EXHIBIT 99.1

Item 2.02. Results of Operations and Financial Condition.

The information in this Item 2.02 and the Exhibits attached hereto shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or any proxy statement or report or other document we may file with the SEC, regardless of any general incorporation language in any such filing, except as shall be expressly set forth by specific reference in such filing.

On July 26, 2007, RadiSys Corporation (the “Company”) issued a press release announcing its results for the fiscal quarter ended June 30, 2007. A copy of this press release is attached hereto as Exhibit 99.1.

This press release contains forward-looking statements, including statements about the Company’s business strategy and the Company’s guidance for the third quarter of 2007, particularly with respect to anticipated revenues and loss/earnings per share. Actual results could differ materially from the outlook, guidance and expectations in these forward-looking statements as a result of a number of risk factors, including, among others, (a) the anticipated amount and timing of revenues from design wins due to the Company’s customers’ product development time, cancellations or delays, (b) the Company’s inability to successfully integrate operations, technologies, products or personnel from the acquisition of Convedia Corporation, (c) the Company’s inability to realize the benefits sought from the acquisition of Convedia Corporation, higher than anticipated integration costs of the acquisition and less than expected financial performance resulting therefrom, which may adversely affect the price of the Company’s stock, and (d) the factors listed in RadiSys’ reports filed with the Securities and Exchange Commission (SEC), including those listed under “Risk Factors” in RadiSys’ Annual Report on Form 10-K for the year ended December 31, 2006, and in the RadiSys Quarterly Reports on Form 10-Q filed with the SEC each fiscal quarter, and other filings with the SEC, copies of which may be obtained by contacting the Company at 503-615-1100 or from the Company’s investor relations web site at <http://investor.radisys.com/>. Although forward-looking statements help provide additional information about RadiSys, investors should keep in mind that forward-looking statements are inherently less reliable than historical information. All information in this press release is as of July 26, 2007. The Company undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in the Company’s expectations.

In addition to disclosing financial results calculated in accordance with GAAP, the historical and forward-looking financial results in the Company’s earnings release contain non-GAAP financial measures that exclude the effects of (a) acquisition-related expenses including an in-process R&D charge, amortization of acquired intangible assets, amortization of deferred compensation, integration expenses and purchase accounting adjustments, (b) stock-based compensation expense recognized as a result of the Company’s adoption of FAS 123R, (c) restructuring charges (reversals), (d) insurance gain (e) a gain related to supplier settlement, and (f) a gain related to the sale of a building /land. The Company believes that the presentation of results excluding these items will provide meaningful supplemental information to investors that are indicative of the Company’s core operating results. A reconciliation of non-GAAP information to GAAP information is included in the tables below. The non-GAAP financial measures disclosed by the Company should not be considered a substitute for or superior to financial measures calculated in accordance with GAAP, and reconciliations between GAAP and non-GAAP financial measures included in this earnings release should be carefully evaluated. The non-GAAP financial measures used by the Company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.
