PROSPECTUS

Filed pursuant to Rule 424(b)(3)
Registration No. 333-159579

DEER CONSUMER PRODUCTS, INC.

1,841,058 Shares of Common Stock

The selling shareholders identified in this prospectus may offer and sell up to an aggregate of 1,841,058 shares of our common stock consisting of (i) 1,455,445 shares of our common stock issued to investors in the Units (as defined below), (ii) up to 363,873 shares of our common stock issuable upon exercise of warrants of which (a) warrants to purchase 218,328 shares of our common stock were issued to investors in the Units and (b) warrants to purchase 145,545 shares of our common stock were issued to placement agents and qualified finders in connection with the sale of the Units and (iii) 21,740 shares of common stock purchased by our former President. Each "Unit" was offered and sold at a purchase price of \$1.84 per Unit and consisted of one share of our common stock and a warrant to purchase 15% of one share of our common stock. All warrants are immediately exercisable, expire on the third anniversary of their issuance and entitle their holders to purchase one share of our common stock at an initial exercise price of \$3.45 per share. All of the shares and warrants were issued to the selling shareholders prior to the filing of this Registration Statement in four private placement transactions exempt from registration under the Securities Act of 1933, as amended, under Regulation D and Regulation S promulgated thereunder. The closing of the first private placement took place on March 31, 2009 for an aggregate of 405,445 Units, and the closing of the second and third private placements, solely pursuant to Regulation S, took place on May 1, 2009 and May 20, 2009 for an aggregate of 520,000 and 530,000 Units, respectively. Our former President purchased his common stock in a private sale from our former controlling stockholder.

We are not selling any shares of our common stock in this offering and will not receive any proceeds from this offering. We may receive proceeds on exercise of outstanding warrants for shares of common stock covered by this prospectus if the warrants are exercised for cash.

The selling shareholders may offer the shares covered by this prospectus at fixed prices, at prevailing market prices at the time of sale, at varying prices or negotiated prices, in negotiated transactions, or in trading markets for our common stock. We will bear all costs associated with this registration.

Our common stock trades on the OTC Bulletin Board under the symbol "DCPD." The closing price of our common stock on the OTC Bulletin Board on May 26, 2009 was \$6.25 per share.

You should consider carefully the risk factors beginning on page 4 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved these securities or determined that this prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is June 4, 2009.

You may only rely on the information contained in this prospectus or that we have referred you to. We have not authorized anyone to provide you with different information. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities other than the common stock offered by this prospectus. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any common stock in any circumstances in which such offer or solicitation is unlawful. Neither the delivery of this prospectus nor any sale made in connection with this prospectus shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this prospectus or that the information contained by reference to this prospectus is correct as of any time after its date.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement we filed with the Securities and Exchange Commission ("SEC"). You should rely only on the information provided in this prospectus and incorporated by reference in this prospectus. We have not authorized anyone to provide you with information different from that contained in or incorporated by reference into this prospectus. The selling shareholders are offering to sell, and seeking offers to buy, shares of common stock only in jurisdictions where offers and sales are permitted. The information in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of common stock. The rules of the SEC may require us to update this prospectus in the future.

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus and does not contain all of the information you should consider in making your investment decision. Before investing in the securities offered hereby, you should read the entire prospectus, including our financial statements and related notes included in this prospectus and the information set forth under the headings "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." In this prospectus, the terms "Deer," "we," "us," and "our" refer to Deer Consumer Products, Inc.

Our Company

We are a market leader in the design, manufacture and sale of home and kitchen electric appliances. Our company has successfully targeted consumers in the growing Chinese marketplace as well as customers in more than 40 countries worldwide. Our product lines include blenders, juicers, soy milk makers, choppers and other home and kitchen electric appliances designed to improve at-home lifestyles in today's fast paced society. We are one of the largest manufacturers of small electric blenders and juicers in China and manufacture of some of the leading kitchen appliance brands in the world.

Deer has traditionally acted as both an original equipment manufacturer ("OEM") and original design manufacturer ("ODM") for international markets with approximately 90% and 95% of our total sales made overseas in 2007 and 2008, of which North America and Europe accounted for approximately 52% of our total sales in 2008. While Deer has traditionally made the majority of its sales in Europe and North America, urbanization, rising family incomes and increased living standards have spurred the demand for small appliances in China. In addition we are rapidly expanding into emerging growth countries in South America, Asia, Africa, and the Middle East. In 2008, Deer had sales in over 40 countries.

In 2008 Deer introduced its own brands of appliances to the domestic market. Management believes that our Deer brands will grow significantly as the domestic demand for our products increases in China with increased living standards.

The growth of our Deer brands is a result of our:

- o Aggressive sales efforts to retail stores and commercial purchasers in China;
- o expanded direct sales through our new franchised retail stores and through popular Chinese internet portals; and
- o targeted marketing efforts to customers in South America, Asia, Africa, and the Middle East.

We were able to maintain our revenue growth in 2008 despite a global recession because of our pricing and quality of our OEM and ODM products, strong sales to large retailers and our aggressive expansion in China, South America, Asia, Africa, and the Middle East.

Management believes Deer is positioned to become a leading brand in China's rapidly growing home and kitchen electronic appliance sector and will continue to be a leading international OEM and ODM.

We were incorporated in Nevada on July 18, 2006 under the name of Tag Events Corp as a musical event organization and promotion company with minimal operations. On September 3, 2008 we changed our name to Deer Consumer Products, Inc. and entered into and consummated a series of agreements which resulted in the acquisition of all of the ordinary shares of Deer International Group Ltd, a corporation organized under the laws of the British Virgin Islands ("Deer International") parent of its wholly-owned subsidiary, Winder Electric Co. Ltd. ("Winder"), which is a wholly-owned foreign enterprise ("WOFE") and responsible for research, production and delivery of goods, and Delta International Limited ("Delta"), which is a wholly owned subsidiary of Winder and primarily responsible for sales.

The acquisition of Deer's ordinary shares was accomplished pursuant to the terms of a Share Exchange Agreement and Plan of Reorganization, dated September 3, 2008 (the "Share Exchange Agreement"), by and between Deer International and the Company. Pursuant to the Share Exchange Agreement, we acquired from Deer 50,000 ordinary shares, consisting of all of its issued and outstanding capital stock, in exchange for the issuance of 7,847,853 shares of our common stock to the shareholders of Deer International (the "Share Exchange").

Concurrently with the closing of the transactions contemplated by the Share Exchange Agreement and as a condition thereof, we entered into an agreement with Crescent Liu, our former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of our common stock to us for cancellation. Mr. Liu was not compensated in any way for the cancellation of his shares of our common stock. Upon completion of the foregoing transactions, we had 9,826,113 shares of common stock issued and outstanding.

Our principal offices are located at Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057. Our telephone number is (86) 755-8602-8285.

The Offering

Common stock outstanding before the offering	11,281,558 shares
Common stock offered by selling shareholders	Up to 1,841,058 shares The maximum number of shares to be sold by the selling shareholders, 1,841,058 shares, represents 15.81% of our outstanding stock, assuming full exercise of the warrants
Common stock to be outstanding after the offering	11,645,431 shares, assuming full exercise of the warrants
Use of proceeds	We will not receive any proceeds from the sale of the common stock. To the extent that the selling stockholders exercise for cash all of the warrants covering the 363,873 shares of common stock issuable upon exercise of all of the warrants, we would receive \$1,255,362 in aggregate from such exercises. We intend to use such proceeds for general corporate and working capital purposes. See "Use of Proceeds" for a complete description.
Risk Factors	The purchase of our common stock involves a high degree of risk. You should carefully review and consider "Risk Factors" beginning on page 4.

The above information regarding common stock to be outstanding after the offering is based on 11,281,558 shares of common stock outstanding as of May 28, 2009.

RISK FACTORS

Our business and an investment in our securities are subject to a variety of risks. The following risk factors describe the most significant events, facts or circumstances that could have a material adverse effect upon our business, financial condition, results of operations, ability to implement our business plan, and the market price for our securities. Many of these events are outside of our control. The risks described below are not the only ones facing our company. Additional risks not presently known to us or that we currently believe are immaterial may also impair our business operations. If any of these risks actually occurs, our business, financial condition or results of operation may be materially adversely affected. In such case, the trading price of our common stock could decline and investors in our common stock could lose all or part of their investment.

Risks Related to Our Business

Raw materials price fluctuations

The Company's largest raw materials purchases consist of micro-motors and plastics (AS, PP, ABS which are derived from petroleum) and stainless steel. As such, fluctuations in the price of oil and steel on the international market will have an impact on the Company's operating costs and related profits.

International oil prices reached new highs in our third quarter but fell sharply in our fourth quarter. The price of most plastics moves in relation to oil prices and all electrical appliance manufacturers are affected by cost increases and benefit from decreases. Management believes that any significant long-term increases or decreases in the price of petroleum will be passed onto users in the form of higher or lower manufacturer prices. However, short term volatility in petroleum and plastics prices can either result in short term increases or decreases in manufacturing costs.

Economic slowdown in US & European markets

Historically the majority of the Company's sales are made overseas with approximately 52% of our total sales made in North American and European markets, in 2008 respectively. As such, any weakening economic conditions in these markets could negatively impact the Company's operating results. In order to reduce such risk the Company has:

- o initiated a flexible pricing strategy with international customers, and
- o begun a strong drive into the domestic market of China.

Exchange Rates

As the majority of the Company's sales are currently made internationally any further appreciation of the RMB negatively impacts the Company's profit & loss results. In order to limit exposure to such currency risk the Company may engage in Forward Foreign Exchange agreements.

Loss of or failure to renew any or all of its licenses and permits

In accordance with the laws and regulations of the PRC, Deer is required to maintain various licenses and permits in order to operate our electrical appliance products manufacturing business. Deer is required to comply with applicable hygiene and safety standards in relation to our production processes. Deer production processes are subject to periodic inspections by the regulatory authorities for compliance with applicable regulations. Failure to pass these inspections, or the loss of or failure to renew such licenses and production permits, or sales licenses could result in the temporary or permanent suspension of some or all of our production or distribution operations and could adversely affect our revenues and profitability.

We can not be assured of the success of the Domestic Market Development & Brand Campaign.

Since the Company just recently initiated its own branding campaign in the domestic market in China in the first quarter of 2008, and, while prospects for the domestic market are encouraging, there exists uncertainty as to the Company's ability to build a strong market presence. The domestic market began to emerge in the 1990s and established brand leaders with greater experience, market share, and customer loyalty already exist such as Midea, Tsann Kuen, Supor, and Vatti, thus, the ability of the Company to gain a stronghold in the market is uncertain. In the combined international and domestic sales for 2008 management estimates that only 10% of our revenues were generated from the Company's own brands.

We derive a substantial part of our revenues from several major customers. If we lose any of these customers or they reduce the amount of business they do with us, our revenues may be seriously affected.

Our five largest customers accounted for 36.5% of our revenues for the year ended December 31, 2008 and our ten largest customers accounted for approximately 51% our revenues for the year ended December 31, 2008. Our largest customer accounted for 18.9% of our revenues in the year ended December 31, 2008. These customers may not maintain the same volume of business with us in the future. If we lose any of these customers or they reduce the amount of business they do with us, our revenues may be seriously affected.

We cannot be certain that our product innovations and marketing successes will continue.

We believe that our past performance has been based on, and our future success will depend, in part, upon our ability to continue to improve our existing products through product innovation and to develop, market and produce new

products. We cannot assure you that we will be successful in introducing, marketing and producing any new products or product innovations, or that we will develop and introduce in a timely manner innovations to our existing products which satisfy customer needs or achieve market acceptance. Our failure to develop new products and introduce them successfully and in a timely manner could harm our ability to grow our business and could have a material adverse effect on our business, results of operations and financial condition.

Our technology may not satisfy the changing needs of our customers.

With any technology, including the technology of our current and proposed products, there are risks that the technology may not successfully address all of our customers' needs. While we have already established successful relationships with our customers, their needs may change or vary. This may affect the ability of our present or proposed products to address all of our customers' ultimate technology needs in an economically feasible manner.

We may not be able to keep pace with rapid technological changes and competition in our industry.

While we believe that we have hired or engaged personnel and outside consultants who have the experience and ability necessary to keep pace with advances in technology, and while we continue to seek out and develop "next generation" technology through our research and development efforts, there is no guarantee that we will be able to keep pace with technological developments and market demands in this evolving industry and market. In addition, our industry is highly competitive. Although we believe that we have developed strategic relationships to best penetrate our existing markets, we face competition from other manufacturers of product similar to our products. Some of our competitors' advantages over us in both the areas of products, marketing, and services include the following:

- o Substantially greater revenues and financial resources;
- o Stronger brand names and consumer recognition;
- o The capacity to leverage marketing expenditures across a broader portfolio of products;
- o Pre-existing relationships with potential customers;
- o More resources to make acquisitions;
- o Lower labor and development costs; and
- o Broader geographic presence.

We will face different market dynamics and competition if we expand our market to new countries. In some international markets, our future competitors would have greater brand recognition and broader distribution than we currently enjoy. We may not be as successful as our competitors in generating revenues in those markets due to our inability to provide products that are attractive to the market in those countries, the lack of recognition of our brand, and other factors. As a result, any new expansion efforts could be more costly and less profitable than our efforts in our existing markets.

If we are not as successful as our competitors in our target markets, our sales could decline, our margins could be negatively impacted and we could lose market share, any of which could materially harm our business.

We are a major purchaser of certain goods and raw materials that we use in the manufacturing process of our products, and price changes for the commodities we depend on may adversely affect our profitability.

Our profitability generally depends upon the margin between the cost to us of certain raw materials used in the manufacturing process as well as our fabrication costs associated with converting such raw materials into assembled products compared to the selling price of our products, and the overall supply of raw materials. It is our intention to base the selling prices of our products upon the associated raw materials costs to us. However, we may not be able to pass all increases in raw material costs and ancillary acquisition costs associated with taking possession of the raw

materials through to our customers. Although we are currently able to obtain adequate supplies of raw materials, it is impossible to predict future availability. The inability to offset price increases of raw material by sufficient product price increases, and our inability to obtain raw materials, would have a material adverse effect on our consolidated financial condition, results of operations and cash flows.

Our products may contain defects, which could adversely affect our reputation and cause us to incur significant costs.

Despite testing by us defects may be found in existing or new products. Any such defects could cause us to incur significant return and exchange costs, re-engineering costs, divert the attention of our engineering personnel from product development efforts, and cause significant customer relations and business reputation problems. Any such defects could force us to undertake a product recall program, which could cause us to incur significant expenses and could harm our reputation and that of our products. If we deliver defective products, our credibility and the market acceptance and sales of our products could be harmed.

Our position in the marketplace could be negatively impacted if we experience delays in launching our products.

We may experience delays in bringing new products to market, due to design, manufacturing or distribution problems. Such delays could adversely affect our ability to compete effectively and may adversely affect our relationship with our customers. Any such delays would adversely affect our revenues and our ability to become profitable.

If we are not able to manage our growth, we may not be profitable.

Our success will depend on our ability to expand and manage our operations and facilities. There can be no assurance that we will be able to manage our growth, meet the staffing requirements for our business or for additional collaborative relationships or successfully assimilate and train new employees. In addition, to manage our growth effectively, we may be required to expand our management base and enhance our operating and financial systems. If we continue to grow, there can be no assurance that the management skills and systems currently in place will be adequate. Moreover, there can be no assurance that we will be able to manage any additional growth effectively. Failure to achieve any of these goals could have a material adverse effect on our business, financial condition or results of operations.

We face risks associated with managing international operations.

Almost all of our operations are conducted in China. There are a number of risks inherent in doing business in such market, including the following:

- o unfavorable political or economical factors;
- o fluctuations in foreign currency exchange rates;
- o potentially adverse tax consequences;
- o unexpected legal or regulatory changes;
- o lack of sufficient protection for intellectual property rights;
- o difficulties in recruiting and retaining personnel, and managing international operations; and
 - o less developed infrastructure.

Our inability to successfully manage the inherent risks in our domestic and international activities could adversely affect our business. Because of the risks associated with conducting such operations (including the risks listed above), there can be no assurances that any new market expansion will be successful.

We may not be able to adequately protect our technology and other proprietary rights.

Our success will depend in part on our ability to obtain and protect our products, methods, processes and other technologies, to preserve our trade secrets, and to operate without infringing on the proprietary rights of third parties both domestically and abroad. We have patents and patent applications pending in China, and have worked and continue to work closely with Chinese patent officials to preserve our intellectual property rights. Despite these efforts, any of the following occurrences may reduce the value of our intellectual property:

- o Our applications for patents and trademarks relating to our business may not be granted and, if granted, may be challenged or invalidated;
 - o Issued patents and trademarks may not provide us with any competitive advantages;
- o Our efforts to protect our intellectual property rights may not be effective in preventing misappropriation of our technology;
- o Our efforts may not prevent the development and design by others of products or technologies similar to or competitive with, or superior to those we develop; and
- o Another party may obtain a blocking patent and we would need to either obtain a license or design around the patent in order to continue to offer the contested feature or service in our products.

Effective protection of intellectual property rights may be unavailable or limited in certain foreign countries. If we are unable to adequately protect our proprietary rights, then it would have a negative impact on our operations.

We may be subject to claims that we have infringed the proprietary rights of others, which could require us to obtain a license or change our designs.

Although we do not believe that any of our products infringe the proprietary rights of others, there is no assurance that infringement or invalidity claims (or claims for indemnification resulting from infringement claims) will not be asserted or prosecuted against us or that any such assertions or prosecutions will not materially adversely affect our business. Regardless of whether any such claims are valid or can be successfully asserted, defending against such claims could cause us to incur significant costs and could divert resources away from our other activities. In addition, assertion of infringement claims could result in injunctions that prevent us from distributing our products. If any claims or actions are asserted against us, we may seek to obtain a license to the intellectual property rights that are in dispute. Such a license may not be available on reasonable terms, or at all, which could force us to change our designs.

We may need additional capital to execute our business plan and fund operations and may not be able to obtain such capital on acceptable terms or at all.

In our rapidly changing industry, Capital requirements are difficult to plan for. Although we currently expect to have sufficient funding for the next 12 months, we expect that we will need additional capital to fund our future growth.

Our ability to obtain additional capital on acceptable terms or at all is subject to a variety of uncertainties, including:

- o Investors' perceptions of, and demand for, companies in our industry;
- o Investors' perceptions of, and demand for, companies operating in China;
- o Conditions of the U.S. and other capital markets in which we may seek to raise funds;
 - o Our future results of operations, financial condition and cash flows;
- o Governmental regulation of foreign investment in companies in particular countries;
- o Economic, political and other conditions in the United States, China, and other countries; and
 - o Governmental policies relating to foreign currency borrowings.

We may be required to pursue sources of additional capital through various means, including joint venture projects and debt or equity financings. There is no assurance that we will be successful in locating a suitable financing transaction in a timely fashion or at all. In addition, there is no assurance that we will be successful in obtaining the capital we require by any other means. Future financings through equity investments are likely to be dilutive to our existing stockholders. Also, the terms of securities we may issue in future capital transactions may be more favorable for our new investors. Newly issued securities may include preferences, superior voting rights, the issuance of warrants or other derivative securities, and the issuances of incentive awards under equity employee incentive plans, which may have additional dilutive effects. Further, we may incur substantial costs in pursuing future capital and/or financing, including investment banking fees, legal fees, accounting fees, printing and distribution expenses and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we may issue, such as convertible notes and warrants, which will adversely impact our financial condition.

If we cannot raise additional funds on favorable terms or at all, we may not be able to carry out all or parts of our strategy to maintain our growth and competitiveness or to fund our operations. If the amount of capital we are able to

raise from financing activities, together with our revenues from operations, is not sufficient to satisfy our capital needs, even to the extent that we reduce our operations accordingly, we may be required to cease operations.

We face risks associated with currency exchange rate fluctuations.

Although we currently transact parts of our business in U.S. dollars, a larger portion of our revenues is denominated in other foreign currencies. Conducting business in currencies other than U.S. dollars subjects us to fluctuations in currency exchange rates that could have a negative impact on our operating results. Fluctuations in the value of the U.S. dollar relative to other currencies impact our revenues, cost of revenues and operating margins and result in foreign currency translation gains and losses.

