUE ACQUISITIONS THAT, BY THEIR NATURE, PRESENT RISKS AND THAT MAY NOT BE SUCCESSFUL AND MAY REDUCE OUR PROFITS OR INCREASE OUR LOSSES.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

Our growth strategy includes the acquisition of additional distributors and, possibly, of brokers in the business of selling consumer goods in the military market. Our ability to accomplish our acquisition strategy will depend upon a number of factors, including, among others, our ability to:

- o identify acceptable acquisition candidates;
- o consummate the acquisition of such businesses on terms that we find acceptable;
- o retain, hire and train professional management and sales personnel at each such acquired business; and
- o promptly and profitably integrate the acquired business operations into our then-existing business.

No assurance can be given that we will be successful with respect to such factors or that any acquired operations will be profitable or be successfully integrated into our then-existing business without substantial costs, delays or

7

other problems. In addition, to the extent that consolidation becomes more prevalent in the industry, the prices for attractive acquisition candidates may be bid to higher levels. In any event, there can be no assurance that businesses acquired in the future will achieve sales and profitability that justify the investments we make therein.

THE LOSS OF THE SERVICES OF ETHAN D. HOKIT, OUR PRESIDENT, COULD IMPAIR OUR ABILITY TO SUPPORT CURRENT OPERATIONS AND DEVELOP NEW BUSINESS AND TO RUN OUR BUSINESS EFFECTIVELY.

Our success will be dependent on the efforts of Ethan D. Hokit, our President. We have no employment agreement with Mr. Hokit. In addition, we have no key man life insurance on the life of any of our employees, and we have not entered into any employment agreements or non-competition arrangements with any of our key personnel. Our key personnel at the present time, however, are our executive officers and directors, and we believe such persons have certain fiduciary obligations to our company. The loss of the services of Mr. Hokit, or our inability to attract and retain other qualified personnel, could impair our ability to support current operations and develop new business or to run our business effectively.

OUR PRINCIPAL STOCKHOLDERS HAVE SIGNIFICANT VOTING POWER AND MAY TAKE ACTIONS THAT MAY NOT BE IN THE BEST INTERESTS OF OUR OTHER STOCKHOLDERS.

Assuming all shares of common stock offered hereby are sold in this offering, upon completion of this offering our executive officers and directors and their affiliates will beneficially own, in the aggregate, approximately 22.4% of the outstanding shares of our common stock. As a result, these stockholders will be able to exercise significant control over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, which could delay or present an outside party from acquiring or merging with us. In the event we sell less than half (5,000,000) of the shares offered hereby, our executive officers and directors and their affiliates will beneficially own approximately 25.26% of the outstanding shares of our common stock. For a full presentation of the equity ownership of these stockholders, see "Principal Stockholders."

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

OUR STOCK PRICE MAY BE VOLATILE AND YOU MAY NOT BE ABLE TO RESELL YOUR SHARES AT OR ABOVE THE PUBLIC OFFERING PRICE.

There has been only a limited public market for our common stock prior to this offering. The public offering price for our common stock has been determined arbitrarily by our management and bears no relationship to our assets, book value, net worth or other economic or recognized criteria of value. This public offering price may vary from the market price of our common stock after the offering. If you purchase shares of common stock, you may not be able to resell those shares at or above the public offering price. The market price of our common stock may fluctuate significantly in response to factors, some of which are beyond our control, including the following:

- o actual or anticipated fluctuations in our operating results;
- o changes in market valuations of other companies in our industry;
- o announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments;
- o additions or departures of key personnel; and
- o sales of common stock in the future.

8

In addition, the stock market has experienced extreme volatility that often has been unrelated to the performance of particular companies. These market fluctuations may cause our stock price to fall regardless of our performance.

You should read the information under the heading "Market For Common Equity and Related Shareholder Matters" for a more complete discussion of the factors that were considered in determining the public offering price of our common stock.

YOU WILL EXPERIENCE IMMEDIATE AND SUBSTANTIAL DILUTION IN THE BOOK VALUE OF YOUR SHARES.

The public offering price is expected to be substantially higher than the book value per share of our outstanding common stock immediately after this offering. For example, if we sell all 10,000,000 shares offered hereby and you purchase common stock in this offering, you will incur immediate dilution of approximately \$0.22 in the book value per share of our common stock from the price you pay for our common stock. If we sell half (5,000,000) of the shares offered hereby, you will incur immediate dilution of approximately \$0.25, or the full amount of your investment, in such book value per share, and if we sell only 2,500,000 of the shares offered hereby, you will incur immediate dilution of \$0.25, or the full amount of your investment, in such book value per share. As a result, if all of our assets are sold in a liquidation of our company, you may not receive in respect of your shares an amount that is equal to or greater than the price you paid for your shares in this offering. For additional information on these calculations, see "Dilution."

WE FACE SIGNIFICANT COMPETITION FROM COMPETITORS WITH GREATER RESOURCES THAN OURS, AND SUCH COMPETITION COULD RESULT IN A REDUCTION IN OUR PRICES OR OPERATING MARGINS AND THE LOSS OF SOME OF THE PRODUCTS WE OFFER.

We operate in a highly competitive industry. Many companies are engaged in

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

the sale and distribution of consumer products to the military market, and we compete on the basis of price, quality and assortment, schedules and reliability of deliveries and the range and quality of services provided. Many of our competitors have financial resources, research and development capabilities, marketing staffs and facilities substantially greater than ours. This competition could result in the reduction of our prices or operating margins and the loss of one or more of the products we offer. This competition may also hinder our ability to expand into other regions or to enter into relationships with new suppliers.

SUBSTANTIAL FUTURE SALES OF OUR COMMON STOCK IN THE PUBLIC MARKET MAY DEPRESS OUR STOCK PRICE AND COULD RESULT IN A DECLINE IN THE VALUE OF YOUR INVESTMENT.

We currently have approximately 18,815,603 shares of our common stock outstanding that are "restricted securities," as that term is defined under Rule 144 promulgated under the Securities Act of 1933, as amended (the "Securities Act").

In general, under Rule 144, a person who has satisfied a one-year holding period may, under certain circumstances, sell within any three-month period a number of shares of common stock that does not exceed the greater of 1% of the then outstanding shares of our common stock or the average weekly trading volume in such shares during the four calendar weeks prior to such sale. Rule 144 also permits, under certain circumstances, the sale of shares without any quantity or other limitation by a person who is not one of our affiliates and who has satisfied a two-year holding period. Any substantial sale of restricted securities under Rule 144 could significantly depress the market price of our common stock. In addition, the sale of these shares could reduce demand for our shares in the event we seek to raise capital through the additional sale of stock.

9

We have reserved 1,500,000 shares of our common stock for issuance to key employees, officers, directors and consultants under our existing equity incentive plan. As of June 18, 2004, we had issued and outstanding under our equity incentive plan options to purchase an aggregate of 800,000 shares of our common stock, and exclusive of our equity incentive plan, we had issued and outstanding, options and warrants to purchase an aggregate of 8,982,560 shares of our common stock. In addition, we have reserved 2,805,980 shares of common stock for issuance upon the conversion of bridge notes issued to certain creditors which, in most cases, mature in 2006. The existence of any outstanding options, warrants or convertible notes may prove to be a hindrance to future financings as the holders of such options, warrants or convertible notes may be expected to exercise such notes to purchase, or to convert such notes into, shares of our common stock at a time when we would otherwise be able to obtain additional equity capital on terms we would find more favorable.

WE DO NOT INTEND TO PAY DIVIDENDS ON OUR COMMON STOCK IN THE FORESEEABLE FUTURE, WHICH COULD CAUSE THE MARKET PRICE OF OUR COMMON STOCK AND THE VALUE OF YOUR INVESTMENT TO DECLINE.

The holders of our common stock are entitled to receive dividends when, as and if declared by our board of directors out of funds legally available therefor. To date, we have not paid any cash dividends. Our board of directors does not intend to declare any cash dividends in the foreseeable future, but instead intends to retain all earnings, if any, for use in our business operations.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

WE MAY FAIL TO CONTINUE AS A GOING CONCERN, IN WHICH EVENT YOU MAY LOSE YOUR ENTIRE INVESTMENT IN OUR SHARES.

Our audited financial statements have been prepared on the assumption that we will continue as a going concern. Our independent auditors have indicated in its report on our 2003 financial statements that our recurring losses from operations and our difficulties in generating sufficient cash flow to meet our obligations and sustain our operations raise substantial doubt about our ability to continue as a going concern. If we fail to continue in business, you will lose your investment in the shares you acquire in this offering.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

USE OF PROCEEDS

We expect to incur expenses in connection with this offering of approximately \$250,000 for our legal fees, accounting fees, printing, Blue Sky legal and filing fees and other miscellaneous expenses. The net proceeds of this offering, estimated to be \$2,250,000 if the maximum of 10,000,000 shares is sold, \$1,625,000 if 75% (7,500,000) of the shares are sold, \$1,000,000 if 50% (5,000,000) of the shares are sold, \$625,000 if 35% (3,500,000) of the shares are sold, and \$375,000 if only 25% (2,500,000) of the shares are sold are expected to be allocated as follows:

- (1) Includes interest and principal on approximately (a) \$605,000 aggregate principal amount of convertible bridge notes, of which \$540,000 aggregate principal amount matures on or about June 3, 2006, and \$65,000 aggregate principal amount that have matured but have not yet been paid and (b) \$130,000 aggregate principal amount of demand notes. In the event any holders of any convertible notes elect to convert all or a portion of the principal and interest due on such notes into shares of our common stock pursuant to the terms of such notes, the net proceeds allocated to the repayment of such indebtedness will be reallocated to working capital purposes.

As reflected in the table above, the amounts of net proceeds that we intend to use for the repayment of indebtedness will depend upon the number of shares sold in this offering. If we only sell a nominal amount of shares (2,500,000), we intend to use approximately \$150,000 for the repayment of past due indebtedness and for payment of accrued interest thereon. If all 10,000,000 shares are sold in this offering, we intend to use approximately \$750,000 for the repayment of indebtedness, which is comprised of approximately \$605,000 aggregate principal amount of convertible indebtedness and approximately \$145,000 of accrued interest as of June 18, 2004. Of such \$750,000 of net proceeds to be used for the repayment of indebtedness, approximately \$370,000 will be used to repay the principal portion of our outstanding indebtedness to our officers and directors or their respective affiliates, of which, at June 18, 2004, the following amounts were outstanding:

- o \$60,000 of principal owed to Shannon Investments, Inc., one of our principal shareholders that is controlled by Edward Whelan, our Chairman of the Board and Chief Executive Officer;
 - o \$100,000 of principal owed to Oncor Partners, Inc., a company of which Mr. Whelan is a principal shareholder;
- 11
- o \$82,500 of principal owed Atlantic Investment Trust, the trustee of which is Richard Tanenbaum, one of our directors;
 - o \$72,500 of principal owed to Eastern Investment Trust, the trustee of which is Mr. Tanenbaum;
 - o \$25,000 of principal owed to Ethan Hokit, our President and one of our directors; and
 - o \$30,000 of principal owed to Edward T. Whelan, our Chairman of the Board and our Chief Executive Officer.

The proceeds of the convertible bridge notes that were issued between December

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

2001 and June 2003, the demand notes and the loans from our officers and directors or their respective affiliates were used for short-term working capital purposes. For additional information on the demand note indebtedness and the loans from our officers and directors or their respective affiliates, see "Certain Relationships and Related Transactions."

If the net proceeds from this offering are less than \$625,000 (3,500,000 shares), such proceeds will be applied first to the acquisition of an inventory control system, next, up to \$150,000 will be applied for working capital purposes, primarily to finance accounts receivable and for the acquisition of inventory, and thereafter, to the extent necessary, to the repayment of past due bridge note indebtedness discussed above. Any remaining net proceeds will be applied to working capital and for general corporate purposes. In the event we sell only a nominal number of shares offered hereby (2,500,000), the proceeds of such sale will be used to acquire an inventory control system, repay \$150,000 of indebtedness and any remaining proceeds will be used for working capital purposes. We believe the net proceeds of the sale of at least 4,000,000 shares in this offering, together with anticipated revenues from sales of our products, will satisfy our capital requirements for at least the next 12 months.

