UNIVERSAL SECURITY INSTRUMENTS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Statement of Management

The consolidated financial statements include the accounts of Universal Security Instruments, Inc. (USI or the Company) and its majority owned subsidiaries. Significant inter-company accounts and transactions have been eliminated in consolidation. In the opinion of the Company's management, the interim consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. The interim consolidated financial statements should be read in conjunction with the Company's March 31, 2009 audited financial statements filed with the Securities and Exchange Commission on Form 10-K. The interim operating results are not necessarily indicative of the operating results for the full fiscal year.

Discontinued Operations

As discussed in prior periods, on February 11, 2008, the assets of International Conduits, Ltd. (Icon), a Canadian corporation in which we owned a two-thirds interest, were placed under the direction of a court appointed receiver, and the operations of Icon were suspended. Accordingly, the assets and liabilities of Icon are not consolidated in the financial statements of the Company and are classified as assets held in receivership. Our consolidated financial statements and the related note disclosures reflect the operations of Icon as discontinued operations for all periods presented.

The receivership has been completed as of September 22, 2008 and there are no remaining assets or liabilities of Icon.

Income Taxes

A provision for federal and state income tax expense on continuing operations of \$234,654 and \$410,437 has been provided for the nine month periods ended December 31, 2009 and 2008, respectively. The lower effective rate in the current period was a result of a higher permanent difference related to unrealized equity method earnings of the Joint Venture in excess of realized equity method of earnings of the Joint Venture, partially offset by a reduction in income before equity in earnings of the Joint Venture.

As of December 31, 2009, the Company has recorded in other long term liabilities, an amount for uncertain tax positions of \$97,469, including imputed interest. The Company treats interest and penalties related to uncertain tax liabilities as income tax expense.

Joint Venture

The Company and its co-venturer, a Hong Kong corporation, each owns a 50% interest in a Hong Kong joint venture, Eyston Company Limited (the "Joint Venture"), that has manufacturing facilities in the People's Republic of China, for the manufacturing of security products. The following represents summarized balance sheet and income statement information of the Joint Venture as of and for the nine months ended December 31, 2009 and 2008:

	2009	2008
Net sales	\$ 22,592,798	\$ 29,270,914
Gross profit	7,235,461	7,925,541

Net income	3,737,826	3,592,801
Total current assets	17,560,768	17,594,219
Total assets	31,323,068	28,312,610
Total current liabilities	5,389,052	5,900,157

During the nine months ended December 31, 2009 and 2008, respectively, the Company purchased \$11,855,816 and \$18,787,069 of products from the Joint Venture. For the nine month period ended December 31, 2009, the Company has adjusted its earnings of the Joint Venture to reflect an addition of \$398,801 to inter-Company profit in inventory and a decrease of \$471,840 for the comparable period in the prior year.

Included in the operations of the three months ended December 31, 2009 is a net charge of approximately \$142,819 for social insurance related to employment expense incurred at the Fujian factory site in the Peoples Republic of China. Approximately \$105,000 of this amount is related to prior periods (approximately \$64,000 relates to the fiscal 2009 filing and approximately \$18,000 related to each of the first two quarters of fiscal 2010). Due to the limited number of employees at the Fujian factory site in prior periods, the accrual of social insurance expense was deemed immaterial. With increased employment at this site, the Hong Kong Joint Venture began accruing for social insurance in the three month period ending December 31, 2009.

The Company evaluated the accrual of these amounts based on the expected operating results for the year ending March 31, 2010 and based on historical operating results for the year ended March 31, 2009 in accordance with FASB Accounting Standards Codification™ (ASC) 275, Interim Reporting and ASC 250-10-555-1, Materiality. Management's evaluation indicated that the correction represents a 29.9% impact on net income for the three months ended December 31, 2009 and a 3.8% impact on net income for the nine months ended December 31, 2009. The amount of the adjustment, when compared to the operating results for the year ended March 31, 2009, or on any trend of income, is not considered by management to be material.