Our business could be subject to environmental liabilities.

As is the case with manufacturers of similar products, we use certain hazardous substances in our operations. Currently we do not anticipate any material adverse effect on our business, revenues or results of operations as a result of compliance with Chinese environmental laws and regulations. However, the risk of environmental liability and charges associated with maintaining compliance with environmental laws is inherent in the nature of our business, and there is no assurance that material environmental liabilities and compliance charges will not arise in the future.

If we lose our key personnel or are unable to attract and retain additional qualified personnel, the quality of our services may decline and our business may be adversely impacted.

We rely heavily on the expertise, experience and continued services of our senior management, including our President and Chief Executive Officer. Loss of his services could adversely impact our ability to achieve our business objectives. We believe our future success will depend upon our ability to retain key employees and our ability to attract and retain other skilled personnel. The rapid growth of the economy in China has caused intense competition for qualified personnel. We cannot guarantee that any employee will remain employed by us for any definite period of time or that we will be able to attract, train or retain qualified personnel in the future. Such loss of personnel could have a material adverse effect on our business and company. Moreover, qualified employees periodically are in great demand and may be unavailable in the time frame required to satisfy our customers' requirements. We need to employ additional personnel to expand our business. There is no assurance that we will be able to attract and retain sufficient numbers of highly skilled employees in the future. The loss of personnel or our inability to hire or retain sufficient personnel at competitive rates could impair the growth of our business.

We will incur significant costs as a result of operating as a public company, our management will be required to devote substantial time to new compliance initiatives.

While we are a public company, our compliance costs to date have not been substantial in light of our limited operations. Deer began operating as a public company in September of 2008. As a public company with substantial operations, we will incur increased legal, accounting and other expenses. The costs of preparing and filing annual and quarterly reports, proxy statements and other information with the SEC and furnishing audited reports to stockholders is time-consuming and costly.

It will also be time-consuming, difficult and costly for us to develop and implement the internal controls and reporting procedures required by the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"). Certain members of our management have limited or no experience operating a company whose securities are traded or listed on an exchange, nor with SEC rules and requirements (including SEC reporting practices and requirements that are applicable to a publicly traded company). We will need to recruit, hire, train and retain additional financial reporting, internal controls and other personnel in order to develop and implement appropriate internal controls and reporting procedures. If we are unable to comply with the internal controls requirements of the Sarbanes-Oxley Act, we may not be able to obtain the independent accountant certifications required by the Sarbanes-Oxley Act.

If we fail to establish and maintain an effective system of internal controls, we may not be able to report our financial results accurately or to prevent fraud. Any inability to report and file our financial results accurately and timely could harm our business and adversely impact the trading price of our common stock.

We are required to establish and maintain internal controls over financial reporting, disclosure controls, and to comply with other requirements of the Sarbanes-Oxley Act and the rules promulgated by the SEC. Our management, including our Chief Executive Officer and Chief Financial Officer, cannot guarantee that our internal controls and

disclosure controls will prevent all possible errors or prevent all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints and the benefit of controls must be relative to their costs. Because of the inherent limitations in all control systems, no system of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Further, controls can be circumvented by individual acts of some persons, by collusion of two or more persons, or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions or the degree of compliance with policies or procedures may deteriorate. Because of inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

New rules, including those contained in and issued under the Sarbanes-Oxley Act, may make it difficult for us to retain or attract qualified officers and directors, which could adversely affect the management of our business and our ability to obtain or retain listing of our common stock.

We may be unable to attract and retain those qualified officers, directors and members of board of directors committees required to provide for our effective management because of the rules and regulations that govern publicly held companies, including, but not limited to, certifications by principal executive officers. The perceived personal risk associated with the Sarbanes-Oxley Act may deter qualified individuals from accepting roles as directors and executive officers.

Further, some of these recent changes heighten the requirements for board or committee membership, particularly with respect to an individual's independence and level of experience in finance and accounting matters. We may have difficulty attracting and retaining directors with the requisite qualifications. If we are unable to attract and retain qualified officers and directors, the management of our business and our ability to obtain or retain the listing of our common stock on any stock exchange (assuming we elect to seek and are successful in obtaining such listing) could be adversely affected.

We are a holding company that depends on cash flow from our wholly-owned subsidiary to meet our obligations.

After the Share Exchange, we became a holding company with no material assets other than the stock of our wholly-owned subsidiary. Accordingly, all our operations will be conducted by Winder and Delta through our wholly owned subsidiary Deer International. We currently expect that the earnings and cash flow of our subsidiary will primarily be retained and used by us in its operations.

All of Deer's liabilities survived the Share Exchange and there may be undisclosed liabilities that could have a negative impact on our financial condition.

Before the Share Exchange, certain due diligence activities on Deer International, Winder and Delta were performed. The due diligence process may not have revealed all liabilities (actual or contingent) of Deer International, Winder and Delta that existed or which may arise in the future relating to the Company's activities before the consummation of the Share Exchange. Notwithstanding that all of their pre-closing liabilities were transferred to a third party pursuant to the terms of the Share Exchange Agreement, it is possible that claims for such liabilities may still be made against us, which we will be required to defend or otherwise resolve. The transfer pursuant to the Share Exchange Agreement may not be sufficient to protect us from claims and liabilities and any breaches of related representations and warranties. Any liabilities remaining from the Company's pre-closing activities could harm our financial condition and results of operations.

Because Deer has become public by means of a share exchange, we may not be able to attract the attention of major brokerage firms.

There may be risks associated with Deer's becoming public through the Share Exchange Agreement. Analysts of major brokerage firms may not provide our company coverage since there is no incentive to brokerage firms to recommend the purchase of our common stock. No assurance can be given that brokerage firms will, in the future, want to conduct any secondary offerings on our behalf.

New accounting standards could result in changes to our methods of quantifying and recording accounting transactions, and could affect our financial results and financial position.

Changes to Generally Accepted Accounting Principles in the United States (GAAP) arise from new and revised standards, interpretations, and other guidance issued by the Financial Accounting Standards Board, the SEC, and others. In addition, the U.S. Government may issue new or revised Cost Accounting Standards or Cost Principles. The effects of such changes may include prescribing an accounting method where none had been previously specified, prescribing a single acceptable method of accounting from among several acceptable methods that currently exist, or revoking the acceptability of a current method and replacing it with an entirely different method, among others. Such changes could result in unanticipated effects on our results of operations, financial position, and other financial measures.

Risks Related to Our Business being Conducted in China

We are subject to international economic and political risks over which we have little or no control and may be unable to alter our business practice in time to avoid the possibility of reduced revenues.

Our business is conducted in China. Doing business outside the United States, particularly in China, subjects us to various risks, including changing economic and political conditions, major work stoppages, exchange controls, currency fluctuations, armed conflicts and unexpected changes in United States and foreign laws relating to tariffs, trade restrictions, transportation regulations, foreign investments and taxation. We have no control over most of these risks and may be unable to anticipate changes in international economic and political conditions and, therefore, unable to alter our business practice in time to avoid the possibility of reduced revenues.

China's economic policies could affect our business.

Substantially all of our assets are located in China and all of our revenue is derived from our operations in China. Accordingly, our results of operations and prospects are subject, to a significant extent, to the economic,

political and legal developments in China.

While China's economy has experienced significant growth in the past twenty years, such growth has been uneven, both geographically and among various sectors of the economy. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall economy of China, but they may also have a negative effect on us. For example, operating results and financial condition may be adversely affected by the government control over capital investments or changes in tax regulations. The economy of China has been transitioning from a planned economy to a more market-oriented economy. In recent years the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform and the reduction of state ownership of productive assets, and the establishment of corporate governance in business enterprises; however, a substantial portion of productive assets in China are still owned by the Chinese government. In addition, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. It also exercises significant control over China's economic growth through the allocation of resources, the control of payment of foreign currency-denominated obligations, the setting of monetary policy and the provision of preferential treatment to particular industries or companies.

We may have difficulty establishing adequate management, legal and financial controls in China.

China historically has not adopted a Western style of management and financial reporting concepts and practices, as well as in modern banking, computer and other control systems. We may have difficulty in hiring and retaining a sufficient number of qualified employees to work in China. As a result of these factors, we may experience difficulty in establishing management, legal and financial controls, collecting financial data and preparing financial statements, books of account and corporate records and instituting business practices that meet Western standards.

Our bank accounts are not insured or protected against loss.

We maintain our cash with various banks and trust companies located in China. Our cash accounts are not insured or otherwise protected. Should any bank or trust company holding our cash deposits become insolvent, or if we are otherwise unable to withdraw funds, we would lose the cash on deposit with that particular bank or trust company.

As we have limited business insurance coverage in China, any loss which we suffer may not be insured or may be insured to only a limited extent.

The insurance industry in China is still in an early stage of development and insurance companies located in China offer limited business insurance products. In the event of damage or loss to our properties, our insurance may not provide as much coverage as if we were insured by insurance companies in the United States.

Tax laws and regulations in China are subject to substantial revision, some of which may adversely affect our profitability.

The Chinese tax system is in a state of flux, and it is anticipated that China's tax regime will be altered in the coming years. Tax benefits that we presently enjoy may not be available to us in the wake of these changes, and we could incur tax obligations to the Chinese government that are significantly higher than currently anticipated. These increased tax obligations could negatively impact our financial condition and our revenues, gross margins, profitability and results of operations may be adversely affected as a result.

Certain tax exemptions that we presently enjoy in China are scheduled to expire over the next several years.

As a substantial portion of our operations are located in a privileged economic zone, we are entitled to certain tax benefits. When these exemptions expire, our income tax expenses will increase, reducing our net income below what it would be if we continued to enjoy these exemptions.

We may face judicial corruption in China.

Another obstacle to foreign investment in China is corruption. There is no assurance that we will be able to obtain recourse in any legal disputes with suppliers, customers or other parties with whom we conduct business, if desired, through China's poorly developed and sometimes corrupt judicial systems.

If relations between the United States and China worsen, investors may be unwilling to hold or buy our stock and our stock price may decrease.

At various times during recent years, the United States and China have had significant disagreements over political and economic issues. Controversies may arise in the future between these two countries. Any political or trade controversies between the United States and China, whether or not directly related to our business, could reduce the price of our common stock.

China could change its policies toward private enterprise or even nationalize or expropriate private enterprises.

Our business is subject to significant political and economic uncertainties and may be affected by political, economic and social developments in China. Over the past several years, the Chinese government has pursued economic reform policies including the encouragement of private economic activity and greater economic decentralization. The Chinese government may not continue to pursue these policies or may significantly alter them to our detriment from time to time with little, if any, prior notice.

Changes in policies, laws and regulations or in their interpretation or the imposition of confiscatory taxation, restrictions on currency conversion, restrictions or prohibitions on dividend payments to stockholders, or devaluations of currency could cause a decline in the price of our common stock. Nationalization or expropriation could even result in the total loss of your investment.

Limitations on the ability of our operating subsidiary to make payments to us could have a material adverse effect on our ability to conduct our business and fund our operations.

We are a holding company and conduct substantially all of our business through our operating subsidiary in China. We will of necessity rely on dividends paid by our subsidiaries for our cash needs, including the funds necessary to pay dividends and other cash distributions to our shareholders, to service any debt we may incur and to pay our operating expenses. The payment of dividends by entities organized in China is subject to limitations. In particular, regulations in China currently permit payment of dividends only out of accumulated profits as determined in accordance with Chinese accounting standards and regulations. Our Chinese subsidiary is also required to set aside at least 10% of its after-tax profit based on Chinese accounting standards each year to its general reserves until the accumulative amount of such reserves reaches 50% of its registered capital. These reserves are not distributable as cash dividends. In addition, it is required to allocate a portion of its after-tax profit to its staff welfare and bonus fund at the discretion of its board of directors. Moreover, if our subsidiary incurs debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other distributions to us. Any limitation on the ability of our subsidiary to distribute dividends and other distributions to us could materially and adversely limit our ability to make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business.

Recent Chinese regulations relating to the establishment of offshore special purpose companies by Chinese residents and registration requirements for employee stock ownership plans or share option plans may subject our China resident shareholders to personal liability and limit our ability to acquire Chinese companies or to inject capital into our operating subsidiaries in China, limit our subsidiaries' ability to distribute profits to us, or otherwise materially and adversely affect us.

The State Administration of Foreign Exchange ("SAFE") issued a public notice in October 2005, requiring PRC residents, including both legal persons and natural persons, to register with the competent local SAFE branch before establishing or controlling any company outside of China, referred to as an "offshore special purpose company," for the purpose of acquiring any assets of or equity interest in PRC companies and raising funds from overseas. In addition, any PRC resident that is the shareholder of an offshore special purpose company is required to amend his or her SAFE registration with the local SAFE branch, with respect to that offshore special purpose company in connection with any increase or decrease of capital, transfer of shares, merger, division, equity investment or creation of any security interest over any assets located in China. To further clarify the implementation of Circular 75, the SAFE issued Circular 124 and Circular 106 on November 24, 2005 and May 29, 2007, respectively. Under Circular 106, PRC subsidiaries of an offshore special purpose company are required to coordinate and supervise the filing of SAFE registrations by the offshore holding company's shareholders who are PRC residents in a timely manner. If these shareholders fail to comply, the PRC subsidiaries are required to report to the local SAFE authorities. If the PRC

subsidiaries of the offshore parent company do not report to the local SAFE authorities, they may be prohibited from distributing their profits and proceeds from any reduction in capital, share transfer or liquidation to their offshore parent company and the offshore parent company may be restricted in its ability to contribute additional capital into its PRC subsidiaries. Moreover, failure to comply with the above SAFE registration requirements could result in liabilities under PRC laws for evasion of foreign exchange restrictions. Some of our PRC resident beneficial owners have not registered with the local SAFE branch as required under SAFE regulations. The failure or inability of these PRC resident beneficial owners to comply with the applicable SAFE registration requirements may subject these beneficial owners or us to fines, legal sanctions and restrictions described above.

On March 28, 2007, SAFE released detailed registration procedures for employee stock ownership plans or share option plans to be established by overseas listed companies and for individual plan participants. Any failure to comply with the relevant registration procedures may affect the effectiveness of our employee stock ownership plans or share option plans and subject the plan participants, the companies offering the plans or the relevant intermediaries, as the case may be, to penalties under PRC foreign exchange regime. These penalties may subject us to fines and legal sanctions, prevent us from being able to make distributions or pay dividends, as a result of which our business operations and our ability to distribute profits to you could be materially and adversely affected.

In addition, the National Development and Reform Commission ("NDRC") promulgated a rule in October 2004, or the NDRC Rule, which requires NDRC approvals for overseas investment projects made by PRC entities. The NDRC Rule also provides that approval procedures for overseas investment projects of PRC individuals must be implemented with reference to this rule. However, there exist extensive uncertainties in terms of interpretation of the NDRC Rule with respect to its application to a PRC individual's overseas investment, and in practice, we are not aware of any precedents that a PRC individual's overseas investment has been approved by the NDRC or challenged by the NDRC based on the absence of NDRC approval. Our current beneficial owners who are PRC individuals did not apply for NDRC approval for investment in us. We cannot predict how and to what extent this will affect our business operations or future strategy. For example, the failure of our shareholders who are PRC individuals to comply with the NDRC Rule may subject these persons or our PRC subsidiary to certain liabilities under PRC laws, which could adversely affect our business.

Restrictions on currency exchange may limit our ability to receive and use our revenues effectively.

The Renminbi is currently convertible under the "current account," which includes dividends, trade and service-related foreign exchange transactions, but not under the "capital account," which includes foreign direct investment and loans. Currently, our Chinese subsidiary may purchase foreign currencies for settlement of current account transactions, including payments of dividends to us, without the approval of SAFE. However, the relevant Chinese government authorities may limit or eliminate their ability to purchase foreign currencies in the future. Since a significant amount of our future revenues will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit our ability to utilize revenues generated in Renminbi to fund our business activities outside China that are denominated in foreign currencies.

Foreign exchange transactions by our Chinese subsidiaries under the capital account continue to be subject to significant foreign exchange controls and require the approval of or need to register with Chinese governmental authorities, including SAFE. In particular, if our Chinese subsidiaries borrow foreign currency loans from us or other foreign lenders, these loans must be registered with SAFE, and if we finance our Chinese subsidiaries by means of additional capital contributions, these capital contributions must be approved by certain government authorities, including the NDRC, the Ministry of Commerce, or MOFCOM, or their respective local counterparts. These limitations could affect the ability of our Chinese subsidiaries to obtain foreign exchange through debt or equity financing.

The nature and application of many laws of China create an uncertain environment for business operations and they could have a negative effect on us.

The legal system in China is a civil law system. Unlike the common law system, the civil law system is based on written statutes in which decided legal cases have little value as precedents. In 1979, China began to promulgate a comprehensive system of laws and has since introduced many laws and regulations to provide general guidance on economic and business practices in China and to regulate foreign investment. Progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. The promulgation of new laws, changes of existing laws and the

abrogation of local regulations by national laws could cause a decline in the price of our common stock. In addition, as these laws, regulations and legal requirements are relatively recent, their interpretation and enforcement involve significant uncertainty.

As we import goods into and export goods out of China, fluctuation of the Renminbi may affect our financial condition by affecting the volume of cross-border money flow.

Although we use the United States dollar for financial reporting purposes, most of the transactions effected by our operating subsidiaries are denominated in China's Renminbi. The value of the Renminbi fluctuates and is subject to changes in China's political and economic conditions. Future movements in the exchange rate of the Renminbi could adversely affect our financial condition as we may suffer financial losses when transferring money raised outside of China into the country or paying vendors for services performed outside of China.

We may not be able to obtain regulatory approvals for our products.

The manufacture and sale of our products in China is regulated by The People's Republic of China and the local provincial governments. Although our licenses and regulatory filings are up to date, the uncertain legal environment in China and our industry may be vulnerable to local government agencies or other parties who wish to renegotiate the terms and conditions of, or terminate their agreements or other understandings with us.

It will be extremely difficult to acquire jurisdiction and enforce liabilities against our officers, directors and assets based in China.

As our executive officers and several of our directors, including the Chairman of our Board of Directors, are Chinese citizens, it may be difficult, if not impossible, to acquire jurisdiction over these persons in the event a lawsuit is initiated against us and/or our officers and directors by a stockholder or group of stockholders in the United States. Also, because our operating subsidiaries and assets are located in China, it may be extremely difficult or impossible for individuals to access those assets to enforce judgments rendered against us or our directors or executive offices by United States courts. In addition, the courts in China may not permit the enforcement of judgments arising out of United States federal and state corporate, securities or similar laws. Accordingly, United States investors may not be able to enforce judgments against us for violation of United States securities laws.

Risks Related to Our Securities

Our common stock price is subject to significant volatility, which could result in substantial losses for investors.

Prices for our shares are determined in the marketplace and may accordingly be influenced by many factors, including, but not limited to:

o limited "public float" in the hands of a small number of persons whose sales or lack of sales could result in positive or negative pricing pressure on the market price for our common stock;

o technological innovations or new products and services by us or our competitors;

o intellectual property disputes;

o additions or departures of key personnel;

o the depth and liquidity of the market for the shares;

o quarter-to-quarter variations in our operating results;

o

announcements about our performance as well as the announcements of our competitors about the performance of their businesses;

- o investors' evaluations of our future prospects and the food industry generally;
- o changes in earnings estimates by, or failure to meet the expectations of, securities analysts;
 - o our dividend policy; and
 - o general economic and market conditions.

Additionally, the stock market often experiences significant price and volume fluctuations that are unrelated to the operating performance of the specific companies whose stock is traded. These market fluctuations could adversely affect our share's trading price.

The price at which investors purchase shares of our common stock may not be indicative of the price that will prevail in the trading market. Investors may be unable to sell their shares of common stock at or above their purchase price, which may result in substantial losses.

Shares of our common stock lack a significant trading market.