In the event that we do not sell at least 7,500,000 shares in this offering, we may be forced to alter, delay or abandon our acquisition strategy. In such case, we may decide to allocate funds to alternative uses, such as the direct purchase of warehouses and operating facilities in markets in which we seek to develop business. At this time, we have no pending or planned acquisitions.

One of the purposes of this offering is to raise funds for working capital purposes, including to finance our accounts receivable until such time as we are able to obtain alternative financing sources, to purchase additional inventory and to fund other day-to-day operating expenses, including unforeseen cash requirements. Depending on the number of shares of common stock sold in this offering and the amount of the net proceeds of this offering that are applied to the repayment of indebtedness, a significant portion of the net proceeds of this offering (which may exceed 50% of the aggregate net proceeds) may be available for working capital purposes. We are unable to estimate the amounts of such net proceeds that will be applied for particular working capital purposes, and management will have broad discretion in the use of funds allocated for working capital purposes. As a result, you will be relying on the judgment of our management regarding the application of a significant portion of the net proceeds of this offering. Pending the application of the net proceeds, we intend to invest these funds in short-term, interest-bearing, investment-grade obligations.

DILUTION

If you purchase shares in this offering, you will experience immediate and substantial dilution in your investment. "Dilution" is the reduction in the value of a purchaser's investment and represents the difference between the price paid for the shares and the "net tangible book value" per share of the common stock acquired in the offering. Net tangible book value per share represents the book value of our tangible assets less the amount of our liabilities, divided by the number of shares of common stock outstanding.

At March 31, 2004, there were 26,895,571 shares of common stock issued and outstanding. Without taking into account any changes in our net tangible book value after that date other than to give effect to (i) 1,920,000 shares issued

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

in connection with our purchase of Ohio Street Partners LLC subsequent to March 31, 2004, (ii) 1,050,000 shares issued to our consultants subsequent to March 31, 2004, (iii) 62,500 shares issued to one of our investors for liquidated damages pursuant to the terms of such investor's subscription agreement and (iv) the estimated net cash proceeds of \$2,250,000 from the sale of the 10,000,000 shares offered hereby (after deducting estimated expenses of the offering that total approximately \$250,000), at an offering price of \$0.25 per share, the amount of increase in net tangible book value as of that date attributable to the sale of shares offered hereby would have been \$0.03 per share, representing an immediate dilution to investors in this offering of \$0.22 per share and an immediate increase of \$0.07 per share to present shareholders.

The following table illustrates the per share dilution if we sell all 10,000,000 shares at a price of \$0.25 per share, less offering expenses of \$250,000.

The following table summarizes the investments of all existing shareholders at March 31, 2004, the above issuances subsequent to March 31, 2004, and the new investors as of such date after giving effect to the sale of all of the shares offered hereby (after deducting estimated expenses of the offering that total approximately \$250,000):

- (1) Assumes the sale of all 10,000,000 shares offered under this Prospectus. The dilutive effect of the offering would be different if we are unsuccessful in selling all of the shares. DETERMINATION OF OFFERING PRICE

Our management has arbitrarily determined the offering price of the shares offered hereby. The offering price bears no relationship to our assets, book value, net worth, or other economic or recognized criteria of value. You should not regard the offering price to be an indication of future market price of our securities. In determining the offering price, we considered factors such as the prospects for our products, our management's previous experience, our historical and anticipated results of operations and our present financial resources.

MARKET FOR COMMON EQUITY AND RELATED SHAREHOLDERS MATTERS

MARKET FOR COMMON STOCK

Our common stock is traded on the OTC Bulletin Board under the symbol "MYRG."

Our shares began trading on the OTC Bulletin Board on January 10, 2001. Prior to that date, there was no public market for our shares.

The following table contains information about the range of high and low bid prices for our common stock for each full quarterly period since our shares began publicly trading, based upon reports of transactions on the OTC Bulletin Board.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

The source of these high and low prices was the OTC Bulletin Board. These quotations reflect inter-dealer prices, without retail mark-up, mark-down or commissions and may not represent actual transactions. The high and low prices listed have been rounded up to the next highest two decimal places.

The market price of our common stock is subject to significant fluctuations in response to variations in our quarterly operating results, our public announcements regarding our then-pending acquisition of Military Resale Group, general trends in the market for the products we distribute, and other factors, over many of which we have little or no control. In addition, board market fluctuations, as well as general economic, business and political conditions, may adversely affect the market for our common stock, regardless of our actual or projected performance. On June 18, 2004, the closing bid price of our common stock as reported by the OTC Bulletin Board was \$0.12 per share.

As of June 18, 2004, there were approximately 125 shareholders of record of our common stock.

DIVIDEND POLICY

We have not paid cash dividends on our common stock and do not intend to pay any cash dividends in the foreseeable future.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Certain statements in this discussion and analysis constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The words "believe", "expect", "anticipate", "intend" and "plan" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. Because our common stock is considered a "penny stock," as defined by the regulations of the Securities and Exchange Commission, the safe harbor for forward-looking statements does not apply to statements by our company.

The following discussion and analysis of the financial condition and results of operations should be read in conjunction with our financial statements and notes appearing elsewhere in this Prospectus. This discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those set forth under the caption "Risk Factors" beginning on page 3 of this Prospectus.

Any forward-looking statements herein speak only as of the date hereof. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

RESULTS OF OPERATIONS -- THREE MONTHS ENDED MARCH 31, 2004 COMPARED TO THREE MONTHS ENDED MARCH 31, 2003

Revenues. Total revenue for the three months ended March 31, 2004 of \$2,134,976 reflected a increase of \$376,013, or approximately 21.4%, compared to total revenue of \$1,758,963 for the three months ended March 31, 2003. Our revenues are derived in either one of two ways. In the majority of instances, we purchase products from manufacturers and suppliers for resale to the commissaries we service. In such cases, we resell the manufacturer's or supplier's products to the commissaries at generally the same prices we pay for

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

such products, which prices generally are negotiated between the manufacturer or supplier and the Defense Commissary Agency ("DeCA"). Revenue is recognized as the gross sales amount received by us from such sales ("resale revenues"), which includes (i) the purchase price paid by the commissary plus (ii) a negotiated storage and delivery fee paid by the manufacturer or supplier. In the remaining

18

instances, we act as an agent for the manufacturer or supplier of the products we sell, and earn a commission paid by the manufacturer or supplier, generally in an amount equal to a percentage of the manufacturer's or supplier's gross sales amount ("commission revenues"). In such cases, revenue is recognized as the commission we receive on the gross sales amount. The increase in our total revenues was primarily due to the addition of the frozen chicken line of Tyson Foods, Inc. in December 2003, a line of health and beauty aids manufactured by Alberto Culver, Inc. in January 2004 and a frozen vegetable line produced by VIP Sales Company Inc. in January 2004, all of which we sell to commissaries on a resale basis.

Resale revenue for the three months ended March 31, 2004 of \$1,961,544 reflected an increase of \$348,947, or approximately 21.6%, compared to resale revenue of \$1,612,597 for the three months ended March 31, 2003. For the three months ended March 31, 2004, approximately 50.8% of our gross profit was derived from sales involving resale revenue compared to approximately 40.7% for the three months ended March 31, 2003. These increases were attributable primarily to addition of the suppliers discussed above. We cannot be certain as to whether this trend will continue. However, in the long term, we are seeking to increase the ratio of our sales of products sold on a resale basis, rather than a commission basis, because we believe we can increase our profitability on such sales by taking advantage of payment discounts frequently offered by the manufacturers and suppliers of such products. Provided we can generate sufficient cash from operations or financing activities, we intend to do so by seeking to add new products that we can offer to commissaries on a resale basis from our existing manufactures and suppliers and from others with whom we do not currently have a working relationship.

Commission revenues for the three months ended March 31, 2004 of \$173,432 reflected an increase of \$27,066, or approximately 18.5%, compared to commission revenues of \$146,366 for the three months ended March 31, 2003. For the three months ended March 31, 2004, approximately 49.2% of our gross profit was derived from sales involving commission revenues as compared to approximately 59.3% for the three months ended March 31, 2003. The increase in commission revenues was attributable primarily to a change in our supplier of fresh chicken products in the third quarter of 2003 from Tyson Foods, Inc., whose products we sold on a resale basis, to ConAgra Foods, Inc., whose products we sell on a commission basis.

Management believes our long-term success will be dependent in large part on our ability to add additional product offerings to enable us to increase our sales and revenues. However, we believe our ability to add additional product offerings is dependent on our ability to obtain additional capital to fund new business development and increased sales and marketing efforts. We are currently in discussions with a number of other manufacturers and suppliers in an effort to reach an agreement under which we can distribute their products to the military market. While there can be no assurance that we will do so, we believe we will be successful in negotiating agreements with a number of such suppliers and manufacturers.

To date, all of our sales revenue has been generated from customers located in the United States.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

Cost of Goods Sold. Cost of goods sold consists of our cost to acquire products from manufacturers and suppliers for resale to commissaries. In instances when we sell products on a commission basis, there is no cost of goods sold because we act as an agent for the manufacturer or supplier and earn only a commission on such sales. During the three months ended March 31, 2004, cost of goods sold increased by \$270,235, or approximately 17.9%, to \$1,782,561 from \$1,512,326 for the three months ended March 31, 2003. This increase was attributable primarily to increased sales of products that we sold on a resale basis as discussed above. We cannot be certain as to whether or not this trend will continue; however, in the long term we are seeking to increase the ratio of our sales on a resale basis, as discussed above.

19

Gross Profit. Gross profit for the three months ended March 31, 2004 increased by \$105,778, or approximately 42.9%, compared to the three months ended March 31, 2003, from \$246,637 for the three months ended March 31, 2003 to \$352,415 for the three months ended March 31, 2004. This increase was attributable primarily to slightly higher storage and delivery fees that we began charging to new customers in December 2003.

Operating Expenses. Total operating expenses aggregated \$811,120 for the three months ended March 31, 2004 as compared to \$611,947 for the three months ended March 31, 2003, representing an increase of \$199,173, or approximately 32.5%. The increase in total operating expenses was attributable primarily to an increase of \$204,458 in stock-based compensation expense resulting primarily from the issuance of shares of our common stock and options to purchase shares of our common stock to our consultants. In addition, salary and payroll taxes increased by \$45,651 resulting primarily from the addition of new employees.

Interest Expense. Interest expense of \$57,107 for the three months ended March 31, 2004 reflected a decrease of \$78,278 as compared to interest expense of \$135,385 for the three months ended March 31, 2003. The decrease in interest expense was attributable primarily to decreased interest expense resulting from the recognition of the beneficial conversion feature (the right to convert debt into shares of our common stock at a discount to the fair market value of our common stock) of convertible promissory notes. We issued \$50,000 aggregate principal amount of convertible promissory notes in the three months ended March 31, 2003, but did not issue any convertible notes in the three months ended March 31, 2004.

Net Loss. Primarily as a result of the increased operating expenses discussed above, we incurred a net loss of \$515,812 for the three months ended March 31, 2004 as compared to a net loss of \$500,695 for the three months ended March 31, 2003.

RESULTS OF OPERATIONS - YEAR ENDED DECEMBER 31, 2003 COMPARED TO YEAR ENDED DECEMBER 31, 2002

Revenues. Total revenue for the year ended December 31, 2003 of \$6,049,445 reflected a decrease of \$310,358, or approximately 4.9%, compared to total revenue of \$6,359,803 for the year ended December 31, 2002. The decrease in our total revenues was primarily due to the following factors: (i) a short-term cash shortage during the first and second quarters of 2003, which prevented us from adding new products on a resale basis due the significant cash expenditure required, (ii) a change in our supplier of fresh chicken products in the third quarter of 2003 from Tyson Foods, Inc., whose products we sold on a resale basis, to ConAgra Foods, Inc., whose products we sell on a commission basis, and (iii) to a lesser extent, to lower sales to the commissary located at Ft. Carson, Colorado caused by the overseas deployment of military personnel

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

stationed at Ft. Carson, which has historically been our largest customer.

