**BLADEx REPORTS FULL YEAR NET INCOME OF \$42.2 MILLION; \$1.15 PER SHARE  
FOURTH QUARTER NET INCOME OF \$15.5 MILLION; \$0.42 PER SHARE**

PANAMA CITY, February 16, 2011 – Banco Latinoamericano de Comercio Exterior, S.A. (NYSE: BLX, “Bladex”, or “the Bank”) announced today its results for the fourth quarter and full-year ended December 31, 2010.

**Quarterly and Annual Business Highlights**

- Fourth quarter 2010 Net Income (\*) amounted to \$15.5 million, an increase of \$0.5 million, or 4%, compared to third quarter 2010, and an increase of \$3.6 million, or 30%, compared to fourth quarter 2009.
  - Net income in 2010 amounted to \$42.2 million compared to \$54.9 million in 2009, as the strong performance of the Commercial Division was mostly offset by second quarter losses in the Asset Management Unit.
  - The Commercial Portfolio grew \$292 million, or 7% versus the previous quarter and \$1.3 billion, or 43%, year-on-year to reach balances of \$4.4 billion. Fourth quarter 2010 credit disbursements amounted to \$2.2 billion, compared to the \$2.3 billion in the third quarter. 2010 disbursements reached \$7.4 billion, up \$3.2 billion, or 79%, from 2009.
- On a year-on-year-basis, fees and commissions grew 53%, amounting to \$10.3 million.

(\*) Net income or loss attributable to Bladex (“Net Income”, or “Net Loss”).

---

- Net interest income in the fourth quarter 2010 was \$21.0 million, a \$1.0 million, or 5%, increase over the previous period and a \$5.8 million, or 38% increase over the fourth quarter 2009. Net interest income in 2010 amounted to \$74.5 million, a 15% increase from 2009. Net interest margin increased to 1.70% in 2010 from 1.62% in 2009. Average funding costs declined 112bps compared to 2009.
- The Commercial Division's Net Income for 2010 increased \$22.0 million (+63%) to \$56.8 million versus \$34.8 million in 2009, mainly as a result of portfolio growth and improved credit quality. The Division's Net Income in the fourth quarter 2010 totaled \$14.9 million, a 7% increase over the previous quarter, and a 25% increase over the fourth quarter 2009.

- The Treasury Division reported a 2010 Net Loss of \$4.9 million, compared to Net Income of \$6.1 million in 2009, driven by losses from trading portfolio valuations, as increases in securities valuations were offset by the diminished valuations of associated trading derivatives used to hedge interest rate risk.
- The Asset Management Unit reported a Net Loss of \$9.7 million in 2010, compared to Net Income of \$14.1 million in 2009 as the result of trading losses in Bladex Capital Growth Fund (BCGF, the Investment Fund) incurred mostly during the second quarter. The Bank will gradually reduce its exposure to BCGF to its original \$100 million investment, freeing close to \$50 million to be used to fund more fee generating activities.
- Portfolio quality improved year-on-year as credit risks abated throughout the Region, and as non-accrual loans declined to \$29.0 million in the fourth quarter 2010, down from \$32.9 million in the previous quarter, and from \$50.5 million in the fourth quarter of 2009.
- Scale efficiencies improved in 2010, with expenses growing \$3.9 million, or 10% year-on-year, to \$42.1 million, well below the commercial portfolio's 43% growth, as the Bank invested in commercial and risk management resources.
- The Bank's equity consists entirely of common stock equity. The Bank's Tier 1 capital ratio as of December 31, 2010 stood at 20.5%, compared to 20.6% as of September 30, 2010, and 25.8% as of December 31, 2009, while the leverage ratio as of these dates was 7.3x, 7.1x, and 5.7x, respectively.