Shares of our common stock are not eligible as yet for trading on any national securities exchange. Our common stock may be quoted in the over-the-counter market on the OTC Bulletin Board or in what are commonly referred to as “pink sheets.” These markets are highly illiquid. Although we intend to apply for listing of our common stock on an exchange, there can be no assurance if and when the initial listing criteria could be met or if such application would be granted, or that the trading of the common stock will be sustained. There is no assurance that an active trading market in our common stock will develop, or if such a market develops, that it will be sustained. In addition, there is a greater chance for market volatility for securities that are quoted on the OTC Bulletin Board as opposed to securities that trade on a national exchange. This volatility may be caused by a variety of factors, including the lack of readily available quotations, the absence of consistent administrative supervision of “bid” and “ask” quotations and generally lower trading volume. As a result, an investor may find it more difficult to dispose of, or to obtain accurate quotations as to the market value of, the common stock, or to obtain coverage for significant news events concerning us, and the common stock would become substantially less attractive for margin loans, for investment by financial institutions, as consideration in future capital raising transactions or other purposes.

Future sales of shares of our common stock by our stockholders could cause our stock price to decline.

We cannot predict the effect, if any, that market sales of shares of our common stock or the availability of shares of common stock for sale will have on the market price prevailing from time to time. If our stockholders sell substantial amounts of our common stock in the public market upon the effectiveness of a registration statement, or upon the expiration of any holding period under Rule 144 or Regulation S, such sales could create a circumstance commonly referred to as an “overhang” and in anticipation of which the market price of our common stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make it more difficult for our Company to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate. The shares of common stock issued in the Share Exchange will be freely tradable upon the earlier of (i) effectiveness of a registration statement covering such shares; or (ii) the date on which such shares may be sold without registration pursuant to Rule 144 or Regulation S under the Securities Act and the sale of such shares could have a negative impact on the price of our common stock.

We may issue additional shares of our capital stock or debt securities to raise capital or complete acquisitions, which would reduce the equity interest of our stockholders.

Our articles of incorporation authorize the issuance of up to 75,000,000 shares of common stock, par value \$.001 per share. There are approximately 64,768,442 authorized and unissued shares of our common stock which have not been reserved and are available for future issuance as of March 31, 2009. Although we have no commitments as of this date to issue our securities in connection with an acquisition, we may issue a substantial number of additional shares of our common stock, to complete a business combination or to raise capital. The issuance of additional shares of our common stock:

- o may significantly reduce the equity interest of our existing stockholders; and
- o may adversely affect prevailing market prices for our common stock.

Our director and Chief Executive Officer has a substantial ownership interest in one of our major stockholders which gives him significant influence over certain major decisions on which our stockholders may vote and may discourage an acquisition of us.

Mr. Ying He, our director and Chief Executive Officer, owns 100% of the equity in Achieve On Limited (“Achieve On Limited”), a company which is the record holder of 32.17% of our outstanding common stock. Mr. He has control over the actions of that substantial stockholder. As a result, Mr. He has significant influence over all corporate actions requiring stockholder approval, irrespective of how the Company's other stockholders may vote, including the following actions:

- o electing or defeating the election of our directors;

- o amending or preventing amendment of our certificate of incorporation or bylaws;
- o effecting or preventing a merger, sale of assets or other corporate transaction; and
- o controlling the outcome of any other matter submitted to the shareholders for vote.

The interests of Mr. He may differ from the interests of other stockholders. This may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company, which in turn could reduce our stock price or prevent our stockholders from realizing a premium over our stock price.

Because we obtained our present operations by means of a "reverse acquisition," we may not be able to attract the attention of major brokerage firms.

There may be risks associated with our use of a "reverse acquisition" to obtain our present operations. Securities analysts of major brokerage firms may not provide coverage of us since there is no incentive to brokerage firms to recommend the purchase of our common stock. No assurance can be given that brokerage firms will, in the future, want to conduct any secondary offerings on our behalf.

The application of the "penny stock" rules could adversely affect the market price of our common stock and increase your transaction costs to sell those shares.

Our common stock may be subject to the "penny stock" rules adopted under Section 15(g) of the Securities Exchange Act of 1934. The penny stock rules apply to non-NASDAQ companies whose common stock trades at less than \$5.00 per share or that have tangible net worth of less than \$5,000,000 (\$2,000,000 if the company has been operating for three or more years). The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the Securities and Exchange Commission, which contains the following:

- o a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- o a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to violation to such duties or other requirements of securities laws;
- o a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the "bid" and "ask" price;
 - o A toll-free telephone number for inquiries on disciplinary actions;
- o definitions of significant terms in the disclosure document or in the conduct of trading in penny stocks; and
- o such other information and is in such form (including language, type, size and format), as the Securities and Exchange Commission shall require by rule or regulation.

Prior to effecting any transaction in penny stock, the broker-dealer also must provide the customer with the following:

- o the bid and offer quotations for the penny stock;
- o the compensation of the broker-dealer and our salesperson in the transaction;

o the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and

o monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that, prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement.

Due to the requirements of penny stock rules, many brokers have decided not to trade penny stocks. As a result, the number of broker-dealers willing to act as market makers in such securities is limited. If we remain subject to the penny stock rules for any significant period, that could have an adverse effect on the market, if any, for our securities. Moreover, if our securities are subject to the penny stock rules, investors will find it more difficult to dispose of our securities.

We have not paid dividends in the past and do not expect to pay dividends in the future. Any return on investment may be limited to the value of our common stock.

We have never paid cash dividends on our common stock and do not anticipate doing so in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on your investment will only occur if our stock price appreciates.

Capital outflow policies in China may hamper our ability to declare and pay dividends to our shareholders.

China has adopted currency and capital transfer regulations. These regulations may require us to comply with complex regulations for the movement of capital. Although our management believes that we will be in compliance with these regulations, should these regulations or the interpretation of them by courts or regulatory agencies change, we may not be able to pay dividends to our shareholders outside of China. In addition, under current Chinese law, we must retain a reserve equal to 10 percent of net income after taxes, not to exceed 50 percent of registered capital. Accordingly, this reserve will not be available to be distributed as dividends to our shareholders. We presently do not intend to pay dividends in the foreseeable future. Our management intends to follow a policy of retaining all of our earnings to finance the development and execution of our strategy and the expansion of our business.

Taxation

We will not obtain an opinion of legal counsel regarding the United States income tax consequences of an investment in our securities.

We will not obtain an opinion of counsel regarding the U.S. income tax consequences of investing in our securities including whether we will be treated as a company for U.S. income tax purposes. Recent changes in tax laws have not, as yet, been the subject of administrative or judicial scrutiny or interpretation. Moreover, there is no assurance that future legislation may not further affect the tax consequences of an investment in our securities.

FORWARD-LOOKING STATEMENTS

In this report, the terms “Deer,” “Company,” “we,” “us” and “our” refer to Deer Consumer Products, Inc. and its subsidiaries. This report contains forward-looking statements regarding Deer which include, but are not limited to, statements concerning our projected revenues, expenses, gross profit and income, mix of revenue, demand for our products, the benefits and potential applications for our products, the need for additional capital, our ability to obtain and successfully perform additional new contract awards and the related funding and profitability of such awards, the competitive nature of our business and markets, and product qualification requirements of our customers. These forward-looking statements are based on our current expectations, estimates and projections about our industry, management’s beliefs, and certain assumptions made by us. Words such as “anticipates,” “expects,” “intends,” “plans,” “predicts,” “potential,” “believes,” “seeks,” “hopes,” “estimates,” “should,” “may,” “will,” “with a view to” and variations of these similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future

performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors. Such factors include, but are not limited to the following:

The forward-looking statements made in this prospectus relate only to events or information as of the date on which the statements are made in this prospectus. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this prospectus and the documents that we refer to in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect.

AVAILABLE INFORMATION

This prospectus is part of a Registration Statement on Form S-1 we have filed with the SEC. We have not included in this prospectus all of the information contained in the registration statement and you should refer to our registration statement and its exhibits for further information.

We file annual, quarterly, and special reports, proxy statements, and other information with the SEC. You may read and copy any document we file at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Copies of these materials may also be obtained from the SEC at prescribed rates by writing to the Public Reference Section of the SEC, 100 F Street, N.E., Washington, D.C. 20549. You may obtain information about the operation of the SEC public reference room in Washington, D.C. by calling the SEC at 1-800-SEC-0330. Our filings are also available to the public from commercial document retrieval services and at the website maintained by the SEC at <http://www.sec.gov>.

Our Web site address is <http://www.Deerinc.com>. The information on our Web site is not incorporated into this prospectus.

USE OF PROCEEDS

We will not receive any proceeds from sale of the shares of common stock covered by this prospectus by the selling shareholders. To the extent that the selling stockholders exercise for cash all of the warrants covering the 363,873 shares of common stock issuable upon exercise of all of the warrants, we would receive \$1,255,362 in aggregate from such exercises. The warrants may expire without having been exercised. Even if some or all of these warrants are exercised, we cannot predict when they will be exercised and when we would receive the proceeds. We intend to use any proceeds we receive upon exercise of the warrants for general working capital and other corporate purposes.

MARKET FOR COMMON STOCK AND RELATED SHAREHOLDER MATTERS

Market Information

Beginning on May 16, 2007, our shares of common stock were quoted on the OTC Bulletin Board on under the symbol "TGEV". No trades of our common stock occurred through the facilities of the OTC Bulletin Board until September 9, 2008. Our common stock became eligible for quotation on the OTC Bulletin Board on September 5, 2008 under the symbol of "DCPI" and as of April 23, 2009 began trading under the symbol of "DCPD." The following table sets forth the range of the high and low bid prices per share of our common stock for each quarter (or portion thereof) beginning on May 16, 2007 as reported by the OTC Bulletin Board. These quotations represent inter-dealer prices, without retail mark-up, markdown, or commission and may not represent actual transactions.

	High	Low
Quarter ended March 31, 2007	\$.05	\$.05
Quarter ended June 30, 2007	\$.05	\$.05
Quarter ended September 30, 2007	\$.05	\$.05
Fiscal year ended December 31, 2007	\$.05	\$.05
Quarter ended March 31, 2008	\$.05	\$.05
Quarter ended June 30, 2008	\$.05	\$.05
Quarter ended September 30, 2008	\$ 4.00	\$.05
Fiscal year ended December 31, 2008	\$ 4.60	\$ 1.17
Quarter ended March 31, 2009	\$ 3.91	\$.92

Holders

On May 28, 2009, there were approximately 88 stockholders of record based on information provided by our transfer agent. Since some of our shares of common stock are held in street or nominee name, it is believed that there are a substantial number of additional beneficial owners of our common stock.

Dividend Policy

We have not paid any cash dividends on our common stock to date, and we have no intention of paying cash dividends in the foreseeable future. Whether we will declare and pay dividends in the future will be determined by our board of directors at their discretion, subject to certain limitations imposed under Nevada corporate law. In addition, our ability to pay dividends may be affected by the foreign exchange controls in China. See "RISK FACTORS -

Limitation on the ability of our operating subsidiary to make payments to us could have a material adverse effect on our ability to conduct our business and fund our operations ." The timing, amount and form of dividends, if any, will depend on, among other things, our results of operations, financial condition, cash requirements and other factors deemed relevant by our board of directors.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Safe Harbor Declaration

The comments made throughout this prospectus should be read in conjunction with our financial statements and the notes thereto, and other financial information appearing elsewhere in this document. In addition to historical information, the following discussion and other parts of this document contain certain forward-looking information. When used in this discussion, the words, "believes," "anticipates," "expects," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from projected results, due to a number of factors beyond our control. Deer does not undertake to publicly update or revise any of its forward-looking statements, even if experience or future changes show that the indicated results or events will not be realized. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Readers are also urged to carefully review and consider our discussions regarding the various factors, which affect company business, included in this section and elsewhere in this prospectus.

Overview

On September 3, 2008, we entered into a share exchange agreement and plan of reorganization with Deer International Group Limited ("Deer International"), a company incorporated under the laws of British Virgin Islands ("BVI") on December 3, 2007 and holder of 100% of the shares of Winder Electrical Company, Ltd. ("Winder") since March 11, 2008. Winder has a 100% owned subsidiary, Delta International, Ltd., ("Delta"). Winder and Delta were formed and incorporated in the Guangdong Province of the PRC on July 20, 2001 and February 23, 2006, respectively.

Pursuant to the share exchange agreement, we acquired from Deer International 50,000 ordinary shares, consisting of all of its issued and outstanding capital stock, in exchange for the issuance of an aggregate of 7,847,853 shares of our common stock. Concurrently with the closing of the transactions contemplated by the share exchange agreement and as a condition thereof, we entered into an agreement with Crescent Liu, our former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of our common stock for cancellation. Mr. Liu was not compensated for the cancellation of his shares of our common stock. Upon completion of the foregoing transactions, we had an aggregate of 9,826,113 shares of common stock issued and outstanding. In connection with the above transaction we changed our name to Deer Consumer Products, Inc. on September 3, 2008.

The exchange of shares with Deer International was accounted for as a reverse acquisition under the purchase method of accounting since Deer International obtained control of our company. Accordingly, the merger of the Deer International into us was recorded as a recapitalization of Deer International, Deer International being treated as the continuing entity. The historical financial statements presented are the consolidated financial statements of Deer International. The share exchange agreement has been treated as a recapitalization and not as a business combination; therefore, no pro forma information is disclosed. At the date of this transaction, the net liabilities of the legal acquirer were \$0.

As a result of the reverse merger transactions described above the historical financial statements presented are those of Deer International, the operating entities.

We are engaged in the manufacture, marketing, distribution and sale of home and kitchen electrical appliances (blenders, food processors, choppers, juicers, etc.). The Company manufactures its products out of YangJiang, China and operates corporate functions in Nanshan, Shenzhen, China.

We operate through our two wholly-owned subsidiaries, Winder Electric Co. Ltd. (“Winder”), which is a wholly-owned foreign enterprise (“WOFE”) and responsible for research, production and delivery of goods, and Delta International Limited (“Delta”), which is a wholly owned subsidiary of Winder and primarily responsible for sales. We have traditionally acted as both an original equipment manufacturer (“OEM”) and original design manufacturer (“ODM”) for international markets with 90% and 95% of sales made overseas in 2007 and 2008, of which North America and Europe accounted for approximately 34% and 18% in 2008, respectively

Critical Accounting Policies

In presenting our financial statements in conformity with accounting principles generally accepted in the United States (“US GAAP”), we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions we are required to make relate to matters that are inherently uncertain as they pertain to future events. However, events that are outside of our control cannot be predicted and, as such, they cannot be contemplated in evaluating such estimates and assumptions. If there is a significant unfavorable change to current conditions, it will likely result in a material adverse impact to our results of operations, financial position and in liquidity. We believe that the estimates and assumptions we used when preparing our financial statements were the most appropriate at that time. Presented below are those accounting policies that we believe require subjective and complex judgments that could potentially affect reported results.

Use of Estimates. Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with US GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to impairment of long-lived assets, and allowance for doubtful accounts. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above-described items, are reasonable.

Areas that require estimates and assumptions include valuation of accounts receivable and inventory, determination of useful lives of property and equipment, estimation of certain liabilities and sales returns.

Accounts Receivable. We maintain reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves.

Advances to Suppliers. We make advances to certain vendors for purchase of its material. The advances to suppliers are interest free and unsecured.

Inventory. Inventory is valued at the lower of cost (determined on a weighted average basis) or market. We compare the cost of inventories with the market value and allowance is made for writing down the inventories to their market value, if lower.

Long-Lived Assets. We apply the provisions of Statement of Financial Accounting Standards No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets” (“SFAS 144”), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, “Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of,” and the accounting and reporting provisions of APB Opinion No. 30, “Reporting the Results of Operations for a Disposal of a Segment of a Business.” We periodically evaluate the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal. Based on our review, we believe that to date there were no significant

impairments of its long-lived assets.

Property and equipment: Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method. For substantially all assets with estimated lives as follows:

Buildings	5-20 years
Equipment	5-10 years
Vehicles	5 years
Office equipment	5-10 years

Revenue Recognition. Our revenue recognition policies are in compliance with the Securities and Exchange Commission (“SEC”) Staff Accounting Bulletin (SAB) 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

Foreign Currency Transactions and Comprehensive Income. US GAAP generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as gain or loss on foreign currency translation, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income. The functional currency of the Company is Chinese Renminbi. The unit of Renminbi is in Yuan. Translation gains are classified as an item of other comprehensive income in the stockholders’ equity section of the balance sheet. Other comprehensive income in the statements of income and other comprehensive income includes translation gains recognized each period.

Currency Hedging. We have entered into a forward exchange agreement with the Bank of China, whereby we have agreed to sell US dollars to the Bank of China at a certain contractual rates. Since the contractual rate at which we sells US dollars to the Bank of China was greater than the exchange rate on the date of each exchange transaction, we have recognized foreign exchange loss during the three months ended March 31, 2009.

Results of Operations

Year Ended December 31, 2008 Compared to the Year Ended December 31, 2007:

	Years Ended December 31,			
	2008	2007	\$ Change	% Change
Revenues	\$ 43,784,935	\$ 33,476,259	\$ 10,308,676	30.8%
Cost of Revenue	34,125,019	26,249,009	7,876,010	30.0%
Gross Profits	9,659,916	7,227,250	2,432,666	33.7%
Selling, General and Administrative	5,421,580	3,306,507	2,115,073	64.0%
Interest Expense and Financing				
Costs	558,663	114,555	444,108	387.7%
Foreign Exchange gain	959,943	90,707	869,236	958.3%
Income Tax Expense	1,302,045	615,568	686,477	111.5%
Net Income	3,356,784	3,421,592	(64,808)	-1.9%

Revenues

The increase in revenues was due to an increase in sales of our core products: blenders and juice extractors.

Cost of Revenue

The increased costs in 2008 were due to the increases in sales.

Gross Profit

Our gross margin for the year ended December 31, 2008 was 22.1% compared to 21.6% for 2007.

The increase in gross margin can be attributed to success in controlling variable costs such as the design of new products and improving our sales order selection capability to fit market needs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the year ended December 31, 2008 increased by \$2,115,073 or 64.0%, from \$3,306,507 for the year ended December 31, 2007 to \$5,421,580 for the year ended December 31, 2008. Selling expenses for the year ended December 31, 2008 increased by 88.0% or \$1,336,464 in comparison to the same period in 2007 due to the hiring of a new sales company for exporting services. In addition, we commenced domestic sales of our brand name products in China and internationally and incurred start up costs including, establishing a “Deer” brand name, creating a distribution network, and marketing the Deer brand name products. General and administrative expenses for the year ended December 31, 2008 increased by 43.5% or \$778,609 in comparison to the same period in 2007. The increase in our operating expenses reflects the additional expenses incurred as a result of our increased sales and the cost of being a publicly held company. Operating expenses include overhead expenses such as rent, management and staff salaries, general insurance, marketing, accounting, legal and offices expenses.

Interest and Financing Cost

Interest and financing costs for the year ended December 31, 2008 was \$558,663 compared to \$114,555 for the year ended December 31, 2007 an increase of \$444,108 or 387.7%. The change is principally due to an increase in the principal amount of short term loans and notes payable outstanding.

Foreign Exchange Gain

Foreign exchange gain for the year ended December 31, 2008 was \$959,943 an increase of \$869,236 or 958.3%, from \$90,707 for the year ended December 31, 2007. The increase is due to favorable foreign exchange transactions the company experienced in 2008.

Income Tax Expense

Our effective tax rate for the year ended December 31, 2008 was 28.0% as opposed to 15.2% for the year ended December 31, 2007. The effective tax rate in 2007 was only 15.2% due to one of our subsidiaries paying taxes at 50% of the normal rate due to a tax break given by the Chinese government to companies in the high-tech industry. In 2008, two of our subsidiaries incurred net losses which increased the effective tax rate to 28.0%. In 2008, our statutory income tax rate in China was 25%.

Three Months Ended March 31, 2009 Compared to the Three Months Ended March 31, 2008:

	Three Months Ended March 31, 2009	Three Months Ended March 31, 2008	\$ Change	% Change
Revenues	\$ 6,872,216	\$ 9,099,169	\$ (2,226,953)	(24.5)%
Cost of Revenue	5,212,704	6,978,152	(1,765,448)	(25.3)%
Gross Profits	1,659,512	2,121,017	(461,505)	(21.8)%
Selling, General and Administrative Expenses	554,923	994,548	(439,625)	(44.2)%
Interest Expense and Financing Costs (net)	113,212	104,262	8,950	7.9%
Other Income (Expense)	(1,881)	33,098	(34,979)	(105.7)%
Foreign Exchange Gain (loss)	(70,506)	71,607	(142,113)	(198.5)%
Income Tax Expense	262,116	311,366	(49,250)	(15.8)%
Net Income	656,874	815,546	(158,672)	(19.5)%

Revenues

The decrease in revenues was due to a decrease in sales of our core products due to the overall downturn in the world economy.