Net Income per Common Share

Basic earnings per common share are computed based on the weighted average number of common shares outstanding during the periods presented. Diluted earnings per common share is computed based on the weighted average number of common shares outstanding plus the effect of stock options and other potentially dilutive common stock equivalents. The dilutive effect of stock options and other potentially dilutive common stock equivalents is determined using the treasury stock method based on the Company's average stock price.

A reconciliation of the weighted average shares of common stock utilized in the computation of basic and diluted earnings per share for the three and nine month periods ended December 31, 2009 and 2008 is as follows:

	Three Months Ended December 31,		Nine Months Ended December 31,	
	2009	2008	2009	2008
Weighted average number of common shares outstanding for basic EPS	2,387,887	2,467,028	2,389,360	2,480,330
Shares issued upon the assumed exercise of outstanding stock options	7,314	0	6,261	0
Weighted average number of common and common equivalent shares outstanding for diluted EPS	2,395,201	2,467,028	2,395,621	2,480,330

Outstanding options to purchase 65,756 shares of common stock as of December 31, 2009 are not included in the above calculations as the effect would be anti-dilutive.

Stock Based Compensation

Stock Option Activity. During the nine month period ended December 31, 2009, no stock options were granted and no shares of our common stock were issued as a result of the exercise of the options granted under the now expired stock option plan.

Stock Compensation Expense. Compensation expense related to share-based awards is recognized on a straight-line basis based on the grant-date fair value of share awards that are expected to vest during the requisite service

period. We have estimated forfeitures on the date of grant and are only recording expense on shares we expect to vest. For the nine months ended December 31, 2009 and 2008, we recorded \$17,109 and \$7,736, respectively, of stock-based compensation cost as general and administrative expense in our consolidated statement of earnings. No portion of employees' compensation including stock compensation expense was capitalized during the period.

As of December 31, 2009, there was \$28,516 of unrecognized compensation cost related to share-based compensation arrangements that we expect to vest. The aggregate intrinsic value of currently exercisable options was \$0 at December 31, 2009.

Contingencies

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that these matters will not have a material adverse effect on the Company's financial statements.

Subsequent Events

The Company evaluated its December 31, 2009 financial statements for subsequent events through February 16, 2010; the date financial statements were issued. The Company is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Recent Accounting Pronouncements

In June 2009, the FASB issued authoritative guidance on the consolidation of variable interest entities, which is effective for us beginning April 1, 2010. The new guidance requires revised evaluations of whether entities represent variable interest entities, ongoing assessments of control over such entities, and additional disclosures for variable interests. We believe adoption of this new guidance will not have a material impact on our financial statements.

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used throughout this Report, “we,” “our,” “the Company” “USI” and similar words refers to Universal Security Instruments, Inc.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements reflecting our current expectations with respect to our operations, performance, financial condition, and other developments. These forward-looking statements may generally be identified by the use of the words “may”, “will”, “believes”, “should”, “expects”, “anticipates”, “estimates”, and similar expressions. These statements are necessarily estimates reflecting management’s best judgment based upon current information and involve a number of risks and uncertainties. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and readers are advised that various factors could affect our financial performance and could cause our actual results for future periods to differ materially from those anticipated or projected. While it is impossible to identify all such factors, such factors include, but are not limited to, those risks identified in our periodic reports filed with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K.

overview

We are in the business of marketing and distributing safety and security products which are primarily manufactured through our 50%-owned Hong Kong Joint Venture. Our financial statements detail our sales and other operational results only, and report the financial results of the Hong Kong Joint Venture using the equity method. Accordingly, the following discussion and analysis of the three and nine month periods ended December 31, 2009 and 2008 relate to the operational results of the Company. A discussion and analysis of the Hong Kong Joint Venture’s operational results for these periods is presented below under the heading “Joint Venture.”

Discontinued Canadian Operations

As discussed in prior periods, on February 11, 2008, the assets of International Conduits, Ltd. (Icon), a Canadian corporation in which we owned a two-thirds interest, were placed under the direction of a court appointed receiver, and the operations of Icon were suspended. Accordingly, the assets and liabilities of Icon are not consolidated in the financial statements of the Company and are classified as assets held in receivership. Our consolidated financial statements and the related note disclosures reflect the operations of Icon as discontinued operations for all periods presented. The receivership was completed as of September 22, 2008 and there are no remaining assets or liabilities of Icon.

