DOCUMENTS INCORPORATED BY REFERENCE

Portions of the proxy statement for the 2010 annual meeting of stockholders of One Liberty Properties, Inc., to be filed pursuant to Regulation 14A not later than April 30, 2010, are incorporated by reference into Part III of this Annual Report on Form 10-K.

Explanatory Note

We are filing this Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the Securities and Exchange Commission on March 12, 2010 (the "Original Filing") to amend information included in "Item 6. Selected Financial Data" of such report. Specifically, we have:

reduced the rental revenues for 2006 and 2005 to correct an error made in recalculating rental revenues reported in those years to give effect to eight properties sold/disposed of in 2009;

increased income from continuing operations and net income from continuing operations per share on a basic and diluted basis for 2006 to reflect that the gain on sale from a portion of property we sold in such year should be included in continuing operations (and not discontinued operations);

with respect to the gain on sale referred to above, made corresponding offsetting adjustments to income from discontinued operations and net income from discontinued operations per share on a basic and diluted basis; and

with respect to the balance sheet data, (i) decreased real estate investments, net for each of 2007, 2006 and 2005 to reflect that eight properties sold/disposed of in 2009 should have been classified as properties held for sale in 2007, 2006 and 2005 (and not as real estate investments, net) and (ii) added a line item, properties held for sale, to reflect eight properties sold/disposed of in 2009 and one property sold in 2006.

This Report on Form 10-K/A does not modify or update any other disclosures set forth in the Original Filing, except as required to reflect the aforementioned amended information. The net income and net income per share, as reported in Item 6, were unchanged. In addition, except for the amended information included herein, this Form 10-K/A speaks as of the filing date of the Original Filing and does not update or discuss any other developments affecting us subsequent to the date of the Original Filing.

Item 6. Selected Financial Data.

The following table sets forth the selected consolidated statement of operations data for each of the periods indicated, all of which are derived from our audited consolidated financial statements and related notes. The selected financial data for each of the three years in the period ended December 31, 2009 should be read together with our consolidated financial statements and related notes appearing elsewhere in this Annual Report on Form 10-K and in "Management's Discussion and Analysis of Financial Condition and Results of Operations," where this data is discussed in more detail.

Note a: Certain amounts reported in prior periods have been reclassified to conform to the current year's presentation, primarily the restatement of prior periods for discontinued operations.

Note b: For the year ended December 31, 2006, "Equity in earnings (loss) of unconsolidated joint ventures" is after giving effect to \$5.3 million, our share of the mortgage prepayment premium expense incurred in connection with dispositions of real estate of unconsolidated joint ventures. This expense is reflected as interest expense on the books of the joint ventures and is not netted against the \$26.9 million gain on dispositions.

Note c: 2007 includes a special cash distribution of \$.67 per share.

Note d: We consider funds from operations (FFO) and adjusted funds from operations (AFFO) to be relevant and meaningful supplemental measures of the operating performance of an equity REIT, and they should not be deemed to be a measure of liquidity. FFO and AFFO do not represent cash generated from operations as defined by generally accepted accounting principles (GAAP) and is not indicative of cash available to fund all cash needs, including distributions. They should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity.

We compute FFO in accordance with the "White Paper on Funds From Operations" issued in April 2002 by the National Association of Real Estate Investment Trusts (NAREIT). FFO is defined in the White Paper as "net income (computed in accordance with generally accepting accounting principles), excluding gains (or losses) from sales of property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis." In computing FFO, we do not add back to net income the amortization of costs in connection with our financing activities or depreciation of non-real estate assets. Since the NAREIT White Paper only provides guidelines for computing FFO, the computation of FFO may vary from one REIT to another. We compute AFFO by deducting from FFO our straightline rent accruals and amortization of lease intangibles (including our share of our unconsolidated joint ventures).

4

We believe that FFO and AFFO are useful and standard supplemental measures of the operating performance for equity REITs and are used frequently by securities analysts, investors and other interested parties in evaluating equity REITs, many of which present FFO and AFFO when reporting their operating results. FFO and AFFO are intended to exclude GAAP historical cost depreciation and amortization of real estate assets, which assures that the value of real estate assets diminish predictability over time. In fact, real estate values have historically risen and fallen with market conditions. As a result, we believe that FFO and AFFO provide a performance measure that when compared year over year, should reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs and other matters without the inclusion of depreciation and amortization, providing a perspective that may not be necessarily apparent from net income. We also consider FFO and AFFO to be useful to us in evaluating potential property acquisitions.

FFO and AFFO do not represent net income or cash flows from operations as defined by GAAP. FFO and AFFO should not be considered to be an alternative to net income as a reliable measure of our operating performance; nor should FFO and AFFO be considered an alternative to cash flows from operating, investing or financing activities (as defined by GAAP) as measures of liquidity.

FFO and AFFO do not measure whether cash flow is sufficient to fund all of our cash needs, including principal amortization, capital improvements and distributions to stockholders. FFO and AFFO do not represent cash flows from operating, investing or financing activities as defined by GAAP.

Management recognizes that there are limitations in the use of FFO and AFFO. In evaluating the performance of our company, management is careful to examine GAAP measures such as net income and cash flows from operating, investing and financing activities. Management also reviews the reconciliation of net income to FFO and AFFO.

The table below provides a reconciliation of net income in accordance with GAAP to FFO and AFFO, as calculated under the current NAREIT definition of FFO, for each of the years in the five year period ended December 31, 2009 (amounts in thousands):

	2009	2008	2007	2006	2005

Note 1: For the year ended December 31, 2008, net income, FFO and AFFO are after \$6 million of impairment charges. For the year ended December 31, 2006, net income, FFO and AFFO are after giving effect to \$5.3 million, our share of the mortgage prepayment premium expense incurred in connection with the dispositions of real estate of unconsolidated joint ventures. This expense is reflected as interest expense on the books of the joint ventures and not netted against gain on dispositions. For the year ended December 31, 2005, net income, FFO and AFFO include \$10.2 million from the gain on sale of air rights.

The table below provides a reconciliation of net income per common share (on a diluted basis) in accordance with GAAP to FFO and AFFO.