Cost of Revenue

The decreased cost in 2009 was due to the decrease in sales.

Gross Profit

Our gross margin for the three months ended March 31, 2009 was 24.2% compared to 23.3% for same period in 2008. The increase in gross margin can be attributed to success in controlling variable costs such as the design of new products and improving our sales order selection capability to fit market needs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended March 31, 2009 decreased by \$439,625 or 44.2%, from \$994,548 for the three months ended March 31, 2008 to \$554,923 for the three months ended March 31, 2009. Selling expenses for the three months ended March 31, 2009 decreased by 58.2% or \$255,326 in comparison to the same period in 2008. General and administrative expenses for the three months ended March 31, 2009 decreased by 33.2% or \$184,299 in comparison to the same period in 2008. Operating expenses include overhead expenses such as rent, management and staff salaries, general insurance, marketing, accounting, legal and offices expenses. We have scaled and consolidated back our operations thus reducing selling, general and administrative expenses to withstand the effect of global financial crisis. Also we have contracted our Delta subsidiary beginning in 2009 whereby all Delta operations have been run through our Winder subsidiary.

Interest and Financing Costs (net)

Interest and financing costs for the three months ended March 31, 2009 was \$113,212 compared to \$104,262 for the three months ended March 31, 2008 an increase of \$8,950 or 7.9%. The change is principally due to increased borrowings.

Other Income (Expense)

Other income (expense) for the three months ended March 31, 2009 was \$(1,881), a decrease of \$34,979 or 105.7%, from \$33,098 for the three months ended March 31, 2008. The decrease is due to a reduction in government subsidy income.

Foreign Exchange Gain (loss)

Foreign exchange gain (loss) for the three months ended March 31, 2009 was \$(70,506), a decrease of \$142,113 or 198.5%, from \$71,607 for the three months ended March 31, 2008. The decrease is due to the fluctuation in exchange rates between the RMB and US dollar.

Income Tax Expense

Our effective tax rate for the three months ended March 31, 2009 was 28.5% as opposed to 27.6% for the three months ended March 31, 2008.

Off-Balance Sheet Arrangements

There were no off-balance sheet arrangements during the year ended December 31, 2008 or the quarter ended March 31, 2009 that have, or are reasonably likely to have, a current or future affect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to our interests.

Liquidity and Capital Resources

Year Ended December 31, 2008 Compared to the Year Ended December 31, 2007:

Cash Flows

On November 30, 2007, we decided to increase paid-in capital by \$2,923,688 through a board meeting. The new capital was from retained earnings distributable to shareholders.

At December 31, 2008, we had \$2,782,026 in cash and cash equivalents on hand. Our principal demands for liquidity are to increase capacity, inventory purchase, sales distribution, and general corporate purposes. We anticipate that the amount of cash we have on hand as of the date of this report as well as the cash that we will generate from operations will satisfy these requirements.

Net cash flows provided by operating activities for the year ended December 31, 2008 was \$3,037,556 compared to \$432,890 for the year ended December 31, 2007. This change in cash flows from operating activities was due mainly to increases in accounts payable and unearned revenue, offset by an increase in accounts receivable, inventories and advances to suppliers.

We used \$3,838,893 in investing activities during the year ended December 31, 2008 for the acquisition of property and equipment and an increase in our construction in process.

Cash provided from financing activities in the year ended December 31, 2008 was \$1,945,584 which included proceeds from a short term loan and short term notes payable, and advances from a related party, offset by a payment to a shareholder and repayment of notes payable. The increase in the loan and note balances is principally due to the increase in accounts receivable. As accounts receivables are collected these obligations are paid down.

Assets

As of December 31, 2008, our accounts receivable increased by \$5,069,230 compared with the balance as of December 31, 2007. The increase in accounts receivable during the year ended December 31, 2008 was due primarily to increased sales. We intend to continue our efforts to maintain accounts receivable at reasonable levels in relation to our sales. Inventory increased by \$3,527,547 in the same period and advances to suppliers increased by \$2,198,146.

We experienced a decrease in due from shareholder, short-term investments, and restricted cash of \$1,383,124, \$107,307 and \$250,286, respectively during year ended December 31, 2008.

Liabilities

Our accounts payable and other payables increased by \$6,489,032 and \$195,812, respectively, during the year ended December 31, 2008. Unearned revenues (payments received before all the relevant criteria for revenue recognition are satisfied) increased by \$3,236,375 and tax and welfare payable increased by \$636,408 over the same period. Short-term loans and Notes payable (short-term and long-term) increased by \$1,861,410 and \$728,789, respectively, due to the receipt of proceeds from new loans entered into during the year ended December 31, 2008. Balances due to related parties and shareholders were reduced by \$990,792.

We intend to meet our liquidity requirements, including capital expenditures related to the purchase of equipment, purchase of raw materials, and the expansion of our business, through cash flow provided by operations.

We maintain export insurance that covers losses arising from customers' rejection of our products, political risk, losses arising from business credit and other credit risks including bankruptcy, insolvency and delay in payment.

The majority of our revenues and expenses were denominated primarily in RMB, the currency of the PRC.

There is no assurance that exchange rates between the RMB and the USD will remain stable. We do engage in currency hedging. Inflation has not had a material impact on our business.

Three Months Ended March 31, 2009 Compared to the Three Months Ended March 31, 2008:

On March 31, 2009, we completed a closing of a private placement offering of Units (as defined below) pursuant to which we sold an aggregate of 405,445 Units at an offering price of \$1.84 per Unit for aggregate gross proceeds of \$746,000. Each "Unit" consists of one share of our common stock and a three year warrant to purchase 15% of one share of common stock at an exercise price of \$3.45 per share. The total warrants issued to investors were 60,828. We also issued warrants to purchase 40,545 shares of common stock to the placement agents.

On May 1, 2009, we completed a closing of a private placement offering of 520,000 Units at an offering price of \$1.84 per Unit for aggregate gross proceeds of \$956,800 to two non-US investors. Each Unit consisted of one share of our common stock and a three year warrant to purchase 15% of one share of common stock, or an aggregate of 78,000 shares of common stock, at an exercise price of \$3.45 per share.

Cash Flows

At March 31, 2009, we had \$2,535,237 in cash and cash equivalents on hand. Our principal demands for liquidity are to increase capacity, inventory purchase, sales distribution, and general corporate purposes. We anticipate that the amount of cash we have on hand as of the date of this report as well as the cash that we will generate from operations will satisfy these requirements.

Net cash flows used by operating activities for the three months ended March 31, 2009 was \$932,304 compared to \$947,634 for the three months ended March 31, 2008. This change in cash flows from operating activities from quarter to quarter was not significant.

We used \$506,042 in investing activities during the three months ended March 31, 2009 for construction in process.

Cash provided from financing activities in the three months ended March 31, 2009 was \$1,195,294 which included proceeds from a notes payable and sale of shares of common stock, offset by payment on short-term loans.

Assets

As of March 31, 2009, our accounts receivable increased by \$761,044 compared with the balance as of December 31, 2008. The increase in accounts receivable on three months ended March 31, 2009 was due primarily to slower collections. We intend to continue our efforts to maintain accounts receivable at reasonable levels in relation to our sales. Inventory decreased by \$1,947,043 from the balance at December 31, 2008.

Liabilities

Our accounts payable decreased by \$2,239,240 during the three months ended March 31, 2009 and other payables decreased by \$181,615 for the same period. Unearned revenues (payments received before all the relevant criteria for revenue recognition are satisfied) decreased by \$1,428,705 and short-term loans decreased by \$769,341 over the same period. Notes payable and tax and welfare payable increased by \$1,414,461 and \$448,595, respectively, due to the receipt of proceeds from new loans entered into during the three months ended March 31, 2009.

We intend to meet our liquidity requirements, including capital expenditures related to the purchase of equipment, purchase of raw materials, and the expansion of our business, through cash flow provided by operations and funds raised through private placement offerings of our securities, if and when the Company determines such offerings are required.

We maintain export insurance that covers losses arising from customers' rejection of our products, political risk, losses arising from business credit and other credit risks including bankruptcy, insolvency and delay in payment.

The majority of our revenues and expenses were denominated primarily in RMB, the currency of the PRC.

There is no assurance that exchange rates between the RMB and the USD will remain stable. We do engage in currency hedging. Inflation has not had a material impact on our business.

OUR BUSINESS

General

We are a market leader in the design, manufacture and sale of home and kitchen electronic appliances. Our company has successfully targeted consumers in the growing Chinese marketplace as well as customers in more than 40 countries worldwide. Our product lines include blenders, juicers, soy milk makers and other home and kitchen electronic appliances designed to improve at-home lifestyles in today's fast paced society. We are one of the largest manufacturers of small electric blenders and juicers in China and manufacture of some of the leading kitchen appliance brands in the world.

Deer has traditionally acted as both an original equipment manufacturer (“OEM”) and original design manufacturer (“ODM”) for international markets with approximately 90% and 95% of our total sales made overseas in 2007 and 2008, respectively, of which North America and Europe accounted for approximately 52% of our total sales in 2008. While Deer has traditionally made the majority of its sales in Europe and North America, urbanization, rising family incomes and increased living standards have spurred the demand for small appliances in China. In addition we are rapidly expanding into emerging growth countries in South America, Asia, Africa, and the Middle East. In 2008, Deer had sales in over 40 countries.

In 2008 Deer introduced its own brands of appliances to the domestic market. Management believes that our Deer brands will grow significantly as the domestic demand for our products increases in China with increased living standards.

The growth of our Deer brands is a result of our:

- o Aggressive sales efforts to retail stores and commercial purchasers in China;
- o Expanded direct sales through our new franchised retail stores and through popular Chinese internet portals; and
- o Targeted marketing efforts to customers in South America, Asia, Africa, and the Middle East.

We were able to maintain our revenue growth in 2008 despite a global recession because of our pricing and quality of our OEM and ODM products, strong sales to large retailers and our aggressive expansion in China, South America, Asia, Africa, and the Middle East.

Management believes Deer is positioned to become a leading brand in China's rapidly growing home and kitchen electronic appliance sector and will continue to be a leading international OEM and ODM.

We were incorporated in Nevada on July 18, 2006 under the name of Tag Events Corp as a musical event organization and promotion company with minimal operations. On September 3, 2008 we changed our name to Deer Consumer Products, Inc. and entered into and consummated a series of agreements which resulted in the acquisition of all of the ordinary shares of Deer International Group Ltd, a corporation organized under the laws of the British Virgin Islands (“Deer International”) parent of its wholly-owned subsidiary, Winder Electric Co. Ltd. (“Winder”), which is a wholly-owned foreign enterprise (“WOFE”) and responsible for research, production and delivery of goods, and Delta International Limited (“Delta”), which is a wholly owned subsidiary of Winder and primarily responsible for sales.

The acquisition of Deer's ordinary shares was accomplished pursuant to the terms of a Share Exchange Agreement and Plan of Reorganization, dated September 3, 2008 (the “Share Exchange Agreement”), by and between Deer International and the Company. Pursuant to the Share Exchange Agreement, we acquired from Deer 50,000 ordinary shares,

consisting of all of its issued and outstanding capital stock, in exchange for the issuance of an aggregate of 7,847,853 shares of our common stock to the shareholders of Deer International (the “Share Exchange”).

Concurrently with the closing of the transactions contemplated by the Share Exchange Agreement and as a condition thereof, we entered into an agreement with Crescent Liu, our former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of our common stock to us for cancellation. Mr. Liu was not compensated in any way for the cancellation of his shares of our common stock. Upon completion of the foregoing transactions, we had an aggregate of 9,826,113 shares of common stock issued and outstanding.

Our principal offices are located at Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057. Our telephone number is (86) 755-8602-8285.

Industry Overview

Electrical appliances are generally segregated as electronics or household appliances. Household appliances are then classified into large appliances, or white goods such as washing machines and refrigerators, and small appliances. Small appliances are further classified as:

- o Kitchen – microwave, coffee maker, rice cooker, blender, etc.
- o Living – Electric fans, humidifiers, electric heaters, vacuums, etc., or
- o Personal care – hairdryers, electric shavers, massagers, etc.

Deer’s products generally fall into the kitchen sector of these classifications. Current international and domestic market highlights for small household electrical appliances are described below:

International Market

- o Global sales of small household electrical appliances grew from \$77.94 billion in 2007 to \$85.91 billion in 2008, of which China accounted for approximately 17%, or \$13.3 billion, in 2007 and 18%, or \$15.7 billion, in 2008. 1
- o China is the leading manufacturer of small household electrical appliances producing 1.44 billion units in 2007 and 1.63 billion units in 2008, of which exports accounted for 74.3%; 2
- o In the US, the top five firms control over 90% of the market while in Europe the top five firms have approximately 60% market share. Top European market participants include Electrolux, Bosch, Black & Decker, Phillips, and Miele; 3
- o Average gross profit margins for small household electrical appliances are approximately 30%. These margins are higher than that of traditional home appliances such as televisions and air conditioners which have margins of 5-6%. 4

Small Electrical Appliances Production in China (2002-2008) 5

Year	Production Capacity (Million Units)	Annual Growth Rate (%)	Actual Production Units (Million Units)	Annual Growth Rate (%)	Capacity Utilization (%)
2002	848.0	18.8%	758.3	20.3%	89.4%
2003	951.0	12.1%	896.7	18.3%	94.3%
2004	1,102.0	15.9%	1,001.5	11.7%	90.9%
2005	1,263.5	14.7%	1,145.8	14.4%	90.7%
2006	1,398.0	10.6%	1,275.0	11.3%	91.2%
2007	1,578.0	12.9%	1,440.0	12.9%	91.3%

Domestic Market

A summary of small electrical appliance consumption in China for 2003-2008 is as shown below:

Small Electrical Appliances Consumption in China (2003-2008) ⁶

Year	Sales (\$ Billion)	Growth Rate (%)
2003	7.73	
2004	9.04	17.0%
2005	10.25	13.3%
2006	11.69	14.1%
2007	13.80	18%
2008	15.74	14%

Deer's products generally fall into the kitchen usage sector which accounted for approximately 79% of China's small electrical appliances consumption with \$12.46 billion in sales in 2008 as shown below:

Small Electrical Appliances Consumption in China (2006-2007) ⁷

Year	Kitchen		Living		Personal Care		Total	
	Sales (\$ Billion)	Growth (%)	Sales (\$ Billion)	Growth (%)	Sales (\$ Billion)	Growth (%)	Sales (\$ Billion)	Growth (%)
2006	9.14		1.50		1.05		11.69	14.10%
2007	10.46	14.4%	1.69	13.0%	1.16	10.8%	13.31	13.9%
2008	12.46	18.5%	1.99	17.7%	1.34	15.5%	15.74	18.4%

o In developed countries an average family has 20-30 different kinds of small household electrical appliances whereas in China the current average is just 5, demonstrating the vast potential of the market in China; ⁸

o The main consumers of kitchen appliances in China are young couples aged 18-40 with overall buyers being relatively young; and ⁹

o Increasing household incomes in China influence most people to want to minimize the time they spend on household chores boosting the sales of microwave ovens, toasters, and blenders. ¹⁰

In North America, Europe, and other developed regions the appliance industry is largely cyclical with most sales dependent on replacements, new construction and new product introduction. By contrast, in developing markets such as China, Brazil, Mexico and Africa, the market is fueled by rising incomes, development of rural areas, and the desire for a higher quality of life. The appliance market in China has been and continues to display great strength and official estimates for market growth are 9% annually through 2011. ¹¹ Growth in China is the result of several large socio-economic factors including improving economic conditions, urbanization, the addition of modern kitchens, and an overall improvement in the quality of life that comes with higher disposable incomes.

Management believes that exports to the US have decreased for household electronic appliances (including white goods) during 2008. However, exports of the same products to European markets have maintained strong growth rates and we have experienced significant growth in South America, Asia, Africa, and the Middle East. Generally due to the financial crisis, appreciation of the Chinese currency, and higher labor costs and raw material costs during 2008, exports of small electronic appliances declined. Nevertheless, revenues derived from the sale of small electronic appliances have increased mainly due to increased marketing efforts during 2008.

Products

Both in China and overseas, the Company manufactures home and kitchen electronic appliances primarily for the consumer market. In 2007 and 2008, 86% and 95% of sales were made to the consumer market; 14% and 5%, respectively to the professional market. The Company's premier products include blenders and juice extractors which respectively accounted for 69.7% and 21.7% of sales in 2008. Other products include food processors, popcorn makers, and meat grinders. In 2008, the Company introduced a rice cooker, an electric water kettle, and a pressure cooker to the domestic market. The Company also has plans to expand into other growing appliances specific to different regions such as humidifiers, dehumidifiers, and water heaters. Sales by product for 2007 and 2008 are as shown in the chart below:

Sales by Product (\$ 000s) (Unaudited)

Product Type	Blender		Juicer		Others		Total	
	2007	2008	2007	2008	2007	2008	2007	2008
Sales by Product	\$ 22,040	\$ 29,446	\$ 6,655	\$ 9,114	\$ 4,781	5,224	\$ 33,476	\$ 43,785
% of Total Sales	65.8%	69.7%	19.9%	21.7%	14.3%	8.6%	100%	100%

2008 Average exchange rate: \$1=RMB 6.94

(source: ONDA.com)

The Company's products have obtained the requisite safety approvals to sell in dominant international markets including ETL (European Union), GS (Germany), UL/CUL (US covering North America) and CB (International). Products are safe, designed to be easy to use, and contain modern stylish features such as LCD lighting, timers, and easy access buttons. Products in both the consumer and professional market sell for approximately 70% of the price of imports of comparable quality, and on a par with other domestic brands with 3 tiered pricing to accommodate premium, moderate and no-frills customers' needs.

New Products

In 2008 Deer entered into agreements with various OEMs to manufacture products including: rice cookers, pressure cookers, dehumidifiers, and electric water kettles. These items were for sale in the domestic market under the Deer brand starting in 2008. In just eight years Deer has produced over 189 unique product varieties with a minimum of 10 new product varieties brought to the market annually.

Production

With the exception of certain third party manufacturing agreements, all production is performed in-house with 13 tooling houses, 136 injection molding machines, 18 production lines and annual production capacity of 6 million appliances.

As part of our manufacturing best practices as well as our contribution to environmental improvement, our manufacturing department recycles and reuses all plastic scraps, defects, waste, and quality rejects to be reused as raw materials. At current manufacturing levels approximately 14 tons of waste is recycled monthly.

Deer continues its cost control program to improve productivity by identifying opportunities to replace manual assembly operations and improving workflow while improving safety, quality, and efficiency which resulted in a reduction of its headcount in 2008 by approximately 200 employees.

Third-party manufacturers are evaluated from time to time in order to produce appliances not currently manufactured by Deer. Based on market responses to those products, management determines if such products would be more efficiently produced by Deer. To date, Deer only enters into short term production agreements with its third party manufacturers.

Marketing

Current

International

During 2008 Deer attained its goal of increasing sales contacts in the international market, especially with respect to the emerging markets in the Middle East, Africa, and South America, as well as developing new products for existing customers. In addition, it attended Hong Kong Electronic and China Import & Export Fairs to expand its international exposure for its products.

During 2009, Deer plans to:

- o Expand the January 2009 launch of the Deer brand of products in Hong Kong and Macau;
- o Attend international trade shows to seek new customers and display product innovations;
- o Expand production and distribution of popcorn makers and espresso coffee makers to international customers; and
- o Continue its marketing program in Middle East, Africa, and South America.