Results of Operations

Three Months Ended December 31, 2009 and 2008

Sales. Net sales for the three months ended December 31, 2009 were \$6,321,490 compared to \$5,595,049 for the comparable three months in the prior fiscal year, an increase of \$726,441 (13.0%). The primary reason for the increase in net sales volumes was higher sales of our core product lines, including smoke alarms and carbon monoxide alarms, to retailers and national catalog outlets.

Gross Profit Margin. Gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. Our gross profit margin was 20.9% and 23.9% of sales for the quarters ended December 31, 2009 and

2008, respectively. The decrease in gross profit margin was primarily due to a lower gross profit margin realized on a higher percentage of sales to national retailers.

Expenses. Research and development, and selling, general and administrative expenses increased by \$156,512 from the comparable three months in the prior year, principally due to increases in research and development expenses and costs associated with higher sales volume. As a percentage of net sales, these expenses decreased to 22.8% for the three month period ended December 31, 2009, from 23.0% for the corresponding 2008 period.

Interest Expense and Income. Our interest expense, net of interest income, was \$16,418 for the quarter ended December 31, 2009, compared to net interest expense of \$6,967 for the quarter ended December 31, 2008. The increase in interest expense is due to increased borrowings from our factor.

Income Taxes. During the quarter ended December 31, 2009, the Company had a net income tax expense of \$254,196, primarily due to a reduction in deferred taxes resulting from the utilization of net operating loss carryforwards. For the corresponding 2008 period, the Company had a net income tax expense of \$211,642.

Net Income. We reported net income of \$263,490 for the quarter ended December 31, 2009, compared to net income of \$292,513 for the corresponding quarter of the prior fiscal year, a \$29,023 (9.9%) decrease. The decrease in net income is primarily a result of losses from domestic operations, partially offset by higher earnings from the Hong Kong Joint Venture.

Nine Months Ended December 31, 2009 and 2008

Sales. Net sales for the nine months ended December 31, 2009 were \$20,137,200 compared to \$20,169,229 for the comparable nine months in the prior fiscal year, a decrease of \$32,029 (0.2%). The primary reason for the decrease in net sales volumes was lower sales of our core product lines, including smoke alarms and carbon monoxide alarms, to the electrical distribution trade due to a decrease in new home construction during the period, partially offset by increased sales to retailers.

Gross Profit Margin. The gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. The Company's gross profit margin decreased from 23.8% for the period ended December 31, 2008 to 20.5% for the current period ended December 31, 2009. The decrease in gross profit margin was primarily due to a lower gross profit margin realized on increased sales to national retailers.

Expenses. Research and development, and selling, general and administrative expenses decreased by \$29,047 from the comparable nine months in the prior year. As a percentage of sales, these expenses were 21.5% for the nine month period ended December 31, 2009 and 21.6% for the comparable 2008 period, primarily due to increased research and development expenses.

Interest Expense and Income. Our interest expense, net of interest income, was \$48,739 for the nine months ended December 31, 2009, compared to net interest income of \$8,609 for the nine months ended December 31, 2008. The increase in interest expense is due to increased borrowings from our factor during this period.

Income Taxes. During the nine months ended December 31, 2009, the Company recorded an income tax expense from continuing operations of \$234,654, primarily due to a reduction in deferred taxes resulting from the utilization of net operating loss carryforwards. For the corresponding 2008 period, the Company had a tax expense of \$410,437. The lower effective rate in the current period was primarily a result of lower domestic taxable income, partially offset by higher realized equity in the earnings of the Joint Venture.

Net Income. We reported net income of \$1,799,825 for the nine months ended December 31, 2009 compared to net income of \$4,787,207 for the corresponding period of the prior fiscal year. The primary reasons for the decrease is the gain of \$3,381,254 recognized in the prior year's period as a result of the settlement of the obligations of our Canadian subsidiary. Net income from continuing operations rose 28.0% to \$1,799,825 from \$1,405,953 in the comparable period last year. Net income from continuing operations rose as a result of higher earnings from the Hong Kong Joint Venture.