Resale revenue for the year ended December 31, 2003 of \$5,585,340 reflected a decrease of \$430,066 , or approximately 7.1%, compared to resale revenue of \$6,015,406 for the year ended December 31, 2002. For the year ended December 31, 2003, approximately 33.7% of our gross profit was derived from sales involving resale revenue compared to approximately 61.2% for the year ended December 31, 2002. These decreases were attributable primarily to the short-term cash shortage, change in our supplier of fresh chicken products and the military deployment as discussed above.

20

Commission revenues for the year ended December 31, 2003 of \$464,105 reflected an increase of \$119,708, or approximately 34.8%, compared to commission revenues of \$344,397 for the year ended December 31, 2002. For the year ended December 31, 2003, approximately 66.3% of our gross profit was derived from sales involving commission revenues as compared to approximately 38.8% for the year ended December 31, 2002. These increases were attributable primarily to the change in our supplier of fresh chicken products discussed above and the addition of the new products we began supplying to commissaries on a commission basis due to our short-term cash shortage discussed above.

To date, all of our sales revenue has been generated from customers located in the United States.

Cost of Goods Sold. Cost of goods sold consists of our cost to acquire products from manufacturers and suppliers for resale to commissaries. In instances when we sell products on a commission basis, there is no cost of goods sold because we act as an agent for the manufacturer or supplier and earn only a commission on such sales. During the year ended December 31, 2003, cost of goods sold decreased by \$122,072, or approximately 2.2%, to \$5,349,774 from \$5,471,846 for the year ended December 31, 2002. This decrease was attributable primarily to decreased sales of products that we sold on a resale basis as discussed above.

Gross Profit. Gross profit for the year ended December 31, 2003 decreased by \$188,286, or approximately 21.2%, compared to the year ended December 31, 2002, from \$887,957 for the year ended December 31, 2002 to \$699,671 for the year ended December 31, 2003. This decrease was attributable primarily to a decrease in sales on a resale basis, which offset the increase in sales on a commission basis

Operating Expenses. Total operating expenses aggregated \$3,033,154 for the year ended December 31, 2003 as compared to \$2,703,864 for the year ended December 31, 2002, representing an increase of \$329,290, or approximately 12.2%. The increase in total operating expenses was attributable primarily to increased stock-based compensation expense of \$531,739 resulting primarily from the issuance of shares of our common stock and options to purchase shares of our common stock to our consultants and to holders of our convertible notes in consideration of their willingness to extend the maturity dates of such notes. In addition, salary and payroll taxes increased by \$29,990 resulting primarily from the addition of new employees.

Interest Expense. Interest expense of \$298,266 for the year ended December 31, 2003 reflected a decrease of \$178,793 as compared to interest expense of \$477,059 for the year ended December 31, 2002. The decrease in interest expense was attributable primarily to decreased interest expense resulting from the recognition of the beneficial conversion feature (the right to convert debt into shares of our common stock at a discount to the fair market value of our common stock) of \$110,000 aggregate principal amount of convertible promissory notes

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

issued in the year ended December 31, 2003, as compared to \$370,000 aggregate principal amount of convertible promissory notes issued in the year ended December 31, 2002.

Net Loss. Primarily as a result of decreased revenues and increased operating expenses discussed above, we incurred a net loss of \$2,631,749 for the year ended December 31, 2003 as compared to a net loss of \$2,319,221 for the year ended December 31, 2002.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2004, we had a cash balance of approximately \$113,889. Since 2001, we have funded our operations primarily from borrowings of approximately \$850,000 through the issuance of demand notes and convertible notes bearing interest at either 8% or 9% per annum and having original maturity dates of

21

three to five months following the date of issuance of such convertible notes. At March 31, 2004, none of such demand notes was outstanding and \$605,000 aggregate principal amount of convertible notes were outstanding, of which \$520,000 aggregate principal amount mature on or about June 3, 2006 and \$85,000 aggregate principal amount have matured but have not yet been paid. Such convertible notes require us to register under the Securities Act of 1933 the shares our common stock issuable upon conversion of such convertible notes. The terms of our convertible notes provide generally that the holders may convert, at any time and from time to time, all or a portion of the outstanding balance under each convertible note into a number of shares (subject to certain anti-dilution adjustments) of our common stock that will allow the noteholder to receive common stock having a market value equal to 150% of the converted balance of the note. To achieve this result, the conversion price of such notes has been initially set at \$0.25; provided, that the closing price per share of our common stock as reported on the OTC Bulletin Board on the date of conversion is at least \$0.375 per share. If such closing price is less than \$0.375 per share, the conversion price shall be proportionately reduced, but in no event to a conversion price that is less than \$0.25 per share, to permit the noteholder to receive the number of shares discussed above.

Our current cash levels, together with the cash flows we generate from operating activities, are not sufficient to enable us to execute our business strategy. As a result, we intend to seek additional capital through the sale of 10,000,000 shares of our common stock in this offering. In the interim, we intend to fund our operations based on our cash position and the near term cash flow generated from operations, as well as additional borrowings and the sale of unregistered shares of our common stock in private placements to accredited investors. In the three months ended March 31, 2004, we sold and issued shares of our common stock to accredited investors for aggregate gross proceeds of \$547,500. Such proceeds were used for the repayment of current liabilities and for working capital purposes.

In the event we are able to generate sales proceeds of at least \$750,000 (4,000,000 shares) in this offering, we believe that the net proceeds of such sale, together with anticipated revenues from sales of our products, will satisfy our capital requirements for at least the next 12 months. However, we would require additional capital to realize our strategic plan to expand distribution capabilities and product offerings. These conditions raise substantial doubt about our ability to continue as a going concern. Our actual financial results may differ materially from the stated plan of operations. Our independent auditors have indicated in its report on our 2003 financial

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

statements that our recurring losses from operations and our difficulties in generating sufficient cash flow to meet our obligations and sustain our operations raise substantial doubt about our ability to continue as a going concern. Such qualification may hinder our ability to raise or obtain the capital we require or have an adverse impact on the terms upon which we are able to attract or obtain such capital. In addition, such qualification may adversely impact our ability to attract and maintain new customer accounts.

Assuming that we receive net proceeds of at least \$750,000 (4,000,000 shares) from this offering (of which there can be no assurance), we expect capital expenditures to be approximately \$100,000 during the next 12 months, primarily for the acquisition of an inventory control system and a web-based marketing software program. It is expected that our principal uses of cash during that period will be to provide working capital, to finance capital expenditures, to repay indebtedness and for other general corporate purposes, including sales and marketing and new business development. The amount of spending for any particular purpose is dependent upon the total cash available to us and the success of our public offering of common stock.

22

At March 31, 2004, we had liquid assets of \$1,094,291, consisting of cash and accounts receivable derived from operations, and other current assets of \$710,039, consisting primarily of inventory of products for sale and/or distribution and prepaid expenses. Long term assets of \$214,640 consisted primarily of warehouse equipment used in operations and the long-term portion of prepaid interest.

Current liabilities of \$2,828,396 at March 31, 2004 consisted primarily of \$2,559,905 of accounts payable and accrued expenses, including related party amounts.

Our working capital deficit was \$1,024,066 as of March 31, 2004 for the reasons described above.

During the three months ended March 31, 2004, we used cash of \$340,399 in operating activities, primarily as a result of the net loss we incurred during this period.

During the three months ended March 31, 2004, we used net cash of \$7,332 in investing activities, all of which was used for capital expenditures.

Financing activities, consisting primarily of proceeds from the sale and issuance of shares of our common stock, provided net cash of \$458,758 during the three months ended March 31, 2004.

OFF BALANCE SHEET ARRANGEMENTS

At March 31, 2004, we had no off-balance sheet arrangements that had or were reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our stockholders.

BUSINESS

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

OVERVIEW

We are a regional distributor of grocery and household items specializing in distribution to the military market. We distribute a wide variety of items, including fresh and frozen meat and poultry, seafood, frozen foods, canned and dry goods, beverages, dairy products, paper goods and cleaning and other supplies. Our operations are currently directed to servicing the commissary at each of six military installations located in Colorado, Wyoming and South Dakota, including the Air Force Academy located in Colorado Springs, Colorado. We are approved by the Department of Defense to contract with military commissaries and exchanges.

Military commissaries are large supermarket-type stores operated by the United States Defense Commissary Agency ("DeCA") to provide grocery items for sale to authorized patrons at the lowest practicable prices in facilities designed and operated under standards similar to those in commercial food stores. As of April 30, 2004, there were 275 commissaries worldwide, of which 171 were located in the continental United States and 104 were located overseas. Commissaries are authorized by law to sell goods only to authorized patrons, which include the approximately 1.4 million active duty U.S. military personnel, their dependents and certain authorized reservists and retirees. As of April 30, 2004, the number of authorized commissary patrons totaled approximately 12.4 million individuals. Annual worldwide commissary sales totaled more than \$5 billion in DeCA's 2003 fiscal year, which ended on September 30, 2003.

The categories and varieties of merchandise that may be sold in a commissary are strictly regulated by DeCA, as is the cost at which items may be purchased for resale. Under DeCA regulations, all items sold through the commissary system must be sold at cost. The military commissary system is generally self-funded and receives an annual appropriation from Congress primarily to pay the salaries of those who work for the commissaries. Store operations are funded by a 5% surcharge (not a tax) levied on the total amount of the customers' purchases. The surcharge pays for new commissary construction and renovation, new equipment and maintenance, paper bags, shopping carts and other operating costs. In selling products at cost, commissaries are considered an integral part of the military's pay and compensation package.

The military exchange system consists of nearly two dozen separate business enterprises, including main exchange stores, convenience stores, package stores, food operations, gas stations, movie theaters and others, operated by the various military services for the benefit of military personnel and other qualified patrons. As of April 30, 2004, there were 541 "main exchanges" worldwide, and approximately 20,000 other exchange service-operated facilities. Annual sales from the exchange systems' worldwide business operations totaled approximately \$10.9 billion in the exchange system's fiscal year ended September 30, 2003. In October 2003, we began selling a limited number of products to stores in the military exchange system that are located on three of the military bases that we currently service.

STRATEGIC PLAN

Our strategy is to establish our company as a leading provider of goods to the military market. To accomplish this, our management intends to execute the following:

Expand Distribution Capabilities. We currently direct our focus to the distribution of products to commissaries located in the Midwest Region of the United States, which represents only one of the four DeCA regions. We do not currently sell to commissaries located overseas or to military exchanges. An important part of our strategic plan is to expand our distribution capabilities, both in the domestic and overseas markets, by acquiring or contracting with distributors, as opportunities permit.

Expand Product Offerings. Industry data indicate that the average number of items stocked by the typical civilian supermarket is approximately 25,000 as compared to approximately 13,000 for a commissary. We believe the discrepancy results primarily from the reluctance of certain large manufacturers and many medium and small manufacturers to undertake the administrative burden of obtaining DeCA's approval of products to be sold to commissaries. Under Federal procurement rules, a manufacturer may represent itself or retain a third-party representative on an exclusive basis to negotiate, supply, invoice and otherwise manage its products within the DeCA system. We believe there are many additional manufacturers with products that would meet the DeCA procurement standards and are desirous of selling to the military but that are unable or unwilling to commit the personnel and other resources necessary to comply with the DeCA procurement regulations and procedures required to enable them to sell their products to military commissaries. We intend to continue marketing to manufacturers, suppliers and brokers in an effort to establish new relationships that will allow us to increase the amount and types of products we offer.