Domestic

Deer's Domestic Sales Director was previously employed by Midea, a leading domestic appliance manufacturer. He is responsible for expanding Deer's domestic marketing and sales presence and was responsible for spearheading the entrance of the Deer brand into the Chinese market in 2008. During 2008, Deer expanded its domestic marketing and sales field force, increased Deer's domestic counter presence, opened new franchise based retail stores and expanded its e-commerce presence. In addition, Deer expects to benefit from new government policies to subsidize the purchase of small kitchen electronic appliances in rural China. To date Deer has made the following progress:

- o As of December 31, 2008, Deer has increased its sales & marketing department to 98 employees with plans to double in 2009;
- o Deer's products were one of the fastest growing brands for small kitchen electronic appliances on TaoBao, a leading internet web portal in China;
- o Deer expanded its sales of its products with leading electrical appliance chains, supermarket chains and shopping malls; and
- o Rolled out its franchised retail stores that exclusively sell Deer brand small kitchen and home electrical appliances.

The target customer in the Chinese market is a typical urban consumer, with Deer offering varied models and pricing to fit high, mid and budget level buyers. As China's economy continues to grow, the urban domestic consumer is Deer's ideal customer. Deer also expects to benefit from government subsidies to rural Chinese citizens to encourage the purchase of small kitchen electronic appliances. Deer has established a retail store franchise program for its products in local markets. Management believes this approach will open new markets to the company for its brands while transferring the costs and risks associated with retail store operations to the franchise owners. Deer expects that internet sales of its products over popular Chinese web portals such as Alibaba, TaoBao and HC360.com will continue to grow in 2009. According to TaoBao, Deer's small kitchen and home electronic appliances were among the fastest

growing brands purchased on its website in 2008.

Deer has 7 registered brand names for sale in the domestic market including Deer, Kyowa, D&R, Blendermate, K-tec, Blendtec, and NOWAKE from which they hope to attain a new level of business domestically and transition from an ODM manufacturer to OBM manufacturer. Deer gives each domestic product a two-year warranty compared to the industry average of 1 year.

Domestic product brand orientation is shown in the table below:

Product Brand	Brand Property	Customer	Product Category
Ariete Disney	Selling agent	Residential (High-end)	Coffee machine Steam cleaner Baby series Other kitchen appliance
Deer, Kyowa, D&R, Blendermate, K-tec, Blendtec, NOWAKE	Self-owned brand	Residential (Middle-high-end) product	Food processor (includes blender and juicer) Soymilk Maker Electrical pressure cooker Electrical kettle Electrical rice cooker
Bartec	Self-owned brand	Commercial: restaurants, bars, hotels	Blender machine

Deer's new domestic slogan, "Healthy Living Through Modern Appliances," is now presented on several outdoor advertising venues in the Guangdong region and, as sales representatives make inroads to further markets, the advertisements will span the country. In addition to advertising, Deer also utilizes in store product discounts and giveaways during special holidays to attract first-time buyers, families on budgets, and those who wish to use the giveaways as gifts.

Future

In light of the continuing growth in the domestic appliance market and the slowdown in the growth rate of Western markets, Deer has set its 2009 marketing strategy on five goals;

1. Continue expanding its sales base in the domestic Chinese market;
2. Continuing to grow its international OEM business as well as pursuing OBM opportunities abroad as Western brands choose to exit the market;
3. Pursuing further penetration and development of a wider customer base in the Middle East, Africa, and South America;
4. Continue expansion of direct sales of the Deer brand of small kitchen electronic appliances over the Internet; and
5. Licensing additional franchises for Deer brand retail stores in local Chinese markets.

Suppliers

Deer's major raw material purchases include petroleum-based resins and chemicals such as AS, ABS, and silicon steel sheets. Micro-motors can be sourced from multiple suppliers in the region. Currently, around 20% of raw materials are imported with the majority sourced domestically through various local suppliers in China based on cost and availability. More than half of domestic materials can be purchased within the Pearl River Delta region.

Deer generally maintains positive cooperative relationships with more than two suppliers for each raw material purchased. The suppliers have been approved by Deer as to quality and delivery specifications. Cooperative relationships tend to produce better results in terms of delivery, quality, and customer needs. In the case of technical problems, Deer has the option to work with its suppliers to solve the problem. However, Deer does not depend on any one supplier. If the products do not satisfy the quality or supply requirements of the Company, the Company can select another supplier.

Deer does not maintain any fixed supply contracts. Goods are ordered on an as-needed basis to meet production needs. If a change of suppliers is necessary, management estimates it can quickly fulfill supplies from another source without impacting production. Strategic materials are purchased from several suppliers including Sinochem, Jin Hai Development (HK) Co. Ltd and Guo Heng Company. There are no sole source suppliers. The largest purchases by product in 2008 are as shown in the table below:

The largest purchases by product in 2007 and 2008 are as shown in the table below:
Top 5 Raw Materials Purchases

Item	Number of Suppliers		Total purchases \$ 000s		% of Annual Purchases		Domestic/ Foreign	
	2007	2008	2007	2008	2007	2008	2008

Customers

Deer works with its customers through the ODM, OBM, and OEM models as follows:

- o ODM (Original Design Manufacturing): Deer provides expertise on product design and manages all production;

oOBM (Original Brand Manufacturing): Deer's own products designed and manufactured based on the Company's research to meet the needs of customers;

oOEM (Original Equipment Manufacturing): Deer manages all production with product design and name provided by the client.

International market

In the international market Deer serves primarily as an ODM for large overseas appliance manufacturers with sales made both direct to the brands and through distributors. Since inception Deer has focused on establishing stable and positive customer relationships and has developed a loyal and strong customer base with foreign clients such as Focus Electric (5 years), Applicia (4 years), Home Depot (5 years), Sattar (8 years) and Girmi (3 years) with the top 10 customers generally accounting for approximately 51% of annual sales. With its major domestic customers Deer has established terms of sale covering delivery, payment, and pricing however there are no fixed agreements as to sales quantities on a monthly or annual basis; all orders are placed on an as needed basis by customers.

Domestic (Chinese) market

In the Chinese market, Deer has established sales agreements with several top appliance chain stores such as Gome and Suning, hypermarkets, and shopping centers with their own brands as well as producing for Disney and Ariete under ODM agreements.

Most international OEM and ODM customers are looking for a high-quality and reliable manufacturer to design and produce products that meets their quality and style specifications in the time and pricing constraints allowed. In the domestic market, most customers seek quality, convenience, and price (in that order). In 2007 and 2008 foreign sales accounted for 90% and 95% of total sales, respectively. Deer's largest customers in 2008 are as shown in the table below:

Top Ten Customers in 2008					
Customer	Area	Sales (\$ 000s)	% of Annual	Product	
1	FOCUS ELECTRIC	North America	\$ 8,094	18.92%	Blender
2	APPLICA	North America	2,374	5.55%	Blender

Research and Development

With the aim of maintaining Deer's competitive edge in the marketplace and keeping pace with new technologies, constant research and development work is required to find improved efficiencies in design and cost. Deer's R&D team is composed of 6 experienced designers.

In 2009, Deer plans to spend \$650,000 on new product development. In 2007 and 2008, Deer spent \$1,536,000 and \$585,000, respectively, on research and development, respectively.

While Deer has no formal written alliances with universities we work with several household electric associations on a consultant basis.

Governmental and Environmental Regulation

Deer's products have obtained the requisite safety approvals to sell in international markets including ETL (European Union) GS (Germany), UL/CUL (US covering North America) and CB (International) licenses as well as obtaining the necessary certifications to sell in the domestic market. Domestic licenses, which Deer has obtained, are required for both the production and sale of goods.

The business and company registrations are in compliance with the laws and regulations of the municipal and provincial authorities of Guangdong Province and China.

Competition

International

In the international market Deer faces competition from foreign brands such as Phillips, Samsung, Electrolux, Bosch, and Proctor-Silex. Overseas, Deer products offer a cost advantage against the foreign branded products which are generally priced 40-50% higher. In the overseas market, Deer also competes against other OEM and ODM manufacturers which are located in China, more recently other OEM and ODM manufacturers operate in Eastern Europe and other low labor cost Southeast Asian countries. In order to compete effectively Deer employs the following practices:

- oCustomer Service – The sales managers maintain close contact with customers to uncover any special modifications or product needs to best fit their respective markets. In addition, the sales director often travels to meet with such customers during the year;
- oODM ability – For customers involved in multiple product lines such as Disney and Black & Decker for whom it is not efficient to invest in the research and design of such kitchen appliance products, Deer will design a product to meet their specifications both technically and visually from start to finish allowing the customer to concentrate on their other businesses;
- oExperience – 6 years of quality, stylish, and defect-free products which are completed on a timely basis provide a competitive edge against other OEMs.

Domestic

In the domestic market in China Deer faces competition not only from foreign brands sporting high price tags and reputations, but also from other Chinese appliance manufacturers, especially those who have operated in the market

for over 5 years such as Midea, Hisense, Galanz, Supor, Elec-Tech and Tsann Kuen (Taiwan) which are priced comparably with Deer. In order to effectively compete in the domestic market Deer has and will use a combination of:

o3-tiered pricing - premium, middle and budget versions of a product which is especially important as appliances begin to penetrate third-tier cities and the traditional middle income bracket consumers;

- o Reputation as a high quality OEM producer - many Chinese purchasers of foreign brands are looking for safety as well as price and style; Deer is known as a producer for foreign brands and as such means the same safety and style at a better price to most consumers, and;

o Customer Service - Deer offers a 2 year warranty in comparison to the industry average of 1 year and has a 24 hour toll-free service number (400-888-5777) for all customers.

Seasonality

Deer typically experiences stronger third and fourth calendar quarters due to seasonality generally caused by national holidays. In addition, customer demand for blender and juicer products are also influenced by the weather.

Employees

As of December 31, 2008 the Company had 850 employees which management believes will increase during the next 12 months as follows:

Function Unit	Current # Employees	Recruitment Budget	Total after the Budget
CEO	1	0	1
Technique	38	0	38
R&D	6	0	6
Manufacture	642	105	747
Quality	15	11	26
Sales	98	200	298
After service	10	30	40
Finance	10	0	10
Administration	25	0	25
HR	5	0	5
Total	850	346	1196

Deer maintains strong ties with its employees and staff and retention is stable. Employee contracts adhere to both State and Provincial employment regulations and all social security regulations. All compensation including social insurance is paid in a timely manner to authorities and employees. There have been no disputes and there are no collective bargaining agreements.

Salary Policy

Generally, Deer employees' salaries are classified into five categories: hourly, piecework, length of service, overtime including holiday pay, and awards. Awards include: production awards, marketing awards and annual bonuses.

Benefits

1. All Social Insurance required by State and Local laws.
2. Living Quarters.
3. Transportation Van which runs Monday through Friday and circulates to nearby city/suburbs.
4. Accidental Injury Insurance.

Our Corporate History

We were incorporated in Nevada on July 18, 2006 under the name of Tag Events Corp as a musical event organization and promotion company with minimal operations. On September 3, 2008 we changed our name to Deer Consumer Products, Inc. and entered into and consummated a series of agreements which resulted in the acquisition of all of the ordinary shares of Deer International Group Ltd, a corporation organized under the laws of the British Virgin Islands (“Deer International”) parent of its wholly-owned subsidiary, Winder Electric Co. Ltd. (“Winder”), which is a wholly-owned foreign enterprise (“WOFE”) and responsible for research, production and delivery of goods, and Delta International Limited (“Delta”), which is a wholly owned subsidiary of Winder and primarily responsible for sales.

The acquisition of Deer’s ordinary shares was accomplished pursuant to the terms of a Share Exchange Agreement and Plan of Reorganization, dated September 3, 2008 (the “Share Exchange Agreement”), by and between Deer International and the Company. Pursuant to the Share Exchange Agreement, we acquired from Deer 50,000 ordinary shares, consisting of all of its issued and outstanding capital stock, in exchange for the issuance of 7,847,853 shares of our common stock to the shareholders of Deer International (the “Share Exchange”).

Concurrently with the closing of the transactions contemplated by the Share Exchange Agreement and as a condition thereof, we entered into an agreement with Crescent Liu, our former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of our common stock to us for cancellation. Mr. Liu was not compensated for the cancellation of his shares of our common stock. Upon completion of the foregoing transactions, we had 9,826,113 shares of common stock issued and outstanding.

Our Corporate Information

Our principal offices are located at Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057. Our telephone number is (86) 755-8602-8285. Our website is <http://www.Deerinc.com>. The information contained on our website is not a part of this prospectus.

OUR PROPERTY

1. Land usage rights:

Deer has signed 50 year lease agreements for the properties in Yangjiang on which their manufacturing, office, and employee dorms are located. The properties and associated structures are as shown in the tables below:

We believe that our facilities are adequate for our current operations for fiscal 2009.

LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may have an adverse affect on our business, financial conditions, or operating results. We are currently not aware of any such legal proceedings or claims that will have, individually or in the aggregate, a material adverse affect on our business, financial condition or operating results.

MANAGEMENT

Executive Officers and Directors

Our executive officers and directors, and their ages, positions and biographical information, as of May 28, 2009, are as follows:

Name	Position	Age
Mr. Ying He	Chairman, & Chief Executive Officer, President	39
Mr. Yuehua Xia	Chief Financial Officer	33
Mr. Man Wai James Chiu	Chief Operating Officer	46
Mr. Zongshu Nie	Financial Controller, Director	32
Mrs. Yongmei Wang	Corporate Secretary	33
Mr. Edward Hua	Director	56
Mr. Arnold Staloff	Director	64
Walter Zhao	Director	45

Our directors hold office for one-year terms or until their successors have been elected and qualified.

Mr. Ying He, Chairman, Chief Executive Officer and President

Mr. He was appointed as our Chairman, Chief Executive Officer and President on September 3, 2008. Mr. He was one of the original founders of Winder in 2001. From June 2006, Mr. He has served as the Director of Winder. From July 2001 to August 2006, Mr. He served as the Chairman of Winder. Prior to that time from August 1999 to June 2001, Mr. He worked independently to establish the initial business plan for Winder including arrangements with future customers, suppliers, vendors, and site determination. Prior to that time from March 1996 to July 1999, Mr. He served as CEO of Dongguan Xin Dao Mould. From March 1993 to December 1995, Mr. He served as the Senior Manager of Hong Kong Dongjiang Group, Inc. Mr. He obtained his MBA degree from Zhongshan University in 2005.

Mr. Yuehua Xia, Chief Financial Officer

Mr. Xia was appointed as our Chief Financial Officer on September 3, 2008. Mr. Xia was appointed Chief Financial Officer of Winder and its subsidiary in November, 2006. From February 2004 to November 2006, Mr. Xia served as CFO of Shenzhen Zheng Jia Investment and Development Co., Ltd. From March 2002 to January 2004, Mr. Xia served as Finance Manager of ACT International Holding Ltd., (Shenzhen). From September 1996 to February 2002 Mr. Xia served as Vice Manager of Finance for Shengxiang Industrial Ltd., (Shenzhen). Mr. Xia obtained his Bachelor's degree in Accounting from Zhongnan University of Finance & Economics in 1996.

Mr. Man Wai James Chiu, Chief Operating Officer

Mr. Chiu was appointed as our Chief Operating Officer and director on September 3, 2008 and resigned as our director on April 29, 2009. Mr. Chiu was appointed Chief Operating Officer of Winder and its subsidiary in May 2007. Prior to that time, from January 2001 to May 2007, Mr. Chiu served as the Sourcing Director for Hamilton Beach Proctor-Silex, Inc., in China. Mr. Chiu obtained his B.S. in Accounting & Economics from Hong Kong University, his MBA from Australia Charles Stuart University in 2001, and his Bachelor's degree in Law from the University of London in 2006.

Mrs. Yongmei Wang, Corporate Secretary

Mrs. Wang was appointed as our Corporate Secretary on September 3, 2008. Mrs. Yongmei Wang joined Winder upon inception in 2001 as Assistant General Secretary. Mrs. Wang obtained her Bachelor's degree in International Trade from Xian Foreign Language Institute in July 1995.

Edward Hua, Director

Mr. Hua held various management positions at the Bank of China from 1994 to the present time, and is currently the General Manager of the Treasury Department of the Boc Shenzhen Branch. Mr. Hua holds a Master's Degree in World Economics from Fudan University and a Senior Economist Certificate from the Bank of China. Mr. Hua has been appointed as the Chairman of our Nominating and Corporate Governance Committee and serves as a member of our Compensation Committee and Audit Committee.

Zongshu Nie, Director

Mr. Nie has been the Financial Controller of Deer Consumer Products, Inc. from May 2008 to the present time. From 1998 to May 2008, Mr. Nie was the Chief Financial Officer at Xian Tai Plastics Co., Ltd, a manufacturer and exporter of plastics based materials. Mr. Nie received a Bachelor's degree in accounting from the ShaanXi College of Finance and Economics in 1998.

Arnold Staloff, Director

Mr. Staloff has served as the Chairman of Audit Committee for each of Shiner International, Inc. since 2007; AgFeed Industries, Inc. since 2007 and SmartHeat Inc. since 2008. From December 2005 to May 2007, Mr. Staloff served as Chairman of the Board of SFB Market Systems, Inc., a New Jersey-based company that provides technology solutions for the management and generation of options series data. From March 2003 to December 2005, Mr. Staloff was an independent consultant. From June 1990 to March 2003, Mr. Staloff served as President and Chief Executive Officer of Bloom Staloff Corporation, an equity and options market-making firm and foreign currency options floor broker. Additionally, Mr. Staloff served on the Board of Directors of Lehman Brothers Derivative Products Inc. from 1998 until 2008 and Lehman Brothers Financial Products Inc. from 1994 until 2008. Mr. Staloff holds a Bachelor of Business Administration from the University of Miami. Mr. Staloff has been appointed as the Chairman of our Audit Committee and serves as a member of our Compensation Committee and Nominating and Corporate Governance Committee.

Walter Zhao, Director

Mr. Zhao has been the President of Kaito Electronics, Inc., an electronics design and manufacturer, from December 1997 to the present time. From 1989 to 1997 Mr. Zhao was a Department Manager of CEIEC Shenzhen, an education equipment and instrument company. Mr. Zhao received a Master's degree in electrical engineering from the University of Science and Technology in China in 1989 and a Bachelor of Science degree in electrical engineering from Shandong University in 1985. Mr. Zhao has been appointed as the Chairman of our Compensation Committee and serves as a member of our Audit Committee and Nominating and Corporate Governance Committee.

Family relationships

None.

Involvement in certain legal proceedings

No bankruptcy petition has been filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time. No director has been convicted in a criminal proceeding and is not subject to a pending criminal proceeding (excluding traffic violations and other minor offenses).

No director has been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities.

No director has been found by a court of competent jurisdiction (in a civil action), the SEC or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, that has not been reversed, suspended, or vacated.

The Board of Directors and Committees

Subject to certain exceptions, under the listing standards of NASDAQ, a listed company's board of directors must consist of a majority of independent directors. Currently, our board of directors has determined that each of Messrs. Hua, Staloff and Zhao are independent directors for purposes of the NASDAQ's listed company standards currently in effect and approved by the SEC and all applicable rules and regulations of the SEC. We have established the following standing committees of the board: Audit, Compensation and Corporate Governance and Nominating. All members of the Audit Committee and a majority of the members of the Compensation and Nominating and Corporate Governance Committees satisfy the "independence" standards applicable to members of each such committee. The board of directors made this affirmative determination regarding these directors' independence based on discussion with the directors and on its review of the directors' responses to a standard questionnaire regarding employment and compensation history; affiliations, family and other relationships; and transactions with the Company. The board of directors considered relationships and transactions between each director or any member of his immediate family and the Company and its subsidiaries and affiliates. The purpose of the board of director's review with respect to each director was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent under the NASDAQ rules.

Audit Committee

We established our Audit Committee in April of 2009. The Audit Committee consists of Messrs. Hua, Staloff and Zhao, each of whom is an independent director. Mr. Staloff, Chairman of the Audit Committee, is an "audit committee financial expert" as defined under Item 407(d) of Regulation S-K. The purpose of the Audit Committee is to represent and assist our board of directors in its general oversight of our accounting and financial reporting processes, audits of the financial statements and internal control and audit functions. The Audit Committee's responsibilities include:

- o The appointment, replacement, compensation, and oversight of work of the independent auditor, including resolution of disagreements between management and the independent auditor regarding financial reporting, for the purpose of preparing or issuing an audit report or performing other audit, review or attest services.
- o Reviewing and discussing with management and the independent auditor various topics and events that may have significant financial impact on our company or that are the subjects of discussions between management and the independent auditors.