On December 22, 2009, we issued a press release indicating that a national home improvement retail customer had informed the Company that it had not renewed our product line for the fiscal year commencing approximately April 1, 2010. The Company's sales to this customer approximated \$3,300,000 and \$10,400,000 for the three and nine months ended December 31, 2009, respectively. We continue to market our product line to national retailers but have not, at this time, entered into agreements with other national retailers which would produce the volume of sales to this

national retailer.

Financial Condition and Liquidity

We have a Factoring Agreement with CIT Group, Inc. (CIT) which supplies both short-term borrowings and letters of credit to finance foreign inventory purchases. The maximum amount available under the Factoring Agreement is currently \$7,500,000. Based on specified percentages of our accounts receivable and inventory and letter of credit commitments, as of December 31, 2009 we had no borrowings under the Factoring Agreement. The interest rate under the Factoring Agreement on the uncollected factored accounts receivable and any additional borrowings is equal to the prime rate of interest charged by our lender. At December 31, 2009, the prime rate was 3.25%. Borrowings are collateralized by all of our accounts receivable and inventory.

Our factored accounts receivable as of the end of our last fiscal year (net of allowances for doubtful accounts) were \$4,610,401, and were \$3,154,181 as of December 31, 2009. Our prepaid expenses as of the end of our last fiscal year were \$255,745, and were \$217,049 as of December 31, 2009.

Operating activities provided cash of \$4,171,918 for the nine months ended December 31, 2009. This was primarily due to a decrease in inventories and prepaid expenses of \$3,538,094, a decrease in accounts receivable and due from factor of \$898,754 and offset by earnings of the Joint Venture of \$2,339,124. For the same period last year, operating activities used cash of \$2,670,667, primarily as a result of unremitted earnings of the Hong Kong Joint Venture and increases in inventory and prepaid expenses offset by a decrease in accounts payable and accrued expenses, which was due to a build-up in the Company's inventory balances during that period to meet forecasted sales orders.

Investing activities provided cash of \$709,735 during the nine months ended December 31, 2009 from dividends received from the Joint Venture. For the nine months ended December 31, 2008, investing activities provided \$3,205,986, primarily from discontinued operations and dividends received from the Joint Venture.

Financing activities used cash of \$77,813 during the nine months ended December 31, 2009, primarily from the purchase and retirement of common stock. In the nine months ended December 31, 2008, financing activities used \$4,218,348, primarily from discontinued operations.

We believe that funds available under the Factoring Agreement, distributions from the Joint Venture, and our line of credit facilities provide us with sufficient resources to meet our requirements for liquidity and working capital.

Joint Venture

Net Sales. Net sales of the Joint Venture for the three and nine months ended December 31, 2009 were \$8,533,190 and \$22,592,798, respectively, compared to \$9,603,152 and \$29,270,914, respectively, for the comparable period in the prior fiscal year. The 11.1% and 22.8% respective decreases in net sales by the Joint Venture for the three and nine month periods were due to lower sales to the Company. The Joint Venture's sales to the Company decreased, primarily due to a reduction in inventories of products purchased by the Company for sale to the Company's retail customers in future periods.

Gross Margins. Gross margins of the Joint Venture for the three month period ended December 31, 2009 increased to 33.7% from 28.9% for the 2008 corresponding period. For the nine month period ended December 31, 2009, gross margins increased to 32.0% from the 27.1% gross margin of the prior year's corresponding period. Since gross margins depend on sales volume of various products, with varying margins, increased sales of higher margin products and decreased sales of lower margin products affect the overall gross margins.

Expenses. Selling, general and administrative expenses were \$1,541,932 and \$3,694,679, respectively, for the three and nine month periods ended December 31, 2009, compared to \$1,372,705 and \$3,980,375 in the prior year's respective periods. As a percentage of sales, expenses were 18.1% and 16.3% for the three and nine month periods ended December 31, 2009, compared to 14.3% and 13.6% for the three and nine month periods ended December 31, 2008. The changes in selling, general and administrative expense as a percent of sales are primarily due to variable costs that remain constant despite changes in net sales.