#### CEO's Comments

Mr. Jaime Rivera, Bladex's Chief Executive Officer, stated the following regarding the Bank's results: "In many ways, Bladex's solid performance during the fourth quarter was a proxy for the sustained improvement of our business fundamentals during 2010, which brought about a steady commercial portfolio growth of 43%, while fees increased by 53%, deposits rose by 45%, net interest margins widened and our network of representative offices expanded. Concurrently, portfolio quality continued to improve, as non-accrual loans fell to just \$29.0 million, out of a total credit portfolio of \$4.9 billion. Expenses involved in fueling these improvements rose during the year by a modest 10%, while the Bank maintained a Tier 1 ratio in excess of 20%, and liquidity remained comfortably above \$400 million, or 8% of assets.

The \$42.2 million consolidated Net Income for the 2010 was not higher principally because the Asset Management's Unit had its first down full-year since we created the Unit in 2005. The Bank's \$15.5 million net income for the fourth quarter, however, demonstrates that we have achieved our goal of generating strong results independently of the performance of the Division's BCGF fund. As we continue to strengthen the Division's fee-income generation, we plan to gradually re-deploy our nearly \$50 million of accumulated earnings in the BCGF over the year 2011 to pursue other opportunities arising in our market.

2010 was the first of a two year program designed to substantially increase the Bank's footprint and strengthen its franchise based on rapidly growing trade flows in Latin America, a region where we enjoy significant competitive advantages in terms of market knowledge, support from our government shareholders, stellar reputation, and timely, tailored customer service. 2011 will be another year of growth, as we continue expanding our penetration of the corporate markets, developing new products, supporting the rapidly growing intra regional trade, expanding our delivery network, and continuing to serve as the region's premier bank-to-banks. As was the case with our recent common dividend increase, we look forward to continuing to share our success with our shareholders." Mr. Rivera concluded.

## RESULTS BY BUSINESS SEGMENT

### COMMERCIAL DIVISION

The Commercial Division incorporates the Bank's core business of financial intermediation and fee generation activities. Net Income includes net interest income from loans, fee income, net allocated operating expenses, the reversals (provisions) for loan and off-balance sheet credit losses, and any impairment on assets.

(US\$ million)	2010	2009	4Q10	3Q10	4Q09
<b>Commercial Division:</b>

<b>Net Income</b>	<b>\$ 56.8</b>	<b>\$ 34.8</b>	<b>\$ 14.9</b>	<b>\$ 13.9</b>	<b>\$ 11.9</b>

The Commercial Division's portfolio growth continued in the fourth quarter, driven by solid demand across all segments, reaching \$4.4 billion in period-end balances, a 7% increase from the previous quarter, and a 43% increase from the fourth quarter 2009.

#### 4Q10 vs. 3Q10

Net Income in the fourth quarter 2010 amounted to \$14.9 million, compared to \$13.9 million in the third quarter 2010. The \$1.0 million quarterly increase in Net Income was the result of the combined effects of: (i) a \$1.2 million increase in net interest income due to higher average loan portfolio balances (+14%), mainly driven by greater demand from large corporations, (ii) a \$1.0 million increase in non-interest operating income, mostly attributable to increased commission income from loans and letter of credit transactions, (iii) a \$1.9 million increase in operating expenses as a result of the expansion in operations, principally at the new representative offices, and (iv) a \$0.7 million variation in reversals (provision) for credit losses, mainly due to the Region's improved risk profile.

#### 4Q10 vs. 4Q09

Net Income increased \$3.0 million compared to the fourth quarter 2009, mainly due to a 31% increase in net interest income, and a 48% increase in non-interest income from fees and commissions, both partially offset by increased operating expenses related to the deployment of a larger sales force and the establishment of new representative offices. The effects of a greater average portfolio base on net interest income were partially offset by a year-on-year decline in market interest rates.

#### 2010 vs. 2009

The Division's Net Income amounted to \$56.8 million, compared to \$34.8 million in 2009, an annual increase of \$22.0 million as a result of: (i) a \$19.6 million positive variation in reversals (provisions) for credit losses, due to improved risk profile and credit quality, (ii) a \$5.4 million increase in net interest income mostly attributable to the income effects of higher average loan portfolio balances (+27%), (iii) a \$3.2 million increase in commissions and fees from loans and letters of credits, and (iv) a \$6.5 million increase in operating expenses as the Division expanded its sales force and local presence in various markets.

