**XTL Biopharmaceuticals Announces
Strategic Collaboration Framework Agreement with
Clalit Health Services – Clalit Research Institute Ltd.
and Mor Research Applications Ltd.**

Below is an English translation (from Hebrew) of an immediate report by XTL Biopharmaceuticals Ltd. as published on the Tel-Aviv Securities Stock Exchange Ltd.

Today, March 14, 2012, XTL Biopharmaceuticals, Ltd. (the “Company”) announced that it entered into a strategic collaboration framework agreement with Clalit Health Services – Clalit Research Institute Ltd. (the “Institute”) and Mor Research Applications Ltd., the technology transfer office of Clalit Health Services (“Mor”). Pursuant to the agreement, the Institute will provide the Company the right to receive content based on data which originates from a database of the Institute in connection with technologies that stem from inventions and patents of Clalit Health Services’ physicians. The contents of the specific projects (“Project” or “Projects”) shall be agreed upon by the Company, the Institute and Mor in advance in writing.

The Company, in consideration for the above, shall pay the Institute the cost of its activity in the collaboration framework of any Project plus an additional 10% of the total royalties Mor is entitled pursuant to its agreements with the Company in connection with each technology where rights were granted to the Company.

The agreement may be terminated by a one hundred and eighty (180) day written notice by each of the parties, subject to having completed all mutual active Projects.

According to the Company, access to data through this agreement will enable the Company to evaluate safety and efficacy data of technologies in development as well as technologies where development has not yet commenced.

As of the date of this report, the Company has the rights to two technologies that were in-licensed from Mor: rHuEPO for the treatment of multiple myeloma blood cancer, and SAM-101 for the treatment of psychotic patients. The Company is preparing for the implementation of its rHuEPO phase 2 clinical trial for the treatment of multiple myeloma cancer patients. In addition, the Company has the exclusive rights for SAM-101, which is based on the combination of existing anti-psychotics together with a known medicinal compound for the treatment of anti-psychotic patients with a focus on schizophrenia, and has successfully completed a phase 2a in Israel.

Respectfully,

XTL Biopharmaceuticals Ltd.