The board of directors has adopted a written charter for the Audit Committee. A copy of the Audit Committee Charter is posted on our website at www.Deerinc.com ..

Compensation Committee

We established our Compensation Committee in April of 2009. The Compensation Committee consists of Messrs. Hua, Staloff and Zhao, each of whom is an independent director. Mr Zhao is the Chairman of the Compensation Committee. The Compensation Committee is responsible for the design, review, recommendation and approval of compensation arrangements for our directors, executive officers and key employees, and for the administration of our equity incentive plans, including the approval of grants under such plans to our employees, consultants and directors. The Compensation Committee also reviews and determines compensation of our executive officers, including our Chief Executive Officer. The board of directors has adopted a written charter for the Compensation Committee. A current copy of the Compensation Committee Charter is posted on our website at www.Deerinc.com ..

Nominating and Corporate Governance Committee

We established our Nominating and Corporate Governance Committee in April of 2009. The Nominating and Corporate Governance Committee consists Messrs. Hua, Staloff and Zhao, each of whom is an independent director. Mr. Hua is the Chairman of the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee assists in the selection of director nominees, approves director nominations to be presented for shareholder approval at our annual general meeting and fills any vacancies on our board of directors, considers any nominations of director candidates validly made by shareholders, and reviews and considers developments in corporate governance practices. The board of directors has adopted a written charter for the Nominating and Corporate Governance Committee. A current copy of the Nominating and Corporate Governance Committee Charter is posted on our website at www.Deerinc.com.

Code of Conduct

Our board of directors has adopted a Code of Conduct, which applies to all directors, officers and employees. The purpose of the Code is to promote honest and ethical conduct. The Code is posted on our website located at www.Deerinc.com, and is available in print, without charge, upon written request to Deer at Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057. We intend to post promptly any amendments to or waivers of the Code on our website.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

We are not a party to any transactions required to be disclosed pursuant to Item 404 of Regulation S-K, including any transaction between us and any officer, director or affiliates of Deer that has a value in excess of \$120,000.

EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth information concerning the compensation for the years ended December 31, 2008 and 2007 of the principal executive officer, principal financial officer, in addition to our three most highly compensated officers whose annual compensation exceeded \$100,000, and up to two additional individuals for whom disclosure would have been required but for the fact that the individual was not serving as an executive officer of the registrant at the end of the last fiscal year.

As a “Smaller Reporting Company,” we have elected to follow scaled disclosure requirements for smaller reporting companies with respect to the disclosure required by Item 402 of Regulation S-K. Under the scaled disclosure obligations, the Company is not required to provide a Compensation Discussion and Analysis, Compensation Committee Report and certain other tabular and narrative disclosures relating to executive compensation.

The following table sets forth information concerning the compensation for the years ended December 31, 2008 and 2007 of the principal executive officer, principal financial officer, in addition to our three most highly compensated officers whose annual compensation exceeded \$100,000, and up to two additional individuals for whom disclosure would have been required but for the fact that the individual was not serving as an executive officer of the registrant at the end of the last fiscal year. A discussion of each of the principal elements comprising this executive compensation follows this table.

Summary Compensation Table

Edgar Filing: Deer Consumer Products, Inc. - Form 424B3

Name and Principal Position	Fiscal Year	Annual Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$)	Total (\$)
Ying He President and Chief Executive Officer	2007	24,660	0	0	0	24,660
Yuehua Xia Chief Financial Officer	2007	24,660	0	0	0	24,660
	2008	24,660				24,660

Narrative Disclosure to Summary Compensation Table.

Employment Agreements

Neither the Company nor its subsidiaries have employment agreements with their respective officers.

Change-In-Control Agreements

We do not have any existing arrangements providing for payments or benefits in connection with the resignation, severance, retirement or other termination of any of our named executive officers, changes in their compensation or a change in control.

Outstanding Equity Awards at Fiscal Year-End

As of December 31, 2008, there were no outstanding equity awards held by executive officers of our company.

Stock Incentive Plans

We had no stock incentive plan during 2007 or 2008.

Compensation of Directors

Director Compensation

Name	Fees Earned or Paid in Cash (\$)	Option Awards (\$)(1)	Total (\$)
Ying He, Chairman	-	-	-
Man Wai James Chiu	-	-	-

Narrative Disclosure to Director Compensation Table.

On April 29, 2009, Mr. Chiu resigned from the Board of Directors and the Board of Directors voted to (i) increase the size of the Board of Directors to 5 and (ii) appoint Mr. Edward Hua, Mr. Zongshu Nie, Mr. Arnold Staloff and Mr. Walter Zhao as members of the Board of Directors effective immediately.

Messrs. Hua, Staloff and Zhao are independent directors, satisfying the definition of “independence” as defined in Rule 4200 of the NASDAQ Rules. The Company and Mr. Staloff have agreed that he will be compensated \$20,000 per annum. Messrs. Nie, Hua, Staloff and Zhao shall be eligible to receive grants of options to purchase the Company’s Common Stock in such amounts, and on such terms, as agreed to in the future.

Messrs. He, Chiu and Nie do not qualify as “independent” directors, as that term is defined by applicable listing standards of The NASDAQ Stock Market and SEC rules, including the rules relating to the independence standards of an audit committee and the non-employee director definition of Rule 16b-3 promulgated under the Exchange Act.

We have not compensated, and will not compensate, our non-independent directors, such as Messrs. He and Chiu, for serving as our directors, although they are entitled to reimbursements for reasonable expenses incurred in connection with attending our board meetings.

We do not maintain a medical, dental or retirement benefits plan for the directors.

Impact of Accounting and Tax Treatment of Compensation

Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to the principal executive officer and to each of the three other most highly compensated officers (other than the principal financial officer) to the extent that such compensation exceeds \$1.0 million per covered officer in any fiscal year. The limitation applies only to compensation that is not considered to be performance-based.

Non-performance-based compensation paid to our executive officers during fiscal 2008 did not exceed the \$1.0 million limit per officer, and we do not expect the non-performance-based compensation to be paid to our executive officers during fiscal 2009 to exceed that limit. Because it is unlikely that the cash compensation payable to any of our executive officers in the foreseeable future will approach the \$1.0 million limit, we do not expect to take any action to limit or restructure the elements of cash compensation payable to our executive officers so as to qualify that compensation as performance-based compensation under Section 162(m). We will reconsider this decision should the individual cash compensation of any executive officer ever approach the \$1.0 million level.

Section 16 Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires our officers and directors and persons who own more than ten percent (10%) of our common stock to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock. Such officers, directors and ten percent (10%) shareholders are also required by applicable SEC rules to furnish to us copies of all forms filed with the SEC pursuant to Section 16(a) of the Exchange Act. Based solely on our review of copies of forms filed pursuant to Section 16(a) of the Securities Exchange Act of 1934, as amended, and written representations from certain reporting persons, we believe that during fiscal 2008 all reporting persons timely complied with all filing requirements applicable to them.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following tables set forth certain information as of May 28, 2009 regarding the number of shares of common stock beneficially owned by (i) each person or entity known to us to own more than 5% of our common stock; (ii) our named executive officers; (iii) our directors; and (iv) all of our executive officers and directors as a group.

Unless otherwise indicated, each of the shareholders named in the table below has sole voting and investment power with respect to such shares of common stock. Except as otherwise indicated, the address of each of the shareholders listed below is: c/o Deer Consumer Products, Inc., Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057.

Except as otherwise noted, the individual or his or her family members had sole voting and investment power with respect to such shares. The percentages of beneficial ownership set forth below are based on 11,281,558 shares of our common stock issued and outstanding as of May 28, 2009.

The following table provides information concerning beneficial ownership of our common stock as of December 31, 2008, by:

o each stockholder, or group of affiliated stockholders, that we know beneficially owns more than 5% of our outstanding common stock;

o each of our named executive officers;

o each of our directors; and

o all of our directors and executive officers as a group.

Unless otherwise indicated, each of the shareholders named in the table below has sole voting and investment power with respect to such shares of common stock. Except as otherwise indicated, the address of each of the shareholders listed below is: c/o Deer Consumer Products, Inc. Area 2, 1/F, Building M-6, Central High-Tech Industrial Park, Nanshan, Shenzhen, China 518057.

Except as otherwise noted, the individual or his or her family members had sole voting and investment power with respect to such shares. The percentages of beneficial ownership set forth below are based on 11,281,558 shares of our common stock issued and outstanding as of May 28, 2009.

Shares of common stock subject to options, warrants, or other rights currently exercisable or exercisable within 60 days of May 28, 2009 are deemed to be beneficially owned and outstanding for computing the share ownership and percentage of the stockholder holding such options and warrants, but are not deemed outstanding for computing the percentage of any other stockholder.

Name of Beneficial Owner	Number of Shares Beneficially Owned	Percentage Beneficially Owned
5% Stockholders:		
Sino Unity Limited (1)	843,642	7.48%
True Olympic Limited (1)	784,783	6.96%
Great Scale Holdings Limited (3)	627,827	5.57%
New Million Holdings Limited (4)	627,827	5.57%
Tiger Castle Limited (5)	549,348	4.87%
Roosen Commercial Corp.	609,500	5.36%
Wolf Enterprises Limited	575,000	5.06%
Named Executive Officers		
Mr. Ying He (6)	3,629,620	32.17%
Mr. Yuehua Xia	—	*
Man Wai James Chiu (7)	470,870	4.17%
All Directors and Named Executive Officers as a Group	4,100,490	36.35%

(1) Sino Unity Limited is 100% owned by YuHai Deng, our Manager of Purchasing.

(2) True Olympic Limited is 100% owned by ZongZhu Nie, our Manager of Quality Control.

(3) Great Scale Holdings Limited is 100% owned by FaMin He, our Manager of Production.

(4) New Million Holdings Limited is 100% owned by BaoZhi Li, our Manager or Corporate Development.

(5) Tiger Castle Limited is 100% owned by JingWu Chen, our Manager of Corporate Development.

(6) Mr. Ying He, our Chairman, Chief Executive Officer & President, holds his shares through Achieve On Limited which is 100% owned by him.

(7) Mr. Man Wai James Chiu, our Chief Operating Officer, holds his shares through Sharp Champion Limited which is 100% owned by him.

* Less than 1% of shares outstanding.

SELLING SHAREHOLDERS

The shares of common stock included in this prospectus (including shares issuable pursuant to the terms of outstanding warrants) were issued in two private placement transactions respectively exempt from registration under the Securities Act under Regulation D and Regulation S promulgated thereunder. We sold 1,455,445 Units to purchase 1,455,445 shares of our common stock and warrants to purchase 218,328 additional shares of our common stock. Each Unit consisted of one share of common stock and a warrant to purchase 15% of one share of common stock. In addition, this prospectus includes 145,545 shares of our common stock which are issuable pursuant to the terms of outstanding warrants we issued to the placement agents and qualified finders in the private placement transactions. The warrants are immediately exercisable, expire on the third anniversary of their issuance and entitle their holders, in the aggregate, to purchase up to 363,873 shares of our common stock at an initial exercise price of \$3.45 per share. The original issuance of the shares of common stock and warrants was exempt from the registration requirements of the Securities Act. The closing of the first private placement took place on March 31, 2009 for an aggregate of 405,445 Units, and the closing of the second and third private placements, solely pursuant to Regulation S, took place on May 1, 2009 and May 20, 2009 for an aggregate of 520,000 and 530,000 Units respectively.

The selling shareholders may sell all, some or none of their shares in this offering. See “Plan of Distribution.”

The table below lists the selling shareholders and other information regarding the beneficial ownership of the shares of common stock by each of the selling shareholders. The second column lists the number and percentage of shares of common stock beneficially owned by each selling shareholder, based on its ownership of shares and warrants, as of May 28, 2009, assuming exercise of all of the warrants held by the selling shareholders on that date, without regard to any limitations on exercise. The third column lists the shares of common stock being offered by this prospectus by the selling shareholders. Each selling shareholder's percentage of ownership in the following table is based on 11,281,558 shares of common stock outstanding as of May 28, 2009.

(x) Anthony DiGiovanni Sr. has sole voting and dispositive power with respect to the shares of common stock that are beneficially owned by Seaboard Securities, Inc. Seaboard Securities, Inc. is a broker-dealer that received its warrants as compensation for placement agent services.

(xi) Hong Ju Wang has sole voting and dispositive power with respect to the shares of our common stock that are beneficially owned by Wolf Enterprises Limited.

PLAN OF DISTRIBUTION

The selling shareholders identified in this prospectus may offer and sell up to an aggregate of 1,841,058 shares of our common stock which we have issued to them, or which we may issue to them upon the exercise of certain warrants issued to them. The selling shareholders may sell all or a portion of their shares through public or private transactions at prevailing market prices or at privately negotiated prices.

All of the shares and warrants described above were previously issued in a private placement transaction completed prior to the filing of the registration statement of which this prospectus is a part.

The selling shareholders may sell all or a portion of the shares of common stock beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling shareholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions,

o On any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

o In the over-the-counter market;

o In transactions otherwise than on these exchanges or systems or in the over-the-counter market;

o Through the writing of options, whether such options are listed on an options exchange or otherwise;

o Ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

o Block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

- o Purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o An exchange distribution in accordance with the rules of the applicable exchange;
 - o Privately negotiated transactions;
 - o Short sales;
 - o Sales pursuant to Rule 144;

o Broker-dealers may agree with the selling securityholders to sell a specified number of such shares at a stipulated price per share;

- o A combination of any such methods of sale; and
- o Any other method permitted pursuant to applicable law.

If the selling shareholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling shareholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling shareholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling shareholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling shareholders may pledge or grant a security interest in some or all of the warrants or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus. The selling shareholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling shareholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be “underwriters” within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling shareholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling shareholder will sell any or all of the shares of common stock registered pursuant to the shelf registration statement of which this prospectus is a part.

The selling shareholders and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling shareholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We have agreed to pay all expenses of the registration of the shares of common stock including, without limitation, SEC filing fees and expenses of compliance with state securities or “blue sky” laws; provided, however, that a selling shareholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling

shareholders against liabilities, including some liabilities under the Securities Act, in accordance with our agreement to register the shares, or the selling shareholders will be entitled to contribution. We may be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling shareholder specifically for use in this prospectus, in accordance with the related registration rights agreements, or we may be entitled to contribution.

Once sold under the registration statement of which this prospectus is a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

DESCRIPTION OF SECURITIES

The following description of our securities and provisions of our articles of incorporation and bylaws is only a summary. You should refer to our articles of incorporation and bylaws, copies of which has been incorporated by reference as exhibits to the Form SB-2 we filed with the SEC on February 8, 2007. The following discussion is qualified in its entirety by reference to such exhibits.

Authorized Capital Stock

The total number of stock authorized that may be issued by us is 75,000,000 shares of common stock with a par value of \$0.001 per share. We have no other authorized class of stock.

Capital Stock Issued and Outstanding

As of May 28, 2009, 11,281,558 shares of common stock were issued and outstanding and held of record by 88 shareholders. An additional 363,873 shares are reserved for issuance upon the exercise of outstanding warrants. The warrants are immediately exercisable, expire on the third anniversary of their issuance and entitle their holders to purchase up to 363,873 shares of our common stock at an initial exercise price of \$3.45 per share.

Description of Common Stock

The holders of common stock are entitled to one vote per share. Our Articles of Incorporation does not provide for cumulative voting. The holders of common stock are entitled to receive ratably such dividends, if any, as may be declared by our board of directors out of legally available funds; however, the current policy of our board of directors is to retain earnings, if any, for operations and growth. Upon liquidation, dissolution or winding-up, the holders of common stock are entitled to share ratably in all assets that are legally available for distribution. The holders of common stock have no preemptive, subscription, redemption or conversion rights.

Market Information

Beginning on May 16, 2007, our shares of common stock were quoted on the OTC Bulletin Board on under the symbol "TGEV". No trades of our common stock occurred through the facilities of the OTC Bulletin Board until September 9, 2008. Our common stock became eligible for quotation on the OTC Bulletin Board on September 5, 2008 under the symbol of "DCPI" and on April 23, 2009 began trading under the symbol of "DCPD." Since September 9, 2008, our average daily trading volume has been less than 10,000 shares per day. As with most initial listings on the Nasdaq Stock Market, it will take time for a significant active trading market in our common stock to develop. There can be no assurance that a significant active trading market in our common stock will develop, or if such a market develops, that it will be sustained.

INTEREST OF NAMED EXPERTS

No expert or counsel named in this registration statement as having prepared or certified any part of this statement or having given an opinion upon the validity of the securities being registered or upon other legal matters in connection with the registration or offering of the common stock was employed on a contingency basis, or had, or will receive, in connection with the offering, a substantial interest, direct or indirect, in the registrant. Nor was any such person connected with the registrant as a promoter, managing or principal underwriter, voting trustee, director, officer, or employee.

The audited financial statements of Deer Consumer Products, Inc. and its subsidiaries as of December 31, 2008 and 2007 were audited by Goldman, Parks, Kurland, Mohidin LLP, an independent registered public accounting firm, to the extent set forth in its report and are included herein in reliance upon the authority of this firm as experts in accounting and auditing.

LEGAL MATTERS

The validity of our common stock offered hereby will be passed upon for us by Holland & Hart LLP.

CHANGE IN THE COMPANY'S INDEPENDENT ACCOUNTANT

On September 3, 2008, we dismissed Dale Matheson Carr Hilton Labonte LLP (“DMCHL”) as our independent accountant and engaged Goldman, Parks, Kurland, Mohidin, LLP (“GPKM”) as our new principal independent accountant. This decision was approved by the Board of Directors of the Company. DMCHL audited the Company’s financial statements from its July 18, 2006 (inception) through June 30, 2008. DMCHL had previously been engaged as the principal accountant to audit our financial statements. The reason for the dismissal of DMCHL is that, following the consummation of the Share Exchange on September 3, 2008, (i) the former stockholders of Deer International own a significant amount of the outstanding shares of our common stock and (ii) our primary business became the business previously conducted by Deer International’s subsidiaries. We believe that it was in our best interest to have GPKM to work with our business, and we therefore retained GPKM as our new principal independent registered accounting firm, effective as of September 3, 2008. GPKM is located at 16133 Ventura Blvd., Suite 880, Encino, CA 91436. The decision to change accountants was approved by our board of directors on September 3, 2008.

From our inception through June 30, 2008, there were no disagreements or reportable events with DMCHL on any matter of accounting principles, or practices, financial statement disclosure or auditing scope or procedure, which disagreements if not resolved to the satisfaction of DMCHL would have caused it to make reference to the matter in connection with its reports. DMCHL report on the Company’s financial statements for the fiscal year ended 2007 did not contain an adverse opinion or disclaimer of opinion, and was not modified as to uncertainty, audit scope, or accounting principles.

From our inception through September 3, 2008, we did not consult GPKM regarding either: (i) the application of accounting principles to a specific completed or contemplated transaction, or the type of audit opinion that might be rendered on our financial statements; or (ii) any matter that was the subject of a disagreement as described in Item 304(a)(1)(iv) of Regulation S-K.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

The Nevada Revised Statutes provide that a director or officer is not individually liable to the corporation or its shareholders or creditors for any damages as a result of any act or failure to act in his capacity as a director or officer unless it is proven that his act or failure to act constituted a breach of his fiduciary duties as a director or officer and his breach of those duties involved intentional misconduct, fraud or a knowing violation of law. The Articles of Incorporation or an amendment thereto may, however, provide for greater individual liability. Furthermore, directors may be jointly and severally liable for the payment of certain distributions in violation of Chapter 78 of the Nevada Revised Statutes.

This provision is intended to afford directors and officers protection against and to limit their potential liability for monetary damages resulting from suits alleging a breach of the duty of care by a director or officer. As a consequence of this provision, shareholders of our company will be unable to recover monetary damages against directors or officers for action taken by them that may constitute negligence or gross negligence in performance of their duties unless such conduct meets the requirements of Nevada law to impose such liability. The provision, however, does not alter the applicable standards governing a director’s or officer’s fiduciary duty and does not eliminate or limit the right of our company or any shareholder to obtain an injunction or any other type of non-monetary relief in the event of a breach of fiduciary duty.