The Commercial Portfolio includes the book value of loans, acceptances, and contingencies (including letters of credit, stand-by letters of credit, and guarantees covering commercial and country risks and credit commitments). The Bank's Commercial Portfolio balance reached \$4.4 billion as of December 31, 2010, a 7% increase from the balance as of September 30, 2010, and 43% above the balance as of December 31, 2009. The annual increase was largely attributable to increased demand from the Bank's established client base of large corporations and financial institutions, while the business expansion into the middle market segment continued. During the fourth quarter 2010, the Bank disbursed \$1.8 billion in new loans, 3% more than the third quarter 2010, and an increase of approximately \$1.0 billion, (+112%), compared to the same period in the previous year.

On an average basis, the Commercial Portfolio increased 14% in the fourth quarter 2010, compared to the previous quarter, and 48% from the fourth quarter 2009.

The Commercial Portfolio continues to be mainly short-term and trade-related in nature. \$3.2 billion, or 72%, of the commercial portfolio matures within one year. Trade financing operations represent 59% of the portfolio, while the remaining balance consists primarily of lending to banks and corporations. Refer to Exhibit X for information relating to the Bank's Commercial Portfolio distribution by country and Exhibit XII for the Bank's distribution of credit disbursements by country.

#### TREASURY DIVISION

The Treasury Division incorporates the Bank's liquidity management, and investment securities activities. Net Income is presented net of allocated operating expenses, and includes net interest income on Treasury activities and net other income (loss) relating to Treasury activities (12).

(US\$ million)	2010	2009	4Q10	3Q10	4Q09
<b>Treasury Division:</b>					
Net interest income	\$ 3.2	\$ 2.0	\$ 1.1	\$ 1.1	\$ 0.5

Net operating revenues (2)	2.8	14.0	3.5	0.7	1.2
Operating expenses	(7.7)	(7.9)	(1.3)	(2.2)	(1.7)
Net operating income (loss) (3, 12)	(4.9)	6.1	2.2	(1.5)	(0.5)
<b>Net Income (Loss)</b>	<b>\$ (4.9)</b>	<b>\$ 6.1</b>	<b>\$ 2.2</b>	<b>\$ (1.5)</b>	<b>\$ (0.5)</b>

Liquid assets (8) stood at \$421 million as of December 31, 2010, compared to \$336 million as of September 30, 2010, and \$402 million as of December 31, 2009.

The Trading Portfolio as of December 31, 2010 amounted to \$50 million, compared to \$51 million as of September 30, 2010, and \$50 million as of December 31, 2009.

The Securities Available for Sale Portfolio as of December 31, 2010 decreased to \$353 million, compared to \$527 million as of September 30, 2010, and \$457 million as of December 31, 2009. The reduction during the quarter was due to the sale of securities for a nominal amount of \$135 million, which generated gains on sales of \$2.3 million. The Available for Sale Portfolio as of December 31, 2010 consisted entirely of readily quoted Latin American securities, 81% of which were sovereign and state-owned risk in nature (refer to Exhibit XI for a per country distribution of the Treasury portfolio).

The Available for Sale Portfolio is marked to market, with the impact recorded in stockholders' equity through the Other Comprehensive Income Account ("OCI"), which stood at (\$6.4) million in the fourth quarter 2010, compared to (\$5.5) million in the third quarter 2010 and (\$6.2) million in the same period 2009, as lower market valuations of the Securities Portfolio were mostly offset by higher valuations of the interest rate hedging instruments associated with the securities.

Funding costs continued to improve as the weighted average funding cost in the fourth quarter 2010 was 1.17%, a decrease of 5 bps, or 4%, compared to the third quarter 2010, and a decrease of 58 bps, or 33%, compared to the fourth quarter 2009. Period-end deposit balances stood at \$1.8 billion, a decrease of 2% versus the previous quarter, and a 45% year-on-year increase. Borrowings and securities sold under repurchase agreements increased 13% from the third quarter 2010 to \$2.4 billion, a 36% year-on-year increase.