Interest Income and Expense. Interest expense, net of interest income, was \$1,919 and \$5,521, respectively, for the three and nine month periods ended December 31, 2009, compared to net interest expense of \$7,163 and \$12,924, respectively, for the prior year's periods. The reduction in net interest expense resulted from a decrease in the Joint Venture's borrowings.

Net Income. Net income for the three and nine months ended December 31, 2009 were \$1,321,702 and \$3,737,826, respectively, compared to \$1,273,660 and \$3,592,801, respectively, in the comparable periods last year. The 3.8% and 4.0% increase in net income for the three and nine month periods were due primarily to higher gross margins as noted above.

Liquidity. Cash needs of the Joint Venture are currently met by funds generated from operations. During the nine months ended December 31, 2009, working capital increased by \$2,626,751 from \$9,151,199 on March 31, 2009 to \$11,777,950 on December 31, 2009.

Critical Accounting Policies

Management's discussion and analysis of our consolidated financial statements and results of operations are based on our Consolidated Financial Statements included as part of this document. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate these estimates, including those related to bad debts, inventories, income taxes, and contingencies and litigation. We base these estimates on historical experiences and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect management's more significant judgments and estimates used in the preparation of its consolidated financial statements. For a detailed discussion on the application on these and other accounting policies, see Note A to the consolidated financial statements included in Item 8 of the Form 10-K for the year ended March 31, 2009. Certain of our accounting policies require the application of significant judgment by management in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty and actual results could differ from these estimates. These judgments are based on our historical experience, terms of existing contracts, current economic trends in the industry, information provided by our customers, and information available from outside sources, as appropriate. Our critical accounting policies include:

Revenue Recognition. We recognize sales upon shipment of products net of applicable provisions for any discounts or allowances. The shipping date from our warehouse is the appropriate point of revenue recognition since upon shipment we have substantially completed our obligations which entitle us to receive the benefits represented by the revenues, and the shipping date provides a consistent point within our control to measure revenue. Customers may not return, exchange or refuse acceptance of goods without our approval. We have established allowances to cover anticipated doubtful accounts based upon historical experience.

Inventories are valued at the lower of market or cost. Cost is determined on the first-in first-out method. We have recorded a reserve for obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. Management reviews the reserve quarterly.

We are subject to lawsuits and other claims, related to patents and other matters. Management is required to assess the likelihood of any adverse judgments or outcomes to these matters, as well as potential ranges of probable losses. A determination of the amount of reserves required, if any, for these contingencies is based on a careful analysis of each individual issue with the assistance of outside legal counsel. The required reserves may change in the future due to new developments in each matter or changes in approach such as a change in settlement strategy in dealing with these matters.

We generally provide warranties from one to ten years to the non-commercial end user on all products sold. The manufacturers of our products provide us with a one-year warranty on all products we purchase for resale. Claims for warranty replacement of products beyond the one-year warranty period covered by the manufacturers are immaterial and we do not record estimated warranty expense or a contingent liability for warranty claims.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

No material changes have occurred in our quantitative and qualitative market risk disclosures as presented in our Annual Report Form 10-K for the year ended March 31, 2009.

ITEM 4T.

CONTROLS AND PROCEDURES

We maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed by us in the reports that we file or submit under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and is accumulated and communicated to management in a timely manner. Our Chief Executive Officer and Chief Financial Officer have evaluated this system of disclosure controls and procedures as of the end of the period covered by this quarterly report, and have concluded that the system is effective. There have been no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As previously reported, on June 11, 2003, Walter Kidde Portable Equipment, Inc. (“Kidde”) filed a civil suit against the Company in the United States District Court for the Middle District of North Carolina (Case No. 03cv00537), alleging that certain of the Company’s AC powered/battery backup smoke detectors infringe a patent acquired by Kidde (US 4,972,181). Kidde was seeking injunctive relief and damages to be determined at trial. On March 31, 2006, following numerous procedural and substantive rulings which the Company believes were favorable to the Company, Kidde obtained dismissal, without prejudice, of its suit. On November 28, 2005, prior to the March 31, 2006 dismissal of the original suit, Kidde filed a second lawsuit in the same court (Case No. 05cv1031) based on virtually identical infringement allegations as the earlier case. Discovery is now closed in this second case. Although the asserted patent is now expired, prior to its expiration, the Company sought and has now successfully obtained re-examination of the asserted patent in the United States Patent and Trademark Office (USPTO) largely based on the references cited and analysis presented by the Company which correspond to defenses raised in the litigation. In July, the USPTO issued a final rejection of all of the claims asserted against the Company based on the references. Kidde filed a response to the rejection which was subject to an October 19, 2009 advisory action by the USPTO rejecting its additional arguments. Kidde has appealed to the Board of Patent Appeals and Interferences which is now pending. The litigation is stayed pending the conclusion of the reexamination proceedings. The USPTO action fully supports the Company’s substantive position and its defenses to Kidde. The Company and its counsel believe that regardless of the outcome of the reexamination, the Company has significant defenses relating to the patent in suit. In the event of an unfavorable outcome, the amount of any potential loss to the Company is not yet determinable.