Growth Through Acquisitions. We intend to pursue an acquisition program to increase the number of our offered products, strengthen our ability to sell to the military exchange and commissary systems, and broaden our geographic reach to sell and distribute products in domestic and overseas regions that we do not currently service. We believe the industry in which we operate is highly fragmented, consisting primarily of small local brokers and distributors that limit their operations to a narrow range of offered products or distribute products only to commissaries or exchanges in selected regions. In view of the current state of the industry and the trend to centralize the management of the commissary system and enhance its cost-effectiveness, we believe significant opportunities are available to a business that can consolidate the capabilities and resources of a number of existing brokers and distributors in the military consumer goods market, including the cost savings that are inherent in a vertically integrated business. We intend to implement our acquisition program if we are able to increase our working capital through the sale of at least 7,500,000 shares of our common stock in this offering or can otherwise arrange acquisition financing for a specific acquisition transaction. Once implemented, the rate at which we seek to acquire additional complementary business and the size of any such acquisitions will depend, to a significant degree, on our working capital position or the aggregate amount of acquisition financing available to us, including net proceeds from this offering.

Acquiring additional broker or distribution businesses will require additional capital and may have a significant impact on our financial position. We currently intend to finance future acquisitions by using our common stock for all or a portion of the consideration to be paid or through acquisition specific debt financing. In the event our common stock does not maintain sufficient value, or potential acquisition candidates are unwilling to accept our common stock as consideration for the sale of their businesses, we may be required to utilize more of our cash resources, if available, in order to continue our acquisition program. If we do not have sufficient cash resources, our growth could be limited unless we are able to obtain capital through the issuance of additional debt or the issuance of one or more series or classes of our equity securities, which could have a dilutive effect on our then-outstanding capital stock. We do not currently have a line of credit or other lending arrangement with a lending financial institution, and there can be no assurance that we will be able to obtain such an arrangement on terms we find acceptable or sufficient for our needs, if at all, should we determine to do so. Acquisitions could result in the accumulation of substantial goodwill and intangible assets, which

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

may result in substantial amortization charges that could reduce our reported earnings.

25

Although we intend to perform a detailed investigation of each business that we acquire, there may nevertheless be liabilities that we fail or are unable to discover, including liabilities arising from non-compliance with environmental laws by prior owners, and for which we, as a successor owner, may be responsible. We will seek to minimize the impact of these liabilities by obtaining indemnities and warranties from the seller that may be supported by deferring payment of a portion of the purchase price. However, these indemnities and warranties, if obtained, may not fully cover the liabilities due to their limited scope, amount or duration, the financial limitations of the indemnitor or warrantor, or other reasons. At this time there are no pending or planned acquisitions.

Improve Management Information Systems. We are committed to improving our management information systems to enable management to more efficiently track sales and product shipments. To help make such improvements, we are seeking to purchase and implement an inventory control system and a web-based sales program. We believe that, upon completion of these projects, we will have achieved significant progress in creating an improved infrastructure capable of supporting expanded product offerings. In the event we sell at least 2,500,000 shares of our common stock in this offering, we will use a portion of the net proceeds to purchase and implement an inventory control system.

Our current cash levels, together with the cash flows we generate from operating activities, are not sufficient to enable us to execute our business strategy as described above. In the event we sell only a nominal amount of shares offered hereby (2,500,000), we intend to use such proceeds to purchase and implement an inventory control system and to continue to seek to expand our product offerings to the extent we have sufficient working capital to finance additional accounts receivable and purchase inventory. However, with only limited net proceeds from this offering, it is unlikely that we will be able to expand our distribution capabilities in any meaningful manner, and we may be unable to implement our proposed acquisition program.

PURCHASING AND SUPPLY

At December 31, 2003, we distributed an aggregate of over 4,125 Stock Keeping Units (SKUs) that we acquired from approximately 100 manufacturers or suppliers. Products distributed include fresh and frozen meat and poultry, seafood, frozen foods, canned and dry goods, beverages, dairy products, paper goods and cleaning and other supplies. In 2003, we distributed an aggregate of approximately 405 SKUs supplied by Tyson Foods, Inc. and S&K Sales, Inc., our two largest suppliers, and approximately 37% of our aggregate revenues was derived from the sale of products manufactured or supplied by such suppliers.

Our agreements with our principal suppliers generally provide that we will act as their exclusive agent for the distribution of their products to specific military commissaries. Pursuant to our agreement with Tyson Foods, Inc., we purchase products for resale to commissaries. Under our agreement with S&K Sales, Inc., a food broker, we sell and distribute products on a commission basis to the six commissaries we service. Our agreement with Tyson Foods, Inc. have a one-year term and automatically renew for successive one-year periods. Our agreement with S&K Sales, Inc. has no defined term and is cancelable by either party upon 30 days' written notice.

The majority of our revenues are derived from products that we purchase outright from manufacturers and resell to commissaries. In this arrangement, the

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

manufacturer maintains an account with DeCA through the Electronic Data Interchange ("EDI") system. Generally, the manufacturer also selects the broker or brokers to merchandise the products and is actively involved in the sale of its products to commissaries/exchanges and the interaction between the commissaries/exchanges, the brokers and the distributors. Payment for products are remitted by DeCA to the manufacturer within seven days after the end of each roll-up period with respect to meats, 10 days with respect to dairy products and 23 days with respect to most other products.

26

For the year ended December 31, 2003 and the quarter ended March 31, 2004, approximately 66.3% and 49.2%, respectively, of our gross profit was derived from the sale of products acquired on a consignment basis. In a consignment sale, the manufacturer is involved in all facets of the transaction. It appoints and monitors brokers, maintains the account with DeCA, receives payment from DeCA and pays us a fee based on a percentage of the purchase price paid by DeCA.

For the year ended December 31, 2003 and the quarter ended March 31, 2004, approximately 33.7% and 50.8%, respectively, of our gross profit was derived from the purchase and sale of products in which we acted as principal and interacted directly with DeCA. In such instances, we purchase the products from manufacturers and resell such products to commissaries at negotiated prices. The manufacturer maintains an account with DeCA and receives payments directly from DeCA. We receive from the manufacturer the purchase price paid by the commissary plus a negotiated storage and delivery fee.

We believe all of our suppliers have sufficient resources to continue supplying the products we distribute and do not foresee any shortage of product availability from any of our suppliers.

MARKETING AND CUSTOMER SERVICE

Our senior management is involved in maintaining relationships with key customers and securing new accounts. We also maintain good relationships with brokers, which have been an effective source of new products. We believe that our ability to consistently provide a high level of service makes us desirable to brokers who want to ensure on-time delivery of the products they represent. We rigorously monitor the quality of our service. Our personnel frequently visit the commissaries that we serve and we are in constant communication with commissaries in order to ensure on-time order fulfillment.

OPERATIONS AND DISTRIBUTION

Our operations can generally be categorized into two business processes: (i) product replenishment and (ii) order fulfillment. Product replenishment involves the management of logistics from the vendor location through the delivery of products to our distribution center. Order fulfillment involves all activities from order placement through delivery to the commissary location. We determine the quantities in which such products will be ordered from manufacturers. Order quantities for each product are systematically determined by us. Given our experience in managing our product flow, losses due to shrinkage, damage and product obsolescence represented less than 1/3 of 1% of 2003 net sales.

We work closely with the commissaries in order to optimize transportation from vendor locations to the distribution center. By utilizing our own trucks and our expertise in managing transportation, we can ensure on-time delivery of products on a cost-effective basis. We believe that we realize significant cost

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

savings by the consolidation of products from more than one vendor or for use by more than one commissary. We also utilize a number of third party carriers to provide in-bound transportation services. None of these carriers is material to our operations.

We currently warehouse approximately 4,125 SKUs for distribution to commissaries. Products are inspected at our distribution center upon receipt and stored in racks. Our distribution center includes approximately 28,746 square feet of dry storage space, 3,000 square feet of frozen storage space, and 2,000 square feet of refrigerated storage space, as well as offices for operating, sales and customer service personnel and a management information system.

27

We place a significant emphasis on providing a high service level in order fulfillment. We believe that by providing a high level of service and reliability, we reduce our costs by reducing the number of reorders and redeliveries. Each commissary places product orders based on recent usage, estimated sales and existing inventories. We have developed pre-established routes and pre-arranged delivery times with each customer. Product orders are placed with us six times a week either through our customer service representative or through electronic transmission using the EDI system. Approximately 90% of our orders are received electronically. Orders are generally placed on a designated day in order to coordinate with our pre-established delivery schedules. Processing and dispatch of each order is generally completed within seven hours of receipt and our standards require each order to be delivered to the customer within one hour of a pre-arranged delivery time.

Products are picked and labeled at each distribution center. The products are placed on pallets for loading of outbound trailers. Delivery routes are scheduled to both fully utilize the trailers' load capacity and minimize the number of miles driven. In 2003, we transported approximately 5,800 tons of product and our trucks traveled in excess of 145,000 miles.

THE MILITARY MARKET

General. The United States military market is composed of three main groups: the active members of the four branches of the United States military -- Army, Navy, Air Force and Marines; military retirees; and members of the military reserve. Including disabled veterans, overseas civil service personnel and dependents of all of these groups, and patrons of military commissaries and exchanges number over 12 million.

According to DeCA trade publications, active duty personnel generally are well-educated, well paid and sophisticated. They enjoy a high standard of living with excellent benefits, and, therefore, constitute an excellent market for a variety of goods and services. Military retirees consist of military personnel who retire after 20 years or more of service with full commissary and exchange privileges. Military retirees generally are younger than civilian retirees and tend to engage in second careers after retirement. As a result, they generally are affluent, and like active duty personnel, provide an excellent market for goods and services offered by commissaries and exchanges. Within the last several years, reservists were granted full commissary and exchange benefits while on active duty. Reservists for the most part mirror a cross-section of the general United States population. Generally, they do not shop at commissaries and exchanges as often as members of the other military groups, but tend to buy larger quantities at each trip.

The United States has streamlined its Armed Forces in the post-Cold War era. Despite these reductions, the United States military resale market

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

continues to remain strong. In the fiscal year ended September 30, 2003, total annual worldwide commissary and exchange sales were approximately \$16 billion, with more than \$11 billion of these sales in the United States. Since 1945, there has been a major military build-down following each of World War II, the Korean War and the Vietnam war. The military market for consumer goods continued to prosper through each one. The post-Cold War reduction in manpower has not been as severe as previous reductions, and largely has been achieved by early retirement, and the curtailment of inductees. Retirees have earned and retained the privilege to shop in commissaries and exchanges, and Congress has elected to extend the shopping privilege to those forced out prior to retirement.

The Commissary System. Military commissaries are the supermarkets of the military. The stated mission of the commissary system is to provide grocery items for sale to authorized patrons at the lowest possible prices in facilities designed and operated like private-sector supermarkets. The assortment of brands

28

of merchandise, however, is limited to those that meet the reasonable demands of commissary patrons, and commissaries currently are prohibited by law from carrying certain merchandise, including beer and wine and automotive supplies. Commissaries primarily stock and generally sell leading name brands and do not offer private label or unknown brands. In the case of many remote military bases, the commissary is the only source of groceries for military personnel.

Commissaries sell their products at prices equal to cost plus a one percent fee to cover shrinkage plus a five percent surcharge. The only promotional fee that commissaries can accept is a direct reduction in price. Commissaries are prohibited from accepting other promotional items offered to private-sector stores, such as slotting allowances, display allowances or volume rebates. The commissary system receives an annual appropriation from Congress that pays for the salaries of commissary personnel and for the purchase of consumer goods for resale. Store operations otherwise are funded from the five percent surcharge on purchases. Proceeds from the surcharge also pay for new commissary construction, renovation, new equipment and maintenance, shopping bags, shopping carts and various other items. Overseas commissaries also receive Federal funds for transportation and utility costs. Through payment of the surcharge, the patrons of the commissaries essentially have created a worldwide military shoppers' cooperative.