#### 4Q10 vs. 3Q10

In the fourth quarter 2010, the Treasury Division posted Net Income of \$2.2 million, compared to a Net Loss of \$1.5 million in the third quarter 2010. Fourth quarter net operating revenues were \$2.8 million higher compared to the third quarter, mainly due to higher non-interest operating income, mostly attributable to gains on the sale of securities available for sale.

#### 4Q10 vs. 4Q09

The Treasury Division posted Net Income of \$2.2 million in the fourth quarter 2010, compared to Net Loss of \$0.5 million in the fourth quarter 2009, due to a \$1.7 million increase in non-interest operating income mostly attributable to gains on the sale of securities available for sale, a \$0.6 million increase in net interest income as a result of lower interest expense, and a \$0.4 million decrease in operating expenses.

#### 2010 vs. 2009

The Treasury Division reported a Net Loss of \$4.9 million in 2010, compared to a Net Income of \$6.1 million in 2009. The \$11.0 million decrease in this period was primarily driven by trading portfolio valuations, as increases in securities valuations were more than offset by the diminished valuations of associated trading derivatives.

#### ASSET MANAGEMENT UNIT

The Asset Management Unit incorporates the Bank's asset management activities. The Unit's Investment Fund follows primarily a Latin America macro strategy, utilizing a combination of products (foreign exchange, equity indices, interest rate swaps, and sovereign credit products) to establish long and short positions in the markets. Bladex considers its asset management subsidiary as part of its long-term strategy to complement the Bank's long standing relationships with institutional investors throughout the world.

The Unit's Net Income includes net interest income on the Investment Fund, as well as net gains (losses) from investment fund trading, other related income (loss), allocated operating expenses, and the Net Income attributable to redeemable non-controlling interest.

(US\$ million)	2010	2009	4Q10	3Q10	4Q09
<b>Asset Management Unit:</b>

Net Income (Loss)	\$ (9.7)	\$ 14.1	\$ (1.6)	\$ 2.6	\$ 0.6

#### 4Q10 vs. 3Q10

The Asset Management Unit recorded a Net Loss in the fourth quarter 2010 of \$1.6 million, compared to Net Income of \$2.6 million in the third quarter 2010. The \$4.2 million quarterly decrease was mainly due to a \$4.4 million decrease in non-interest operating income attributable to net losses from trading activities in the Investment Fund, partially offset by net income attributable to the redeemable non-controlling interest.

#### 4Q10 vs. 4Q09

The Unit posted a Net Loss of \$1.6 million in the fourth quarter 2010, compared to \$0.6 million in Net Income in the fourth quarter 2009, as a result of lower gains from investments in the Investment Fund.

#### 2010 vs. 2009

In 2010 the Unit posted a Net Loss of \$9.7 million, compared to Net Income of \$14.1 million in 2009. The \$23.8 million loss year-over-year variance was due to the combined effects of: (i) a \$32.7 million decrease in non-interest operating income attributable to losses from investments in the Investment Fund, (ii) a \$3.1 million increase in net interest income, (iii) a \$2.3 million decrease in operating expenses as a result of lower provisions for variable compensation tied to the performance of the Investment Fund.

As of December 31, 2010, the Investment Fund's asset value totaled \$167 million, compared to \$181 million as of September 30, 2010, and \$198 million as of December 31, 2009. For the same dates, Bladex's ownership of the Bladex Offshore Feeder Fund was 88.67%, 85.82% and 82.34%, respectively, with remaining balances owned by third party investors.

During the fourth quarter 2010, the Bank redeemed \$6.0 million from its investment in the Fund. The Bank will gradually reduce its exposure to BCGF to its original \$100 million investment, freeing close to \$50 million to be used to fund more fee generating activities.

Net interest margin stood at 1.70% in the fourth quarter 2010, compared to 1.73% in the third quarter 2010, and 1.60% in the fourth quarter 2009.