The Nevada Revised Statutes also provide that under certain circumstances, a corporation may indemnify any person for amounts incurred in connection with a pending, threatened or completed action, suit or proceeding in which he is, or is threatened to be made, a party by reason of his being a director, officer, employee or agent of the corporation or serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, if such person (a) is not liable for a breach of fiduciary duty involving intentional misconduct, fraud or a knowing violation of law or such greater standard imposed by the corporation's articles of incorporation; or (b) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. Additionally, a corporation may indemnify a director, officer, employee or agent with respect to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor, if such person (a) is not liable for a breach of fiduciary duty involving intentional misconduct, fraud or a knowing violation of law or such greater standard imposed by the corporation's articles of incorporation; or (b) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, however, indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court to be liable to the corporation or for amounts paid in settlement to the corporation, unless the court determines that the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper. To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to above, or in defense of any claim, issue or matter therein, the corporation shall indemnify him against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

Our By-Laws provide, among other things, that a director or former director will be indemnified, and an officer or an employee or agent may be indemnified, against all expense, liability, and loss (including attorneys' fees, judgments, fines, taxes, penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered in connection with any threatened, pending, or completed action suit, or proceeding, in connection with his or her duties to the Company, whether civil, criminal, administrative incurred, or investigative provided that he or she either is not liable pursuant to Nevada Revised Statutes 78.138 (relating to liability of directors and officers to the corporation in certain instances) or acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation and, in the case of a criminal proceeding, had no reasonable cause to believe that his or her conduct was unlawful.

Insofar as indemnification for liabilities arising under the Securities Act, may be provided for directors, officers, employees, agents or persons controlling an issuer pursuant to the foregoing provisions, the opinion of the SEC is that such indemnification is against public policy as expressed in the Securities Act, and is therefore unenforceable.

INDEX TO FINANCIAL STATEMENTS

Unaudited Interim Financial Statements of Deer Consumer Products, Inc. and Subsidiaries included in this Prospectus are as follows:

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

Note 1 - Organization and Basis of Presentation

The unaudited consolidated financial statements have been prepared by Deer Consumer Products, Inc. pursuant to the rules and regulations of the Securities Exchange Commission ("SEC"). The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K. The results for the three months ended March 31, 2009 are not necessarily indicative of the results to be expected for the full year ending December 31, 2009.

Organization and Line of Business

Deer Consumer Products, Inc., formerly known as Tag Events Corp., (hereinafter referred to as the "Company" or "Deer") was incorporated in the State of Nevada on July 18, 2006.

On September 3, 2008, the Company entered into a share exchange agreement and plan of reorganization with Deer International Group Limited ("Deer International"), a company incorporated under the laws of British Virgin Islands ("BVI") on December 3, 2007 and acquired 100% of the shares of Winder Electrical Company, Ltd. ("Winder") on March 11, 2008. Winder has a 100% owned subsidiary, Delta International, Ltd., ("Delta"). Winder and Delta were formed and incorporated in the Guangdong Province of the PRC on July 20, 2001 and February 23, 2006, respectively.

Pursuant to the share exchange agreement, the Company acquired from Deer International 50,000 ordinary shares, consisting of all of its issued and outstanding capital stock, in exchange for the issuance of 7,847,853 shares of the Company's common stock. Concurrently with the closing of the transactions contemplated by the share exchange agreement and as a condition thereof, the Company entered into an agreement with Crescent Liu, its former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of the Company's common stock to the Company for cancellation. Mr. Liu was not compensated for the cancellation of his shares of the Company's common stock. Upon completion of the foregoing transactions, the Company had 9,826,113 shares of common stock issued and outstanding. In connection with the above transaction the Company changed its name to Deer Consumer Products, Inc. on September 3, 2008.

The exchange of shares with Deer International was accounted for as a reverse acquisition under the purchase method of accounting since Deer International obtained control of the Company. Accordingly, the merger of the Deer International into the Company was recorded as a recapitalization of Deer International, Deer International being treated as the continuing entity. The historical financial statements presented are the consolidated financial statements of Deer International. The share exchange agreement has been treated as a recapitalization and not as a business combination; therefore, no pro forma information is disclosed. At the date of this transaction, the net liabilities of the legal acquirer were \$0.

The Company is engaged in manufacture, marketing, distribution and sale of home and kitchen electric appliances (blenders, food processors, choppers, juicers, etc.). The Company manufactures its products out of YangJiang, China

and operates corporate functions in Nanshan, Shenzhen, China.

Stock Split

On April 24, 2009, the Company effected a 1 for 2.3 reverse stock split of its common stock. All share information for common shares was retroactively restated for this reverse stock split.

F-4

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, Deer International, and its 100% wholly-owned subsidiary Winder and Winder's wholly-owned subsidiary Delta. All significant inter-company accounts and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The Company's Chinese subsidiaries functional currency is the Chinese Yuan Renminbi (RMB); however the accompanying consolidated financial statements have been translated and presented in United States Dollars (\$).

Foreign Currency Translation

The accounts of the Company's Chinese subsidiaries are maintained in the Chinese Yuan Renminbi (RMB) and the accounts of the U.S. parent company are maintained in the U.S. Dollar (USD). The accounts of the Chinese subsidiaries were translated into USD in accordance with Statement of Financial Accounting Standards ("SFAS") No. 52, "Foreign Currency Translation," with the RMB as the functional currency for the Chinese subsidiaries. According to the Statement, all assets and liabilities were translated at the exchange rate on the balance sheet date, stockholders' equity are translated at the historical rates and statement of operations items are translated at the weighted average exchange rate for the period. The resulting translation adjustments are reported under other comprehensive income in accordance with SFAS No. 130, "Reporting Comprehensive Income".

Note 2 – Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Areas that require estimates and assumptions include valuation of accounts receivable and inventory, determination of useful lives of property and equipment, estimation of certain liabilities and sales returns.

Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and cash in time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less.

Restricted Cash

Restricted cash consists of monies restricted by the Company's lender and monies restricted under a letter of credit and a bank acceptance. As of March 31, 2009 and December 31, 2008, total restricted cash was \$145,107 (interest rate of 0.36%) and \$200,099 (interest rate of 0.36%), respectively.

Accounts Receivable

The Company maintains reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves. As of March 31, 2009, approximately 83% of our accounts receivable was from overseas customers. The Company maintains export insurance that covers losses arising from customers' rejection of its products, political risk, losses arising from business credit and other credit risks including bankruptcy, insolvency and delay in payment.

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

Investments

The Company purchased various stocks during 2007 and in 2008 the Company was required to purchase an equity fund for a bank loan requirement. The investments are trading securities that were bought and held principally for the purpose of selling them in the near term and are reported at fair value, with unrealized gains and losses included in earnings. All of these stocks were sold during the three months ended March 31, 2009.

Advances to Suppliers

The Company makes advances to certain vendors for purchase of its material. The advances to suppliers are interest free and unsecured.

Inventories

Inventories are valued at the lower of cost (determined on a weighted average basis) or market. The Company compares the cost of inventories with the market value and allowance is made for writing down the inventories to their market value, if lower.

Property & Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives as follows:

Buildings	5-20 years
Equipment	5-10 years
Vehicles	5 years
Office equipment	5-10 years

At March 31, 2009 and December 31, 2008, the following are the details of the property and equipment:

	2009	2008
Building	\$ 1,887,340	\$ 1,889,916
Equipment	14,222,457	14,232,539
Vehicle	34,687	34,735
Office Equipment	418,567	430,177
Total	16,563,051	16,587,367
Less accumulated depreciation	(5,636,711)	(5,296,165)
	\$ 10,926,340	\$ 11,291,202

Long-Lived Assets

The Company applies the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal. Based on its review, the Company believes that, as of March 31, 2009 there were no significant impairments of its long-lived assets.

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

Intangible Assets

Intangible assets consist of rights to use land and computer software. The Company evaluates intangible assets for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets is measured by comparing their net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss.

Net intangible assets at March 31, 2009 and December 31, 2008 are as follows:

	2009	2008
Right to use land	\$ 449,721	\$ 450,335
Computer software	76,801	76,906
Total	526,522	527,241
Less Accumulated amortization	(125,305)	(123,116)
Intangibles, net	\$ 401,217	\$ 404,125

Pursuant to the People's Republic of China's ("PRC") governmental regulations, the Government owns all land. The Company recognized the amounts paid for the acquisition of rights to use land as intangible asset. The Company amortizes rights over the period of the right, which ranges from 45 to 50 years and computer software is amortized over 1-2 years.

Fair Value of Financial Instruments

SFAS No. 107, Disclosures about fair value of financial instruments, requires the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statements of financial position for current assets and current liabilities qualifying as financial instruments are a reasonable estimate of fair value.

On January 1, 2008, the Company adopted SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosures requirements for fair value measures. The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels are defined as follow:

- o Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

- o

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

- o Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

As of March 31, 2009, the Company did not identify any assets and liabilities that are required to be presented on the balance sheet at fair value.

Concentration of Credit Risk

Cash includes cash on hand and demand deposits in accounts maintained within China. Certain financial instruments, which subject the Company to concentration of credit risk, consist of cash. Balances at financial institutions within China are not covered by insurance. The Company has not experienced any losses in such accounts.

Revenue Recognition

The Company's revenue recognition policies are in compliance with SEC Staff Accounting Bulletin (SAB) 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

Unearned Revenue

The Company has recorded payments for goods before all relevant criteria for revenue recognition are satisfied under unearned revenue.

Advertising Costs

The Company expenses the cost of advertising as incurred or, as appropriate, the first time the advertising takes place. Advertising costs for the three months ended March 31, 2009 and 2008 was \$5,025 and \$25,204, respectively.

Income Taxes

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being

realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Interest associated with unrecognized tax benefits are classified as interest expense and penalties are classified in selling, general and administrative expenses in the statements of income.

Deer Consumer Products, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2009 and 2008
(unaudited)

Foreign Currency Transactions and Comprehensive Income

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as gain or loss on foreign currency translation, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income. The functional currency of the Company's Chinese subsidiaries is Chinese Renminbi. Translation gains of \$2,325,366 and \$2,345,698 at March 31, 2009 and December 31, 2008, respectively, are classified as an item of other comprehensive income in the stockholders' equity section of the consolidated balance sheet. During the three months ended March 31, 2009 and 2008, other comprehensive income in the consolidated statements of income and other comprehensive income included translation gains (loss) of \$(20,332) and \$578,950, respectively.

Currency Hedging

The Company has entered into a forward exchange agreement with the Bank of China, whereby the Company agreed to sell US dollars to the Bank of China at a certain contractual rates. Since the contractual rate at which the Company sells US dollars to the Bank of China was greater than the exchange rate on the date of each exchange transaction, the Company recognized foreign exchange gains (losses) of \$(70,506) and \$71,607 for the three months ended March 31, 2009 and 2008, respectively. At March 31, 2009, the Company has outstanding forward exchange contracts to sell \$5,062,374 at exchange rates ranging from RMB 7.1772 to RMB 7.406. The fair value of the contracts was approximately \$13,000.

Basic and Diluted Earnings Per Share

Earnings per share is calculated in accordance with SFAS No. 128, "Earnings Per Share". SFAS No. 128 superseded Accounting Principles Board Opinion No.15 (APB 15). Net earnings per share for all periods presented has been restated to reflect the adoption of SFAS No. 128. Basic earnings per share is based upon the weighted average number of common shares outstanding. Diluted earnings per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

The following is a reconciliation of the number of shares (denominator) used in the basic and diluted earnings per share computations for the three months ended March 31, 2008 and 2008:

	2009		2008	
	Shares	Per Share Amount	Shares	Per Share Amount
Basic earnings per share	9,999,478	\$ 0.07	7,847,853	\$ 0.10
Effect of dilutive stock options	5,539	-	-	-
Diluted earnings per share	10,005,017	\$ 0.07	7,847,853	\$ 0.10

Statement of Cash Flows

In accordance with SFAS No. 95, "Statement of Cash Flows," cash flows from the Company's operations are calculated based upon the local currencies. As a result, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheet.

Registration Rights Agreement

The Company accounts for payment arrangements under registration rights agreement in accordance with FASB Staff Position EITF 00-19-2, which requires that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, be separately recognized and measured in accordance with SFAS No. 5, Accounting for Contingencies.

(unaudited)

Recent Pronouncements

In April 2009, the FASB issued FSP No. FAS 157-4, “Determining Fair Values When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly.” This FSP provides guidance on (1) estimating the fair value of an asset or liability when the volume and level of activity for the asset or liability have significantly declined and (2) identifying transactions that are not orderly. The FSP also amends certain disclosure provisions of SFAS No. 157 to require, among other things, disclosures in interim periods of the inputs and valuation techniques used to measure fair value. This pronouncement is effective prospectively beginning April 1, 2009. The Company is currently evaluating the impact of this standard, but would not expect it to have a material impact on the Company’s consolidated results of operations or financial condition.

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, “Recognition and Presentation of Other-Than-Temporary Impairments” (FSP 115-2). This FSP modifies the requirements for recognizing other-than-temporarily impaired debt securities and changes the existing impairment model for such securities. The FSP also requires additional disclosures for both annual and interim periods with respect to both debt and equity securities. Under the FSP, impairment of debt securities will be considered other-than-temporary if an entity (1) intends to sell the security, (2) more likely than not will be required to sell the security before recovering its cost, or (3) does not expect to recover the security’s entire amortized cost basis (even if the entity does not intend to sell). The FSP further indicates that, depending on which of the above factor(s) causes the impairment to be considered other-than-temporary, (1) the entire shortfall of the security’s fair value versus its amortized cost basis or (2) only the credit loss portion would be recognized in earnings while the remaining shortfall (if any) would be recorded in other comprehensive income. FSP 115-2 requires entities to initially apply the provisions of the standard to previously other-than-temporarily impaired debt securities existing as of the date of initial adoption by making a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The cumulative-effect adjustment potentially reclassifies the noncredit portion of a previously other-than-temporarily impaired debt security held as of the date of initial adoption from retained earnings to accumulated other comprehensive income. This pronouncement is effective April 1, 2009. The Company does not believe this standard will have a material impact on the Company’s consolidated results of operations or financial condition.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, “Interim Disclosures about Fair Value of Financial Instruments.” This FSP essentially expands the disclosure about fair value of financial instruments that were previously required only annually to also be required for interim period reporting. In addition, the FSP requires certain additional disclosures regarding the methods and significant assumptions used to estimate the fair value of financial instruments. These additional disclosures will be required beginning with the quarter ending June 30, 2009. The Company is currently evaluating the requirements of these additional disclosures.

Note 3 – Inventory

Inventory as of March 31, 2009 and December 31, 2008 consisted of the following:

	2009	2008
Raw material	\$ 3,485,785	\$ 3,960,022
Work in process	1,265,321	1,326,719

Edgar Filing: Deer Consumer Products, Inc. - Form 424B3

Finished goods	982,702	2,394,110
Total	\$ 5,733,808	\$ 7,680,851

Note 4 – Short Term Loans

Short term loans at March 31, 2009 and December 31, 2008 are follows:

	2009	2008
Short term bank loans with the Bank of China. As of December 31, 2008, the term of the loan was 5 months, with interest of 5.990%. The loans are collateralized by buildings and land use rights.	\$ -	487,544
Short term loans with Agricultural Bank of China. This loan due on June 20, 2009 and accrues interest of 8.21%. The loan is collateralized by equipment.	2,783,500	3,065,297
	\$ 2,783,500	\$ 3,552,841

Note 5 – Notes Payable

Notes payable at March 31, 2009 and December 31, 2008 consist of multiple banker's acceptance notes from the Bank of China. The terms of the notes range from 0-3 months, with no interest rate on the notes. The Company deposits 10% of the notes' par value with the bank, refundable when the notes paid. Notes payable at March 31, 2009 and December 31, 2008 amounted to \$4,569,809 and \$3,155,348, respectively.

Note 6 – Long-Term Loan

On November 14, 2008, the Company entered into a long-term loan agreement with an unrelated party. The loan was for \$732,500 at 8.10%, due on October 20, 2010 and secured by certain fixed assets of the Company.

Note 7 – Stockholders' Equity

Common Stock

On March 31, 2009, the Company completed a closing of a private placement offering of Units (as defined below) pursuant to which the Company sold 405,445 Units at \$1.84 per Unit for gross proceeds of \$746,000. Each "Unit" consists of one share of the Company's common stock and a three year warrant to purchase 15% of one share of common stock at \$3.45 per share. The total warrants issued to investors were 60,828. The Company also issued warrants to purchase 40,545 shares of common stock to the placement agents. The Company also issued a Registration Rights Agreement requires that the Company file a registration statement covering shares of common stock issued and the shares issuable upon exercise of the warrants. The Company is required to file the registration statement with the SEC within 60 days of the closing of the offering. The registration statement must be declared effective by the SEC within 180 days of the final closing of the offering. Subject to certain grace periods, the registration statement must remain effective and available for use until the purchasers can sell all of the securities covered by the registration statement without restriction pursuant to Rule 144. If the Company fails to meet the filing or effectiveness requirements of the registration statement, it is required to pay liquidated damages of 1% of the

aggregate purchase price paid by such purchaser for any registerable securities then held by such purchaser on the date of such failure and on each anniversary of the date of such failure until such failure is cured. As of May 15, 2009, the registration statement has not been filed.

Warrants

Following is a summary of the warrant activity:

	Options outstanding	Weighted Average Exercise Price	Weighted average remaining contractual life	Aggregate Intrinsic Value
Outstanding, December 31, 2008	-	-		\$ -
Granted	101,373	\$ 3.45		
Forfeited	-	-		
Exercised	-	-		
Outstanding, March 31, 2009	101,373	\$ 3.45	2.89	\$ 50,680
Exercisable, March 31, 2009	101,373	\$ 3.45	2.89	\$ 50,680

The exercise price for all the warrants outstanding at March 31, 2009 is \$3.45.

Note 8 - Employee Welfare Plan

The total expense for the employee common welfare was \$4,536 and \$37,560 for the three months ended March 31, 2009 and 2008, respectively. The Chinese government abolished the 14% welfare plan policy at the beginning of 2007. The Company is not required to establish welfare and common welfare reserves.

Note 9 - Statutory Reserve and Development Fund

As stipulated by the Company Law of the PRC, net income after taxation can only be distributed as dividends after appropriation has been made for the following:

- i. Making up cumulative prior years' losses, if any;
- ii. Allocations to the "Statutory surplus reserve" of at least 10% of income after tax, as determined under PRC accounting rules and regulations, until the fund amounts to 50% of the Company's registered capital;
- iii. Allocations of 5-10% of income after tax, as determined under PRC accounting rules and regulations, to the Company's "Statutory common welfare fund" ("SCWF"), which is established for the purpose of providing employee facilities and other collective benefits to the Company's employees; and
- iv. Allocations to the discretionary surplus reserve, if approved in the stockholders' general meeting. The Company allocates 5% of income after tax as development fund. The fund is for enlarging its business and increasing capital.

Pursuant to the new Corporate Law effective on January 1, 2006, there is now only one "Statutory surplus reserve" requirement. The reserve is 10 percent of income after tax, not to exceed 50 percent of registered capital.

The Company appropriated \$78,635 and \$93,410, and \$39,317 and \$46,705 as reserve for the statutory surplus reserve and development fund for the three months ended March 31, 2009 and 2008, respectively.

Note 10 - Related Party Transactions

There were no related party transactions during the three months ended March 31, 2009. As of March 31, 2009, the entity previously reported as a related party was no longer considered to be related party due to ownership changes within that entity.

Note 11 – Subsequent Event

On May 1, 2009, the Company completed a private placement offering of 520,000 Units at \$1.84 per Unit for gross proceeds of \$956,800 to two non-US investors. Each Unit consisted of one share of the Company's common stock and a three year warrant to purchase 15% of one share of common stock, or an aggregate of 78,000 shares of common stock, at a \$3.45 per share. The investors received registration rights identical to that described in Note 7.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders of
Deer Consumer Products, Inc.