As previously reported, on September 25, 2008, the Company filed a third-party Complaint against United Technologies Corporation (UTC), the parent of Kidde, in the United States District Court for the District of Maryland with its Answer and Counterclaims to Kidde in Case No. 08cv2202 for the predatory litigation campaign by the defendant and its subsidiary, Kidde. On March 31, 2009, Kidde filed for reexamination of UA patent 6,791,453. That reexamination request was declined by the USPTO. Kidde and UTC filed a joint motion to dismiss the Company’s antitrust claims and the Company filed a second motion to amend its Answer and Counterclaims. On December 16, 2009, the Court issued its decision on the patent claim interpretation and denied Kidde and UTC’s motions to dismiss. The case is now in the discovery phase.

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that these matters will not have a material adverse effect on the Company’s financial statements.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

On October 12, 2009, the Company held its Annual Meeting of Stockholders. The only matter submitted to the stockholders for a vote was the election of one director in the Class of 2012. The nominee was Ronald A. Seff, M.D. At the Meeting, at least 2,022,379 shares were voted in favor of the nominee, no more than 137,728 shares abstained, were voted against, or were voted to withhold approval of the nominee’s election (any of which has the same effect as a “no” vote). As a result, the nominee was elected.

Directors not up for re-election and continuing in office after the Meeting are: Ira Bormel, Harvey B. Grossblatt and Cary Luskin.

ITEM 6. EXHIBITS

Exhibit No.

- 3.1 Articles of Incorporation (incorporated by reference to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 1988, File No. 1-31747)
- 3.2 Articles Supplementary, filed October 14, 2003 (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed October 31, 2002, file No. 1-31747)
- 3.3 Bylaws, as amended (incorporated by reference to Exhibit 3.3 to the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2009, File No. 1-31747)
- 10.1 Non-Qualified Stock Option Plan, as amended (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2003, File No. 1-31747)
- 10.2 Hong Kong Joint Venture Agreement, as amended (incorporated by reference to Exhibit 10.1 to the Company's Annual Report on Form 10-K for the year ended March 31, 2003, File No. 1-31747)
- 10.3 Amended and Restated Factoring Agreement between the Registrant and The CIT Group/Commercial Services, Inc. ("CIT"), dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.4 Amended and Restated Inventory Security Agreement between the Registrant and CIT, dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.5 Amendment, dated December 22, 2009, to Amended and Restated Factoring Agreement between the Registrant and CIT dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.)*
- 10.6 Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated November 4, 2008 for its office and warehouse located at 11407 Cronhill Drive, Suites A-D, Owings Mills, Maryland 21117 (incorporated by reference to Exhibit 10.8 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2008, File No. 1-31747)
- 10.7 Amendment to Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated June 23, 2009 (incorporated by reference to Exhibit 10.9 to the Company's Annual Report on Form 10-K for the year ended March 31, 2009, File No. 1-31747)
- 10.8 Amended and Restated Employment Agreement dated July 18, 2007 between the Company and Harvey B. Grossblatt (incorporated by reference to Exhibit 10.7 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2007, File No. 1-31747)
- 31.1 Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer*
- 31.2 Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer*
- 32.1 Section 1350 Certifications*
- 99.1 Press Release dated February 16, 2010*