The benefit provided by commissaries is an integral part of the military's pay and compensation package. Recent re-enlistment surveys show that commissaries rank second in importance only to the medical/dental benefit. Commissaries are among the only benefits aimed exclusively at the military family. As commissaries are prohibited by law from selling any product below cost, certain items (those used as loss leaders by private-sector stores) may be priced lower at private sector stores. Nevertheless, the annual savings amounts to up to 30%. It has been estimated that the commissary system results in approximately \$2 billion of annual savings for its patrons. As a result, based upon the annual Congressional appropriation of approximately \$1 billion available to DeCA, the commissary system provides one of the few government benefits that delivers more than two dollars in direct benefit to the beneficiary for every dollar spent by the taxpayer.

As of April 30, 2004, there were a total of 275 commissaries worldwide, of which 171 were located in the continental United States. At such date, the average gross square footage of these commissaries was approximately 22,300, and the average weekly sales per square foot of selling space, a commonly used measure of efficiency of retail operations, was approximately thirty percent more than that of commercial supermarkets. In DeCA's fiscal year ended September 30, 2003, total annual worldwide commissary sales were more than \$5 billion,

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

with more than \$4 billion of these sales in the United States.

The table below shows the dollar volume of DeCA commissary sales over the three fiscal years ended September 30, 2003, as reported by the American Logistics Association.

FISCAL YEAR	WORLDWIDE STORE SALES (\$000S)
-----	-----
2003	\$5,039,259
2002	\$4,963,120
2001	\$5,038,832

Total annual worldwide commissary sales through the first five months of DeCA's 2004 fiscal year were \$2.2 billion as compared to \$1.7 billion for same period in DeCA's 2003 fiscal year, reflecting an increase of \$0.5 billion, or approximately 29.4%.

29

In recent years, DeCA has implemented a store modernization program. We believe DeCA's efforts to modernize facilities and merchandising and provide easy access, shorter lines and more convenient hours at commissaries will all contribute to increased sales volume in the commissary system.

The Exchange System. The military exchange system consists of nearly two dozen separate "businesses," including main exchange stores (department stores), convenience stores, package stores, food operations, gas stations, movie theaters, and others. The exchange system is a vast, logistically complex worldwide operation. Like the commissary system, the stated purpose of the exchange system is to improve the quality of life of military personnel and their families.

The exchange system is a "non-appropriated fund" government activity, and, therefore, does not receive taxpayer subsidies. It is self-sustaining and operates at a profit generated by patron purchases. After expenses, all exchange earnings are returned to patrons in the form of new and improved exchanges and dividends paid to the sponsoring service's morale, welfare and recreation ("MWR") funds. Appropriations by Congress only fund the cost of transporting goods from the United States to overseas military exchanges. All other costs and expenses, including building and operating costs, such as employees' salaries, are paid from exchange revenues. Unlike the commissary system, which is managed by one central governmental authority, each military service manages its own exchange program. These include the Army and Air Force Exchange Service (a joint military command), the Navy Exchange Service Command, the Marine Corps Exchange, the Coast Guard Exchange System and the Department of Veterans Affairs.

Military exchanges consistently are ranked by military personnel among the top benefits provided to the military community. As is the case with commissaries, exchanges are prohibited from pricing products below cost; therefore, certain items offered as "loss leaders" in private-sector stores may be priced below prices offered by exchanges. Notwithstanding this constraint, exchanges typically provide their customers with savings ranging from 20% to 25% compared to civilian mass-merchandisers and department stores.

At April 2004, there were 541 "main exchanges" worldwide and approximately 20,000 exchange service-operated facilities. In the 12 months ended September 30, 2003, total annual worldwide exchange sales were approximately \$10.9 billion, with more than \$7 billion of these sales in the United States. In October 2003, we began selling a limited number of products to stores in the military exchange system that are located on three of the military bases that we

currently service.

The Defense Commissary Agency. DeCA, which is headquartered in Fort Lee, Virginia, was formed in October 1991 in an effort to consolidate the commissary system of each branch of the military into one efficient unit. Its stated mission is to ensure the commissary system provides United States military personnel and their families with needed groceries at the lowest possible price. DeCA's mission is recognized by many as essential to the military preparedness of the United States by assisting to maintain the morale, readiness and effectiveness of active duty troops, and by encouraging reenlistment of highly trained quality personnel.

DeCA is part of the Department of Defense ("DoD") under the Assistant Secretary of Defense for Personnel and Readiness. It manages the total resources of all DoD commissaries worldwide, including personnel, facilities, supplies, equipment and funds. DeCA commands and centrally manages the commissary system through four commissary regions. Three regions are located in the continental United States and one in Europe. Daily operational support to the agency's regions, zone managers, commissaries and associated facilities is provided by an Operations Support Center located in Fort Lee, Virginia (the "OSC"), which is responsible for acquisitions, financial management, information technology/electronic commerce management, inventory management, food safety,

30

marketing and transportation. All suppliers of goods to the commissary system are required to interface with the Marketing Business Unit (the "MBU") of the OSC, which combines several disciplines, such as operations, acquisition management and information management. The MBU is responsible for DeCA's electronic data interchange system, the preparation and administration of the resale ordering agreement used with suppliers, merchandising and marketing, and maintenance of the catalog master file, the list of products authorized to be carried by commissaries.

The great majority of the DeCA buying and merchandising decisions for the four DeCA regions are handled at DeCA's headquarters in Fort Lee, Virginia. Each region has its own Region Stock List ("RSL"). Within each RSL is a "Key Item List," which is a list of items that each store within that region should carry. Suppliers of brand name products must sell their products to the regional buyers to have their products included on that region's RSL. Once a product is listed on an RSL, it is the responsibility of the individual supplier to ensure that the product gets on the shelf. Many suppliers employ brokers, like us who function as sales representatives and provide a liaison with DeCA. Brokers also serve to promote the suppliers' products and ensure that the products are properly displayed and stocked on the shelf. Suppliers also contract with distributors who warehouse and ship the suppliers' products to the commissaries.

Any supplier wishing to sell a product in the commissary system must complete and submit a product application to DeCA. DeCA analyzes each proposed product on the basis of price, quality, anticipated demand and other factors. If the proposed product meets DeCA's requirements, it will be assigned a Local Stock Number, a product identification number ("LSN"), and included on one or more RSLs. If the product is unique to the tastes of a particular region or regions, it will be placed on the RSL for those regions only. Depending on the type of product, it may also be included on the Key Item List of one or more regions.

COMPETITION

The military resale market is a highly competitive market that is served by several large distributors, most notably SuperValu, Inc. and Nash Finch

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

Company, but is otherwise highly fragmented with hundreds of small, privately-held firms operating in the various distribution layers. We face competition from local, regional and national distributors on the basis of price, quality and assortment, schedules and reliability of deliveries and the range and quality of services provided.

Because there are relatively low barriers to entry in the military resale market, we expect competition from a variety of established and emerging companies. Many of our competitors have longer operating histories, substantially greater financial, technical, marketing or other resources, or greater name recognition than we have. Our competitors may be able to respond more quickly than we can to new or emerging technologies and changes in customer requirements. In addition, consolidation in the industry, heightened competition among our vendors, new entrants and trends toward vertical integration could create additional competitive pressures that reduce our margins and adversely affect our business. If we fail to successfully respond to these competitive pressures or to implement our strategies effectively, it could have a material adverse effect on our financial condition and prospects.

However, in December 2001, we issued 200,000 shares of common stock to Richard H. Tanenbaum for services rendered as one of our directors.

EXECUTIVE EMPLOYMENT AGREEMENTS

We do not have an employment agreement with any of our executive officers.

EQUITY INCENTIVE PLAN

In December 2001, we adopted the Military Resale Group, Inc. 2001 Equity Incentive Plan (the "Incentive Plan") for the purpose of attracting, retaining and maximizing the performance of executive officers and key employees and consultants. We have reserved 1,500,000 shares of our common stock for issuance under the Incentive Plan. The Incentive Plan has a term of ten years and provides for the grant of "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, non-statutory stock options, stock appreciation rights, restricted stock awards, performance share awards and compensatory share awards. The exercise price for non-statutory stock options may be equal to or more or less than 100 percent of the fair market value of shares of common stock on the date of grant. The exercise price for incentive stock options may not be less than 100 percent of the fair market value of shares of our common stock on the date of grant (110 percent of fair market value in the case of incentive stock options granted to employees who hold more than ten percent of the voting power of our issued and outstanding shares of common stock).

Options granted under the Incentive Plan may not have a term of more than a ten-year period (five years in the case of incentive stock options granted to employees who hold more than ten percent of the voting power of our common stock) and generally vest over a three-year period. Options generally terminate three months after the optionee's termination of employment by us for any reason other than death, disability or retirement, and are not transferable by the optionee other than by will or the laws of descent and distribution.

35

The Incentive Plan also provides for grants of stock appreciation rights ("SARs"), which entitle a participant to receive a cash payment, equal to the difference between the fair market value of a share of our common stock on the exercise date and the exercise price of SAR. The exercise price of any SAR granted under the Incentive Plan will be determined by our board of directors in its discretion at the time of the grant. SARs granted under the Incentive Plan may not be exercisable for more than a ten year period. SARs generally terminate one month after the grantee's termination of employment by us for any reason other than death, disability or retirement. Although our board of directors has the authority to grant SARs, it does not have any present plans to do so.

Restricted stock awards, which are grants of shares of our common stock that are subject to a restricted period during which such shares may not be sold, assigned, transferred, made subject to a gift, or otherwise disposed of, or mortgaged, pledged or otherwise encumbered, may also be made under the Incentive Plan.

Performance share awards, which are grants of shares of our common stock upon the achievement of specific performance objectives, may also be made under the Incentive Plan. At this time, our board of directors has not granted, and does not have any plans to grant, performance shares of common stock.

Compensatory share awards, which are grants of shares of our common stock as consideration for services rendered by our employees or consultants, may also be made under the Incentive Plan.

As of June 18, 2004, there were outstanding under the Incentive Plan options to purchase an aggregate of 800,000 shares of our common stock, which options are three-year options having an exercise price of \$0.50 per share. Exclusive of the Incentive Plan, as of June 18, 2004, there were outstanding options and warrants to purchase approximately 8,982,560 shares of our common stock, which options include five-year options to purchase 1,305,000 shares of our common stock at an exercise price of \$0.25 per share issued in June 2003 to holders of our convertible bridge notes and demand notes in consideration of their willingness to extend the term of their loans to us until June 3, 2006, five-year options to purchase 1,350,000 shares of our common stock at an exercise price of \$0.50 per share issued to three consultants in the first half of 2003, five-year warrants to purchase an aggregate of 1,000,000 shares of our common stock, consisting of warrants to purchase 250,000 shares at each of \$0.25, \$0.50, \$0.75 and \$1.00 per share, issued in June 2003 to a holder of one of our demand notes, three-year warrants to purchase an aggregate of 1,000,000 shares of our common stock, consisting of warrants to purchase 250,000 shares at each of \$0.25, \$0.50, \$0.75 and \$1.00 per share, issued to one of our consultants in May 2003, five-year options to purchase 600,000 shares of our common stock at an exercise price of \$0.25 per share issued to one of our consultants in October 2003 for services, and five-year options to purchase 250,000 shares of our common stock at an exercise price of \$0.25 per share issued to one of our consultants in December 2003, five-year warrants to purchase an aggregate of 2,000,000 shares of our common stock at an exercise

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In October 1997, we borrowed \$60,000 from Shannon Investments, Inc., which is controlled by Edward Whelan, our Chairman of the Board and Chief Executive Officer. In connection with such loan, we executed a promissory note in favor of Shannon Investments, Inc. that bears interest at the rate of 10% per annum and was originally payable on demand. In June 2003, Shannon Investments agreed to extend the term of the loan until June 3, 2006 and, in consideration thereof, we issued to Shannon Investments options to purchase 1,000,000 shares of our common stock. Such options are five-year options to purchase 250,000 shares at each of \$0.25, \$0.50, \$0.75 and \$1.00 per share. As of June 18, 2004, the full principal amount of the note was still outstanding.