We have audited the accompanying consolidated balance sheets of Deer Consumer Products, Inc. and Subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of income and other comprehensive income, stockholders' equity, and cash flows for the years ended December 31, 2008 and 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Deer Consumer Products, Inc. and subsidiaries as of December 31, 2008 and 2007 and the consolidated results of their operations and their consolidated cash flows for the years ended December 31, 2008 and 2007, in conformity with U.S. generally accepted accounting principles.

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Note 1 - Organization and Basis of Presentation

Organization and Line of Business

Deer Consumer Products, Inc., formerly known as Tag Events Corp., (hereinafter referred to as the “Company” or “Deer”) was incorporated in the State of Nevada on July 18, 2006.

On September 3, 2008, the Company entered into a share exchange agreement and plan of reorganization with Deer International Group Limited (“Deer International”), a company incorporated under the laws of British Virgin Islands (“BVI”) on December 3, 2007 and acquired 100% of the shares of Winder Electrical Company, Ltd. (“Winder”) on March 11, 2008. Winder has a 100% owned subsidiary, Delta International, Ltd., (“Delta”). Winder and Delta were formed and incorporated in the Guangdong Province of the PRC on July 20, 2001 and February 23, 2006, respectively.

Pursuant to the share exchange agreement, the Company acquired from Deer International 50,000 ordinary shares, consisting of all of its issued and outstanding capital stock, in exchange for the issuance of an aggregate of 7,847,853 shares of the Company’s common stock. Concurrently with the closing of the transactions contemplated by the share exchange agreement and as a condition thereof, the Company entered into an agreement with Crescent Liu, its former Director and Chief Executive Officer, pursuant to which he returned 2,586,957 shares of the Company’s common stock to the Company for cancellation. Mr. Liu was not compensated in any way for the cancellation of his shares of the Company’s common stock. Upon completion of the foregoing transactions, the Company had an aggregate of 9,826,113 shares of common stock issued and outstanding. In connection with the above transaction the Company changed its name to Deer Consumer Products, Inc. on September 3, 2008.

The exchange of shares with Deer International was accounted for as a reverse acquisition under the purchase method of accounting since Deer International obtained control of the Company. Accordingly, the merger of the Deer International into the Company was recorded as a recapitalization of Deer International, Deer International being treated as the continuing entity. The historical financial statements presented are the consolidated financial statements of Deer International. The share exchange agreement has been treated as a recapitalization and not as a business combination; therefore, no pro forma information is disclosed. At the date of this transaction, the net liabilities of the legal acquirer were \$0.

As a result of the reverse merger transactions described above the historical financial statements presented are those of Deer International and its operating entities.

The Company is engaged in manufacture, marketing, distribution and sale of household appliances (blenders, food processors, choppers, juicers, etc.). The Company manufactures its products out of YangJiang, China and operates corporate functions in Nanshan, Shenzhen, China.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Deer International, and its 100% wholly-owned subsidiary Winder and Winder’s wholly-owned subsidiary Delta. All significant inter-company accounts and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The Company's functional currency is the Chinese Yuan Renminbi (RMB); however the accompanying consolidated financial statements have been translated and presented in United States Dollars (\$).

Foreign Currency Translation

The accounts of the Company were maintained, and their consolidated financial statements were expressed in the Chinese Yuan Renminbi (RMB). Such consolidated financial statements were translated into U.S. Dollars (USD) in accordance with Statement of Financial Accounting Standards ("SFAS") No. 52, "Foreign Currency Translation," with the RMB as the functional currency. According to the Statement, all assets and liabilities were translated at the exchange rate on the balance sheet date, stockholder's equity are translated at the historical rates and statement of operations items are translated at the weighted average exchange rate for the year. The resulting translation adjustments are reported under other comprehensive income in accordance with SFAS No. 130, "Reporting Comprehensive Income".

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Note 2 - Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates upon which the carrying values were based.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash in time deposits and all highly liquid investments with original maturities of three months or less.

Restricted Cash

Restricted cash consists of monies restricted by the Company's lender and monies restricted under a letter of credit and a bank acceptance. As of December 31, 2008 and 2007, total restricted cash amounted to \$200,099 (interest rate of 0.36% per annum) and \$450,385 (interest rate of 0.72% per annum), respectively.

Accounts Receivable

The Company maintains reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves.

Investments

The Company purchased various stocks during 2007 and in 2008 the Company was required to purchase an equity fund for a bank loan requirement. The investments are trading securities that were bought and held principally for the purpose of selling them in the near term and are reported at fair value, with unrealized gains and losses included in earnings.

Advances to Suppliers

The Company makes advances to certain vendors for purchase of its material. The advances to suppliers are interest free and unsecured.

Inventories

Inventories are valued at the lower of cost (determined on a weighted average basis) or market. The Company compares the cost of inventories with the market value and allowance is made for writing down the inventories to their market value, if lower.

Property & Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives as follows:

F-19

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Buildings	5-20 years
Equipment	5-10 years
Vehicles	5 years
Office equipment	5-10 years

At December 31, 2008 and 2007, the following are the details of the property and equipment:

	2008	2007
Building	\$ 1,889,916	\$ 1,552,881
Equipment	14,232,539	10,597,224
Vehicle	34,735	91,873
Office Equipment	430,177	320,867
Total	16,587,367	12,562,845
Less accumulated depreciation	(5,296,165)	(3,986,743)
	\$ 11,291,202	\$ 8,576,102

Depreciation expense for the years ended December 31, 2008 and 2007 was \$1,199,578 and \$795,531, respectively.

Long-Lived Assets

The Company applies the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal. Based on its review, the Company believes that, as of September 30, 2008 there were no significant impairments of its long-lived assets.

Intangible Assets

Intangible assets consist of rights to use land and computer software. The Company evaluates intangible assets for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets is measured by comparing their net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss.

Net intangible assets at December 31, 2008 and 2007 are as follows:

	2008	2007
Right to use land	\$ 450,335	\$ 420,828
Computer software	76,906	8,822
Total	527,241	492,650
Less accumulated amortization	(123,116)	(42,109)
Intangibles, net	\$ 404,125	\$ 387,541

F-20

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Per the People's Republic of China's ("PRC") governmental regulations, the Government owns all land. The Company has recognized the amounts paid for the acquisition of rights to use land as an intangible asset. The Company is amortizing over the period the Company has use of the land which range from 45 to 50 years and computer software is amortized over 1-2 years.

Amortization expense for the years ended December 31, 2008 and 2007 was \$18,723 and \$18,509, respectively.

Fair Value of Financial Instruments

Certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities and short-term debt, carrying amounts approximate fair value due to their short maturities. In addition, the Company has long-term debt with financial institutions. The carrying amount of the long-term loan approximate their fair value based on current rates for instruments with similar characteristics.

On January 1, 2008, the Company adopted SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosures requirements for fair value measures. The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels are defined as follow:

- o Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- o Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- o Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As of December 31, 2008, the Company did not identify any assets and liabilities that are required to be presented on the balance sheet at fair value.

Concentration of Credit Risk

Cash includes cash on hand and demand deposits in accounts maintained within China. Certain financial instruments, which subject the Company to concentration of credit risk, consist of cash. Balances at financial institutions within China are not covered by insurance. The Company has not experienced any losses in such accounts as of December 31, 2008 and 2007.

Revenue Recognition

The Company's revenue recognition policies are in accordance with the Securities and Exchange Commission ("SEC") Staff Accounting Bulletin (SAB) No. 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant

obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

F-21

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Unearned Revenue

The Company has recorded payments for goods before all relevant criteria for revenue recognition are satisfied under unearned revenue.

Advertising Costs

The Company expenses the cost of advertising as incurred or, as appropriate, the first time the advertising takes place. Advertising costs for the years ended December 31, 2008 and 2007 was \$111,634 and \$31,821, respectively.

Income Taxes

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, on January 1, 2007. As a result of the implementation of FIN 48, the Company made a comprehensive review of its portfolio of tax positions in accordance with recognition standards established by FIN 48. As a result of the implementation of Interpretation 48, the Company recognized no material adjustments to liabilities or stockholders' equity. When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Interest associated with unrecognized tax benefits are classified as interest expense and penalties are classified in selling, general and administrative expenses in the statements of income. The adoption of FIN 48 did not have a material impact on the Company's financial statements.

Foreign Currency Transactions and Comprehensive Income

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as gain or loss on foreign currency translation, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income. The functional currency of the Company is Chinese Renminbi. The unit of Renminbi is in Yuan. Translation gains of \$2,345,697 and \$1,303,732 at December 31, 2008

and 2007, respectively, are classified as an item of other comprehensive income in the stockholders' equity section of the consolidated balance sheet. During the years ended December 31, 2008 and 2007, other comprehensive income in the consolidated statements of income and other comprehensive income included translation gains of \$1,041,965 and \$822,146, respectively.

Currency Hedging

The Company has entered into a forward exchange agreement with the Bank of China, whereby the Company has agreed to sell US dollars to the Bank of China at a certain contractual rates. Since the contractual rate at which the Company sells US dollars to the Bank of China was greater than the exchange rate on the date of each exchange transaction, the Company has recognized foreign exchange gains of \$959,943 and \$90,707 for the year ended December 31, 2008 and 2007, respectively.

F-22

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

At December 31, 2008, the Company has outstanding forward exchange contracts to sell \$ 8,110,770 at exchange rates ranging from RMB 7.1772 to RMB 7.406. The fair value of the contracts was approximately \$13,000.

Basic and Diluted Earnings Per Share

Earnings per share is calculated in accordance with SFAS No. 128, "Earnings Per Share". SFAS No. 128 superseded Accounting Principles Board Opinion No.15 (APB 15). Net earnings per share for all periods presented has been restated to reflect the adoption of SFAS No. 128. Basic earnings per share is based upon the weighted average number of common shares outstanding. Diluted earnings per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. There were no options, warrants or dilutive securities outstanding as of December 31, 2008 and 2007.

Statement of Cash Flows

In accordance with SFAS No. 95, "Statement of Cash Flows," cash flows from the Company's operations are calculated based upon the local currencies. As a result, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheet.

Recent Pronouncements

In February 2007, the Financial Accounting Standards Board ("FASB") issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". SFAS 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS 159 did not have a material impact on the Company's financial position and results of its operations.

In June 2007, the FASB issued FASB Staff Position No. EITF 07-3, "Accounting for Nonrefundable Advance Payments for Goods or Services Received for use in Future Research and Development Activities" ("FSP EITF 07-3"), which addresses whether nonrefundable advance payments for goods or services that used or rendered for research and development activities should be expensed when the advance payment is made or when the research and development activity has been performed. The Task Force reached a consensus that nonrefundable advance payments for goods or services that will be used or rendered for future research and development activities should be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered or the related services are performed. Entities should continue to evaluate whether they expect the goods to be delivered or services to be rendered. If an entity does not expect the goods to be delivered or services to be rendered, the capitalized advance payment should be charged to expense. Management does not believe this pronouncement will have an impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), "Business Combinations." SFAS No. 141R which changes how a reporting enterprise accounts for the acquisition of a business. SFAS No. 141R requires an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value,

with limited exceptions, and applies to a wider range of transactions or events. SFAS No. 141R is effective for fiscal years beginning on or after December 15, 2008 and early adoption and retrospective application is prohibited. This pronouncement will likely have a material impact on business acquisitions made after January 1, 2009.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements", which is an amendment of Accounting Research Bulletin ("ARB") No. 51. SFAS 160 clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS 160 changes the way the consolidated income statement is presented, thus requiring consolidated net income to be reported at amounts that include the amounts attributable to both parent and the noncontrolling interest. SFAS 160 is effective for the fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Based on current conditions, the Company does not expect the adoption of SFAS 160 to have a significant impact on its results of operations or financial position.

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133." SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. The Company has not evaluated the impact that SFAS 161 may have on its results of operations or financial position.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS 162 will not have an impact on the Company's financial statements.

In May 2008, the FASB issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts, an interpretation of FASB Statement No. 60." The scope of SFAS 163 is limited to financial guarantee insurance (and reinsurance) contracts, as described in this Statement, issued by enterprises included within the scope of Statement 60. Accordingly, SFAS 163 does not apply to financial guarantee contracts issued by enterprises excluded from the scope of Statement 60 or to some insurance contracts that seem similar to financial guarantee insurance contracts issued by insurance enterprises (such as mortgage guaranty insurance or credit insurance on trade receivables). SFAS 163 also does not apply to financial guarantee insurance contracts that are derivative instruments included within the scope of FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 163 will not have an impact on the Company's financial statements.

Note 3 - Inventories

Inventories as of December 31, 2008 and 2007 consisted of the following:

	2008	2007
Raw material	\$ 3,960,022	\$ 2,817,203
Work in process	1,326,719	189,190
Finished goods	2,394,110	1,146,911
Total	\$ 7,680,851	\$ 4,153,304

Note 4 - Short Term Loans

Short term loans at December 31, 2008 and 2007 are as follows:

	2008	2007
Short term bank loans with the Bank of China. As of December 31, 2008, the term of the loan was 5 months, with an interest of 5.990%. As of December 31, 2007 the term of the loan was 5 months, with an interest rate of 6.820% (per annum). The loans are collateralized by buildings and land use rights.	\$ 487,544	98,231

Short term loans with Industrial and Commercial Bank. As of December 31, 2007 the term of the loan was 3 months, with an interest rate of 6.820% (per annum). The loan was collateralized by buildings land use rights and equipment. — 685,440

Short term loans with ABN-AMRO China, Shenzhen Branch. As of December 31, 2007, the term of the loan was 2.5 months, with and an interest rate of 7.350% (per annum). The loan was collateralized by a cash deposit. — 907,760

Short term loans with Agricultural Bank of China. As of December 31, 2008, the term of the loan was 12 months, with an interest of 7.950%. The loan is collateralized by equipment. 3,065,297
 \$ 3,552,841 \$ 1,691,431

DEER CONSUMER PRODUCTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008 AND 2007

Interest expense on short term loans was \$310,762 and \$113,356 for years ended December 31, 2008 and 2007, respectively.

Note 5 - Notes Payable

Notes payable at December 31, 2008 and 2007 consist of multiple banker's acceptance notes from Bank of China payable to the Company's vendors. The terms of the notes range from 0-3 months, with no interest rate on the notes. The Company deposits 10% of the notes' par value with the bank, refundable when the notes paid. Notes payable at December 31, 2008 and 2007 amounted to \$3,155,348 and \$3,160,059, respectively.

Note 6 – Long-Term Loan

On November 14, 2008, the Company entered into a long-term loan agreement with an unrelated party. The loan was for \$733,500 at 8.10%, due on October 20, 2010 and secured by certain fixed assets of the Company.

Note 7 – Stockholders' Equity

On November 30, 2007, the Company decided to increase its paid-in capital by \$2,923,688 through a board meeting. The new capital was from retained earnings distributable to the shareholder.

On December 20, 2008, 50HZ, a related party, owned by two shareholders of Deer International transferred an intangible asset (a patent) to the Company as a settlement of a related party receivable. The asset's historical costs could not be corroborated with supporting documentation and was recorded at a zero costs basis by the Company. The settlement of the related party receivable of \$ 3,314,979 through the transfer of the intangible asset with zero cost basis is considered a deemed dividend of \$3,314,979 to the majority shareholders of the Company as they own 100% of 50HZ.

Note 8 - Employee Common Welfare

The total expense for the employee common welfare was \$59,147 and \$2,316 for the years ended December 31, 2008 and 2007, respectively. The Chinese government abolished the 14% welfare plan policy at the beginning of 2007. The Company is not required to establish welfare and common welfare reserves.

Note 9 - Statutory Reserve and Development Fund

As stipulated by the Company Law of the PRC, net income after taxation can only be distributed as dividends after appropriation has been made for the following:

- i. Making up cumulative prior years' losses, if any;
- ii. Allocations to the "Statutory surplus reserve" of at least 10% of income after tax, as determined under PRC accounting rules and regulations, until the fund amounts to 50% of the Company's registered capital;
- iii. Allocations of 5-10% of income after tax, as determined under PRC accounting rules and regulations, to the Company's "Statutory common welfare fund" ("SCWF"), which is established for the purpose of providing employee

facilities and other collective benefits to the Company's employees; and

iv. Allocations to the discretionary surplus reserve, if approved in the stockholders' general meeting. The Company allocates 5% of income after tax as development fund. The fund is for enlarging its business and increasing capital.

Pursuant to the new Corporate Law effective on January 1, 2006, there is now only one "Statutory surplus reserve" requirement. The reserve is 10% of income after tax, not to exceed 50% of registered capital.

The Company has appropriated \$398,939 and \$199,469, and \$348,822 and \$174,411 as reserve for the statutory surplus reserve and development fund for the years ended December 31, 2008 and 2007, respectively.

Note 10 - Related Party Transactions

Due from shareholder amounted to \$0 and \$1,383,124 as of December 31, 2008 and 2007, respectively. Due from related party amounted to \$331,267 and \$0 as of December 31, 2008 and 2007, respectively. The Company collects a portion of its sales through a collection company controlled through a former shareholder and current related party. Due from shareholder and related party represents account receivables from that company. The above parties are considered related parties through common ownership of the Company's CEO.

Due to shareholder amounted to \$0 and \$756,458 as of December 31, 2008 and 2007, respectively. Due to shareholder is non-interest bearing and are payable or receivable on demand.

Advance to shareholder amounted to \$0 and \$509,139 as of December 31, 2008 and 2007, respectively. Advances to related party amounted to \$274,805 and \$0 as of December 31, 2008 and 2007, respectively. Advances to shareholder and related party are non interest bearing and are payable or receivable on demand.

Purchases from shareholders amounted to \$0 and \$726,744 for years ended December 31, 2008 and 2007, respectively.

Note 11 - Taxes

Local PRC Income Tax

Pursuant to the tax laws of China, general enterprises are subject to income tax at an effective rate of 25% and 33% for the years ended December 31, 2008 and 2007, respectively.

A reconciliation of tax at United States federal statutory rate to provision for income tax recorded in the financial statements for years ended December 31, 2008 and 2007 are as follows:

	2008	2007
Tax provision at statutory rate	34%	34%
Foreign tax rate difference	(9)%	(1)%
Current operation losses not utilized	3%	-
Effect of tax holiday	-	(18)%
	28%	15%

The Company operates in a privileged economic zone which entitles them to certain tax benefits (tax holiday) as follows:

o Winder Electric - Exempt from provincial tax and 100% exemption from federal tax from January 1, 2002 to December 31, 2003 and 50% exemption from federal tax from January 1, 2004 to December 31, 2006.

If the Company had not been exempt from paying income taxes due to operating in a privileged economic zone, net income for year ended December 31, 2007 would have been lower by approximately \$717,000 and earnings per share would have been \$0.15. In 2008, the Company did not receive favorable tax treatment.

Note 12 – Geographical Sales

Geographical distribution of sales is as follows:

Geographical Areas	Years Ended December 31,	
	2008	2007
North America	\$ 14,899,350	\$ 12,861,388
Europe	7,842,437	5,885,907
South America	6,294,899	4,962,848
Middle East	6,921,928	3,914,135
Asia	5,532,985	2,357,150
China	2,048,297	3,462,861
Africa	245,039	31,970
	\$ 43,784,935	\$ 33,476,259

Note 13 – Subsequent Event

On February 6, 2009, the Company received \$508,500 from the placement of units of its securities consisting of shares of common stock, par value \$.001 per share, and stock purchase warrants (15% warrant coverage) in a private placement exempt from registration under the Securities Act, and that the private placement will be extended through March 31, 2009. It is intended that the proceeds of the private placement will be used primarily for working capital. A total of 625,000 units, each unit representing one share of the Company's common stock and a three year common stock purchase warrant in the amount of 15% of the units purchased, were sold through the end of business February 6, 2009. Each unit is priced at \$.80 with \$508,500 in total having been received. Fees of (i) 9% of the securities placed payable in cash, and (ii) a number of common stock purchase warrants equal to 10% of the number of units placed were paid to participating selected dealers. The stock purchase warrants have a term of three years and are exercisable for one share of common stock at an initial exercise price of \$1.50. The securities offered in the private placement have not been registered under the Securities Act, or any state securities laws, and unless so registered, may not be sold in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.