#### 4Q10 vs. 3Q10

In the fourth quarter 2010, net interest income amounted to \$21.0 million, an increase of \$1.0 million, or 5%, compared to \$20.0 million in the third quarter 2010. The quarterly increase reflects mostly:

- (i) Higher average interest earning assets balances, consisting primarily of average loan portfolio balances, which increased \$470 million, or 14%, compared to the third quarter 2010, which resulted in an overall increase of \$3.0 million in interest income, partially offset by a \$0.4 million increase in interest expense due to higher average balances in deposits, borrowings and placements.
- (ii) Lower average interest rates for the Bank's loans and liabilities, which resulted in a \$1.6 million decrease in net interest income. The average yield earned on interest-earning assets decreased 6 bps to 2.64% compared to the third quarter 2010, mainly attributable to average yield decreases in loans, partially offset by the 5 bps decrease in average yield paid on interest-bearing liabilities to 1.17%.

#### 4Q10 vs. 4Q09

Net interest income increased \$5.8 million, or 38%, when compared to the fourth quarter 2009. This increase primarily reflects:

- (i) Higher average interest earning assets balances, mainly average loan portfolio balances, which increased \$1.3 billion, or 48%, compared to the fourth quarter 2009, resulted in an overall increase of \$9.2 million in interest income. Average volumes of interest bearing liabilities increased \$1.1 billion, or 39%, resulting in a \$1.5 million decrease in net interest income.
- (ii) A \$1.9 million decrease in net interest income as result of the combined effects of a 29 bps reduction in average yield earned on assets, partially offset by a 58 bps decrease in average yield paid on interest-bearing liabilities, both mostly attributable to lower interbank market rates.

#### 2010 vs. 2009

Yearly net interest income amounted to \$74.5 million in 2010, compared to \$64.8 million in 2009. The \$9.7 million, or 15%, increase of net interest income during the annual period primarily reflects:

- (i) Higher average interest earning assets balances, primarily average loan portfolio balances, which resulted in a \$18.2 million overall increase in interest income, partially offset by a \$2.1 million increase in interest expense associated with an increase in average interest bearing liability balances.
- (ii) Lower average interest rates on the Bank's assets and liabilities, which resulted in a \$6.3 million decrease in net interest income. The average yield paid on interest-bearing liabilities decreased 112 bps to 1.26% during 2010, while the average yield on interest-earning assets decreased 81 bps to 2.69% during the same period. Both effects were mostly attributable to lower interbank market rates.

Net interest margin improved to 1.70% in 2010, compared to 1.62% in 2009.

Fees and Commissions, net	\$ 10.3	\$ 6.7	\$ 3.1	\$ 2.0	\$ 2.4

\* Net of commission expenses

Fees and commissions amounted to \$3.1 million in the fourth quarter 2010, \$1.1 million over the previous quarter, and \$0.7 million higher than fourth quarter 2009. These quarterly increases were mostly the result of higher commissions from loans and letter of credit transactions.

During 2010, commission income amounted to \$10.3 million, compared \$6.7 million in 2009, mainly as a result of \$3.3 million increase in commission income from the letter of credit business as average balances increased along with the Bank's expanding footprint.

<b>Total Allowance for Credit Losses</b>	\$ 101.0	\$ 97.6	\$ 95.3	\$ 95.4	\$ 92.0
--	----------	---------	---------	---------	---------

Provisions for loan and off-balance sheet credit losses stood at \$92.0 million as of December 31, 2010, compared to \$95.4 million as of September 30, 2010, and \$101.0 million as of December 31, 2009. The reduction of the total allowance for credit losses during 2010 was the result of lower reserve requirements related to the improved risk profile in the commercial portfolio, following the post-crisis economic recovery in the Region.

As of December 31, 2010, the non-accrual portfolio amounted to \$29.0 million, compared to \$32.9 million as of September 30, 2010, and \$50.5 million as of December 31, 2009. As of December 31, 2010, amounts past due in the portfolio were \$1.0 million.