From October 1997 through June 30, 2002, Xcel Associates, Inc., a company of which Mr. Whelan previously served as the President and a principal shareholder, maintained office space in our corporate offices without charge.

On August 14, 2001, we borrowed \$100,000 from Oncor Partners, Inc., a company of which Edward Whelan, our Chairman of the Board and Chief Executive Officer, is President and a shareholder. The loan bears no interest and had an original term of one year, which, in August 2002, was extended for an additional six months to February 14, 2003. In consideration of Oncor's willingness to extend the term of the loan, in November 2002, we granted Oncor a five-year option to purchase 500,000 shares of our common stock at an exercise price of \$0.50. In June 2003, Oncor agreed to further extend the term of the loan until June 3, 2006 and, in consideration thereof, we issued to Oncor a five-year option to purchase 100,000 shares of our common stock at an exercise price of \$0.25 per share. We also amended such note to allow such lender to convert the outstanding principal amount into shares of our common stock at a conversion price of \$0.25.

In December 2001, we borrowed \$25,000 from each of Ethan D. Hokit, our President and one of our directors, and Atlantic Investment Trust ("Atlantic"), a trust of which Richard Tanenbaum, one of our directors, is the trustee. In connection with each such loan, we executed a demand promissory note that bears

38

interest at the rate of 8% per annum. In June 2003, such lenders agreed to extend the terms of their loans until June 2006 and, in consideration thereof, we issued to such lenders an option to purchase 25,000 shares of our common stock at an exercise price of \$0.25 per share. We also amended such notes to allow the lender to convert the principal amount into shares of our common stock at a conversion price of \$0.25.

In January 2002, we entered into a one-year business consulting agreement with Edward Whelan and Edward Meyer, Jr. for the provision of marketing and managerial consulting services. Effective July 1, 2002, the consulting agreement of Mr. Whelan was terminated and Mr. Whelan became one of our employees, for which he was compensated on the same basis as he was to be paid under his consulting agreement. In consideration of the services to be rendered by Messrs. Whelan and Meyer, we issued in respect of each month the number of shares determined by dividing \$12,000 by the product of 80% and the average closing bid price for our common stock during such month. An aggregate of 301,113 shares of our common stock was issued to each of Messrs. Whelan or Meyer (or their respective designees) for services rendered during the term of the agreement.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

In August 2002, we issued to Atlantic Investment Trust and to Eastern Investment Trust, both trusts of which Richard Tanenbaum, one of our directors, is the trustee, \$100,000 aggregate principal amount of convertible promissory notes that originally matured on June 30, 2003 and bear interest at the rate of 8% per annum. In June 2003, such lenders agreed to extend the term of their loans until June 3, 2006 and, in consideration thereof, we issued such lenders an option to purchase 25,000 shares of our common stock at an exercise price of \$0.25 per share. Such notes are convertible at any time and from time to time by the noteholders into a maximum of 400,000 shares of our common stock (subject to certain anti-dilution adjustments). The terms of such notes require us to register under the Securities Act of 1933 the shares of our common stock issuable upon conversion of the notes not later than June 3, 2006.

In the fourth quarter of 2002 and the first quarter of 2003, we borrowed an aggregate of \$30,000 from Edward T. Whelan, our Chief Executive Officer and the Chairman of our Board of Directors. In connection with such borrowings, we executed demand promissory notes that bear interest at the rate of 10% per annum with respect to \$20,000 aggregate principal amount and 8% per annum with respect to \$10,000 aggregate principal amount. In June 2003, such lender agreed to extend the terms of his loans until June 2006 and, in consideration thereof, we issued to such lender an option to purchase 25,000 shares of our common stock at an exercise of \$0.25 per share.

In January 2003, our board of directors approved a one year executive compensation agreement with Edward T. Whelan, pursuant to which we will issue Mr. Whelan shares of our common stock in consideration for his services as Chief Executive Officer. Under the terms of the agreement, we will issue in respect of each month during 2003 a number of shares determined by dividing \$12,000 by the product of 80% and the average low price for our common stock during such month. An aggregate of 920,794 shares of our common stock was issued to Mr. Whelan (or his designee) pursuant to the executive compensation agreement.

In May 2003, we issued to Atlantic Investment Trust and to Eastern Investment Trust, the trustee of each of which is Richard Tanenbaum, one of our directors, \$20,000 aggregate principal amount of convertible promissory notes that originally matured on September 30, 2003 and bear interest at the rate of 8% per annum. In June 2003, such lenders agreed to extend the terms of their loans until June 2006 and, in consideration thereof, we issued to such lenders an option to purchase an aggregate of 7,500 shares of our common stock at an exercise price of \$0.25 per share. Such notes are convertible at any time and from time to time by the noteholders into a maximum of 120,000 shares of our common stock (subject to certain anti-dilution adjustments). The terms of such notes require us to register under the Securities Act of 1933 the shares of our common stock issuable upon conversion of the notes not later than June 3, 2006.

39

In January 2004, our board of directors approved a one year executive compensation arrangement with Edward T. Whelan, pursuant to which we will issue Mr. Whelan shares of our common stock in consideration for his services as Chief Executive Officer. Under the terms of the arrangement, we will issue in respect of each month during 2004 a number of shares determined by dividing \$12,000 by the product of 80% and the average low price for our common stock during such month and options to purchase an equivalent number of shares of our common stock at an exercise price of \$0.25 per share. As of June 18, 2004, an aggregate of 247,560 shares of our common stock and options to purchase an aggregate of 247,560 shares of our common stock were issued to Mr. Whelan under his executive compensation arrangement.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

In the second quarter of 2004, we purchased Ohio Street Partners, LLC from Data Recovery Continuum, Inc., a company of which Lee Brukman, one of our directors, is a principal shareholder. As consideration for the purchase, we issued to the selling entity 1,920,000 shares of our common stock and the five-year warrants to purchase an aggregate of 960,000 shares of our common stock at \$0.25 per share. In connection with such transaction, we granted registration rights to the selling entity.

DESCRIPTION OF SECURITIES

Our authorized capital stock consists of 50,000,000 shares of common stock, par value \$.0001 per share, and 10,000,000 shares of preferred stock, par value \$.0001 per share. As of June 18, 2004, 29,928,071 shares of common stock were issued and outstanding and no shares of preferred stock were issued and outstanding. In addition, at such date, 9,782,560 shares of common stock were reserved for issuance upon the exercise of outstanding options and warrants and 2,805,980 shares of common stock were reserved for issuance upon the conversion of outstanding convertible notes. Our Board of Directors has approved an increase in our number of authorized shares of common stock from 50,000,000 shares to 100,000,000 shares. We are currently seeking shareholder approval for such action.

COMMON STOCK

Voting, Dividend and Other Rights. Each outstanding share of common stock will entitle the holder to one vote on all matters presented to the shareholders for a vote. Holders of shares of common stock will have no preemptive, subscription or conversion rights. All shares of common stock to be outstanding following this offering will be duly authorized, fully paid and non-assessable. Our Board of Directors will determine if and when distributions may be paid out of legally available funds to the holders. We have not declared any cash dividends during the past fiscal year with respect to the common stock. Our declaration of any cash dividends in the future will depend on our Board of Directors' determination as to whether, in light of our earnings, financial position, cash requirements and other relevant factors existing at the time, it appears advisable to do so. In addition, we were a party to a credit facility that prohibits the payment of dividends without the lender's prior consent.

Rights Upon Liquidation. Upon liquidation, subject to the right of any holders of the preferred stock to receive preferential distributions, each outstanding share of common stock may participate pro rata in the assets remaining after payment of, or adequate provision for, all our known debts and liabilities.

Majority Voting. The holders of a majority of the outstanding shares of common stock constitute a quorum at any meeting of the shareholders. A plurality of the votes cast at a meeting of shareholders elects our directors. The common stock does not have cumulative voting rights. Therefore, the holders of a majority of the outstanding shares of common stock can elect all of our directors. In general, a majority of the votes cast at a meeting of shareholders must authorize shareholders action other than the election of directors. However, the Business Corporation Law of the State of New York provides that certain extraordinary matters, such as a merger or consolidation in which we are a constituent corporation, a sale or other disposition of all or substantially all of our assets, and our dissolution, require the vote of the holders of two-thirds of all outstanding voting shares. Most amendments to our certificate of incorporation require the vote of the holders of a majority of all outstanding voting shares.

TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for our common stock is Executive Registrar & Transfer, 3615 South Huron, Street, Suite 104, Englewood, Colorado 80110.

PLAN OF DISTRIBUTION

We are offering up to 10,000,000 shares of our common stock on a "best efforts, no minimum" basis at a price of \$0.25 per share. Under a "best efforts, no minimum" offering, there is no requirement that we sell a specified number of shares before the proceeds of the offering become available to us. We may sell only a nominal amount of shares and receive minimal proceeds from this offering. We will not escrow any of the proceeds received from our sale of shares before the offering and we are not required to sell a specified number of shares before the offering is terminated. Therefore, upon acceptance of a subscription, the proceeds from that subscription will be immediately available for our use and the investor has no assurance that we will sell all or any part of the remaining shares offered hereby. The offering will commence on the date shown on the front cover of this Prospectus and will terminate on November 30, 2004, unless, in our discretion, we terminate the offering before that date. We also reserve the right to extend the offering beyond November 30, 2004 for an additional 120 days if we have not sold all of the shares prior to that date.

Our officers, directors, employees and affiliates may purchase shares in the offering on the same terms and conditions as other purchasers. Subscription for the shares may only be made by completing a written subscription agreement and by submitting the completed agreement, together with a check payable to "Military Resale Group, Inc.," to us at our principal executive offices to the attention of our Chief Executive Officer. If the subscription is accepted, the check will be deposited by us and, upon notification from our bank that the funds are available, we will cause a stock certificate for the shares purchased to be issued and delivered to the investor. If we reject any subscription, the investor's check will be returned without interest or deduction.

To comply with the securities laws of certain jurisdictions, the shares of common stock offered by this Prospectus may have to be offered or sold only through registered or licensed brokers or dealers. In addition, in certain jurisdictions, the shares of common stock may not be offered or sold unless they have been registered or qualified for sale or an exemption is available and complied with. We currently plan to register all of the 10,000,000 shares offered hereby for offer and sale in each of the States of Colorado and New York and a limited number of shares in the States of Connecticut, Florida and New Jersey.

We have not engaged the services of an underwriter or selling agent or broker in connection with this offering. We will offer the shares directly and through our officers and directors, Messrs. Whelan, Hokit and Tanenbaum, acting on our behalf. We will not pay any commission or other consideration or compensation to any officer or director in connection with the sale of the shares. The persons offering the shares on our behalf will rely on the safe harbor from broker-dealer registration set forth in Rule 3a4-1 under the Securities Exchange Act of 1934 on the basis that such persons:

- o are not subject to statutory disqualification;
- o have not and will not be compensated in connection with their participation in this offering;

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

- o are not associated with a broker or dealer;
- o after this offering, will continue to perform substantial services on our behalf, other than in connection with the offering of our securities;

41

- o were not a broker or dealer or associated with a broker or dealer during past 12 months; and
- o do not participate in the sale of securities for any issuer more than once every 12 months.

Our common stock is considered a penny stock. Penny stocks are subject to special regulations, which may make them more difficult to trade on the open market.

Our common stock trades on the OTC Bulletin Board under the ticker symbol "MYRG." Securities in the OTC market are generally more difficult to trade than those on the Nasdaq National Market, the Nasdaq SmallCap Market or the major stock exchanges. In addition, accurate price quotations are more difficult to obtain. Additionally, our common stock is subject to special regulations governing the sale of a penny stock.

A "penny stock," is defined by regulations of the Securities and Exchange Commission as an equity security with a market price of less than \$5.00 per share. However, an equity security with a market price under \$5.00 will not be considered a penny stock if it fits within any of the following exceptions, which are not applicable to our securities:

- o The equity security is listed on Nasdaq or a national securities exchange;
- o The issuer of the equity security has been in continuous operation for less than three years, and either has (a) net tangible assets of at least \$5,000,000, or (b) average annual revenue of at least \$6,000,000; or
- o The issuer of the equity security has been in continuous operation for more than three years, and has net tangible assets of at least \$2,000,000.