The ratio of the allowance for credit losses to the Commercial Portfolio stood at 2.1% as of December 31, 2010, compared to 2.3% as of September 30, 2010, and 3.2% as of December 31, 2009, while the ratio of non-accruing loans to loan portfolio stood at 0.7%, 0.9%, and 1.8%, respectively, as of these dates.

#### Quarterly Variation

Operating expenses in the fourth quarter 2010 totaled \$11.6 million, a \$1.3 million, or 12%, increase from the third quarter 2010, and an increase of \$1.7 million, or 18%, with respect to the fourth quarter 2009. The year-on-year increase was mostly attributable to the net effect of salary and other employee expenses associated with the higher average headcount in the Commercial Division and risk management area, offset by lower performance-related expenses from the Investment Fund.

The Bank's fourth quarter 2010 efficiency ratio stood at 44%, compared to 40% in the third quarter 2010, and 46% in the fourth quarter 2009, primarily as a result of a \$5.8 million increase in net operating revenues from the Commercial Division.

During the fourth quarter 2010, the operating expenses to average assets ratio amounted to 0.94%, compared to 0.91% in the previous quarter, and compared to 1.05% in the fourth quarter 2009.

2010 vs. 2009

During 2010, operating expenses amounted to \$42.1 million, compared to \$38.2 million during 2009. The \$3.9 million, or 10%, increase in operating expenses during this period was attributable to the net effect of salary and other employee expenses associated with higher average headcount and professional fees in support of the Commercial Division and risk management's expansion, as well as capital market issuance programs, partially offset by lower performance-related expenses from the Investment Fund.

The Bank's efficiency ratio as of December 31, 2010 was 55%, compared to 35% as of December 31, 2009, mainly as the result of a \$40.8 million decrease in net operating revenues in the Asset Management Unit and Treasury Division during the period.

As of December 31, 2010, the Bank's operating expenses to average assets ratio stood at 0.97%, compared to 0.96% as of December 31, 2009.

**CAPITAL RATIOS AND CAPITAL MANAGEMENT**

The following graphs illustrate the trends in Net Income and Return on Average Stockholders' Equity and Tier 1 Capital evolution for the periods indicated:

The Bank's equity consists entirely of issued and fully paid ordinary common stock. As of December 31, 2010, the Bank's Tier 1 capital ratio stood at 20.5% compared to 20.6% as of September 30, 2010 and 25.8% as of December 31, 2009. The annual reduction in the Bank's Tier 1 Capital ratio was due to a \$0.8 billion increase in risk-weighted assets associated with the Bank's increased loan portfolio. The Bank's leverage stood at 7.3x, 7.1x, and 5.7x, respectively, as of these dates.

The Bank's common shares outstanding amounted to 36.7 million as of December 31, 2010 compared to the same amount as of September 30, 2010, and 36.5 million as of December 31, 2009.

During the Board of Director's meeting on January 19, 2011, the Bank's Board reaffirmed its commitment to a dividend policy that reflects the Bank's growing core business. In-line with this policy, the quarterly common dividend increased from \$0.17 to \$0.20 per share corresponding to the fourth quarter 2010. The dividend was paid on February 11, 2011 to stockholders registered as of February 3, 2011.

## OTHER EVENTS

§ Ratings affirmed: On December 27, 2010, Moody's Investor Service affirmed the Bank's credit rating at Baa2/P-2; with a "Stable" Outlook.

Note: Various numbers and percentages set forth in this press release have been rounded and, accordingly, may not total exactly.

### Footnotes:

(1) Non-interest operating income (loss) refers to net other income (expense) excluding reversals (provisions) for credit losses and recoveries (impairment) on assets. By business segment, non-interest operating income includes: Commercial Division: Net fees and commissions and Net related other income (expense). Treasury Division: net gain (loss) on sale of securities available-for-sale, impact of derivative hedging instruments, gain (loss) on foreign currency exchange, and gain (loss) on trading securities. Asset Management Unit: Gain from Investment Fund trading and related other income (expense).