If you buy or sell a penny stock, these regulations require that you receive, prior to the transaction, a disclosure explaining the penny stock market and associated risks. Furthermore, trading in our common stock would be subject to Rule 15c-9 of the Securities Exchange Act of 1934, which relates to non-Nasdaq and non-exchange listed securities. Under this rule, broker-dealers who recommend our securities to persons other than established customers and accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale.

Penny stock regulations will tend to reduce market liquidity of our common stock, because they limit the broker-dealers' ability to trade, and a purchaser's ability to sell the stock in the secondary market. The low price of our common stock will have a negative effect on the amount and percentage of transaction costs paid by individual shareholders. The low price of our common stock may also limit our ability to raise additional capital by issuing additional shares. There are several reasons for these effects. First, the internal policies of many institutional investors prohibit the purchase of low-priced stocks. Second, many brokerage houses do not permit low-priced stocks

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

to be used as collateral for margin accounts or to be purchased on margin. Third, some brokerage house policies and practices tend to discourage individual brokers from dealing in low-priced stocks. Finally, broker's commissions on low-priced stocks usually represent a higher percentage of the stock price than commissions on higher priced stocks. As a result, our shareholders will pay transaction costs that are a higher percentage of their total share value than if our share price were substantially higher.

LEGAL MATTERS

The legality of the issuance of the shares offered will be passed upon for us by the law firm of Pryor Cashman Sherman & Flynn LLP, New York, New York.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Military Resale Group, Inc.
Colorado Springs, Colorado

We have audited the accompanying balance sheet of Military Resale Group, Inc. as of December 31, 2003, and the related statements of operations, changes in stockholders' equity (deficit), and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Military Resale Group, Inc. as of December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company's recurring losses from operations and its working capital deficit raise substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MILITARY RESALE GROUP, INC. NOTES TO FINANCIAL STATEMENTS

(INFORMATION FOR THE THREE MONTHS ENDED MARCH 31, 2004 AND 2003 IS UNAUDITED)

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION

Military Resale Group, Inc. (the Company) was organized under the laws of the State of New York and is a regional distributor of grocery and household items specializing in distribution to commissaries of the U. S. Military. Currently, the Company services six military installations located in Colorado, Wyoming and South Dakota.

On October 15, 2001, the Company, formerly Bactrol Technologies, Inc. entered into a stock purchase agreement with Military Resale Group, Inc., a Maryland corporation that was formed on October 6, 1997 ("MRG"), pursuant to which 98.2% of MRG's stock was effectively exchanged for a controlling interest in our publicly held "shell" corporation. Concurrently with the closing of that transaction, the Company changed its name from Bactrol Technologies, Inc. to Military Resale Group, Inc. This transaction is commonly referred to as a "reverse acquisition". For financial accounting purposes, this transaction has been treated as the issuance of stock for the net monetary assets of the Company, accompanied by a recapitalization of MRG with no goodwill or other intangible assets recorded.

For financial reporting purposes, MRG was considered the acquirer, and therefore, the historical operating results of Bactrol Technologies, Inc. are not presented.

GOING CONCERN

The financial statements have been prepared on a going concern basis, which contemplates continuity of operations, realization of assets and liquidation of liabilities in the normal course of business.

The Company has suffered recurring losses from operations, and its working capital deficit raises substantial doubt about its ability to continue as a going concern.

The Company is currently registering 10,000,000 shares of its common stock for sale at \$.25 per share on a best efforts basis.

The Company's management is currently pursuing equity and/or debt financing in an effort to continue operations. The future success of the Company is likely dependent on their ability to attain additional capital to develop business, and ultimately upon their ability to attain future profitable operations. There can

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

be no assurance that the Company will be successful in obtaining such financing, or that the Company will attain positive cash flow from operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

UNAUDITED INTERIM FINANCIAL STATEMENTS

In the opinion of management, the unaudited interim financial statements for the three months ended March 31, 2004 and 2003 are presented on a basis consistent with the audited financial statements and reflect all adjustments, consisting only of normal recurring accruals, necessary for fair presentation of the results of such period. The results of operations for the three months ended March 31, 2004 are not necessarily indicative of the results to be expected for the year ending December 31, 2004.

CASH AND CASH EQUIVALENTS

The Company considers all cash and highly liquid investments with initial maturities of three months or less to be cash equivalents.

ACCOUNTS RECEIVABLE

The Company's trade accounts primarily represent unsecured receivables. Historically, its doubtful accounts related to these trade accounts have been insignificant. Therefore, no allowance for doubtful accounts has been provided for.

INVENTORY

Inventory consists primarily of grocery items, and is stated at the lower of cost or market. Cost is determined under the first-in, first-out method (FIFO) valuation method. All items of inventory are finished goods resold to military commissaries and wholesale food chains.

ADVERTISING COSTS

Advertising costs are charged to operations when incurred. For the three months ended March 31, 2004 and 2003, the Company incurred \$2,377 and \$-0- of advertising costs, respectively. For the years ended December 31, 2003 and 2002, the Company incurred \$-0- and \$949 of advertising costs, respectively.

EQUIPMENT

The Company follows the practice of capitalizing equipment costing in excess of \$250. The cost of ordinary maintenance and repairs is charged to operations while renewals and replacements are capitalized. Depreciation expense was \$9,442 and \$14,911 for the three months ended March 31, 2004 and 2003 and \$29,874 and \$40,789 for the years ended December 31, 2003 and 2002, respectively. Depreciation is computed on the straight-line method over the following estimated useful lives:

Office equipment and software	3 to 5 years
Warehouse equipment	5 to 7 years

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES

The Company accounts for income taxes under the asset and liability method. Under this method, deferred income taxes are recorded to reflect the tax consequences in future years of temporary differences between the tax basis of assets and liabilities and their financial statement amounts at the end of each reporting period. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense represents the tax payable for the current period and the change during the period in deferred tax assets and liabilities. Deferred tax assets and liabilities have been netted to reflect the tax impact of temporary differences.

Deferred tax assets arise primarily from the net operating loss carryforward and expenses accrued for book basis but not for tax basis. The Company is on the accrual basis for tax purposes, which has resulted in a net operating loss carryforward at March 31, 2004 and December 31, 2003. A full valuation allowance has been recorded at March 31, 2004 and December 31, 2003 since management of the Company can not determine that it is more likely than not that the tax asset will be realized. (See Note 9)

NET (LOSS) PER COMMON SHARE

The Company computes earnings (loss) per common share in accordance with Statement of Financial Accounting Standards No. 128, Earnings Per Share (SFAS No. 128). This statement simplifies the standards for computing earnings per share (EPS) previously found in Accounting Principles Board Opinion No. 15, Earnings Per Share, and makes them more comparable to international EPS standards. SFAS No. 128 replaces the presentation of primary EPS with a presentation of basic EPS. In addition, the Statement requires dual presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. (See Note 12).

REVENUE RECOGNITION

The Company's revenues are derived from either resale revenue or commission revenue.

Resale Revenue: The Company purchases products from manufacturers and suppliers for resale to the commissaries it services. Revenue from these customers is recognized when title to products passes to the customer for the amount of the sales less an appropriate provision for returns and allowances. The revenue amount recorded includes: (i) the purchase price paid by the commissary plus (ii) a negotiated storage and delivery fee paid by the manufacturer or supplier. The Company records revenue on a gross sales basis because the Company (a) is

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

the primary obligor in the transaction as the Company is responsible for fulfillment of the order and for the customer's acceptance of the goods or services sold, (b) bears inventory risk (taking title to the goods before the customer's order is placed or upon the customer's return), and (c) bears physical loss of inventory risk.

(INFORMATION FOR THE THREE MONTHS ENDED MARCH 31, 2004 AND 2003 IS UNAUDITED)

NOTE 1 - NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Commission Revenue: The Company records commission revenue in cases where it acts as an agent for the manufacturer or supplier of the products it sells, and earns a commission based upon a percentage of the suppliers' sales amount. This revenue is recognized at the time goods are shipped by the Company to the ultimate customer, which is when title passes.

STOCK BASED COMPENSATION

The Company accounts for stock based compensation in accordance with Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"). This standard requires the Company to adopt the "fair value" method with respect to stock-based compensation of consultants and other non-employees. The Company did not change its method of accounting with respect to employee stock options; the Company continues to account for these under the "intrinsic value" method, and to furnish the proforma disclosures required by SFAS 123.

VALUATION OF THE COMPANY'S COMMON STOCK

Unless otherwise disclosed, all stock based transactions entered into by the Company have been valued at the market value of the Company's common stock on the date the transaction was entered into or have been valued using the Modified Black-Scholes European Pricing Model to estimate the fair market value.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of financial instruments approximates their fair value, because of the short-term nature of these financial instruments.

The fair value of the Company's capital lease obligations approximate their carrying value and are based on the current rates offered for debt of the same remaining maturities with similar collateral requirements, or that the difference is represented by the additional costs to convert the debt to market rates making the two presently equivalent.

CONCENTRATIONS OF RISK

The Company maintains all cash and cash equivalents in financial institutions, which at times may exceed federally insured limits. The Company has not experienced a loss in such accounts.

The Company's revenues from military commissary sales provide approximately ninety two percent of their total revenues. Management believes that concentration of customers with respect to risk is minimal due to the sales

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

being primarily through government contracts.

RECLASSIFICATION

Certain amounts in the prior period financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, an interpretation of ARB 51 ("FIN 46"). The primary objectives of FIN 46 are to provide guidance on the identification of entities for which control is achieved through means other than through voting rights (Variable Interest Entities or "VIEs") and to determine when and which business enterprise should consolidate the VIE. This new model for consolidation applies to an entity which either (1) the equity investors (if any) do not have a controlling financial interest or (2) the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. The disclosure requirements of FIN 46 became effective for financial statements issued after January 31, 2003. The adoption of this interpretation did not have an impact on the Company's financial statements.

In April 2003, FASB issued SFAS No. 149, Accounting for Derivative Instruments and Hedging Activities, ("SFAS 149") which is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. This statement amends and clarifies financial accounting and reporting for derivative instruments including certain instruments embedded in other contracts and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." The Company has adopted SFAS 149 and its adoption did not have a material effect on its financial statements.

In May 2003, FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity, ("SFAS 150") which is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. The Company has adopted SFAS 150 and its adoption did not have a material effect on its financial statements.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

amounts.

The value of the stock and the value of the options was \$36,000 each based on \$12,000 each per month. NOTE 5 - CONVERTIBLE NOTES

During the year ended December 31, 2002, notes payable of \$150,000, which included a beneficial conversion feature, were converted into 1,793,574 shares of the Company's common stock pursuant to the notes.

At March 31, 2004 and December 31, 2003, the Company had an aggregate of \$605,000 payable in convertible notes of which \$370,000 are with related parties (see Note 4). On June 30, 2003, notes in the amount of \$215,000 that were originally due on or before June 30, 2003 and \$50,000 of notes that were originally due September 30, 2003 were extended until June 3, 2006 and bear interest at 8%. An additional \$240,000 of demand notes were converted to convertible notes on June 30, 2003 and are due June 3, 2006. Of these notes, \$100,000 are non-interest bearing, \$60,000 bear interest at 10% and \$80,000 bear interest at 8%.

In connection with the extension of the due dates and conversion of the demand notes to convertible notes, stock options of 1,305,000 were issued. The options expire in five years. The fair value of the options were estimated at \$271,440 based on the Modified Black-Scholes European Pricing Model. The average risk free interest rate used was 2.9%, volatility was estimated at 94.06% and the expected life was five years. The Company recorded prepaid interest of \$271,440 and are amortizing it over the extension period. Interest expense of \$23,107 and \$46,721 was recorded during the three months ended March 31, 2004 and during the year ended December 31, 2003, respectively for amortization of the prepaid interest.