(2) Net Operating Revenues refers to net interest income plus non-interest operating income.

(3) Net Operating Income (Loss) refers to net interest income plus non-interest operating income, minus operating expenses.

(4) Lending spreads are calculated as loan portfolio weighted average lending spread, net of weighted average Libor-based cost rate.

(5) Net Income per Share calculations are based on the average number of shares outstanding during each period.

(6) Operating ROE: Annualized net operating income divided by average stockholders' equity.

(7) Efficiency ratio refers to consolidated operating expenses as a percentage of net operating revenues.

(8) Liquidity ratio refers to liquid assets as a percentage of total assets. Liquid assets consist of investment-grade 'A' securities, and cash and due from banks, excluding pledged regulatory deposits.

(9) Tier 1 Capital is calculated according to Basel I capital adequacy guidelines, and is equivalent to stockholders' equity excluding the OCI effect of the available for sale portfolio. Tier 1 Capital ratio is calculated as a percentage of risk weighted assets. Risk-weighted assets are, in turn, also calculated based on Basel I capital adequacy guidelines.

(10) Total Capital refers to Tier 1 Capital plus Tier 2 Capital, based on Basel I capital adequacy guidelines. Total Capital ratio refers to Total Capital as a percentage of risk weighted assets.

(11) Leverage corresponds to assets divided by stockholders' equity.

(12) Treasury Division's net operating income includes: (i) interest income from interest bearing deposits with banks, investment securities and trading assets, net of allocated cost of funds; (ii) other income (expense) from derivative

financial instrument and hedging; (iii) net gain (loss) from trading securities; (iv) net gain (loss) on sale of securities available for sale; (v) gain (loss) on foreign currency exchange; and (vi) allocated operating expenses.

## SAFE HARBOR STATEMENT

This press release contains forward-looking statements of expected future developments. The Bank wishes to ensure that such statements are accompanied by meaningful cautionary statements pursuant to the safe harbor established by the Private Securities Litigation Reform Act of 1995. The forward-looking statements in this press release refer to the growth of the credit portfolio, including the trade portfolio, the increase in the number of the Bank's corporate clients, the positive trend of lending spreads, the increase in activities engaged in by the Bank that are derived from the Bank's client base, anticipated operating income and return on equity in future periods, including income derived from the Treasury Division and Asset Management Unit, the improvement in the financial and performance strength of the Bank and the progress the Bank is making. These forward-looking statements reflect the expectations of the Bank's management and are based on currently available data; however, actual experience with respect to these factors is subject to future events and uncertainties, which could materially impact the Bank's expectations. Among the factors that can cause actual performance and results to differ materially are as follows: the anticipated growth of the Bank's credit portfolio; the continuation of the Bank's preferred creditor status; the impact of increasing/decreasing interest rates and of the macroeconomic environment in the Region on the Bank's financial condition; the execution of the Bank's strategies and initiatives, including its revenue diversification strategy; the adequacy of the Bank's allowance for credit losses; the need for additional provisions for credit losses; the Bank's ability to achieve future growth, to reduce its liquidity levels and increase its leverage; the Bank's ability to maintain its investment-grade credit ratings; the availability and mix of future sources of funding for the Bank's lending operations; potential trading losses; the possibility of fraud; and the adequacy of the Bank's sources of liquidity to replace deposit withdrawals.

The bank has aligned its operations into three major business segments, based on the nature of clients, products and on credit risk standards.

Interest expenses are allocated based on average credits.

(1) Interest income on interest-earning assets, net of allocated cost of funds.

(2) Non-interest operating income consists of net other income (expense), excluding reversals of provisions for credit losses and impairment on assets.

(3) Operating expenses are calculated based on average credits.

(4) Net operating income refers to net income excluding reversals of provisions for credit losses and impairment on assets.

(5) Includes loans, net of unearned income and deferred loan fees.

(6) Includes cash and due from banks, interest-bearing deposits with banks, securities available for sale, securities held to maturity, and trading assets.

(7) Includes investment fund.