During the year ended December 31, 2003, the Company issued \$20,000 in convertible notes bearing interest at 8% per annum due January 30, 2004 and \$15,000 in convertible notes bearing interest at 8% per annum due June 3, 2006.

The Company's convertible notes provide generally that, if the convertible notes are not in default, the holders may convert, at any time all or a portion of the outstanding balance under each convertible note into a number of shares (subject to certain anti-dilution adjustments) of common stock that will allow the note holder to receive common stock having a market value equal to 150% of the converted balance of the note. For notes issued prior to May 30, 2003, if an event of default has occurred in respect of such convertible notes, the holder may convert the outstanding balance into a number of shares (subject to certain anti-dilution adjustments) of common stock equal to twice the number of shares the holder would have otherwise received if the convertible notes were not in default. Among other events of default, the terms of the convertible notes require the Company to register under the Securities Act of 1933 the shares of common stock issuable upon conversion of the convertible notes. On June 30, 2003 the demand notes were modified to allow the holder to convert their notes into common stock at \$0.25 per share. These convertible notes do not have a beneficial conversion feature.

NOTE 5 - CONVERTIBLE NOTES (CONTINUED)

The Company follows EITF 98-5 in accounting for convertible notes with "beneficial conversion features" (i.e., the notes may be converted into common stock at the lower of a fixed rate at the commitment date or a fixed discount to

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

the market price of the underlying common stock at the conversion date). Because the Company's convertible notes contained a beneficial conversion feature on the date of issuance, the Company measured and recognized the intrinsic value of the beneficial conversion feature of the convertible notes when the convertible notes were issued. During the year ended December 31, 2003 and 2002 interest expense of \$27,173 and \$370,000, respectively, was recognized as the intrinsic value of the beneficial conversion feature of the convertible notes that were issued during such periods.

NOTE 6 -NOTES PAYABLE

On March 27, 2003, the Company issued a promissory note for \$100,000 to Romano, Ltd. As of December 31, 2003, the remaining balance on this note was \$89,210. When the Company failed to secure any of the above-referenced additional funding, or another significant event such as a merger or acquisition of another company, the Company was required to pay \$8,000 per month commencing on July 1, 2003 until the full obligation was paid.

During the three months ended March 31, 2004 the Company reached an agreement with Romano, Ltd. The Company signed a \$30,000 note with Romano, Ltd., for the accrued interest on the original \$100,000 loan with interest at 15% per annum, payable beginning on April 1, 2004 with equal consecutive installments payable on the fifteenth of every month in the amount of \$5,000 until paid in full or March 26, 2005. As of March 31, 2004 and December 31, 2003, the Company had net operating loss carryforwards for federal income tax purposes of approximately \$5,714,000 and \$5,375,000, respectively, which will be available to reduce future taxable income. The full realization of the tax benefit associated with the carryforward depends predominantly upon the Company's ability to generate taxable income during the carryforward period. Because of the current uncertainty of realizing such tax assets in the future, a valuation allowance has been recorded equal to the amount of the net deferred tax assets, which caused our effective tax rate to differ from the statutory income tax rate.

The net operating loss carryforward, if not utilized, will expire between 2017 and 2023. At March 31, 2004 and December 31, 2003, the valuation allowance increased by \$115,216 and \$563,506, respectively.

NOTE 10 - EQUITY INCENTIVE PLAN

In December 2001, the Company adopted the Military Resale Group, Inc. 2001 Equity Incentive Plan (the "Incentive Plan") for the purpose of attracting, retaining and maximizing the performance of executive officers and key employees and consultants. The Company has reserved 1,500,000 shares of common stock for issuance under the Incentive Plan. The Incentive Plan has a term of ten years and provides for the grant of "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, non-statutory stock options, stock appreciation rights, restricted stock awards, performance share awards and compensatory share awards. The exercise price for non-statutory stock options may be equal to or more or less than 100 percent of the fair market value of shares of common stock on the date of grant. The exercise price for incentive stock options may not be less than 100 percent of the fair market value of shares of our common stock on the date of grant (110 percent of fair market value in the case of incentive stock options granted to employees who hold more than ten percent of the voting power of issued and outstanding shares of common stock).

Options granted under the Incentive Plan may not have a term of more than ten-years (five years in the case of incentive stock options granted to employees who hold more than ten percent of the voting power of common stock) and generally vest over a three-year period.

NOTE 13 - CONTINGENCIES (CONTINUED)

The Company was the plaintiff in a litigation with one of its vendors. During the three months ended March 31, 2004 the Company entered into a judgment in which they were ordered to pay the vendor \$5,356 with the amount due accruing interest at 8% per annum. As of March 31, 2004 the Company had not paid any amount to this vendor. Subsequent to March 31, 2004, the Company received a Writ of Garnishment and is expecting to have the original judgment amount of \$5,356 plus interest and other charges of \$181 garnished from one of their bank accounts.

The Company was the defendant in a litigation regarding their former premises. The plaintiff was the former landlord, who was seeking damages for an alleged breach of the terms of several operating lease agreements for office and warehouse space located in Colorado Springs, Colorado. On November 25, 2003 a settlement was reached and issued with the district court of El Paso County, Colorado. Under the terms of the settlement, the Company delivered 384,000 shares of common stock to the plaintiff for settlement of \$50,000 owed and agreed to issue a note payable to the plaintiff in the amount of \$100,000 bearing interest at 10% per annum beginning November 6, 2003. Under the terms of the note, the Company is required to begin payments of \$2,000 per month on July 1, 2004 and on the first day of each and every month thereafter until all principal and accrued interest are paid in full. If on the date of full payment of the note or the date of maturity of the note, whichever occurs first, the market price of the stock as of close of the market on that day is \$50,000 or greater the plaintiff must accept the stock as full satisfaction of the \$50,000 liability. If the market price of the stock is less than \$50,000, the plaintiff may either retain the stock as full satisfaction of the \$50,000 or surrender the stock to the Company in exchange for simultaneous payment to the plaintiff in cash of \$50,000.

The Company was the defendant in two other litigations with two different vendors. In accordance with the judgments issued on September 10, 2003 and October 31, 2003, the Company is required to pay a total of \$76,675 (non-interest bearing) and \$39,901 (bearing interest at 8% per annum) to each vendor respectively. As of March 31, 2004 the Company owed \$69,675 and \$40,433, respectively, to each vendor.

In February 2003, a capital lease obligation, secured by equipment with a net book value of \$25,363, was accelerated due to non-payment. This obligation is reflected in the current portion of obligations under capital leases in the accompanying financial statements. The Company defaulted under the accelerated terms of this agreement and the debt has been sent to a collections agency. The Company is paying \$1,000 per month on this lease until a new settlement can be reached.

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

In February 2003, the Company entered into a Lease Modification Agreement for a capital lease for equipment with a net book value of \$57,183. The term of the lease was extended through April 2007, with no required payment for the months between November 2002 and February 2003. Minimum lease payments have increased to \$2,100 through October 2003 and \$1,980 for the remaining 40 months.

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Reference is made to Sections 721 through 725 of the Business Corporation Law of the State of New York (the "NYBCL"), which provides for indemnification of directors and officers of New York corporations under certain circumstances.

Section 722 of the NYBCL provides that a corporation may indemnify directors and officers as well as other employees and individuals against judgments, fines, amounts paid in settlement and reasonable expenses, including attorneys' fees, in connection with actions or proceedings, whether civil or criminal (other than an action by or in the right of the corporation, a "derivation action"), if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to amounts paid in settlement and reasonable expenses (including attorneys' fees) incurred in connection with the defense or settlement of such actions, and the statute does not apply in respect of a threatened action, or a pending action that is settled or otherwise disposed of, and requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. Section 721 of the NYBCL provides that Article 7 of the BCL is not exclusive of other indemnification that may be granted by a corporation's certificate of incorporation, disinterested director vote, shareholder vote, agreement or otherwise.

Article 7 of our Restated Certificate of Incorporation requires us to indemnify our officers and directors to the fullest extent permitted under the NYBCL. Furthermore, Article XII of our Amended and Restated By-laws provides that we may, to the full extent permitted and in the manner required by the laws of the State of New York, indemnify any officer or director (and the heirs and legal representatives of any such person) made, or threatened to be made, a party in an action or proceeding (including, without limitation, one by us or in our right to procure a judgment in our favor), whether civil or criminal, including an action by or in the right of any other corporation of any type or kind, domestic or foreign, or any partnership, joint venture, trust, employee benefit plan or other enterprise, which of our directors or officers served in any capacity at our request, by reason of the fact that such director or officer, or such director's or officer's testator or intestate, was a director or officer of ours or served such other corporation, partnership, joint venture, trust, employee benefit plan or other enterprise in any capacity.

Section 402(b) of the NYBCL provides that a corporation's certificate of incorporation may include a provision that eliminates or limits the personal liability of the corporation's directors to the corporation or its shareholders for damages for any breach of a director's duty, provided that such provision does not eliminate or limit (1) the liability of any director if a judgment or other final adjudication adverse to the director establishes that the director's acts or omissions were in bad faith or involved intentional misconduct or a knowing violation of law or that the director personally gained a financial profit or other advantage to which the director was not legally entitled or that the director's acts violated Section 719 of the NYBCL, or (2) the liability of any director for any act or omission prior to the adoption of a provision authorized by Section 402(b) of the NYBCL. Article 7 of our Restated Certificate of Incorporation provides that none of our directors shall be liable to us or our shareholders for any breach of duty in such capacity except for liability in the event a judgment or other final adjudication adverse to a director establishes that his or her acts or omissions were in bad faith or involved intentional misconduct or a knowing violation of law or that the director personally gained, in fact, a financial profit or other advantage to which he or she was not legally entitled or that such director's acts violated Section 719,

Edgar Filing: MILITARY RESALE GROUP INC - Form SB-2/A

or its successor, of the NYBCL.

II-1

Any amendment to or repeal of our Restated Certificate of Incorporation or by-laws shall not adversely affect any right or protection of any of our directors or officers for or with respect to any acts or omissions of such director or officer occurring prior to such amendment or repeal.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or controlling persons pursuant to the foregoing, we have been informed that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

ITEM 25. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION

ITEM 26. RECENT SALES OF UNREGISTERED SECURITIES

The following sets forth certain information for all securities we sold during the past three years without registration under the Securities Act:

2001

On August 1, 2001, Military Resale Group, Inc., a Maryland corporation ("MRG-Maryland"), issued options to purchase 1,000,000 shares of its common stock to Ronald Steenbergen, a consultant. In connection with our purchase of 98.2% of the outstanding capital stock of MRG-Maryland in a reverse acquisition (the "Reverse Acquisition"), we assumed the obligations under the option. Such options were exercisable for one year at an exercise price of \$0.50 per share and expired in August 2002 without having been exercised. Such options were issued in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, on the basis that such issuance did not involve a public offering, no underwriter fees or commissions were paid in connection with such issuance and such person was an 'accredited investor' as defined in Regulation D under the Securities Act of 1933, as amended.

II-2

In November 2001, we issued an aggregate of 5,410,000 shares of our common stock to the eleven stockholders of MRG- Maryland in connection with the Reverse Acquisition. Such shares were issued in reliance on the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, on the basis that such issuance did not involve a public offering, no underwriter fees or commissions were paid in connection with such issuance and such persons represented to us that they were 'accredited investors' as defined in Regulation D under the Securities Act of 1933, as amended.

In December 2001, we issued an aggregate of 875,000 shares of our common stock to an aggregate of 13 of our employees and directors as bonus compensation for services rendered in 2001. ITEM 28. UNDERTAKINGS

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act") may be permitted to directors, officers and controlling persons of the Company, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes to:

- (1) File, during any period in which it offers or sells securities, a

post-effective amendment to this registration statement to:

(i) Include any prospectus required by section 10(a)(3) of the Securities Act;

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement; Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high and of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.
